#### Installation

1. To install the NetMotion client for Mac, open the App store.

 Search for NetMotion in the App Store and click the "Get Software" or "Open" button. The software will install on its own.

### Connecting

3. Click on the Finder icon in your dock.

Under the Applications folder (selected in the left menu), double click the Mobility icon.

5. When the NetMotion window appears in the top right of your screen, click the "Create a configuration profile" link.

6. In the Configurations window, **click the plus sign (+)** at the bottom left.

- 7. When the "Add VPN Configuration" box pops down, add the following information:
  - a. Description: TRAVIS
  - b. Server: **198.214.211.22**
  - c. Click Create
