MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Civil Courts is to fairly administer justice by fostering the improvement of the civil judicial system and ensuring the delivery of quality court services for the citizens of Travis County.

The Department has identified the following strategic goals:

- Continue to study and embrace the management of Civil Court dockets to ensure effective resource balancing and to facilitate the resolution of disputes;
- Expand access to the justice system;
- Continue to explore new, innovative approaches to increasing system efficiency;
- Preserve and enhance a culture of teamwork and support by promoting collegiality and speaking as one body;
- Increase and enhance each judicial officer's knowledge of substantive laws in all areas within the jurisdiction; and
- Provide the necessary facilities, space and equipment to meet the needs of court employees and the general public.

These strategic goals align with the new County goal, "Be a trusted and well-run county."

The Department is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes" and are now linked to the County Goal, "Be a trusted and well-run county."

CIVIL COURTS:

The goals of the Civil Courts have been identified as the following:

- To continue to explore new, innovative approaches to increasing system efficiency;
- To expand access to the justice system; and
- To continue to study and embrace the management of dockets to ensure effective resource balancing and to facilitate the resolution of disputes.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Clearance Rate (Disposition/Filings)	95%	84%	109%	100%	100%
Number of Cases Disposed	18,886	18,435	19,184	18,551	18,551
Number of Cases Filed	20,189	21,948	17,532	18,551	18,551
Number of Settings and Announcements	66,307	61,137	64,838	64,982	66,454
Percentage of Cases Disposed Over 18 Months Old	20%	20%	36%	20%	20%

The Texas Office of Court Administration (OCA) and the National Center for State Courts use, “Clearance Rate (Disposition/Filings),” and the, “Percentage of Cases Disposed over 18 Months Old,” as benchmarks for civil cases. The Civil Courts use both benchmarks as outcome performance measures. Clearance Rates are calculated as the number of cases disposed of divided by the number of cases filed in a fiscal year, and these bodies typically use 100 percent as the standard because it means that the courts are processing cases as quickly as they come in. Notably, in recent fiscal years, the clearance rate has been below 100 percent due to the backlog of cases due to COVID-19. The Department states, “Post-COVID stabilization appears to be happening across the board, especially with CPS courts in which appointments have plateaued and complexity (i.e., costs per case) appears increasing. The Civil Courts also see that case filings have leveled and may increase. Most interestingly, the Child Protective Services (CPS) caseload has been reduced, but the severity of those cases that reach the CPS Courts are significantly higher.”

"Percentage of Cases over 18 Months Old" remaining at or below 20 percent is generally recognized as the goal. COVID-19 impacted this performance measure in FY 2024, as noted above, as the Department looks to focus on Child Protective Services (CPS) cases due to the statutory deadlines for these critical and time-sensitive cases. For this reason and due to the slowing down of court proceedings due to COVID-19, the Civil Courts have more cases over 18 months old. The Department intends to return to the standard of only 20 percent or fewer cases over 18 months old as in-person and remote operations continue.

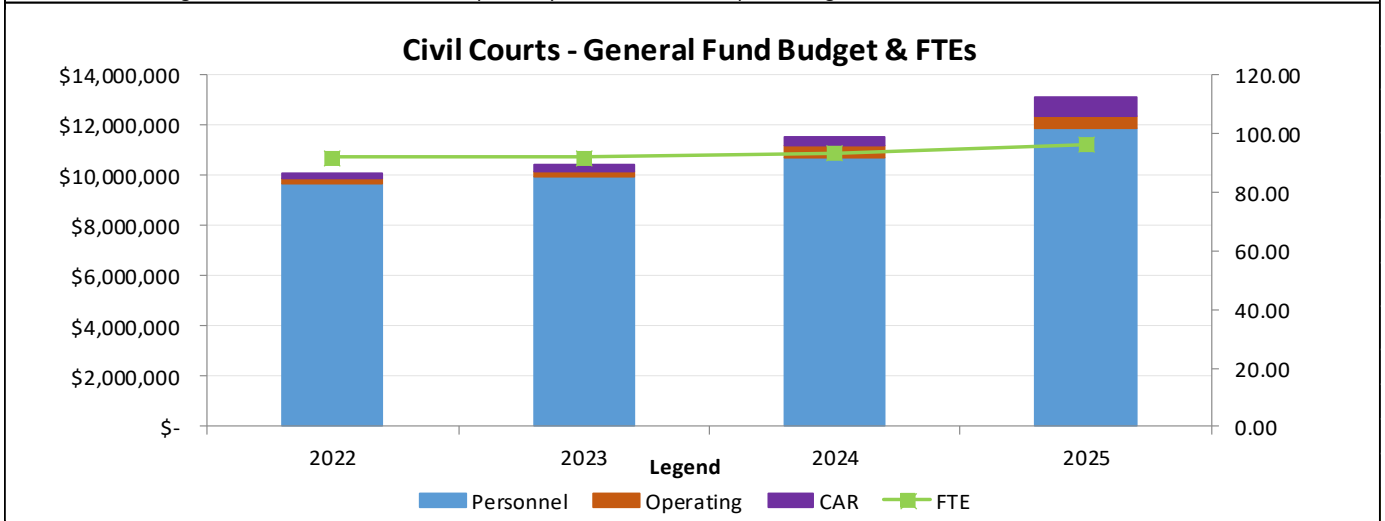

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Remote Court Proceedings	\$151,945	2.0/1.0 (SPWs)	The Department states, "The two Special Project Worker positions provide technological support to judges, court staff, attorneys, parties and witnesses in any type of remote hearing held via Zoom that occur daily in the Civil and Family Courts. The original performance measure was for the Civil Courts to be able to hold four remote jury trials a month during the COVID-19 pandemic. In 2023, the Texas Rules of Civil Procedure, as promulgated by the Texas Supreme Court, changed and it became a requirement that any remote court proceeding (whether a bench trial or a jury trial) must have full agreement by all parties. As a result, it is very difficult to have remote jury trials with jurors participating remotely. On the other hand, the Civil and Family Courts hear remote hearings in Civil, Family and CPS cases daily that requires technical support from the Customer Support Technician positions. Whether it is 100% remote hearings (as in all attorneys, participants, and witnesses appear remotely) or if it is an in-person hearing with some witnesses/parties appearing remotely, most of the cases are now presented exclusively utilizing the technology in the courtrooms for presentation purposes before the judge."
Systems Engineer, Sr.	\$116,631	1.0/1.0	The Department states, "This role was filled on January 16, 2024, and the position has been successful. The individual in the role has several certifications including QSYS. Having this position firmly in place has been critical to help the residents of the CFCF weather the water event that flooded multiple floors and required relocating and reconfiguring and redeploying hundreds of technology devices. The performance measures are being met. The skills and supervision components are in place (and continuing)."

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	9,706,454	9,984,045	10,746,414	11,853,753	1,107,339
Operating	206,315	206,315	480,185	501,934	21,749
Total (Per&Op)	\$ 9,912,769	\$ 10,190,360	\$ 11,226,599	\$ 12,355,687	\$ 1,129,088
CAR*	190,716	255,306	311,070	771,089	460,019
Grand Total	\$ 10,103,485	\$ 10,445,666	\$ 11,537,669	\$ 13,126,776	\$ 1,589,107
FTEs	92.00	92.00	93.50	96.50	3.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the Civil Courts increased by \$1,589,107 from the FY 2024 Adopted Budget, a 13.8 percent increase. Most of the increase was in the personnel budget due to FY 2024 compensation originally budgeted in the compensation reserve. There was also an increase in the capital budget.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the Civil Courts includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$270,400 was removed from the budget related to one-time operating costs for year one of five to implement the Azure migration of moving the Indigent Defense Application and Attorney Management Portal IDA/AMP to the Azure cloud.

The FY 2025 Preliminary Budget for the Civil Courts includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources were added for an equity adjustment of Attorneys to Civil Briefing Attorneys to better reflect the work done by these positions.	\$-	\$282,006	\$282,006	-
Year 2 of 5 to implement the Azure migration of moving the Indigent Defense Application and Attorney Management Portal IDA/AMP to the Azure cloud.	270,400	-	270,400	-
Total Programmatic Recommendations	\$270,400	\$282,006	\$552,406	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for the Civil Courts includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Travel and Training Restoration	\$-	\$16,075	\$16,075	0.0
Resources were added to support the Family Matter Hearings Pilot in the Civil and Family Court Facility	-	456,922	456,922	3.0
Total Administrative and Other Funding Changes	\$-	\$472,997	\$472,997	3.0

Included in the FY 2025 Preliminary Budget is a 50 percent restoration of travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County’s budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$16,075 in ongoing operating resources for the Civil Courts. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

The Civil District Judges have internally funded a pilot from resources within Juvenile Probation’s Budget to support additional family matter hearings at the Civil and Family Court Facility and believe the reductions to Juvenile Probation will not impact their operations. PBO recommends this change, and the pilot will be revisited as a part of the FY 2026 Budget Process. These changes include a reduction of \$543,622 and 5.0 FTEs in Juvenile Probation, increases of \$456,922 and 3.0 FTEs in the Civil Courts and an increase of \$86,700 and 1.0 FTE in the District Clerk. This results in a net budget change of \$0 and -1.0 FTE. The table below outlines the recommended changes included in the FY 2025 Preliminary Budget.

<i>Family Matter Hearings Pilot Related Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Juvenile Probation				
Transfer Assoc. Judge Position (30003960)	\$-	(\$204,716)	(\$204,716)	(1.0)
Delimit Juvenile Detention Officer Assistant (30004272)	-	(71,162)	(71,162)	(1.0)
Delimit Juvenile Detention Officer III (30004273)	-	(83,286)	(83,286)	(1.0)
Delimit Juvenile Probation Officer III (30004125)	-	(97,758)	(97,758)	(1.0)
Delimit Court Clerk II Sr. (30003969)	-	(86,700)	(86,700)	(1.0)
Subtotal Juvenile Probation	\$-	(\$543,622)	(\$543,622)	(5.0)
Civil Courts				
Transfer Assoc. Judge Position (30003960)	\$-	\$204,716	\$204,716	1.0
Judicial Aide – Executive Assistant (new)	-	\$83,681	\$83,681	1.0
Court Reporter (new)	-	\$162,853	\$162,853	1.0
Operating Equipment and Supplies	-	\$5,672	\$5,672	-
Subtotal Juvenile Probation	\$-	\$456,922	\$456,922	3.0
District Clerk				
Court Clerk II (new)	\$-	\$86,700	\$86,700	1.0
Subtotal District Clerk	\$-	\$86,700	\$86,700	1.0
Total Family Matter Hearings Pilot Related Changes	\$-	\$-	\$-	(1.0)

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the Civil Courts includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$-	\$324,980	\$324,980
Resources for health insurance cost increases for FY 2025.	-	49,105	49,105
Total Compensation Changes	\$-	\$374,085	\$374,085

Compensation adjustments for FY 2024 were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. The Preliminary Budget Volume I document contains a complete description of all compensation adjustments.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

In FY 2024, the Department requested to combine two 0.5 FTE Court Reporters into one 1.0 FTE Court Reporter midyear. To account for the full-time position’s health insurance eligibility, the Department proposed to transfer \$13,479 from its Regular Salaries line to the Health Insurance line to internally fund this amount and ensure adequate resources are in the right place for their budget for this expense.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$771,089 for the Department. There was a reduction of \$311,070 to remove one-time prior year financing capital-funded projects and computer equipment related to a 1.0 System Engineer, Sr. FTE, and a 1.0 Master Court Interpreter FTE added in the FY 2024 Adopted Budget. This is a net \$460,019 increase compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Maintenance of Current Efforts (MOCE) related to technology and software needs in the Civil Courts	\$379,690
CFCF Technology Needs	391,399
Total Capital Funding Recommendations	\$771,089

ADDITIONAL INFORMATION

VACANT POSITIONS

The Department currently has one total vacancy, a 1.0 Planner Sr. FTE position that has been vacant for less than 120 days. The Department is currently interviewing for the position and anticipates that it will be filled soon.

FUTURE CONSIDERATIONS

The Civil Courts moved into the Civil and Family Courthouse Facility (CFCF) at the beginning of 2023, which allowed for, “additional interventions that might drive numbers relating to settings (e.g., set and heard), resets, and other environmental aspects in which the system operates.” The Department notes they are experiencing a “natural aging” of court cases from the COVID-19 pandemic. The Department has implemented new tools such as aggressive Dismissal for Want of Prosecution (DWOP) dockets prioritizing cases with lost context.

The Civil Courts state they are working, “to enhance the CPS docket and are currently working on automating the settings process, the docket case balancing, and the collection of demographic requirements.” The Department notes that once these technologies are fully implemented, data dashboards will be developed to further assist with identifying other areas for improvement and automation of other court proceedings. The Civil Courts also want to implement further technology enhancements for exhibit sharing and remote hearing automation. The Civil Courts anticipate annual capital requests related to the maintenance of current efforts regarding technology. Estimates for the requests are approximately \$350,000 annually through FY 2030.

DEPT. SUMMARY OF REQUEST

Allowing the Civil Staff Attorneys (with a new job title of Briefing Attorneys) to be paid the same salary will allow the Civil Judges to attract, hire, and retain highly qualified briefing attorneys to keep pace with the growing complexity of the civil caseload in Travis County. There is a precedent for this in the courts in Travis County since the salaries of the associate judges (civil, juvenile, probate) and the criminal magistrate are the same in Travis County. Additionally, the wages of the Official Court Reporters in these same courts in Travis County are also the same.

Staff Turnover	0%	23.0%	30.7%	38.0%	7.6%	7.6%

PBO RECOMMENDATION

In March 2017, the Civil Courts adopted a career ladder for staff attorneys. This career ladder employed five categories of staff attorneys: Attorney I - Attorney V. The Department notes, "Over time, as the complexity of legal cases increased, the need to hire more knowledgeable and experienced attorneys became the norm for the Civil Judges." As noted above, the Department envisions the reclassification of Attorneys in the Civil Courts to the job title of "Briefing Attorney" could not only assist with the ability to hire more experienced attorneys who, "can work independently," and, "enable judges to work more efficiently and manage a larger caseload," but also hope to, "attract, hire and retain highly qualified Briefing Attorneys to keep pace with the growing complexity of the civil caseload in Travis County." The Department also envisions these attorneys being paid the same salary, which would further, "assist in attracting the caliber of attorneys needed by the Civil Judges."

PBO understands the current challenges presented by the pay structure in place. For this reason, PBO recommends ongoing resources to increase the salaries of the 13 Attorneys in the Civil Courts that provide legal briefings and support to \$125,500. Please note that the Department was also able to allocate internal savings to assist with increasing the salaries of these 13 Attorneys to the requested salary of \$125,500. This salary allocation will help maintain equity with Attorneys in the Criminal Courts that provide a similar level of legal briefing and support to the Criminal Courts. In addition, Travis County is concluding a compensation study that could result in personnel or structural changes for attorneys in the civil courts and other applicable county departments. Due to this preliminary recommendation and the identified need for the Civil Courts, PBO further recommends that these 13 Attorneys do not receive any additional compensation related to the current compensation Study, Across-the-Board allocations, or any other FY 2025 compensation allocations to ensure equity between these Attorneys and Attorneys in the Criminal Courts. These attorneys would be eligible for additional compensation allocations approved by the Commissioners Court beginning in FY 2026. HRMD concurs with PBO's recommendation for salary increases for these Attorneys as well as the recommendation that these Attorneys do not receive additional FY 2025 compensation allocations.

DEPT. SUMMARY OF REQUEST

This request seeks funds to replace the Civil Courts essential technology equipment and software maintenance needed to operate the Civil Courts per the standard Courts Technology Team replacement policy and the software maintenance agreement contract. A breakdown of the requested equipment is below.

<i>Detailed Summary of Equipment</i>	<i>Cost of Equipment</i>
Laptops (14)	\$31,500
Computers (1)	\$1,200
Printers (22)	\$30,000
Tablets (5)	\$8,000
Software (12)	\$189,610
Audio/Visual Maintenance (1)	\$15,000
CFCF Device Maintenance (1)	\$36,000
aiSMARTBENCH Maintenance and Support	\$68,380
Total	\$379,690

For clarity, the software breaks down into the following items:

<i>Detailed Summary of Software</i>	<i>Cost of Software</i>
Project Planning Software	\$3,490
Service Desk Software	4,500
Alerting Media	2,500
Software Controls	1,322
Qlikview Analytics/Visualization	63,000
Virtual File Sharing	33,350
Adobe	4,660
Caseview Cloud	1,575
Asana	1,000
Zoom	16,213
Touchsource	18,000
Appspace (Two Year Term)	40,000
Total	\$189,610

Dpt Total + Earmarks	\$ 391,399	\$ 391,399	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This request seeks to fund gaps in the original technology implementation for the Civil Courts in the Civil and Family Courts Facility (CFCF). The new CFCF is one of the most technologically advanced courthouses in the country and currently utilizes over 3,000 new interconnected devices. However, during the construction process, some of the original design was value-engineered out, and after the COVID-19 pandemic, many of the original designs required modification. We have also learned some designed components do not fully meet the needs of court operations, and some of the infrastructure is overly dependent upon devices, which create risks through single points of failure. The purpose of this request is to address these gaps and complete the vision of the advanced courthouse with a safe and reliable technical infrastructure, which is crucial for the smooth functioning of the courts.

The technological needs at the CFCF are listed below in priority order:

Dedicated Zoom Room Lenovo Device / 23 Courtrooms - \$48,884

This critical proposal eliminates the Chromebooks in the courtrooms and delivers the necessary infrastructure to separate evidence displays from hearing videos. The current setup with Chromebooks is unstable and does not allow the video quality to rise above 480 pixels. During the switchover to Zoom from the original design, the Courts Technology Team was asked to find a device to manage the Zoom process quickly and chose Chromebooks. While we have improved the quality by hardwiring them, the quality still needs improvement. This is the primary complaint by the judges.

Microphone for Attorney Table #3 in Non-Jury Courtrooms - \$9,512

The current setup in non-jury courtrooms does not offer technology-reinforced speaking capability from the third table. This proposal, if approved, will make the third table usable and will significantly enhance audio clarity during court proceedings. By providing a microphone at attorney table #3 in the non-jury courtrooms, the courts can ensure that all spoken words and arguments are captured and transmitted clearly, thereby improving the overall court experience.

Input/Output Connections for Attorney Table #3 in Non-Jury Courtrooms - \$7,080

The third attorney table in non-jury courtrooms also lacks laptop inputs. This proposal seeks to facilitate the effective presentation of visual evidence during court proceedings. It recognizes the importance of visual aids such as exhibits, diagrams, and videos in legal arguments.

Ceiling Microphones in Gallery / Jury Courtrooms in 17 Rooms - \$46,655

The proposal aims to enhance audio quality during voir dire by installing hanging ceiling microphones. This proposal is crucial for ensuring voir dire is workable in each courtroom. Additionally, this can enhance the audio of attorneys, witnesses, and jurors during regular hearings.

Audio-Visual Network Fiber Redundancy - \$66,022

This proposal is intended to ensure the reliability and continuity of the courtroom's audiovisual (AV) systems, which are crucial for effective communication and presentation during legal proceedings. The loss of that single switch would eliminate service to all the courtrooms in the building.

Multipurpose Room – Zoom Conferencing Solution - \$35,904

This proposal optimally supports the conference room's needs by significantly enhancing its video conferencing capabilities. The dedicated Zoom room device and AI tracking cameras provide a complete and efficient solution for remote meetings, ensuring clear communication, convenience, and technological modernization. These upgrades align with the Civil Courts' goals of efficient, accessible, and technologically advanced communication in the conference room, ultimately improving the effectiveness of meetings and collaborations.

Flex Conference Room / Zoom Room PC and Camera Solution in 2 Rooms - \$56,844

This proposal acknowledges the need to adapt to modern technology and the increasing demand for remote court proceedings. It aims to equip the conference rooms with the necessary tools to conduct meetings and other legal activities via platforms like Zoom. Having an AI camera in the judicial conference room allows judges to attend remotely and makes the meeting experience more workable. AI Smart Cameras offer features such as automatic tracking and speaker identification. The plan is to re-use the same Smart Camera approach piloted in the 12th-floor conference rooms.

Improved Courtroom Camera Solution for 12th Floor - \$56,152

This proposal acknowledges the need to adapt to modern technology and the increasing demand for remote court proceedings. It aims to equip the courts with the necessary tools to conduct hearings, depositions, and other legal activities via platforms like Zoom. The AI Smart Cameras can offer automatic tracking, speaker identification, etc. The cameras will enhance the quality and effectiveness of remote proceedings while freeing up the Judges from having to work the cameras. This is a pilot solution. The original videoconferencing design was around proprietary Panasonic cameras without Zoom software. Zoom changed how we needed the cameras to behave, and with Zoom, new "production" duties to control the cameras, where they were pointed, focusing on who was speaking, and the back and forth of the courtroom hearings. For the Judges, this role and duty is distracting from their essential judicial responsibilities, and we are hopeful that the Artificial Intelligence component of these new cameras will allow the Judges to focus more on dispensing justice and not the production aspect of their daily court proceedings.

Courtroom Camera Relocation - \$45,670

The proposal aims to enhance the visual coverage within the courtroom by strategically relocating cameras. This is critical for capturing all aspects of court proceedings, including the judge, attorneys, and witnesses.

Courtroom Interpreter Microphones – Direct Wiring - \$18,676

This proposal seeks to improve the reliability of audio transmission during court proceedings by eliminating potential issues associated with network-dependent microphones. Wired microphones offer a more stable and consistent audio feed.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>

Courtroom Functionality is Complete	N/A	N/A	No	No	Yes	Yes
Improved Safety and Reliability	N/A	N/A	No	No	Yes	Yes

PBO RECOMMENDATION

In February 2023, the Courts Technology Team worked with the larger building team to open the new Civil Family Court Facility (CFCF). This new building has over 2,000 new technology devices, new public docket search capabilities, and new wayfinding and public information displays. Remote hearing automation using Zoom videoconferencing was also built into the courtroom AV system for easy-to-use technology for remote hearings. The Department notes that while, “the building performs very well,” there are, “smaller issues [which] get in the way of the best possible experience.” This technology is needed to address some technical gaps and identify issues with how technology was implemented and applied throughout the CFCF.

PBO recommends funding the requests in total. The equipment is critical to improving user experience and reducing the risk of technical failure. ITS has also reviewed these requests and has no concerns and concurs with the recommendation to fund these requests in total. A table summarizing the recommended amounts is below.

Summary of Recommended CFCF Technology Needs

<i>Requested Item(s)</i>	<i>Amount</i>
Dedicated Zoom Room Lenovo Devices in 23 Courtrooms	\$48,884
Microphone for Attorney Table #3 for one Non-Jury Courtroom	9,512
Input/Output Connections for Attorney Table #3 in two Non-Jury Courtrooms	7,080
Ceiling Microphones for Gallery/Jury Courtrooms in 17 Rooms	46,655
Audio-Visual Network Fiber Redundancy	66,022
Multipurpose Room – Zoom Conferencing Solution	35,904
Flex Conference Room / Zoom Room PC and Camera Solution in two Rooms	56,844
Improved Courtroom Camera Solution for the 12th Floor in two Courtrooms	56,152
Courtroom Camera Relocation	45,670
Courtroom Interpreter Microphones – Direct Wiring	18,676
Total	\$391,399

REQUEST #4: AZURE MIGRATION (YEAR 2 OF 5)

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 270,400	\$ 270,400	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The current award-winning Indigent Defense Application (IDA) and Attorney Management Portal (AMP) system manages the civil and criminal appointment system from beginning to end. The system has over 10,000 external users (primarily attorneys) and 70 internal Travis County employees in seven departments and processes over \$25 million in attorney payments yearly. The system has over 3 million lines of code and stores approximately 40 terabytes of data. The Courts Technology Team began developing this large project in 2012 and developed it in phases, starting with the financial system. We did this with two full-time Travis County developers, a database administrator, a single contracted software architect, a few supporting business analysts, and a manager. The same staff also developed and managed a dozen other applications. Those in the Indigent Defense community regard IDA/AMP as the most comprehensive and advanced ID application in the United States. The dashboards provide executives and PBOs extensive analytics about the county's indigent defense state. IDA/AMP and its dashboards won a "Best in Texas" award from Governing Magazine in 2016.

When the system started, the Courts Technology Team used the best, most current technology (e.g., MVC, SOA, Visual Studio .NET, SQL Server, etc.) However, this was ten years ago. Since that time, several of the frameworks have aged and need updating. The Telerik controls need replacing with React, and other frameworks need updating. Furthermore, it is essential to move this application to the cloud. Microsoft is slowly deprecating on-premises services, and the security and disaster recovery features of "Software as a Service" are critical components in the world we live in now.

The Azure cloud has many new services, which Microsoft updates regularly to ensure security and new Azure compatibility. This move will allow IDA/AMP to continue providing its robust services to the county.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of IDA Modules	11	11	11	11	11	11
Number of AZURE Modules	0	0	1	1	4	8
Consistent Movement to Azure	No	No	Yes	Yes	Yes	Yes

PBO RECOMMENDATION

The Civil and Criminal Courts currently use Indigent Defense Application (IDA) and Attorney Management Portal (AMP) to manage their appointment system. The software, which has been used for over ten years, needs to be updated and replaced. The Department states, “The desired outcome is [to] slowly update and move the IDA/AMP system to the Azure cloud. This would both update components of the current IDA system that need updating and begin moving the entire application.”

IDA/AMP has over 3,000,000 lines of code and stores approximately 40 terabytes of data. Due to the large size of the system, the total 11 modules of IDA/AMP must be moved in phases over approximately five years. In FY 2024, the Department began working with a contractor skilled in migrating systems such as IDA/AMP to the Azure Cloud for this multi-year, time-sensitive project. The contractor moved the earliest component of IDA/AMP, the financial invoice processing module, and will continue this work in FY 2025.

As noted above, due to this migration's size and sensitive nature, the movement of IDA/AMP modules will need to be implemented over multiple fiscal years. The Department anticipates that through the continued use of a skilled contractor, one to two modules could be moved every year. This project could expand over five years since IDA/AMP consists of 11 modules. If the Courts Technology Team can retain the contractor for the entire migration at the one-time cost of \$270,400, this project could require one-time resources totaling \$1,352,000, as noted in the table below.

IDA/AMP Migration to the Azure Cloud Timeline and Cost

<i>Year</i>	<i>Amount</i>
Year 1 (FY 2024)	\$270,400
Year 2 (FY 2025)	270,400
Year 3 (FY 2026)	270,400
Year 4 (FY 2027)	270,400
Year 5 (FY 2028)	270,400
Total	\$1,352,000

PBO recommends one-time funds totaling \$270,400 for FY 2025 so that the Courts Technology Team can continue moving IDA/AMP to the Azure Cloud. The requirements for the remaining years of the implementation will be submitted through each year’s budget process.

REQUEST #5: LFRF – CUSTOMER SUPPORT TECHNICIAN POSITIONS

<i>Program:</i>	Civil Courts (122)			
<i>Fund/Fund#:</i>	ARPA Fund (1000)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Dpt Total + Earmarks	\$ 158,041	\$ 158,041	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Courts Technology Support Team consists of two (2) special project workers (SPW) in the Customer Support Technician position. These SPW positions will expire on December 31, 2024. The Civil Courts are requesting two (2) new FTEs in the role of Customer Support Technicians to successfully keep the same level of technology operational at the new Civil and Family Courts Facility (CFCF).

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>

Realistic supportability of building	Yes	Yes	Yes	No	Yes	Yes

PBO RECOMMENDATION

The Civil Courts conduct court proceedings in-person and remotely when both parties agree, which is an efficiency identified during the COVID-19 pandemic. For FY 2025, the Civil Courts are requesting personnel resources of \$158,041 to continue two Customer Support Technician Special Project Workers (SPWs) that were initially created in FY 2021 to support remote court proceeding operations so they may continue the same level of support to the jurors during the remote jury process and to provide technical support to court participants in remote court proceedings. The Department notes that these positions have also assisted with implementing and troubleshooting various new technologies and technical services throughout the CFCF.

As reported to the Commissioners Court during the December 19, 2023, LFRF update, in November 2023, the Treasury issued an Obligation Interim Final Rule (IFR) to address LFRF recipient's questions and comments regarding the definition of "obligation" as it pertains to the Treasury's requirements that all LFRF funds be "obligated" by December 31, 2024. This IFR clarified the definition and provided related guidance regarding which personnel costs are allowable after December 31, 2024, obligation deadline and until the expenditure deadline of December 31, 2026.

These clarifications provided specific limitations on personnel expenses after the obligation deadline, allowing only those personnel directly involved in LFRF administrative work, such as reporting and compliance, single audit work, record retention and internal control requirements, property standards, environmental compliance requirements, and civil rights and nondiscrimination requirements, to be funded through LFRF resources after December 31, 2024, and through December 31, 2026. Based on these changes, PBO commenced work to develop recommendations for how to fund the 51 Special Project Worker positions that were funded through the LFRF, considering that many of them would no longer be eligible for LFRF funding after December 31, 2024, based on the November Treasury guidance. These positions, as direct service positions rather than administrative positions, were thought not to be eligible for LFRF funding based on this guidance.

On March 29, 2024, the Treasury released a new set of Frequently Asked Questions, which changes this guidance to allow recipients to consider funds obligated under LFRF rules for any personnel whose salary may be paid under an eligible use of SLFRF funds through December 31, 2026, for any position that existed and was filled by December 31, 2024. This expands the previous understanding from the November 2023 Treasury Guidelines. In addition, reporting deadlines for personnel expenses were moved from April 30, 2024, to July 2024 for administrative costs and January 2025 for all other personnel. PBO completed its analysis of this new information after the Department submitted its budget request. So PBO recommended that the Department submit all LFRF-related positions that may have been ineligible under the LFRF under the November 2023 guidance through the budget process in case they need General Fund resources.

Per Court action on July 23, 2024, these 2 Customer Support Technician SPWs will continue to be funded through the LFRF until the end of FY 2025. The Department should plan to resubmit these positions for consideration in the FY 2026 budget process.

REQUEST #6: SECURITY PHONES FOR FLOATING DEPUTIES

<i>Program:</i>	Civil Courts (122)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	7,031	-	-	-
Subtotal	\$ 7,031	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 7,031	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 7,031	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

For better communication during security incidents, the Civil and Family Courts are requesting funding in the amount of \$7,031 to cover the cellular cost for 14 cell phones for use by the floating deputies at the Civil and Family Courts Facility (CFCF).

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Deputies that require a cell phone to ensure security communication	14	14	14	14	14	14
Incidents where deputies have been unable to respond to critical events due to lack of reliable communication mechanism	10	10	11	12	0	0
Deputy security issues are effectively communicated between stakeholders	No	No	No	No	Yes	Yes

PBO RECOMMENDATION

Currently, the Civil and Family Judges are assigned 12 floating deputies from the Sheriff's Office daily to the eight court floors at CFCF. The Department notes that these deputies are trained and experienced in the Civil Courts' operations, protocols, and procedures. In emergencies, these floating deputies must be able to communicate quickly with Judges and other personnel (and vice versa) in the courtrooms. The Department envisions that emergencies can be communicated promptly

with cellular service for 14 cell phones for the floating deputies using instant messaging in the Travis County TEAMS application.

PBO recommends that the Department collaborate with the Sheriff's Office regarding this request and whether assigning cellular devices to these floating deputies would be appropriate or an alternative form of communication, such as radios, would be more suitable. For this reason, PBO does not currently recommend funding this request.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Civil Courts is to fairly administer justice by fostering the improvement of the civil judicial system and ensuring the delivery of quality court services for the citizens of Travis County.

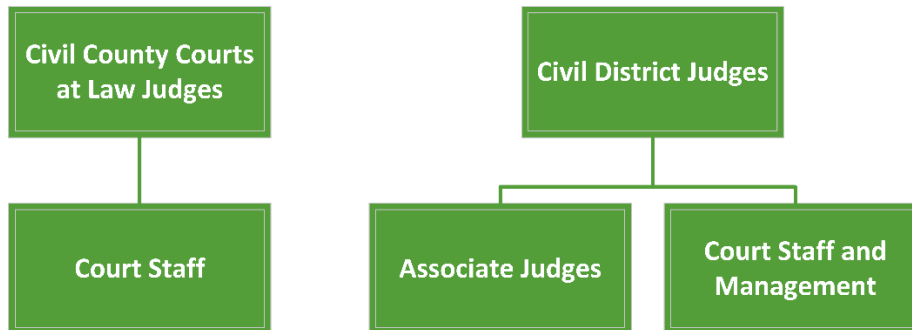

The Department has identified the following strategic goals:

- Continue to study and embrace the management of Civil Court dockets to ensure effective resource balancing and to facilitate the resolution of disputes;
- Expand access to the justice system;
- Continue to explore new, innovative approaches to increasing system efficiency;
- Preserve and enhance a culture of teamwork and support by promoting collegiality and speaking as one body;
- Increase and enhance each judicial officer's knowledge of substantive laws in all areas within the jurisdiction; and,
- Provide the necessary facilities, space, and equipment to meet the needs of court employees and the general public.

This aligns with the new County goal: “Be a trusted and well-run county.”

The Department is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides various programs and services mandated by the state and/or federal government. Most County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes,” and are now linked to the County Goal, “Be a trusted and well-run county.”

CIVIL COURTS:

The goals of the Civil Courts have been identified as the following:

- To continue to explore new, innovative approaches to increasing system efficiency;

- To expand access to the justice system; and,
- To continue to study and embrace the management of dockets to ensure adequate resource balancing and facilitate dispute resolution.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Clearance Rate (Disposition/Filings)	95%	84%	109%	100%	100%
Number of Cases Disposed	18,886	18,435	19,184	18,551	18,551
Number of Cases Filed	20,189	21,948	17,532	18,551	18,551
Number of Settings and Announcements	66,307	61,137	64,838	64,982	66,454
Percentage of Cases Disposed Over 18 Months Old	20%	20%	36%	20%	20%

The Texas Office of Court Administration (OCA) and the National Center for State Courts use “Clearance Rate (Disposition/Filings)” and the “Percentage of Cases Disposed over 18 Months Old” as benchmarks for civil cases. The Civil Courts use both benchmarks as outcome performance measures. Clearance Rates are calculated as the number of cases disposed of divided by the number of cases filed in a fiscal year, and these bodies typically use 100 percent as the standard because it means that the courts are processing cases as quickly as they come in. Of note, in recent fiscal years, the clearance rate has been below 100 percent due to the backlog of cases because of COVID-19. The Department states, “Post COVID stabilization appears to be happening across the board, especially with CPS courts in which appointments have plateaued and complexity (i.e. costs per case) appears increasing. The Civil Courts also see that case filings have leveled and potentially may increase across the board. Most interestingly, the Child Protective Services (CPS) caseload has been reduced but the severity of those cases that reach the CPS Courts are significantly higher.”

For "Percentage of Cases over 18 Months Old" remaining at or below 20 percent is generally recognized as the goal. COVID-19 has also impacted this performance measure in FY 2024, as noted above, as the Department looks to focus on Child Protective Services (CPS) cases due to the statutory deadlines for these important and time-sensitive cases. For this reason and due to the slowing down of court proceedings due to COVID-19, the Civil Courts have more cases over 18 months old. The Department intends to return to the standard of only 20 percent or fewer cases over 18 months old as in-person and remote operations continue.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	68,006	68,262	68,529	68,529	-
Operating	7,768,632	8,132,936	8,143,366	8,643,366	500,000
Total (Per&Op)	\$ 7,836,638	\$ 8,201,198	\$ 8,211,895	\$ 8,711,895	\$ 500,000
CAR*	-	-	-	-	-
Grand Total	\$ 7,836,638	\$ 8,201,198	\$ 8,211,895	\$ 8,711,895	\$ 500,000
FTEs	-	-	-	-	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the Civil Courts Legally Mandated Fees Department increased by \$500,000 from the FY 2024 Adopted Budget, a 6.1 percent increase. The increase was in the operating budget due to resources allocated for the hourly rate increase for attorney fees and indigent defense expenses.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

	Ongoing	One-Time	CAR	Total	FTEs	Earmarks

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the Civil Courts Legally Mandated Fees Department includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources related to the hourly rate increase for attorneys were added.	\$-	\$500,000	\$500,000	-
Total Programmatic Recommendations	\$-	\$500,000	\$500,000	-

COMPENSATION AND BENEFITS FUNDING

Compensation adjustments for FY 2024 were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. The Preliminary Budget Volume I document contains a complete description of all compensation adjustments.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024, which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Department’s budget and require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Civil Indigent Defense Expenses	\$500,000
Total Allocated Reserve Earmarks	\$500,000

DEPT. SUMMARY OF REQUEST

The Texas Family Code mandates that attorneys be appointed by the Court to represent the rights of indigent parties in matters of juvenile justice, termination of parental rights, and incarceration for contempt of court-ordered child support.

Due to a recent ruling by the Third Court of Appeals, the Civil and Family Courts also request a \$50,000 Earmark against the Allocated Reserve for civil indigent transcript fees.

Compliance with legal finding	N/A	N/A	N/A	Yes	Yes	Yes

PBO RECOMMENDATION

As approved by the Criminal District Judges, effective April 1, 2024, the hourly attorney rate for Felony A and B cases increased from \$100/hour to \$155/hour, the hourly attorney rate for Felony B cases increased from \$90/hour to \$125/hour and the supplemental language fee increased from \$20/hour to \$40/hour to assist with reported challenges with the number of court-appointed attorneys available to take Felony A and B case appointments or represent Spanish speaking defendants and to help attract and retain court-appointed attorneys to assist with the workload demands of the Justice System. Under the Texas Code of Criminal Procedure Article 26.05, and Texas Family Code section 107.015 and 51.10 (i), the Civil fee rate for appointed Civil attorneys is to be set by the schedule for appointed Criminal attorneys by the Criminal District Judges. This has increased the hourly rate for Tier I cases from \$100/hour to \$155/hour and for Tier II cases from \$90/hour to \$125/hour, effective April 1, 2024.

On the high end, PBO estimates that the ongoing annualized impact of the proposed fee changes could be up to \$1,000,000 above the Civil Courts Attorney Fee FY 2024 Adopted Budget. This additional \$1,000,000 was included in the FY 2025 Budget Guidelines planning parameters approved by the Commissioners Court on February 27, 2024. While PBO estimates that additional resources could be needed in FY 2025, it would also like to note that the impact of the proposed rate increases will not be fully realized until the cases assigned after the effective date of the hourly rate increase are disposed of. The following

table summarizes the Civil Attorney Fee budgets, expenditures, remaining balances, and projected costs for FY 2025 based on the proposed hourly rate increases previously mentioned.

Summary of Attorney Fee Budget for the Civil Courts, Including Projected Expenditures for the Proposed Hourly Rate Increase

<i>Fiscal Year</i>	<i>Attorney Fee Budget</i>	<i>Expenditures</i>	<i>Remaining Balance</i>
2025*	\$7,733,275	\$8,233,275	(\$500,000)
2024**	7,733,275	6,890,403	842,872
2023	7,672,845	6,012,934	1,659,911
2022	7,315,605	5,737,693	1,577,912
2021	6,910,080	6,028,825	881,255
2020	6,082,080	6,178,288	(96,208)
2019	5,296,137	5,620,269	(324,132)
2018	4,996,137	5,375,602	(379,465)
2017	4,488,125	4,799,591	(311,466)
2016	3,588,125	4,318,476	(730,351)
2015	\$2,955,464	\$3,996,372	(\$1,040,908)

*Based on the proposed hourly rate increase as noted above, effective April 1, 2024, and expenditures as of April 30, 2024.

**Projected expenditures and projected remaining balance as of April 30, 2024.

As noted above, the PBO estimates the Civil Courts will experience a shortfall of \$500,000 due to the recently implemented increases for the hourly attorney rate. For this reason, PBO recommends ongoing resources of \$500,000, so the Department has budgeted resources to address the anticipated increase in attorney fees. As with previous years, the Department has allocated savings from other budgeted lines within the Civil Courts Legally Mandated Fees Department to address any shortages of attorney fees or other indigent defense budgeted lines. PBO recommends that the Department continue to utilize departmental savings, as available, to address the anticipated increase in expenditures. PBO also recommends a \$500,000 ongoing Earmark against the Allocated Reserve if these additional resources are insufficient for attorney fee expenditures or other indigent defense expenditures, such as transcript expenses, as the Department has requested. PBO will continue to work with the Civil Courts to monitor spending and adjust this recommendation as needed.

Additional Information 6

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Civil Service Commission (CSC) is to promote a quality Office by establishing and enforcing rules and regulations that pertain to employee selection, advancement, benefits, rights and working conditions consistent with the Sheriff's Office needs.

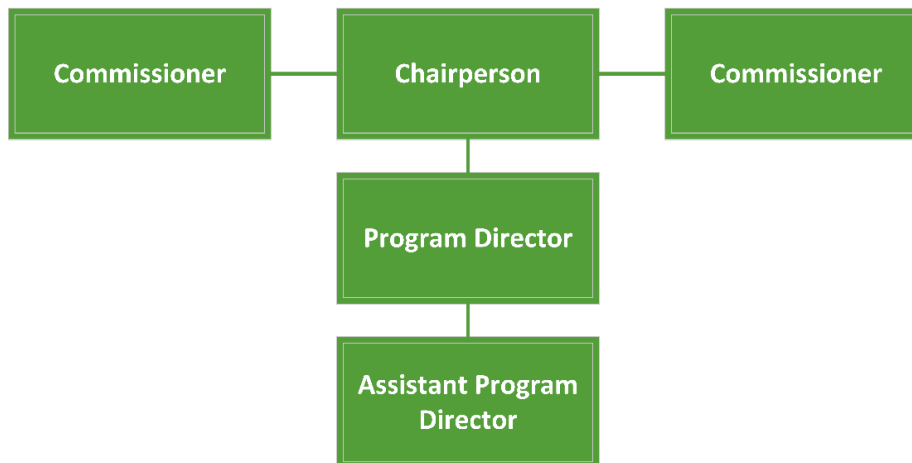

The Office has identified the following departmental goal:

- Continue to work toward expanding the ability to conduct comprehensive research to improve procedures within the CSC to meet the needs of employees and administration.

This aligns with the new County goal "Be a trusted and well-run county."

The Office is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. Most County programs and services are mandated or support mandated programs. PBO works with offices and departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following program was formerly linked to the County Goal, "Supports all other County-wide goals" and is now linked to the County Goal, "Be a trusted and well-run county."

CIVIL SERVICE COMMISSION:

This program is statutorily defined under Chapter 158 of the Local Government Code; however, the creation of a Civil Service Commission is at the discretion of the Commissioners Court. The Civil Service Commission develops, establishes, and enforces rules and regulations pertaining to the employee work environment in the Travis County Sheriff's Office, including employee selection, advancement, rights and general working conditions. In addition, the Department complies with all Open Records

Requests, which have been increasing over the last several years. Furthermore, under Section 158.011, Local Government Code, Commissioners Court is mandated to reimburse Commission members for office expenses and provide office space, funds for staff, and funds for equipment.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of advancement exams	51	61	80	84	87
# of grievances received	-	2	2	2	2
# of hearings conducted	-	1	1	1	1
# of promotional applications	133	164	172	181	188
# of promotional exams administered	86	118	124	130	135
# of promotional review boards	43	43	45	47	49
# of regular meetings	2	2	6	6	7
# open records requests answered	107	69	72	76	79
# patrol exams administered	25	70	74	77	80
# patrol review boards	19	46	48	51	53

The workload for the Civil Service Commission reflects the continued growth of applications and new hires within the Travis County Sheriff’s Office (TCSO). As compensation increases for and significant digital marketing of TCSO positions in Corrections and Law Enforcement, CSC has been rapidly increasing the number of patrol exams, review boards, and promotional exams to accommodate this aggressive hiring push by TCSO. This is expected to continue into FY 2025 and FY 2026 as TCSO continues to reduce its vacancy count for these positions.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	218,953	234,451	249,350	248,162	(1,188)
Operating	8,255	8,255	5,621	16,784	11,163
Total (Per&Op)	\$ 227,208	\$ 242,706	\$ 254,971	\$ 264,946	\$ 9,975
CAR*	-	-	-	-	-
Grand Total	\$ 227,208	\$ 242,706	\$ 254,971	\$ 264,946	\$ 9,975
FTEs	2.00	2.00	2.00	2.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Civil Service Commission increased by \$9,975 from the FY 2024 Adopted Budget. This is an 3.9% increase. The increase was in the operating budget due to staff turnover that resulted in savings which the Office placed into its Operating Budget.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

Grand Total	\$ 1,188	\$ -	\$ -	\$ 1,188	-	\$ -
FY 2025 Preliminary Budget	\$ 264,946	\$ -	\$ -	\$ 264,946	2.00	\$ -
Change from FY 2025 Target	\$ 1,188	\$ -	\$ -	\$ 1,188	-	\$ -
Change from FY 2024 Adopted	\$ 9,975	\$ -	\$ -	\$ 9,975	-	\$ -

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Civil Service Commission includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Transfer from Personnel to Operating	\$-	\$10,037	\$10,037	-
Travel & Training Cut Restoration	-	162	162	-
Total Administrative and Other Funding Changes	\$-	\$10,199	\$10,199	-

The above transfer is to increase certain expenditure lines, particularly for outside counsel expenses to align to actual experience. Due to a retirement of a long tenured employee, some personnel savings was available to re-allocate.

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$162 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the Civil Service Commission includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale ("redlined") that would otherwise not receive the Across the Board pay increase.	-	\$8,787	\$8,787
Resources for health insurance cost increases for FY 2025.	-	1,062	1,062
Total Compensation Changes	\$-	\$9,849	\$9,849

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document. The Commissioners Court has approved a 4.1 percent healthcare rate increase for FY 2025, with the contribution rate changing from \$1,079 in FY 2024 to \$1,123 for FY 2025. There is currently no rate increase planned for retirement.

ADDITIONAL INFORMATION

FUTURE CONSIDERATIONS

The Office is moving towards implementing a five-year plan. The main objective is to increase services and enable the Office to meet growing demands, including multiple new and updated technology initiatives within the Office. This effort has several initiatives tied to its implementation:

- Final adoption and implementation of its new Regulations policy;
- Developing of a comprehensive staffing plan, including administrative and analyst support;
- increased allocation of space for current and proposed new staff;
- Moving toward a more statistically based model to validate processes of the office;
- Converting all written exams to computer-based exams; and
- Implementing a notebook-based Oral Board score sheet.

Of these initiatives, the requests for administrative and analyst support (2.0 FTEs) will have significant budgetary impacts predicted within the next four years. The technology initiatives may also have a future budgetary implication, and the Office is working with other County departments to find the best technology solution.

Additionally, due to increasing demands placed on the Office because of enhanced procedures and additional workload, there may be a need to discuss additional support for the Office within the next five years. This could necessitate additional office space to accommodate any additional positions.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Community Legal Services (CLS) Department and a County Executive position to lead the new department were authorized to be created by Commissioners Court on April 18, 2023, as a part of the Justice Planning Reorganization. Once hired, the CLS County Executive will work in coordination with Commissioners Court to establish the strategic vision for the new department, including detailing a mission statement and establishing strategic goals.

The Department is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The following programs were formerly linked to the County Goal, "Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes" and are now linked to the County Goal, "Promote economic well-being and racial, ethnic and economic equity."

COMMUNITY LEGAL SERVICES - ADMIN:

The mission of the Community Legal Services Division is to comprehensively and holistically address the diverse legal needs of our community, ensuring equitable access to justice for all and leading collaborative efforts within the broader legal community.

On April 18, 2023, Commissioners Court approved the creation of a new department and County executive position related to the planned reorganization of the Justice Planning Department (155).

In its presentation to Commissioners Court, Justice Planning recounted the lead up to the proposed reorganization as follows:

Beginning in August 2022, the Court posted and held a series of open joint subcommittee meetings twice per month, during which key personnel from each division in JPS presented information on the creation, history, mission, and work of their divisions. As a

result of those meetings, it became clear that there were multiple offices (divisions) providing direct legal representation to eligible indigent residents of Travis County, in both the criminal and civil legal systems, that were organized administratively in different ways. MHPD, OCR, and OPR were organized administratively and budgetarily alongside the other divisions in criminal justice planning that do not provide direct legal representation or services, while the PDO and JPD are each separate and distinct divisions under the Justice & Public Safety Department. In addition, it became clear that six of the nine divisions organized under JPS are attorney offices, each equivalent to a small to medium sized law firm, with a combined total of 70+ attorneys, being managed administratively by a non-attorney County Executive.

The FY 2024 Adopted Budget included resources supporting the proposed reorganization of Justice Planning (155) and creation of a new County department under the Commissioners Court denoted as Community Legal Services (CLS). This new CLS Department was represented by an organizational chart presented to Court on April 18, 2023, and is to directly administer the Office of Parent Representation (OPR), Office of Child Representation (OCR) and the Law Library. In addition, CLS was directed to maintain an in-direct administrative supportive relationship to the Dispute Resolution Center (DRC), Managed Assigned Counsel Contract Management (CAPDS) and newly unified Public Defender’s Office (Department 144). The CLS County Executive will also manage the grant contracts with CAPDS and the funding agreement with the Dispute Resolution Center.

The proposed reorganization included the unification of the Public Defender’s Office and expanding the existing department to incorporate all related fund centers for the existing Adult General Defense (Department 144) divisions, Mental Health Holistic Defense division (formerly the Mental Health Public Defender housed as a fund center under Department 155, Justice Planning), and Juvenile Holistic Defense division (formerly the Juvenile Public Defender, Department 143). The now unified Public Defender’s Office under the Chief Public Defender will be organized administratively under the new County Executive for CLS alongside the OCR, the OPR, and the Law Library.

On September 19, 2023, Commissioners Court approved the necessary budget and FTE adjustments to enact the proposed reorganization. These adjustments included an increase of \$4,113,778 and 27.75 FTEs in the General Fund for CLS (141) related to the movement of administrative resources (1.0 FTE), the OPR (12.0 FTEs), the OCR (12.0 FTEs) and the Law Library (2.75 FTEs) including salaries, benefits and operating resources for the programs from Justice Planning to CLS to implement the reorganization as proposed as a part of the FY 2024 Changes After Markup.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Creation of the Department of Community Legal Services	\$320,484	1.00/0.00	The FY 2024 Adopted Budget included ongoing resources to fund the newly created County Executive position (1.0 FTE) for the Community Legal Services Department. The Department continues to recruit for this position.

OFFICE OF CHILD REPRESENTATION:

The Office of Child Representation (OCR) serves to provide quality legal services for children and youth involved in civil CPS legal cases, provide social work supportive services to clients, conduct public outreach about the Office’s work, and to help control the growth of the indigent attorney fees expenditure budget.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of cases handled per fiscal year (new and continuing)	257	201	325	325	325
Number of clients served per fiscal year (new & continuing)	338	257	500	500	500
Number of new cases accepted per fiscal year	72	62	200	200	200
Number of new clients accepted per fiscal year	104	78	250	250	250

OCR's legal services are legislatively mandated through the Texas Family Code. Texas law mandates that each child or youth who is the subject of a civil Child Protective Services (CPS) case involving alleged child abuse and neglect shall receive a court-appointed guardian ad litem and attorney ad litem, per Texas Family Code Sections 107.011 and 107.012. The court also has the option of appointing an attorney to serve in a dual role (as guardian ad litem and attorney ad litem), per Texas Family Code Section 107.0125. OCR serves clients involved in Travis County CPS cases as the attorney ad litem and, in some cases, as the attorney and guardian ad litem through a dual role appointment.

There is not a mandated service level requirement for OCR in terms of the number of cases accepted, but there are mandated duties that must be performed within each case by the guardian ad litem and attorney ad litem, including but not limited to: interview each client or caregiver for younger clients, investigate the facts of the case, review relevant records, and participate in litigation, per Texas Family Code Sections 107.002, 107.003 and 107.004

The Office notes that it was unable to conduct the Annual Community Survey in FY 2022 due to unforeseen circumstances. Additionally, the Office reports that significant changes to child welfare law during the 87th Legislative Session have affected the number of new cases being filed. As a result, OCR notes that it has received fewer new cases and clients. However, OCR states that it takes every case that is available to the Department unless there is a legal conflict. Despite the lower number of new cases filed, OCR reports an increase in the time that it takes for many cases to resolve due to the severity of a child's mental or physical well-being at the start of a case. OCR staff members marshal their legal advocacy to provide more depth of service for clients in need additional advocacy. These additional services may include coordination on collateral integral needs such as Social Security benefits for clients who are about to age out of foster care and placement challenges due to level of child's needs supporting repeated psychiatric hospitalizations. OCR has been able to help connect clients with necessary services. OCR asserts that these functions help clients have a better chance at success in adulthood.

The Office notes that it is still dealing with impacts from the COVID-19 Pandemic due the courts extending the life of many cases because of limited ability to handle trials in a usual way during the pandemic. OCR reports that the resulting backlog of cases headed to trial signifies delayed permanency for child clients.

In addition, OCR reports that the State of Texas has experienced a placement shortage rising to crisis levels. This situation is referred to as Children Without Placement, or CWOP. OCR's clients without placement have experienced a number of extremely negative outcomes including living in CPS Offices, receiving substandard care, experiencing frequent and traumatic placement changes, losing connection with family and advocates due to out-of-state placements and experiencing physical injuries while in CPS care that have required hospitalization. As a result of having children without placement in their care, CPS has required their staff members do shift coverage of the offices in order to supervise the children, often working night duty and with children with extreme needs. The Office notes that this has contributed to turnover, which affects the entire CPS system. The CWOP situation is one of several issues that is currently being monitored through a federal lawsuit against CPS. OCR reports that these placement-related crises have required rapid response by its staff on a frequent basis. OCR staff has increased crossover docket with the juvenile justice system which requires coordinating with the Travis County Juvenile

Public Defense Division of the Public Defender’s Office and increase court hearings. This has resulted in several late-night and weekend placement changes and CWOP-related crises that have required response by OCR staff, which is causing adverse effects on that child’s well-being.

OCR also reports that several partner agencies experienced significant turnover in recent years which has influenced its clients. In many cases, the agencies have hired new staff members who do not have the same level of experience as previous staff members. Therefore, errors have been more likely, and the potential for negative consequences for OCR’s clients and their legal cases have increased. OCR is often the only child advocate who remains constant through a child’s case, which provides the opportunity to vigorously advocate for a child’s services including mental health, education and medical needs. OCR staff report extended durations filing motions in court and advocating for clients because other parties are not meeting a child’s basic needs. The Office asserts that this situation has added additional work duties to every member of OCR’s staff.

Another characteristic that presents in OCR clients is the disproportional representation of children/youth of color and LGBTQIA+ children/youth in the CPS system. OCR engages in training to learn how they can best serve and advocate for their clients.

This is something that OCR continues to try and improve through trauma-informed supervision for staff members and advocacy for pay equity to recognize this team’s significant contributions to the children and families of Travis County.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
OCR Expansion	\$92,132	1.00/1.00	The FY 2024 Adopted Budget included ongoing resources related to the creation of one Social Services Manager (1.0 FTE) in the Office of Child Representation to decrease the cost of indigent defense by reducing the number of private attorney appointments that are necessary for cases filed by the Texas Department of Family and Protective Services under Texas Family Code Chapters 262 and 264 in Travis County. This position has been filled.

OFFICE OF PARENT REPRESENTATION:

The Office of Parent Representation (OPR) serves to provide quality, efficient legal representation for the indigent primary parents in child abuse and neglect cases pending in Travis County, assist in finding additional social services for OPR clients (such as housing, substance abuse treatment, and mental health providers to fill in the gaps of services), and to reduce costs related to private appointments for Travis County.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Case load per OPR attorney	28	36	25	30	40
Number of new cases assigned to OPR	153	116	150	200	200
Number of new cases assigned to private attorneys	101	145	150	150	150
Percent of cases with a Family Preservation outcome	88%	83%	88%	88%	88%

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of cases with a Parental Preservation outcome	N/A	75%	70%	70%	70%
Percent of cases with a Child Preservation outcome	N/A	65%	55%	55%	55%

This is a mandated program of the County as it is mandated to provide for indigent defense services. Additionally, all services ordered by the court are mandated through the Texas Family Code, Chapters 107, 262 and 264. Judges must appoint all parents who have been sued by DFPS under Texas Family Code Chapter 262 and Chapter 264 an attorney at the ex-parte hearing. Before the start of the initial show cause hearing, the attorney is required to meet with the client, obtain financial information from the client to determine continued qualification for a court-appointed attorney, and counsel the parent on the lawsuit filed by DFPS. OPR reports that it may investigate expanding its representation to pre-petition work to help curtail removals and lawsuits from DFPS.

OPR is in a reconstruction period after staffing changes in FY23. Since October 1, 2023, OPR hired an Attorney IV and an Attorney I to fill two vacant attorney positions. OPR has hired another Attorney IV who will start at OPR in August 2024. OPR is currently hiring for a second social worker position that was recently vacated and for the fifth staff attorney position. Both positions have active job postings. OPR will continue focusing on retention, recruitment, hiring, and training so that all positions are filled with qualified professionals committed to Travis County’s and OPR’s missions. OPR is hopeful that it will be fully staffed by the end of 2024. OPR looks forward to working with the Community Legal Services executive to serve Travis County residents.

OPR reports that the number of new cases filed in Travis County has stabilized since the legislative changes in FY 2021. However, the cases filed are intensive and require more client management hours and litigation. OPR also reports retaining the capacity to take more cases in FY 2023, but notes that the cases were not sent to the Office. Therefore, OPR expresses a desire to coordinate with the Courts to ensure that OPR receives the primary parent on every case it has capacity to accept.

Lastly, OPR notes that until it is fully staffed and case assignment protocols are formalized, average case load per attorney will be lower than pre-pandemic numbers.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
OPR Expansion	\$86,825	0.00/1.00	The FY 2024 Adopted Budget included ongoing resources related to the creation of one Social Worker (1.0 FTE) to expand efforts to represent the primary parent in every case filed by the Texas Department of Family and Protective Services under Texas Family Code Chapters 262 and 264 in Travis County. This position was filled. However, the Office reports that this employee left Travis County for another opportunity and that OPR is actively interviewing applicants to fill the position.

LAW LIBRARY:

The Travis County Law Library & Self-Help Center facilitates the resolution of litigation by providing accessible, relevant, accurate, and current legal information to all patrons. Patrons include self-represented litigants, judges, private attorneys, and county-employed legal staff who interact with the Travis County courts. Law Library services include reference services, access to reference attorneys, and technical services.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of forms, brochures, web pages created, updated, or translated into Spanish	51	155	58	27	27
Number of patrons assisted	28,192	31,566	30,944	30,944	30,944
Number of patrons assisted by driver's license reference attorneys	712	782	722	700	700
Number of patrons assisted by family law reference attorneys	4,680	5,467	5,204	1,400	1,000
Pages of forms, brochures, web pages created or updated in English	256	99	78	50	20
Percentage of reference & research requests completed on day of inquiry	99%	100%	100%	100%	100%

COVID-19 necessitated the Law Library's move to remote services during FY 2020. At that time, the Law Library implemented online reference, chat, fillable forms, remote Case Review, and email docket submission procedures that it continues to support, except for the chat service. The Law Library resumed in-person services in April 2022. The Division reports that observed elevated rates in email and phone call reference contacts have continued despite in-person activity not returning to pre-COVID levels. The Law Library also notes that walk in visits have increased after February 28, 2023, following the relocation into the Civil Family Courthouse Facility (CFCF), which has contributed to the increase in *Number of Patrons Assisted* in the second half of FY 2023 and in the first half of FY 2024. Meanwhile, the Law Library reports that a vacancy and an extended leave reduced the number of reference attorney staff hours in Family Law Case Review.

The Law Library notes that the civil district courts made necessary, safety-conscious changes to court procedures in response to the pandemic in FY 2020. One such change by the Civil District Court was to replace the pre-COVID uncontested docket process with the e-mail submission process. Prior to COVID-19, self-represented litigants (SRLs) moved their cases from filing to case review, and then to the in-person docket themselves. This process often did not often require additional assistance from Law Library staff. However, with suspension of the in-person uncontested docket and the implementation of virtual submission processes for uncontested cases, SRLs are now relying on the Law Library to move case files through the court's uncontested process. This has resulted in additional workloads for Law Library staff that it did not have with uncontested docket. The Law Library now electronically files post-petition forms; stores, reviews, and revises forms via email with the litigant; hold's TEAMS appointments; gets signatures from both parties; and then submits cases to the judge.

The Law Library reports that these additional duties are staff intensive, and the increase to workloads appears to be ongoing. The Law Library notes that the alternative to this workload burden would be to rely on SRLs to prepare their own forms and set their cases for hearing. The Division expects that this would shift the workload burden from the Law Library to the Civil Courts in the form of more hearings with unprepared self-represented litigants who have un-reviewed proposed orders.

The Law Library also notes that its programs are unique to Travis County. There are other self-help programs in the nation but no similar programs in Texas. Self-help programs in other major US counties began with family law, as Travis County's

did. Similar programs tend to expand to provide attorney help with mediation, expunction, and landlord/tenant services as well as family law. However, the Law Library does not provide direct help with mediation or landlord/tenant services. The Law Library reports that there are two movements in self-help services that the Division is watching closely. One is early resolution of contested family law cases through settlements mediated through services offered by the self-help center. The other is legal navigator programs. Multiple jurisdictions in the US use non-attorneys too as limited, neutral case managers who help self-represented litigants move their contested cases through the court process.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Law Library Fund – Temporary Support for Case Review	\$146,149	2.75/2.0 (SPWs)	The FY 2024 Adopted Budget includes the conversion of three half-time temp positions from the Law Library Fund (Positions #30059997, 30059998, and 30053128) to Special Project Workers (1.75 SPWs) and the creation of a Paralegal SPW (1.0 SPW) funded through the LFRF. The Attorney III positions are family law attorneys who support the Case Review Program in the Law Library and have been funded out of the LFRF since March 1, 2022. These positions have managed to exceed expectations and submit more cases (2,319) than predicted (2,319). The Law Library anticipates filling the one vacancy in May 2024.
Law Library Research CMS Replacement	\$48,900	N/A	The FY 2024 Adopted Budget includes a project to replace the Law Library’s multiple manual Access databases with a single case management system through use of Local Fiscal Recover Funds (LFRF). The Law Library reports that the CMS was purchased in January 2024, and system configuration is expected to be completed throughout the summer of FY 2024.
<i>FY 2023</i>			
Midyear Transfer to Law Library Fund	(FY 2023) \$362,120 (FY 2024) \$214,544	N/A	The Law Library Fund is funded through civil filing fees. Prior to March 2020, the fund was sustainable and had reserves. Expenditures have exceeded revenue since this time and the Law Library Fund cannot support new initiatives. The Law Library Fund is stressed from the four years of suppressed revenue, decreased reserves, and increased personnel costs. Most of the expenditures in the Law Library Fund are personnel related. In recent fiscal years, Justice Planning’s budget included resources for transfers into the Law Library Fund to stabilize operations in the face of suppressed revenues. Current estimates project that an additional transfer will be required in FY 2025 to maintain the fund’s fund balance. Any subsequent transfers would be allocated in CLS’ budget.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	-	-	3,623,946	4,131,032	507,086
Operating	-	-	489,832	1,659,725	1,169,893
Total (Per&Op)	\$ -	\$ -	\$ 4,113,778	\$ 5,790,757	\$ 1,676,979
CAR*	-	-	-	5,610	5,610
Grand Total	\$ -	\$ -	\$ 4,113,778	\$ 5,796,367	\$ 1,682,589
FTEs	-	-	27.75	30.75	3.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Community Legal Services increased by \$1,682,589 from the FY 2024 Adopted Budget. This is a 40.9% increase. The majority of the increase was in the operating budget due to one-time funding related to the continuation of the APD & DPS DNA Forensic Review projects.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Community Legal Services includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$214,544 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for Community Legal Services includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
APD Forensic Review Project	\$935,298	\$-	\$935,298	-
DPS Forensic Review Project	295,886	-	295,886	-

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Creation of an Office Manager Sr position (1.0 FTE) to provide administrative support for the newly formed Community Legal Services Department	4,000	122,495	126,495	1.00
Additional operating funding related to contractual operating costs increases in the Law Library to maintain access to required legal databases, required law books and legal research materials	-	14,560	14,560	-
Additional operating resources for annual operating expenses related to the maintenance of the Legal Server Case Management System under implementation in the Law Library	-	10,633	10,633	-
Additional operating resources related to Adobe licenses to ensure that all staff positions in the Law Library maintain access to necessary software tools to carry out daily operations	-	1,260	1,260	-
Total Programmatic Recommendations	\$1,235,184	\$148,948	\$1,384,132	1.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Community Legal Services includes the following changes related to Administrative and Other Funding Changes:

- \$110,958 was added to the budget related to the reorganization of Justice Planning (155, now known as the Department of Innovative Justice & Program Analysis).

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Additional resources related to the creation of a Business Analyst II (1.0 FTE) mid-year FY 2024, effective May 21, 2024, to provide administrative support in the CLS Admin Division and assist with ongoing CAFA summer test shifts, and the creation of a Financial Analyst Sr (1.0 FTE) mid-year FY 2024 to provide additional administrative support for the newly formed CLS Department	\$-	\$253,031	\$253,031	2.00
Additional operating resources related to a recurring one-time transfer to the Law Library Fund based on projected special fund revenues shortfalls	104,011	-	\$104,011	-
Additional operating resources related to the annual ongoing transfer to the DRC formerly budgeted in Justice Planning (155) and relocated to CLS (141) as a part of the FY 2024 Justice Planning Reorg	-	93,812	93,812	-
Travel and Training Cut Restoration	-	11,043	11,043	-
One-time reduction of the ongoing transfer to the DRC based on updated revenue estimates for FY 2025	-	(93,812)	(93,812)	-
Total Administrative and Other Funding Changes	\$104,011	\$264,074	\$368,085	2.00

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes 11,043 in ongoing operating resources for Community Legal Services. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Community Legal Services includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase. The total \$124,840 amount was initially dispersed across multiple departments and divisions that were later reorganized into CLS following the reorganization of Innovative Justice & Program Analysis (IJPA, formerly known as Justice Planning) approved during FY 2024. Therefore, the total compensation changes amounts are reflected both in the Compensation & Benefits Funding and Administrative & Other sections under Target Budget Changes in the above FY 2025 Budget Recommendations Summary table.	\$-	\$124,840	\$124,840
Resources for health insurance cost increases for FY 2025.	-	14,466	14,466
Total Compensation Changes	\$-	\$139,306	\$139,306

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

The FY 2025 Preliminary Budget for Community Legal Services includes various internal reallocations within the Department’s FY 2025 Budget Submission to better align projected FY 2025 expenditures.

ADDITIONAL INFORMATION

VACANT POSITIONS

The Department currently has six total vacancies, out of which the following four positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Attorney VI	30005	1.00	344	Position currently posted, gathering applications

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Attorney VI	30005	1.00	205	Position currently posted, gathering applications
County Executive CLgS	30066	1.00	204	Hiring Process in Progress
Social Worker	30005	1.00	203	Reclassified to Paralegal Sr. on 4/16/2024

FUTURE CONSIDERATIONS

The Community Legal Services (CLS) Department and a County Executive position to lead the new department were authorized to be created by Commissioners Court on April 18, 2023, as a part of the Justice Planning Reorganization. Once hired, CLS County Executive will work in coordination with Commissioners Court to establish the strategic vision for the new department, including detailing a mission statement and establishing strategic goals.

Additionally, on April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney’s Office, the Public Defender’s Office (PDO), the District Clerk’s Office, and the Sheriff’s Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

PBO notes that it will be important to ensure that CAFA is conducted as efficiently as possible to prevent duplication of duties. PBO would like to explore the possibility of one Office solely handling prosecution and one Office solely handling defense during CAFA. This could reduce the number of staff needed for prosecution and defense during CAFA. PBO wishes to explore questions like this with the impacted Offices and Departments before recommending any allocation of funding towards CAFA.

Given the importance and cost of this initiative, PBO needs additional time to finalize a wholistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop a finalized recommendation for this initiative. It is very likely that either an Earmark will be included in the FY 2025 Preliminary Budget, or PBO will help facilitate conversations between the Offices and Departments and Commissioners Court prior to the FY 2025 Adopted Budget regarding resources needed for FY 2025.

While CLS is not currently an active participant in the FY 2024 CAFA test shifts, it is possible that CLS may be included as a stakeholder in the anticipated wider implementation of CAFA.

DEPT. SUMMARY OF REQUEST

Community Legal Services (CLS) is requesting ongoing resources for the creation of a Business Analyst position (1.0 FTE) and Financial Analyst Sr (1.0 FTE) in the Admin Division related to an ongoing Earmark Against the Allocated Reserve and one-time Earmark Against the CAR Reserve originally included in the FY 2024 Adopted Budget for the creation of the new CLS Department 141. This would increase CLS's FTE count by 2.0 FTE.

The Community Legal Services (CLS) Department and a County Executive position to lead the new department were authorized to be created by Commissioners Court on April 18, 2023, as a part of the Justice Planning Reorganization. At that time, IJPA, then Justice Planning (155), recounted the lead up to this reorganization with the following:

“Beginning in August 2022, the Court posted and held a series of open joint subcommittee meetings twice per month, during which key personnel from each division in JPS presented information on the creation, history, mission, and work of their divisions. As a result of those meetings, it became clear that there were multiple offices (divisions) providing direct legal representation to eligible indigent residents of Travis County, in both the criminal and civil legal systems, that were organized administratively in different ways. MHPD, OCR, and OPR were organized administratively and budgetarily alongside the other divisions in criminal justice planning that do not provide direct legal representation or services, while the PDO and JPD are each separate and distinct divisions under the Justice & Public Safety Department. In addition, it became clear that six of the nine divisions organized under JPS are attorney offices, each equivalent to a small to medium sized law firm, with a combined total of 70+ attorneys, being managed administratively by a non-attorney County Executive.”

The restructuring created a new County Executive position and a new Travis County department, comprised of the five offices that provide direct legal representation to eligible residents, and the Law Library that provides legal services to all residents. The three offices that provide holistic criminal defense – Public Defender’s Office (PDO), Juvenile Public Defender’s Office (JPD), and Mental Health Public Defender’s Office (MHPD), became one unified public defender’s office under the Chief Public Defender (144), and will be organized administratively under a new (attorney) County Executive (141), alongside the OCR, the OPR, and the Law Library. The new (attorney) County Executive will also manage the grant contracts with CAPDS and the funding agreement with the Dispute Resolution Center.

This request was originally funded during the FY 2024 Budget Process to ensure that this new, incoming County Executive would have access to administrative support personnel in a general Admin Division within CLS once recruited. These positions are also intended to provide assistance to all programs and fund centers under CLS (141).

BUDGET REQUEST PERFORMANCE MEASURES

Community Legal Services did not include performance measures along with this request.

PBO RECOMMENDATION

PBO recommends \$253,031, including \$247,867 in ongoing personnel and \$5,164 in ongoing operating resources related to a Business Analyst II position (1.0 FTE) and Financial Analyst Sr position (1.0 FTE) in the CLS Admin Division created mid-year FY 2024 with an effective date of May 21, 2024 and June 18, 2024 respectively, be included in the FY 2025 Preliminary Budget to support the new Community Legal Services Department. This will increase CLS' FTE count by 2.0 FTEs.

The FY 2024 Adopted Budget included a \$233,766 ongoing Earmark on the Allocated Reserve for ongoing salary, benefits, and operating expenses and a one-time \$7,140 Earmark on the CAR Reserve for computer and phone equipment related to two support positions, a Financial Analyst Sr. (1.0 FTE) and a Business Analyst I (1.0 FTE), to support the new Community Legal Services Department. These positions were intended to be created once a suitable candidate was recruited to fill the vacant Community Legal Services County Executive position, and to provide the incoming County Executive the initial flexibility to organize the new department and Admin Divisions as necessary to fulfill CLS' scope of work and fully support the programs housed within the newly formed Department.

On May 21, 2024, Commissioners Court approved a request from Community Legal Services for a transfer of \$44,275 from the Earmark against the Allocated Reserve and \$3,570 from the Earmark against the Capital Acquisition Resources Reserve to fund the creation of a Business Analyst II Position (1.0 FTE) with an effective date of May 21, 2024, to provide internal IT support for the new department that will initially support multiple divisions within CLS which are transitioning to a new case management system and to assist with the Counsel at First Appearance test shifts during the summer. This request was approved ahead of the hiring of a permanent CLS County Executive to ensure timely support would be available to assist the ongoing CAFA test shifts occurring from April through September 2024.

In its memo to Commissioners Court regarding the transfer approved on May 21, 2024, PBO noted the following:

If approved, PBO will add the estimated annualized cost for the position of \$121,523 to CLS' FY 2025 Preliminary Budget. Should the Department recruit and hire a well-qualified candidate at a salary below this recommended \$86,039.16 amount, PBO will make a corresponding adjustment to CLS' budget for FY 2025 to reduce ongoing personnel resources in line with the actual salary amount.

PBO notes that the ongoing amount recommended to be included in the FY 2025 Preliminary Budget related to the creation of the Business Analyst II position (1.0 FTE) mid-year FY 2024 is \$2,582 greater (\$124,104) than the \$121,523 estimated annualized amount for FY 2025 included in PBO's May 21, 2024 memo to Commissioners Court. This \$2,582 differential is for associated operating expenses related to the new Business Analyst II position as originally considered during the FY 2024 Budget Process when the original \$233,766 ongoing Earmark on the Allocated Reserve amount was estimated by PBO in consultation with IJPA, then Justice Planning (155).

On June 18, 2024, Commissioners Court approved a request from Community Legal Services for a transfer of \$36,850 from the Earmark against the Allocated Reserve and \$3,570 from the Earmark against the Capital Acquisition Resources Reserve to fund the creation of a Financial Analyst Sr Position (1.0 FTE) with an effective date of June 18, 2024, to provide financial support for the new department.

In its memo to Commissioners Court regarding the transfer approved on June 18, 2024, PBO noted the following:

“If approved, PBO will recommend the FY 2025 annualized cost for the position of \$126,344 to CLS’ FY 2025 Preliminary Budget. Should the Department recruit and hire a well-qualified candidate at a salary below this recommended \$89,882 salary amount, PBO will make a corresponding adjustment to CLS’ budget for FY 2025 to reduce ongoing personnel resources in line with the actual salary amount. Additionally, PBO will release the remainder of the FY 2024 Earmarks related to these positions.”

PBO notes that the ongoing amount recommended to be included in the FY 2025 Preliminary Budget related to the creation of the Financial Analyst Sr position (1.0 FTE) mid-year FY 2024 is \$2,582 greater (\$128,926) than the \$126,344 estimated annualized amount for FY 2025 included in PBO’s June 18, 2024 memo to Commissioners Court. This \$2,582 differential is for associated operating expenses related to the new Financial Analyst Sr position as originally considered during the FY 2024 Budget Process when the original \$233,766 ongoing Earmark on the Allocated Reserve amount was estimated by PBO in consultation with IJPA, then Justice Planning (155).

Therefore, PBO is recommending a total of \$253,031, including \$247,867 in ongoing personnel and \$5,164 in ongoing operating resources be included in the FY 2025 Preliminary Budget for these two positions created mid-year in FY 2024 to support the new Community Legal Services Department now that the vacant County Executive position for CLS has been filled.

REQUEST #02: OFFICE MANAGER (1.0 FTE) ADMIN DIVISION

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 83,681	\$ 132,105	\$ 122,495	\$ 122,495

DEPT. SUMMARY OF REQUEST

Community Legal Services (CLS) is requesting additional resources related to the creation of an Office Manager position (1.0 FTE) in the Admin Division to provide adequate administrative support for the multiple program areas in the newly formed department. This would increase CLS' FTE count by 1.0 FTE.

Community Legal Services is a new department and reports a need for an Office Manager position to assist with administrative support and operational functions, including: budgeting, purchasing needs, human resources support, payroll, records management, IT needs, and other general office functions. The Department notes that the Office Manager is intended to support five program areas that provide direct legal representation to eligible residents, and the Law Library that provides legal services to all residents.

BUDGET REQUEST PERFORMANCE MEASURES

Community Legal Services did not include performance measures along with this request.

PBO RECOMMENDATION

PBO recommends \$132,105, including \$119,913 in ongoing personnel, \$4,000 in one-time operating, \$2,582 in ongoing operating and \$5,610 in one-time centrally budgeted resources for computer, phone, and printer equipment related to the creation of an Office Manager Sr position (1.0 FTE) to provide administrative support for the newly formed Community Legal Services (CLS) Department.

The FY 2024 Adopted Budget included a \$233,766 ongoing Earmark on the Allocated Reserve for ongoing salary, benefits, and operating expenses and a one-time \$7,140 Earmark on the CAR Reserve for computer and phone equipment related to two support positions, a Financial Analyst Sr. (1.0 FTE) and a Business Analyst I (1.0 FTE), to support the new Community Legal Services Department. These positions were intended to be created once a suitable candidate was recruited to fill the vacant Community Legal Services County Executive position, and to provide the incoming County Executive the initial flexibility to organize the new department and Admin Divisions as necessary to fulfill CLS' scope of work and fully support the programs housed within the newly formed Department.

On May 21, 2024, Commissioners Court approved a request from Community Legal Services for a transfer of \$44,275 from the Earmark against the Allocated Reserve and \$3,570 from the Earmark against the Capital Acquisition Resources Reserve to fund the creation of the earmarked Business Analyst II Position (1.0 FTE) with an effective date of May 21, 2024, to provide internal IT support for the new department that will initially support multiple divisions within CLS which are transitioning to a new case management system and to assist with the Counsel at First Appearance test shifts during the summer. This request was approved ahead of the hiring of a permanent CLS County Executive to ensure timely support would be available to assist the ongoing CAFA test shifts occurring from April through September 2024.

On June 3, 2024, the CLS County Executive position was filled and began the onboarding process. Then, on June 18, 2024, Commissioners Court approved a request from Community Legal Services for a transfer of \$36,850 from the Earmark against the Allocated Reserve and \$3,570 from the Earmark against the Capital Acquisition Resources Reserve to fund the creation of the earmarked Financial Analyst Sr Position (1.0 FTE) with an effective date of June 18, 2024, to provide financial support for the new department.

PBO anticipates that needs for additional personnel in the Admin Division will continue to develop for the newly formed Department now that the vacant CLS County Executive position has been filled and the Admin Division begins to support the other programs and divisions within Department 141 in earnest. PBO concurs that CLS will require the support of a dedicated Office Manager to supplement the lone Office Specialist position budgeted within the fund center for the Office of Child Representation, as this is the only existing position with a comparable job title across the four divisions directly budgeted under Department 141 (CLS).

However, PBO is recommending that the requested Office Manager position (paygrade: C10) be budgeted as an Office Manager Sr (paygrade: C13) at a level above the minimum for the paygrade to maintain internal equity with the same position within the Department of Innovative Justice & Program Analysis (IIPA – 155). Additionally, budgeting the position above the minimum of the higher paygrade is intended to provide CLS the flexibility to recruit a well-qualified candidate with a sufficient level of experience relative to the position's proposed scope of responsibilities to support the new CLS Department and the multiple programs it will support. Since the department is new, there are insufficient salary savings for the Department to fund above the minimum salary of the position without additional funds from the Allocated Reserve. Should the Department recruit and hire a well-qualified candidate at a salary below the recommended salary amount, PBO will make a corresponding adjustment to CLS' budget for FY 2025 to reduce ongoing personnel resources in line with the actual salary amount.

REQUEST #03: FAMILY LAW CASE REVIEW (LAW LIBRARY) – LFRF SPWS (2.75 SPWS)

<i>Program:</i>	Law Library (141)			
<i>Fund/Fund#:</i>	ARPA Fund (1000)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	225,038	-	-	-
Operating	705	-	-	-
Subtotal	\$ 225,743	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 225,743	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 225,743	LFRF Funds Recommended	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Community Legal Services is requesting ongoing resources for the remaining FY 2025 annualized cost of three Attorney III positions (1.75 SPWs) and a Paralegal position (1.0 SPW) currently approved for funding through LFRF Track 3 resources until December 31, 2024, to maintain Family Law Case Review capacity in the Law Library. These positions support unrepresented litigant access to the Civil District Courts and have served to address case backlogs in the Law Library brought on by the COVID-19 Pandemic. This would increase CLS' FTE count by 2.75 FTEs.

The Law Library notes that these positions directly assist unrepresented litigants to complete their divorce without children and name change cases. The three part-time reference Attorney III positions (1.75 SPW) and Paralegal position (1.0 SPW) meet with and then review, correct, and submit orders and decrees to the Civil District Courts using the electronic submission process. The Law Library estimates that, if funded through the remainder of the fiscal year as requested, these Case Review positions would review and submit 1,600 divorce without children and name change cases in FY 2025.

On December 19, 2023, these positions were approved for funding through LFRF Track 3 resources. The LFRF funding that was initially anticipated to fund these positions through December 31, 2026, is currently expected to end December 31, 2024 (details provided in the recommendation section below). The Law Library asserts that ending these positions on December 31, 2024, would seriously affect services supporting unrepresented county residents and exacerbate workloads for the Civil District Courts. If full annualized funding for these positions is not recommended, the Law Library reports that it will only be able to submit divorces without children and adult name change cases until December 31, after which the remaining Case Review staff (2.75 FTEs) will need to limit services to cases involving children due to the reduced personnel capacity.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>

Law Library Number of Name Change Cases Prepared for Court	661	770	642	150	600	600

PBO RECOMMENDATION

PBO recommends continued use of LFRF funding to fund this request through FY 2025. Per Court action on July 23, 2024, these positions will continue to be funded through the LFRF until the end of FY 2025 as previously approved. Therefore, PBO recommends that these four SPW positions (2.75 SPWs) continue to be funded with LFRF funds through FY 2025 and recommends that CLS plan to resubmit these positions for consideration in the FY 2026 Budget Process.

On December 19, 2023, PBO presented an update on LFRF Track 3 Projects to Commissioners Court. The following project recommendation was included in the backup provided with that agenda item and approved by Commissioners Court:

1. Community Legal Services – Law Library Family Law Case Review Expansion Special Project Workers (SPWs)

PBO recommends \$319,862 for the continuation of the Law Library Family Case Review. This funding will allow the continuation of additional support for the Law Library’s family law case review services for Self-Represented Litigants that has been funded with the LFRF since March 1, 2022. Previously this additional staff consisted of three half-time temporary reference attorneys. Based on current needs of the program, PBO recommended changing two half-time temporary reference attorneys to half-time Special Project Workers and the remaining temporary reference attorney to a three quarter-time Special Project Worker from December 19, 2023 to December 31, 2024. In addition, the Law Library expressed a need for a full time Paralegal Special Project Worker for this same period that is supported by PBO...

...These positions have been helping address an ongoing backlog in cases at the Law Library needing review. As of budget submission, the Law Library had a backlog of 383 open cases needing to be resolved and submitted on behalf of Self-Represented Litigants (SRLs). Should the case backlogs persist, or should the Department continue to demonstrate a need for these positions beyond FY 2025, PBO will work with the Law Library to re-submit this request during the FY 2025 Budget Process to address this project outside of the LFRF since these expenses will no longer be eligible for LFRF funding beyond December 31, 2024...

F.) Update on latest U.S. Department of Treasury Interim Final Rule for State and Local Fiscal Recovery Funds

In November 2023, the Treasury issued an Obligation Interim Final Rule (IFR) to address LFRF recipients questions and comments regarding the definition of “obligation” as it pertains to the Treasury’s requirements that all LFRF funds be “obligated” by December 31, 2024. This IFR provided clarification on the definition and provided related guidance specifically regarding which

personnel costs are allowable after the December 31, 2024, obligation deadline and until the expenditure deadline of December 31, 2026.

These new classifications provide specific limitations on personnel expenses after the obligation deadline, allowing only those personnel directly involved in LFRF administrative work, such as reporting and compliance, single audit work, record retention and internal control requirements, property standards, environmental compliance requirements, and civil rights and nondiscrimination requirements, to be funded through LFRF resources after the December 31, 2024 obligation deadline. PBO is working with Guidehouse to provide comment on this new Interim Final Rule and will work with the consultant and relevant Departments and Offices that may be impacted by this clarification to determine which SPWs are eligible for extension until 2026 and which may need alternative funding sources. The Treasury has provided a deadline of April 30, 2024, to report on specific eligible personnel costs that will be funded through 2026, and PBO will bring forward an update on LFRF Special Project Worker funding to the Court before that date.

As reported to Commissioners Court during the December 19, 2023 LFRF update, in November 2023, the Treasury issued an Obligation Interim Final Rule (IFR) to address LFRF recipients questions and comments regarding the definition of “obligation” as it pertains to the Treasury’s requirements that all LFRF funds be “obligated” by December 31, 2024. This IFR provided clarification on the definition and provided related guidance specifically regarding which personnel costs are allowable after the December 31, 2024, obligation deadline and until the expenditure deadline of December 31, 2026.

These clarifications provided specific limitations on personnel expenses after the obligation deadline, allowing only those personnel directly involved in LFRF administrative work, such as reporting and compliance, single audit work, record retention and internal control requirements, property standards, environmental compliance requirements, and civil rights and nondiscrimination requirements, to be funded through LFRF resources after December 31, 2024 and through December 31, 2026. Based on these changes, PBO commenced work to develop recommendations for how to fund the 51 Special Project Worker positions that were funded through the LFRF, considering that many of them would no longer be eligible for LFRF funding after December 31, 2024 based on the November Treasury guidance. These positions, as direct service positions rather than administrative position, were thought not to be eligible for LFRF funding based on this guidance.

On March 29, 2024, the Treasury released a new set of Frequently Asked Questions which changes this guidance to allow recipients to consider funds obligated under LFRF rules for any personnel whose salary may be paid under an eligible use of SLFRF funds through December 31, 2026, for any position that existed and was filled by December 31, 2024. This is an expansion of the previous understanding from the November 2023 Treasury Guidelines. In addition, reporting deadlines for personnel expenses were moved from April 30, 2024 to July 2024 for administrative expenses and January 2025 for all other personnel. PBO did not complete its analysis of this new information before the Department submitted its budget request, and so PBO recommended that the Department submit all LFRF-related positions that may have been ineligible under the LFRF under the November 2023 guidance through the budget process, in case they would need General Fund resources.

These four Law Library Special Project Worker positions were originally funded through the LFRF on March 1, 2022 (December 19, 2023, for the Paralegal), and were recommended through December 31, 2024, within the FY 2024 Preliminary Budget, prior the Treasury’s November IFR update. PBO believes that based on the current Treasury guidelines and based on the action already taken by Commissioners Court on December 19, 2023 that these positions would be eligible for continued use of LFRF funding until grant close out.

The Law Library notes that its Case Review Program supports the electronic submission process by opening it up to self-represented litigants. When unrepresented cases go through Case Review, a family law attorney reviews and prepares decrees and orders for the judges’ signatures. The reference attorneys summarize the case on a one-page form referred to as “the golden ticket.” Then the reference attorney submits the case electronically directly to the court. The Courts report that this process significantly reduces the amount of time required to process these cases. For example, in a letter of support for this request submitted by a District Court Judge on behalf of the Law Library, the Judge noted that these Law Library

support services reduce the amount of time spent on each case from 15 minutes to 5 minutes per case on average for divorce without children cases. At its current rate as of budget submission, the Case Review team expects to submit 996 total divorce without children cases through December 31, 2024. Based on the Judge's letter of support, this would represent an estimated time savings of 9,960 judge-minutes or 20.8 judge-days for just divorce without children cases.

Family Law Case Review case types can be divided between cases involving children and cases without children. Cases involving children include divorce, paternity, establishment of child support and visitation, and modification of child support and visitation. Cases without children include divorces without children and adult name changes. The Law Library notes that the continued personnel capacity supplied by these LFRF funded SPWs have expanded service levels to support all these case types. Without these positions, the Law Library anticipates that it will be required to reduce services and that priority will be given to the cases involving children and family violence. The Law Library notes that cases that do not receive Care Review support often create added frustration and inefficiency as SRLs struggle through courthouse processes without proper guidance and judges spend excess time on unreviewed cases, leading to fewer family law cases closed by the Courts.

PBO concurs that these three Attorney III and one Paralegal SPW positions (2.75 SPW) are currently providing significant value to the County by streamlining the growing workload for Civil District Court processes and expanding access to justice for low and middle-income litigants, as highlighted in the 419th District Court's letter of support included with this request. Should LFRF funding be determined to be ineligible to extend these positions through at least December 31, 2026, PBO will reconsider identifying General Fund resources to maintain these positions which are currently serving to expand access to the Travis County Court system for residents in need and conserving costly Court process hours with reasonable and efficient supportive services, but cautions that ongoing resources in the FY 2025 Preliminary Budget are anticipated to be very scarce for requests such as this.

REQUEST #04: JUDICIAL RESEARCH MATERIALS CONTRACTED INCREASES

<i>Program:</i>	Law Library (141)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 14,560	\$ 14,560	\$ 14,560	\$ 14,560

DEPT. SUMMARY OF REQUEST

Community Legal Services (CLS) is requesting additional ongoing operating funding to cover annual contractual increases for legal research materials for the Civil, Criminal and Justice of the Peace Courts, as well as legal database access for certain departments.

The Law Library is estimating contracted cost increases driving the need for additional resources in FY 2025 based on three assumptions:

- A 5% annual increase in the Law Library’s legal books contract;
- A 3% annual increase in the Law Library’s online database contract; and
- A projected 15% increase for a second online database contract which expires on September 1, 2024, that the Law Library seeks to renew.

The Law Library works closely with the courts to ensure the judges have access to the legal materials required in the format needed (print or electronic). One contract also covers database access for attorneys and legal assistants in Community Legal Services, the Public Defender’s Office, the District Attorney’s Office, and the Appellate Division of the County Attorney’s Office. By combining the database needs of the courts and multiple departments, the Law Library notes that it is better able to secure volume pricing in the legal database contracts.

The Law Library works with the courts to identify needed material. Civil court, criminal court, justice court, and Law Library database subscriptions are combined on one multi-year contract to take advantages of volume pricing. The Law Library contracts for, budgets, orders, pays the invoices, and manages IDs. In addition, the Law Library coordinates training so that legal staff can learn how to fully utilize the content and tools available to them.

BUDGET REQUEST PERFORMANCE MEASURES

Community Legal Services did not include performance measures along with this request.

PBO RECOMMENDATION

PBO recommends \$14,560 in additional ongoing operating resources to ensure that the Law Library maintains access to required legal databases and continues to purchase required law books and legal research materials be included in the Community Legal Services FY 2025 Preliminary Budget.

REQUEST #05: CMS ANNUAL OPERATING EXPENSES

<i>Program:</i>	Law Library (141)

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,633	\$ 10,633	\$ 10,633	\$ 10,633

DEPT. SUMMARY OF REQUEST

CLS is requesting additional ongoing resources to cover annual operating expenses related to the maintenance of the Legal Server case management system (CMS) in the Law Library.

The Law Library notes that it has collaborated with the ITS review team throughout the purchase of the CMS in January 2024 and that configuration is underway with an anticipated go-live date of June 2024. The annual subscription maintenance expenses should be due January 2025. The Law Library asserts that the data and statistics provided by Legal Server will improve collaboration with the Civil District Courts and the District Clerk’s Office, as well as improve the Law Library’s ability to track the flow of clients’ self-represented cases through the courts.

BUDGET REQUEST PERFORMANCE MEASURES

Community Legal Services did not include performance measures along with this request.

PBO RECOMMENDATION

PBO recommends \$10,633 in additional ongoing resources for annual operating expenses related to the maintenance of the Legal Server Case Management System under implementation in the Law Library be included in the FY 2025 Preliminary Budget.

On December 19, 2023, PBO presented an update on LFRF Track 3 Projects to Commissioners Court. The following project recommendation was included in the backup provided with that agenda item and approved by Commissioners Court:

2. Community Legal Services – Law Library Case Management System (CMS) Replacement

PBO recommends \$48,900 for the replacement of the Law Library Case Management System (CMS). The new system will allow a single sign-in and integration of Legal Server in the Law Library and is estimated to cost \$48,900, which includes \$38,267 in one-time implementation costs and \$10,633 in operating costs related to hosting and support fees. This change would move the Law Library to the Legal Services CMS that is currently utilized by multiple Travis County departments and the Law Library anticipates that integrating this system into its operations will not only

improve efficiency, but also promote data interconnectivity between the Law Library and other justice-facing departments in the County over time. PBO will work with the Law Library to identify the necessary ongoing funding after the LFRF funds are no longer eligible to fund the \$10,633 annual operating expense.

It is PBO's current understanding that FY 2025 ongoing service and maintenance costs related to the Law Library CMS Replacement Project are not eligible for additional funding through the LFRF after December 31, 2024. The initial expenses for these ongoing costs are expected to be billed in January 2025. Therefore, PBO recommends ongoing operating resources from the general fund to maintain the Law Library's access to, and support for, the newly implemented Legal Server CMS.

REQUEST #06: ANNUAL SOFTWARE LICENSE EXPENSE (ADOBE)

<i>Program:</i>	Law Library (141)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

DEPT. SUMMARY OF REQUEST

Community Legal Services (CLS) is requesting additional ongoing operating funding to purchase annual subscription licenses for software that is used regularly by all Law Library staff.

The Law Library notes that Adobe will no longer support the one-time purchased stand-alone licenses that the Law Library has used for years and is moving to an annual subscription model. Law Library staff use Acrobat Pro tools to help self-represented litigants prepare legal forms, to edit forms, and to create fillable forms. Fillable forms help self-represented litigants to complete forms with fewer errors. Staff use the edit PDF tool to make corrections without having to re-send documents to self-represented litigants multiple times. Occasionally, there is need to redact sensitive information on PDFs.

BUDGET REQUEST PERFORMANCE MEASURES

Community Legal Services did not include performance measures along with this request.

PBO RECOMMENDATION

PBO recommends \$1,260 in additional ongoing operating resources be included in the FY 2025 Preliminary Budget to ensure all staff positions in the Law Library maintain access to necessary software tools to carry out daily operations.

PBO estimates the total ongoing costs for Adobe Acrobat Licenses at an updated subscription rate of \$105 per subscription to be \$1,260 for all 12 positions in the Law Library.

DEPT. SUMMARY OF REQUEST

APD Forensic Review Project - \$935,298

Community Legal Services (CLS) is requesting one-time operating resources related to the anticipated final stage of the ongoing APD Forensic Review Project. An audit by the Texas Forensic Science Commission (TFSC) identified serious issues in the Austin Police Department (APD) DNA Lab, which resulted in the DNA lab’s closure and raised substantial concerns about the integrity of the results of the DNA analysis involved in the prosecution of criminal cases in Travis County. This review led to two convictions being reversed with the charges being dismissed and hundreds more being reviewed. As the review continues through completion, other convictions may be reversed.

The project has initiated the second stage of the process, which requires intensive case work. CAPDS must undertake a case-specific review of any changed DNA result found during the scientific review and, where necessary, pursue litigation. Preparation for post-conviction litigation (particularly the initial court filing) can be an arduous process, requiring a significant amount of attorney time, investigation, consultation with experts, and other resources. Due to legal requirements, cases in which a writ application is filed must be assessed for all potential legal claims (often related to but not limited to unreliable DNA), and all potentially meritorious claims must be investigated. Post-conviction litigation requires specially trained attorneys, increased investigation, travel, and expert retention. Investigation and preparation of legal claims in the post-conviction process can be particularly cumbersome due to the scope of the investigation necessarily explained by United States Supreme Court precedent and guidelines from professional associations. The time and resources spent by attorneys on post-conviction cases often hinges on the accessibility of documents, records, and other materials in the possession of government agencies, including those in the possession of the prosecuting authority and police agency. Moreover, significant travel may be required for each case, as many of the clients are now incarcerated outside of Travis County and, years after the crime occurred, witnesses live in other areas. Finally, the assistance of experts is normally warranted.

As of the date of this proposal, CLS reports that CAPDS has filed two amended writs, both of which have resulted in relief for the client. These victories make the CAPDS program in Travis County the most successful DNA review project in Texas. CAPDS

anticipates two (2) additional amended applications will be filed during the current fiscal year, assuming the Travis County District Attorney's Office (DAO) provides discovery that has been requested. CAPDS has also identified approximately 12 cases that may warrant scientific review and can be sent to scientific review after additional discovery requests pending with the DA's Office are fulfilled and the DA agrees to a Memorandum of Understanding with respect to use of a joint DNA expert. CAPDS anticipates that as cases continue to move through the materiality review and scientific review process, several additional post-conviction cases will be initiated.

CAPDS notes that the project encountered significant roadblocks during FY 2020 and FY 2021 that continued to affect the project in FY 2022, FY 2023, and FY 2024. These setbacks center on delays in promised delivery of discovery materials for materiality review. CAPDS remains determined to obtain this necessary discovery and is taking every available avenue to procure it and advance this project. Lastly, the significant disagreement with the prior DAO administration endangered the use of a shared expert, as the project was designed for, when the DAO used reports generated by this project in an unrelated death penalty case. This has resulted in the need to determine that cases absolutely should proceed to the scientific review stage and for a memorandum of understanding with the DAO in order to prevent such a circumstance from recurring.

This project is a multiyear review of DNA cases handled by the APD DNA Lab. FY 2017 & FY 2018 contracts saw the creation of the project and the undertaking of materiality reviews. CAPDS – Forensic Project was not funded to provide for the “active litigation” phase of the legal review during these fiscal years. In FY 2019, cases returned from scientific review and writ investigations were undertaken as well as the first writs filed. In FY 2020, CAPDS hired new staff and replaced existing staff with attorneys experienced in the particular skills needed to create the most effective and efficient process. An internal audit and process redesign has led to an optimized program review, litigating, and closing cases. In FY 2020 & FY 2021, CAPDS began resolving writs filed in FY 2019, further prepared cases for writ litigation. FY 2022 & FY 2023 saw successful writ investigation and litigation as well as additional progress on materiality reviews. CAPDS is prepared to complete and resolve materiality reviews in FY 2024, and as expeditiously as possible, as materials are disclosed. Further work is required in FY 2025 to undertake litigation for cases completing material and with changed science based on scientific review.

DPS Forensic Review Project - \$295,886

Community Legal Services (CLS) is requesting one-time operating resources related to the anticipated final stage of the ongoing DPS Forensic Review Project. The Texas Forensic Science Commission (“TFSC”) identified serious issues in the interpretation of forensic DNA samples involving mixtures from the Department of Public Safety (“DPS”) Crime Lab. Such issues raise serious concerns about the integrity of the results of DNA analysis that were used on the prosecution of criminal cases in Travis County. Travis County received a grant to begin materiality reviews and to handle post-conviction litigation in FY 2017. Such reviews are close to completion and the writ investigations and preparation of writ petitions is well underway.

In FY 2024, CAPDS expects to complete its materiality review of cases for the project and begin case-specific review of any changed DNA result found during the reinterpretation process. And, where necessary, CAPDS attorneys will prepare and litigate writs on issues found.

The first writs were filed in FY 2019 and additional post-conviction litigation will follow as legal materiality reviews are completed and scientific reviews and post-conviction investigations are ongoing. With the current level of requests for service and current funding levels it is expected that the legal review will continue into FY 2025. CLS reports that action by the DAO in beginning to timely meet requests for case documentation could reduce the ultimate length of the project.

As of the date of this proposal, CAPDS has initiated writ litigation on behalf of two clients. Multiple requests for reinterpretation have been made to DPS, and cases for which reinterpretation reports have been generated are being investigated for potential post-conviction litigation. CAPDS anticipates that as cases continue to move through the materiality review and scientific review process, that additional post-conviction cases will be pursued.

The DPS project has several serious felonies, which require significant time and resources for both the materiality reviews and preparation for post-conviction litigation. Of the cases that are currently open with the project, several are capital murder cases, murder cases, aggravated sexual assault cases, and aggravated sexual assault of child cases. The two cases currently being investigated for writ litigation are capital murder cases.

The DPS review project is approximately one-third of the size of the APD review project and until recently was only staffed by two part-time attorneys whose cumulative weekly time did not equal one full-time staff attorney. As of late FY 2024, CAPDS reports that the project is now staffed by one full-time and two part-time attorneys, noting that the full-time attorney and one of the part-time attorneys have substantial post-conviction experience.

BUDGET REQUEST PERFORMANCE MEASURES

Community Legal Services did not include performance measures along with this request.

PBO RECOMMENDATION

APD Forensic Review Project - \$935,298

PBO recommends one-time funding of \$935,298 to continue the contract with CAPDS for materiality review of the DNA cases be included in the FY 2025 Preliminary Budget. These cases are moving into a different phase from reviewing cases to writ litigation, meaning some cases have been identified as needing court action. CAPDS is optimistic that these cases will continue to make significant progress in FY 2025 after reporting significant roadblocks during FY 2020, FY 2021, and FY 2022. According to the Department, during this time “CAPDS attorneys were unable to finalize materiality reviews, ready cases for scientific review, and close cases.” Additionally, “the coronavirus pandemic halted in-field investigation necessary to move forward with writ cases and prevented CAPDS attorneys from in-person visits with clients due to TCDJ’s closure of prisons for a year.”

DPS Forensic Review Project - \$295,886

PBO recommends one-time funding of \$295,886 to continue the review of cases in the DPS Forensic Review project be included in the FY 2025 Preliminary Budget. This funding will be reviewed annually over the next one to two years, as there is hope that all cases will have been reviewed and final determinations will be made in the court system. CAPDS is optimistic that cooperation with the District Attorney’s Office will allow for continued significant progress on these cases in FY 2024.

Additionally, PBO notes that it would be beneficial for Community Legal Services to provide an update to Commissioners Court to keep the Court briefed on long term planning and overall financial commitments related to these forensic review projects.

 Request #1: 3% Compensation for CSCD Employees 9

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

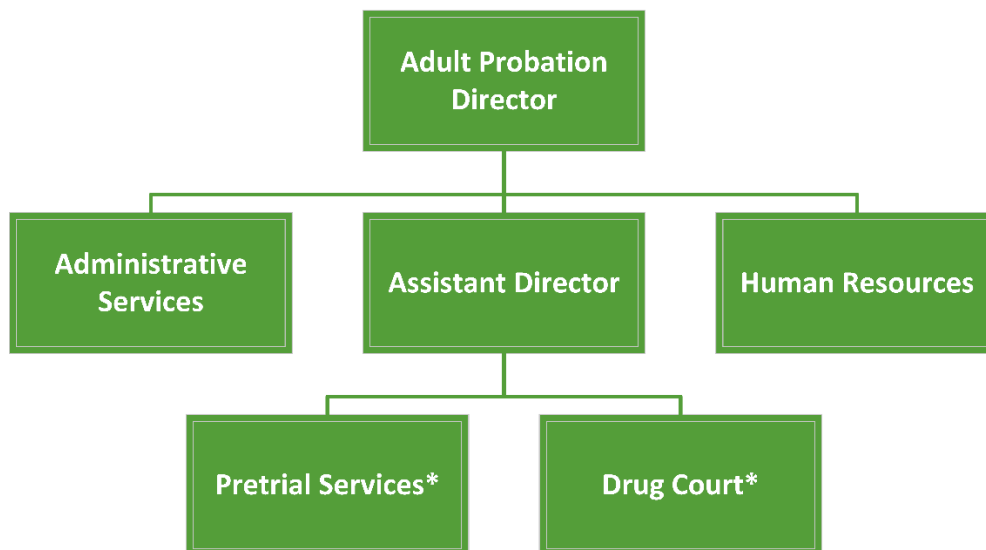

The Community Supervision and Corrections Department (CSCD) uses innovative practices to improve lives and maximize community safety.

The Department has identified the following strategic goals that align with the new County Goal “Provide services that support the safety of people in the community”:

- Maintain revocation rates and technical violations by improving program success rates;
- Improve accountability measures for supervision, fiscal and data management procedures;
- Protect the community and reducing victimization through the balanced use of supervision and therapeutic interventions driven by validated assessments; and
- Strengthen internal substance abuse treatment services.

The Department is budgeted in the Corrections and Rehabilitation Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

ADULT PROBATION CSCD:

The Adult Probation CSCD program provides community supervision services to adult clients placed on deferred adjudication or community supervision by misdemeanor and felony courts in Travis County or to defendants from other counties that move into Travis County.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Average number of direct cases	6,613	6,475	6,676	6,567	6,641
Average Caseloads: Non-specialized	113	139	128	147	123
Restitution disbursements	976,878	860,617	866,498	749,502	633,763
Statewide Felony technical violations rate	44.6%	44.6%	45.0%	44.7%	46.0%

The purpose of this supervision is to monitor client’s compliance with court stipulated conditions, broker access to services, and promote desistance from crime. CSCD offers several evidence-based programs and services to address underlying issues that led to involvement with the criminal justice system. As substance abuse continues to be a prevalent criminogenic need area for Travis County’s probation population, CSCD offers various substance abuse treatment options that span the continuum of treatment. The Department provides cognitive interventions to promote positive behavioral change and organizes caseloads to efficiently serve probationers specific to their offense category. CSCD utilizes a progressive sanctions model which includes numerous intermediate interventions, such as supervisory hearings and administrative hearings, to reduce the need for court intervention. CSCD relies on a mix of incentives such as time credits, community service restitution hour credits, and reductions in the intensity of supervision to promote positive behavior change.

The Adult Probation CSCD program is mandated by Texas Government Code Sec. 76.002 which establishes a Community Supervision and Corrections Department in each judicial district. The Texas Department of Criminal Justice – Community Justice Assistance Division administers community supervision or adult probation in Texas by tracking the performance, monitoring, and reviewing the budgets and programs, distributing State funding, and enforcing standards for Community Supervision and Correction Departments (CSCDs). The financial responsibilities of counties are outlined in Texas Government Code Sec. 76.008, namely providing facilities, equipment, and utilities for CSCDs that serve the county.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
3.0% Compensation for Non-County Employees	\$328,285	0.00/0.00	In FY 2024, Commissioners Court approved \$328,285 for a one-time three percent add-pay compensation allocation to CSCD Employees out of the Department’s CSCD Supervision General Fund budget. The first of these payments was initiated on October 31, 2023, and the last three percent compensation payment is scheduled to be reflected on the October 15, 2024, pay-check. The Department notes that outcomes are meeting expectations with decreased rates of observed turnover and optimistic projections that overall turnover will continue to decrease for FY 2024.

Package Name	Approved Amount	FTE Approved /Filled	Program Results
<i>FY 2023</i>			
5% Compensation for CSCD Employees	\$547,445	0.00/0.00	In FY 2023, Commissioners Court approved \$547,445 for a one-time five percent add-pay compensation allocation to CSCD for both County and Non-County Employees out of the Department’s CSCD Supervision General Fund budget. The first of these payments was initiated on October 31, 2022, and the last five percent compensation payment is scheduled to be reflected on the October 14, 2023, pay-check. The Department notes that outcomes are meeting expectations with decreased rates of observed turnover and optimistic projections that overall turnover will continue to decrease for FY 2024.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	397,400	947,613	694,047	367,724	(326,323)
Operating	67,901	75,643	97,242	97,242	-
Total (Per&Op)	\$ 465,301	\$ 1,023,256	\$ 791,289	\$ 464,966	\$ (326,323)
CAR*	-	-	-	-	-
Grand Total	\$ 465,301	\$ 1,023,256	\$ 791,289	\$ 464,966	\$ (326,323)
FTEs	6.00	6.00	6.00	6.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for CSCD decreased by \$326,323 from the FY 2024 Adopted Budget. This is an 41.2% decrease. The decrease was in the personnel budget due to the removal of one-time add-pay resources for CSCD employees approved in the FY 2024 Adopted Budget.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for CSCD includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$328,285 was removed from the budget related to one-time personnel costs for a one-time add-pay for CSCD employees approved in the FY 2024 Adopted Budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for CSCD includes the following changes related to compensation and benefits:

Compensation Changes	One-Time	Ongoing	Total
Resources for health insurance cost increases for FY 2025	\$-	\$1,962	\$1,962
Total Compensation Changes	\$-	\$1,962	\$1,962

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

INTERNAL REALLOCATIONS

CSCD delimited 77.0 State-funded FTEs as a part of the FY 2025 Budget Submission to right-size its state-funded positions list to reflect the updated position list submitted to the State. The remaining State-funded positions reflect only those positions that the department can reasonably fund within its current budgetary limitations, which have declined due to reduced revenues from client fees and limited state funding trends in recent fiscal years. This reduced CSCD’s number of State-funded FTEs from 271 to 194. PBO notes that these State-funded FTEs are not shown in the General Fund FTE table alongside the six CSCD FTEs supported in the General Fund.

These administrative adjustments did not affect any County-funded CSCD positions in the General Fund.

VACANT POSITIONS

The Department currently has one vacancy that has been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
CSCD Accounting Specialist I	30003645	1.00	1,500	The Department expects that this position will need to be filled as the Courts have resumed in-person operations and an additional Magistrate Court is anticipated to become active.

CSCD has 6.0 FTEs budgeted in the County’s General Fund. One of these positions has been vacant for over a year. The vacancy occurred shortly before COVID-19 during a temporary reduction in workload for staff due to the suspension of in-person payments. With COVID-19 restrictions lifting and anticipation for an additional Magistrate Court soon, CSCD anticipates that the workload will increase and plans to resume the hiring process.

FUTURE CONSIDERATIONS

CSCD again notes that revenue in the form of probation reimbursement fees has declined in recent years. Reduced reimbursement fees coupled with a reduction in the number of placements, which is a variable the state considers in its funding formula, have resulted in significant declines in budgetary resources available for CSCD in Travis County.. In addition, recent legislation increased opportunities for fee waivers. CSCD reports experiencing double-digit decreases in its collection rates since legislation was passed that arguably places less emphasis on probation (reimbursement) fees. The COVID-19 pandemic further reduced placements and created barriers to fee collection, including resulting economic difficulties impairing the ability of clients to pay fees. The Department states that these factors underline the challenge of relying on funding supplied by client fees, especially as courts start increasing their operations. If court operations increase as predicted, CSCD anticipates that there will be an increase in the probation population with no added funding to provide adequate supervision services.

<i>CSCD Probation Client Fees/Revenues Not Collected FY 2022 through FY 2024 (to date)</i>			
<i>Fiscal Year</i>	<i>Probation Fees Waived</i>	<i>Fees Outstanding</i>	<i>Total Fees Not Recuprated</i>
FY 2022	\$114,157	\$416,027	\$530,184
FY 2023	\$128,173	\$470,351	\$598,524
FY 2024*	\$151,701	\$263,914	\$415,615

* partial fiscal year data through April 2024.

Probation client fee collections make up approximately 46 percent of the CSCD’s Basic Supervision budget; the remaining 54 percent are state funds. When clients cannot or do not apply payments, the CSCD is unable to recuperate lost revenue from another source. CSCD noted that in FY 2022, \$530,184 in probation fees/revenue was not recuperated; \$114,157 of probation fees were waived and \$416,027 was still owed when clients were discharged from their probation sentence. The Department notes that clients’ inability to pay their probation fee is the primary reason for waiving fees and/or closing cases with a balance. For FY 2023, CSCD reported a total of \$598,524 in probation fees/revenue was not recuperated; with \$128,173 of

probation fees were waived and \$470,351 was still owed when clients were discharged from their probation sentence. This represents a 13 percent increase in total probation fees/revenues not recuperated from FY 2022 to FY 2023. Through just over the first seven months of FY 2024, CSCD reports that \$415,615 in probation fees/revenue has not been recuperated, with \$151,701 in probation fees waived and \$263,914 was still owed when the clients' cases were closed. Declines in revenue requires that CSCD adjust expenditures to balance the budget. The Department states that its budget is 96% allocated to personnel costs and can only to decrease these expenditures by holding positions vacant to make payroll in light of consistently declining revenues.

During FY 2023, the Department noted that caseloads increased despite the number of total cases decreasing. This situation is due to continued rates of high turnover and overall reductions in the number of probation officers. Continued observed declines in revenue have impeded the implementation of a permanent across-the-board salary increase for CSCD staff, leading to unprecedented attrition – attrition that CSCD reports has outpaced the decline in the probation client population. At the beginning of FY 2019, the CSCD employed 253 staff. However, by early FY 2024, that number dropped to 162 employed staff across all funds. This represents a loss of 91 employees, or approximately 36 percent of staff for CSCD from FY 2019 to early FY 2024.

The Department notes that the recent raising of the minimum wage for Travis County employees to \$20.80 per hour and salary adjustments approved in the FY 2023 and FY 2024 Adopted Budgets have made it far more difficult for the CSCD to compete for applicants. For example, the Travis County Juvenile Probation Department (JPD) had historically started their probation officers/staff similarly to the CSCD: however, after the increase in minimum wage and salary adjustments, the difference in pay rate is considerable. A starting salary for a Juvenile Probation Officer increased to \$50,156 in FY 2023. Meanwhile, the starting salary for a CSCD Adult Probation Officer remained \$37,024 for FY 2023. This represented a total starting pay differential of \$13,132, or approximately 35.5 percent, for positions with similar responsibilities.

During the 88th legislative session, Rider 64 was approved which provided CSCD employees statewide an across the board pay raise of five percent each year of the 2024-2025 biennium. For salaries below \$60,000, the raise would be a minimum of \$3,000 per year of the biennium, for a combined \$6,000 minimum increase over the two-year period. However, CSCD asserts that even with this increase in State Aid combined with the Department's efforts to maintain previous add-pay compensation increases with internal resources, the starting salary for CSCD Probation Officers (POs) remains significantly below that of CSCD POs in neighboring counties, as well as below the starting salaries for similar positions within Travis County, primarily within the Juvenile Probation Department (JPD) and Pretrial Services Department.

In addition to County funding and probation fees, CSCD receives most of its funding from three different State funding sources (Basic Supervision, Community Corrections, and Diversion Program), two of which are formula-based. Basic Supervision is a per capita allocation based on statistics for misdemeanor placements and direct felony cases from the previous full calendar year. Funding is first allocated to misdemeanor placements for 182 days. The remaining funding is allocated to felony placements under direct community supervision in an amount based on CSCD's share of the State's total population of direct felony placements. Misdemeanor placements around the State have decreased over the last few years while the Office has also seen a decrease in felony placements. The decline in CSCD's number of placements is in part due to fewer arrests and defendants more likely to plea bargain shorter sentences in addition to diversion initiatives from the County Attorney and District Attorney. Continuing decreases in probation placements leads to less allocated funding for Basic Supervision. With both Basic Supervision revenue sources experiencing significant declines, CSCD's overall capacity to maintain mandated operations, provide quality service to the County, offer competitive compensation, and fully staff positions are reduced.

Challenges relating to trending declines in CSCD's predominant unstable method of financing are contributing to CSCD personnel being understaffed, facing mounting workloads, and denied internally funded compensation increases due to a shrinking budget. This has made it increasingly difficult for the department to achieve the adequate staffing levels necessary

to maintain current efforts. As of April 2024, the Department demonstrated a vacancy rate of approximately 19 percent, with 38 vacancies across all 200 regular positions in all funds. PBO notes that the current list of vacant positions more accurately reflects those positions which CSCD can reasonably anticipate filling during this fiscal year within current resources relative to prior fiscal years now that the Department has delimited 77 positions from its State-funded position list as a part of the FY 2025 Budget Submission. This effort seeks to right-size the positions list submitted to the County with the updated position list submitted to the State and improve the practical accuracy of CSCD's vacancy rates by correcting for prior year overestimates due to a significant number of active positions on the position list that the Department could not reasonably fill based on limited resources from declining client fee revenues and formula-driven State aid amounts.

Despite funding and staff vacancy challenges, CSCD reports Travis County CSCD continues to outperform CSCDs statewide in terms of revocation rates. During FY 2023, Travis County CSCD's revocation rates continued to be lower than revocation rates for CSCDs statewide. This trend held true for revocations and technical violation rates of clients at the felony and misdemeanor levels.

DEPT. SUMMARY OF REQUEST

CSCD is requesting an additional year of one-time resources to fund a three percent add pay for both County-funded (6.00 FTE) and State-funded (189.14 FTE) CSCD employees who are not eligible for County-wide Across-The-Board (ATB) compensation increases. The Department asserts that these resources are necessary to maintain adequate staffing levels and promote public safety through the provision of consistent community supervision services. CSCD notes that previous add-pay compensation resources of a similar nature provided to the Department by the County have proven effective as evidenced by declining rates of staff turnover since FY 2019. The Department has provided the table below detailing rates of staff turnover from FY 2019 through FY 2023, with projections for turnover through the end of the current fiscal year (FY 2024).

<i>Fiscal Year</i>	<i>FY 2019</i>	<i>FY 2020</i>	<i>FY 2021</i>	<i>FY 2022</i>	<i>FY 2023</i>	<i>FY 2024</i>
Staff Turnover	33	38	35	27	29	12*

* Projected staff turnover for FY 2024 is based on six observed separations through March 2024.

The FY 2024 Adopted Budget included one-time personnel resources related to a three percent add-pay compensation for CSCD County and Non-County employees. This request seeks to continue these funds for the purpose of assisting CSCD staff with the rising cost of living and reduce the impact of observed downward trends in client fee revenues by permitting CSCD to extend the one-time add-pay compensation currently paid at three percent of salaries for FY 2024 to three percent of budgeted County-funded and State-funded salaries for FY 2025. CSCD notes that the proposed three percent rate seeks to align with an anticipated three percent ATB increase for County staff that the Department expects to be approved for the FY 2025 Adopted Budget.

<i>New Measures</i>						
Staff Turnover	27	29	12	29	12	12

PBO RECOMMENDATION

PBO does not recommend County funding for the continuation of one-time three percent add-pay compensation for CSCD County and Non-County staff be included in the FY 2025 Preliminary Budget. CSCD is intended to be a self-sufficient program funded primarily from a combination of client fees and formula-based contributions from the State. While the County is responsible for providing facilities, equipment, and utilities for CSCD that serve the County under Texas Government Code Sec. 76.008, it is PBO’s understanding that this request does not fall within the County’s financial obligations toward CSCD. However, PBO recognizes that CSCD is currently facing several challenges resulting from both the Department’s current method of financing and increased rates of clients under is supervision with violent offenses. While CSCD’s current method of financing may result in continued and significant reductions in the revenues supporting key Departmental functions, the increase rate of clients who have violent offenses adds additional strain to current workloads for a staff struggling with retention issues heavily influenced by CSCD’s capacity to offer sufficient compensation to both its County and non-County funded employees.

The Department has noted in prior fiscal years that the COVID-19 Pandemic exacerbated factors affecting the collection of client fees, which, along with State funding, make up the two primary financing pillars supporting CSCD. These factors continue to negatively impact revenue projections and exacerbate anticipated budgetary shortfalls. State funding, or State Aid, for CSCD is based on a formula that considers both the number of individuals currently on probation and the number of individuals newly placed on probation, both of which the Department reports declined during the COVID-19 Pandemic. CSCD notes that placement rates have risen slightly as Court operations begin to recover from their pandemic-driven lows. However, the formula used in calculating State contributions to CSCDs lags current trends and will not readily reflect the recent increases in placements. Meanwhile, continued staff turnover is expected to increase already mounting caseloads for overburdened Travis County CSCD staff. Continued observed decreases in collection rates combined with reductions in formula-driven State Aid are resulting in persistent shortfalls in CSCD’s Basic Supervision budget that continue to hinder the Department’s efforts to maintain its mandated operations, implement new programs, and maintain sufficient staffing levels.

This is a recurring budget request originally submitted during the FY 2022 Budget Process. This request seeks to mitigate high rates of staff turnover by providing County funding for compensation adjustments for all CSCD staff in line with what the Department anticipates will be a three percent across-the-board increase for regular County employees in the FY 2025 Preliminary Budget. However, it is important to note that while any across-the-board compensation adjustments for County employees contemplated for FY 2025 would be cumulative in nature, this requested three percent add-pay for CSCD would not necessarily be cumulative with the prior one-time five percent increase (\$547,446) in FY 2023 and one-time three percent increase (\$328,285) in FY 2024 for CSCD employees approved by Commissioners Court as a part of the Budget Markup process in both prior fiscal years. In addition, this request would not be cumulative regarding the previous provision of County funds in FY 2022 for a CSCD-run program that provided services to Travis County, which allowed salary savings to be applied towards

a one-time 2.5 percent add pay (\$287,000) for a one-year period for CSCD staff through October 2022. However, in its request to PBO, CSCD reported the following:

...during the TDCJ-CJAD grant funding process for the FY 2024 – FY 2025 biennium, Travis County CSCD submitted grant applications to TDCJ-CJAD for DP funding for the CSCD's [Domestic Violence Accountability Management] and [Sex Offender Treatment] Programs. The FY 2024 – FY 2025 grant applications for both programs were awarded, freeing up funding from other areas of CSCDs budget and finally positioning Travis County CSCD to make the one-time compensation grants awarded by the County in FY 2022 and FY 2023 (totaling 7.5%) part of CSCD employees' base salary in FY 2024. Prior to FY 2024, CSCD could not afford to make the one-time add pay part of employee's salaries.

PBO appreciates that CSCD has made full use of State-funded grant opportunities to maintain the add-pay salary increases originally funded with one-time County resources in prior fiscal years within CSCD's traditional method of finance. In addition to the State grant awards noted above, significant changes in base-level State funding for CSCD employees were enacted by the Texas Legislature for the FY 2024 – FY 2025 Biennium. During the 88th legislative session, Rider 64 was approved which provided CSCD employees statewide an across the board pay raise of five percent each year of the biennium. For salaries below \$60,000, the raise would be a minimum of \$3,000 per year of the biennium, for a combined \$6,000 minimum increase over the two-year period. However, CSCD asserts that even with this increase in State Aid combined with the Department's efforts to maintain previous add-pay compensation increases internally, the starting salary for CSCD Probation Officers (POs) remains significantly below that of CSCD POs in neighboring counties, as well as below the starting salaries for similar positions within Travis County (primarily within the Juvenile Probation Department (JPD) and Pretrial Services Department). This situation has contributed significantly to vacancy rates in CSCD as probation officers transfer laterally into other Travis County departments sighting desire for higher pay and eligibility for across-the-board compensation adjustments for Travis County employees.

PBO acknowledges that CSCD is currently experiencing a significant vacancy rate, 19 percent as of April 22, 2024, with 38 vacancies across all 200 regular positions in all funds. This issue is likely to persist due to CSCD's unstable method of finance, higher rates of pay for similar positions, and rising caseloads contributing to employee burnout. However, PBO does not recommend additional resources in the FY 2025 Preliminary Budget for add-pay compensation for CSCD employees as the intent for CSCD remains to be a self-sufficient operation funded primarily from a combination of client fee revenues and formula-based contributions from the State.

Lastly, the verified budget request amount of \$405,210 reflects the cost of salaries and associated benefits for a three percent add-pay for all eligible positions as submitted during the FY 2025 Budget Workbook submission process. This calculation includes both filled and vacant positions to account for future hires. It is PBO's understanding that, should this request be granted, the three percent add pay would be applicable to all CSCD employees, both County and non-County funded employees, throughout FY 2025, including new hires following the FY 2025 Budget Workbook submission process. PBO included vacant positions in this calculation to ensure the request reflected the full cost of a three percent add-pay for all positions that the Department could reasonably fill during fiscal year FY 2025. The current list of vacant positions more accurately reflects those positions which CSCD can reasonably anticipate filling during this fiscal year within current resources relative to prior fiscal years now that the Department has delimited 77 positions from its State-funded position list as a part of the FY 2025 Budget Submission. This effort seeks to right-size the positions list submitted to the County with the updated position list submitted to the State and improve the practical accuracy of CSCD's vacancy rates by correcting for prior year overestimates due to a significant number of active positions on the position list that the Department could not reasonably fill based on limited resources from declining client fee revenues and formula-driven State aid amounts.

Constable, Precinct One (131)

Request #1: Clever Touch Smart Screen	9
Request #2: Continuation of Law Enforcement Training Earmark	10

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Mission of Constable, Precinct One is to serve the Precinct One community and surrounding areas by providing professional and courteous service while executing civil process and criminal law. Constable, Precinct One will continue building strong and meaningful relationships while working with other organizations and law enforcement agencies. Constable, Precinct One is committed to strengthening relationships with community members by building trust and confidence through active community engagement. Constable, Precinct One pledges to serve the community with the utmost regard and respect for humanity.

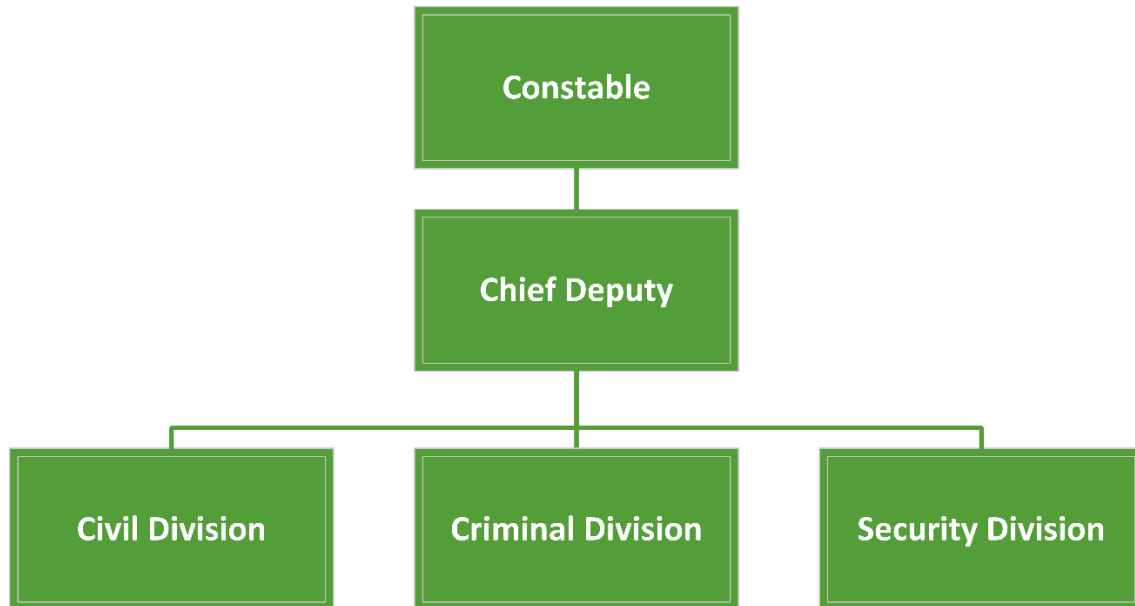

Constable, Precinct One has identified the following departmental goal(s):

- Serve all civil citations from the courts as mandated and in a timely manner;
- Execute misdemeanor warrants and any other criminal process issued from Justice of the Peace, Precinct One and any other Texas Judicial System; and
- Protect the Justice of the Peace, Precinct One Court, employees and physical assets at the Precinct One Office, Tax Office and County Clerk Office.

This aligns with the new County goal “Provide services that support the safety of people in the community.”

Constable, Precinct One is budgeted in the Public Safety Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and peaceful resolution of conflicts” through the justice system and other public processes,” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

CIVIL DIVISION:

The Civil Division provides service of all Civil Process directed from the Courts in accordance with Texas Rules of Civil Procedure Rule 99 and Texas Local Government Code 86.021. Additionally, deputies in the Civil Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers) and take action regarding criminal violations that occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of documents received	3,190	6,420	6,500	6,500	6,700
# of documents served	2,940	5,412	5,500	5,500	5,500
% of documents processed	92%	100%	100%	100%	100%

Constable Precinct One's large increase in civil process workload from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Civil workload performance on citations in FY 2022 recovered somewhat as Courts slowly re-opened and limited the number of cases to maintain social distancing. Performance in FY 2024 is expected to be higher than in FY 2023. Civil process workload continues to increase and looks likely to exceed to pre-pandemic levels in FY 2024.

CRIMINAL DIVISION:

The Criminal Division provides service to the court to include all Warrant processes directed from the Justice of the Peace, County Courts and District Courts in accordance with Texas Code of Criminal Procedure Article 15.16 & Texas Local Government Code 86.021. Additionally, deputies in the Criminal Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers) and take action upon criminal violations that occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Warrants Executed	113	119	238	759	3,000
Warrants Received	157	442	510	5,225	5,225

Constable, Precinct One’s Criminal Division performance in FY 2023 reflects the incremental recovery from COVID-19 after various courts were closed for at least half of the year in FY 2020 and FY 2021. The Criminal Division's workload has remained smaller than the civil workload and is projected to increase incrementally in FY 2024.

SECURITY DIVISION:

The Security Division is mandated to provide bailiff coverage under Section 86.021(e) of the Texas Local Government Code and attend each justice court held in the precinct. Constable One also provides entry security for the building, which involves providing safety to the entire premises of the Constable One property by monitoring the front entry scanner, monitoring building cameras, responding to emergency button activations, and responding to emergency or medical situations throughout the day. However, the security functions related to entry screening and building premises monitoring are not considered mandated under state law.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of hours per staff	2,500	2,700	2,800	3,000	3,100
Call for Service	20	25	25	20	20
Calls Cleared	12	20	23	20	20
Pretrials/trials/hearings	3,739	6,392	6,500	6,500	6,500

Constable Precinct One’s increase in number of court proceedings from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Performance in FY 2024 is expected to be stable as court operations have largely returned to normal.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	2,791,453	2,857,283	3,150,235	3,381,371	231,136
Operating	96,576	116,703	103,671	104,989	1,318
Total (Per&Op)	\$ 2,888,029	\$ 2,973,986	\$ 3,253,906	\$ 3,486,360	\$ 232,454
CAR*	-	-	-	10,969	10,969
Grand Total	\$ 2,888,029	\$ 2,973,986	\$ 3,253,906	\$ 3,497,329	\$ 243,423
FTEs	29.00	28.00	28.00	28.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct One increased by \$243,423 from the FY 2024 Adopted Budget. This is an 7.5% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Constable, Precinct One includes the following changes related to Administrative and Other Funding Changes:

Administrative and Other Funding Changes	One-Time	Ongoing	Total	FTEs
Travel and Training Cut Restoration	\$-	\$1,318	\$1,318	-
Total Administrative and Other Funding Changes	\$-	\$1,318	\$1,318	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$1,318 in ongoing operating resources for Constable, Precinct One. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct One includes the following changes related to compensation and benefits:

Compensation Changes	One-Time	Ongoing	Total
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.	\$-	\$139,203	\$139,203
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	47,887	47,887

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	18,829	18,829
Resources for health insurance cost increases for FY 2025.	-	14,864	14,864
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	6,140	6,140
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	4,213	4,213
Total Compensation Changes	\$-	\$231,136	\$231,136

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$10,969 for Constable, Precinct One. This is a net \$10,969 increase compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Clever Touch Smart Screen	\$10,969
Total Capital Funding Recommendations	\$10,969

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the Office has 28 fees it charges and zero revenue generating contracts it manages. Of these, zero are proposed by the Office for Adjustment in FY 2025.

Matt Kojm, FY 2025 Preliminary Budget

Constable, Precinct One

VACANT POSITIONS

The Office currently has three total vacancies, out of which the following two positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Constable Deputy Sr	30001737	1.00	262	Difficulty regionally and nationally in filling law enforcement positions. Continued recruitment underway.
Court Clerk II	30001730	1.00	137	Difficulty regionally and nationally in filling law enforcement positions. Continued recruitment underway.

The following position has been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Constable Cadet		1.00	935	Difficulty regionally and nationally in filling law enforcement positions. Continued recruitment underway.

FUTURE CONSIDERATIONS

Constable, Precinct One is developing plans to help meet the growing demand for services in its part of the County. Part of these discussions may involve additional physical space at the Precinct One courthouse to handle the increased number of customer visits. In addition, the Constable’s Office is exploring implementing more online services and providing training to deputies when interacting with individuals experiencing mental health issues and crises.

DEPT. SUMMARY OF REQUEST

Constable, Precinct One requests a Clever Touch Smart Screen for its Community Room conference space, which will be used to facilitate meetings and required training. Adding a smart screen to the current conference room can enhance the workspace and make collaborations more efficient and impactful. Touchscreen technology increases collaboration, efficiency, and engagement wherever it is used. The Office believes pairing it with the technology and devices already in use will make the Office more productive. With a smart screen monitor in the meeting space, it will enhance our presentations, work sessions, and meetings to make the Office more effective. The smart screen will also be used for educational presentations for employees and community members. Various community organizations utilize our conference room for training and informative conferences.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO recognizes the importance of technology and collaboration and recommends \$10,969 in one-time capital for the office to enhance its current workspace and facilitate collaboration with the purchase of the Clever Touch Smart Screen.

DEPT. SUMMARY OF REQUEST

This training will equip Constable, Precinct One’s law enforcement personnel with skills to respond effectively and quickly to dangerous situations. This desired outcome can be accomplished through walk-through exercises, emergency response drills, or dramatic crisis simulations. The Office is currently participating in the Advanced Law Enforcement Rapid Response Training (ALERTT) facilitated by the Travis County Sheriff’s Office, as well as a combined tactical operations training with Constable Precincts One, Three, Four, Five, and TNR Parks. The requested funding would allow the Office to participate in more interagency-coordinated training.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO has received a request from Constable, Precinct One to renew, and Constable Precinct Three to fund on an ongoing basis a \$95,000 earmark intended for supplemental training for each Constable Precinct and TNR Park Rangers.

As part of the FY 2024 Adopted Budget, the Commissioners Court approved a \$95,000 Earmark against the Allocated Reserve to provide newly state-mandated Advanced Law Enforcement Rapid Response Training (ALERTT) as well as additional public safety training beyond what is statutorily required for peace officers.

In January 2024, the Travis County Sheriff’s Office (TCSO) began offering the statutorily required Advanced Law Enforcement Rapid Response Training (ALERTT) for active shooter scenarios for all Travis County Peace Officers, as well as many other Law Enforcement entities across Travis County. Given that each Constable Precinct and TNR Parks would be receiving ALERTT training through TCSO, the six offices identified additional supplemental training that fit the needs of each of their offices to be paid for with the \$95,000 Earmark.

On April 23, 2024, the Commissioners Court approved the transfer of the earmark to fund a coordinated two-day joint tactical operations training for Constable Precincts One, Three, Four, Five, and TNR Parks, which will train 133 peace officers across

five offices. Precinct Two was also allocated a share of the earmark to provide training to the Office's personnel who are not currently trainers to become certified trainers in multiple other areas.

PBO does not recommend funding currently. PBO believes that the County's public safety offices and departments can benefit from additional training to keep County staff and the public safe in the performance of their duties. PBO will continue to work with each Constable Precinct to understand their training needs. PBO continues to encourage coordination and collaboration with the Travis County Sheriff's Office for training opportunities that could be available for other Travis County peace officers at little to no cost. The Sheriff's Office has expressed to PBO its willingness to help assist all Offices/Departments with peace officers with required or discretionary training at their Training Academy, subject to availability.

Included in the FY 2025 preliminary budget is a 50% restoration of training budget reductions approved by the Commissioners Court as part of the FY 2021 Adopted budget. These cuts were implemented to stabilize the county budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Funding includes \$1,318 in ongoing operating resources for Constable, Precinct One. PBO will continue to work with offices and departments to understand their travel and training needs throughout FY 2025 and future budget processes.

Constable, Precinct Two (132)

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of Constable, Precinct Two is to be courteous to all people and to serve all civil and criminal processes issued by the courts in a professional manner and with due diligence. Constable, Precinct Two will protect the public by enforcing all local, state, and environmental laws as authorized by statute. Constable, Precinct Two's Office will provide service to the community and work in collaboration with other Constable Offices and other law enforcement agencies in and around Travis County.

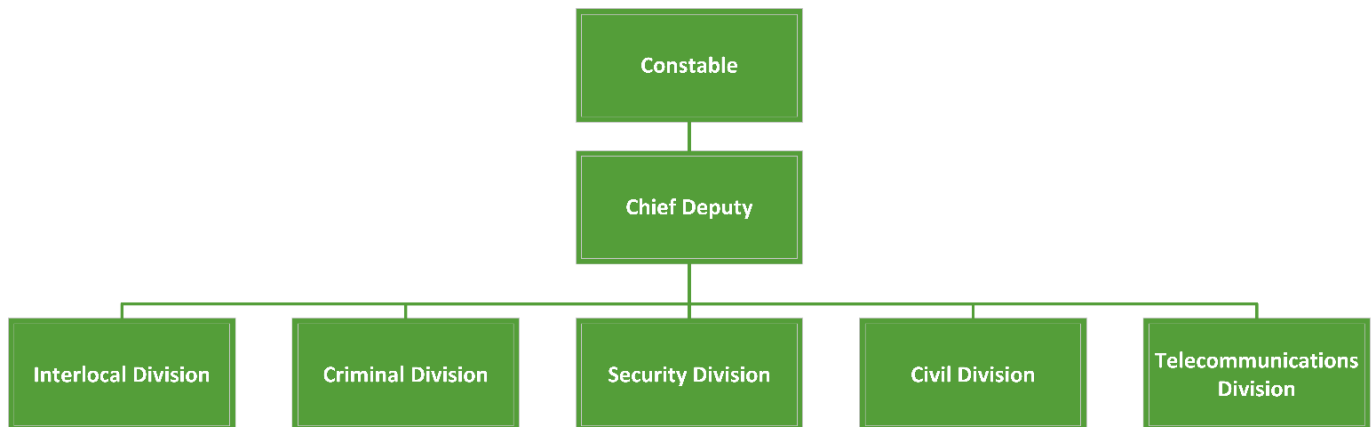

The Constable, Precinct Two has identified the following departmental goal(s):

- Execute civil process in a timely matter dictated by state statute;
- Seek to execute warrants from Justice of the Peace Precinct Two and other municipalities by researching and contacting defendants in a professional manner;
- Protect neighboring communities through interlocal agreements;
- Provide security to protect the Justice of the Peace and their court, employees, and physical assets according to state statute; and
- Provide a Law Enforcement dispatch for Travis County Constables.

This aligns with the new County goal "Provide services that support the safety of people in the community."

The Constable, Precinct Two is budgeted in the Public Safety Functional Area Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Ensure the public safety and the

equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

CIVIL DIVISION:

The Civil Division provides service of all Civil Process directed from the Courts in accordance with Texas Rules of Civil Procedure Rule 99 & Texas Local Government Code 86.021. Additionally, deputies in the Civil Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers) and act upon criminal violations which occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Civil Paper Attempts	11,145	13,664	16,319	17,402	19,668
Total Civil Papers	5,373	6,235	7,418	7,910	8,940

Constable, Precinct Two’s increase in Civil process from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Civil workload performance on citations in FY 2022 recovered somewhat as Courts slowly re-opened and limited the number of cases to maintain social distancing. Performance in FY 2024 is expected to be higher than in FY 2023. Civil process workload continues to increase and looks likely to return to pre-pandemic levels in FY 2024.

CRIMINAL DIVISION:

The Criminal Division provides service to the court to include all Warrant process directed from the Justice of the Peace, County Courts, and District Courts in accordance with Texas Code of Criminal Procedure Article 15.16 & Texas Local Government Code 86.021. Additionally, deputies in the Criminal Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers) and act upon criminal violations which occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Warrant Attempts	5,485	-	-	-	-
Warrants Cleared	3,227	3,094	3,330	3,000	3,000
Warrants Entered	3,416	5,169	5,007	6,000	6,000

The office is reorganizing its civil and criminal operations to ensure that all duties are being performed in the most efficient way possible. The new operation, beginning in FY 2025 will have three sectors (West, Central and East) working on both criminal and civil workload. Currently, the office’s court clerks send mailers every six weeks to address warrants, and deputies are solely addressing civil workload.

INTERLOCAL UNIT:

Constable Two’s Interlocal Agreements (ILA) program is an agreement between Travis County communities within Travis County in which Constable Two provides deputies for the purpose of enforcing state laws. Constable Two will provide the number of predetermined FTEs as stated in the ILA for the purpose of proactive community law enforcement. Constable Two ILA FTEs assist the public, respond to emergency calls, traffic enforcement, and vehicle accident investigations, investigate suspicious/criminal activity, make arrests, and file criminal reports. However, these Interlocal Agreements are not statutorily required for Travis County to perform on behalf of Travis County communities.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Community Contacts	861	1,105	800	800	800
Incidents	3,349	2,167	1,900	2,000	2,000

The Interlocal Division has seen a consistent workload throughout the last few fiscal years. The security contracts that drive this workload have been largely stable and consistent for the office. Overall, community contacts steadily increased from FY 2021 to FY 2023. Performance has largely returned to pre-pandemic levels and is expected to remain stable into the future.

SECURITY UNIT:

The Security Division is mandated to provide bailiff coverage under Section 86.021(e) of the Texas Local Government Code and shall attend each justice court held in the precinct. Constable Two also provides entry security for the building and provides safety for the entire premise of the Precinct Two property. However, the security functions related to entry screening and building premise monitoring are not considered mandated under State law.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Front Entry Totals	19,957	36,887	37,000	40,000	40,000

Constable Precinct Two's increase in security screenings from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Performance in FY 2024 is expected to be stable as court operations have largely returned to normal.

TELECOMMUNICATIONS UNIT:

Constable Two's Telecommunications Unit provides professional dispatch services for Constable offices and other departments through mutual agreement. Constable Two Telecommunications Unit FTE assist and direct Deputies while responding to emergency calls, traffic enforcement, and vehicle accident investigations, investigating suspicious/criminal activity, confirming warrants, and organizing assistance through other law enforcement agencies. Requirements for licensing can be found within the Texas Administrative Code Title 37, Part 7, Chapter 217.27. This program is considered mandated since it supports the mandated functions of the Civil and Criminal Divisions of this and other Constable offices in Travis County.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Civil Service	24,053	33,770	37,866	40,000	42,000
Hazardous Traffic Violations	9,287	8,951	7,413	8,000	8,000
Other Incidents	18,380	15,401	14,694	15,000	16,000
Total Incidents	56,981	65,131	61,836	64,400	67,450
Traffic Collisions	2,606	600	500	400	450
Warrant Service	2,097	4,957	1,365	1,000	1,000

As a result of the increases in workload in the Civil divisions both in Constable, Precinct Two, as well as the other Constable

offices, the number of Civil Service calls increased significantly in FY 2023. As the focus for most office is now on civil workload, they have pivoted their operations and the workload of the Telecommunications Division has decreased slightly in other types of calls. The department projects total incidents to remain fairly stable after FY 2024.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

Package Name	Approved Amount	FTE Approved /Filled	Program Results
<i>FY 2024</i>			
Deputy Replacement for Midyear Lieutenant Promotion	\$138,235	1.00/1.00	The program has accomplished what was anticipated. The Lieutenant role has been able to oversee the four Sergeant positions creating a much better line of communication and oversight.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	3,381,608	3,984,839	4,643,668	5,303,573	659,905
Operating	276,093	314,466	459,127	420,817	(38,310)
Total (Per&Op)	\$ 3,657,701	\$ 4,299,305	\$ 5,102,795	\$ 5,724,390	\$ 621,595

Grand Total	\$ 3,668,651	\$ 4,299,305	\$ 5,419,868	\$ 5,860,765	\$ 440,897
FTEs	37.00	43.00	45.00	48.00	3.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Two increased by \$440,897 from the FY 2024 Adopted Budget. This is an 8.1% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Two includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$59,800 was removed from the budget related to one-time equipment purchases approved in the FY 2024 Adopted Budget.
- \$97,841 was added to the budget related to ongoing personnel costs for a 1.0 FTE Constable Deputy that was included in an earmark in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Two includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Sergeant FTE	\$2,200	\$128,413	\$130,613	1.00
Telecommunicator	-	79,270	79,270	1.00
LE Equipment	20,000	-	20,000	-
Add Pay for Currently Eligible Peace Officers	-	19,923	19,923	-
Total Programmatic Recommendations	\$22,000	\$227,606	\$249,806	2.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Constable, Precinct Two includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Travel and Training Restoration	\$-	\$3,591	\$3,591	-
Total Administrative and Other Funding Changes	\$-	\$3,591	\$3,591	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$3,591 in ongoing operating resources for Constable, Precinct Two. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Two includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.	\$ -	\$182,588	\$182,588
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	71,225	71,225
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	45,495	45,495
Resources for health insurance cost increases for FY 2025.	-	24,420	24,420
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	6,140	6,140
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	289	289
Total Compensation Changes	\$ -	\$330,157	\$330,157

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$136,375 for the Office. There was a reduction of \$317,073 to remove one-time funding for prior year capital funded projects. This is a net \$180,698 decrease compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Centrally budgeted equipment for a Constable Sergeant FTE position	\$105,723
Replacement Trailer	30,652
Total Capital Funding Recommendations	\$136,375

INTERNAL REALLOCATIONS

Constable, Precinct Two moved \$10,000 from its operating budget to its personnel budget in its FY 2025 budget submission. The Office intends to use these funds to address vacancies in civilian dispatcher positions and future promotions.

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, Constable Precinct Two has 28 fees it charges and two revenue-generating contract(s) it manages. Of those, none of the fees and two of the contracts are being proposed by the Constable, Precinct Two for adjustment in FY 2025.

Below is a table with additional details on the revenue generating contract(s) that have been proposed by Constable, Precinct Two for adjustment. Both of these contracts are currently below the full cost recovery rate of \$192,181. These proposed adjustment(s) are currently being reviewed by PBO and the County Auditor's Office. PBO and the Auditor's Office will coordinate presenting the recommended changes to the Commissioners Court. Fee adjustments required to be approved by the Commissioners Court will be presented in September prior to the adoption of the FY 2025 Budget. Recommended changes to any revenue contracts will be presented to the Commissioners Court at the next contract renewal or according to the terms of the contract.

<i>Central Contract Name</i>	<i>FY 2024 Contract Amount</i>	<i>FY 2025 Proposed Contract Amount</i>	<i>Justification for FY 2025 Proposed Contract Amount</i>
Village of the Hills Law Enforcement Services	\$99,801	\$114,771	Partial cost recovery. 15 percent increase over prior year until full cost recovery is met.

<i>Central Contract Name</i>	<i>FY 2024 Contract Amount</i>	<i>FY 2025 Proposed Contract Amount</i>	<i>Justification for FY 2025 Proposed Contract Amount</i>
Village of Briarcliff Law Enforcement Services	\$152,104	\$174,920	Partial cost recovery. 15 percent increase over prior year until full cost recovery is met.

VACANT POSITIONS

The Office currently has three total vacancies, out of which the following two positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Constable Communications Specialist	30058426	1.00	234	Hiring has been difficult
Constable Deputy	30067176	1.00	160	Hiring has been difficult, the department has a few in the process

FUTURE CONSIDERATIONS

Precinct Two is reorganizing the office to maximize efficiency in serving civil documents and warrants. The reorganization came from the increase of civil documents. This is a long-term plan for the organization. The department plans to have the reorganization completed by mid-FY 2024, and it will divide CN2 into three zones: West, East, and Central. Each zone will have a Sergeant and a Corporal to manage the civil and warrant services. This will limit travel time and increase efficiency.

Precinct Two is also in the process of becoming a training provider with TCOLE. This would allow the department to report mandated training for the office. This will save county resources on external training and allow the office to conduct TCOLE-accredited training for other Constable Offices and Law Enforcement Agencies.

Precinct Two currently has an interlocal agreement (ILA) with Capital Metro Transportation Authority (CapMetro), where it pays the authority to lease two of its seats at CTECC to provide constable dispatch. Constable dispatch provides daily dispatching services for Non-TCSO POPs employees across all five constable precincts and the TNR Park Rangers. Unified dispatch improves safety and coordination across the five Constable offices and helps the offices track workload and productivity. In FY 2023, CapMetro notified Precinct Two, Emergency Services, and CTECC that they would cancel the ILA with Precinct Two on October 1st, 2024. Over the last year, Precinct Two has worked with Emergency Services, CTECC management, and PBO to create a transition plan to limit any operational interruptions for constable dispatch. CTECC management has identified additional space on the dispatch floor for Precinct Two that will accommodate four workstations.

Electronic ticket writers are being utilized to eliminate the use of traditional carbon copy tickets. The office is in the process of acquiring a Brazos phone application to issue citations in lieu of E-citation devices. This allows all deputy mobile devices to have this application on their phones without additional hardware.

Dpt Total + Earmarks	\$ 625,141	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Two requests 3.0 Constable Deputy FTEs for its Civil Unit. The Office cites the increased workload of the Civil unit since the end of COVID-19 restrictions and the project workload near FY 2018 levels for civil papers received. The Office is reorganizing operations to respond to the increase and reduce travel time between papers served. The projection below from the Office included in the budget submission anticipates a dramatically increased workload over the next three fiscal years.

Civil Paper Attempts	11,145	13,664	16,319	17,402	17,402	19,668

PBO RECOMMENDATION

PBO has received a request from Constable, Precinct Two, for additional resources to address its increased civil process workload. These resources include 3.0 Constable Deputy FTEs, who will primarily work on civil processes. In the FY 2024 budget process, the Commissioner's Court approved the addition of 2.0 Constable Deputy FTEs within Constable, Precinct Two. One Deputy backfilled a position previously reclassified to Lieutenant due to a Non-TCSO POPS policy change and the other Deputy was added to address a large increase in the civil process workload. The Commissioners Court also created an Earmark against the Allocated Reserve for an additional Constable Deputy for the civil division, which was subsequently requested and transferred to the Office on November 17, 2023.

In analyzing prior requests from FY 2023 for additional constable staff, PBO expressed concern it did not have adequate data or capacity to do a full staffing study. A complete staffing study would require significant resources and likely outside consultant assistance. A staffing study, like the one completed in 2020 for the Law Enforcement Bureau of the Travis County Sheriff's Office, considers many datasets and factors as part of recommended staffing levels. For the Constables, a study would include: Computer Aided Dispatch (CAD) data, Odyssey/Civil Serve data, inputs from the Justices of the Peace, relief factors, vacancies, interviews with deputies, differences in policy and practices, geographical and socioeconomic factors of each precinct, comparisons to other Constable offices in other counties and more. It would also look at not just Deputy workload and productivity, but also the supporting court clerks and other civilian staff in the Office supporting the Deputies in the field.

PBO made progress in accessing relevant workload data but has limited capacity for an analysis of this scope. PBO recently gained reporting access to Civil Serve, the case management system that Constable, Precincts 1-4 use to manage their civil process workloads. PBO believes this information could be helpful in establishing targets and thresholds for future Constable staffing needs related to civil process workloads. PBO has used this information to evaluate requests both for Constable Deputy FTEs as well as Court Clerk FTEs and intends to share the combined data with each precinct to help them facilitate discussions on trends in workload and how to manage their civil divisions effectively.

To have a clear methodology, PBO conducted a comparative analysis of civil process workload by Constable precinct. This was done by utilizing information input into Civil Serve by each Office to determine the civil workload both in papers received and papers served across the precincts. PBO obtained this data by running the 'Papers Received by Paper Type' report as well as the 'Service Statistics' report. The former categorizes all civil papers received by a constable office and input by support staff, while the latter details each service, attempted service, and total service attempts. It's worth noting in the past, different offices have pointed out papers served may not be the most accurate representation of workload for civil deputies as some papers require multiple attempts before being successful and unsuccessful services still require effort on the part of the deputy along with successful ones. Graph 1 shows the total service attempts for each office by Fiscal Year. The graph spans three distinct periods that have had broad effects on office workload: pre-pandemic (FY 2018 & FY 2019), pandemic decline (FY 2020 & FY 2021), and post-pandemic workload recovery (FY 2022, FY 2023, FY 2024 projected).

Graph 2 shows total civil papers and criminal papers served by precinct. PBO notes Constable, Precinct Five does not maintain aggregated data by attempts, and is working with the office to collect relevant comparable data of its civil workload. As of the end of FY 2023, only precinct one fully recovered its civil workload to the pre-pandemic level. (Precinct Five has been excluded as they do not track aggregated attempts). Given current data pulled from October 1 to July 1, 2024, the remaining four offices are projected to return to their pre-pandemic levels. Overall, Civil and Criminal workloads have returned to roughly to pre-pandemic levels in all offices except for Precinct Five.

Graph 1

Graph 2

All offices have seen workload increase from pandemic lows and precincts 1-4 now all have a larger civil and criminal workload than FY 2018. Precinct Two has seen the largest increase of 20.8% whereas Precinct Five has largely remained the same over the last three fiscal years after a steep drop off from FY 2019- FY 2022.

The table below (Table 1) shows the percentage change in civil and criminal workload in each constable precinct compared to the percentage change in Deputies, Corporals, and Sergeants in each office from 10/1/2018 to 7/1/2024. PBO notes that offices have additional responsibilities outside of civil and criminal processes including interlocal agreements, special projects, task forces, security responsibilities, centralized dispatch, and potential emergency response. Some changes in FTEs have been to address the maintenance of the current efforts in the Civil and Criminal Processes, other changes have also occurred related to securing justice of the peace courts, interlocal agreements, and pilot program Special Project Workers converted to FTEs. The variable duties and asymmetry of information make it difficult to compare each office, given the variety of mandated and non-mandated services that each precinct provides.

Table 1: Workload and Staffing Changes

<i>Precinct</i>	<i>FY 2018-2024(projected) % change in Civil and Criminal Process workload</i>	<i>FY 2018-2024 % change in Deputies, Corporals, and Sergeants FTEs</i>	<i>FY 2018 – 2024 Nominal change in Deputies, Corporals, and Sergeants FTEs</i>
One	15.9%	17.6%	3.00
Two	20.8%	22.7%	5.00
Three	2.7%	12.5%	2.00
Four	3.6%	31.3%	5.00
Five	(47.52%)	13.3%	4.00

PBO has been unable to verify individual assignments for deputies for a comparative analysis across all five precincts as multiple offices have noted assignments change on a day-to-day basis and are fluid based on workload demands. This limits the comparability of the offices as each office has unique responsibilities for different interlocal agreements, special projects, task forces, security responsibilities, and potential emergency response. A comparative analysis taking all these factors into account would require a comprehensive staffing study completed outside of the time constraints of the budget process and would require many months of stakeholder interviews, data analysis, and asset mapping. A staffing study, like the one completed in 2020 for the Law Enforcement Bureau of the Travis County Sheriff’s Office, considers many datasets and factors as part of recommended staffing levels and would also consider the supporting court clerks and other civilian staff in the Office. PBO has limited resources to complete such a study and would likely need to explore resources external to the county to complete such a study.

While this request would provide additional resources to increase the Office’s capacity to address its mandated civil workload, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget due to very limited resources. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute.

The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

REQUEST #2: LAW ENFORCEMENT SPECIALIST (REVISED REQUEST)

<i>Program:</i>	Civil Unit (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 76,627	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Currently, Constable, Precinct Two’s (CN2) Sergeants are responsible for numerous added duties that, according to the Office, limit their ability to directly supervise subordinate Deputies. These include:

- Maintain case records to ensure all reports are turned in with the appropriate supporting documentation such as evidence forms, vehicle impound forms, jail booking forms, witness statements, criminal trespass forms, TXDOT crash forms, etc., and ensure that these forms are all filled out accurately;
- Ensuring that records, documents, and videos are retained for the appropriate amount of time according to State and Federal law and to respond to open records requests;
- Verification of citations written by Constable Deputies and reporting of citation data such as the Annual Racial Profiling Report;
- Tracking of inventory and equipment issued to deputies and ensuring that these items are in good working order, coordinating repairs or replacements of equipment as needed and reporting assets for auditing purposes; and
- Oversee the collection of evidence that is collected and ensure it is processed and stored appropriately and coordinating the use of these items in court proceedings or return of the items when possible.

The Office has requested one Law Enforcement Specialist FTE to perform these functions, support the office's overall mission, and allow Sergeants to spend more time supervising employees.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Total Civil Papers	5,373	6,235	7,418	7,910	7,910	8,940

PBO RECOMMENDATION

PBO does not recommend this position currently. In FY 2023, as part of a midyear policy change for Constables' offices and Park Rangers, the Commissioners Court approved the creation of a Lieutenant position for Constable, Precinct Two due to the size of the Office. In mid-year FY 2024, each constable's office was authorized for a third corporal position, which the office internally funded. In addition, as part of the FY 2025 preliminary budget, PBO is recommending resources for an additional sergeant for the office to supervise dispatchers as well as additional administrative functions including evidence and inventory. Although workload has largely returned to pre-pandemic levels in civil and criminal process, the addition of three levels of supervisory positions as well as replacement deputies for two of the positions from FY 2023 to the beginning of FY 2025 should help the office address this administrative burden. PBO will continue to evaluate this need and coordinate with other Constable offices to understand how this workload affects supervisor availability.

REQUEST #3: TELECOMMUNICATOR

<i>Program:</i>	Telecommunications (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 79,270	\$ 79,270	\$ 79,270	\$ 79,270

DEPT. SUMMARY OF REQUEST

Constable, Precinct Two has a growing issue with the staffing levels for the Telecommunication unit. The Telecommunication unit has 6.0 FTEs, including a supervisor, to cover 15 hours/day of communication, 5 days a week for five Constable Offices. Due to the current staffing level and vacancies, the unit supervisor is forced to maintain full dispatcher responsibilities instead of focusing on supervisor responsibilities such as conducting training, policy review, scheduling and managerial tasks. The staffing level is hindered the initial implementation of the two concurrent radio channels for dispatch. With approval, the Office will hire and train a new Telecommunications Dispatcher to relieve the supervisor who currently does not have the time to oversee the day-to-day operations.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Total Telecom Entries	56,981	57,028	61,836	64,400	64,400	67,450

PBO RECOMMENDATION

Precinct Two has the unique responsibility among Constable offices of coordinating and operating dispatch for all five precincts. The Office utilizes a dispatch staffing model like the Austin Police Department (APD), where a Sergeant supervises six telecommunicators. The dispatch unit within the Office coordinates two channels available for all Travis County Constables.

The two channels run 15 hours a day, 5 days a week. This means a total coverage of 7,800 hours per year is required at an absolute minimum for dispatch to be fully operational. The current staffing model has five dispatchers, one supervisor, and one sergeant. Given 304 hours of county holidays, vacation, sick, and personal holidays a year, one dispatcher FTE should

be available for 1,776 hours. For five dispatchers, this totals 8,880 hours. PBO acknowledges that there is little coverage for administrative tasks and necessary breaks for dispatchers; in addition, in discussions with the office, staff shared that additional coverage of shifts falls to supervisors and occasionally deputies. The department shared data that as of June 18th this fiscal year, constable deputies have covered 265 hours of dispatching time. The office has stressed that ideally, each dispatcher would be able to take a one-hour break for lunch and have a 10-minute break every hour as the position is very mentally taxing and stressful. The demands on the dispatch unit continue to grow as it supports each precinct, and the current capacity does not meet an adequate threshold established by the office. PBO recommends \$79,270 in ongoing funding for an additional telecommunicator within Constable, Precinct Two. This will increase Constable, Precinct Two's FTE count by 1.0 FTE.

REQUEST #4: SERGEANT

<i>Program:</i>	Civil Unit (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 240,433	\$ 241,028	\$ 128,413	\$ 128,413

DEPT. SUMMARY OF REQUEST

On February 6, 2024, the Commissioners Court approved a personnel action for Constable, Precinct Two to reclass a Constable Deputy position to a Constable Sergeant position. This was in response to Precinct Two moving above a supervisor ratio threshold of 1:6 which has been the targeted ratio for the County’s Constable Offices. This request was supported by HRMD. Ultimately, the Office did not have the internal resources to self-fund the request and elected to request a Constable Sergeant within the budget process to address this need. The office elected to underfill the newly created sergeant position with a deputy. If approved, the office will create a new deputy position and identify a candidate to be promoted to the sergeant position and no longer underfill it.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Total Civil Papers	5,373	6,235	7,418	7,910	7,910	8,940

PBO RECOMMENDATION

As part of the FY 2024 Budget process, the Commissioners Court approved 1.0 FTE Constable Deputy and created an earmark for a 1.0 FTE Constable Deputy position within Constable Precinct Two to address an increased civil process workload. Upon receiving the earmark, Precinct Two raised concerns about supervisory capacity and span of control within their operations with HRMD and PBO.

Precinct Two has the unique responsibility among constable offices of coordinating and operating dispatch for all five precincts. The office utilizes a dispatch staffing model similar to the APD (Austin Police Department), where a Sergeant supervises six telecommunicators. After the addition of two new civil deputies in FY 2024, the Office had a supervisory ratio

of Sergeants to Deputies and Telecommunicators of 1:7.25. This ratio is over the recommended supervisory threshold of 1:6. The addition of a fifth sergeant would make this ratio 1:5.8 and create a more appropriate span of control.

Given this information, PBO recommends ongoing funding for the previously approved Constable Sergeant position in Constable, Precinct Two, along with necessary one-time and capital equipment. A new deputy position is recommended within the Office to replace the deputy position reclassified to a sergeant on February 6, 2024. PBO notes that staffing based on this threshold is subject to periodic review, and HRMD and PBO evaluate these requests on a case-by-case basis. This will increase Constable, Precinct Two's FTE count by 1.0 FTE.

REQUEST #5: ADD PAY

<i>Program:</i>	Civil Unit (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	42,500	19,923	19,923	19,923
Operating	-	-	-	-
Subtotal	\$ 42,500	\$ 19,923	\$ 19,923	\$ 19,923
Capital	-	-	-	-
Dpt Total	\$ 42,500	\$ 19,923	\$ 19,923	\$ 19,923
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 42,500	\$ 19,923	\$ 19,923	\$ 19,923

DEPT. SUMMARY OF REQUEST

The Office requests ongoing funding to provide certificate pay and peace officer license pay to non-TCSO POPS eligible Deputies. Constable, Precinct Two states that it currently does not have adequate funding to provide certificate and peace officer license pay within its target budget. The Office states lack of pay for earned licenses and accredited certificate pay causes low morale amongst the deputies, which, in turn, the office foresees will lead to a higher turnover rate.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Total Civil Papers	5,373	6,235	7,418	7,910	7,910	8,940

PBO RECOMMENDATION

Historically, the Commissioners Court has directed departments and offices to redirect savings from resources within their existing budgets to fund pay increases internally. PBO verified with Constable, Precinct Two that there are currently 11 deputies within the office that meet qualifications for addition certification pay that are not receiving them due to lack of budgeted resources within the office. PBO has verified add pays with other offices and currently Precinct Two is the only constable office where deputies with additional peace officer certifications that are not receiving commiserate add pays. Other offices have expressed concerns that in the future there might be limited availability to fund add pays as it is hard to predict when deputies will receive certain certifications. PBO will continue to work with offices to track add pay expenditures. PBO recommends \$19,923 in ongoing personnel resources to address this request.

REQUEST #6: LAW ENFORCEMENT EQUIPMENT

<i>Program:</i>	Civil Unit (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 20,000	\$ 20,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Two requests one-time funds to properly equip Deputies with lifesaving equipment, including rifle-resistant vests, ballistic helmets, rifle-resistant shields, first aid equipment, and tourniquets.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Total Civil Papers	5,373	6,235	7,418	7,910	7,910	8,940

PBO RECOMMENDATION

PBO is recommending \$20,000 of one-time funding for the purchase of this law enforcement safety equipment for the Constable, Precinct Two Office. PBO notes that this equipment is to be used by Civil deputies only in support of their functions and it should not be used for criminal process or law enforcement purposes such as the creation of a Special Weapons and Tactics (SWAT) team. PBO recommends that the Office provide significant training on the use of this equipment. Lastly, PBO further recommends that the Constables coordinate and partner with the Travis County Sheriff's Office where appropriate on the use of this equipment and training.

REQUEST #7: REPLACEMENT TRAILER

<i>Program:</i>	Civil Unit (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 30,652	\$ 30,652	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Office is requesting funding to replace an end-of-life trailer. The cost of the maintenance has increased due to the age of the trailer, and the office believes it has reached the end of its useful life. The trailer was originally purchased by the office using funds confiscated in a civil forfeiture case.

The office has used the trailer for:

- Large events for medical and security;
- Transporting equipment for the ALERTT Training;
- Transporting toys for the Kevin Aigner Memorial Toy Drive each year;
- Transporting food for food banks when needed;
- Transporting ammunition to the range to qualifications; and
- Transported equipment from one location to another location throughout Travis County.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Total Civil Papers	5,373	6,235	7,418	7,910	7,910	8,940

PBO RECOMMENDATION

PBO recommends one-time funding to replace the end-of-life trailer. The trailer provides a community benefit and will allow the Office to have the capacity to transport equipment and support community needs.

REQUEST #8: TICKET WRITERS

<i>Program:</i>	Civil Unit (132)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	16,579	-	-	-
Subtotal	\$ 16,579	\$ -	\$ -	\$ -
Capital	-	-	-	-

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 16,579	\$ -	\$ -	\$ -

PBO notes funding for this request will be budgeted within a centralized budget in Information Technology Services (ITS) not within individual Constable Offices.

DEPT. SUMMARY OF REQUEST

PBO has received a request from Constable, Precinct Two, Three, and Four for ongoing resources of \$74,267 to fund ongoing implementation and usage of ticket software for all five Constable Precincts and TNR Parks.

BUDGET REQUEST PERFORMANCE MEASURES

None Provided.

PBO RECOMMENDATION

The FY 2024 Adopted Budget included an Earmark against the Allocated Reserve of \$240,000 (\$200,000 one-time, \$40,000 ongoing) for the implementation of new electronic ticket writers for each Constable Office and TNR park rangers. This Earmark amount was an estimate based on planning discussions at the time. Throughout FY 2024, Precinct Three worked with each Constable Precinct, TNR Parks, ITS, and Purchasing to identify the scope, cost, and implementation for the new shared ticket writer software. Later in FY 2024, the Commissioners Court is scheduled to consider a one-time transfer of \$282,531 (\$240,000 Earmark, and \$42,531 in supplemental one-time funds) to fund one-time costs related to the initial rollout and implementation of ticket writer software to be used on County issued cell phones. The increase in the ongoing costs compared to the initial estimate in the FY 2024 budget process is related to pricing adjustments from the vendor since that time, as well as addition functionality to further streamline reporting and other tasks for things such as the annual Racial Profiling Report required by the State. PBO supports this added cost and believes the added functionality will reap significant savings on administrative work hours, allowing more productivity from existing staffing levels.

PBO believes these devices will improve the efficiency of Constable traffic enforcement efforts, reduce errors by eliminating paper tickets, and allow deputies to write tickets faster, which will improve safety by keeping them off the side of roadways. PBO recommends approval and that the ongoing ticket writer costs be budgeted in Information Technology Services (ITS) for ease of administration and payments to the vendor who already has a centralized contract for several

other services. Bundling this new ongoing maintenance cost within that contract has the potential to conserve County resources in the long term.

Constable, Precinct Three (133)

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of Constable, Precinct Three's Office is to be first and foremost Public Servants. This honored position that the office holds shall always be displayed in a professional and humble manner. Constable, Precinct Three shall strive to meet the needs of others as we uphold the duties of the Office. Constable, Precinct Three shall do all that is in our power to treat everyone with respect and dignity, without regard to race, religion, creed, sex, or national origin. Constable, Precinct Three shall attempt in all aspects to improve the quality of life for each and every citizen that we serve and come into contact with, including those times of hardship within our community.

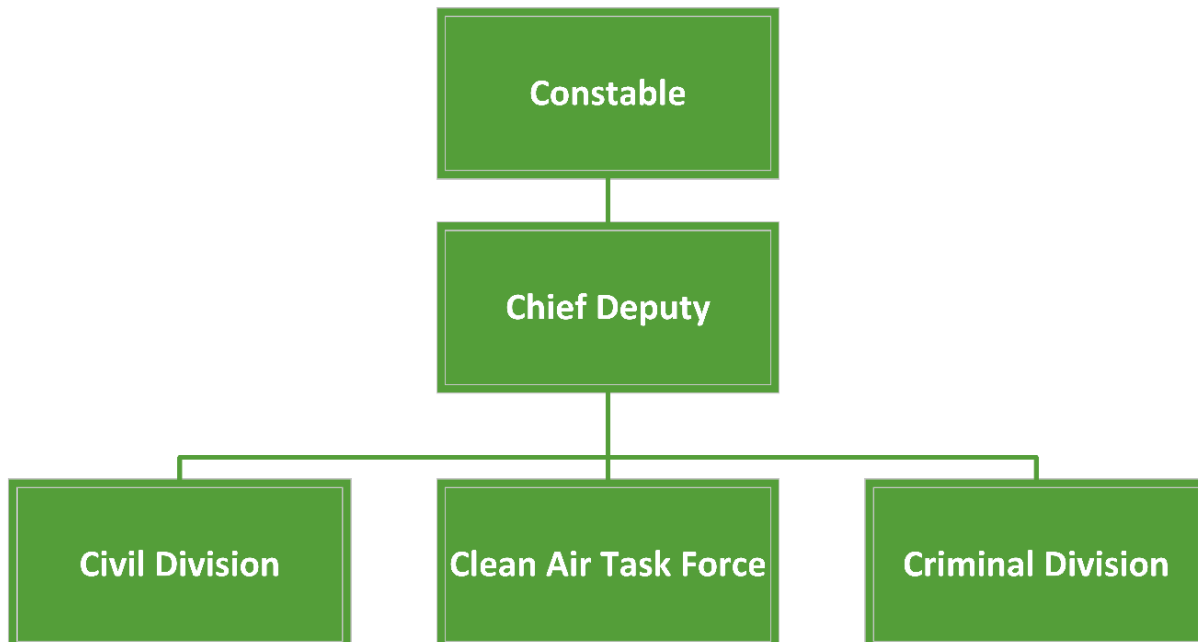

The Constable, Precinct Three has identified the following departmental goal(s):

- Coordinate support and fulfill all internal and external service demands as efficiently and effectively within the prescribed means;
- Clear criminal misdemeanor warrants within Travis County;
- Provide service of civil process quickly, professionally and efficiently;
- Help Travis County remain in compliance with air quality, by enforcing registration and temporary registration violations; and
- Provide building and courtroom security to protect both County employees and visitors.

This aligns with the new County goal "Provide services that support the safety of people in the community."

Constable, Precinct Three is budgeted in the Public Safety Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

CIVIL DIVISION:

The Civil Division provides service of all Civil Process directed from the Courts and executes all Warrant process directed from the Justice of the Peace, County Courts and District Courts in accordance with Texas Rules of Civil Procedure Rule 99 & Texas Local Government Code 86.021. Additionally, deputies in the Civil Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers) and take action upon criminal violations that occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of homeless camp visits	296	375	380	400	425
# of homeless people assisted	839	1,744	1,750	1,775	1,800
Citations Executed	2,328	2,991	4,000	4,300	4,600
Citations Received	2,796	3,531	4,400	4,600	4,800

Constable, Precinct Three's increase in civil process from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Civil workload performance on citations in FY 2022 recovered somewhat as Courts slowly re-opened and limited the number of cases to maintain social distancing. Performance in FY 2024 is expected to be higher than in FY 2023. Civil process workload continues to increase and looks likely to return to pre-pandemic levels in FY 2024. Data on homelessness outreach efforts is only partial for FY 2022 due to a Community Outreach position which was temporarily reclassified from a Court Clerk position in a prior fiscal year being returned to a Court Clerk and the incumbent in the position leaving County employment, leaving a void in the collection of data in this area. Data on outreach for FY 2023 more closely reflects prior years.

CRIMINAL DIVISION:

The Criminal Division provides service to the court to include all Warrant process directed from the Justice of the Peace, County Courts and District Courts in accordance with Texas Code of Criminal Procedure Article 15.16 & Texas Local Government Code 86.021. Additionally, deputies in the Criminal Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers) and take action upon criminal violations that occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of Issued Warrants Successfully Served	11%	35%	36%	38%	40%
Parking Mobility Citations Issued (County Wide)	2,068	1,831	1,900	2,000	2,100
Warrants cleared over a year old	278	1,719	1,725	1,750	1,775
Warrants Executed	584	2,280	2,300	2,400	2,500
Warrants Received	2,854	1,626	2,000	2,200	2,400

Similar to the Civil Division, Constable, Precinct Three’s Criminal Division performance in FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. The division has significantly increased warrants executed in FY 2023, and the workload for the division is expected to remain fairly stable after an increase in FY 2023.

CLEAN AIR TASK FORCE:

The Travis County Clean Air Task Force (CATF) is tasked with enforcing state laws, codes, rules and regulations pertaining to improper vehicle emissions and the sale or distribution of any form of fraudulent, improper and counterfeit motor vehicle inspections, counterfeit registration insignias and paper tags. Vehicles that circumvent the emission laws contribute to health-threatening pollution and can cost the county critical federal highway funds through sanctions issued by the EPA for nonattainment. To crack down on fraudulent, fictitious, or improperly issued Vehicle Inspection Reports, the Travis County CATF is helping protect the health of Travis County citizens.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of Investigations Closed	92%	96%	93%	93%	93%
Registration Violations	500	795	800	820	825

The Clean Air Task Force (formally known as the Emissions Task Force) was largely unaffected by the COVID-19 pandemic in FY 2020 and FY 2021. The task force has continued to close cases at a high level and has identified roughly sixty percent more registration violations in FY 2023 than in FY 2022. The division continues partnering with other jurisdictions and offices including the County Attorney, District Attorney, U.S. Attorney, FBI, and U.S. Department of Homeland Security.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	3,168,893	3,173,188	3,426,822	3,649,252	222,430
Operating	150,248	189,931	164,241	189,015	24,774
Total (Per&Op)	\$ 3,319,141	\$ 3,363,119	\$ 3,591,063	\$ 3,838,267	\$ 247,204
CAR*	4,380	-	-	-	-
Grand Total	\$ 3,323,521	\$ 3,363,119	\$ 3,591,063	\$ 3,838,267	\$ 247,204
FTEs	31.00	31.00	31.00	31.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Three increased by \$247,204 from the FY 2024 Adopted Budget. This is an 6.9% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

	Ongoing	One-Time	CAR	Total	FTEs	Earmarks
FY 2024 Adopted Budget	\$ 3,588,663	\$ 2,400	\$ -	\$ 3,591,063	31.00	\$ -

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Three includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,400 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Three Name includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Body Armor	\$12,000	\$ -	\$12,000	-
Total Programmatic Recommendations	\$12,000	\$ -	\$12,000	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Constable, Precinct Two includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Travel and Training Restoration	\$ -	\$2,600	\$2,600	-
Total Administrative and Other Funding Changes	\$ -	\$2,600	\$2,600	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to Matt Kojm, FY 2025 Preliminary Budget

Constable, Precinct Three

revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$2,600 in ongoing operating resources for Constable, Precinct Three. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Three includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.	\$-	\$126,420	\$126,420
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	51,909	51,909
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	34,077	34,077
Resources for health insurance cost increases for FY 2025.	-	16,457	16,457
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	6,141	6,141
Total Compensation Changes	\$-	\$235,004	\$235,004

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

Constable, Precinct Three re-allocated \$12,000 from its personnel to its operating budget in its FY 2025 budget submission. This will allow the Office to attend relevant trainings in law enforcement and civil process.

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that

have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, Constable Precinct Three has 28 fees it charges and one revenue-generating contract it manages. Of those only the contract is being proposed for adjustment in FY 2025.

Below is a table with additional details on the revenue generating contract that has been proposed for adjustment on the basis of full cost recovery. This contract is currently below the full cost recovery rate of \$192,181. This proposed adjustment is currently being reviewed by PBO and the County Auditor’s Office. PBO and the Auditor's Office will coordinate presenting the recommended changes to the Commissioners Court. Fee adjustments required to be approved by the Commissioners Court will be presented in September prior to the adoption of the FY 2025 Budget. Recommended changes to any revenue contracts will be presented to the Commissioners Court at the next contract renewal or according to the terms of the contract.

<i>Central Contract Name</i>	<i>FY 2024 Contract Amount</i>	<i>FY 2025 Proposed Contract Amount</i>	<i>Justification for FY 2025 Proposed Contract Amount</i>
Shady Hollow MUD	\$124,444	\$143,110	Partial cost recovery. 15 percent increase over prior year until full cost recovery is met.

FUTURE CONSIDERATIONS

Constable, Precinct Three has made numerous strides in modernizing and digitizing services. Staff can now advise defendants of issued warrants and make notes accordingly in a paperless tracking system. Status updates for civil citations can be viewed on the Office's website without having to contact a Court Clerk or Civil Deputy. The Office continues to inform current and potential customers about utilizing e-file to process citations, allowing for a more quick and convenient service. Task force investigators and team members utilize a paperless (case) reporting system that can be viewed by other agencies, eliminating the need for hard copies and reducing the use of paper. Electronic ticket writers are being utilized to eliminate the use of traditional carbon copy tickets. The Office is in the process of acquiring a Brazos phone application to issue citations in lieu of E-citation devices. This allows all deputy mobile devices to have this application on their phones without additional hardware.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: PUBLIC SAFETY DEPUTIES

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 453,698	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three’s Office is requesting funding for two (2) FTE positions for its Public Safety Unit. This is to deter habitually speeding vehicles, enforce traffic violations, work in school zones, and work the many vehicle collisions in the high traffic areas, and to help educate traffic safety within Travis County. The Office states that the continued need for public safety on highly traveled roadways, which are constantly undergoing construction, is something that continues to be sought after by community members.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Traffic Citations	4,809	6,385	5,500	5,600	9,000	9,300

PBO RECOMMENDATION

PBO does not recommend funding for this request at this time. As part of the FY 2020 budget process, Constable, Precinct Three’s Office was approved for three SPW Constable Deputy positions for a two-year term for a traffic enforcement pilot program. This program was similar to a pilot program approved for the Constable, Precinct Four Office in FY 2021 with two SPWs. The Constable, Precinct Three SPWs were subsequently extended by one year due to the impacts of the COVID-19 pandemic at the start of the pilot and to align the conclusion of both pilot programs at the end of FY 2022. Both of these pilot programs were evaluated for efficacy as part of the FY 2023 budget process.

In its analysis, PBO made the following recommendation in the FY 2023 Preliminary Budget:

“PBO recommends a centralized model for Traffic Enforcement with the focus being on the unincorporated areas being performed by the Travis County Sheriff’s Office. This recommendation includes the termination of the pilot programs within Constable, Precincts Three and Four in FY 2023.”

Commissioners Court ultimately approved eliminating two of the three vacant SPWs in Constable, Precinct Three, and left the remaining vacant SPW in their FY 2023 Adopted Budget with an end date of September 30, 2023.

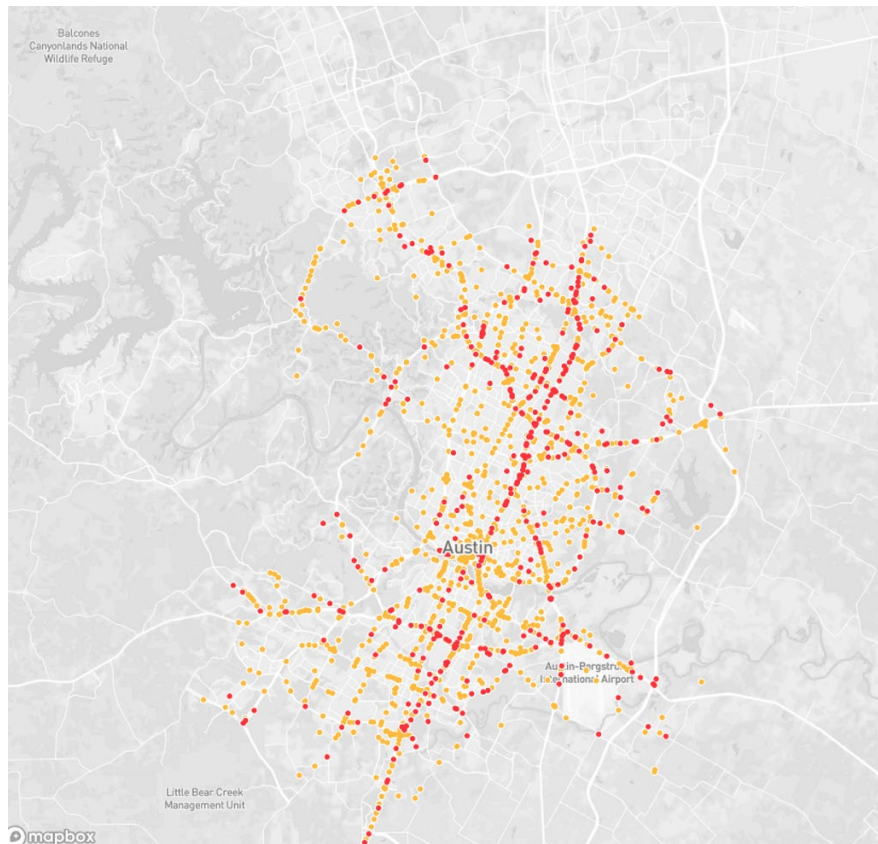

The partnership between the City of Austin Police Department and the Department of Public Safety, which began in late March 2023 and was ultimately suspended in July 2023, appeared to make a significant impact on increasing traffic enforcement in the areas where DPS personnel were utilized. Data from the first two weeks of the partnership showed that DPS made 4,016 traffic stops. Additional data from the City of Austin’s May 22, 2023, Public Safety Committee work session also appeared to show the effectiveness of the additional enforcement through a reduced number of serious crashes and crashes overall in the areas where the enforcement occurred. On December 23, 2023, DPS dissolved its Austin Violent Crime Task Force after nine months of operating in the City of Austin. The final data released by DPS showed that the department had performed over 84,000 traffic stops and 647 crash investigations. PBO also worked to obtain data on the instances of DPS citations within Precinct, Three. Compared to other precincts, the Justice of the Peace Precinct Three Office had the fewest citations from August 2023 to April 2024. The chart below details the number of citations by each Precinct by month.

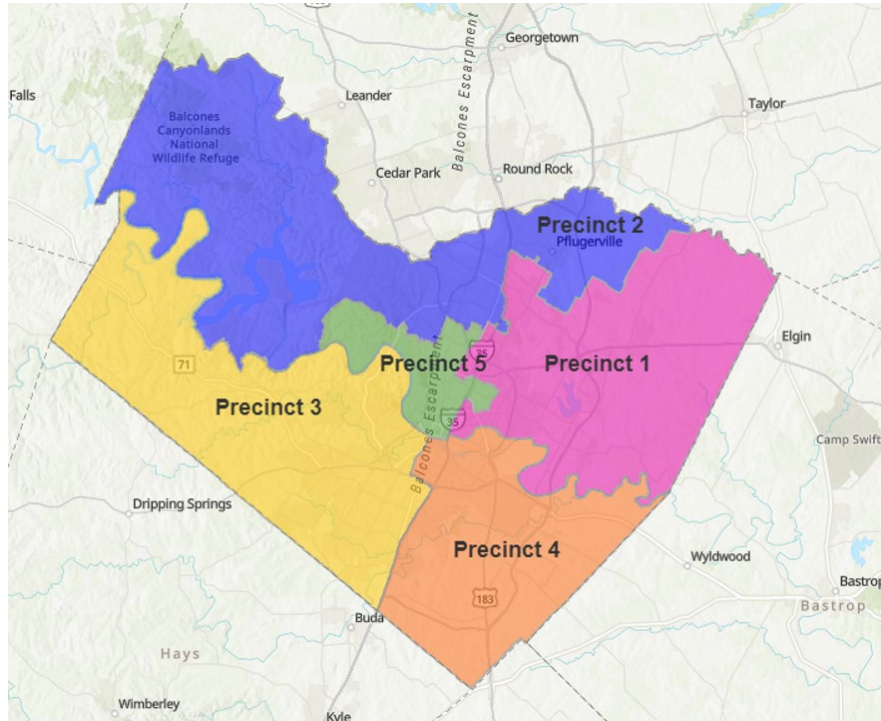

Although DPS has largely withdrawn from the City of Austin, both traffic fatalities and serious injuries due to crashes have dropped precipitously this year. According to the City of Austin's Vision Zero traffic data viewer, as of April 23, 2024, fatalities due to motor vehicle crashes within the City of Austin are down 58% year over year and are 31% lower than their five-year average. Further, the data viewer shows that reported serious injuries due to motor vehicle crashes within the City of Austin are down 60% year over year and are also 31% lower than their five-year average. The causal factor of this drop has not been clearly established, but it shows that there has been significant progress towards safer roadways without the previously present DPS enforcement and additional county resources deployed.

Additional data published in the Vision Zero traffic data viewer show that the locations of a large proportion of crashes leading to fatalities or injuries are concentrated north to south on the I-35 corridor. Map #1 below shows all traffic fatality and injury location data reported by the City of Austin from 1/1/2020 - 4/23/2024. The map shows fatalities as red dots and injuries as orange dots. Comparing this to Map #2, which shows each Constable's precinct, shows there is an uneven geographic concentration of both crashes leading to fatalities and crashes leading to injuries in each precinct. PBO reiterates its FY 2023 recommendation that a centralized approach to traffic enforcement with a focus on unincorporated areas by the Travis County Sheriff's Office best suits the nature and geographic scope of traffic safety concerns within the County and would be the most efficient option from a cost perspective.

Map #1 Traffic Fatality and Injury Location data from City of Austin Vision Zero

Map #2 Constable Precinct Boundaries

PBO recommends against taking on new responsibilities or services, particularly on behalf of other governmental entities, in light of SB2 and related revenue challenges the County faces. This would include any proposed agreement with the City of Austin for Travis County peace Officers, regardless of Office, to perform traffic enforcement services within the City's full purpose jurisdiction. There are too many risks and unknown factors to take on this additional responsibility.

It should also be noted that the Travis County Sheriff's Office has re-allocated resources within its existing budget to fund one new Law Enforcement Sergeant and four new Law Enforcement Deputy positions related to findings from its FY 2020 Law Enforcement Staffing Study. It is PBO's understanding that the Sergeant position will be added to the Motors unit, responsible for traffic enforcement, to allow one Sergeant on the west side of the County and one on the east side providing supervision of motor vehicle enforcement efforts. Additionally, two of the four Deputies will be assigned to the Motors Unit to do additional proactive traffic enforcement throughout the County's unincorporated areas, while the other two deputies will be assigned to the Office's Commercial Vehicle Enforcement (CVE) unit which specializes in enforcement of traffic violations by commercial and other large vehicles. PBO is supportive of these changes and believes this investment, using existing resources, will begin to address many of the concerns expressed in this request on the need for additional enforcement.

REQUEST #2: ACCOUNTANT ASSOCIATE

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	76,277	-	-	-
Operating	400	-	-	-
Subtotal	\$ 76,677	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 76,677	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 76,677	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three requests 1.0 Accountant Associate FTE. In light of the increasing demands in accounting functions within the Office, the Office advocates for the necessity of a full-time employee to undertake paraprofessional accounting responsibilities, including recording, analyzing, processing, and reconciling various financial transactions in compliance with established protocols. With expertise in standard accounting principles and proficiency in utilizing computer applications, the FTE will enhance financial reporting accuracy and efficiency, ensuring compliance with regulatory standards and facilitating effective budget monitoring and management.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO recognizes that each Constable precinct has civil process tasks that require financial knowledge and expertise as well as routine department financial accounting functions. Writs of Execution and bills of sale require department staff to interpret judgments and calculate collection totals. Precincts 1-4 have access to the Civil Serve case management software system as well as resources in the centralized financial division of Justice of the Peace, Precinct Two, to assist with this process and others. This centralized financial division provides detailed accounting and financial support to all five Constable offices as well as all five Justice of the Peace Courts. Adding additional resources for financial staff outside of this centralized framework could limit the utility and benefits of the current system. PBO encourages these ten Offices to assess their need for additional accounting and financial support within this centralized framework and make a request for resources as part of the FY 2026 budget process if needed. The Auditor’s Office may be able to help with this assessment.

While this request would allow the Office to better address its financial workload, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget due to very limited resources. SB 2 (86th Legislature) does not allow

Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute.

The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

REQUEST #3: TAX OFFICE INVESTIGATOR

<i>Program:</i>	Emissions Task Force (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	114,506	-	-	-
Operating	3,728	-	-	-
Subtotal	\$ 118,234	\$ -	\$ -	\$ -
Capital	121,610	-	-	-
Dpt Total	\$ 239,844	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 239,844	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three is requesting 1.0 Investigator FTE to work in conjunction with the Travis County Tax Office to enforce the law against those not remitting taxes on vehicle sales and any other criminal offenses associated with such.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO does not recommend funding for this request at this time. On August 5, 2023, HB 3297 was signed into law, eliminating mandatory vehicle safety inspections for non-commercial vehicles in the State of Texas, the law will take effect in 2025. However, gasoline vehicles between the ages of two and 24 years old, or upon the expiration of a vehicle’s initial two-year inspection sticker, must have an emissions test in Travis County. This is not expected to change at this time. Neither the Texas Department of Motor Vehicles (DMV) nor the Texas Department of Public Safety (DPS) use a meaningful amount of resources to investigate fraudulent vehicle inspections. In initial conversations related to a previous request for the investigator position in FY 2024, the District Attorney’s Office did note that they would be willing to prosecute such cases, but they also do not have the investigative capacity to spend on vehicle inspection fraud.

An effective and scalable approach to mitigating future fraudulent vehicle emissions tests will likely require additional resources in other County business units. Constable, Precinct Three’s Office has noted in both the FY 2024 and FY 2025 budget process that they would need additional resources to investigate such fraud cases and submit casework to the District Attorney’s Office to prosecute offending entities performing such inspections. Allocating additional resources in Constable, Precinct Three outside of a state-mandated function effectively widens the scope of the Constable’s Office’s duties and is a policy decision that requires Commissioners Court direction and likely would require a considerable investment in resources. Additionally, the county must recognize that while there are legitimate concerns about the amount of effort made on the part of DPS and DMV on emissions enforcement and fraud investigations, this work is ultimately a state responsibility. The County does not have resources to perform or supplement the State’s responsibilities in this area, and it is unlikely that the County will ever do so, given the revenue caps imposed by SB 2 (86th Legislature).

The Tax Assessor-Collector's Office has been gathering information and discussing the issue with other tax offices across the State in hopes of identifying best practices that could be implemented in Travis County to either prosecute these cases, or make changes to the Office's policies and procedures to prevent or deter them from occurring. These discussions have shown a varied approach in how cases of fraud are handled in each County. The Tax Office is also still gathering all the relevant information to identify all the necessary steps to investigate and prosecute these cases and the amount of workload that would be created at each step of the process for the relevant Office or Department to handle. PBO will work with the Tax Office in future budget cycles on any identified staffing it may need to strengthen its policies and procedures to detect and deter fraud.

REQUEST #4: OUTREACH DEPUTY

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-

DEPT. SUMMARY OF REQUEST

The Constable, Precinct Three Outreach Program (CORP) has become a unit utilized for many purposes in support of assisting Travis County’s homeless population. The Office states that in order to provide better service to the community, additional Deputies are needed to support this program.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of homeless people assisted	839	1,744	1,750	1,775	3,000	3,500

PBO RECOMMENDATION

PBO does not recommend funding for this request at this time. PBO recommends the Precinct Three Office prioritize its existing resources and efforts to the functions it deems are highest priority while meeting its statutorily mandated functions.

SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

REQUEST #5: TICKET WRITERS

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,087	\$ -	\$ -	\$ -

PBO notes funding for this request will be budgeted within a centralized budget in Information Technology Services (ITS) not within individual Constable Offices.

DEPT. SUMMARY OF REQUEST

PBO has received a request from Constable, Precinct Two, Three, and Four for ongoing resources of \$74,267 to fund ongoing implementation and usage of ticket software for all five Constable Precincts and TNR Parks.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Traffic Citations	4,809	6,385	5,500	5,600	10,000	12,000

PBO RECOMMENDATION

The FY 2024 Adopted Budget included an Earmark against the Allocated Reserve of \$240,000 (\$200,000 one-time, \$40,000 ongoing) for the implementation of new electronic ticket writers for each Constable Office and TNR park rangers. This Earmark amount was an estimate based on planning discussions at the time. Throughout FY 2024, Precinct Three worked with each Constable Precinct, TNR Parks, ITS, and Purchasing to identify the scope, cost, and implementation for the new shared ticket writer software. Later in FY 2024, the Commissioners Court is scheduled to consider a one-time transfer of \$282,531 (\$240,000 Earmark, and \$42,531 in supplemental one-time funds) to fund one-time costs related to the initial rollout and implementation of ticket writer software to be used on County issued cell phones. The increase in the ongoing costs compared to the initial estimate in the FY 2024 budget process is related to pricing adjustments from the vendor since that time, as well as additional functionality to further streamline reporting and other tasks for things such as the annual Racial Profiling Report required by the State. PBO supports this added cost and believes the added functionality will reap significant savings on administrative work hours, allowing more productivity from existing staffing levels.

PBO believes these devices will improve the efficiency of Constable traffic enforcement efforts, reduce errors by eliminating paper tickets, and allow deputies to write tickets faster, which will improve safety by keeping them off the side of roadways. PBO recommends approval and that the ongoing ticket writer costs be budgeted in Information Technology Services (ITS) for ease of administration and payments to the vendor who already has a centralized contract for several other services. Bundling this new ongoing maintenance cost within that contract has the potential to save the County money in the long-term.

REQUEST #6: LAW ENFORCEMENT TRAINING

<i>Program:</i>	Civil Unit (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	95,000	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 95,000	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 95,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three requests to convert a FY 2024 one-time Earmark against the Allocated Reserve to ongoing for supplemental training into ongoing resources for all Constable Deputies and Park Rangers. The ongoing training will emphasize tactical skills, such as executing writs of possession/eviction and ensuring courtroom security. Participants will receive comprehensive instruction in various areas, including threat discrimination, two to four man building search, room entry techniques, responding to barricaded subjects, mechanical breaching, ballistic shield utilization, basic trauma care, force on force scenarios using simunition, and live-fire pistol fundamentals. The training will equip participants with essential knowledge and abilities to handle critical situations effectively and safely.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO has received a request from Constable, Precinct One to renew, and Constable Precinct Three to fund on an ongoing basis a \$95,000 earmark intended for supplemental training for each Constable Precinct and TNR Park Rangers.

As part of the FY 2024 Adopted Budget, the Commissioners Court approved a \$95,000 Earmark against the Allocated Reserve to provide newly state-mandated Advanced Law Enforcement Rapid Response Training (ALERTT) as well as additional public safety training beyond what is statutorily required for peace officers.

In January 2024, the Travis County Sheriff’s Office (TCSO) began offering the statutorily required Advanced Law Enforcement Rapid Response Training (ALERTT) for active shooter scenarios for all Travis County Peace Officers, as well as many other Law Enforcement entities across Travis County. Given that each Constable Precinct and TNR Parks would be receiving ALERTT training through TCSO, the six offices identified additional supplemental training that fit the needs of each of their offices to be paid for with the \$95,000 Earmark.

On April 23, 2024, the Commissioners Court approved the transfer of the earmark to fund a coordinated two-day joint tactical operations training for Constable Precincts One, Three, Four, Five, and TNR Parks, which will train 133 peace officers across

five offices. Precinct Two was also allocated a share of the earmark to provide training to the Office's personnel who are not currently trainers to become certified trainers in multiple other areas.

PBO does not recommend funding currently. PBO believes that the County's public safety offices and departments can benefit from additional training to keep County staff and the public safe in the performance of their duties. PBO will continue to work with each Constable Precinct to understand their training needs. PBO continues to encourage coordination and collaboration with the Travis County Sheriff's Office for training opportunities that could be available for other Travis County peace officers at little to no cost. The Sheriff's Office has expressed to PBO its willingness to help assist all Offices/Departments with peace officers with required or discretionary training at their Training Academy, subject to availability.

Included in the FY 2025 preliminary budget is a 50% restoration of training budget reductions approved by the Commissioners Court as part of the FY 2021 Adopted budget. These cuts were implemented to stabilize the county budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Funding includes \$2,600 in ongoing operating resources for Constable, Precinct Three. PBO will continue to work with offices and departments to understand their travel and training needs throughout FY 2025 and future budget processes.

REQUEST #7: EVIDENCE TECHNICIAN

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	72,360	-	-	-
Operating	400	-	-	-
Subtotal	\$ 72,760	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 72,760	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 72,760	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three requests 1.0 Evidence Technician FTE to enhance efficiency in managing and cataloging evidence, ensuring accuracy and compliance with legal standards. The Office states the position will streamline processes, improve organization, and facilitate seamless access to critical information, ultimately strengthening the effectiveness of its operations.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

Each Constable precinct has evidence responsibilities that fall on both its civilian and sworn staff. This position would be a new type of civilian position within a Constable’s Office as there are currently no evidence technicians currently within Constable Precincts 1-5. As such, PBO would advise Precinct Three to work with other offices to identify best practices and policies around evidence management at the constable precinct level. If additional resources are needed for relevant training and implementation of new evidence management practices, PBO advises the office to revise its workbook submission to identify existing operating funds or unallocated permanent personnel savings.

REQUEST #8 DPS CLERK

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	72,360	-	-	-
Operating	400	-	-	-
Subtotal	\$ 72,760	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 72,760	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 72,760	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three requests support clerical staff located at both the North and South DPS Highway Patrol offices. These positions would provide administrative assistance for DPS operations that the department states directly benefit Travis County. Similar positions were delimited from the County in FY 2013.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO does not recommend funding for this request at this time. Five Court Clerk I FTE positions were initially authorized by the Commissioners Court in FY 1994 in the Travis County Sheriff's Office to work with DPS Highway Patrol. They were all moved to the Constable Precinct 3 Office in FY 1996 and housed at four DPS offices in Travis County and the Anderson Mill area of Williamson County. These positions were authorized primarily to process DPS citations for the Justice of the Peace (JP) Courts in Travis County. The positions were originally authorized under the rationale that increased revenue through fees and citations made the positions self-funded. These positions were delimited over time and no longer exist.

In the FY 2013 Preliminary Budget PBO stated that "a review of the Constable request indicates that a great deal of the tasks performed by these Court Clerks is not related to revenue activity for the County but rather administrative support for the DPS. In effect, the original revenue rationale appears to have subsumed as a small part of the work by them. In view of the

apparent shift in the original purpose for these positions, PBO recommends not continuing these FY 12 one-time positions for FY 13."

PBO also worked to obtain data on the instances of DPS citations within Precinct, Three. Compared to other precincts, the Justice of the Peace Precinct Three Office had the fewest citations from August 2023 to April 2024. The chart below details the number of citations by each Precinct by month.

PBO strongly recommends against taking on new responsibilities or services, particularly on behalf of other governmental entities. The County does not have the resources to perform or supplement the State’s responsibilities in this area, and it is unlikely that it will ever do so, given the revenue caps imposed by SB 2 (86th Legislature).

REQUEST #9: COURT CLERK

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	72,360	-	-	-
Operating	400	-	-	-
Subtotal	\$ 72,760	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 72,760	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 72,760	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three requests 1.0 Court Clerk I FTE. The Office states that the request will address a current staffing deficit and accommodate increased civil and criminal process workload within Precinct Three. The Office also emphasizes that the position will be filled immediately upon approval and will help mitigate the impact of rising case filings and court activity resulting from continuous population growth in Precinct Three, ensuring the efficient and effective operation of mandated functions.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

In analyzing prior requests from FY 2023 for additional constable staff, PBO expressed concern that it did not have adequate data or capacity to do a full staffing study. A complete staffing study would require significant resources and likely outside consultant assistance. A staffing study, like the one completed in 2020 for the Law Enforcement Bureau of the Travis County Sheriff’s Office, considers many datasets and factors as part of recommended staffing levels. For the Constables, a study would include: Computer Aided Dispatch (CAD) data, Odyssey/Civil Serve data, inputs from the Justices of the Peace, relief factors, vacancies, interviews with deputies, differences in policy and practices, geographical and socioeconomic factors of each precinct, comparisons to other Constable offices in other counties, and more. It would also look at not just Deputy workload and productivity, but also the supporting court clerks and other civilian staff in the Office supporting the Deputies in the field.

PBO has made progress in accessing relevant workload data but has limited capacity for an analysis of this scope. PBO recently gained reporting access to Civil Serve, the case management system that Constable, Precincts 1-4 use to manage their civil process workloads. PBO believes that this information could be helpful in establishing targets and thresholds for future Constable staffing needs related to civil process workloads. PBO has used this information to evaluate requests both for

Constable Deputy FTEs as well as Court Clerk FTEs and intends to share the combined data with each precinct to help them facilitate discussions on trends in workload and how to manage their civil divisions effectively.

A workload driver for court clerks is inputting various papers received in the civil serve case management system, although they have various other tasks that include researching defendants as needed, answering phone calls from plaintiffs and defendants, preparing necessary documents to be served by deputies, communicating with issuing courts as needed, requesting substitute service documents at the direction of attempting deputies, filing affidavits and responding to issuing courts. Each paper executed by an office requires data entry and includes all the necessary documentation and coordination requirements. Another workload driver for Court Clerks is the intake and processing of Warrants. Warrants also have necessary documentation and coordination requirements before they can be served and eventually cleared by the office. The below analysis takes both metrics into account. Warrant processing is self-reported to PBO by departments as part of the performance management process. PBO cannot independently verify these numbers as it can with Civil Serve.

To quantify the Clerk's workload based on the number of civil and criminal papers executed PBO divided the total civil papers received by the number of Court Clerks available in each office for civil and criminal process work in Graph 3. The breakdown of authorized court clerks is in the table below.

Table 3: Authorized Court Clerk Positions by Office and Fiscal Year

<i># of Court Clerks Budgeted by Fiscal Year with Primary Responsibilities Involving Civil and Criminal Processes</i>							
<i>Precinct</i>	<i>FY 2018</i>	<i>FY 2019</i>	<i>FY 2020</i>	<i>FY 2021</i>	<i>FY 2022</i>	<i>FY 2023</i>	<i>FY 2024</i>
One	5.00	5.00	5.00	5.00	5.00	5.00	5.00
Two	9.00	6.00	6.00	7.00	7.00	8.00	8.00
Three	6.00	6.00	6.00	6.00	6.00	6.00	6.00
Four	5.00	6.00	6.00	7.00	7.00	7.00	6.00
Five	17.00	17.00	17.00	17.00	17.00	17.00	17.00

Graph 3: Ratio of Clerks to Civil and Criminal Workload

Precinct Three’s workload is largely in line with Precinct One, Two, and Four of served paper per clerk. Precinct Five has roughly 500 more civil and criminal papers per authorized clerk. While this request would allow the Office to address civil workload better, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget, due to very limited resources. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

REQUEST #10: BODY ARMOR REPLACEMENTS

<i>Program:</i>	Civil (133)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	12,000	12,000	-	-
Subtotal	\$ 12,000	\$ 12,000	\$ -	\$ -

Dpt Total	\$ 12,000	\$ 12,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 12,000	\$ 12,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Three requests eight (8) body armor vests that will reach their 5-year life span. Body armor expires every five years and is a significant expense when several must be replaced in the same year. This equipment provides officer safety while they perform their job functions.

BUDGET REQUEST PERFORMANCE MEASURES

None Provided

PBO RECOMMENDATION

PBO is recommending \$12,000 of one-time funding for replacement body armor. In conversations with law enforcement offices, PBO has learned that body armor has an expiration period of five years, which is set by the manufacturer. Over the past few fiscal years, the Constable’s Office has assessed the equipment on hand and has brought forward a request to replace those that are currently expired or near expiration.

Constable, Precinct Four (134)

CONTENTS

Mission Statement, Strategic Goals, and Functional Area	2
Programs & Performance Management	3
Adopted Budgets FY 2022-2024, Preliminary Budget FY 2025	5
FY 2025 Preliminary Budget Recommendations Summary	6
Additional Information	7
FY 2025 Budget Request Analysis	9
Request #1: SPW to FTE Constable Deputy	9
Request #2: Court Clerk Staffing	14
Request #3: Ticket Writers	17

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Constable, Precinct Four Office (Constable Four) is to enhance the quality of life for residents, serve our community with courtesy and professionalism, collaborate with local, state, and federal enforcement agencies, provide exceptional service to the citizens of Travis County, exercise due diligence throughout service of the legal process, and maintain a healthy work environment for all deputies and staff, through shared experience and leadership.

The Constable, Precinct Four has identified the following departmental goal(s):

- Execute civil process to ensure that citizens receive the benefits of due process. Staff members are sensitive and responsive to both plaintiffs and defendants in the performance of their duties;
- Execute criminal and family law to ensure the protection of Travis County citizens and expedite case resolution;
- Provide courtroom security/bailiff services for the Precinct Four Justice Court; protect employees and visitors for four county departments from workplace violence at the Ray Martinez Building on McKinney Falls Parkway through patrols and screening for weapons and contraband;
- Provide training above minimum requirements for all employees, which will ensure the Constables office has well trained employees. This will increase the quality of service the office can provide to the citizens of Precinct four. It will also reduce the risk of mistakes and liability by having well a trained staff; and
- Increase community outreach within Precinct Four.

This aligns with the new County goal “Provide services that support the safety of people in the community.”

The Constable, Precinct Four is budgeted in the Public Safety Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

CIVIL DIVISION:

The Civil Division provides service of all Civil Process directed from the Courts and execute all Warrant process directed from the Justice of the Peace, County Courts and District Courts in accordance with Texas Rules of Civil Procedure Rule 99 & Texas Local Government Code 86.021. Additionally, deputies in the Civil Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 Duties and Powers and acts upon criminal violations which occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of Civil papers cleared within the legally mandated timeframes	100%	100%	100%	100%	100%
Civil Process executed	3,754	5,600	7,500	8,500	8,800

Constable Precinct Four's increase in civil process workload from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Civil workload performance on citations in FY 2022 recovered somewhat as Courts slowly re-opened and limited the number of cases to maintain social distancing. Performance in FY 2024 is expected to be higher than in FY 2023. Civil process workload continues to increase and looks likely to exceed pre-pandemic levels.

CRIMINAL DIVISION:

The Criminal Division provides service to the court to include all Warrant process directed from the Justice of the Peace, County Courts and District Courts in accordance with Texas Code of Criminal Procedure Article 15.16 & Texas Local Government Code 86.021. Additionally, deputies in the Criminal Division perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 Duties and Powers and takes action upon criminal violations which occur in their presence.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of Issued Warrants Successfully Served	100%	100%	100%	100%	100%
Warrant executed	1,359	3,000	3,000	3,100	3,200
Warrants Intake & Processing	2,096	2,635	3,000	4,000	4,000

Similar to the Civil Division, Constable, Precinct Four’s Criminal Division performance in FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. The Division has significantly increased warrants executed in FY 2023, and the workload for the division is expected to remain fairly stable after an increase in FY 2023.

SECURITY DIVISION:

The Security Division is mandated to provide bailiff coverage under Section 86.021(e) of the Texas Local Government Code and shall attend each justice court held in the precinct. Constable Two also provides entry security for the building and safety to the entire premise of the Precinct Four property. The building houses several other offices including Justice of the Peace Precinct Four, a satellite Tax Office, and an office for Community Supervision and Corrections Department (CSCD). However, the security functions related to entry screening and building premise monitoring are not considered mandated under State law.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number visitors screened	40,000	142,000	150,000	150,000	150,000

Constable Precinct Four’s increase in security screenings from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Performance in FY 2024 is expected to be stable as court operations have largely returned to normal.

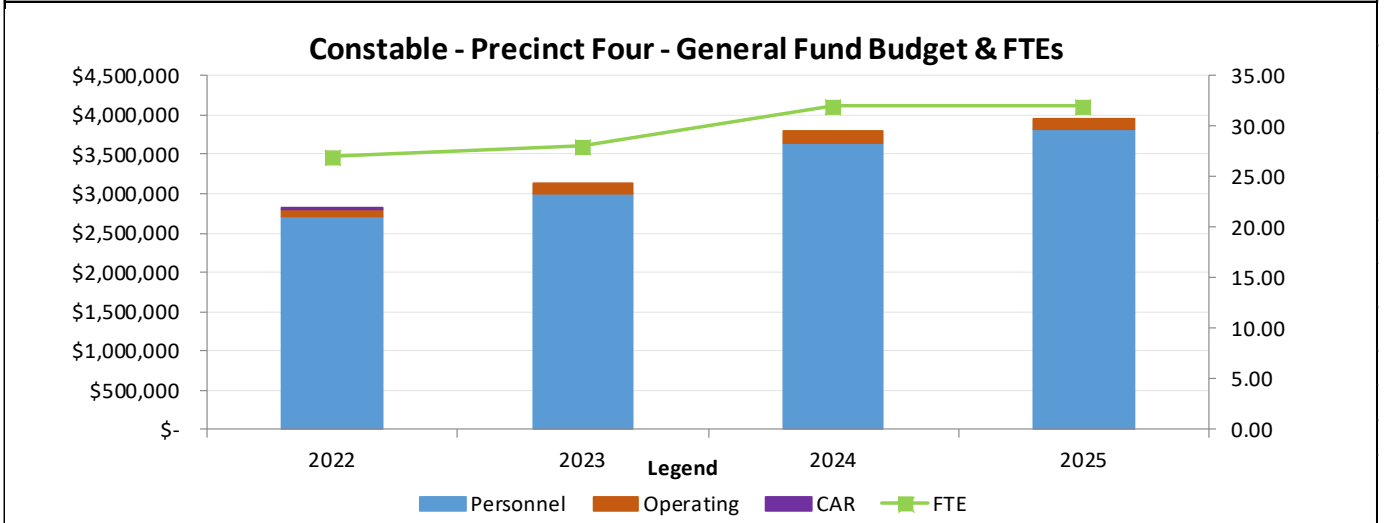

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Four by \$157,060 from the FY 2024 Adopted Budget. This is an 4.1% increase. The increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

	Ongoing	One-Time	CAR	Total	FTEs	Earmarks
FY 2024 Adopted Budget	\$ 3,695,824	\$ 110,868	\$ -	\$ 3,806,692	32.00	\$ -
Target Budget Changes

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Four includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$110,868 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Constable, Precinct Four includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	One-Time	Ongoing	Total	FTEs
Travel and Training Restoration	\$-	\$2,520	\$2,520	-
Total Administrative and Other Funding Changes	\$-	\$2,520	\$2,520	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$2,520 in ongoing operating resources for Constable, Precinct Four. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Four includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.	\$-	\$154,443	\$154,443
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	61,009	61,009
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	26,280	26,280
Resources for health insurance cost increases for FY 2025.	-	16,988	16,988
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	6,140	6,140
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	548	548
Total Compensation Changes	\$-	\$265,408	\$265,408

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the Office has 28 fees it charges and zero revenue generating contracts it manages. Of these, zero are proposed by the Office for adjustment in FY 2025.

FUTURE CONSIDERATIONS

Constable, Precinct Four is developing plans to help meet the growing demand for services in its jurisdiction. Part of these discussions may involve additional physical space at the Precinct Four courthouse to handle the increased number of customer visits. In addition, the Office is exploring implementing more online services and providing training to deputies for interacting with individuals experiencing mental health issues and crises.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: SPW TO FTE CONSTABLE DEPUTY

<i>Program:</i>	Civil Unit (134)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 94,992	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Four Office is requesting ongoing funding to convert 1.0 Constable Deputy SPW to an FTE. The current SPW employee would fill this position immediately. The position would be utilized to accommodate raised work levels in both current and projected of mandated functions. The Office cites a 550% increase in probation arrests year over year, increased civil process volume, and increased warrant workload in its request. The Office intends to have the new FTE perform both civil process and probation arrests. Without an extension of the SPW or a conversion to an FTE, the incumbent employee would no longer have a position to occupy within Constable, Precinct Four Office after September 30, 2024, unless a different Constable Deputy FTE position is vacated.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO has received a request from Constable, Precinct Four, for additional resources to address its increased civil process workload. The current Constable Deputy SPW is primarily assigned duties that involve probation arrests at the Community Supervision and Corrections Department (CSCD) office co-located with Constable, Precinct Four. The Office is proposing as part of the conversion from SPW to FTE to expand their duties to include both working on civil process and continuing to help with probation arrests. In April 2023, the Commissioner's Court approved the mid-year conversion of 3.0 Constable Deputy SPWs to FTEs within Constable, Precinct Four. In FY 2024, the Adopted Budget Commissioners Court approved an additional constable deputy related to probation arrests for a total of four additional FTEs within the past 14 months. In addition, as discussed above, an additional Special Project Worker Deputy Constable also to support probation arrests was added for a one-year period.

In analyzing prior requests from FY 2023 for additional constable staff, PBO expressed concern it did not have adequate data or capacity to do a full staffing study. A complete staffing study would require significant resources and likely outside consultant assistance. A staffing study, like the one completed in 2020 for the Law Enforcement Bureau of the Travis County

Sheriff's Office, considers many datasets and factors as part of recommended staffing levels. For the Constables, a study would include: Computer Aided Dispatch (CAD) data, Odyssey/Civil Serve data, inputs from the Justices of the Peace, relief factors, vacancies, interviews with deputies, differences in policy and practices, geographical and socioeconomic factors of each precinct, comparisons to other Constable offices in other counties and more. It would also look at not just Deputy workload and productivity, but also the supporting court clerks and other civilian staff in the Office supporting the Deputies in the field.

PBO made progress in accessing relevant workload data but has limited capacity for an analysis of this scope. PBO recently gained reporting access to Civil Serve, the case management system that Constable, Precincts 1-4 use to manage their civil process workloads. PBO believes this information could be helpful in establishing targets and thresholds for future Constable staffing needs related to civil process workloads. PBO has used this information to evaluate requests both for Constable Deputy FTEs as well as Court Clerk FTEs and intends to share the combined data with each precinct to help them facilitate discussions on trends in workload and how to manage their civil divisions effectively.

To have a clear methodology, PBO conducted a comparative analysis of civil process workload by Constable precinct. This was done by utilizing information input into Civil Serve by each Office to determine the civil workload both in papers received and papers served across the precincts. PBO obtained this data by running the 'Papers Received by Paper Type' report as well as the 'Service Statistics' report. The former categorizes all civil papers received by a constable office and input by support staff, while the latter details each service, attempted service, and total service attempts. It's worth noting in the past, different offices have pointed out papers served may not be the most accurate representation of workload for civil deputies as some papers require multiple attempts before being successful and unsuccessful services still require effort on the part of the deputy along with successful ones. Graph 1 shows the total service attempts for each office by Fiscal Year. The graph spans three distinct periods that have had broad effects on office workload: pre-pandemic (FY 2018 & FY 2019), pandemic decline (FY 2020, FY 2021), and post-pandemic workload recovery (FY 2022, FY 2023, FY 2024 projected). Graph 2 shows total civil papers and criminal papers served by precinct. PBO notes Constable, Precinct Five does not maintain aggregated data by attempts is working to with the office to collect relevant comparable data of its civil workload. As of the end of FY 2023, only precinct one fully recovered its civil workload to the pre-pandemic level. (Precinct Five has been excluded as they do not track aggregated attempts). Given current data pulled from October 1 to July 1, 2024, the remaining four offices are projected to return to their pre-pandemic levels. Overall, Civil and Criminal workloads have returned to roughly to pre-pandemic levels in all offices except for Precinct Five.

Graph 1

Graph 2

All offices have seen workload increase from pandemic lows and precincts 1-4 now all have a larger civil and criminal workload than FY 2018. Precinct Two has seen the largest increase of 20.8% whereas Precinct Five has largely remained the same over the last three fiscal years after a steep drop off from FY 2019- FY 2022.

The table below (table 1) shows the percentage change in civil and criminal workload in each constable precinct compared to the percentage change in Deputies, Corporals, and Sergeants in each office from 10/1/2018 to 7/1/2024. PBO notes that offices have additional responsibilities outside of civil and criminal processes including interlocal agreements, special

projects, task forces, security responsibilities, and potential emergency response. Some changes in FTEs have been to address the maintenance of the current efforts in the Civil and Criminal Processes, other changes have also occurred related to securing justice of the peace courts, interlocal agreements, and pilot program Special Project Workers converted to FTEs. The variable duties and asymmetry of information make it difficult to compare each office, given the variety of mandated and non-mandated services that each precinct provides.

Table 1: Workload and Staffing Changes

Precinct	FY 2018-2024(projected) % change in Civil and Criminal Process workload	FY 2018-2024 % change in Deputies, Corporals, and Sergeants FTEs	FY 2018 – 2024 Nominal change in Deputies, Corporals, and Sergeants FTEs
One	15.9%	17.6%	3.00
Two	20.8%	22.7%	5.00
Three	2.7%	12.5%	2.00
Four	3.6%	31.3%	5.00
Five	(47.52%)	13.3%	4.00

PBO has been unable to verify individual assignments for deputies for a comparative analysis across all five precincts as multiple offices have noted assignments change on a day-to-day basis and are fluid based on workload demands. This limits the comparability of the offices as each office has unique responsibilities for different interlocal agreements, special projects, task forces, security responsibilities, and potential emergency response. A comparative analysis taking all these factors into account would require a comprehensive staffing study completed outside of the time constraints of the budget process and would require many months of stakeholder interviews, data analysis, and asset mapping. A staffing study, like the one completed in 2020 for the Law Enforcement Bureau of the Travis County Sheriff’s Office, considers many datasets and factors as part of recommended staffing levels and would also consider the supporting court clerks and other civilian staff in the Office. PBO has limited resources to complete such a study and would likely need to explore resources external to the county to complete such a study.

Additionally, Constable, Precinct Four expressed that increased arrest volume would be a workload driver for this new position. To evaluate the workload impacts of increased instances of probation arrests at the CSCD office co-located with Constable, Precinct Four, PBO collected arresting agency data from Central Booking operated by the Travis County Sheriff’s Office. Below is a table detailing the total arrests by Constable Precinct Four from FY 2018 to its FY 2024 projected numbers based on data as of May 1st.

Table 2: Arrest Data For Constable Precinct Four FY 2018 – FY 2024

<i>Fiscal Year</i>	<i>Total Arrests</i>	<i>Average Monthly Arrests</i>	<i>Average Weekly Arrests</i>	<i>Estimated Staff Time per week in hours</i>
2018	71	6	1.4	4
2019	96	9	1.8	6
2020	17	2	0.3	1
2021	23	3	0.4	1
2022	54	5	1.0	3
2023	122	10	2.3	7
2024 (projected)	141	12	2.7	8

The table shows total arrests per year, arrests per month, arrests per week, and average staff time per week. The staff time per week calculation is based on the following description from the budget materials submitted to the department: *“This process can take at least 2-3 hours from waiting for the probationer coming to the meeting, waiting in the lobby, confirming the warrant (could take at least 20 minutes), filling out paperwork, transporting to the jail and then going thru the jail process to include visiting the medical station for various questions where the probationer answered yes to.”* Given the description, PBO assumed an average of three hours per arrest. In discussions with the office, it was noted that given the complexity of cases, multiple deputies can be utilized at the time of a probationer's arrest. Three deputies being present for the entire three-hour arrest would yield a need for roughly 24 hours of total coverage per week.

Given that the office was authorized for a total of four additional FTEs within the past 14 months, including an FTE specifically for CSCD security, the office should be able to absorb this additional workload. Additionally, the specific CSCD security position approved in FY 2024 should have the capacity to address any large fluctuations in CSCD arrests well into the future.

Overall, based on the current data, PBO does not recommend the SPW conversion for Precinct Four to address its civil process workload. Although the civil and criminal workload is projected to return to pre-pandemic levels in FY 2024, the Office has five additional FTEs to address this workload compared to its staffing level in FY 2018. Further, an FTE added in FY 2024 for CSCD security should have the capacity to address any large fluctuations in CSCD arrests well into the future. PBO does not recommend funding currently.

REQUEST #2: COURT CLERK STAFFING

<i>Program:</i>	Civil Unit (134)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	72,891	-	-	-
Operating	-	-	-	-
Subtotal	\$ 72,891	\$ -	\$ -	\$ -
Capital	2,600	-	-	-
Dpt Total	\$ 75,491	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 75,491	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Four is requesting ongoing funding for the addition of 1.0 Court Clerk I FTE. The Office states that the position would be utilized to address a current staffing deficit to accommodate increased workloads for both current and projected mandated functions. Additionally, the position will allow the Office to conduct more cross-training of its clerks. The Office states that it is currently transitioning to a fully paperless system requiring additional staffing to sustain. This change will streamline and increase productivity but will come with additional maintenance and tasks that will have to be fulfilled by existing clerical staff.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

In analyzing prior requests from FY 2023 for additional constable staff, PBO expressed concern that it did not have adequate data or capacity to do a full staffing study. A complete staffing study would require significant resources and likely outside consultant assistance. A staffing study, like the one completed in 2020 for the Law Enforcement Bureau of the Travis County Sheriff’s Office, considers many datasets and factors as part of recommended staffing levels. For the Constables, a study would include: Computer Aided Dispatch (CAD) data, Odyssey/Civil Serve data, inputs from the Justices of the Peace, relief factors, vacancies, interviews with deputies, differences in policy and practices, geographical and socioeconomic factors of each precinct, comparisons to other Constable offices in other counties, and more. It would also look at not just Deputy workload and productivity, but also the supporting court clerks and other civilian staff in the Office supporting the Deputies in the field.

PBO has made progress in accessing relevant workload data but has limited capacity for an analysis of this scope. PBO recently gained reporting access to Civil Serve, the case management system that Constable, Precincts 1-4 use to manage their civil process workloads. PBO believes that this information could be helpful in establishing targets and thresholds for future Constable staffing needs related to civil process workloads. PBO has used this information to evaluate requests both for Constable Deputy FTEs as well as Court Clerk FTEs and intends to share the combined data with each precinct to help them facilitate discussions on trends in workload and how to manage their civil divisions effectively.

A workload driver for court clerks is inputting various papers received in the civil serve case management system, although they have various other tasks that include researching defendants as needed, answering phone calls from plaintiffs and defendants, preparing necessary documents to be served by deputies, communicating with issuing courts as needed, requesting substitute service documents at the direction of attempting deputies, filing affidavits and responding to issuing courts. Each paper executed by an office requires data entry and includes all the necessary documentation and coordination requirements. Another workload driver for Court Clerks is the intake and processing of Warrants. Warrants also have necessary documentation and coordination requirements before they can be served and eventually cleared by the office. The below analysis takes both metrics into account. Warrant processing is self-reported to PBO by departments as part of the performance management process. PBO cannot independently verify these numbers as it can with Civil Serve.

To quantify the Clerk's workload based on the number of civil and criminal papers executed PBO divided the total civil papers received by the number of Court Clerks available in each office for civil and criminal process work in Graph 3. The breakdown of authorized court clerks is in the table below.

Table 3: Authorized Court Clerk Positions by Office and Fiscal Year

<i># of Court Clerks Budgeted by Fiscal Year with Primary Responsibilities Involving Civil and Criminal Processes</i>							
Precinct	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024
One	5	5	5	5	5	5	5
Two	9	6	6	7	7	8	8
Three	6	6	6	6	6	6	6
Four	5	6	6	7	7	7	6
Five	17	17	17	17	17	17	17

Graph 3: Ratio of Clerks to Civil and Criminal Workload

Precinct Four’s workload is largely in line with Precinct One, Two, and Three in terms of served paper per clerk. Precinct Five has roughly 500 more civil and criminal papers per authorized clerk. While this request would allow the Office to address civil workload better, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget, due to very limited resources. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

REQUEST #3: TICKET WRITERS

<i>Program:</i>	Civil Unit (134)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	13,343	-	-	-
Subtotal	\$ 13,343	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 13,343	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 13,343	\$ -	\$ -	\$ -

PBO notes funding for this request will be budgeted within a centralized budget in Information Technology Services (ITS) not within individual Constable Offices.

DEPT. SUMMARY OF REQUEST

PBO has received a request from Constable, Precinct Two, Three, and Four for \$74,267 in ongoing resources to fund the implementation and usage of ticket software for all five Constable Precincts and TNR Parks.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

The FY 2024 Adopted Budget included an Earmark against the Allocated Reserve of \$240,000 (\$200,000 one-time, \$40,000 ongoing) for the implementation of new electronic ticket writers for each Constable Office and TNR park rangers. This Earmark amount was an estimate based on planning discussions at the time. Throughout FY 2024, Precinct Three worked with each Constable Precinct, TNR Parks, ITS, and Purchasing to identify the scope, cost, and implementation for the new shared ticket writer software. Later in FY 2024, the Commissioners Court is scheduled to consider a one-time transfer of \$282,531 (\$240,000 Earmark, and \$42,531 in supplemental one-time funds) to fund one-time costs related to the initial rollout and implementation of ticket writer software to be used on County issued cell phones. The increase in the ongoing costs compared to the initial estimate in the FY 2024 budget process is related to pricing adjustments from the vendor since that time, as well as additional functionality to further streamline reporting and other tasks for things such as the annual Racial Profiling Report required by the State. PBO supports this added cost and believes the added functionality will reap significant savings on administrative work hours, allowing more productivity from existing staffing levels.

PBO believes these devices will improve the efficiency of Constable traffic enforcement efforts, reduce errors by eliminating paper tickets, and allow deputies to write tickets faster, which will improve safety by keeping them off the side of roadways. PBO recommends approval and that the ongoing ticket writer costs be budgeted in Information Technology Services (ITS) for ease of administration and payments to the vendor who already has a centralized contract for several other services. Bundling this new ongoing maintenance cost within that contract has the potential to save the County money in the long term.

Constable, Precinct Five (135)

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Constable, Precinct Five Office (Constable Five) is to execute all court issued documents received by the Office in a timely and efficient manner, attend the Justice of the Peace court, execute criminal warrants, and enforce state laws and disabled parking as authorized by statute.

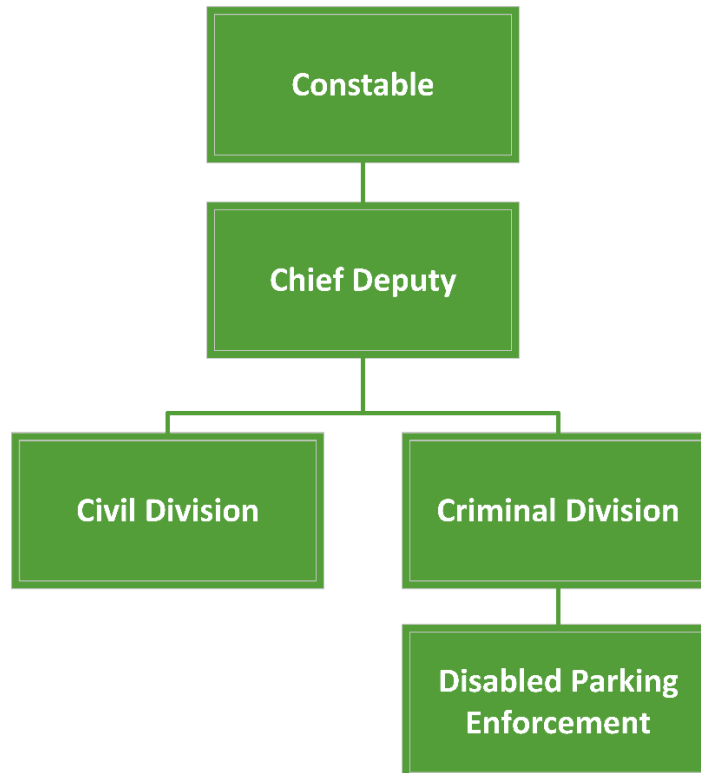

The Constable, Precinct Five has identified the following departmental goal(s):

- Execute all court issued documents and enforce laws as authorized by statute;
- Improve Class C Warrant programs; and
- Improve Disabled Parking Enforcement in Travis County.

This aligns with the new County goal “Provide services that support the safety of people in the community.”

The Constable, Precinct Five is budgeted in the Public Safety Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes" and are now linked to the County Goal, "Provide services that support the safety of people in the community."

CIVIL AND CRIMINAL DIVISION:

The Civil & Criminal Division provides service of all Civil and Warrant Process directed from the Courts and executes all Warrant process directed from the Justice of the Peace, as well as County Courts and District Courts, in accordance with Texas Code of Criminal Procedure Article 15.16, Texas Rules of Civil Procedure Rule 99 & Texas Local Government Code 86.021. Additionally, deputies perform all lawful duties as required by statute, Texas Code of Criminal Procedure 2.13 (Duties and Powers), and act upon criminal violations that occur in their presence.

Additionally, Constable Five has a Disabled Parking Enforcement initiative to conduct enforcement of on-view disabled parking violations by citizen volunteers and deputy constables in accordance with Texas Transportation Code 681.010. While this initiative is not mandated by State statute, it does assist in enforcing State law and providing community education about those laws.

Unlike the other four Constable Offices, the Civil and Criminal Divisions, as well as the Disabled Parking Enforcement initiative, are combined into one program. PBO and Constable Five have discussed creating additional programs to better communicate the office's functions to Travis County residents and demonstrate their performance.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
All Civil & Criminal Process received and processed	28,941	31,073	30,000	40,000	40,000
Class C Warrants Cleared by CN5 Collection	331	523	200	500	500
Class C Warrants Received (per year)	1,209	1,386	1,500	1,000	1,000
Disabled Parking Citations Issued	1,597	1,910	1,500	2,000	2,000
Illegally Used Placards Seized	30	49	50	75	75

Constable, Precinct Five's increase in Civil and Criminal process from FY 2022 to FY 2023 reflects the recovery from COVID-19 after the closures of various courts for at least half of the year in FY 2020 and FY 2021. Performance in FY 2024 is expected to be roughly the same as FY 2023. Civil and Criminal process workload returned to pre-pandemic levels in FY 2023, and for FY 2024, the outlook remains stable.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
HMS Courthouse Security	\$459,955	5.00/5.00	The Office was able to hire deputies with extensive courthouse security experience. The office originally was funded for four Deputy Constables and one Sergeant for the unit in FY 2023
<i>FY 2024</i>			
Courthouse Security Deputy	\$100,492	1.00/1.00	Due to the volume of visitors and coverage needed for deputy leave time, the Office had to request an additional FTE for FY 2024. The position has since been filled, which has allowed them to provide adequate coverage in FY 2024.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	5,417,835	6,124,106	6,729,430	7,198,164	468,734
Operating	174,338	245,798	208,373	225,719	17,346
Total (Per&Op)	\$ 5,592,173	\$ 6,369,904	\$ 6,937,803	\$ 7,423,883	\$ 486,080
CAR*	6,200	-	-	-	-
Grand Total	\$ 5,598,373	\$ 6,369,904	\$ 6,937,803	\$ 7,423,883	\$ 486,080
FTEs	58.00	63.00	62.00	62.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Five increased by \$486,080 from the FY 2024 Adopted Budget. This is an 7.0% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

	Ongoing	One-Time	CAR	Total	FTEs	Earmarks
FY 2024 Adopted Budget	\$ 6,929,053	\$ 8,750	\$ -	\$ 6,937,803	62.00	\$ -

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Five includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$8,705 was removed from the budget related to one-time operating costs for body armor equipment approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for Constable, Precinct Five includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Body Armor	\$17,150	\$ -	\$ 17,150	-
Total Programmatic Recommendations	\$17,150	\$ -	\$17,150	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Constable, Precinct Five includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
SAFE Alliance Contract Revenue Correction	\$-	\$5,309	\$-	-
Travel and Training Restoration	-	\$8,946	-	-
Total Administrative and Other Funding Changes	\$-	\$14,255	\$-	-

Included in the FY 2025 preliminary budget is a 50% restoration of training budget reductions approved by the Commissioners Court as part of the FY 2021 Adopted budget. These cuts were implemented to stabilize the county budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Funding includes \$8,946 in ongoing operating resources for Constable, Precinct Five. PBO will continue to work with offices and departments to understand their travel and training needs throughout FY 2025 and future budget processes.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Constable, Precinct Five includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.	\$-	\$254,392	\$254,392
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	89,824	89,824
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	74,062	74,062
Resources for health insurance cost increases for FY 2025.	-	32,914	32,914
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	6,141	6,141
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	6,092	6,092
Total Compensation Changes	\$-	\$463,425	\$463,425

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024, with scheduled approval on June 11, 2024, and these increases are included in anticipation of approval, with the contribution rate changing from \$1,079 in FY 2024 to \$1,123 for FY 2025.

There is currently no rate increase planned for retirement.

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Constable Precinct Five’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Overtime Bailiff	\$25,000
Total Allocated Reserve Earmarks	\$25,000

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the office charges 28 fees and manages four revenue-generating contracts. Of these, zero are proposed by the Office for Adjustment in FY 2025.

FUTURE CONSIDERATIONS

The Office has worked to maximize efficiency and use new technology. E-filing is now in full implementation, and the office is in sync with District, County, and JP offices. The office anticipates integrating other counties and private sector services for civil process served through precinct five through new technology. Workload volume from compensated private sector businesses has allowed Precinct Five to be more efficient by serving Civil process that is uncompensated (i.e., Protective Orders) in the same areas of Travis County where the private request is made with a service fee compensated Civil Process.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: BODY ARMOR

<i>Program:</i>	Civil & Criminal Process (135)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	17,150	17,150	-	-
Subtotal	\$ 17,150	\$ 17,150	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 17,150	\$ 17,150	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 17,150	\$ 17,150	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable Precinct Five requests one-time funding of \$17,150 for ten (10) body armor replacements for its deputies. Body armor expires every five years and is a significant expense when several must be replaced in the same year. Costs are now \$1,365 for the armor and \$350 for the outer carrier, for a total of \$1,715 per armor. This equipment provides officer safety while they perform their job functions.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO is recommending \$17,150 of one-time funding for replacement body armor. In conversations with law enforcement offices, PBO has learned that body armor has an expiration period of five years, which is set by the manufacturer. Over the past few fiscal years, the Constable's Office has assessed the equipment on hand and has brought forward a request to replace those that are currently expired or near expiration.

REQUEST #2: EXECUTIVE SECURITY DETAIL

<i>Program:</i>	Civil & Criminal Process (135)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	6.00	-	-	-
Personnel	752,028	-	-	-
Operating	88,000	-	-	-
Subtotal	\$ 840,028	\$ -	\$ -	\$ -
Capital	729,246	-	-	-
Dpt Total	\$ 1,569,274	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,569,274	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Five has been assisting in providing an increased level of security for Travis County elected officials due to increased threats, particularly from online sources. The cost of the additional security detail responsibilities has been internally funded on a temporary basis using a combination of personnel from several County departments and offices, but with the increasing number of threats being made, there is an indication that higher demand for security details may be needed on a long-term basis. Additionally, this program will work in conjunction with Travis County ITS Security and Operations to monitor internet activity to identify potential threats and formulate an appropriate response utilizing the executive security team.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

Discussions by the Commissioners Court around executive security are ongoing and this request is currently going to be addressed by another county department. PBO is working with the relevant supporting departments to understand the logistics and staffing to meet the need. PBO will continue to work with Constable, Precinct Five, other County law enforcement offices and departments, as well as the County Executive for Technology and Operations to address this need best based on directives by the Commissioners Court.

REQUEST #3 OVERTIME FOR BAILIFF

<i>Program:</i>	Civil & Criminal Process (135)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	25,000	25,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 25,000	\$ 25,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 25,000	\$ 25,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Constable, Precinct Five, is requesting earmarked funds to provide an additional courtroom bailiff using overtime amongst existing staff for Justice of the Peace Court, Precinct Five (JP5). JP5 is currently utilizing visiting judges to provide additional court proceedings in a second courtroom in the Heman Marion Sweatt (HMS) courthouse. Current staffing provides for one courtroom bailiff to cover the primary courtroom. The second courtroom is scheduled to operate three to four days a week, and the long-term plan is to keep this schedule as is to keep up with caseloads experienced by the Office.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

In the FY 2024 Adopted Budget, Commissioners Court approved an Earmark against the Allocated Reserve of \$25,000 to account for increased overtime for justice court bailiffs in Constable, Precinct Five. Due to a backlog of cases, in FY 2023 and FY 2024, the Justice of the Peace, Precinct 5 (JP5), has been operating a second courtroom with a visiting Judge roughly 3-4 days a week. Constable, Precinct Five reports that there is no plan to end operations of the second courtroom and requests to roll the prior year earmark for overtime into FY 2025 in the event it is needed to meet the demand for bailiff services for JP5. PBO notes that Constable, Precinct Five has absorbed FY 2024 overtime costs using temporary vacancy savings identified in their budget. The Office is working towards being fully staffed in FY 2025 and does not project it will be able to absorb overtime costs when fully staffed internally. Thus, the department expects to expend the earmark in FY 2025. PBO recommends approval.

Request #2: Crime Victims Fund 5% Increase	26

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of Counseling and Education Services (CES) is to promote public safety, crime reduction, assist clients and support agencies benefiting crime victims. This is accomplished by providing validated alcohol/drug and family violence assessments and education programs. CES provides customer-oriented services for adults and juveniles referred from the justice system and other community agencies.

The Department has identified the following departmental goals which align with the new County goal, "Provide services that support the safety of people in the community":

- To collaborate with other departments and community agencies to help increase awareness and improve justice system practices with domestic violence, sexual assault, dating violence, stalking, trafficking and prostitution in Austin and Travis County through task forces, specialty courts and public events;
- To provide valid assessments for both alcohol/drug and family violence cases primarily for the County Courts at Law to measure the client's risk and match their need with an appropriate counseling recommendation to help reduce relapse and recidivism and to help the clients progress through the criminal justice system in a timely and effective manner; and,
- To provide day-to-day administrative and operational CES functions to ensure the Department is operating smoothly and efficiently in order to accomplish its mission.

The Department has identified the following departmental goal which aligns with the new County goal, "Provide services that support people's physical and mental health":

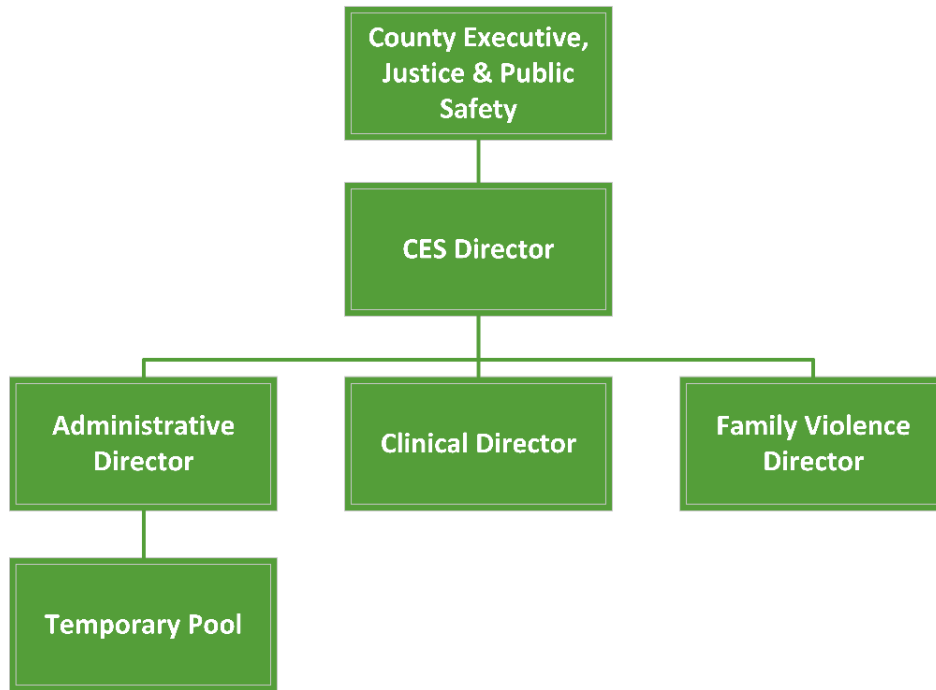

- To support agencies assisting crime victims in overcoming the trauma of victimization using offenders' class fees and thereby promoting restorative justice within the Travis County criminal justice system.

The Department has identified the following departmental goal which aligns with the new County goal, "Be a trusted and well-run county":

- To provide Alcohol and Drug Classes and related programs to meet the court ordered client's court-ordered individual needs, address the level of risk to the community and meet the legislatively driven and court-mandated requirements.

The Department is budgeted in the Corrections & Rehabilitation Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and human resolution of conflicts through an evolving justice system and other public process,” and are now linked to the County Goal, “Be a trusted and well-run county”:

ADULT EDUCATION CLASSES:

All the curricula used for the Adult Education classes offer cognitive based life skills, are offense specific, and encompass many of the principles of Evidence Based Practices and What Works research.

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure	Projected FY 2026 Measure
12-Hour Cognitive Life Skills I (CL1) # of classes	17	48	N/A	50	50
12-Hour Cognitive Life Skills I (CL1) # of clients completing	185	485	N/A	585	585

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
12-Hour Cognitive Life Skills I (CL1) # of clients referred to class	202	561	N/A	650	650
20-Hour Multiple Offender/Felony # of classes	32	43	N/A	32	32
20-Hour Multiple Offender/Felony # of clients completing	354	421	N/A	480	480
20-Hour Multiple Offender/Felony # of clients referred to class	439	591	N/A	686	686
8-Hour Assault/Misdemeanor # of classes	19	21	N/A	19	19
8-Hour Assault/Misdemeanor # of clients completing	123	117	N/A	158	158
8-Hour Assault/Misdemeanor # of clients referred to class	132	132	N/A	180	180
8-Hour Check Writing (CW) # of classes	2	2	N/A	N/A	N/A

8-Hour Check Writing (CW) # of clients referred to class	4	3	N/A	N/A	N/A
8-Hour Shoplifting # of classes	28	25	N/A	30	30
8-Hour Shoplifting # of clients completing	162	129	N/A	200	200
8-Hour Shoplifting # of clients referred to class	189	159	N/A	230	230
8-Hour Spanish # of classes	4	4	N/A	6	6
8-Hour Spanish # of clients completing	25	26	N/A	75	75
8-Hour Spanish # of clients referred to class	28	34	N/A	83	83
Total # of Classes	102	147	N/A	142	142
12-Hour Cognitive Life Skills I (CL1) # of classes	17	48	N/A	50	50
Total Number of clients completing the Adult Education classes	859	1,190	N/A	1,537	1,537
Total Number of clients referred to the Adult Education classes	994	1,489	N/A	1,937	1,937

While the program is not mandated, if classes are offered, they must follow regulations outlined in Health and Safety Code 121.0006 for the following: 20-Hour Multiple Offender/Felony program; 8-Hour Check Writing class; 8-Hour Assault/Misdemeanor class; 8-Hour Spanish class; 8-Hour Shoplifting/Petty Theft class; 8-Hour Prostitution Deterrent Solicitation (John Class) and 12-Hour Cognitive Life skills I class.

CES states its Adult classes will increase due to continued upward trends in the number of participants enrolling and that these classes continue to fill at quick rates. In response, CES created additional courses to meet enrollment numbers in the 20-Hour Cognitive Life Skills II (Multiple Offender/Felony) and the 12-Hour Cognitive Life Skills I classes. The Department reports it has successfully filled a few of the instructor vacancies but remains short-staffed with instructors overall. It will continue to focus on recruitment efforts for FY 2025. However, the 8-Hour Check Writing class continued to be underutilized, with seven referred participants and seven clients completing the course in FY 2023. In previous fiscal years, CES observed declines in the 8-Hour Check Writing classes, likely due to the use of checks growing more obsolete with the rising use of debit cards, and has considered no longer providing the class.

Additionally, CES continues to report an uptick in the number of clients receiving a fee waiver from a Judge. The Department utilizes a Sliding Fee Scale based on the 2021 HHS Poverty Guidelines that allow CES to adjust a fee based on the client's income to as low as 10 percent of the fee.

Lastly, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed “N/A” in the table above. Discussions are ongoing between CES and PBO on how to address this issue.

JUVENILE EDUCATION CLASSES:

The goal of Juvenile Education Classes is to provide the Municipal Court, Juvenile Court, and J.P. Courts with early intervention in their continuum of options for court-ordered sanctions for youth offenders. The DSHS 6-Hour Minor in Possession (MIP) is mandated under the Alcoholic Beverage Code, Section 106.115. The 8-Hour Anger Management (JAM) and 8-Hour Youth Misdemeanor classes are discretionary under the Texas Health and Safety Code.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
6-Hour Minor In Possession number of classes	0	2	N/A	2	2
6-Hour Minor In Possession number of clients completing	0	7	N/A	15	15
6-Hour Minor In Possession number of clients referred to class	0	7	N/A	20	20
8-Hour Youth Misdemeanor I number of classes	0	1	N/A	4	5
8-Hour Youth Misdemeanor I number of clients completing	0	1	N/A	52	62
8-Hour Youth Misdemeanor I number of clients referred to class	0	1	N/A	60	73
Total number of Classes	0	3	N/A	11	12
Total number of clients completing the Juvenile Education classes	0	8	N/A	140	150
Total number of clients referred to the Juvenile Education classes	0	8	N/A	167	180

This is a non-mandated program of the County; however, there are statutes governing these assessments in Texas Health and Safety Code 121.006 and Texas Code of Criminal Procedure 42.12 Section 14 (c1-2). CES notes that the curricula used for the Juvenile education classes offer cognitive-based life skills ,are offense specific and encompass many of the principles outlined in the recent finds of Evidence Based Practices and What Works research. Class fees remain an issue as most clients is indigent and unable to pay. The Department reports that clients struggle to afford fees reduced with the CES sliding fee scale, sometimes as low as a \$5 class fee.

On July 24, 2018, CES signed, “Protocols for Travis County Health and Human Services, Neighborhood Conference Committee,” agreeing to provide approximately four classes per year without charging a fee for youth classes. In FY 2020, NCC requested two additional courses due to the significant number of referrals. CES agreed to provide one extra class in FY 2020 and to reevaluate if the Department could offer an additional class. In FY 2021, CES was projected to increase the number of courses for NCC from four to six to meet their referral demands; however, due to the COVID-19 Pandemic, CES could not provide any Eyouth classes for NCC.

CES did not provide any Juvenile Education Classes virtually during the COVID-19 pandemic because several temporary instructors chose not to facilitate classes, which limited the number of resources available to provide these programs. CES is

currently the only provider for the Juvenile Education Classes in the Austin/Travis County area for Class C misdemeanor offenses. Scheduling for the juvenile classes is a unique process as CES only conducts classes when there is a participant need.

The youth classes fluctuate as they are scheduled according to the needs of the referring agencies, including the Neighborhood Conference Committee (NCC), Austin Municipal Court Juvenile Case Manager, and various Justice of the Peace Juvenile Case Managers. CES anticipates that there may be an increase in youth classes with the implementation of the transformative youth program through the County Attorney's Office.

Lastly, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed "N/A" in the table above. Discussions are ongoing between CES and PBO on how to address this issue.

The following programs were formerly linked to the County Goal "Promote the well-being of our residents through social, economic, and health and safety initiatives" and are now linked to the County Goal "Provide services that support people's physical and mental health."

CRIME VICTIMS FUND:

In 1987, the Travis County Attorney and the Travis County District Attorney created the Travis County Crime Victim's Fund (CVF) to help support crime victims with the restorative justice model. CES is the administrator of the CVF. The CVF consists of non-profit, community-based victims' service agencies in Travis County that receive funding from the County on a three-year contract. The result is a vital justice component as the client pays a small fee to take the class. A portion of the class fee goes towards the fund to ensure victims receive the necessary assistance to address their needs, including trauma care, at no cost. The clients also learn and receive information to correct behaviors and help them not re-offend.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Total Number of Crime Victims served	5,111	4,281	N/A	5,500	5,500
Total Volunteer Service Hours	26,443	25,332	N/A	23,000	23,000

The Crime Victims Fund comprises non-profit, community-based victims' services agencies in Travis County. The awarded contracts specify the agencies' annual performance measures that must be met. This is not a mandated program. All agencies to attend the quarterly Advisory Board meetings, during which quality networking is conducted. Quarterly performance and financial reports are also submitted to the CES Administrative Services Division Director for participating agencies, which CES tracks and monitors. In addition, CES conducts annual site visits for each agency in late May or early June.

Previously, the Department reported that the FY 2022 cost per victim served for the fund was \$42.32. This measure does not account for the total number of sessions a crime victim may attend/receive or the number of family participants that may also attend/receive sessions. For 2022, the national estimate of the value of an hour of volunteer time was raised to an hourly rate of \$29.95, a \$2.75 per hour increase compared to 2021 (\$27.20). Therefore, the cost of volunteer hours for 2022 was approximately \$791,956, an effective rate of return relative to the \$216,314 budgeted in the Crime Victims Fund for FY 2022. Among the agencies 26,443 volunteer hours were served in 2022, a 28 percent decrease relative to 2021 (36,495 hours).

These performance measures have declined in FY 2023 as anticipated due to rising inflationary pressures on the fund's static budgetary resources. CES reported that the FY 2023 cost per victim served for the fund was \$44.19. This is a 4.4 percent cost increase per victim served relative to FY 2022. Among the agencies, 25,332 volunteer hours were served in 2023, a 4.2 percent decrease relative to the total volunteer hours recorded in FY 2022 (26,443 hours). These amounts translate to approximately

\$753,683 worth of volunteer hour support, based on the national estimate of an hour of volunteer time for 2022 (\$29.95). This amount remains a significant rate of return relative to the Crime Victims Fund’s ongoing budget of \$216,314. However, the declines in these performance measures, as well as the continued projected declines for FY 2025 and FY 2026,, highlight the Department’s concerns about the diminishing efficacy of the CVF's relatively static budgeted resources against outside inflationary pressures and the rising cost of living factors in Travis County.

Since the transition of the CVF from a special fund to a general fund in FY 2007, CES has reported difficulties internally funding the anticipated five percent yearly increase for the Crime Victims Fund to maintain service levels relative to inflationary pressures. CES received additional general fund resources in FY 2014 and FY 2015 to support the annual increase to the CVF. However, due to budgetary constraints, CES did not receive additional general fund resources for the annual five percent increase in FY 2016. Furthermore, CES notes that it did not request additional general fund resources for the annual five percent increase in FY 2018 as the Department had to utilize the Crime Victims Fund as part of a five percent reduction plan. However, CES was able to internally fund the five percent annual increase to the Crime Victims Fund in FY 2017 and FY 2019 by reallocating existing resources. CES notes that the Department did not request additional general fund resources for the five percent increase during the FY 2021, FY 2022, or FY 2023 Budget Processes due to the 3.5 percent tax rate cap enforced by SB 2. However, FY 2023 represented the final year of the previous three-year contract and FY 2024 was the first year of the renewed three-year contract. CES did not receive additional General Fund resources as requested to fund the target 5 percent increase in the Crime Victims Fund during the FY 2024 Budget Process. For FY 2025, CES has related a budget request for additional general fund resources for the annual target five percent increase for the Crime Victims Fund.

For FY 2024 performance measures, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed “N/A” in the table above. Discussions are ongoing between CES and PBO on how to address this issue.

The following programs were formerly linked to the County Goal “Promote the well-being of our residents through social, economic, and health and safety initiatives” and are now linked to the County Goal “Provide services that support the safety of people in the community.”

PHOENIX COURT – PROSTITUTION PREVENTION PROGRAM:

The Phoenix Court Prostitution Prevention Program seeks to provide alternatives to conviction and incarceration for individuals charged with prostitution and assist them in safely and successfully transitioning out of prostitution. This is not a mandated program and has been County-funded since FY 2018, when the Office of the Governor ceased state funding.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
As part of the FY 2025 Budget Process, CES deactivated the performance measures related to this program.					

As mandated, if offered, the Phoenix Court Prostitution Prevention Program must adhere to the Health and Safety Code, Title 2. Health, Subtitle H Public Health Provisions, Chapter 169A. Prostitution Prevention Program, Sec. 169A.001.

Senate Bill 484, passed during the 83rd Texas Legislative Session and effective on September 1, 2013, mandated that counties with populations over 200,000 had to apply for State grant funding to establish prostitution specialty courts. Travis County applied and received a planning grant that began on January 1, 2014 and was extended until August 30, 2015. Travis County received two implementation grants after the planning grant. However, when the Governor’s Office defunded the Travis County Phoenix Court in January 2017, Commissioners Court began supporting the program in FY 2018 (January), continuing to fund the program through FY 2020. Starting in January 2021, the program went on hiatus when a newly elected Travis

County Attorney determined not to file prostitution charges, otherwise known as PHX1 cases. The hiatus status was related to the Specialty Court Resource Center with the Correctional Management Institute of Texas in 2021 and reaffirmed in 2022 and 2023.

CES reports that it has not implemented the program for several years due to the County Attorney's propensity for diversion with non-violent misdemeanors. Without PHX1 cases being filed, there are no into criminal justice system participants to enroll in the Commercially Sexually Exploited Person Specialty Court, known as the Phoenix Court. CES affirms that it has been open to assessing have clients with 2 (PHX1 and possession of a controlled substance (POCS)) charges for the last three years, as those charges continue to be filed in the criminal justice system. However, CES notes that there are not many such cases. The only cases that get filed usually have a POCS charge attached, which affords other diversion opportunities. Due to these other diversion options' popularity, few defendants go to the Phoenix Specialty Court. CES affirms that it remains open to offering the PHX1 and POCS cases that do get filed some needed services, such as substance use disorder (SUD) treatment and/or housing. If SUD treatment is required, participants are referred to the Outreach, Screening, Assessment and Referral (OSAR) program with Texas Health and Human Services, which will send clients to in-patient or out-patient treatment for free anywhere in Texas. CES states that out of three filed PHX1 and POCS cases over the past three and a half years, none have used support when offered.

CES notes that multiple County stakeholders provide services affecting the Phoenix Court Team, including: CES, which includes case-management and administration; Criminal Courts Administration, which sends out new PHX arrests; Travis County Attorney's Office, which provides prosecutors for the court; Capital Area Private Defender Service (CAPDS), which offers specialized court-appointed defense attorneys; Pretrial Services, who place offenders on bond with a condition of the Phoenix Court when appropriate; and Judge Malhotra, County Court at Law #4, where the specialty court resides.

There is also the larger group, the Phoenix Court Process Committee, consisting of an APD representative from the Trafficking Unit, a TCSO representative from the jail, and a representative from Innovative Justice & Program Analysis (155, formerly Justice Planning). This committee helps with administrative issues such as evaluations, fundraising, and training for the Court Team, as well as the Stakeholders Committee, meets bi-annually and provides for stakeholders to review the program and explore the next steps. The Phoenix Court Process Committee has met several times in prior years to discuss options to reinstate the program. However, CES reports that the current consensus has been to keep the program on hold while offering other support services (as referenced above) for applicable cases filed by the County Attorney's office.

CES anticipated the number of referrals to pick up following the COVID-19 Pandemic. However, arrest rates for prostitution continue to be low, and therefore, CES expects referrals to remain low as well. The Phoenix Court Process Committee has identified the need to raise awareness with the legal community about the availability of the program to individuals who are arrested on charges other than prostitution and who also have a history of prostitution. The Committee met with the County Attorney's Office on March 4, 2022, regarding the program's future. However, the CAO remains committed to not filing misdemeanor prostitution charges and instead expanding the utilization of pretrial diversion services. CES expects this policy to continue limiting referrals to the Phoenix Court.

AUSTIN/TRAVIS COUNTY FAMILY VIOLENCE TASK FORCE:

The Austin/Travis County Family Violence Task Force (A/TCFVTF) is not a statutorily required or mandated program. However, CES notes that, since the early 1980s, developments in the domestic violence prevention field have supported communities making reforms in the criminal justice system to create a more responsive, consistent, coordinated effort to address domestic violence issues. These programs are known as Coordinated Community Response (CCR) and consist of community partners across the justice system, advocacy groups, law enforcement, and community agencies such as programs for abusers (BIPPs). The A/TCFVTF has functioned as Travis County's Coordinated Community Response since 1989.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
FV Trainings	4	4	N/A	4	4
Governance Committee Meetings	11	11	N/A	11	11
Percent of successful completion of 3 FV Awareness Events	100%	100%	N/A	100%	100%
Percent of successful completion of 6 Task Force Speakers	100%	100%	N/A	100%	100%
Task Force Meetings	11	11	N/A	11	11

In FY 2014, Commissioners Court approved the implementation of a Family Violence Social Services Director to chair the task force under the Justice and Public Safety Division. In FY 2020, the Family Violence Director position moved from the Justice Planning Department (now known as The Department of Innovative Justice & Program Analysis) to the Counseling & Education Services Department after it was determined that CES’s mission and charge fit this position better. For FY 2025, this position is recommended to be transferred to the County Attorney’s Office (119) to align the Family Violence duties and tasks accomplished by the position with the appropriate Office.

The Austin/Travis County Family Violence Task Force (A/TCFVTF) is a multi-disciplinary team that consists of judges, prosecutors, defense attorneys, Pretrial Services, Adult and Juvenile Probation and Counseling and Education Services; law enforcement; community-based service (BIPP) providers; non-profit advocates; as well as system advocates, and civil, legal services attorneys who work together to plan and provide a coordinated approach to family violence issues in Travis County.

The Family Violence Director chairs the A/TCFVTF monthly meetings where county-focused initiatives are discussed, such as improved management of family violence cases in the criminal justice system, keeping up with the effectiveness of BIPP programming for abusers in the community, as well as comprehensive philosophical approaches to family violence, including prevention, which centralizes victim safety. The A/TCFVTF Chair also writes proclamations and resolutions for the Commissioners Court to approve for family violence-related awareness weeks/months; increases awareness with community events such as the ‘Stand Up for Safe Families’ Paddle Parade during October, Domestic Violence Awareness Month (DVAM), as well as showing family violence documentaries and films for the community. For FY 2025, CES anticipates more concentrated work toward creating a Family Justice Center in Austin/Travis County. The Department notes that the chair has attended. It expects to participate in national conferences in late April to continue the research and networking needed to coordinate a one-stop-shop opportunity for victims.

In prior fiscal years, CES reported several changes to discretionary services and committee assignments added to the A/TCFVTF. The Task Force has been included in the District Attorney’s efforts around the Firearms Forfeiture Committee beginning in FY 2022. The chair is now responsible for adhering to the duties of the Memorandums of Understanding between Travis County and the City of Austin for a Firearms Technical Assistance Grant to create a Firearms Surrender Protocol, which will decrease the number of guns in the hands of those with convictions of domestic violence. CES notes that Austin was one of 6 cities awarded this \$500,000 grant from the Department of Justice, Office of Violence Against Women. Additionally, the County Attorney has made several changes to the handling of misdemeanor Family Violence cases, including the creation of Family Violence Intervention Program (FVIP) in FY 2022 in place of the prior deferred prosecution program.

Lastly, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed “N/A” in the table above. Discussions are ongoing between CES and PBO on how to address this issue.

The following programs were formerly linked to the County Goal “Ensure the public safety and the equitable and human resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal “Be a trusted and well-run county.”

ALCOHOL & DRUG CLASSES/PROGRAMS:

The Alcohol & Drug Classes/Programs are a part of the strategy to promote public safety and individual behavioral health through education. The classes incorporate evidence-based practices and teaching techniques, including small group discussions, role-plays, paired sharing, and class exercises related to the material and homework. Clients who received an AOD or FV assessment at CES may receive a recommendation for a class on the conclusions determined by the assessment process. In these cases, the level of care that the assessment indicates matches a particular class that best meets the clients' clinical needs.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Clients completing AOD classes	2,345	2,623	N/A	3,247	3,247
Clients registered in AOD classes	2,546	2,946	N/A	3,589	3,589
Total Number of AOD classes	222	243	N/A	251	251

These are mandated programs requiring adherence to the following statutes:

- Texas Department of Licensure and Regulations (TDLR) 12-Hour DWI Education Program - Code of Criminal Procedure, Article 42.12, Section 13 (h);
- TDLR 15-Hour Drug Offender Education Program - Texas Transportation Code, Section 521.371-521.377 (formerly Article 6687b, section 24B, Texas Civil Statutes) amended 1993;
- TDLR 30-Hour DWI Intervention Program - Code of Criminal Procedure, Article 42.12, Section 13 (j) (SB.1067); and,
- TDLR 6-Hour Minor In Possession (MIP) - Alcoholic Beverage Code, Section 106.115.

As of September 1, 2022, TDLR adopted new rules to allow agencies the option to provide virtual classes permanently officially. If an instructor has more than one certification license to instruct classes, TDLR combines the certifications into one licensure per instructor. TDLR added a \$40 Instructor Renewal Registration fee, which CES notes that it will pay. At the end of 2023, TDLR selected a handful of viable candidates to participate in a panel which, TDLR chose a handful of viable candidates to participate in a panel that will decide how to best move forward with the outdated material. CES reports that it was selected to participate in this panel, and its Alcohol and Drug Class Coordinator has been active on that panel since the beginning. TDLR plans to conclude the panel in the summer of 2024 and seek to implement proposed changes.

CES is one of the few providers in the State that offers all four of the Texas Department of Licensing and Regulation Offender Education Programs for Alcohol and Drug-Related Offenses. CES notes that it is also one of the largest providers of TDLR classes in the state and that the Department also provides a Cognitive Changes Program (CCP), a cognitive therapy program designed to address criminal thinking and substance use disorders. CES regularly reviews and revises the curricula to ensure the information is accurate and current. The Department also maintains a Sliding Fee Scale based on 2021 HHS Poverty Guidelines that allow CES to adjust a fee based on the client’s income, as low as 10 percent of the fee; however, only a Judge can waive the entirety of a fee.

Lastly, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed “N/A” in the table above. Discussions are ongoing between CES and PBO on how to address this issue.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Request for Hybrid Services	\$59,067	1.00/1.00	The FY 2023 Adopted Budget included resources related to creating an additional Office Specialist Sr FTE (1.0 FTE) to support anticipated increases in workloads due to the return of in-person classes following the COVID-19 Pandemic. CES reports that this position works in-person M-F 8:00-5:00, creating the ability for clients to come into the airport location during business hours and receive assistance. It has also allowed clients who do not otherwise have access to technology to access in-person services. The Department notes that this position has allowed CES to handle a greater call volume and has reduced the time clients wait for assistance.

ADMINISTRATION:

The Administration Program includes CES management, administrative, and phone center personnel. CES has a phone center which consists of 14 team members. The phone center is set up and designed to direct and provide clients with the information required to take care of their criminal charge charges. The phone calls are routed according to service needs in English and Spanish.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Average Handle Time Total (Call in minutes)	8:31	9:50	N/A	9:42	9:42
Average Handle Time - English (Call in minutes)	8:22	9:40	10:00	9:36	9:36
Average Handle Time - Spanish (Call in minutes)	9:15	10:30	10:30	10:13	10:13
Percent of Calls Abandoned	8.1%	14.9%	15.6%	18.0%	18.0%
Total Number of Calls Presented	36,869	48,285	N/A	47,362	47,362
Total Number of Calls Processed	33,872	41,083	N/A	38,837	38,837
Total Number of Scheduled Trainings	15	20	N/A	20	20

CES handles a significant number of calls to schedule classes and assessments and to answer client questions. Calls jumped significantly from FY 2021 to FY 2022 as CES continued to move to virtual assessments and classes. This increased workload has been a strain on staff and impetus for a budget request in FY 2023 to add permanent staff to manage hybrid services.

CES aims to sustain the successful completion rate of 96 percent of total scheduled trainings, internal and external now that the pandemic is over. CES also seeks to sustain the number of outside trainings at six per year. This is necessary to keep all departmental staff current on best practices for working with court-ordered clients, including mental health aid, substance use disorders (SUD), family violence, and criminogenic behaviors. This is also necessary for the Chemical Dependency Counselors (CDCs), who all have a Texas State license and must complete a set number of continuing education hours during each renewal period of two years. The Department provides the internal or external training for CDCs to maintain their license so that they can provide SUD assessments for offenders in the State of Texas.

CES reports that following the COVID-19 Pandemic, phone center staff increased from 5.0 FTE to 14.0 FTE to meet rising workloads. However, CES notes that only eight team members consistently are logged in the phone queue, while other team members assigned to the office provide services in person and complete other necessary tasks. The Department asserts that there are always four full-time team members, two part-time team members at the Airport location, and one full-time team member and a part-time staff member at the downtown Granger (Intake Office). However, CES reports these Intake Office staff positions are currently vacant, but the Department is in the process of filling those vacancies. For the Intake Office, one team member is in court (CJC) Monday through Thursday from 8 am to 12 pm to assist clients, attorneys, prosecutors, judges, and the probation office.

The phone center is designed to direct clients and provide them with the necessary information to handle their criminal charges. Phone calls are routed according to service needs in English and Spanish. Tracking the number of calls presented, the number of calls handled, and the number of calls abandoned to ensure that CES monitors staff capacity to maintain support for its clients in an efficient and timely manner efficiently and timely. In FY 2020, the phone center processed 17,234 calls. By FY 2021, the number of calls handled increased 67.7 percent to 28,907. The number of calls further increased in FY 2022, rising to 33,872, a 17.2 increase from FY 2021, and again in FY 2023 to 41,083 calls processed for an additional 21.3 percent increase. However, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed "N/A" in the table above. Discussions are ongoing between CES and PBO on how to address this issue. CES notes that these phone stats provided do not reflect confirmation calls for assessment and classes, follow-up calls, and return phone calls, and reports staff are struggling to maintain current service levels under expanding call center workloads.

CES notes that in providing updated estimates for FY 2024 projected measures, the average call per participant increased from 9:4 minutes to 10:00 minutes for English and from 10:13 minutes to 10:30 minutes for Spanish. Call Team members report spending extended time on the phone to explain the virtual process and paperwork emailed to participants through DocuSign, which includes conducting tests upon request over Microsoft Teams to make sure clients are set to go for assessments and classes. Originally, CES stated that staff could email in the evaluation and required class paperwork within 24 hours upon request. However, by mid-FY 2022, time delays for these operations will be extended to 48-72 hours after a request is made. In addition, the average percentage of abandoned calls also showed more significant increases, going from 3.8 percent of calls dropped in FY 2021 to 8.1 percent by FY 2022. This measure increased again for FY 2023 to 14.9 percent, and CES projected this rate to reach 15.6 percent for FY 2024.

The number of participants for both Alcohol/Drug and Education classes has risen, and further increased workloads related to these staff responsibilities. CES has noted that, historically, assessment and class paperwork were processed within 24 hours, but processing times have extended to 48-72 hours in recent fiscal years. CES remains committed to reducing service delays for clients, noting that research indicates a greater completion rate for CES's services and classes when occurring as close to the arrest date as possible.

In May 2022, CES hired a third-party consultant to assist efforts related to learning about Diversity, Equity and Inclusion (DEI) and how to integrate these issues into the Department. CES states that this will allow the Department to gain sustained engagement in actions promoting DEI within CES for years by demonstrating ongoing leadership, commitment, and accountability to DEI through behaviors that foster trust and challenge bias and discrimination. In FY 2023, CES attended 18 monthly Alignment meetings, three Focus Groups, Trusted Learning Circles, DEI Basic Learning, DEI Functionalities, Accountabilities and Responsibilities, and an HR Module. CES reports that it continues to conduct monthly DEI Discussion/Activity meetings and DEI Committee meetings with all staff.

Lastly, CES relates that it continues to utilize DocuSign to process the required assessment and class paperwork from clients requesting virtual services. In FY 2023, CES reported processing 31,610 envelopes through DocuSign with a 93.47 percent

completion rate, which the Department notes saved: the equivalent of 30 Trees (10,288 pounds of wood); 30,295 gallons of water (21 loads of laundry); 24,150 pounds of CO (2 cars; and 1,671 pounds of waste). For FY 2024 (October to March), CES reports to have processed 15,947 envelopes through DocuSign and projects that it will process 31,894 envelopes in total for FY 2024, which is an increase of 284 or 0.8 percent relative to FY 2023.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Office Specialist Sr – 2.0 FTEs	\$143,578	2.00/2.00	The FY 2024 Adopted Budget included additional resources related to creating two additional Office Specialist Sr positions (2.0 FTEs) to address increased call volumes and admin support needs for alcohol/drug and family violence assessments and education programs. CES reports that both positions have been filled and expanded in-person assessment capacity, allowing for a greater number of clients served and have helped make CES more accessible to the overall Travis County community. Additionally, the Department reports that these FTE's have limited the increase in abandoned calls. If it had not been for the additional support, CES anticipates that the abandoned call rate would have most likely increased significantly.
Business Analyst I SPW for Tiburon Replacement	\$47,756	1.00/1.00 (SPW)	The FY 2024 Adopted Budget included one-time resources related to a Business Analyst I SPW approved mid-year FY 2023 through April 20, 2024, to serve as a subject matter expert within the Department for the ongoing Tiburon Case Management System (CMS) replacement project. While this project is not yet complete, CES reports that this position served as a great resource to assist in navigating the RFP process and selecting the Tiburon replacement system. This position acted as a liaison with all parties involved in the replacement process. It took the lead in assisting in the design of the replacement system to adapt to the needs CES is explicitly looking for. CES is not asking for an extension of this position, and the employee in the position's last day with CES was 04/19/2024.

INTAKE & ASSESSMENTS:

The Intake & Assessment Program aims to provide validated, comprehensive assessments for the Travis County Courts-at-Law. CES performs substance abuse disorder assessments, utilizing an evidence-based assessment tool approved by the Department, to formulate a Diagnostic Impression by DSM-5 criteria; identify the correct level of violence intervention as determined by the risk of lethality and recidivism, among other factors and to identify the rationale for CES Recommendations and/or Referrals and the appropriate level of care.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of AOD Assessments completed (Phase 2)	7,209	7,316	N/A	9,666	9,666
Number of Family Violence Assessments completed	952	1,789	N/A	1,358	1,358

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of clients completing AOD Assessments within thirty days after referral date.	15.0%	12.6%	N/A	12.0%	12.0%
Percent of clients completing FV Assessments within thirty days after referral date.	12.0%	4.3%	N/A	10.0%	10.0%

This is a non-mandated program for the County; however, there are statutes governing these assessments in Texas Health and Safety Code 121.006 and Texas Code of Criminal Procedure 42.12 Section 14 (c1-2). The staff conducting assessments must be accredited, and indigent defendants are not compelled to pay for them. CES provides assessments for Family Violence Assault charges and refers the clients presenting with intimate partner violence to a Batterer Intervention and Prevention Program (BIPP) and non-intimate partner violence to an Anger Management Program.

CES uses empirically researched, valid and reliable screening and assessment instruments. The Department seeks to utilize best practice models focused on identifying risks, needs, dosages, and responsivity to support placing the client in the proper level of care and making the most appropriate recommendations for interventions, including treatment. Consideration is given to substance use, criminal history, level of criminogenic risk, mental health needs, language and cultural sensitivity. Family Violence assessments additionally assess levels of violent behavior and issues of power and control. Clients are assessed to the proper level of care, and recommendations are matched to the client's individualized needs, leading to higher success rates.

Travis County utilizes a Pretrial assessment model for alcohol and drug assessments and family violence assessments that is unlike the system used by other counties throughout the state. Having a bond condition or attorney referral to undergo an assessment and follow the recommendations enables the clients to a pretrial diversion opportunity to complete their counseling recommendations before the final disposition. This allows clients to enter the community with the expectation that they will begin their required services; monitored through Pretrial Services, and bond conditions agreed upon before release. These clients would otherwise remain in jail for up to several additional days, costing Travis County additional money to house them in custody.

CES reports that its no-show rate has continued to increase since the pandemic, with clients who did not complete their scheduled initially assessment and having to reschedule totaling 45 percent of clients. As a result, CES will seek to implement open access in a virtual capacity beginning in May 2024. CES will remain a hybrid department. Implementation of virtual open-access will eliminate no-shows and eliminate clients needing to be scheduled/rescheduled. Moving forward, clients will be served on a "first-come, first-served" capacity. This new model will also result in the elimination of rescheduling fees for assessments. This initiative seeks to make services more accessible to clients while also offering them relief from financial hardship. The Department projects that more assessments will be conducted, and the wait time clients are currently experiencing to be seen will decrease to 2-5 business days rather than the 5-7 weeks they are experiencing now.

As of January 2024, CES has returned staff to the office one day per week, and since this implementation, CES reports clients have arrived in person for service and at increasing rates. Due to further anticipated increases in client volume, CES is now requiring all counseling staff to be present on Tuesday as of April 2nd, 2024. The previous policy, beginning January 2024, was to have half of the counseling staff present.

CES also reports that the number of Spanish-speaking FV clients has decreased dramatically. In contrast, this client group had previously been the population with the highest utilization of in-person services. Consequently, CES is also reporting a high percentage of clients as "no-shows" on the day of their assessments and, therefore, in need of rescheduling. CES expects that

these numbers will increase once more with more open access and no option of being considered a no-show. CES notes that FV assessments have increased by 837 clients compared to FY 2023. CES attributes this increase to the level of services, including BIPP services and court dockets being opened back up for in-person services.

Lastly, due to senior staff turnover in the Department midway through FY 2024, CES leadership has reported difficulties in pulling the latest data for FY 2024 from the Tiburon System. For data CES has been unable to verify, PBO has placed "N/A" in the table above. Discussions are ongoing between CES and PBO on how to address this issue.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	3,981,960	4,225,318	4,811,976	4,887,413	75,437
Operating	412,810	412,810	434,379	448,608	14,229
Total (Per&Op)	\$ 4,394,770	\$ 4,638,128	\$ 5,246,355	\$ 5,336,021	\$ 89,666
CAR*	-	-	-	-	-
Grand Total	\$ 4,394,770	\$ 4,638,128	\$ 5,246,355	\$ 5,336,021	\$ 89,666
FTEs	46.75	47.75	49.75	49.75	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Counseling and Education Services increased by \$89,666 from the FY 2024 Adopted Budget, a 1.7 percent increase. Most of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in a central reserve.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

	Ongoing	One-Time	CAR	Total	FTEs	Earmarks

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Counseling and Education Services includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$47,756 was removed from the budget related to one-time personnel costs for a Business Analyst I Special Project Worker for the Tiburon Replacement Project through April 20th, 2024, approved in the FY 2024 Adopted Budget; and,
- \$88,588 was added to the budget related to transferring an Administrative Associate position (1.0 FTE – Position #: 30003791) from IJPA Workforce Development to the CES Administration Division. This increased CES’ FTE count by 1.0 FTE.

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Counseling and Education Services includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources added to transfer the Family Violence Social Services Director (1.0 FTE – position number 30003841) serving as chair of the Austin/Travis County Family Violence Task Force (A/TCFVTF) to County Attorney’s Office (119) to better align the Family Violence duties and tasks accomplished by the position with the appropriate Office.	\$-	(\$142,875)	(\$142,875)	(1.00)
Travel and Training Cut Restoration	-	14,229	14,229	-
Total Administrative and Other Funding Changes	\$-	(\$128,646)	(\$128,646)	(1.00)

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$14,229 in ongoing operating resources for CES. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Counseling and Education Services includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$-	\$150,475	\$150,475
Resources for health insurance cost increases for FY 2025.	-	25,482	25,482
Incremental cost increase to shift-differential pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	1,317	1,317
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	206	206
Total Compensation Changes	\$-	\$177,480	\$177,480

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. The Preliminary Budget Volume I document contains a full description of all compensation adjustments.

On April 30, 2024, the Commissioners Court was presented with a proposed 4.1 percent healthcare rate increase for FY 2025, which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

On January 9, 2024, Innovative Justice and Program Analysis (IJPA), Department 155 then Justice Planning, received Commissioners Court approval to transfer one Administrative Associate FTE (position number: 30003791) and related personnel and operating budget from IJPA's Workforce Development Division to Counseling and Education Services' Administrative Division retroactively starting on January 2, 2024 to address rising call volumes, provide additional administrative support for alcohol/drug/family violence assessments and education programs, and to reduce observed backlogs affecting CES operations. This increased CES' FY 2025 Target Budget by \$88,587 on an ongoing basis, including \$60,210 in salary and \$28,377 in associated benefits and increased CES' FTE count by 1.0 FTE (from 49.75 to 50.75).

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15 percent increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will take longer for the County to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, CES charges 31 fees. Of those, no fees are being proposed by CES for adjustment in FY 2025.

VACANT POSITIONS

The Department currently has nine total vacancies, out of which the following two positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Chemical Dependency Counselor Sr	30003830	1.00	173	CES notes that it is seeking counselors with LPC/LCSW licensure to better address clients with mental health issues.
Chemical Dependency Counselor Sr	30003833	1.00	123	CES notes that it is seeking counselors with LPC/LCSW licensure to better address clients with mental health issues.

The following three positions have been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Chemical Dependency Counselor Sr	30003821	1.00	691	CES is holding this position open for an anticipated career ladder to be filled in 2024.
Chemical Dependency Counselor Sr	30003831	1.00	584	CES is holding this position open for an anticipated career ladder to be filled in 2024.
Chemical Dependency Counselor Sr	30054153	1.00	525	CES notes that it is seeking counselors with LPC/LCSW licensure to better address clients with mental health issues.

FUTURE CONSIDERATIONS

The Counseling and Education Services Department continues adapting to its clients' service needs in the post-pandemic environment. CES continues to offer hybrid (in-person and virtual) classes to ensure that clients complete required courses, though more effectively. However, this new service model continues to present challenges regarding staff workloads. Call Center staff have reported previous fiscal years notable increases in call volumes and extended service times on calls to

answer all clients' questions about new policies resulting from the increases in virtual processes, virtual documentation (DocuSign), and evolving requirements. Increased call volumes and extended call times are culminating in delayed administrative processes, which, in turn, delay CES operations and ultimately contribute to rising Court backlogs as defendants are unable to complete required CES services effectively or promptly. CES reports that assessment turnaround times have increased from 24 hours to 48–72 hours after a request is made. However, CES asserts that staff have struggled to meet these new, extended deadlines.

CES also reports that other programs, notably the Juvenile Education Classes and Phoenix Court Program operations, have stalled. Regarding Juvenile Education Classes, CES notes that declining referrals during the COVID-19 Pandemic, issues with available instructors, and the Department's focus on the gradual reintroduction of Adult Education Classes have delayed reimplantation for Juvenile Education Classes. However, CES sought to reintroduce Juvenile Education Classes in FY 2024. Meanwhile, the Phoenix Court Program continues to play a supportive role instead of direct service provision due to the County Attorney's efforts to prioritize diversion with non-violent misdemeanors. As applicable cases continue to go unfiled, there are no into criminal justice system participants in the Commercially Sexually Exploited Person Specialty Court, known as the Phoenix Court. While direct program interventions are on hiatus, stakeholders continue to coordinate to offer supportive services and maintain productive and collaborative discussions around this policy area.

CES also notes that continued efforts to replace the Tiburon computer management system (CMS) will impact Department operations. The Department is currently engaged in the Request for Proposal (RFP) process and hopes to have a vendor selected in FY 2024. In addition, CES received approval for a Business Analyst I special project worker position midyear FY 2023 to serve as a subject matter expert in the Department to help facilitate this project through 4/20/2024. CES anticipates that implementing and adjusting to a new CMS will present unique challenges but believes the new system will provide better interaction and applicable data sharing across the multiple departments making up the County's justice system.

CES has also related additional priorities for FY 2025 and beyond, including:

- Expansion of CES client service delivery by hiring counselors with higher level licensures (LCSWs, LPCs) to provide services for the rising number of clients with mental health issues, counseling for jurors, and other gaps in counseling within the justice system;
- Continuing to further develop, demonstrate, and maintain Diversity, Equity and Inclusion through existing subcommittees and workgroups with the goal being the continuation of creating a psychologically safe environment through trust, leadership accountability, and commitment;
- Ongoing efforts to work with ITS and ACF Technologies to replace the Check-In System (CES Visitor Workflow) with Q-Flow, which provide system/functionality upgrades to continue to provide smooth, efficient and effective customer service for clients;
- Implementation of counseling services for Travis County jurors through the District Clerk's Office;
- Seeking ongoing funding for interpreters for clients with language barriers needing an assessment;
- Addressing issues around competitive compensation relative to outside community partners and stakeholders, which has resulted in barriers when offering higher licensed clinicians' positions with Travis County;
- Creating more options for an online referral activity will improve customer service be more efficient for administrative staff and improve their work productivity; and,
- Continuing to provide participants the option to take court-ordered classes virtually or in person.

Additionally, in recent fiscal years, the Austin/Travis County Family Violence Task Force (ATCFVTF) has partnered with and has a signed MOU with the City of Austin's Office of Violence Prevention's (OVP) office on the Firearms Technical Assistance Grant through the Department of Justice, which will coordinate with a multidisciplinary team to create a Firearms Surrender Protocol. However, discussions are ongoing regarding transferring relevant ATCFVTF staff from CES to the County Attorney's Office. CES has noted that its relevant staff has always been filled by a Travis County employee tasked with chairing the

Austin/Travis County Family Violence Task Force. This employee is most closely with the Family Justice Team in the County Attorney's Office. CES asserts that no other employees or positions within the Department work with or provide services to crime victims. The mission and purpose of CES is to provide counseling and education services to individuals accused of or convicted of committing a criminal offense. Therefore, CES has related support for efforts to transfer the relevant ATVFVTF-related staff and operating resources to the County Attorney's Office. PBO notes that this effort is ongoing and has not yet been presented to the Court for guidance and/or approval of the proposed transfers.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: OPERATING RESOURCES FOR STAFF TRAININGS AND SEMINARS

<i>Program:</i>	Administration (140)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Error
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

CES requests additional ongoing operating resources to increase the Department's capacity to provide the necessary training and education seminars for its licensed clinicians equally across all staff members. CES reports that since 2021, it has alternated portions of its staff attending required training every other year due to limited budget capacity and asserts that this increase would allow staff to attend necessary training and seminars annually.

CES notes that the Department has historically provided all Continuing Education (CEU) credits to staff members through access to seminars and training to maintain their clinical licensure. Each clinician is required by their licensing board to maintain an active form of licensure. A significant component of this requires 20-35 (depending on license type) CEU's bi-annually to remain active and compliant. The Department strives to provide the necessary resources to its clinicians to stay current and current on all their CEU requirements so that they may continue to conduct the work required to see clients. The Department asserts that it is essential for CES clinicians to be given the support to obtain all the hours needed as a part of the benefits of working with CES. CES states that CEUs are a crucial component of counselors learning best practices for clients, noting that training and seminars are an essential component to educate staff in the continuation of providing whole, evidence-based practices to the clients they serve.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not provide performance measures as part of this request.

PBO RECOMMENDATION

PBO does not recommend additional ongoing operating resources related to increased training and seminars for CES counselor staff be included more than the centralized 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget currently recommended for inclusion in the FY 2025 Preliminary Budget.

During the FY 2021 Budget Process, PBO recommended the following regarding CES’ operating budget:

PBO is updating the Commissioners Court and the public monthly on the impact of COVID-19 on the FY 2020 and FY 2021 budgets. PBO is working to minimize expenditures where appropriate. Since it is expected that County staff will continue to work at home more often and that travel for County business will not rebound to pre-COVID-19 levels in FY 2021, PBO has recommended targeted cuts in the Department’s operating supplies and travel expenditure groups.

PBO recommends reducing the department’s operating supplies by \$11,353 or a 10% reduction. PBO also recommends reducing the Department’s travel budget by \$28,456 or a 50% reduction. Furthermore, PBO reviewed the Office’s printer toner expenses and those expenses will be cut an additional 10%, or by \$928. A 10% reduction was already included in the initial operating supplies reduction so the total reduction to toner is 20%. These combined reductions total \$40,737.

As conditions that suppressed travel and training budget usage during the COVID-19 pandemic continue to wane and more conferences and trainings have reinstated and expanded in-person events, it is likely time for PBO to revisit the issue of reinstating travel funding cut during the FY 2021 Budget Process. However, this effort will require a closer look at travel and training budget usage across all applicable County departments. Included in the FY 2025 Preliminary Budget is a 50 percent restoration of the travel and training budget reductions needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$14,229 in ongoing operating resources for CES. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

Based on data from the Department, attendance to one seminar may be comparable to 18 Continuing Education (CEU) credits. CES Counselors require 20-35 CEUs bi-annually to remain active and compliant to maintain their clinical licensure. CES intends to be able to offer counselors the ability to attend two such seminars a year to allow counselors to maintain their licensure internally as opposed to being required to attend training outside of regular hours on their own time and resources. PBO estimates that the incremental cost to ensure that CES may offer attendance to up to two seminars per year for all its counselor positions (20.0 FTE) at an approximate cost of \$600 per seminar to be \$10,925 on an ongoing basis relative to the current budgeted amount of \$13,075 allocated for workshops and training in the Administration Division included in the Department’s FY 2025 Budget Submission.

PBO notes that CES currently demonstrates sufficient resources in the Department’s operating budget fund this request internally should CES prioritize these operating needs. The table below details the total remaining operating budget amounts for CES from FY 2016 through FY 2023. PBO notes that the value for FY 2024 represents its current best estimate based on operating actuals through March 2024.

Fiscal Year	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024 (Projected)
Unspent Operating	13,281	81,021	42,680	39,743	148,325	97,685	79,723	62,041	80,361

Based on the data above, CES has historically left approximately \$70,563 in its operating budget resources unallocated annually from FY 2016 through FY 2023 on average. These unallocated amounts vary by budget rollup categories. The table

below summarizes CES' unallocated operating budget amounts from FY 2016 through FY 2023 by operating budget rollup category.

CES has left the following approximate amounts of its operating budget unallocated by operating budget rollup category annually on average from FY 2016 through FY 2023:

<i>Operating Budget Rollup Category</i>	<i>Average Annual Unspent Balance FY 2016 – FY 2023</i>
Services	\$37,841
Supplies & Equipment	17,208
Travel & Professional Development	13,230
County Employment Related	1,357
Misc Operating	927
Total Operating	\$70,563

Based on the data above, CES has historically left a significant amount of its operating budget unallocated annually in the Services, Supplies & Equipment, and Travel & Professional Development operating budget rollup categories from FY 2016 through FY 2023. However, PBO acknowledges these averages likely represent an overestimate as conditions related to the COVID-19 Pandemic reduced operating needs, especially for line items within the Travel & Professional Development rollup category. PBO will work with CES to review operating line items within these rollup categories to gauge whether currently available resources may be reallocated to other line items to address this request for additional operating resources and any other identified needs based on historic usage rates.

REQUEST #2: CRIME VICTIMS FUND 5% INCREASE

<i>Program:</i>	Crime Victims Fund (140)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	10,816	-	-	-
Subtotal	\$ 10,816	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 10,816	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,816	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

CES requests additional ongoing operating resources to increase the Crime Victims Fund (CVF) by five percent (\$10,816). The Department notes that it has always been CES’s objective to improve the CVF by at least five percent annually so that it can continue to provide more substantial support to victim service endeavors in Travis County or at least maintain current service levels relative to inflationary pressures.

The Department notes that, for the past 35 years, CES funded the Crime Victims Fund with the fees generated by the Adult and Juvenile Competency classes. The Crime Victims Fund (CVF) was implemented to support developments championed by the restorative justice and victims’ rights movements. CES asserts that holding an offender accountable for their criminal behavior while teaching the offender competencies is paramount to preventing future crimes and assists the victim in overcoming the trauma of victimization.

In addition, CES asserts that, since the transition from a special fund to a general fund in FY 2007, the Department has struggled to internally fund the anticipated five percent annual increase for the Crime Victims Fund. CES asserts that it works closely with PBO to provide additional documentation confirming the number of volunteer hours utilized by the agencies. CES states that it received additional general fund resources in FY 2014 and FY 2015 to support the annual increase to the Crime Victims Fund. However, the Department did not receive additional general fund resources for the annual five percent increase in FY 2016 due to budgetary constraints. Furthermore, CES notes that it did not request additional general fund resources for the annual five percent increase during the FY 2018 Budget Process as the Department had to utilize the Crime Victims Fund as part of a five percent reduction plan. However, CES reports that it was able to internally fund the five percent annual increase to the Crime Victims Fund in FY 2017 and FY 2019 by reallocating existing resources. The Department did not request additional general fund resources for the five percent increase during the FY 2021, FY 2022, and FY 2023 Budget Processes due to the 3.5 percent tax rate cap enforced by SB 2. However, FY 2023 represented the final year of the current three-year contract with current service providers, and FY 2024 was the first fiscal year in which the renewed three-year contracts were enacted. During the FY 2024 Budget Process, CES anticipated that the new agreements would reflect increases in service costs related to inflationary pressures observed in recent years. At the time, the Department asserted that these rising costs would reduce the total number of victims the CVF could serve if additional ongoing operating resources were not allocated to support the target five percent annual increase.

CES reports that as the, "number of offenders continues to increase in Travis County, in turn the need for victim services increases as well. With the five percent increase added to the total amount awarded each year, it was expected to allow the possibility for the agencies to expand their services in order to keep up with the growing population. However, the five percent is needed to cover the ongoing salary and benefit increases due to cost of living in Austin/Travis County (being) very expensive. CES has not been able to continually increase the CVF on an (annual) basis due to budget restraints. CES was able to increase the funding by five percent in FY 16 by reallocating monies within the existing budget; however, the last five percent increase from general fund was in FY 15."

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not provide performance measures as part of this request.

PBO RECOMMENDATION

PBO does not recommend additional ongoing general fund resources to support a five percent increase in the Crime Victims Fund be included in the FY 2025 Preliminary Budget. Instead, PBO recommends working with CES to assess how this funding has historically be utilized and how it should be programmed into the future.

In past years, PBO has assessed CES’s ability to internally fund this goal on a year-by-year basis. In years where the Department does not demonstrate the budgetary capacity to do so, PBO has recommended additional general fund resources to support the requested annual increase to the Crime Victims Fund so that the Department may maintain service levels for victims of crimes relative to rising inflationary pressures. The table below details total remaining operating budget amounts for CES from FY 2016 through FY 2023. PBO notes that the value for FY 2024 represents PBO’s current best estimate based on operating actuals through March 2024.

<i>Fiscal Year</i>	<i>FY 2016</i>	<i>FY 2017</i>	<i>FY 2018</i>	<i>FY 2019</i>	<i>FY 2020</i>	<i>FY 2021</i>	<i>FY 2022</i>	<i>FY 2023</i>	<i>FY 2024 (Projected)</i>
Unspent Operating	13,281	81,021	42,680	39,743	148,325	97,685	79,723	62,041	80,361

However, after discussions with the Department, PBO believes that additional work is needed to determine what line item related to the Crime Victims Fund budget supports.

PBO notes that the average amount of operating resources left unexpended by year’s end for the Department is \$70,562, based on actuals from FY 2016 through FY 2023. PBO believes that CES may be able to internally fund an increase in the FY 2025 budget if it is a priority for the department.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Travis County Attorney's Office is to seek justice and to serve the public. It is the County Attorney's duty to represent the State of Texas in misdemeanor criminal cases and protective order cases. It is also the mission of the Office to provide a full range of superior civil legal services to Travis County. The Office strives to serve a diverse community by pursuing fair, impartial, and timely dispositions of both civil and criminal matters without compromising the statutory and ethical obligations placed upon the Office by the State of Texas. The Office's objective is to accomplish its duties with the highest level of professionalism, ethics, and efficiency.

The goal of the County Attorney's Office is to foster a safer community by holding individuals accountable for their acts, offering access to alternative programs of rehabilitation, and by providing support for victims of crime and their families. The Office prioritizes efforts to address the inequalities in the criminal justice system, ensuring that everyone is treated with dignity and respect. In addition, the Office obtains protective orders for victims of domestic violence and obtains involuntary civil commitments for certain mentally ill persons. The Office also processes, collects, and accounts for bad checks and statutory fees, restitution ordered by courts in criminal cases, attorney's fees on protective orders, and collects funds due to the County, including various taxes, civil judgments, and civil restitution. The Office further advises Travis County on civil legal matters and litigates cases filed against, or on behalf of, Travis County and its elected officials and employees.

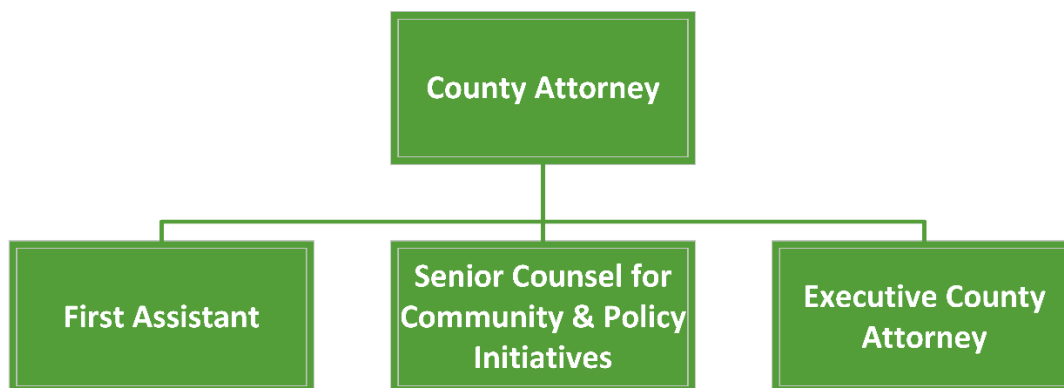

The Office has identified the following departmental goal(s):

- Full implementation to ensure compliance and justice under the Michael Morton Act;
- Facilitate greater communication and collaboration among community justice stakeholders to achieve efficiencies and improvements;
- Bring online and utilize the TechShare Prosecutor Case Management application and support a new integrated court case management system; and
- Provide superior civil legal services to meet statutory obligations and client needs.

This aligns with the new County goal "Be a trusted and well-run county" and "Provide services that support the safety of people in the community."

The Office is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goals, “Be a trusted and well-run county” and “Provide services that support the safety of people in the community.”

CIVIL DIVISION:

The goal of the Civil Division is, “To provide a full range of legal services to our clients in a timely and reliable manner.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Billable hours per attorney and paralegal per year	1,746	1,708	1,717	1,650	1,650
Property Tax Collection Rate	98%	97%	98%	99%	99%

The Civil Division is a mandated program by state law to provide a written legal opinion respecting the duties of all public officials of Travis County, defend any county official or employee who are sued in connection with his or her official duties, unless they are sued by Travis County, and provide legal representation to Central Health. While these duties are mandated by State law, the State does not provide funds for performing the duties of the Civil Division, though Central Health is required to reimburse the Travis County Attorney for actual costs in providing legal representation.

Due to the irregular manner in which the Office is mandated to provide legal services, there are no service levels as the Office acts when requested. The Office states that “Our goal, considered reasonable for the pay and benefits received by our personnel, is 1,650 [billable hours] hours per year. Whenever the measure exceeds that goal, we believe our performance may be affected. Whenever the measure falls below that goal, we may have too many personnel.” Current and previous measures show that the Office surpassed their goal of 1,650 billable hours per year. The Office projects that they will be slightly over this goal for FY 2025. If billable hours continue to surpass 1,650, the Office may need to reallocate staff and resources to this Division to keep up with the increase of workload.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
EDSI PID Staffing	\$295,607	2.0/1.0	The Office states, "These positions were approved by the Commissioners Court on November 14, 2023, and the positions were created on January 9, 2024 and posted. After several interviews of interested applicants, the Attorney position was filled on April 1, 2024. The Travis County Attorney's Office is currently reviewing applicants for the paralegal position and anticipate filling that position in May 2024 in time to prepare for processing the anticipated PID petitions in support of PBO's Economic Development and Strategic Investments division and the Commissioners Court's direction."

CHECK DIVISION:

The goal of the Check Division is, "To process, collect, and account for bad checks, statutory fees, and upfront restitution ordered by the courts in criminal cases and attorney's fees for protective orders."

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Dollar amount of checks filed	\$63,516	\$50,441	\$112,472	\$35,000	\$30,000
Dollar amount of statutory fees received	\$2,455	\$1,646	\$1,914	\$2,000	\$2,000

The Check Division is a mandated program. The Office currently has no outcome measures. The Office states that "check writing in general is on a major decline." While the Office notes that they keep track of weekly mail outs of warrant and non-warrant cards to defendants with outstanding balance on bad checks, the pandemic delayed resolution of some criminal cases, impacting the amount of restitution ordered or agreed to. As payments move towards electronic payment methods, the Check Division will need to evaluate the effectiveness of this program and whether staff and resources can be allocated to other identified priorities of the Office and Commissioners Court.

COMPREHENSIVE UNDERAGE DRINKING PREVENTION:

The goal of the Comprehensive Underage Drinking Prevention Program is, "To provide community education and increase public awareness of the legal and social consequences of underage drinking."

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of information produced and distributed to target audience	106,883	113,103	98,295	115,000	115,000
# of partnerships with collaborating agencies	162	164	71	150	150
# of press releases submitted to existing news sources	102	104	59	70	70
# of presentations and community events	591	696	606	750	750

The Comprehensive Underage Drinking Prevention program is not a mandated program. The program's objective is to "discourage and reduce alcohol consumption." The Office states, "official efforts continue to be taken to facilitate

presentations and information booths in a remote/contact-less way if preferred by school/scheduling entity. The UDPP nevertheless continues to provide 2023-2024 services in the manner schools and other organizations allow/prefer. This flexibility has the potential to positively impact program ability to meet our benchmark goals and objectives.”

PBO recommends that the Office evaluate the effectiveness of this program and whether General Fund resources can be utilized to better address other community concerns and Commissioners Court priorities.

CRIMINAL DIVISION – RECORDS/INTAKE AND CRIMINAL:

The goal of the Criminal Division - Records/Intake and Criminal Program is, “To see justice done.” The Program’s objective is, “To prosecute all misdemeanor offenses with the highest level of professionalism, ethics, and efficiency.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases entered into TechShare	16,294	16,763	15,936	16,732	19,430
# of cases set on Expedited Dockets	29,826	20,005	20,634	22,003	22,584
Average # of defendants participating in treatment alternative courts	130	183	189	190	198
# of applicants placed in diversion programs	1,719	1,627	1,352	1,491	1,630
# of instances of discovery sent	94,051	114,633	115,779	116,936	118,105
# hearings / case settings	45,165	40,648	32,152	39,322	39,322

The Criminal Division – Records/Intake & Criminal Trial Courts is a mandated program. Pursuant to Constitutional and statutory requirements, the County Attorney is authorized to use prosecutorial discretion to prosecute misdemeanor criminal violations under the Texas Penal Code, Texas Code of Criminal Procedure, the Texas Family Code, the Texas Government Code, and various other Texas Codes (e.g. Texas Occupations Code) and to protect the rights of crime victims under Chapter 56 of the Code of Criminal Procedure.

The Office has identified the “# of applicants placed in diversion programs” as an outcome measure. Through this Division, the Office provides the following discretionary services and diversion programs:

- Pre-Trial Diversion program;
- DWI Pre-Trial Diversion program;
- Citation and Release Diversion program;
- Transformative Youth Justice program;
- Multiple dedicated civil and criminal mental health commitment dockets; and
- Bond Review Docket.

Recent changes within the law and Travis County programs have created the need for more prosecutors to be assigned to Early Case Review/Magistration. The Office notes that the utilization of Early Case Review staff to review probable cause (PC) affidavits before magistration has positively impacted the ability of the Criminal Division of the County Attorney's Office to devote limited resources to the prosecution of complex and violent offenses and to advocate for the safety of victims.

In 2021, the Texas Legislature passed Senate Bill (SB) 6 which requires an attorney representing the State to be notified by the clerk of the court after a magistrate issues an order granting release on a personal bond or modifying a previous bond condition. The Office notes that “Consistent with the obligations of SB 6, CAFA [Counsel at First Appearance, also known as

Counsel at Magistration], and article 56A.051, the Travis County Attorney's Office will represent the interests of justice, the State, and the community during Early Case Review.”

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Mental Health Expedited Dockets	\$276,312	2.0/2.0	The Office states, “The program has been a success. The Commissioners Court provided two (2) SPW Attorney V positions. Those positions have been assigned to the Behavioral Health team. Prior to the implementation of the program, TCAO observed a measurable increase in the quantity of cases placed on the expedited docket. Since implementation, the quantity of FY 2023 expedited dockets continues to be 25% higher than the FY 2020 measurements and 75% higher than the FY 2019 measurement. This office anticipates the number of expedited dockets to continue to increase without the possibility of a significant decrease. Since 2019, the Texas Office of Court Administration has reported a steady increase in the number of criminal cases involving individuals with mental illness or an intellectual disability. The increase is approximately 25% higher than in FY 2019.”
24/7 Early Case Review	\$458,336	3.0/3.0	The Office states, “The implementation of Early Case Review has been a success. During FY 2022, the Travis County Attorney's Office only had the capacity to review 18.23% of all misdemeanor PC Affidavits. In 2023, TCAO reviewed 53.59% of all misdemeanor PC Affidavits. TCAO continues to aim to review 90% – 100% of all bookings for a misdemeanor charge and reduce pretrial detention for nonviolent offenders. However, there are factors beyond the control of TCAO, such as felony and out-of-county holds and any staffing issues that might prevent TCSO from providing the PC affidavits to TCAO. The performance measure of cases reviewed is a direct measure of the number of charges reviewed by the ECR attorneys. In FY 2023, 12,469 cases were reviewed by the team.”

CRIMINAL DIVISION - TRUANCY:

The goal of the Criminal Division – Truancy Program is “To represent the people of the State of Texas in each of the Justice of the Peace/Truancy Courts with the highest level of professionalism, ethics, and efficiency.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of initial hearings	184	266	227	208	189
# of petitions to adjudicate filed	126	206	145	145	145
# of truancy referrals received	138	214	156	141	141

The Criminal Division – Truancy program is a mandated program. House Bill (HB) 2398 was passed in the 84th Texas Legislative session and became effective on September 1, 2015. This law addresses truancy and mandates the operation of a Truancy Court within each Justice of the Peace Courts. The law requires a school district, if a student fails to attend school without an excuse on 10 or more days or parts of days within a six-month period in the same school year, to within 10 school days of the student's 10th absence refer the student to a truancy court for truant conduct under Section 62.03(a). The law also mandates the role of a Truant Conduct Prosecutor assigned to each Truancy (JP) Court. The law requires that the Truant Conduct Prosecutor represent the State in all proceedings resulting from a petition to adjudicate a student as truant, including modification hearings, appeals, and review hearings regarding petitions for nondisclosure and petitions for expunctions.

The Criminal Division – Truancy program receives and reviews truant conduct referrals for school districts and makes filing decisions consistent with statutory guidelines. The Truant Conduct Prosecutor for this Division also provides training and education as requested by various ISD's and individual schools throughout Travis County.

The performance measures of this Division are currently experiencing increases in hearings, petitions and referrals as schools return to in-person operations post-COVID-19. While the Office notes a spike in FY 2023, the measure noted above project that as schools return to normal, in-person operations, hearings, petitions and referrals will slightly decrease, but remain higher than in previous years.

CRIMINAL DIVISION - ENVIRONMENTAL:

The goal of the Criminal Division – Environmental Program is “To pursue criminal (misdemeanor) environmental prosecution for Travis County.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of Environmental Cases on Daily Dockets	205	402	300	300	300
# of Polluted Sites Investigated & Closed	181	104	100	100	100

The Criminal Division – Environmental program is a mandated program. The Travis County Attorney has statewide authority for prosecution of environmental crimes arising under the Texas Water Code and Texas Health and Safety Code to protect natural resources, the environment, and rights of victims.

In addition to prosecutions of environmental crimes, this program involves educating the public and improving the quality of the environment in Travis County and other parts of the state. The Office notes, “The program has apportioned increase resources to prosecute complex cases which will continue to impact program results.” As noted above, the Office is experiencing an increase of Environmental cases, possibly as a result of the growing population of Travis County and greater awareness of environmental matters among constituents. If the Office continues to experience increases of Environmental cases, additional resources and staff may need to be allocated.

CRIMINAL DIVISION – FAMILY VIOLENCE AND PROTECTIVE ORDERS:

The goal of the Criminal Division – Family Violence and Protective Orders program is, “To provide information, assistance, and support to victims of family violence crimes and ensure victims have a voice in a criminal case.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# cases entered into TechShare	2,773	2,333	2,180	2,429	2,429

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# hearings / case settings	45,165	40,648	32,152	39,322	39,322
# of Family Violence cases disposed	1,983	2,204	2,434	2,207	2,207
# PO applications screened	3,193	3,028	2,474	2,898	2,898
# PO court appearances	1,269	1,033	1,036	1,113	1,113
# of PO filed	292	320	492	368	368

The Criminal Division – Family Violence and Protective Orders program is a mandated program. The outcome of the program is “# of Family Violence cases disposed.” Discretionary services provided by the Family Violence and Protective Orders Division include the following:

- Early outreach by victim counselors;
- Assistance in filing for crime victims compensation;
- Referrals to Safe Alliance for safety planning and counseling;
- Referrals to external agencies such as Legal Aid, Texas Legal Services, Integral Care, the Child Guidance Center, and Assistance Family Support Services of Austin;
- Helping applicants get in contact with Child Protective Services; and
- Providing information to applicants for the Attorney General's Office to obtain child support and/or a suit affecting the parent-child relationship.

The Office notes that these discretionary services help protective order (PO) applicants and victims of criminal cases obtain a protective order, legal counsel and safety planning resources that extend beyond the protective order criminal process.

In light of COVID-19, the Office moved to a telephonic screening process for protective orders that has allowed applicants to continue to utilize services remotely. The Office states that “this telephonic screening allowed Applicants to apply that may otherwise not have been able to physically come to our office. In 2023, our office adapted even further and reintroduced the in person, or walk in, screening for protective orders. Our office is a hybrid workspace that can accommodate applicants either in person or remotely. This has greatly increased the number of applicants we can assist.”

The Office states that the increase of protective orders filed, “could be attributed to the law change in September of 2023 which no longer requires an applicant to prove a likelihood of violence in the future. Our office expects to see the number of Applications filed to continue to increase, due to this law change.” The Office continues to allocate resources to this Division as they experience an increase of activity related to obtaining protective orders.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Protective Order Staff	\$206,064	2.0/2.0	<p>The Office states, "The Program has been successfully implemented.</p> <p>Reclassifying the Paralegal position to a Victim Advocate Senior allowed the Travis County Attorney's Office to align the roles and responsibilities of the position with the person hired to fulfill the position. This position has more appropriately contacted the community members seeking protective orders through the County Attorney's Office. The team members can plan for safety with the individual and accurately explain the process to them. As the number of people seeking protective orders increases, the need for helpful and accurate information grows. Applicants are able to contact someone who can provide them with information and resources that could keep them safe during the process.</p> <p>The additional attorney in the Division has increased the number of cases the Division can successfully file and reduced the amount of time it takes to receive an Order.</p> <p>In 2023, the Division filed more Applications for Protective Order. In 2022, an average of 18 Applications were filed each month. In 2023, this average increased to 27.5 Applications filed a month, and the state legislature passed a law that changed the requirements one had to meet to qualify for a protective order. The Travis County Attorney's Office was in a better position to respond to the law change with the additional attorney position. After the law change, the average number of Applications filed each month increased to 38.75. The performance measures of the quantity of PO Applications Screen and PO Applications Filed are direct measures of the number of applicants screened for a protective order and the number of applications filed."</p>

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Director Assistant – Family Violence	\$168,042	1.0/1.0	<p>The Office states, “The program has been successfully implemented. There were no delays in implementation, and we were able to fill the position in December 2022. The Assistant Director is successfully supervising eight (8) attorneys in Court 4, six (6) attorneys in Trial Court, four (4) paralegals, and additional support staff. The Assistant Director is available to supervise attorneys and train them on the job while they handle case filings, negotiations, and trials. With the addition of the Assistant Director of Family Violence, the Office has been able to expand and designate family violence prosecutors in each of the six other criminal County Courts at Law. The Assistant Director of Family Violence regularly meets with these six additional prosecutors and supervises them on the family violence cases pending in their courts. Therefore, the position allows the County Attorney’s Office to provide expert direct supervisory services to all pending family violence cases.</p> <p>With the addition of the Assistant Director, the Family Violence Division added a docket to address the backlog of cases due to COVID-19; we refer to this docket as the ARPA docket. The Division also added a docket to address cases that are completing classes, referred to the Counseling docket. Under the supervision of the Assistant Director and with the additional dockets, the number of pending cases in Court 4 was reduced by 25% from 3,489 to 2,616. The average number of days a case was pending in Court 4 was reduced by 12 days. The Assistant Director met directly with prosecutors to staff roughly 900 cases set for a jury trial. The prosecutors tried seven jury trials to reach a verdict in 2023. The Assistant Director also meets with the TCDAO weekly to staff cases that can possibly be filed as felony offenses. Seventy cases were staffed in the 2023 Calendar year.”</p>

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Investigator, Protective Orders	\$106,288	1.0/1.0	<p>The Office states, “The program has been successfully implemented. The position was filled by October of 2022. The intended result of the proposal was to provide resources to the Protective Order Division because of increased caseloads within the Division. The number of citizens seeking a Protective Order has increased each year in Travis County. These cases are initiated by citizens and are largely investigated by the Travis County Attorney's Office. The addition of the Protective Order Division Investigator has resulted in complete and thorough investigations, cases, and hearings. Having an Investigator present in the Division and at the court appearances has added to the victim's sense of safety and security during the Court process.</p> <p>The investigator has more directly participated in county-wide safety protocols and procedures.</p> <p>In 2023, the Protective Order Division began serving applicants in person again. Since the pandemic in 2020, we have had approximately 50 people enter the building seeking the assistance of the Division. The investigator was present for the safety of the applicants and the staff. Additionally, the investigator was asked to collect offense reports, photos, text messages, and other evidence on the close to 3,000 cases that were interviewed for a protective order. The investigator also accompanied many applicants to Court for their safety in subsequent hearings. Once an Order is received, the respondent must be served. Locating a respondent is often complex, and the respondents regularly seek to avoid service. The investigator position has been able to search numerous databases to look up possible contact information for Respondents, which allows for the Division to file and successfully serve the Court's Orders. The performance measures of the quantity of PO Applications Screen and PO Applications Filed are direct measures of the number of applicants screened for a protective order and the number of applications filed.”</p>

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	23,989,013	25,941,787	27,681,312	29,503,646	1,822,334
Operating	832,271	873,771	877,671	875,219	(2,452)
Total (Per&Op)	\$ 24,821,284	\$ 26,815,558	\$ 28,558,983	\$ 30,378,865	\$ 1,819,882
CAR*	-	-	-	-	-
Grand Total	\$ 24,821,284	\$ 26,815,558	\$ 28,558,983	\$ 30,378,865	\$ 1,819,882
FTEs	220.50	223.50	225.50	232.50	7.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the County Attorney’s Office increased by \$1,819,882 from the FY 2024 Adopted Budget. This is a 6.4 percent increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the County Attorney’s Office includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$842,951 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget including \$806,126 of personnel and \$36,825 of operating resources for an Investigator and staff for the Mental Health Expedited Dockets and Early Case Review.
- \$292,791 was added to the budget related to ongoing costs for including \$285,791 of personnel and \$7,000 of operating resources for a 1.0 Attorney IV FTE and 1.0 Paralegal FTE added to the Office midyear for an anticipated workload increase related to the Public Improvement District (PID) moratorium being lifted.

The FY 2025 Preliminary Budget for the County Attorney’s Office includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources added to continue funding one Attorney VII and two Attorney VI’s as Special Project Workers (SPWs) and related operating resources for Early Case Review for two additional years with an end date of September 31, 2026.	\$500,394	\$-	\$500,394	-

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources added to continue funding two Attorney V's as SPWs and related operating resources for the Mental Health Expedited Dockets for two additional years with an end date of September 31, 2026.	302,078	-	302,078	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for the County Attorney's Office includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources added to transfer the Family Violence Social Services Director (1.0 FTE – position number 30003841) serving as chair of the Austin/Travis County Family Violence Task Force (A/TCFVTF) to County Attorney's Office (119) to better align the Family Violence duties and tasks accomplished by the position with the appropriate Office.	\$-	\$142,875	\$142,875	1.00
Travel and Training Restoration	-	36,274	36,274	0.00
<i>Total Administrative and Other Funding Changes</i>	<i>\$-</i>	<i>\$179,149</i>	<i>\$179,149</i>	<i>1.00</i>

Included in the FY 2025 Preliminary Budget is a 50 percent restoration of travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$36,274 in ongoing operating resources for the County Attorney's Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the County Attorney's Office includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale ("redlined") that would otherwise not receive the Across the Board pay increase.		\$-	\$901,756
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.		-	71,826

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	35,621	35,621
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	9,842	9,842
Resources for health insurance cost increases for FY 2025.	-	121,569	121,569
Total Compensation Changes	\$-	\$1,140,614	\$1,140,614

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

The Office internally reallocated \$50,951 from their operating budget to their personnel budget to address internal personnel needs of the Office and internally funded \$169,662 in career ladder increases for 21 attorney positions in their FY 2025 Budget Submission.

The Office also internally funded a 1.0 Business Analyst III FTE, a 1.0 Paralegal FTE in the Enforcement Litigation and Collections Division, and internally funded a reclass of an Attorney VII to a County/District Assistant Director in the Trial Division within their FY 2025 Budget Submission.

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15 percent increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the County Attorney's Office has one revenue generating contract it manages. The contract is being proposed by the County Attorney's Office for adjustment in FY 2025.

Below is a table with additional details on the revenue generating contract that has been proposed by the County Attorney's Office for adjustment. This proposed adjustment is currently being reviewed by PBO and the County Auditor's Office. PBO and the Auditor's Office will coordinate presenting the recommended changes to the Commissioners Court. Fee adjustments required to be approved by the Commissioners Court will be presented in September prior to the adoption of the FY 2025

Budget. Recommended changes to any revenue contracts will be presented to the Commissioners Court at the next contract renewal or according to the terms of the contract.

<i>Central Contract Name</i>	<i>FY 2024 Contract Amount</i>	<i>FY 2025 Proposed Contract Amount</i>	<i>Justification for FY 2025 Proposed Contract Amount</i>
Central Health Cash Management and Legal	\$750,000	\$392,788	The Office states, "To provide a revenue estimate for FY 2025, I reviewed the Central Health (CH) billings for FY's 2022, 2023, and the partial for 2024 (October 2023 - February 2024). I also took into consideration the increase for legal service requests over the last fiscal year, direction of the new leadership and their legal needs and countered that information with CH's desire to be more independent in selecting legal services provided by others outside of the Travis County Attorney's Office (TCAO). Using the above information, I conservatively based the total revenue on the means of the first four (4) months of FY 2024 and multiplied that number by 10% which is a projected decrease in billings TCAO may see from CH. I then multiplied that figure by 12."

VACANT POSITIONS

The Office currently has six total vacancies, out of which the following position has been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Paralegal	30067203	1.00	160	The Office notes that they are currently reviewing application for the position.

The following position has been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Attorney V	30059893	1.00	555	The Office notes that they are holding the position vacant so that it may be utilized to move an LFRF SPW to the General Fund when funding is no longer available.

FUTURE CONSIDERATIONS

The Office notes, "The addition of Civil and Criminal courts, an increase in population, continued compliance with the Morton Act, the expansion of the waiver of immunity by the legislature, and an increase in criminal enforcement jurisdiction continue to increase the need for comprehensive civil legal services and the need to review and resolve matters through the criminal justice system. Further, the increase in Commissioner Court programs and priorities have increased the need for comprehensive legal services."

The Office is working with the Family Justice Center Alliance of HOPE International to assess community readiness for and assist in the development of a Family Justice Center (FJC) to serve victims of domestic violence and sexual assault and their children. The Office notes that the Alliance will work with the Office to provide training, technical support and ongoing technical assistance as requested. The Office anticipates that the assessment will begin in FY 2024 and the Office is allocating \$60,000 of internal departmental resources to conduct this study. PBO recommends that the Office share the results and findings of this assessment with the Commissioners Court so that any future fiscal implications can be better understood.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk's Office, the County Attorney's Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a wholistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss our draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioner Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

DEPT. SUMMARY OF REQUEST

The Travis County Attorney’s Office requests funding for one (1) FTE Attorney VII and two (2) FTE Attorney VI positions. This is a request for permanent ongoing funding of three (3) Special Project Worker positions granted from the midyear FY 2022, FY 2023, and FY 2024 requests.

The purpose of these positions is to support Early Case Review (ECR) and provide prosecutorial decisions at the earliest juncture within the criminal justice system to (i) reduce the jail population and avoid costs related to incarceration, indigent defense fees, and monitoring by Pretrial Services; (ii) to avoid costs related to the collateral consequences of an arrest such as loss of employment, housing, and familial stability; (iii) to advocate for bond conditions that keep victims and the community safe; and (iv) ensure appropriate charges are filed and inappropriate charges are not filed by having a direct point of contact for law enforcement agencies. This request is separate from the expected re-commencement of the Council at First Appearance (CAFA) initiative.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Existing Measures</i>						
# of cases entered into TechShare	16,294	16,763	15,936	16,732	17,994	19,430
# of cases filed	11,498	11,143	10,804	12,038	12,038	12,516
<i>New Measures</i>						
# of cases reviewed	1,902	12,469	13,780	14,000	14,000	14,280

PBO RECOMMENDATION

Beginning in FY 2023, the County Attorney’s Office implemented 24/7 Early Case Review. The Office states, “The goal of 24/7 Early Case Review is to review probable cause (PC) affidavits submitted by law enforcement. Early Case Review relies on a collaborative effort between law enforcement, TCSO jail personnel, TCAO, the county and city clerk, and the magistrate. After a law enforcement officer submits a PC affidavit to TCSO, a member of TCSO jail personnel forwards the probable cause affidavit to TCAO for an attorney to review, and an attorney returns the review to TCSO. If a case is accepted, TCSO forwards the probable cause affidavit to a magistrate. If declined, TCSO releases the misdemeanor hold on the arrested individual.”

The Office assigns one prosecutor per shift on a rotating basis to ensure coverage for three shifts; Shift A: 7 am – 3 pm; Shift B: 3 pm – 11 pm; and Shift C: 11 pm – 7 am, seven days a week. For Shift A, prosecutors review cases within thirty minutes of receiving a Probable Cause (PC) affidavit from the Sheriff’s Office. Prosecutors are unable to review PC affidavits in a similar timely manner for Shifts B and C due to staffing constraints. PC affidavits submitted during these shifts, are also reviewed the following morning during Shift A, as agreed to with the Sheriff’s Office. In addition to their review, prosecutors for all shifts also assist in ongoing investigations through collaborative efforts with various law enforcement agencies throughout Travis County. The Office also notes, “The purpose of the initiative is to ensure that citizens are provided prompt decisions about the direction of a case prior to review by a magistrate. When a case is deemed not appropriate for prosecution, a citizen is released from custody without the need for appointed counsel.”

The implementation of 24/7 Early Case Review has greatly impacted the number of cases the Office has been able to review, as opposed to the number of cases reviewed before Early Case Review was implemented in March 2021 (midyear FY 2021). The Office notes that during FY 2022, only 18 percent of all misdemeanor PC affidavits were reviewed. In comparison, during FY 2023, the Office was able to review 54 percent of all misdemeanor PC affidavits and 61 percent of all misdemeanor PC affidavits, as of May 2024. The Office continues to work towards review 90 percent – 100 percent of all bookings for a misdemeanor charge and “reduce pretrial detention for nonviolent offenders.”

The graph below, based on data provided by the County Attorney’s Office, indicates that Early Case Review efforts have significantly reduced the average length of jail stay for individuals whose cases are reviewed by the Early Case Review Staff, even if their charges are accepted.

The average length of jail stay for an individual with an accepted case has decreased approximately 48 percent from 15.46 days in jail on average to 8.08 days in jail on average between FY 2023 and May 2024 and a 60 percent decrease between FY 2022 and May 2024. For individuals booked, even with declined cases, the average length of jail stay for an individual with an accepted case has decreased approximately 11 percent from 15.57 days in jail on average to 13.81 days in jail on average between FY 2023 and May 2024 and a 4 percent increase between FY 2022 and May 2024. The Office states that this data provides, “compelling evidence of the cost-saving benefits when an Early Case Review Attorney reviews a case. The County stands to gain significant cost reductions associated with housing inmates, regardless of whether the Early Case Review attorney accepts or declines a charge.”

PBO recommends the continuation of the Early Case Review staff including one Attorney VII and two Attorney VI’s as Special Project Workers (SPWs) and related operating resources for two additional years with an end date of September 30, 2026. During this time, the Office will continue to explore the benefits of Early Case Review and its impact on the Travis County justice system, including CAFA. As the feasibility of implementing CAFA on a 24/7 basis is explored among Travis County Offices and Departments, it is important to note that these Early Case Review SPWs will be used for the County Attorney’s role in CAFA, in addition to their other duties.

REQUEST #2: MENTAL HEALTH EXPEDITED DOCKETS

<i>Program:</i>	Criminal Division - Records / Intake & Criminal Trial Courts (119)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 302,078	\$ 302,078	\$ 302,078	\$ -

DEPT. SUMMARY OF REQUEST

The Commissioners Court has adopted a vision that includes reducing crime and jail populations, supported by increased/effective mental and behavioral health services so that the community will be safer. In furtherance of this vision, the Travis County Attorney’s Office requests ongoing funding of \$302,078 to convert two (2) Attorney V Special Project Worker (SPW) positions to full-time equivalents (FTE) which were originally granted in FY 2023 and renewed in FY 2024 to address the increase in the number of expedited dockets. Expedited dockets impact jail population and consist off Bond Review Docket (BRD) and the Special Reduction Docket (SPRD). Without additional approval, the funding for the positions terminates at the end of FY 2024.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of cases filed	11,498	11,143	10,804	12,038	12,038	12,516
# of cases set on Expedited Dockets	29,826	20,005	20,634	22,003	22,003	22,584
# of instances of discovery sent	94,051	114,633	115,779	116,936	116,936	118,105
# of Morton Act Compliance Statements Completed	3,441	4,566	3,998	4,017	4,017	4,037

PBO RECOMMENDATION

Beginning in FY 2020, the Office observed a significant increase in the number of cases set on the Expedited Dockets, which consists of the Special Reduction Docket (SPRD) and the Bond Review Docket. The SPRD is held twice a week and, “exist[s] to provide consideration of defendants’ mental health to determine the appropriate types of treatment and case disposition for defendants’ requiring mental health services.” The Bond Review Docket, “exists to judiciously evaluate and determine case

dispositions for individuals housed in the Travis County jail through pretrial detentions.” The following graph notes the number of cases on the Expedited Dockets for the last five fiscal years, as well as the projected number of cases on the dockets for FY 2024 and FY 2025.

*Projected

The Office projects that the number of cases on the Expedited Docket will continue to grow due to the growing interest of alternative dockets and diversion efforts. Of note, in FY 2022, the Office continued to work through the case backlog as a result of the COVID-19 pandemic. This, coupled with the increase of cases involving individuals with mental illness and legislation that resulted jail populations lead to a spike in FY 2022, a 52 percent increase over FY 2021. The Office also projects an increase in the number of cases involving individuals with mental illnesses or intellectual disabilities as the Travis County population continues to grow, as noted in the following table.

*Projected

The Office has experienced a 25 percent increase of case involving individuals with mental illnesses or intellectual disabilities and projects a 34 percent increase in FY 2024, over FY 2023. Due to these noted increases of cases on the expedited dockets and case involving individuals with mental illnesses or intellectual disabilities, PBO recommends the continuation of the Mental Health Expedited Dockets staff including two Attorney V's as SPWs and related operating resources for two additional years with an end date of September 30, 2026, so that the Office may continue to address the increase of caseloads.

REQUEST #3: PROTECTIVE ORDERS INVESTIGATOR

<i>Program:</i>	Criminal Division - Family Violence & Protective Order Div (119)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	1.00	1.00	1.00
Personnel	127,770	127,770	127,770	127,770
Operating	2,000	2,000	2,000	2,000
Subtotal	\$ 129,770	\$ 129,770	\$ 129,770	\$ 129,770
Capital	104,115	-	-	-
Dpt Total	\$ 233,885	\$ 129,770	\$ 129,770	\$ 129,770
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 233,885	\$ 129,770	\$ 129,770	\$ 129,770

DEPT. SUMMARY OF REQUEST

The Travis County Attorney’s Office requests ongoing funding of \$233,885 to convert one Investigator SPW to an FTE in the Criminal – Family Violence and Protective Order Division originally granted in FY 2023 and renewed in FY 2024 to address the significant increase in protective order screenings and court hearings within the Family Violence and Protective Order division. The investigator will be utilized to improve the screening of protective order applicants, including tasks related to conflicts of interest and contact information for abusers, and to facilitate case resolution within the Family Violence and Protective Order Division.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# PO applications screened	3,193	3,028	2,474	2,898	3,047	3,107
# POs filed	292	320	492	368	456	501

PBO RECOMMENDATION

Recently enacted State legislative changes reduced the legal requirements necessary to apply for a protective order and also included victims of indecent assault in the list of individuals who can seek a protective order. In addition, during COVID-19, the Office began to accept protective order applications virtually, which also resulted in an increase of workload for the Protective Order division. To address this increase, in FY 2023 the Office reassigned investigator resources to the Division and assigned a devoted Investigator to the Family Violence and Protective Order Division to address the increase in caseloads, TechShare requests, court accompaniment for victims, as well as Office staff, and assist with locating defendants and respondents who are seeking to avoid attending court. This investigator also obtains and evaluates necessary evidence to make screening determinations to prepare for hearings.

The Office states, “the reallocation of resources is not sustainable without additional funding for an Investigator (FTE). The Protective Order Division has seen a 46% increase in the number of applications filed between FY 2022 and September and October of FY 2023. This rate would suggest the Division will file approximately 462 applications in 2024. Additional filings will result in requiring more evidence to be gathered and collected and in applicants attending more hearings requiring accompaniment by an Investigator.” The following table notes the increase of protective orders filed with the Office.

***Projected**

PBO recommends ongoing funding of \$129,770 to convert this Investigator SPW position to 1.0 FTE so that the Office may continue to address the Division’s demonstrated investigative needs and the anticipated increase of workload related to more protective orders being filed. Additionally, PBO recommends the continuation of a loaner vehicle (Unit #:4380) provided by TNR and recommends that the Office order additional fuel cards, as needed, for this unit vehicle from TNR Fleet Fuel. PBO also recommends that the Office continue allowing this position to utilize the radio provide by the Office.

REQUEST #4: ARPA COURT - INVESTIGATOR

<i>Program:</i>	Criminal Division - Family Violence & Protective Order Div (119)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	1.00	1.00	1.00
Personnel	115,037	115,037	115,037	115,037
Operating	3,000	3,000	3,000	3,000
Subtotal	\$ 118,037	\$ 118,037	\$ 118,037	\$ 118,037
Capital	104,508	-	-	-
Dpt Total	\$ 222,545	\$ 118,037	\$ 118,037	\$ 118,037
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 222,545	\$ 118,037	\$ 118,037	\$ 118,037

DEPT. SUMMARY OF REQUEST

The Travis County Attorney’s Office requests ongoing funding of \$222,545 to convert one Investigator grant-funded position to an FTE to locate defendants who have become disengaged from their attorneys and the court. This SPW was originally funded by the American Rescue Plan Act (“ARPA”) and approved by the Commissioners Court for FY 2023 and FY 2024. A skilled investigator with access to local and nationwide location databases combined with their experience and other resources could restore the pathways of communication and allow cases to move toward a resolution and avoid bond forfeitures. The Departments notes that the Investigator position is a great example of cost avoidance to the County. Additionally, the position is needed to address the increase in protective order screenings and hearings and to support the Family Violence/Protective Order Division, along with other functions within the Office. The Office notes that typically 1 Investigator is assigned to 2 courts, but this additional investigator would provide support to address unindicted case backlog.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>

# POs filed	292	320	492	368	456	501

PBO RECOMMENDATION

In FY 2022, the Travis County Commissioners Court approved a contract with the Texas Judiciary to receive funds appropriated from the federal American Rescue Plan Act (ARPA). The grant period was from October 1, 2022, through March 31, 2024. This grant assisted Travis County Criminal Courts with the backlog of cases caused by the COVID-19 pandemic and funded six positions, including: 1) an investigator for the County Attorney's Office, 2) a Case Worker in the Public Defender’s Office, 3) a Court Clerk II in the District Clerk’s Office, 4) a Court Clerk II in the County Clerk’s Office, 5) a Judicial Aide Specialist (Court Coordinator), and 6) a contracted Court Reporter within the Criminal Courts, which was converted to a full-time position

because of the needs of the ARPA Court. Funding was also allocated for contract interpreters, visiting judges, and other operating needs.

Since its implementation, the Criminal Courts note that the ARPA Court has assisted with the disposition of cases and unindicted case backlog because of COVID. Per data provided by the Criminal Courts, of Felony cases set on the Unindicted Docket in the ARPA Court, 23 percent are disposed of within 30 days of setting, and 35 percent are moved to a pretrial diversion program. The Department also notes the time, in days, to disposition decreased since the introduction of the Unindicted Docket for all felony cases, as shown in the table provided by the Criminal Courts below.

The Criminal Courts note the ARPA Court assisted with Felony cases set on the Jury Docket, specifically for Family Violence cases in County Court-at-Law 4, and notes that 49 percent of Felony cases set on this docket are disposed of within 30 days of the setting date, compared to a 28 percent disposition rate for regular dockets. Jury trials for the County Court-at-Law 4 also decreased by 52 percent since the implementation of the ARPA Court. The following table notes the reduced decrease in the number of Jury trials set for this court due to the assistance of the ARPA Court.

Due to the implementation of the ARPA Court, the County Court-at-Law 4 has a reduced caseload. The Department notes the County Court-at-Law 4 caseload decreased by 45 percent, as indicated in the following table.

Beginning in April 2024, CAFA test shifts began operating the Auxiliary (AUX) Courtroom of the Blackwell-Thurman Criminal Justice Complex (CJC), which is where the ARPA Court had been holding operations. However, the Criminal Courts note this has not slowed ARPA Court operations, as the Department uses empty courtrooms on a rotating basis to continue ARPA Court operations. The Department is willing to continue using vacant courtroom space on a rotating basis due to CAFA test shifts. The area of the Travis County Jail identified to conduct CAFA will need to undergo repairs and renovations beginning in June 2024. These repairs and renovations could take approximately 18 months before the space can be utilized to conduct CAFA. PBO will work with Facilities Management, the Travis County Sheriff's Office (TCSO), and other relevant stakeholders Offices, and Departments to provide updates to the Commissioners Court on the progress of these repairs as needed.

The Criminal Courts worked with the Grantor to extend the continuation of these grant-funded positions and identified grant savings to fund the positions until approximately September 2024. The FY 2024 Adopted Budget includes a \$305,495 Earmark against the Allocated Reserve for the continuation of the ARPA Court so these positions and operations could continue for the remainder of FY 2024. The County Attorney's Office, the County Clerk's Office, the Criminal Courts, the District Clerk's Office and the Public Defender's Office requested to continue these positions for FY 2025. The following table notes the resources requested by each Office and Department for FY 2025.

FY 2025 Requested Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$104,508	\$104,508	\$115,037	\$3,000	\$118,037	\$222,545	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Criminal Courts	263,456	-	-	263,456	-	-	-	263,456	0.00
Criminal Courts LMF	-	150,475	-	150,475	-	-	-	150,475	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Public Defender's Office	-	-	2,600	2,600	81,311	2,800	84,111	86,711	1.00
Total	\$417,072	\$150,475	\$107,108	\$674,655	\$196,348	\$5,800	\$202,148	\$876,803	4.00

FY 2025 requested resources for the ARPA Court total \$876,803 and 4.0 FTEs. This includes \$613,420 of personnel resources, \$5,800 of ongoing operating resources, \$150,475 of one-time operating resources and \$107,108 of CAR/ITS resources.

The County Attorney's Office requested \$222,545 and 1.0 FTE. This includes \$115,037 in personnel funding for a 1.0 Investigator FTE, along with \$3,000 in ongoing operating resources for supplies, travel and training associated with this position. The request includes \$104,508 in CAR/ITS funding for a law enforcement vehicle and radio equipment.

The County Clerk's Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

The Criminal Courts requested a total of \$413,931 and 2.0 SPWs. This includes \$100,602 of one-time personnel resources for a Judicial Aide Specialist to serve as a Court Coordinator and \$162,854 of one-time personnel resources for a Court Reporter to support continued ARPA Court operations. The Criminal Courts also requested \$150,475 in one-time operating resources for contracted visiting judges to be budgeted in the Criminal Courts Legally Mandated Fees Department.

The District Clerk's Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

Lastly, the Public Defender’s Office requested \$86,711 and 1.0 FTE. This includes \$81,311 of personnel resources, \$2,800 of ongoing operating resources for travel and equipment costs and \$2,600 in one-time centrally budgeted resources for computer of phone equipment related to the conversion of the Case Worker SPW position into a full FTE (1.0 FTE).

The Department further notes, “The ARPA Court will allow the Travis County criminal justice system to keep pace with an expanding population and backlogged cases reaching the docket. It will allow the Criminal Courts to maintain and improve the clearance rates of cases and the percentage of Felony cases disposed within 180 days.” PBO recommends the continuation of the ARPA Court in order to continue providing this level of service and addressing the criminal case backlog.

The following table notes PBO recommended resources for ARPA Court operations.

FY 2025 Recommended Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$-	\$-	\$115,037	\$3,000	\$118,037	\$118,037	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Criminal Courts	100,602	-	-	100,602	162,854	-	162,854	263,456	1.00
Criminal Courts LMF*	-	-	-	-	-	-	-	-	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Public Defender’s Office	81,311	2,800	-	84,111	-	-	-	84,111	0.00
Total	\$335,529	\$2,800	\$-	\$338,329	\$277,891	\$3,000	\$280,891	\$619,220	2.00

*PBO recommends a \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

FY 2025 recommended resources for the ARPA Court total \$619,220 and 2.0 FTEs. This includes \$613,420 of personnel resources and \$5,800 of operating resources. PBO also recommends a \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

PBO recommends \$118,037 of ongoing personnel and operating resources to convert an Investigator SPW to 1.0 FTE within the County Attorney’s Office. This investigator will continue to support the County Attorney’s efforts to reconnect disengaged defendants with the court system. PBO does not recommend funding for a vehicle or radios for this position and recommends that the position continue utilizing the loaner vehicle provided by TNR and the radio provided from the County Attorney’s Office internal inventory.

PBO also recommends a total of \$263,456 of personnel resources for the Criminal Courts. This includes \$162,854 of ongoing personnel resources for 1.0 Court Reporter FTE to not only continue supporting ARPA court operations but to also provide ongoing court reporting support for all the Criminal Courts. Also included is \$100,602 of one-time personnel resources for a 1.0 Judicial Aide Specialist SPW for a two-year period, with an end date of September 30, 2026, to continue supporting the ARPA Court.

Furthermore, PBO recommends \$153,616 in one-time personnel funding for two two-year Court Clerk II SPWs with an end date of September 30, 2026, one each within the District Clerk’s Office and the County Clerk’s Office.

PBO recommends a total of \$84,111 in one-time resources, including \$81,311 in personnel and \$2,800 in associated operating resources, to support the continuation of the ARPA Court Case Worker SPW in the Public Defender's Office for two additional years with an end date of September 30, 2026.

Lastly, PBO recommends a \$100,000 Earmark against the Allocated Reserve for contracted Visiting Judges to assist with ARPA court judicial proceedings. Typically, the State of Texas contributes funding for District visiting judges, which has resulted in a remaining balance in previous years for the Criminal Courts Visiting Judge budget. PBO recommends that the Department first utilize their current Visiting Judge budgeted resources before requesting to access these earmarked funds. Because a major part of this Court's function is to support efforts to reduce backlog in the courts, PBO acknowledges the potential need for additional resources.

REQUEST #5: CAFA – COUNTY ATTORNEY STAFFING FOR 24-7 OPERATIONS

<i>Program:</i>	Criminal Division - Records / Intake & Criminal Trial Courts (119)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

DEPT. SUMMARY OF REQUEST

The Travis County Attorney’s Office requests ongoing funding for six (6) Attorney VI FTEs and six (6) Paralegal FTEs. The purpose of these positions is to provide prosecutorial decisions at the earliest juncture within the criminal justice system to (i) reduce the jail population and avoid costs related to incarceration, indigent defense fees, and monitoring by Pretrial Services; (ii) to avoid costs related to the collateral consequences of an arrest such as loss of employment, housing, and familial stability; (iii) to advocate for bond conditions that keep victims and the community safe; and (iv) to ensure appropriate charges are filed and inappropriate charges are not filed by having a direct point of contact for law enforcement agencies.

PBO RECOMMENDATION

PBO’s final recommendation for CAFA-related FY 2025 budget requests is pending a wider analysis of anticipated needs across all stakeholders intended to support an eventual full implementation of CAFA.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of

Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk's Office, the County Attorney's Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss PBO's draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioners Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

REQUEST #6: EXTERNALLY FUNDED CAREER LADDERS

<i>Program:</i>	County Attorney (119)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 169,662	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Career Ladder funding for 21 Assistant County Attorneys eligible for increases during FY 2025.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

The County Attorney’s Office internally funded \$169,662 in career ladder increases for 21 attorney positions in their FY 2025 Budget Submission.

The Planning and Budget Office supports the career ladder program, but since FY 2010, the Commissioners Court has not provided additional General Fund resources for career ladders. Instead, Offices and Departments have been responsible for managing internal personnel funds to ensure appropriate career ladder movement for their employees. Given the length of time that has passed since centralized budgeting of career ladder increases, it may be time to re-evaluate career ladder policies in conjunction with HRMD’s review of career ladders countywide. It will be important, if the Commissioners Court reinstates centralized funding, for there to be a mechanism to track career ladder increases. PBO is waiting for further guidance from Commissioners Court on a countywide strategy for awarding career ladders. Until that time, PBO does not recommend funding this request.

REQUEST #7: DIVERSION CENTER

<i>Program:</i>	County Attorney (119)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-

Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ -	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This request supports the creation of a Travis County Diversion Center focused on serving individuals with mental illness or substance use disorders who frequently interact with the criminal justice system, homeless continuum of care services, and acute care medical and mental or behavioral health treatment systems by using any available funds which may include, but not be limited to, federal funds allocated to Travis County.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

On May 9, 2023, Commissioners Court approved the Health and Human Services Department (HHS) request to use \$19,500 to enter into an agreement with a consultant to provide technical assistance for development of a diversion system to further advance the goal of Travis County developing an effective diversion system that includes multiple entry points, including pre and post arrest from the \$500,000 Earmark against the Allocated Reserve.

The consultant facilitated a discussion with stakeholders on June 5, 2023. The consultant was identified through a two-day conference attended by a delegation of Travis County staff and Elected Officials in April 2023, which included discussion with experts who developed the soon-to-be-completed Miami Center for Mental Health & Recovery. The consultant, who helped develop Miami’s comprehensive diversion system, will share subject matter expertise with Travis County and work to provide technical assistance to further the goal of developing a robust diversion system in Travis County. This technical assistance will build on the assets and studies already available to ensure stakeholder engagement in the work and aligns with the unanimously passed Resolution on a Diversion Center on March 23, 2023, and the Local Fiscal Recovery Fund (LFRF) funding allocation of \$8 million for a Residential Jail Diversion with Mental Health and Addiction Treatment Pilot approved by Commissioners Court on April 20, 2023. Additional discussions will continue to occur and will likely include outside consultation and guidance from the Council of State Governments (CGS) Center for Justice and Mental Health Partnerships.

On November 28, 2023, Commissioners Court approved a Request for Qualifications (RFQ) to begin providing services in the community. It is anticipated that this Phase will begin in Spring 2024. The County Judge Office notes, “The learnings from the pilots will help the longer-term diversion center efforts. The proposed model is designed to reduce jail recidivism, frequency of arrest, and incarceration for people with mental and behavioral health conditions and who may be experiencing homelessness. Diverting individuals from jails and connecting them to treatment options, supportive services, and housing focused services improves health outcomes for the individuals and our community.”

The County Judge’s Office has requested to continue the ongoing Earmark against the Allocated Reserve totaling \$500,000 for FY 2025. As of May 2024, Travis County staff and relevant stakeholders continue to work to identify a facility and location for the Diversion Center and have continued collaborative efforts with community healthcare partners and local non-profits. Due to the uncertainty on the location of the facility, its operating structure with other local governments and non-governmental organizations (NGOs), and how it would integrate with the existing Justice System, especially with the implementation of Counsel at First Appearance (CAFA), PBO does not have sufficient information to make a recommendation on what resources may be needed for this effort. PBO recognizes that this request has been prioritized by the Commissioners Court in its strategic planning discussions and this item could merit discussion at a budget hearing and budget markup in August should any additional available resources materialize in later revenue estimates and if some of these plans become more certain throughout the summer.

For FY 2025, PBO has recommended an earmark for the Commissioners Court related to Jail Diversion Center / Prevention Services. The relevant recommendation included in the FY 2025 Preliminary Budget writeup for the County Judge (101) is included here below:

PBO recommends Earmarks totaling \$68,830,632 for the Jail Diversion Center / Prevention Services consisting of a \$5,000,000 Earmark against the Allocated Reserve and a \$63,830,632 Earmark against the CAR Reserve for the FY 2025 Preliminary Budget. These Earmarks will be listed under the Commissioners Court rather than a particular Commissioners Court Office. These funds are unspent resources from the Budget Stabilization Reserve in FY 2024 and an unspent balance from a CAR Earmark based on unspent funds from the FY 2023 Budget Stabilization Reserve.

Additionally, PBO will continue to work with stake holder departments, including the County Judge’s Office and Purchasing, to right size resources related to the Diversion Center projects for FY 2025.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Travis County Auditor’s Office is to provide reliable financial services that ensure financial integrity, promote accountability in government, and maintain the public trust. The Office accomplishes this through the general oversight of all county records, the strict enforcement of all laws governing county finances, the audit of all records pertaining to county finance, and the ability to ensure the proper collecting and accounting of all funds including money and property held for third parties.

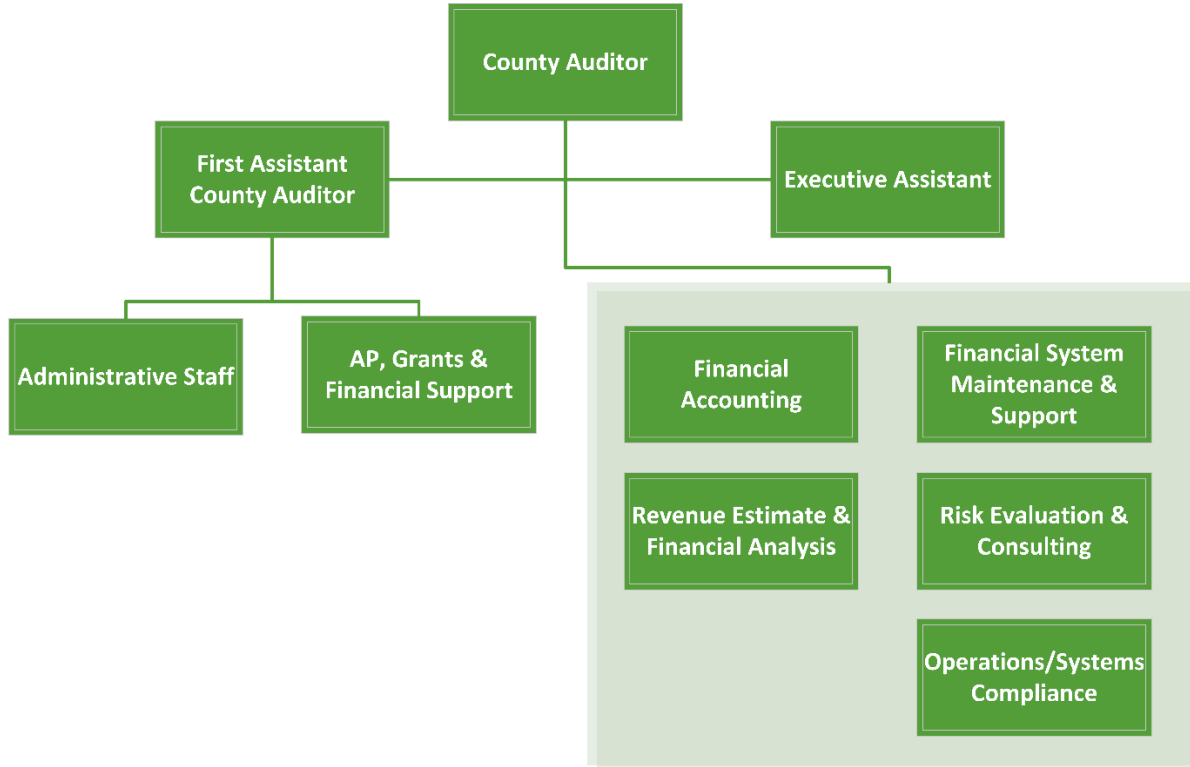

The Office has identified the following strategic goals:

- Perform (or support the performance of) statutorily mandated functions efficiently and cost effectively;
- Broaden the scope of audits related to revenue and/or expenditure accountability throughout the County as well as a focus on interlocal contracts;
- Increase transparency by expanding the public’s access to financial information following the best practices outlined by the Texas State Comptroller;
- Use technology/revise processes where possible to be “paperless”, decreasing paper use/retention costs; and
- Assist departments with identifying inefficient processes associated with SAP use and implement improvements.

This aligns with the new County goal “Be a trusted and well-run county.”

The Office is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Supports All Other County-wide Goals,” and are now linked to the County Goal, “Be a trusted and well-run county.”

REVENUE ESTIMATION AND FINANCIAL ANALYSIS:

The Revenue Estimation and Financial Analysis division is responsible for providing the statutorily required estimates of fund balances available at the end of the fiscal year and the revenues available for expenditure during the ensuing year. The Auditor’s Office reports these activities are mandated under Texas Local Government Code, Chapter 111. The related program goal is to perform (or support the performance of) statutorily mandated functions efficiently and cost effectively.

The Office states, “the revenue estimation process focuses on continuously improving its collaborative and analytical activities such as evaluating and validating departments’ forecasts; reviewing contracts and/or amendments; researching economic forecasts, legislative changes, and trends (e.g. interest rates, motor vehicle sales tax, etc.); and expanding its interaction with outside entities such as the Travis Central Appraisal District and various state and local agencies to obtain information that directly or indirectly affects revenue.”

Activities for this division over the past fiscal year included:

- Prepare and send estimates of revenue and available resources to Commissioners Court.
- Modify revenue estimation methodology as necessary to account for changes in the economic environment. Develop and distribute a quarterly economic outlook publication (ongoing).
- Work with Offices and Departments to update current status of revenue contracts. Secure new and amended contracts. Work with Purchasing to upload into SAP. Provide revenue contract summary to PBO to support on-going full cost recovery program. Monitor revenue related to contracts to ensure County billings are prepared timely and the payments received from vendors are in accordance with contract terms (on-going).
- Work with Offices and Departments to update the County’s fee schedules based on legislative and Commissioners Court changes. Send updated fee schedules to PBO to support full cost recovery efforts.
- Audit and monitor revenue certifications submitted by departments through the entire certification process.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
General Fund actual revenue to final budget as % (Annual Comprehensive Financial Report basis)	105.33%	105.13%	102.50%	100.00%	100.00%

The Auditor’s Office states that its activities are crucial in supporting the statutory revenue estimation duties for Travis County. During the COVID-19 pandemic and subsequent recovery phases, the Office adopted a conservative approach to revenue estimation. It shifted from using long-term historical trends to shorter-term methodologies in response to the unpredictable economic conditions. Despite the challenging internal and external factors affecting revenue, the Office reports that the actual revenue exceeded the budgeted figures, demonstrating a favorable outcome. Additionally, the Office has

identified several issues with revenue contracts, such as expirations, timing of invoicing, improper coding, and late payments. Departments have been engaged by the Office to rectify these issues. Moving forward, the economic forecasts prepared by the Office will continue to provide essential insights to decision-makers, potentially impacting future revenue projections for Travis County.

PAYROLL AND BENEFITS AUDITING:

The Payroll and Benefits Auditing division is charged with ensuring compliance with various federal laws and mandates promulgated by the Internal Revenue Service, the Department of Labor, the Social Security Administration, and others. It also ensures compliance with various state laws. Texas Local Government Code, Section 151.903 requires maintenance of personnel and payroll records as well as the certification of payroll by officials as prescribed by the County Auditor. The Office states the audit, filing and reporting activities support statutory compliance duties, and the other activities of the division were mandated per federal regulations or legal settlement.

The activities of the Payroll and Benefits Auditing team include:

- Audit payroll-related transactions each payment cycle to ensure correctness and compliance;
- Perform statutory reporting and filing activities; and
- Collaborate with other Auditor teams and/or departments to implement processes for newly approved programs.

The Auditor's Office has highlighted efficiency and accuracy as the two key metric areas for the Payroll and Benefits Auditing Division. The Office states the Payroll and Benefits Auditing Division has continued outreach to employees not using direct deposit, which is less costly and more efficient than using paper checks. The removal of travel time, communication and coordination with the Treasury Office to complete this task has improved the payroll departments efficiency and increased the productivity.

In addition, the Payroll and Benefits Auditing Division measures accuracy by monitoring the number of "manual" checks created as a percent of the total number of payroll payments. The Office states, "Manual checks (excluding replacement checks that have been lost or stale dated checks) are produced to address errors that were not detected prior to payroll processing, resulting in an over or under payment to an employee." The Division uses enhanced auditing techniques to keep this number low and to reduce it wherever possible, and only four manual checks were issued in FY 2023.

The Office reports that its audit and filing/reporting activities are essential for maintaining statutory compliance. Over the past year, the Office has introduced several new process efficiencies to enhance operational effectiveness, including:

- The implementation of a system for creating ACH replacements;
- The development of a process that allows former employees to request W2s and paystubs;
- The documentation and updating of procedures to manage the division's 60% staff turnover, primarily due to retirements. This update supports critical functions like TCSO retention, Multiple Worksite reporting, and TWC Unemployment reporting/invoicing; and
- The establishment of a formalized process for the communication and documentation associated with employee repayment agreements.

These improvements reflect the Office's commitment to adapting and improving its compliance processes in response to changing staff dynamics and technological advancements.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of annual manual checks created to address payroll errors	0.23%	0.13%	1.00%	1.00%	1.00%
% employees using direct deposit instead of paper check	98.97%	99.65%	99.10%	99.00%	99.00%

RISK EVALUATION AND CONSULTING (REC):

The Risk Evaluation and Consulting (REC) Division performs statutory audits, risk assessments, and special consulting projects. The primary function of audit activities is to support the applicable statutory compliance duties, and the Office cites Local Government Code Section 115, Government Code 511.016, and the Code of Criminal Procedure, as the statutory basis for the work of the Risk Evaluation and Consulting Division, along with many other statutes that require an auditing function. The Office reports between 40 and 50 special projects are completed per fiscal year. In FY 2022, REC performed a large number of subrecipient risk assessments, as well as a number of audits and special projects. The Division is continuing a transition to a continuous auditing approach for many areas of the County, using automation and data management tools to facilitate audit analysis. These programs produce exception listings for further review by audit staff and can be used to create audit reports without auditor involvement.

The activities of the REC division include:

- Implement continuous auditing programs with a focus on system-generated receipt testing and analysis of Tax Office motor vehicle registration and title data;
- Perform statutory reviews;
- Perform special projects as needed; and
- Perform risk assessments and monitor federal grants.

The Office also reports significant ongoing activities such as working to review the County's various revenue contracts to address billing, internal control, and compliance issues, working to address issues related to the County's Interlocal Agreements, working to ensure that court costs are assessed and collected in a statutorily compliant manner, and working with appropriate grant recipients and subrecipients to address risk.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

Package Name	Approved Amount	FTE Approved /Filled	Program Results
<i>FY 2023</i>			
Grants Special Project Worker Position to FTE	\$132,534	1.0	<p>Funding was approved to convert the four-year funded General Fund SPW (Special Project Worker) position approved by Commissioners Court on February 1, 2022, to a permanent position. The position was needed to handle crucial ongoing subrecipient auditing and monitoring compliance work associated with County grants.</p> <p>The Office reports implementation met expectations. This position was immediately filled by a qualified individual with the specialized technical skills and experience needed for conducting subrecipient risk assessments and monitoring of Travis County’s subaward grants. This now permanent position ensures subrecipients’ are continually monitored appropriately.</p> <p>This individual currently carries out many necessary monitoring tasks which include reviewing the subrecipient’s financial and performance reports, ensuring timely action on any deficiencies pertaining to subawards, issuing management decisions on audit findings, and resolving audit findings. This individual also carries out onsite review activities which include interviewing staff, reviewing documents, observing training and service delivery, and randomly sampling key documentation to verify compliance with program requirements. Thus, the objective of this ongoing position has been satisfied.</p>

PROCUREMENT, FINANCIAL SYSTEMS INTEGRATION AND REPORTING (PFSIR):

The Procurement, Financial Systems Integration and Reporting (PFSIR) Division was formed to help the Auditor’s Office staff leverage SAP functionality and information more effectively, to streamline their internal processes and to improve the Office’s quality of service. The division supports the SAP Ariba, Finance, Grants Management, Asset management, Project management; the vendor invoice management and imaging system (OpenText), with multiple integrations from external systems (the Criminal and Civil Courts, District Clerk, and HSS for direct invoice submission); the County Auditor’s website content; Internal Portal and the County’s FTP (Financial Transparency Portal). The team has a focus on continuous improvement and collaboration with the Auditor’s Office staff, the Purchasing Office and County department users as well as a commitment to improve business processes in SAP ERP and accountability through Financial Transparency. The division supports the required financial reporting efforts of the Office with generations of dashboards and other transparency information for general public consumption, which is also statutorily driven under Local Government Code Sections 114.022, 114.023, and 114.025 which require publishing monthly financial reports and reporting the financial condition of the County.

The activities of the PFSIR division include:

- Work with various internal and external stakeholders to develop improved SAP reports and analytics;
- Work with various internal and external stakeholders on SAP ERP-related process improvements;
- Work with various internal and external stakeholders to develop and maintain a Financial Transparency Portal; and
- Provide day-to-day user support with responsive Help Desk services and comprehensive training.

The Office reports that the PFSIR Division has significantly upgraded its technological and compliance frameworks. Specifically, the division has implemented Ariba Supplier Lifecycle Management in line with SAP's requirements for Ariba and the forthcoming S/4HANA system, ensuring vendors are transitioned to the necessary business partner structure. Additionally, the Office configured SAP for both P-Card and T-Card transactions, establishing detailed business processes anticipated to launch in fiscal year 2024 with involvement from key departments such as ITS, Civil Courts, and Emergency Services. Furthermore, the Office has upgraded to SQL Server 2019 and migrated database servers, greatly improving the reliability and accessibility of the external transparency portal by reducing downtime.

The Office also enhanced their purchase order ending balance report and automated the extraction of FEMA reimbursement documentation to manage the increased volume of COVID-19 and disaster-related financial activities more effectively. Moreover, the Office developed interfaces between SAP and ECMS to ensure accurate and timely data processing, with a planned implementation in fiscal year 2024. The Office has also initiated several projects to enhance end-user experience, automate transactions, and streamline processes, including updating reporting forms, redesigning workflows to accommodate new GASB standards, and implementing an Ariba cloud solution for upstream processes. These efforts reflect the Office's commitment to enhancing operational efficiency, ensuring compliance with evolving standards, and improving service delivery through advanced technology.

This division has a focus on continuous improvement and collaboration with Auditor’s Office staff as well as a commitment to improve openness and accountability through financial transparency that is available reliably to the public.

FINANCIAL ACCOUNTING – CONSOLIDATIONS AND FINANCIAL REPORTING:

The Consolidations and Financial Reporting Division is responsible for the preparation and submission of the County’s Annual Comprehensive Financial Report (Comprehensive Report) “in accordance with Generally Accepted Accounting Principles (GAAP), financial analysis, consolidations, risk management auditing, investment auditing, debt services, and capital asset compliance and reporting.” It is responsible for reviewing and implementing all new accounting standards issued by the Government Accounting Standards Board (GASB). The Financial Reporting Division has primary responsibility for compliance with Local Government Code Sections 114.022, 114.023, and 114.025, which require publishing monthly financial reports and reporting the financial condition of the County.

This division works with various departments to appropriately account for the purchase and leasing of capital items based on the proper funding sources. In addition, this division coordinates the annual external audit, reviews and reports the financials of local Emergency Service Districts, and works jointly with PBO and other entities as needed on financially related solicitations and contracts. The group also works to appropriately account for the purchase and leasing of capital items. Staff coordinates with PBO to prepare and review all County debt issuances with the focus of continuing the county’s triple-A bond rating status, which was first awarded by S&P in FY 2000 and by Moody’s in FY 2001 and has continued through Fiscal Year 2023. The Office reports the audit and reporting activities performed by this division help ensure the County maintains strong internal controls, and the post-issuance recordkeeping and monitoring of bond issuance proceeds ensures the County complies with the requirements of debt issuance regulating bodies.

The Auditor’s Office has successfully filed the Annual Comprehensive Financial Report by required deadlines, has received the Government Finance Officers Association (GFOA) Certificate of Excellence designation in FY 2022 and has submitted the

FY 2023 report for GFOA evaluation. This group also created the County’s first Popular Annual Financial Report (PAFR) for FY 2016 and has received the GFOA Popular Annual Financial Reporting Award from that year through FY 2022. It has submitted the Fiscal Year 2023 PAFR for GFOA evaluation.

The Consolidations and Financial Reporting division performs the following activities:

- Coordinate external audit;
- Prepare and file Comprehensive Report by March 31;
- Submit ACFR and PAFR for GFOA Certificate of Excellence;
- Review GASB statements/implement as applicable;
- Prepare supporting materials for debt issuances;
- Perform Capital Project Funds close-out and post-issuance compliance;
- Prepare and submit HB1378, Debt Obligation Reporting to the Texas Comptroller by end of March;
- Prepare and submit SB625, Special Purpose District Report to the Texas Comptroller by end of March;
- Prepare and post financial related information on the Travis County Transparency website to ensure compliance with the State of Texas Transparency Stars program; and
- Provide support for financially-related procurements.

The Office reports that the audit and reporting activities conducted by this group are crucial in supporting statutory compliance duties and maintaining a robust fiscal position. Specifically, the group ensures that the County’s financial statements are GAAP-compliant and accurately reported. They also uphold strong internal controls, as demonstrated by the absence of significant audit findings, through continuous monitoring and training of County departments in financial reporting requirements. These efforts contribute significantly to maintaining the County’s triple-A bond rating, which facilitates low borrowing interest rates. However, it’s important to note that external factors, such as economic fluctuations, also influence the bond rating. Additionally, the group’s work on the Capital Project fund close-out identifies and reallocates unspent debt proceeds effectively. Their post-issuance recordkeeping and monitoring of bond issuance proceeds ensure the County adheres to the requirements set by the debt issuance regulating bodies.

FINANCIAL ACCOUNTING – GENERAL LEDGER:

The Financial Accounting General Ledger Division is responsible for financial analysis of certain aspects of the general ledger, verifying funding for contractual obligations, special projects auditing, monitoring outstanding encumbrances, managing the month-end close process, and year-end accruals. The mandated services related to this division are found in Texas Local Government Code, Section 111.093, which requires the County Auditor to charge all purchase orders, requisitions, contracts, and salary and labor allowances to the appropriation accounts and states purchases are not binding until the Auditor certifies that budget contains a provision for the obligation and that funds are available to pay the obligation. A total of 440 verifications were done in FY 2023. The General Ledger division provides the analysis for this certification as well as auditing cash receipts in accordance with Local Government Code, Section 113.023(b) and reporting annual utility expenses in accordance with HB 3693.

The activities of this division include:

- Manage month-end close process;
- Manage Auditor's Office Public Information requests;
- Audit cash receipts;
- Review contracts for specific language and funds verification;
- Work with PFSIR and SAP support team to automate various functions including interest distribution and cash receipts auditing;
- Review and record year-end revenue and expenditure accruals;
- Perform quarterly trial balance reviews;
- Reconcile specific balance sheet accounts and review expenditures in Special Revenue Funds; and
- Work with Consolidations and Financial Reporting in providing year-end variance explanations for Bond Book.

Over the past fiscal year, the team continued developing efficiencies for the department's year-end activities relating to accruals and automated some activities that eliminated the double entry of 561 transactions by the departments. The team also evaluated aged encumbrances within departments to reduce excess reserved funds and audited all Civil and Family Courthouse project draw requests and Travis County milestone payments for proper supporting documentation. In addition to the financial responsibilities, this team also manages all Public Information requests received by the Auditor's Office and ensures they are responded to timely.

DISBURSEMENTS AUDITING:

This division audits payments against approximately 154,000 invoices, and payments to vendors totaled more than \$760 million in FY 2023. The Office states the performance measures of this division primarily focus on efficiency, ensuring compliance, and strong partnerships with departmental financial staff. The Division reaches out to new and existing vendors and encourages them to use electronic payments and electronic (email) submission of their invoices.

The Auditor cites statutory mandates under Texas Local Government Code, Section 111.093, which requires the County Auditor to charge all purchase orders, requisitions, contracts, and salary and labor allowances to the appropriation accounts.

The activities of the disbursements auditing group include:

- Foster "shared ownership" of vendor liabilities with the departments for quick payment turnaround and timely research of vendor items;
- Continue to audit and update off-site records retention in compliance with Texas State Library Association guidelines;
- Continue vendor outreach to increase the number of vendors opting to receive electronic payment in lieu of paper checks;
- Work with PFSIR and SAP support team to implement improvement projects that promote efficiency and effectiveness;
- Audit contracts, travel, and disbursement-related transactions each payment cycle to ensure correctness and compliance;
- Investigate and reconcile Accounts Payable related balance sheet accounts in the general ledger; and
- Document processes and procedures, including training for all new employees.

The activities of this division promote efficiency, accuracy, and effectiveness, and support statutory compliance duties. The Division has collaborated with Purchasing to streamline the purchase order and invoicing processes. The Office states an increased focus on auditing before entry has increased efficiency, accuracy, and vendor compliance with contracts. In addition, the Office reports improved vendor setup and stringent verification of banking information have decreased the opportunity for fraud, with no successful fraud attempts in FY 2023. The Office also reports successes based on the review of

current procedures and resulting efficiencies, speeding up vendor invoicing processes, enhancements that allow AP to enter information more quickly and eliminate repetitive steps increasing efficiency accuracy of vendor information in the system. Lastly, documentation of training for new employees has created a more consistent training experience for new employees.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>

% of vendors payments paid electronically (ACH/EFT)	69.09%	76.23%	80.00%	82.00%	85.00%

FINANCIAL SYSTEMS MAINTENANCE AND SUPPORT:

This division was responsible for the implementation of Travis County’s enterprise resource planning system, SAP. The Finance and Procurement modules were implemented in June 2012, and the Payroll and Human Resources modules in January 2013. Since the implementation of the SAP system, the team has been “responsible for county-wide innovation, support, and maintenance of the SAP applications.” Under Local Government Code, Section 112.002, the County Auditor prescribes the system of accounting for the county. This accounting structure and records, including electronic requisitions cited in LGC 113.901, are generated and recorded in the SAP system, which is maintained by this division.

The ongoing activities of the SAP Business and Technical Support Teams include:

- Provide a secure and reliable SAP environment with data integrity that is accessible to all users;
- Work with internal and external stakeholders to incorporate continuous improvements (process improvements; reporting and analytics) to keep pace with users’ needs by adopting new technologies and collaborating to identify needs/provide solutions;
- Provide day to day user support with responsive Help Desk services and comprehensive training; and
- Analyze SAP emerging technologies and strategic direction to ensure alignment with Travis County's SAP environment and provide recommendations for changes to our environment.

The Office reports that FY 2023 saw the successful completion of key projects that enhanced operational infrastructure. Significant updates included annual upgrades to the HR/Payroll system and its add-on tools, such as Accenture and SpinifexIT, along with BSI Payroll Tax Updates. System enhancements were substantial, including the introduction of new Personnel Action Forms (PAFs) to replace outdated Adobe forms, and the deployment of Ariba Supplier Lifecycle Management to restructure vendor relations as per SAP's requirements for Ariba and the upcoming S/4HANA system. Other improvements involved automating the Missing Time report to streamline communication, refining the PO ending balance report to enhance the PO liquidation process, integrating LinkedIn Learning with the Learning Management System (LMS), and implementing a virus scanner for SAP Financial System uploads.

Additionally, the Office engaged in several multi-year projects set to extend beyond FY2023. These included the rescheduling of Ariba modules for Sourcing and Contracts to FY2024, integration of a new Electronic Case Management System (ECMS) for HHS department’s vendor invoicing, and a comprehensive SAP environment upgrade. A notable development involved replacing the outdated Elections Tool with a new SAP-based solution to improve efficiency in election worker hiring and time reporting. Plans for implementing cloud-based solutions like SAP Work Zone and SAP SuccessFactors Employee Central progressed, with preliminary steps such as proof of concept and RFP development for implementation services completed in FY2023, targeting full operational status by FY2025.

The Office states the County’s current on-premises systems are nearing end-of-life and most will be out of support at the end of 2027. As a result, this team is shifting its focus from support, maintenance, and improvement of the current systems to research, procurement, and implementation of the next generation of SAP products.

<i>FY 2024</i>			
Sap Migration Phase 1 – Core Human Resources And Portal	\$2,283,000	0.00	<p>The Office advises that funding has been allocated for migrating the County's SAP financial, procurement, human resources, and payroll systems to advanced platforms. This transition is in response to the upcoming cessation of SAP mainstream maintenance on December 31, 2027. Mainstream support encompasses application issue resolution, legal and year-end updates, and security patches for vulnerabilities. The Office states that SAP has been evolving, including moving to cloud-based applications, over the past decade. The financial commitment includes \$573,000 for ongoing Subscription and Maintenance Costs and \$1,710,000 for one-time expenses related to software, consulting/implementation, and training.</p> <p>The Office reports that software subscriptions were procured by the end of December 2023. However, the procurement of implementation services has experienced a three-month delay, shifting the start from March 1, 2024, to no earlier than June 1, 2024. Consequently, the planned go-live date has been postponed from March 1, 2025, to approximately June 1, 2025. The final plan will be established following the approval of the implementation partner contract.</p>

GRANTS AUDITING AND FINANCIAL REPORTING:

The Grants Auditing and Financial Reporting division is responsible for ensuring that grant reports are submitted timely to the granting agency and is also responsible for compliance with Single Audit and Program specific audit guidelines. The Grants Auditing division submits the annual Single Audit report encompassing relevant Federal and State grant awards to Travis County and the program-specific grant reports, encompassing awards from the Criminal Justice Assistance Division to

Community Supervision and Corrections Department and the Texas Juvenile Justice Department grant awards to Juvenile Probation.

The Grants Auditing and Financial Reporting division performs the following activities:

- Coordinate external audit activities related to grants;
- Audit grant-related transactions for appropriateness;
- Submit grant audits by required deadlines;
- Review statutory grant requirements/implement as applicable;
- Perform financial review of grant proposals for submission to Commissioners Court; and
- Work with FSIR and SAP Support team divisions to implement improved grant reports and analytics.

The Office tracks the number of grants and the number of grant reports filed, and reports that Travis County had 224 active grants in FY 2023. The Office reports 100% percent of the 580 required grant reports were submitted to grantors by the deadline. In addition, the Auditor’s Office reports compliance with Single Audit and Program-specific audit guidelines with no grant financial audit findings from the independent audit firm review.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>

<i>FY 2023</i>			
Special Project Worker - Federal Funds	\$110,755	1.0 SPW	<p>Funding was included for a Special Project Worker Auditor Financial Auditor Analyst IV to assist with the County’s COVID-19 cost recovery and documentation, including the management of resources transferred from the Emergency Reserve.</p> <p>Pos. No. 30065296 has been continuously filled since FY 2023; the original expectations were for this position to perform FEMA reimbursement submissions due to increased workload caused by the COVID-19 emergency declaration. However, this position has backfilled other statutory and regulatory required duties, initially as LFRF grant compliance/expenditure auditor and most recently with routine account/payment reconciliation duties, aged encumbrance reviews/clean-up, and interest distributions for the Auditor's Office General Ledger division. This has provided bandwidth for senior staff to perform the FEMA Public Assistance requests and other grant audit duties. The Office states this position has become critical to performing required duties and achieving goals of the Auditor's Office as the number of all grants/grant resources (exclusive of COVID) has steady increased, as has across-the-board expenditures.</p>

OPERATIONAL AND SYSTEMS COMPLIANCE:

The Technology Strategies and Operations team of the Operational and Systems Compliance (OSC) group performs internal support for the Auditor’s Office Information Technology environment and researches and develops technology strategies. In addition, the division also performs many ad-hoc activities, evaluations for process improvements, and high-level analyses for various internal and external stakeholders. The Office states a strong focus for this division over the past year was the analysis, audit, monitoring and reporting associated with external funding associated with the County’s pandemic response. OSC staff has also audited, reconciled, compiled, and submitted 35 public assistance projects to the Federal Emergency Management Agency seeking reimbursement of more than \$20.1M for County-funded pandemic activities and weather activities (Winter Storm Mara). A significant portion of the division’s time was spent responding to RFI requests from FEMA and TDEM auditors.

Activities reported by the Office for this division include:

- Audit and reporting activities associated with American Rescue Plan Act (ARPA) funding and Local Fiscal Recovery Funds (LFRF);
- Audit, reconciliation, compilation, and submission of Federal Emergency Management Agency (FEMA) reimbursement for County-funded pandemic activities;
- Support for the Emergency Rental Assistance Program (ERAP) audit, billing, and reporting;
- Revision of County policies and reporting requirements for new accounting standards GASB No. 87 Leases and GASB No. 96 SBITAs;
- Development of new and updated SAP online training courses;

- Legislative analysis;
- Improved technological support for remote work; and
- Research and planning efforts related to the replacement of the current SAP environment.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	12,075,918	12,704,486	13,356,219	13,861,706	505,487
Operating	889,790	909,234	3,413,548	1,930,599	(1,482,949)
Total (Per&Op)	\$ 12,965,708	\$ 13,613,720	\$ 16,769,767	\$ 15,792,305	\$ (977,462)
CAR*	-	-	-	-	-
Grand Total	\$ 12,965,708	\$ 13,613,720	\$ 16,769,767	\$ 15,792,305	\$ (977,462)
FTEs	90.00	91.00	91.00	93.00	2.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the Auditor’s Office decreased by \$977,462 from the FY 2024 Adopted Budget. This is an 5.8 percent decrease. While there was an increase in the personnel budget, there was a decrease was in the operating budget because of the removal of one-time SAP Migration Phase I costs.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the Auditor’s Office includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$0	\$446,097	\$446,097
Resources for a County Auditor Salary increase.	0	11,582	11,582
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	0	951	951
Resources for health insurance cost increases for FY 2025.	0	48,840	48,840
Total Compensation Changes	\$0	507,470	507,470

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document. The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

INTERNAL REALLOCATIONS

The Auditor’s Office is requesting to convert a Special Project Worker (SPW) position to be a permanent General Fund position in the General Ledger Division. The request is internally funded using salary savings realized as part of a reorganization of functions due to retirements of senior staff in the Auditor’s Office. Position 30065296 was initially intended to handle grants compliance activities associated with federal pandemic-related reimbursements. However, this role was filled with more senior staff, so this position instead backfilled other duties, assisting with growing workload in the General Ledger division related to financial accounting of all funding (including federal funds).

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Auditor’s Office budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Funding for an ongoing SAP ERP Environment – SAP Contractual Maintenance Increases	\$ 185,000
Total Allocated Reserve Earmarks	\$ 185,000

In addition to the funding above, PBO recommends an Earmark against the CAR Reserve in the FY 2025 Preliminary Budget for Bond Project Shortfalls/Future Capital and ERP Needs sufficient for any needed resources required in FY 2025 for SAP Migration Phase II-Finance, Payroll, Procurement.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: SAP MIGRATION PHASE 2 – FINANCE, PAYROLL, AND PROCUREMENT

<i>Program:</i>	Auditor's Office (106)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 8,600,000	\$ -	\$ -	\$ -

PBO recommends an Earmark against the Allocated Reserve in the FY 2025 Preliminary Budget for Future Capital Needs sufficient for any needed resources required in FY 2025 for SAP Migration Phase 2 – Finance, Payroll, And Procurement.

DEPT. SUMMARY OF REQUEST

The County Auditor is requesting funding to begin Phase II of the SAP Migration project. This phase is planned to migrate the County’s key Finance and Payroll systems from an on-premises SAP environment to the cloud-based SAP S/4HANA platform. This migration, which cost a total of \$8,600,000, is necessitated by the impending end of mainstream support for the current SAP systems by December 31, 2027, which includes vital updates and security patches. The cost consists of \$2,700,000 in ongoing Subscription and Maintenance Costs, and \$5,900,000 in one-time implementation services to migrate the majority of the County’s SAP on-premises environment to the cloud. The one-time cost includes implementation costs of \$5,200,000 for SAP S/4HANA and \$700,000 for SAP Ariba. The ongoing costs related to SAP Ariba are covered in a separate request by the Purchasing Office. The table below explains the expenditure timeline for this request. The ongoing amounts below show the incremental amounts needed above the prior fiscal year. The annual ongoing amounts needed for Core SAP is estimated at \$2,700,000 per year. The ongoing amount for Ariba is estimated to be \$520,708 per year that will be budgeted in the Purchasing Office. The total ongoing amount for both is estimated to be \$3,220,708.

<i>Fiscal Year</i>	<i>Core SAP</i>			<i>Ariba</i>			<i>Total</i>		
	<i>Ongoing</i>	<i>Onetime</i>	<i>Total</i>	<i>Ongoing</i>	<i>Onetime</i>	<i>Total</i>	<i>Ongoing</i>	<i>Onetime</i>	<i>Total</i>
FY 2025	\$-	\$-	\$-	\$-	\$-	\$-	\$-	\$-	\$-
FY 2026	2,000,000	3,500,000	5,500,000	520,708	469,000	989,708	2,520,708	3,969,000	6,489,708
FY 2027	700,000	1,700,000	2,400,000	-	231,000	231,000	700,000	1,931,000	2,631,000
FY 2028	-	-	-	-	-	-	-	-	-
Total	\$2,700,000	\$5,200,000	\$7,900,000	\$520,708	\$700,000	\$1,220,708	\$3,220,708	\$5,900,000	\$9,120,708

The County implemented SAP's integrated systems for managing financial, procurement, human resources, and payroll functions more than ten years ago. Since then, SAP has shifted towards cloud-based applications, ceasing new functionalities for the older versions, prompting this migration to ensure continuity and security.

This request includes:

- **Financial System:** Migration to SAP S/4HANA Cloud. This migration involves transitioning the entire financial management system, which includes functionalities accounts payable, accounts receivable, asset management, cash receipting, funds management, general ledger, grants management, inventory management, project accounting, and travel management, to a private cloud-based environment. This brownfield (reuse) migration—where the current processes are largely maintained with minimal changes—aims to preserve existing business workflows while moving to a more robust and scalable platform.
- **Time and Payroll:** Migration of payroll processing for 9,500 employees to SAP Time and Payroll Cloud. Similar to the financial system, this too is a brownfield migration, ensuring that existing time and payroll management processes are disrupted as little as possible during the transition.
- **Vendor Invoice Management System:** Migration to SAP S/4HANA Cloud for up to 65,000 annual invoices. The transition to a cloud-based system will continue to support existing invoice management workflows (brownfield migration) while enhancing security and scalability.
- **Document Management:** Migration of SAP Archiving to the public cloud, aimed at reducing costs associated with database storage. This strategy is intended to optimize storage costs and efficiency outside the primary SAP S/4HANA database, improving overall system performance and cost-effectiveness.
- **Procurement System:** Initial migration services for procurement functions to SAP Ariba Buying, a public cloud solution. Unlike the other components, this migration constitutes a new implementation, setting up a completely new cloud-based procurement system with SAP Ariba Buying. This involves establishing necessary integrations with the new financial system and does not reuse the current business process configurations, marking a significant shift towards enhancing procurement operations.
- **Business Warehouse (BW):** Migration to SAP Datasphere, Public Cloud Solution. The migration of the Business Warehouse to SAP Datasphere represents a strategic upgrade to enhance data analytics and reporting capabilities across various SAP applications. This transition ensures that the foundational system for reporting and analytics is not only maintained but enhanced in a cloud environment.

The SAP Migration Phase 2 budget request strategically excludes several components to manage resources and funding effectively. It omits ongoing subscription costs for SAP Ariba Buying, which are slated for a separate request by the Purchasing Office, allowing for consolidated budget management within that department. Additionally, services for migrating the Business Warehouse to SAP Datasphere are deferred to a later request in Fiscal Year 2026 by the Auditor's Office, pending additional funding.

The migration of the SAP Budgeting and Planning application is also not included, as no direct replacement exists; instead, the Planning and Budget Office is developing a comprehensive system to incorporate necessary functionalities. Costs for additional cloud security tools, data archival solutions, and organizational change management and training are similarly postponed to future phases. This approach allows the county to spread significant costs over time, easing financial and operational burdens and focusing the current phase on immediate technical migration needs.

The request states the main objectives of the SAP Migration Phase 2 request focus on a comprehensive update and transition of the County's SAP systems to a cloud environment by June 2027. This initiative aims to ensure all end-of-life SAP systems are migrated before the cessation of mainstream support in 2027, facilitate a seamless transition, reduce reliance on specialized system software and database skills, and ultimately transition the SAP environment fully to the cloud.

The benefits anticipated from this migration are substantial and forward-looking. The County expects to have modern, continuously updated systems that offer new functionalities from SAP, leading to enhanced real-time analytics capabilities. The migration will also streamline procurement activities by making it easier to add vendor catalogs, similar to those used today by major suppliers like Office Depot, thus enhancing efficiency and user intuitiveness. Furthermore, the new system will increase vendor self-service options, which in turn will free up internal staff to focus on higher-value activities. An improved user interface and experience are expected to boost productivity, while reduced time spent on system maintenance will allow more resources to be directed towards business process improvements.

The funding for this proposal is planned not to disrupt the current levels of SAP support and licensing. This project is evaluated through standard software implementation metrics like schedule adherence, budget management, and defect rates post-implementation. Funding for SAP Migration Phase 2 is being requested in FY 2025 to kickstart the RFP process for migration services, although actual spending on subscriptions or services will not begin until FY 2026. Projected savings are expected from the reduced need for supporting the on-premises environment post-migration.

The migration is part of a broader collaboration involving the Auditor's Office, ITS, PBO, Purchasing Office, and Treasurer's Office to ensure a well-supported IT infrastructure for the new systems. The project meets the GASB 96 SBITA criteria for being treated as a capital project, highlighting its scale and significance in improving the County's technological infrastructure and operational efficiency.

<i>Fiscal Year</i>	<i>Date</i>	<i>Milestone</i>
FY 2025	April 1, 2025	RFP for migration services ready to be issued
FY 2025	June 1, 2025	RFP responses due back
FY 2026	December 1, 2025	Migration services contract approved
FY 2026	December 31, 2025	SAP cloud applications and services procured
FY 2026	February 1, 2026	Migration begins
FY 2027	May 1, 2027	Go-live of all cloud applications included in this request
FY 2027	July 1, 2027	Project close-out
FY 2028	December 31, 2027	Decommissioning of on-premises systems

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>

% SAP environment in total effort migrated to new systems by 12/31/2027	0%	5%	15%	25%	40%	60%

PBO RECOMMENDATION

PBO recommends an Earmark against the Allocated Reserve in the FY 2025 Preliminary Budget for Future Capital Needs sufficient for any needed resources required in FY 2025 for SAP Migration Phase 2 – Finance, Payroll, And Procurement. This earmarked funding is recommended based on the system’s critical importance in updating and securing the County's administrative systems. Funding will allow the Office to begin key procurement steps ahead of implementation in FY 2026. The Office states this request is essential for transitioning from an on-premises SAP environment to a modern, cloud-based

SAP S/4HANA platform, particularly as the current systems are approaching the end of their mainstream support in December 2027. This request followed SAP Migration Phase 1 – Core Human Resources and Portal funded in FY 2024 in preparation for the end of SAP mainstream maintenance, which will end on December 31, 2027.

This request is accompanied by a similar request by the Purchasing Office covering the County transition to SAP Ariba Purchasing system. The Purchasing Office request states SAP Ariba Buying system is an advanced cloud solution designed to handle daily procurement operations more efficiently and in compliance with statutory requirements. Both requests followed SAP Migration Phase 1 – Core Human Resources and Portal funded in FY 2024 in preparation for the end of SAP mainstream maintenance, which will end on December 31, 2027. PBO notes that an ongoing funding strategy will be developed for SAP migration in the next few budget processes.

REQUEST #2: NEW GRANT FINANCIAL AUDITOR ANALYST V - 2 FTES

<i>Program:</i>	Auditor's Office (106)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	2.00	-	-	-
Personnel	267,338	-	-	-
Operating	5,340	-	-	-
Subtotal	\$ 272,678	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 272,678	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 272,678	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Office is requesting funding for two new FTEs to handle increased grants compliance, auditing, and financial reporting workload resulting from Commissioners Court additions of resources in the FY 2024 budget and projected resources in the FY 2025 budget to enhance grant acquisitions through the continued development of the Grants Administration Division of Intergovernmental Relations (IGR). Because the Auditor’s Office is involved in all stages of the grant-life cycle, including the pre-award phase, award phase, post-award phase, and close-out phase, the increase capacity to seek and apply for grants has increased workload on existing staff within the auditor’s office. The Office currently has seven FTEs (Financial Auditor and Business Analysts) dedicated to grant compliance, auditing, and financial reporting and states that there have been no new resources directed to grant-related workload in the last 15 years.

The Office states that the County’s continued investment in applying for grant awards and consequent centralization of the process necessitates additional resources to handle new Court-initiative driven workload resources related to grant compliance and reporting. Based on trend analysis, grants worked to meet various county needs by providing \$41.5 million in revenue for FY 2023, excluding pandemic related grants. This is reported to be a \$7.9 million revenue increase over the past two fiscal years. The County pursues grants that support programs under health and human services, transportation, park improvements, juvenile services, law enforcement, corrections, justice, and emergency service operations. These grants include block grants, competitive grants, formula grants, pass-through grants, and state mandated services. In FY 2023, the Commissioners Court approved a grants administrator FTE and a grants manager FTE within the Intergovernmental Relations Office. With these new resources, the County is expected to increase grant award revenue by \$82.8 million throughout FY 2025.

The Office states that the two new Grant Financial Auditor Analyst FTEs would be tasked with existing work related to all new grants received by Travis County, including the review of grant applications all the way to the assembly of grant documentation files needed to close out the grant. Secondly, the FTEs would work on grant compliance and reporting, which includes auditing for compliance to uniform guidance set by the Office of Management and Budget for federal grants or by Uniform Grant Management Standards and Texas Administrative Code for state grants. The Office states that these new FTEs would ensure that there are adequate resources for the County to successfully satisfy its statutory compliance duties and obligations related to grants and grant contracts.

The Office states that if additional resources are not funded, there will be severe impacts to service levels and increased risk of non-compliance which can lead to claw-back by the grantor. Furthermore, the County may have to forego future grant opportunities or may experience delays in grant reporting that may affect the County’s overall financial position and bond rating.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
% Single Audit Act grant reports filed by required due dates	100%	100%	100%	100%	100%	100%
% Grantor reports on time	95.35%	100%	100%	100%	100%	100%
# of grants	148	224	225	225	225	225
# of grant reports	387	580	585	550	550	550
Unqualified audit opinion (as measured by financial data & transactions) (100%=unqualified)	100%	100%	100%	100%	100%	100%

PBO RECOMMENDATION

The newly established Intergovernmental Relations (IGR) grants office plays a key role in managing county-level grants. On April 25, 2024, the Grants Office went to court to seek guidance on managing the grants work therefore It's still unclear how much extra work this new office will create. PBO suggests that the Auditor’s Office keep working with the IGR and other departments that might be affected by an increase in grants. Additionally, PBO will help monitor and keep track of the changes and growing needs of the county departments involved.

PBO understands this request is an important issue for the Office; however, significant financial challenges forecast for FY 2025 do not allow for adding the requested FTEs on an ongoing basis at this time. While PBO believes the request for the additional FTEs within the Auditor’s Office to audit grants may merit consideration for funding depending on future workload and receipt of additional grant funds to the County, based on currently known available revenue, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget. Typically, additional revenue is available for Budget Markup in early September compared to what is available in late July for the Preliminary Budget. Based on discussions with the Travis County Appraisal District (TCAD) and the Revenue Estimation Unit within the County Auditor’s Office, it is likely that there will not be significant additional revenues beyond those within the FY 2025 Preliminary Budget.

REQUEST #3: SPECIAL PROJECT WORKER CONVERSION TO REGULAR – INTERNALLY FUNDED FTE

<i>Program:</i>	Auditor's Office (106)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ -	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Auditor’s Office is requesting to convert a SPW (special project worker) position to be a permanent general fund position in the General Ledger Division. The request is self-funded from internal salary savings as part of a reorganization of functions due to retirements of senior staff in the Auditor’s Office. Position 30065296 was initially funded by the General Fund to handle grants compliance activities associated with federal pandemic-related reimbursements. However, this role was filled with more senior staff, so this position instead backfilled other duties, assisting with growing workload in the General Ledger division related to financial accounting of all funding (including federal funds).

The Office states this SPW has significantly improved financial management by ensuring the accuracy of financial records and facilitating the return of funds to the General Fund. This position has directly contributed to the recovery of millions in aged encumbrances, improving the County's financial position. The transition to a dedicated staff member will bolster the division's ability to manage emergency payments and enhance fiscal year-end procedures, such as accrual accuracy and pre-audit testing, safeguarding the County's financial integrity and bond rating. Additionally, the request states this move will improve internal controls by centralizing reconciliation tasks and strengthening the segregation of duties within the Auditor’s Office.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Unqualified audit opinion (as measured by financial data & transactions) (100%=unqualified)	100%	100%	100%	100%	100%	100%

PBO RECOMMENDATION

The Auditor's Office is prioritizing this personnel action within the FY 2025 budget submission, stating that this position will improve financial management by ensuring the accuracy of financial records and facilitating the return of funds to the General Fund. This position has directly contributed to the recovery of millions in aged encumbrances, improving the County's financial position. The Auditor's Office considers this conversion a high priority for the Office and is ready to use its permanent salary savings to fund it. This move can be self-funded through salary savings and organizational restructuring following retirements of senior staff. The end date for this SPW is September 30, 2024. PBO accepts the conversion of Special Project Worker (SPW) position #30065296 to a Regular FTE position within the General Ledger Division of the Auditor's Office that was included in the Auditor's Office FY 2025 Budget Submission.

REQUEST #4: AUDIT MANAGEMENT SYSTEM SOFTWARE SUBSCRIPTION

<i>Program:</i>	Auditor's Office (106)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	141,500	-	-	-
Subtotal	\$ 141,500	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 141,500	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 141,500	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Auditor’s Office is requesting \$141,500 to upgrade its audit management system, transitioning from an on-premise solution to a subscription-based, cloud-hosted service. The request aims to support the Risk Evaluation and Consulting Division (REC) in its statutory audit obligations, internal control reviews, and risk assessment processes.

Per the Office, the need for this upgrade is driven by several factors. The current on-premise software, provided by Ideagen, is not only increasing in cost beyond previously agreed terms but is also proving to be unreliable, with inadequate support services that have led to operational delays. The Office emphasized that the transition by Ideagen to a cloud-based solution presents security concerns, as their offering does not meet the TX-RAMP/FedRamp certification standards, which are critical for government data security.

The Office states that the proposed budget for the new cloud-based audit management system includes an annual subscription fee that totals \$244,319 over three years (FY 2025 to FY 2027), with an additional one-time implementation service cost of \$64,000, bringing the overall estimated total to \$308,319.

<i>Software Subscription</i>	<i>FY 2025 Cost</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>	<i>Total Contract Cost</i>
Software Annual (on-going)	\$77,500	\$81,375	\$85,444	\$244,319
Implementation Services	64,000	0	0	64,000
Total	\$141,500	\$81,375	\$85,444	\$308,319

The Office specifies new system is intended to provide secure cloud backup storage for all audit records, enhance reporting functionalities, improve resource planning and time tracking, facilitate data import and mapping, and ensure that the software and stored data are housed securely in compliance with the highest government security standards.

The Office Advises the investment in the new software is in direct alignment with the County Auditor’s mission to maintain financial integrity, promote accountability, and preserve public trust. By streamlining audit processes and improving data security and management capabilities, the software will help the Auditor’s Office to efficiently meet its statutory obligations, expand the scope of revenue and expenditure accountability audits, and move towards a more eco-friendly, paperless

operation. This upgrade is also in keeping with the County’s overarching aim of being a trusted and well-run government entity.

Auditor’s Office proposed high-level implementation plan is:

<i>Fiscal Year</i>	<i>Date</i>	<i>Milestone</i>
FY 2025	November 1, 2024	Competitively solicit for audit software service
FY 2025	December 1, 2024	Award contract to winning bidder
FY 2025	January 1, 2025	Begin SW implementation
FY 2025	July 1, 2025	Go-live

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
REC special projects/statutory reviews completed	46	43	41	44	44	44

PBO RECOMMENDATION

PBO recognizes the importance of this request for the Office and the importance of receiving adequate support from the current vendor in a timely manner. However, significant financial challenges forecasted for FY 2025 do not allow funding audit management system software subscription on an ongoing basis at this time. While PBO believes the request merits consideration, based on currently available revenue, PBO is unable to include funding for this request in the FY 2025 Preliminary Budget.

REQUEST #5: REPORTING SOFTWARE SUBSCRIPTION

<i>Program:</i>	Auditor's Office (106)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	45,000	45,000	26,000	28,000
Subtotal	\$ 45,000	\$ 45,000	\$ 26,000	\$ 28,000
Capital	-	-	-	-
Dpt Total	\$ 45,000	\$ 45,000	\$ 26,000	\$ 28,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 45,000	\$ 45,000	\$ 26,000	\$ 28,000

DEPT. SUMMARY OF REQUEST

The Auditor’s Office is requesting funds for a new reporting software to improve the financial reporting capabilities of the Financial Reporting and Grants Auditing Divisions. The budget request requires purchasing a multi-year subscription for reporting software designed to optimize financial report preparation by the County Auditor's Office. The need for increased funding emerges from the current challenges faced with existing software tools like Microsoft Office and Adobe Suite, which are inefficient and prone to errors, leading to potential waste of valuable staff time.

The request includes an estimated budget for a three-year minimum subscription, with the possibility of extending funding in the future. The estimated costs, subject to change pending the procurement process, are \$45,000 for FY 2025 (\$25,000 on-going and \$20,000 one-time implementation cost), followed by \$26,000 and \$28,000 for the ongoing annual subscription in FY 2026 and FY 2027 respectively, totaling \$99,000.

<i>Software Subscription</i>	<i>FY 2025 Cost</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>	<i>Total Cost</i>
Software Annual (on-going)	\$25,000	\$26,000	\$28,000	\$79,000
Implementation Services	20,000	0	0	20,000
Total	\$45,000	\$26,000	\$28,000	\$99,000

The request advises subscription-based software is anticipated to significantly elevate the quality of financial reports, leveraging the platform’s advanced reporting features to deliver professional, consistent, and easily updatable documents. A direct benefit includes time savings by allowing for secure and efficient data import from the SAP ERP system and other sources, which currently is a heavy process with the tools in use. This software is critical for the Financial Reporting (FR) division responsible for the Annual Comprehensive Financial Report (ACFR), which adheres to GASB standards and has earned the GFOA Certificate of Excellence. It also supports the production of the Popular Annual Financial Report (PAFR), a more accessible financial summary which has consistently received the GFOA's award since FY 2016. Additionally, it facilitates the Grants Auditing (GA) division's Single Audit (SA) report, required for entities receiving federal and state financial assistance over \$750,000.

Per the Office, implementing this software will allow the Auditor’s Office to fulfill its statutory reporting duties more efficiently and effectively, in line with its mission to ensure financial integrity and promote government accountability, thus maintaining public trust in Travis County’s financial governance. Auditor’s Office proposed high-level implementation plan is:

<i>Date</i>	<i>Milestone</i>
03/01/2025	Competitively solicit for reporting software service
05/01/2025	Award contract to winning bidder
07/01/2025	Begin SW implementation
08/01/2025	Go-live

PBO RECOMMENDATION

PBO recommends funding for reporting software subscription. PBO believes improving the financial reporting capabilities of the Financial Reporting and Grants Auditing Divisions is important for the Auditor’s Office, and this upgrade ensures Auditor’s Office fulfills its statutory reporting duties more efficiently and effectively.

DEPT. SUMMARY OF REQUEST

The Auditor's Office is requesting \$185,000 for potential contractual increases for the licensure and maintenance of the County's enterprise resource planning (ERP) system (SAP). Per the agreement between PBO, ITS, and the Auditor's Office in FY 2014, the software maintenance costs are budgeted in the Auditor's Office in a separate division for visibility and control. At the time of implementation, software maintenance costs were "frozen" for the SAP ERP system modules at the implementation percentage for each module until December 31, 2016. After that date, contractual maintenance costs may increase based on the Consumer Price Index (CPI).

PBO RECOMMENDATION

PBO recommends an earmark on the Allocated Reserve of \$185,000 for SAP Contract Maintenance. Should an SAP maintenance increase materialize, PBO will work with the Auditor's Office to access the earmark and will work with the Office to ensure the ongoing increase is budgeted appropriately.

At this time, it remains unknown whether software maintenance costs will increase on December 31, 2024. The SAP maintenance costs thus far have only increased based on amendments and modifications initiated by Travis County for various platform enhancements, budget increases, and additional licenses purchased. The original contract states that the amount "shall not be increased more than the percentage increase in the Consumer Price Index (CPI), applied on a cumulative

year-over-year basis.” While CPI for December 2010, the date of the initial contract, was 219.179, the CPI for December 2023 was 306.746, an increase of 39.95 percent. This percentage increase, applied to the current On-Premise SAP Maintenance budget of \$465,377, is \$185,928.71. Therefore, PBO proposes an earmark totaling \$185,000 to account for any possible increases to the SAP and SBP licensure and maintenance budgets. If additional cost increases are applied to the SAP contracts during FY 2024, PBO will work with the Office to make a corresponding annualized adjustment to the FY 2026 Target Budget. PBO and the Auditor’s Office work closely on SAP issues and will continue to prepare for any contract increases in the future.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Travis County Clerk's Office is dedicated to providing quality service to the public, advancing efficiency and cost effectiveness in its operations, preserving and ensuring access to County records, upholding the public trust, and promoting the democratic process.

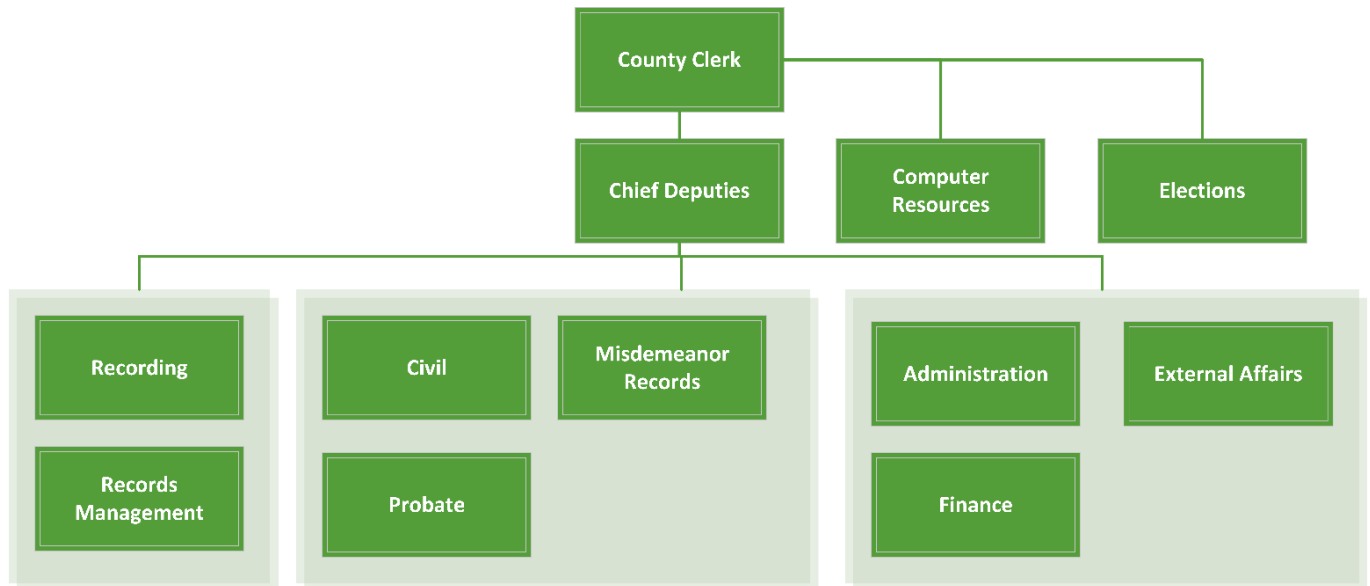

The Office has identified the following departmental goals which align with the new County goal, "Be a trusted and well-run county,":

- Preserve and ensure access to County records;
- Promote the democratic process;
- Provide Quality Public Service;
- Uphold the public trust; and
- Advance the efficiency and cost effectiveness in operations.

The Office is budgeted in the following Functional Areas:

- General Government; and
- Justice System.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if

applicable. The following programs were formerly linked to the County Goal, “Empower the public through civic engagement and collaboration,” and are now linked to the County Goal, “Be a trusted and well-run county.”

ELECTIONS:

The Elections Division of the County Clerk’s Office is a mandated program that conducts election day and early voting operations on behalf of Travis County for mandated general and special elections and early voting for primary elections. The Elections Division also contracts with other entities to use County resources and election equipment for Primary Election Day and other entity elections. Additionally, the Elections Division provides election administration consultation and services. This includes purchasing, maintaining, and updating election software and equipment; recruiting, training, and managing election day temporary workers; establishing and managing polling locations; handling election day procedures and providing support to voters by telephone; securing voting materials and reporting results; and coordinating the accounting of expenses and revenue for the elections.

Other elections held	49	45	55	54	50

The County Clerk’s Office Elections Program notes FY 2020 featured above-average voter turnout and predicts FY 2025 elections will also have an above-average voter turnout. The Office projects an increase across most metrics due to significant interest in the upcoming Presidential election. Therefore, it proposes an Election Plan focusing on greater availability of polling places to reduce wait times. Due to the increased number of polling places, the Elections Team has presented a staffing model that anticipates greater need for personnel to facilitate upcoming elections, which drives up costs.

The Office notes unusually high voter turnout in FY 2021 resulted from a hotly contested Presidential election within a highly polarized national political landscape. Increased turnout projections drive estimates for Election Division performance measures, including Ballot by Mail (BBM) utilization, early voting and election day turnout, time spent preparing for elections, number of persons employed during early voting and election day, and more. The Election Division has observed continued increases in the use of early voting in recently held elections, including well over 60 percent of voters voting during the early voting period, while also noting an increase in the overall number of election-day voters. The Office anticipates these metrics will continue to rise in FY 2025.

The Elections Division continues to adapt to changes in voter behavior resulting from the COVID-19 pandemic. The Office reports voter registration and turnout across Travis County trended upward in recent years, with a sharp increase in FY 2020 that has continued. However, the rise in Ballot-by-Mail usage the Office saw in FY 2021 decreased in FY 2022. Voters may have begun to resume in-person voting as the COVID-19 pandemic has waned, but this data will be monitored. According to the Elections Division, the latest performance measures show the number of mail ballots received and processed decreased from FY 2022 to FY 2023 but is expected to rebound through FY 2024.

The Election Division continues to evaluate the effects of SB 1 on Ballot-by-Mail procedures. This legislation passed during the second special session of the 87th Texas Legislature, is an omnibus elections bill mandating various changes to voter registration, the authority of poll watchers, BBM review, and voter eligibility, among other provisions. SB 1 also adds new responsibilities, including the mandatory internet streaming of certain election processes (Signature Verification, Ballot Board, and Central Count Station), increased reporting requirements, the development and implementation of a post-election Risk-limiting audit, and the requirement to post a licensed peace officer throughout tabulation at the Central Counting Station. The recent 88th Texas Legislature featured several bills with the potential to impact the administration of elections in Travis County, including further restrictions on mobile early voting.

Conducting elections on a contract basis for entities is a discretionary service provided by the Elections Division of the County Clerk's Office, which helps offset the costs of conducting elections in Travis County. The Elections Division notes many jurisdictions, including the City of Austin, Austin ISD, and Austin Community College, moved their local elections to the November General Election date during even-numbered election years. This date change shifted the cost reimbursements from the Election Fund (0128) (for May elections with no County races) to the General Fund for November elections where there are County races. This reduces the County's net General Fund cost for the November election. However, this results in a reduction in revenue generated by equipment rental and administrative fees. Equipment rental revenue has historically been used to offset the cost of the maintenance of the election equipment in the general fund. The administrative fees are deposited to the Election Fund and fund election equipment, supplies, consultants, and training as the Election Code allows. The principal objective of the Elections Division is to conduct elections that fairly and accurately articulate the will of the voters so registered voters can conveniently and easily make their voice heard at the polls.

The Office notes continued use and development of the electronic Election System, coupled with the increased hardware and software to process mail ballots, and the recent statutory requirements, enhances security to the election process in Travis County, something voters have been seeking, and is very necessary to maintain voter confidence in the democratic process. Lastly, citing these increases in the number of registered voters, election security and ongoing legislative changes, the Office has related requests for additional elections staff in FY 2025 to support the legally required duties of the Elections Division.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved/ Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Elections FY24 Temporary Budget Increase	\$1,978,207	n/a	The FY 2024 Adopted Budget included \$905,813 in ongoing and \$1,072,393 in one-time resources to be included in the County Clerk’s Office Elections Division FY 2024 Preliminary Budget to cover estimated incremental costs for the 2023 General Election (G23) and 2023 Primary Election (P23). In addition, PBO recommended a \$1,255,759 Earmark Against the Allocated Reserve for FY 2024 Additional Election Costs to cover anticipated expenses related to the 2023 Primary Runoff (PR23) and 2024 General Election start-up costs expected to occur in FY 2024. As of May 2024, the Elections Division has accessed \$587,569 of these earmarked funds. It expects to request a portion of the remaining \$668,190 in earmarked resources for the run-up to the November Presidential election.
Vehicles for Elections	\$127,020	n/a	The FY 2024 Adopted Budget included \$121,220 in one-time capital resources for the purchase of two sedan or SUV class vehicles for use by the County Clerk’s Office Elections Division and \$5,800 in ongoing operating resources for fuel and maintenance costs related to these vehicles. The Office reports it is in the process of purchasing these vehicles but has encountered the usual delays with vehicle procurement.
<i>FY 2023</i>			
ADA Compliance SPWs Renewal	\$299,710	4.00/2.00 (SPWs)	The FY 2024 Adopted Budget included resources for continuing four SPWs, as approved by Commissioners Court, so that the Office may continue its assessment of polling locations for ADA compliance. FY 2024 represents the final year for the four SPW positions approved by Commissioners Court on January 18th, 2022. The Office reports these positions continue to support general operations in the Elections Division and is requesting ongoing funding for these positions in FY 2025.
BBM and BBM Sites 2-yr SPWs	\$152,181	2.00/2.00 (SPWs)	The FY 2024 Adopted Budget included resources for the second year of one Election Coordinator Sr. SPW to assist with increased Ballot-by-Mail usage and one Elections Coordinator SPW to help identify new polling locations in compliance with DOJ standards, approved for two years in the FY 2023 Adopted Budget. These funds ensure continued support of Ballot-by-Mail and BBM Site operations in the County Clerk’s Office Elections Division and represent the final year of the two fiscal year period approved in the FY 2023 Adopted Budget. The Office reports that these positions continue to support general operations in the Elections Division and is requesting ongoing funding for these positions in FY 2025.

The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes,” and are now linked to the County Goal, “Be a trusted and well-run county.”

PROBATE/MENTAL HEALTH/COMMISSIONERS COURT MINUTES TEAM:

The Probate Division is a mandated function of the Travis County Clerk’s Office. It is responsible for maintaining records, related notices and citations, as well as writs for all probate cases in Travis County Probate Court #1, including documents related to estates of the deceased, guardianships of minors and adults, mental health cases dealing with involuntary commitments, and condemnation cases. The Division has three main departments: the Probate Department, Mental Health Department, and Commissioners Court Minutes Department. The performance measures reported by the Division demonstrate an increased workload related to virtual courts and e-records and increased in-person activity as COVID-19 pandemic conditions wane.

The Travis County Clerk is the county official designated by law to maintain the records of the Statutory Probate Court. The services provided by the Probate Team, including maintaining court records, are constitutionally mandated and require County funding. The constitutional requirements and authority of the County Clerk are found in Article V, Section 20 of the Texas Constitution. Texas Local Government Code, Section 81.021, describes the statutory role of the County Clerk, including services as clerk of the county courts at law.

The Probate Division is also responsible for reporting to the National Instant Criminal Background Check System (NICS), the DPS, and Voter Registration needs for all guardianship cases in which the court appoints a guardian for an incapacitated adult individual under the Texas Estates Code, based on the determination that the person lacks the mental capacity to manage their affairs. Such affairs are voting in a public election, owning, possessing, or purchasing a firearm, making personal decisions regarding residence, and holding or obtaining a license to operate a motor vehicle under Chapter 521 of the Texas Transportation Code. The Mental Health Program is also responsible for reporting to NICS commitments for temporary or extended inpatient mental health services and commitments of persons determined to have intellectual disabilities requiring long-term placement in a residential care facility under Chapter 593 of the Texas Health and Safety Code.

Fees are assessed in cases filed before the Probate Court to support the operations of the County Clerk’s Office. Under Section 571.018 of the Texas Health and Safety Code, the county in which a person is detained for evaluation for mental health services is responsible for the costs. Thus, fees are not assessed in mental health cases where a patient was detained in Travis County. Fees are collected from other counties for mental health cases that originate in other counties because the Austin State Hospital provides services to a region of counties, and cases that originate in other jurisdictions are often transferred to the Austin State Hospital. Fees are not collected in cases opened by the Probate Court or by nonprofit organizations (e.g., Family ElderCare) filing guardianship cases for incapacitated persons.

A second Probate Court was created in FY 2024. The Division notes the additional staff funded in FY 2024 in conjunction with the new Court has helped the Division manage the increase in workload. However, the Probate Division has identified a need for additional staff capacity to fully support the new probate court and has related budget requests for additional clerk staff and a reclassification request to provide the growing division with additional supervisor capacity.

The Probate Division also reports that its Document Management System Phase II implementation is complete, reducing reliance on paper-based files and that it is now working to ensure the efficient flow of documents between filers and the courts by using this technology. Meanwhile, the Division notes it continues to focus resources on the deployment of the new Court Case Management System (CMS), which is a project that began several years ago, but progress is expected to accelerate now a contract has been signed with a vendor. However, despite promised long-term efficiency improvements, the CMS project will likely be a focus for resource allocation in the short term as staff, customers, and the Court adjust to the functioning of the new system once incorporated.

To promote efficiency, the Mental Health (MH) team notes it has expanded to a new service location as a part-time office at Austin State Hospital. The Division reports revenues and cases in this area are flat to declining over the past few years, which is attributed to new hospitals being built in surrounding counties. Regardless, the Division continues to focus on strengthening the Office’s efficiencies and is exploring the possibility of secure email communication with hospitals as a means for customers to file documents and streamline current processes.

Lastly, the Office states both Probate and Mental Health new case filings have trended higher in recent years. It expects this trend to continue as the County observes widespread growth and subsequent increased Mental Health service needs throughout the County.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
New Probate Court Personnel	\$311,436	4.00/4.00	The FY 2024 Adopted Budget includes resources added to the budget related to the creation of four additional Court Clerk II positions (4.0 FTEs) in the Probate Division to staff the new Probate Court. The Division notes additional staff funding has helped manage the increased workloads. However, the Division has also identified a need for greater clerk and supervisor staff capacity to support the new court fully and has related budget requests in FY 2025 for additional staff.

CIVIL:

The Travis County Clerk is the county official designated by law to maintain the records of the County Courts at Law with Civil Jurisdiction and to maintain records. These services are provided by the Civil Division. Civil responsibilities include filing and maintaining records for and issuance of related notices, citations, and writs for all civil cases where the County Courts at Law have jurisdiction; and protective orders, civil bond forfeiture cases, appeals from Justice of the Peace Courts, assessment and collection of fees and deposits, and condemnations.

Fees are generally assessed in civil cases, and those fees augment the General Fund to support the operations of the County Clerk. However, services provided to indigent - those who cannot afford - litigants are provided without the collection of assessed fees.

Subpoenas	20	30	60	70	80

In prior fiscal years, the Office reported decreased workloads across multiple areas due to the pandemic, especially in services related to civil courts. However, following the full opening of courts as COVID-19 pandemic conditions wane, the Civil Team now reports experiencing increased workloads through FY 2024. The number of civil cases filed increased, and that increase and the Courts' continued work to resolve cases drives the rest of the workload: increase in citations, subpoenas, higher court appeals, abstracts of judgment, customer service requests, and documents scanned, etc. As Travis County continues to grow,

the Division anticipates that this number will likely increase gradually. Therefore, the Office has related requests for additional staff capacity to address the rising workloads and ongoing need for management support.

MISDEMEANOR RECORDS:

The Travis County Clerk is the county official designated by law to maintain the County Courts at Law records, which exercise misdemeanor criminal jurisdiction. These services are provided by the Misdemeanor Records Division, which processes new filings and documents, and provides up-to-date, accessible information to the public regarding County Court misdemeanor records. Other services include providing a Court Clerk II to each County Court for a budgeted number of hours per day, including the Bond Review Docket with appropriate case files, filing court documents, entering data regarding case dispositions, fingerprinting convicted defendants for the case file, and issuing warrants and/or summonses.

The services provided by this division, including maintaining court records, are constitutionally mandated and must be funded by the County. The constitutional requirements and authority of the County Clerk are found in Article V, Section 20 of the Texas Constitution. Texas Local Government Code, Section 81.021, describes the statutory role of the County Clerk, including services as Clerk of the County Courts at Law.

The Misdemeanor Records Division notes that while the COVID-19 Pandemic drove up overall filings, the post-pandemic environment poses significant changes in operations. Courts are returning to in-person hearings. However, many have adopted hybrid practices, allowing some courts to run both virtual and in-person dockets. Despite the Office returning to in-person operations by March 2022, the prevalence of hybrid operations combined with the increased digital processing of documents, led to a lower observed rate of in-person traffic below than prior to the pandemic.

Additionally, implementing the new Case Management System (CMS), Odyssey, eased access for attorneys to Court Clerk filings and is increasing overall efficiency. The Office anticipates that the CMS will soon retain a functional document management system, which will reduce paper printing needs and improve filing access in a more customer service-friendly manner. Overall, the Office states services provided to the Court, attorneys, and the public remained relatively static year-over-year but notes that the addition of a Criminal Court in FY 2016 slightly increased the resource requirements for the Division to maintain effective service levels. Notably, the Office’s projections for future productivity remain relatively flat and trend downward to reflect the decreased number of criminal cases in Travis County as, historically, workloads and outputs for the Division tend to be tied to the crime rate. Despite that, the Office asserts the Courts’ focus on expediting cases has driven modest increases in the number of hours clerks spend in court in person serving customers at an approximate rate of 4 percent year-over-year.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
4.0 Court Clerk I SPWs in Misdemeanor Division (2 nd Year)	\$283,271	5.00/2.00 (SPWs)	The FY 2024 Adopted Budget includes one-time resources for the second year of four Court Clerk I SPWs approved for two years in the FY 2023 Adopted Budget. These funds ensure continued support for both virtual and in-person proceedings for the seven County Courts at Law and represent the final year of funding for these positions as approved in the FY 2023 Adopted Budget. The Office notes that the focus of these positions has shifted from dismissals to entering CJIS submissions. The dismissal project is currently paused while the County Attorney's office reviews the process, but it may start up at any time. The County Clerk's office will need staff that can process the dismissals within the legally required timeframe.

RECORDING:

The County Clerk is the county official designated by law to accept and file all documents about real property records for Travis County (including deeds, deeds of trust, warranty deeds, liens against property from court judgments, federal and state tax liens, UCC liens against personal property, and plats), issuing and recording marriage licenses, filing assumed names for businesses (DBAs), indexing all documents recorded, and providing a system for retrieving these documents for public use. These services are provided through the Recording Division. Presently, fees are charged for all mandated services.

The Recording Division also supports mandated functions of other divisions within the Office by managing the Clerk’s Office’s mail process (opening, sorting, logging, and disseminating mail to each Division of the Office). The Recording Division operates the Main Call Center to answer and research basic questions related to all divisions of the Clerk’s Office, excluding the Elections Division. The Call Center Operators often process payments for copies for the Recording Division.

The Office reports that certain workloads decreased for the Recording Division during the COVID-19 pandemic but anticipates multiple measures will rebound in the post-pandemic environment. However, real property market activity largely drives the Recording Division workload. During the pandemic, roughly from FY 2021 through FY 2022, the Travis County housing market heated up dramatically as low housing stock met high demand and drove housing prices to record highs. This trend began to cool off around the start of FY 2023, influenced, in part, by consecutive interest rate increases enacted by the U.S. Federal Reserve to target high inflation. The Division notes, with the slowing growth in Travis County relative to observed highs during the pandemic, its submitted performance measures are consistent with an economy has, at best, slowed or, at worst, plateaued. The Office asserts any significant economic developments over the next year will directly impact the Division's workload.

RECORDS MANAGEMENT:

The County Clerk is the county official designated by law to maintain the records of the County Courts at Law, the Statutory Probate Court, and official public records and to manage elections in Travis County. The Records Management Division of the Travis County Clerk's Office is responsible for managing and preserving the official records of the County Clerk's Office as set forth in the Texas Local Government Records Act and providing an efficient record retrieval service for staff members, the courts, and the public. In addition to performing required daily records management tasks, the Division works on developing

and implementing records, preservation, archival, and automation projects performed after the filing and recording of documents.

Responsibilities include managing circulation of onsite court case files; managing circulation of offsite records; managing the identification of, staging of, preparation for, and transfer of records to offsite storage; managing courthouse public research areas in three locations; filing documents into case file folders; responding to customer records requests; tracking, updating, and purging records inventory in the GAIN record tracking system; planning and executing a variety of records management and archival projects; and supporting the records needs of all County Clerk divisions.

The trend towards digital access to records remains the primary driver for workloads within the Records Management Division and informs the type of work performed by staff. The Office notes that the Division continues to transition away from paper record management and towards electronic record management with the full implementation of a new Case Management System (CMS), which has significantly reduced reliance on paper-records and increased requests to digitize aging paper files associated with unresolved cases. The Division notes these trends are reflected in the Documents File categories for performance measures above. Meanwhile, the Office remains committed to prioritizing best service practices for both internal and external customers during this ongoing transition.

The Office states that additional collection-related projects in the Civil/Probate Division are increasing the need for offsite file storage. In addition, the Division reports growing rates of files recalled for misdemeanor cases resulting from continued efforts of the County Attorney’s Office and Sheriff’s Office to process dismissal backlogs. Meanwhile, in-person and telephonic requests for service continue to decrease, as predicted previously by the Office, due to customers increasing reliance on the expanding digital access to records provided by the County Clerk’s Office.

The Records Management Division continues to coordinate with other Travis County Departments to gauge impacts from the recent move to the Probate Courthouse to the new Civil and Family Courthouse and the location of the County Clerk’s Misdemeanor Records Division at HMS. The Division notes that staffing and coverage are ongoing challenges to maintaining adequate service levels for managing and digitizing records across these facilities.

The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes,” and are now linked to the County Goal, “Be a trusted and well-run county.”

ADMINISTRATION: ACCOUNTING – COMPUTER RESOURCES - GENERAL:

The County Clerk has three programs supporting the other Office operations: General Administration, Accounting, and Computer Services. Each County Clerk’s program is mandatory to support the other operations. As internal service divisions, these programs serve as the backbone of the County Clerk’s Office, providing centralized services. The needs of the other operational divisions in this Office drive the workload.

The services provided by the County Clerk’s Office, supported by the Accounting Division of the Office (including maintaining court records, land, and other essential public records, and managing elections), are constitutionally mandated and required to be funded by the County. Specific statutory references related to finance include Local Government Code 113.022 – Time for Making Deposits to County Treasury, Local Government Code 117 – Court Registry Deposits; Property Codes 72-75 – Unclaimed Property, and Government Code 2251.021 Timing of payments.

The Travis County Clerk is the county official designated by law to maintain the records of the County Courts at Law, the Statutory Probate Court, official public records (such as land records, meeting notices, and marriage licenses), and to manage elections in Travis County. The Computer Resources Division of the Travis County Clerk’s Office is responsible for managing and preserving the official electronic records of the County Clerk’s Office and providing the most efficient possible information

technology structure for all the services provided by the County Clerk. The Computer Resources Division provides service to the public (e.g., the County Clerk’s Website, managing the publicly available documents through the document management system [DMS], etc.) as well as service to internal customers at the County Clerk’s Office (e.g., managing elections ePollBooks (iPads) which serve as poll books at vote centers, managing the file management system for court-serving divisions, etc.).

The services provided by the County Clerk’s Office, supported by the General Administration Division of this Office (including maintaining court records, land, and other essential public records, and managing elections), are constitutionally mandated and required to be funded by the County. The Administration Division seeks to continue expediting processes to enhance the efficiency of administrative tasks for better customer service to internal and external customers.

The County Clerk’s Office anticipates workloads for its General Administration Division will likely experience significant short-term increases to support the Elections Division during a year containing a major Presidential election. Historically, some administrative projects have been tabled during high election years due to needs but have continued in off years. Whereas baseline workloads for the Administration Division is relatively static for Court Divisions.

In addition, workloads for the Accounting Division may be largely influenced by developments coming out of the Texas Legislature. However, it remains difficult to determine the full impact of legislation coming out of the 88th Legislature currently. Meanwhile, the General Admin Division continues to seek efficiencies to expedite administrative tasks for improved customer service to internal/external customers, including a focus on increasing the speed of the hiring process to reduce stress and reliance on existing employees for vacancies and efforts to reduce lead times for supply and equipment purchases.

The Administration, Finance, and Computer Resources Divisions of the County Clerk’s Office, as internal service divisions, serve as the backbone of the Office, providing centralized services. Workloads are driven by the evolving needs of the other operational divisions within the County Clerk’s Office. Further, with significant new projects being implemented, including a new Records Management Digitalization system, a new deed records system, ongoing Election needs, the steady growth of the County overall, and the ongoing progression and change of how employee's work post-pandemic, the central service divisions are observing steadily rising workloads and increases in the number of supplies and hardware required to be ordered to maintain current operations.

Regarding the Administration Computer Resources Division, the Office reports it has completed its efforts to upgrade all computer operating systems across the County Clerk’s Office to Windows 10, maintains efforts to transition on-site permanent storage to a cloud-based system for improved access and security, and continues implementation of new software and systems for elections to maintain statutory compliance and address public access needs. However, like workloads across the General Administration Division, the Office anticipates FY 2025 elections will significantly affect workloads for the Computer Resources Division as it works to support the Elections Division during the major upcoming Presidential election.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Planner Sr for Community Liaison & Outreach SPW	\$91,471	1.00/1.00 (SPW)	The FY 2024 Adopted Budget includes one-time resources related to creating a Planner Sr Special Project Worker (1.0 SPW) in General Administration to support community outreach efforts as a Community Liaison for two fiscal years. The Office reports, once filled, this position has promoted a significant increase in in-person community engagement organization capacity for the Office in addition to the position’s ongoing tech-based outreach responsibilities.
Human Resources Specialist for Gen Admin SPW	\$83,054	1.00/1.00 (SPW)	The FY 2024 Adopted Budget includes one-time resources related to the creation of a Human Resources Specialist Special Project Worker in General Administration to support the large volume of HR-related tasks due to elections operations for two fiscal years. As of April 30, 2024, the Office reports that 40 percent of position’s hours are billable to external entities for hours worked related to contract elections.
<i>FY 2023</i>			
Staff for CFCF	\$81,471	1.00/1.00	The Office notes that the position was filled in October 2022 and has provided coverage for the increase in locations in time for the Civil Family Courthouse (CFCF) to open. In addition, this position oversees the Records Management Division's Civil and Digitization Initiatives operations at the new CFCF as of February of 2023 and leads a team of four employees who, in addition to managing the Civil case file library, have managed to advance the team's digitization efforts significantly.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	15,788,372	13,771,820	16,087,207	17,052,246	965,039

Grand Total	\$ 18,406,069	\$ 15,880,943	\$ 18,164,815	\$ 18,753,428	\$ 588,613
FTEs	117.76	120.52	125.42	126.42	1.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the County Clerk’s Office increased by \$588,613 from the FY 2024 Adopted Budget. This is a 3.2 percent increase. The majority of the increase was in the personnel budget related due to FY 2024 compensation that was originally budgeted in the compensation reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the County Clerk’s Office includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,193,484 was removed from the budget related to one-time costs for items approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for the County Clerk’s Office includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
One-time increases are related to covering anticipated costs for elections in FY 2025.	\$700,276	\$-	\$700,276	-
Continuation of six special project worker positions in the Elections Division related to ADA compliance (4.0 SPWs) and Ballot-by-Mail operations (2.0 SPWs) for two additional fiscal years.	469,853	-	469,853	-
Continuation of four Misdemeanor Records Court Clerk I Special Project Workers (4.0 SPWs) for two additional fiscal years to support rising workloads related to document redaction, court proceedings and processes assisting the seven County Courts at Law.	291,564	-	291,564	-
Creation of an Elections Compliance Planner Sr Special Project Worker (1.0 SPW) for two fiscal years to coordinate to coordinate statutory and regulatory compliance efforts across the Elections Division.	95,036	-	95,036	-
Creation of an Elections Office Manager Sr Special Project Worker (1.0 SPW) to serve as the purchasing and vendor liaison and the main point of contact for security, facility, and training needs for the Elections Division headquarters and all Early Voting and Election Day sites.	95,036	-	95,036	-
Confirmation of second-year funding for a Human Resources Specialist I SPW (1.0 SPW) in the General Admin Division approved in FY 2024 for a period of two fiscal years and recommended for an extended three-fiscal-year duration through FY 2026.	-	85,377	85,377	-
Create a County Commissioners Court Specialist position (1.0 FTE) to provide a second dedicated position to support the Commissioners Court Team in the General Admin Division of the County Clerk’s Office.	1,525	83,830	85,355	1.00
Creation of an additional Elections Coordinator Special Project Worker (1.0 SPW) for two fiscal years in the Elections Division to address anticipated workload increases for the Ballot by Mail team within the Elections Division.	79,413	-	79,413	-
Confirmation of second-year funding for an Elections Coord SPW (1.0 SPW) in the General Admin Division approved in FY 2024 for a period of two fiscal years to assist the Elections Division Personnel Team primarily as a dedicated front desk receptionist and recommended for an extended three-fiscal-year duration through FY 2026.	78,815	-	78,815	-

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Continuation of one Court Clerk II Special Project Worker (1.0 SPW – position number 30064976) to support the Supplemental Criminal Court, also known as the ARPA Court, for two additional fiscal years.	76,808	-	76,808	-
Total Programmatic Recommendations	\$1,888,326	\$169,207	\$2,057,533	1.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for the County Clerk’s Office includes changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Confirmation of second-year funding for a Planner Sr SPW (1.0 SPW) in the General Admin Division approved in FY 2024 for two fiscal years to address rising workloads in administrative support and community outreach operations. It recommended for an extended three-fiscal-year duration through FY 2026.	\$95,128	\$-	\$95,128	-
Confirmation of second-year funding for an Elections Coord SPW (1.0 SPW) in the Elections Division approved in FY 2024 for two fiscal years and currently recommended to extend a third fiscal year through FY 2026 to ensure compliance with State regulations regarding elections and the Risk-limiting Audit program in conjunction with the Texas Secretary of State, and recommended for an extended three-fiscal-year duration through FY 2026.	86,677	-	86,677	-
Confirmation of funding for the third and final year of approved contract costs related to the Election Night Reporting Results and Voter Information portal.	50,070	-	50,070	-
Travel and Training Cut Restoration	-	19,245	19,245	-
Total Administrative and Other Funding Changes	\$231,875	\$19,245	\$251,120	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County’s budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes 19,245 in ongoing operating resources for the County Clerk’s Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the County Clerk’s Office includes changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) would otherwise not receive the Across the Board pay increase.		\$-	\$415,581
Resources for health insurance cost increases for FY 2025.		-	74,544

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for Elected Official salary adjustments approved by the Commissioners Court in FY 2024.	-	7,690	7,690
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	7,157	7,157
Total Compensation Changes	\$-	\$504,972	\$504,972

Compensation adjustments for FY 2024 were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. The Preliminary Budget Volume I document contains a full description of all compensation adjustments.

On April 30, 2024, the Commissioners Court was presented with a proposed 4.1 percent healthcare rate increase for FY 2025, which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

Throughout FY 2024, the County Clerk’s Office has internally funded numerous position reclassifications, including 15 position reclasses submitted for Commissioners Court approval on March 5, 2024, which were unanimously approved. The County Clerk’s Office noted these reclasses were requested and completed as part of a larger effort to move away from a vertical hierarchy organizational model, which funneled many critical duties and oversight responsibilities through a handful of key positions, towards a more horizontal organizational model which seeks to spread out responsibilities across a wider range of key leadership positions. The Office also related these reclassifications were intended to reorganize duties within the Office to create efficiencies, expand services, and align divisions with long-term County Clerk strategies of democracy, sustainability, and equity.

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Office’s budget and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Additional FY 2025 Elections Resources	\$494,681
Total Allocated Reserve Earmarks	\$494,681

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court-approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue-generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the

assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15 percent increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the Office has 282 fees it charges. The County Clerk's Office also maintains contracts to provide election services to local governmental entities. The County gets reimbursed by local governmental entities with an administrative fee, which, by statute, is charged to those entities for whom the County is providing election services. Elections that do not involve Travis County are fully reimbursed through this fee in the Elections Contract Fund (0128).

VACANT POSITIONS

The Office currently has 20 total vacancies, out of which the following eight positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Court Clerk II	30054232	1.00	210	The Office has plans to utilize within a current budget request
Recording Specialist II	30001041	1.00	207	Reclasses Approved by Commissioners Court on 3/5/2024 to Planner
Elections Coord	30061216	SPW	184	The Office is posting for this position
Accountant	30058313	1.00	156	Job posted and interviewing
Court Clerk I	30000974	1.00	131	Job posted and interviewing
Elections Div Dir	30000933	1.00	110	Job posted and interviewing
Administrative Asst I	30000994	1.00	100	Job posted and interviewing
County Clerk Deputy Chief	30000914	1.00	79	The Office has plans to utilize within a current budget request

The following two positions have been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Planner	30063226	1.00	661	Job posted and interviewing
Records Analyst Assoc	30001018	1.00	399	The Office is posting for this position

FUTURE CONSIDERATIONS

In FY 2024, the County Clerk's Office began implementing a reorganization to provide better oversight and support of divisions with the creation of a pyramid like organizational structure that aims to better withstand turnover and sustain institutional knowledge.

In terms of long-term planning, the Office remains focused on the continuing increase in population in Travis County and the potential impact of that growth on the demand for services provided by the County Clerk's Office. Areas where population growth has a direct effect on the quantity of services provided include: the number of marriage licenses and number of real property transactions for the Recording Division, the number of civil and criminal case records managed by the Civil and Misdemeanor Records Divisions, the number of probate and mental health case records managed, number of litigants, and

the amount of Commissioners Court meetings held with associated agendas by the Probate/Mental Health Division, and the number of voters casting ballots (both in person and via mail) and number of elections held by the Elections Division.

The County Clerk's Office attributes four intersecting factors may impact its ability to advance long-term plans: the continued impact of post-pandemic economics, the availability of funds, legislative changes, and the growth in population in Travis County. The Office asserts that the current budget level of the Clerk's Office is not sufficient to provide baseline provision of services in many of its divisions, and the projected continued growth in Travis County will exacerbate this. To that end, issues such as unfunded mandates in general, statutory modifications across all divisions and elections-specific changes have and would increase County funding liability, unanticipated elections, further increases in defendants' inability to pay fines and fees, and any potential significant economic change or influence (like the pandemic) would be the key factors to impact current and future budgets for the County Clerk's Office.

Additionally, on April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk's Office, the County Attorney's Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a wholistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss our draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioner Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin. Additional details regarding the County Clerk's Office request are noted in the FY 2025 Budget Request Analysis section below.

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office is requesting that one-time resources be added to the Elections Division General Fund budget to cover estimated expenses related to the County’s statutory duties to facilitate elections and the run-up to future fiscal year elections anticipated to take place in FY 2025. The Office notes that there is always an additional possibility that any jurisdiction may call a Special Election may call a Special Election. However, the County will receive partial reimbursement for these additional costs by those entities contracting with the County for their portion of a special or contract election in which the County is not a party on the ballot.

This proposal is submitted to address a variety of areas, including potential Legislative requirements are likely to add increased complexity to existing workflows, additional staffing necessary for voter education due to the Ballot by Mail processes mandated by SB1 to reduce the overall BBM rejection rate, bi-annual increases due to additional elections, equipment and sites needed to hold elections, significant increased cost of ballot card stock, paper goods, printing, and mailing due to ongoing supply chain disruptions and shortages, increase in personnel costs for staffing of sites, ADA compliance-related costs, a substantial increase in Public Information Requests (PIRs) for election-related documents, and high probability of a Secretary of State (SOS) mandated forensic audit demands additional staff to gather, record and manage a vast array of election records.

The amount of \$1,194,957 is requested one-time resources is broken down by incremental increase per election in the following table:

<i>Request for Incremental Amounts for FY 2025 Elections Budget</i>	
<i>Elections</i>	<i>One-Time FY 2025 Elections Budget Increase*</i>
Incremental Amount for November 2024 Presidential election	\$662,196
Incremental Amount for 2025 General Election Start-up Costs	532,761
Total	\$1,194,957

* Amounts do not include the Base Budget for the Elections Division in the FY 2024 Preliminary Budget of \$5,193,492.

The Elections Division continues to observe cost increases due to rising rates for renting sites, security, paper ballots, mailing, printing, fuel costs, temporary personnel, and other services. FY 2025 will hold one large election in the general fund. The Elections Division is also projecting increased costs in the delivery of voting equipment due to the expanded footprint of the equipment, changes to the transportation mechanism, inflated fuel costs, and security measures required for the new voting equipment. Accordingly, the Office states it will have to increase the number of staff hired to perform delivery, which is reflected in the costing estimates above.

The projected cost includes the ongoing expansion of the Ballot-by-Mail program in response to the requirements added by SB1 and increased program complexity. Additional ongoing responsibilities added by SB 1 include the mandatory internet streaming of certain election processes (Signature Verification, Ballot Board, and Central Count Station), increased reporting requirements, the development and implementation of a post-election Risk-limiting audit, and the requirement to post a licensed peace officer throughout tabulation at the Central Counting Station. Costs related to the increased complexity of the Ballot by Mail program include larger numbers of phone calls made to and from the call center, mail application processing, application review, ballot returns and general processing. The Elections Division states that due to these workload increases, it remains unable to process the volume of in-house ballot printing efficiently. In addition, a previous agreement with DOJ required all polling locations within the county to be surveyed for ADA compliance and steps taken for remediation if sites are not in compliance. Site surveys, remediation steps, and required staff training must occur in every election and represent a significant workload increase. Additionally, the Elections Division reports significant cost increases for elections due to the countywide minimum wage increase to \$20 per hour approved in the FY 2023 Adopted Budget.

The Office notes operating costs for elections now reflect the added expense of adding polling locations as public schools are no longer available, increasing the number of poll workers (extended training schedules, increased printing costs, and background check costs), and the increased cost of voting system deployment (rental of specialized rental trucks), which will impact the FY 2025 elections. New election equipment requires the purchase of ballot card stock and envelopes for Ballot-by-Mail voters. Due to the increase of voters requesting to vote by mail in previous fiscal years, the Division reports that the time and effort to produce in-house printed ballots became too cumbersome, time-consuming, and costly, so an outside vendor was located to produce the ballots. With the increase of Ballot by Mail, there are also increases in costs for incoming and outgoing mail as well as increased costs due to supply chain disruptions.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>

Number of mandated elections held	5	1	3	3	3	1
Other elections held	49	45	55	54	54	50

PBO RECOMMENDATION

PBO recommends \$700,276 in additional one-time resources be included in the County Clerk’s Office Elections Division FY 2025 Preliminary Budget to cover estimated incremental costs for the 2024 Presidential election (PR24) and operating expenses for the startup costs related to the 2025 November General Election (G26). This recommendation includes \$500,246 in one-time personnel and \$200,030 in one-time operating resources. In addition, PBO recommends a \$494,681 Earmark against the Allocated Reserve for FY 2025 additional election costs to cover anticipated personnel expenses related to 2025 General Election start-up operations expected to occur in FY 2025. PBO’s total recommendation for FY 2025 estimated election costs is \$1,194,957.

The County Clerk’s Office is statutorily responsible for administering elections. However, elections are collaborative efforts between the Clerk’s Office, the Tax Office, local entities, political parties, and various other organizations. Travis County is typically responsible for about 70 to 75 percent of a primary election's cost and runoff. Costs for elections are incurred, beginning several months before and continuing two months after the election. Most of the costs are incurred in the last few months of the fiscal year preceding an election (August to September).

Due to the transitory and unpredictable nature of the elections cycle, especially in off-cycle election years, estimated and actual election costs have varied wildly in previous fiscal years. Therefore, PBO seeks to right-size the elections budget to a minimum cost election year to reduce the frequency and magnitude of these types of one-time budget requests. To help reduce ongoing variances between estimated and actual elections costs, the FY 2024 Adopted Budget included an additional \$905,813 in ongoing personnel resources in the Elections Division base budget. This amount was related to the \$20 per hour minimum wage for election workers approved by Commissioners Court in FY 2023. At that time, PBO recommended and received approval to budget the estimated FY 2023 costs associated with this minimum wage increase in an FY 2023 Earmark against the Allocated Reserve for FY 2023 additional election costs. This amount was approved to be added directly to the Elections Division’s budget in the FY 2024 Adopted Budget to ensure sufficient resources to implement the \$20 per hour minimum wage for election workers in FY 2024.

PBO notes the Division has regularly left significant savings in the elections budget year over year due to consistent overestimates of costs driven by the unpredictable and fluctuating nature of elections, public interest in elections, and evolving regulatory statutes for elections. Based on this observation, PBO recommended a significant portion of the Office’s estimated FY 2024 elections costs, \$1,255,759, be budgeted in a one-time Earmark Against the Allocated Reserve for FY 2024 to provide the opportunity for the Office to request resources on an as-needed basis. This recommendation was intended to reduce underutilized resources in the Division’s budget. As of April 2024, the County Clerk’s Office requested and was granted access to \$587,569 of these earmarked funds for expenses related to the 2024 Primary Runoff Election. The Office expects to make an additional request to use a significant portion of the \$668,190 remaining earmarked funds for upcoming election operations.

The total elections and General Fund budget are detailed in the table below. This amount includes a breakdown of the temporary elections budget recommendation above as well as the amounts related to other elections budget requests recommended for the FY 2025 Preliminary Budget:

<i>Total General Fund Elections Resources Recommended for FY 2025 Preliminary Budget</i>			
	<i>Ongoing</i>	<i>One-time</i>	<i>Total</i>
Base Elections Budget	\$5,193,348	\$-	\$5,193,348
Elections FY25 Temporary Increase	-	700,276	700,276
Elections Coordinator SPWs (6.0 SPWs)	-	469,853	469,853

<i>Total General Fund Elections Resources Recommended for FY 2025 Preliminary Budget</i>			
	<i>Ongoing</i>	<i>One-time</i>	<i>Total</i>
Elections Compliance Planner Sr (1.0 SPW) - Two-Year Duration	-	95,036	95,036
Elections Office Manager Sr SPW (1.0 SPW) - Two-Year Duration	-	95,036	95,036
Voting Equipment Elections Coord SPW (1.0 SPW - Year 2 of 2)	-	86,677	86,677
Elections Coordinator SPW (1.0 SPW) - Two-Year Duration	-	79,413	79,413
Personnel Elections Coord (1.0 SPW - Year 2 of 2)	-	78,515	78,515
Elections Website Costs (Year 3 of 3)	-	50,070	50,070
Health Insurance Increase	12,210	-	12,210
Total in FY 2025 Preliminary Budget for County Clerk's General Fund Elections Budget	\$5,205,558	\$1,654,876	\$6,860,434
Earmark against Allocated Reserve for FY 2025 Additional Election Costs	-	494,681	494,681
Total Resources for FY 2025 Elections in FY 2024 General Fund Preliminary Budget, Including Earmarks	\$5,205,558	\$2,149,557	\$7,355,115

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests an additional resources related the renewal of six Special Project Workers (SPW) positions, specifically the renewal of four Election Coordinator SPWs (4.0 SPWs) and two Election Coordinator Senior SPWs (2.0 SPWs) originally approved for ADA Compliance and Ballot by Mail support operations. Additionally, the County Clerk’s Office requests these positions be added to the list of Target SPWs and included on an ongoing basis for cost recovery for contract elections.

ADA Compliance SPWs – (30063809, 30063810, 30063811, and 30063812):

In March 2020, the County Clerk’s Election’s Division polling locations were audited by the Department of Justice (DOJ). While the audit was generally positive, the Office reports that it signed an agreement with the DOJ for two years to mitigate potential ADA compliance issues. Specifically, as part of its efforts to improve compliance at polling locations across the country, the agreement with the DOJ required Travis County to dedicate staff to broaden ADA assessments. Per the DOJ:

Travis County will provide at least three teams of two members in each countywide election. For each election that is not countywide, Travis County will field a number of teams that is similarly proportionate to the size of the election...Within thirty (30) days of the Effective Date of this Agreement and for the term of this Agreement, Travis County will designate an employee to serve as an ADA Coordinator for Travis County. The ADA Coordinator will be trained in and knowledgeable about the ADA and the terms of this Agreement, and will investigate any complaint that Travis County, election judges, or any other person under the authority or control of Travis County receives alleging that Travis County’s voting program discriminates against persons with disabilities.

The County Clerk’s Office continues dedicated efforts to provide polling locations accessible to all voters of Travis County and notes that these SPWs allow for the continued evaluation of polling locations for ADA compliance and align with DOJ agreement requirements. The positions survey and assess site structure for compliance and, if issues and challenges with location, notate and attempt to remediate if possible. In addition, the Office states that these positions provide vital support for the daily operations of the Elections Division. The Elections Division anticipates that these positions will be needed to maintain essential election functions and has requested these positions be added to the target budget on an ongoing basis for FY 2025.

Ballot by Mail (BBM) Support SPWs – (30065255 and 30065256):

The County Clerk's Office is requesting ongoing funding for two SPWs related to Ballot-by-Mail (BBM) operations originally approved for a two-year duration in the FY 2023 Adopted Budget, including one Elections Coordinator Sr (1.0 SPW) to assist with increased BBM usage, and one Elections Coordinator (1.0 SPW) to help identify new polling locations in compliance with DOJ standards. The Office notes these two SPWs currently provide vital support for the daily operations of the Elections Division and anticipate an ongoing need for these positions to maintain essential election functions.

As amended by Senate Bill 1 (SB1), the Texas Election Code outlines the statutory guidelines for BBM operations. It contains strict deadlines that the Election Division must meet. These guidelines retain complex requirements for record processing and voter notification with many potential areas of legal liability, making the Ballot by Mail operations a complex and time-sensitive operation that must maintain active compliance with State regulations to avoid potential voter disenfranchisement. The Office adds new legislative requirements add more complexity to existing workloads. The time required to process BBM applications and returned ballot reviews is increasing as legislative rules have created more avenues for application/ballot defects requiring the production of new mail notices, increased phone and email contact of affected voters, voter follow-up, as well as new and complex workflows for tracking the status of defective applications/ballots and system updates to reflect voter ballot status properly.

Number of EV poll workers recruited, assigned and confirmed	1,441	893	2,000	850	850	1,700

PBO RECOMMENDATION

PBO recommends \$469,853 in one-time resources related to the continuation of four Elections Coordinator SPWs (4.0 SPWs) and two Elections Coordinator Sr SPWs (2.0 SPWs) for an additional two fiscal year duration to support the Elections Division during a period containing a high-profile Presidential election and to provide PBO additional data to gauge whether there is an ongoing need for these positions within their original scope of work. This request includes three Elections Coordinator SPWs (3.0 SPWs) and one Elections Coordinator Sr SPW (1.0 SPW) to support assessments of polling locations for ADA compliance, as well as one Elections Coordinator SPW (1.0 SPW) to help identify new polling locations in compliance with DOJ standards and one Elections Coordinator Sr SPW (1.0) to assist with increased BBM usage.

ADA Compliance SPWs – (30063809, 30063810, 30063811, and 30063812):

It is PBO's understanding the term of the original agreement between the Travis County Clerk's Office and the Department of Justice (DOJ) requiring Travis County to dedicate staff to broaden ADA assessments has concluded, effective March 2, 2024. Therefore, PBO does not recommend the four related SPWs be continued on an ongoing basis but instead recommends a one-time continuation of these SPW positions for two additional years to support the Elections Division during a period containing a high-profile Presidential election. PBO is not recommending that these positions be added to the County Clerk's list of Target SPWs on an ongoing basis due to the limited availability of additional resources and the anticipated completion of the terms of the agreement with the DOJ.

Additionally, PBO notes the performance measures submitted along with this request do not indicate whether continued ADA compliance operations represent a significant enough workload to warrant four full-time positions on an ongoing basis or whether these operations would be best addressed by seasonal staff to be considered for inclusion for fiscal years containing multiple major elections.

Ballot by Mail (BBM) Support SPWs – (30065255 and 30065256):

The Office reports that workloads for the Sites and Ballot Technologies Divisions continue to increase due partly to Ballot by Mail operations. In FY 2022, the Office states that it received and processed 41,000 mail ballots. During the FY 2024 Budget Process, the Office anticipated that it would receive 61,000 mail ballots throughout FY 2024, a year with a comparable election schedule to FY 2022. However, for the FY 2025 Budget Process, the Office has revised its FY 2024 estimate to 50,000, representing an 18 percent decrease relative to the prior estimate. This significant revision to estimated mail ballots received reflects the wide variances historically observed by the Elections Division related to these operations and the inherent difficulty of generating estimates for these workloads.

Meanwhile, the Office notes that these workloads are compounded by evolving statutory guidelines from the Texas Legislature. However, PBO does not have accurate performance measure data to quantify the degree to which Ballot by Mail (BBM) work has increased for the County Clerk's Office as a result of Senate Bill 1. The Office reports that in FY 2022, BBM requests decreased during the elections held in the spring but the amount of work necessary to process BBMs increased due to new state mandates required as part of Senate Bill 1 (SB 1). SB 1, passed during the second special session of the 87th Texas Legislature, is an omnibus elections bill that mandates various changes to voter registration, the authority of poll watchers, BBM review, and voter eligibility, among other provisions. SB 1 also adds new responsibilities, including the mandatory internet streaming of certain election processes (Signature Verification, Ballot Board, and Central Count Station), increased reporting requirements, the development and implementation of a post-election risk-limiting audit, and the requirement to post a licensed peace officer throughout tabulation at the Central Counting Station.

PBO reviewed the number of BBM applications and ballots received by the Office from FY 2017 through FY 2023, as well as currently projected amounts for FY 2024 and FY 2025. The Office reports the following data:

The above data indicates that the County Clerk’s Office received a significantly higher number of BBM applications and ballots in FY 2021 than in FY 2017, the last election cycle with a Presidential election. The data also shows a notable increase in BBM applications and ballots received in FY 2022 compared to FY 2018, the last election cycle with a Gubernatorial election. While the number of ballots by mail appears to be trending upward, there are wide swings in the number of ballots received by even-numbered years and odd-numbered years. To determine the effect of Senate Bill 1 on BBM-related operations, PBO believes additional data is required to gauge whether peaks observed during FY 2021 are an outlier or whether FY 2025 will reflect a similar increase in these measures that would suggest a sustained increase in BBM operations that may warrant a recommendation of additional ongoing staff capacity in the Elections Division.

However, the number of applications and ballots received alone does not communicate the potential for qualitative changes in the time and effort required to process these operations as influenced by evolving statutory requirements, especially those related to reporting. When PBO originally recommended these positions during the FY 2023 Budget Process for a two-year duration, PBO noted that it would work with the Office to develop performance measures that track the time needed to process ballots at each election stage. Some suggested measures included the number of application and ballot defects requiring the production of new mail notices, the amount of phone and email notices sent out related to such defects, and any other reviewing, tracking, or coordinating steps for ballot and application defects the Office is now required to follow. While such measures were not included in this request to extend these positions beyond their original term, PBO still believes such measures are necessary to capture the full scope of workloads related to Ballot by Mail operations and how changes influence these workloads in legislative requirements.

Therefore, PBO is recommending the Elections Coordinator Sr SPW (1.0 SPW) intended to assist with increased Ballot by Mail usage be continued for two additional years to provide PBO additional data and the potential to develop performance measures that more accurately capture the scope of related workloads with the County Clerk’s Office. This recommendation also intends to ensure that the Elections Division maintains sufficient staff capacity in FY 2025, a year containing a major Presidential election. However, PBO notes that it is unlikely to recommend this position continue an ongoing basis in future

budget cycles should performance data not reliably indicate a sustained increase in workloads related to Ballot by Mail operations.

The Office reports a continued need for the Elections Coordinator SPW (1.0 SPW) to support the Sites Division within the Elections Division and assist with long-term planning of polling locations. Previous recommendations have noted that Travis County's population grew by over 21 percent in the previous decade, and much of this growth occurred in newly developed areas that previously had few polling places. To meet this demand and sprawl, the Office projected needing 20 more polling places by 2024, to bring the total number of polling places to 200, up from 180. However, the Office also reported enhanced DOJ requirements concerning polling locations have rendered a significant number of sites as unfeasible. Of the 195 sites used in the November 2018 election, only 79 were slated to be used in the November 2022 Election.

PBO notes that this request did not include updates regarding the Elections Division's to-date progress on the number of polling places identified. As such, PBO is unable to gauge whether there is a continued need for this position to address the need for additional polling locations.

Therefore, PBO recommends the Elections Coordinator SPW (1.0 SPW) intended to help identify new polling locations in compliance with DOJ standards be continued for two additional years to ensure that the Elections Division maintains sufficient staff capacity for a period containing a major Presidential election.

Lastly, while the County Clerk's Office has communicated that all six SPWs requested for continuation beyond their original terms currently provide vital support for the daily operations of the Elections Division, this general support does not reflect the original purposes for these Special Project Workers. Should the original scope of work intended for these SPWs no longer require the dedicated support of these positions, PBO would be unlikely to recommend ongoing resources for their continuation beyond FY 2026.

REQUEST 04: COURTS TRAINER COORDINATOR II (1.0 FTE)

<i>Program:</i>	Civil/Collections Team (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 91,721	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office is requesting ongoing resources related to creating a Training Coordinator II position to serve the Courts Team, which including the Misdemeanor, Civil, and Probate/Mental Health divisions. The requested position would train new employees through a variety of modalities, provide cross training, update procedures, migrate procedures to a web-based program called Knowledge Owl, track required skills for each employee, and determine gaps in training processes. This would increase the County Clerk’s FTE count by 1.0 FTE.

The County Clerk’s Office is currently undergoing a significant organizational change by joining multiple divisions under two Assistant Chief Deputies. The new Court Team consists of the Misdemeanor, Civil, and Probate/MH divisions and has a total of 76 staff members. This request seeks to create additional staff capacity dedicated to training within this new team to streamline the time it takes to fully train a new employee or cross train an existing employee, track each employee’s training and proficiency of skills, research and develop new procedures when processes change, train each employee on the new processes, train staff when a new system is implemented (such as E-file or Odyssey), and serve as a skilled subject matter expert to ensure consistent, high-quality operations throughout the Court Team.

The Office notes, when the County Clerk’s Office was small, supervisors or division directors were able to train staff, but this is no longer feasible. Managers currently report being pulled in so many directions they are not able to focus on managerial tasks such as strategic planning, managing personnel, advising mid-level managers, building a positive atmosphere, and working with external partners to solve problems through collaboration. Without a dedicated trainer many of these functions go by the wayside for more immediate needs such as training. The Office believes dedicated training staff is imperative to build a strong organization that can withstand normal turnover, help employees grow professionally, manage change, and be equipped to build more efficient processes.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>

PBO RECOMMENDATION

PBO does not recommend additional resources related to the creation of a Training Education Coordinator II position (1.0 FTE) to support the re-organized Courts Team be included in the FY 2025 Preliminary Budget.

PBO concurs investing in dedicated training staff would be beneficial for the County Clerk’s Court Team, especially in light of the County Clerk’s Office’s recent internal reorganization and the ongoing systems projects requiring centralized rollouts for effective implementation. Retaining sufficient personnel capacity dedicated to training would help ensure that statutorily mandated requirements, onboarding processes for new staff, and rollouts of new projects/resources/protocols are handled in a standardized and centralized manner for all staff within the Courts Team. However, while such an investment may be beneficial, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget, due to very limited resources.

SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as PBO knows them.

PBO estimates the total cost to create the requested Training Education Coord II position in FY 2025 to be \$91,721, including \$83,681 in ongoing personnel, \$1,525 in one-time operating, \$1,075 in ongoing operating and \$5,440 in centrally budgeted resources for computer, phone and printer equipment related to the requested position. Due to the limited availability of resources for reasonable but non-mandated expansions of existing programs, PBO must place added scrutiny on requests for

additional resources. At this time, it is not clear whether a dedicated Training Education Coordinator II position to support the Courts Team demonstrates an immediate, critical, or statutorily mandated need to justify this program expansion.

REQUEST 05: RECLASS FROM COMMISSIONERS COURT SPECIALIST TO AGENDA COORDINATOR

<i>Program:</i>	General Administration (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 13,269	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk requests additional ongoing personnel resources related to a proposed reclassification of position 30000970 from a Commissioners Court Specialist (paygrade C08) to an Agenda Coordinator (paygrade C12). The Office asserts that the Commissioners Court Specialist position, which works independently on legally required duties and works closely with the Judge’s Office Agenda Coordinator, should more closely mirror the Agenda Coordinator’s pay as the responsibilities and duties are similar in process, difficulty, and value to internal and external stakeholders.

The current pay grade for a Commissioner’s Court Specialist is four pay grades lower than an Agenda Coordinator. The Office notes the Commissioner’s Court Specialist role is frequently on camera, guiding Commissioners Court, and responding to public information requests/in the public spotlight and therefore requires communication skills and the ability to maneuver through challenging requests and situations. The Office states this position’s role is highly specialized, requiring a deep knowledge of Commissioners Court proceedings and the associated processes of the court, as well as technological and research skills to store, cull, and access data, and the ability to communicate with and direct internal and external stakeholders. Therefore, it is the Office’s position the Agenda Coordinator job title is more relevant for this role and this reclassification would allow the Office to better recruit for and retain qualified applicants for the position.

BUDGET REQUEST PERFORMANCE MEASURES

PBO RECOMMENDATION

PBO does not recommend additional funding to reclassify position number 30000970 from a Commissioners Court Specialist to an Agenda Coordinator be included in the FY 2025 Preliminary Budget. As a general practice, PBO does not fund ad hoc reclassification requests, but asks Offices to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

Additionally, PBO concurs with HRMD’s initial assessment of this reclass request the job title of Agenda Coordinator would not be appropriate as this title exists in relation to the County Judge’s Office and is not currently available to County Clerk’s Office personnel.

REQUEST 06: COMMISSIONERS COURT SPECIALIST – GENERAL ADMIN (1.0 FTE)

<i>Program:</i>	General Administration (120)

Dpt Total + Earmarks	\$ 97,442	\$ 90,795	\$ 85,355	\$ 85,355

DEPT. SUMMARY OF REQUEST

The County Clerk requests ongoing resources to the create of one Agenda Coordinator (1.0 FTE) position in the General Admin Division to enhance customer service to the public and decrease process inefficiencies. The proposed position would create a second staff member assigned to support General Admin Division operations related to facilitating Commissioners Court meetings and create an additional point of contact for internal and external customers. This would increase the County Clerk's FTE count by 1.0 FTE.

The role of an Agenda Coordinator in the County Clerk’s Office is to provide clerical and administrative support services for all Commissioners Court meetings. The position requires attendance and provides direction in Commissioners Court Voting, Executive, Budget, and Road District Voting sessions. The position prepares official records and, as an employee of the County Clerk, serves as custodian of the official court records, which are kept in perpetuity. As technology expanded over time, this position is responsible for creating and maintaining digital records and electronic tracking systems used for searching of these records. This includes the transfer of digital information to the proper media and prompt, and exact retrieval of information when necessary.

Additional duties for the requested position would include: posting official notices of Commissioners Court meetings with appropriate authorities and within time requirements established by law, audio recording of Commissioners Court proceedings, preparing official minutes for approval, advising Elected Officials and County staff on agenda items, serving as a primary resource person to employees and officials and to the general public for information on actions taken by the Court, receiving, maintaining and updating all official records and original documents from the Court’s meetings and processes them in accordance with government code, downloading, indexing and converting source computer output files into searchable reports, conducting requested searches for internal and external customers, certifying documents when appropriate, supervising the daily maintenance and backup of all electronic data pertaining to all electronic tracking systems of Commissioners Court records, maintaining computer hardware, software, and scanning equipment needed for the document management system, collecting and analyzing statistical data retrieved from the imaging software workflow and production reports, as well as working Records Management staff to ensure efficient storage, retrieval, and preservation of original Commissioners Court records.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Avg Days fm Court Meeting to Publishing of Draft Minutes	2	3	3	3	1	1
Documents Scanned and Indexed	8,406	8,465	9,000	9,000	10,000	10,000
Comm Ct Customer Service Email Requests	284	432	500	500	600	600
Hours Spent in Comm Ct	349	557	400	400	600	600
Mtgs Attended (incl Reg Voting, Budget, & Road District)	94	94	110	110	110	110

PBO RECOMMENDATION

PBO recommends \$90,795, including \$82,755 in ongoing personnel, \$1,525 in one-time operating, \$1,075 in ongoing operating and \$5,440 in one-time CAR resources for computer and phone equipment related to the creation of an additional County Commissioners Court Specialist position (1.0 FTE) to provide a second dedicated position to support the Commissioners Court Team in the General Admin Division of the County Clerk’s Office be included in the FY 2025 Preliminary Budget. This will increase the County Clerk’s FTE count by 1.0 FTE.

The Office notes positions in the County Clerk’s Office dedicated to facilitating Commissioners Court related operations require a deep knowledge of Commissioners Court proceedings, associated processes of the Court, and both the technological and research-oriented skills to store, cull, access and effectively communicate critical data with and direct internal and external stakeholders. The General Admin Division believes two dedicated staff members working collaboratively on these operations would lead to more streamlined processes and increased efficiency by sharing responsibilities, cross-training evolving protocols, and developing best practices contributing to a more effective overall operation. The Office also notes an additional staff member dedicated to these duties would provide stability for a role is crucial in case of unexpected events such as illness, vacation, or other personal emergencies.

PBO acknowledges providing additional staff coverage in the General Admin Division dedicated to facilitating Commissioners Court session operations in the inevitable event that the Office’s existing staff must take sick leave, attend trainings, and/or otherwise be unavailable for regular duties would be of significant value for these critical County operations. However, PBO believes the job title of Agenda Coordinator would not be appropriate for this requested position as this title exists in relation to the County Judge’s Office and is not currently available to County Clerk’s Office personnel.

Therefore, PBO recommends the creation of an additional County Commissioners Court Specialist position (1.0 FTE) to support the existing County Commissioners Court Specialist in the General Admin Division of the County Clerk’s Office to provide staff coverage in the County Clerk’s Commissioners Court Team. PBO recommends this position be budgeted at a salary above minimum for the position’s paygrade (C08 - \$52,162), with a salary amount matching the existing County Commissioners Court Specialist position (\$55,138) to provide the Office the flexibility to hire for a well-qualified candidate for the position.

Aaron C.R. Pepper, FY 2025 Preliminary Budget

County Clerk

REQUEST 07: ELECTIONS COMPLIANCE PLANNER SR SPW (1.0 SPW) – TWO-YEAR DURATION

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 97,976	\$ 97,976	\$ 95,036	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk requests one-time personnel resources related to the creation of one Elections Compliance Planner Sr Special Project Worker (1.0 SPW) for a proposed period of two fiscal years to coordinate statutory and regulatory compliance efforts across the Elections Division.

The Office notes, following the 2021 Texas Legislative Session, the Texas Legislature passed an unprecedented number of laws affecting elections procedures, thereby impacting the operations of the Elections Division. The Elections Division reports that ensuring compliance with the Texas Election Code has grown more challenging and believes a dedicated staff member is necessary to effectively coordinate with the Travis County Attorney’s Office (CA) and the Texas Secretary of State (SOS), gain adequate understanding of new laws’ potential and observed impacts on Elections operations, and retain that institutional knowledge in a central point of contact for the division.

The requested position would be responsible for tracking bill progression during legislative sessions, coordinating with the CA and SOS to determine legal requirements, collaborating with Election Division staff members to determine impact on operations, managing document workflow and process changes, implementing necessary changes, and complying with new mandates. While the legislature only convenes every two years, the Office proposes that this position would also track relevant legal judgements and lawsuits, SOS advisories, and Senate Bill 1 county election audits.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Hours spent monitoring elections activities for compliance 50%	N/A	N/A	N/A	N/A	1,040	1,040
Hours spent reviewing internal audits 15%	N/A	N/A	N/A	N/A	312	312
Hours spent coordinating implementation of new procedures 25%	N/A	N/A	N/A	N/A	520	520
Hours spent coordinating with County Attorney and Secretary of State 5%	N/A	N/A	N/A	N/A	104	104
Hours spent in legislative review 5%	N/A	N/A	N/A	N/A	104	104

PBO RECOMMENDATION

PBO recommends \$97,976, including \$92,436 in one-time personnel, \$2,600 in one-time operating and \$2,940 in one-time centrally budgeted resources for computer and phone equipment related to the creation of a Planner Sr Special Project Worker position (1.0 SPW) for a period of two fiscal years to serve as a subject matter expert and coordinate statutory and regulatory compliance efforts across the Elections Division of the County Clerk’s Office be included in the FY 2025 Preliminary Budget.

PBO assumes many of the proposed responsibilities, notably those related to legislative analysis, are currently performed by existing staff as needed in a decentralized manner like other departments within the County who perform these operations in conjunction with the General Administration Division. However, increased interest in and frequency of legislative changes for elections raised levels of scrutiny for these mandated operations in recent years, and the Elections Division has increased workloads related to interpreting the evolving guidance and maintaining regulatory compliance. Therefore, PBO concurs the creation of the requested Planner Sr SPW as a central point of contact and subject matter expert to coordinate these efforts across the multiple programs affected would be of immense value to the Elections Division and the County’s mandated charge to facilitate elections.

In addition, PBO notes the requested Planner Sr SPW would provide coordination support to several SPW positions supporting elections-related operations included in the FY 2024 Adopted Budget, including:

Elections Coordinator SPW – Position Number: 30066728

The FY 2024 Adopted Budget includes an Elections Coordinator SPW (1.0 SPW) approved for a two-year duration to ensure compliance with State regulations regarding elections and the Risk-limiting Audit (RLA) program in conjunction with the Texas

Secretary of State. PBO recommended this SPW for two fiscal years to ensure sufficient staffing for the continued development of the County's mandated RLA Program through FY 2026.

Ballot by Mail (BBM) Support SPWs – (30065255 and 30065256):

The FY 2024 Adopted Budget includes one-time resources for the second year of one Election Coordinator Sr. SPW (1.0 SPW) to assist with increased Ballot by Mail usage, and one Elections Coordinator SPW (1.0 SPW) to help identify new polling locations in compliance with DOJ standards, approved for a two-year period in the FY 2023 Adopted Budget. These funds continue support for Ballot by Mail and BBM Site operations in the County Clerk's Office Elections Division and represent the final year of the two fiscal year period approved in the FY 2023 Adopted Budget. These positions are also currently recommended to continue for two additional fiscal years, through FY 2026.

ADA Compliance SPWs – (30063809, 30063810, 30063811, and 30063812):

The FY 2024 Adopted Budget includes one-time resources to continue these four SPWs, as approved by Commissioners Court, so that the Office may continue its assessment of polling locations for ADA compliance. FY 2024 represents the final year for the four SPW positions as approved by Commissioners Court on January 18th, 2022. These positions are also currently recommended to continue for two additional fiscal years, through FY 2026.

Lastly, PBO recommends this position as an SPW to allow for portions of the positions' work hours to be included in cost recovery efforts related to contract elections and is coordinating with the County Clerk's Office to revise the Office's revenue estimates related to the Elections Contract Fund (0128) relative to the anticipated work hours for this position to be billed to contract elections in FY 2025.

REQUEST 08: ELECTIONS OFFICE MANAGER SR SPW (1.0 SPW) – TWO-YEAR DURATION

<i>Program:</i>	Elections Division (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 100,476	\$ 100,476	\$ 95,036	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk requests one-time personnel resources related to the creation of one Office Manager Sr Special Project Worker (SPW 1.0) for two fiscal years to coordinate general administrative tasks in the Elections Division. The proposed primary duties for this position would serve as the purchasing and vendor liaison, as well as the main point of contact for security, facility, and training needs for the Elections Division headquarters and all Early Voting and Election Day sites.

The Office notes creating the Office Manager Sr. role within the Travis County Elections Division is crucial to addressing purchasing needs and the heightened security challenges facing elections. By investing in a specialized position for those needs, the Elections Division can uphold the integrity of the electoral process and ensure the well-being of the Division’s personnel and the security of its facilities. This position would provide vital support for the daily operations of the Elections Division and a portion of their salary can be billed to the contracting entities.

DEPT. SUMMARY OF REQUEST

The County Clerk requests one-time resources for the creation of an Elections Coordinator Special Project Worker (1.0 SPW) for a requested duration of two fiscal years to provide vital support to the daily operations of the Ballot by Mail department within the Elections Division to facilitate the increase of Ballot-by-Mail requests.

The Office notes that, due to Senate Bill 1 and House Bill 5180, the Ballot-by-Mail workload has become more challenging for existing staff. Processing Ballot-by-Mail applications and returned ballot reviews requires significantly more time per instance as legislative rules have created more avenues for application/ballot defects requiring the production of new mail notices, increased phone and email contact of affected voters, voter follow-up, as well as new and complex workflows for tracking the status of defective applications/ballots and system updates to properly reflect voter ballot status. Furthermore, HB 5180 mandates that all ballot images undergo visual inspection to redact any personally identifiable information before being made available for public scrutiny, a meticulous process requiring extensive hours of review post-election.

The Elections Division reports the Ballot-byMail department has witnessed a substantial surge in Ballot-by-Mail requests based on high-turnout elections and increased numbers of registered voters in Travis County over several years. The Division asserts these trends require additional staff to sufficiently handle tasks such as processing applications, mailing out ballots to eligible voters, receiving and processing returned ballots, and providing customer support both over the phone and in person or via email. The Ballot-by Mail-division is expecting large work spikes in FY 2025 due to the 2024 Presidential Election. Due to the highly sensitive, critical, and publicly transparent nature of these tasks, as well as the need for a continuously growing base of experience, the Office does not believe a seasonal temporary employee would be suitable.

Other elections held	49	45	55	54	54	50

PBO RECOMMENDATION

PBO recommends \$82,353, including \$76,813 in one-time personnel, \$2,600 in one-time operating and \$2,940 in one-time CAR resources related to computer and phone equipment for the creation of an Elections Coordinator Special Project Worker (1.0 SPW) for a duration of two fiscal years to address anticipated workload increases for the Ballot by Mail team within the Elections Division. PBO recommends this position as an SPW to allow for portions of the positions’ work hours to be included in cost recovery efforts related to contract elections and is coordinating with the County Clerk’s Office to revise the Office’s revenue estimates related to the Elections Contract Fund (0128) relative to the anticipated work hours for this position to be billed to contract elections in FY 2025.

Currently, the County Clerk’s Office projects a significant 89 percent increase in the number of mail ballots to be received in FY 2025 (94,500) relative to projected totals for FY 2024 (50,000). In addition, heightened public scrutiny for issues of election integrity is driving new and/or renewed interest in ballot vetting processes. The Elections Division notes that it was required to facilitate hand-counting of Republican Ballots by Mail during recent 2024 Primary Cycle operations and notes that there could be calls to extend this process to Early Voting and Election Day ballots in the next primary cycle. The Office states that adding/expanding these hand-counting operations represents a significant challenge that would extend work hours and may require additional personnel capacity. In the event, the major political parties go forward with potential changes to primary election processes that would require the County Clerk’s Office to manage a bifurcated primary system between the two parties, which the Office notes would be unprecedented, workloads related to these Ballot-by-Mail operations could be further increased.

REQUEST 10: HMS CUBICLE UPDATE

<i>Program:</i>	General Administration (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 710,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk's Office requests one-time amounts of \$650,000 to update office furniture and \$60,000 to replace wiring to cubicles in the Heman Marion Sweatt (HMS) Courthouse to improve working conditions.

The County Clerk's Office reports that approximately 70 staff members are currently working at the HMS Courthouse facility, including the Misdemeanor and Records Management Division staff who continue to provide services to the public and the seven County Courts at Law that reside in the Blackwell-Thurmon Criminal Justice Complex. The Office notes that its spaces on the second floor of HMS have not been updated for decades. The current office furniture, purchased in the 1990s, is no longer functional - especially for collaborative teams - and the FMD Interior Designer can no longer acquire replacement parts for damaged cubicles.

While proposals for renovating HMS are ongoing, the Office asserts that updating cubicles and improving employees' daily experience would be of immense value and benefit its operations ahead of developments related to long-term plans for renovating the HMS. The County Clerk's Office also notes it actively collaborating with the ITS for costs associated with rewiring cubicles and Facilities Management Interior Designer to discuss current and future needs as well as estimated costs. So far, with the Interior Designer's help, the Office has identified cubicle styles that would allow for more collaborative teams and help mitigate the lack of office space until the larger renovations begin for the HMS. Lastly, the Office states that the proposed furniture could be repurposed to other County departments following the HMS renovation.

BUDGET REQUEST PERFORMANCE MEASURES

The County Clerk's Office did not submit performance measures related to this request.

PBO RECOMMENDATION

PBO recognizes the value in improving working conditions for County Clerk's Office staff at an aging County facility until the HMS renovation is complete. However, there are many outstanding questions that need to be resolved regarding these proposed improvements at HMS before PBO can consider funding the request. Currently this request is being considered as

a capital request and is under further consideration within the other countywide capital priorities through the Facilities Management Department (FMD).

In the meantime, PBO recommends that the Office continue to work on this request alongside the County's comprehensive facility plan, FMD, ITS, Purchasing and EDSI to verify cost estimates and gauge the feasibility of utilizing existing resources that may be available to support these efforts.

REQUEST 12: MISDEMEANOR RECORDS COURT CLERK I SPWS TO FTE (4.0 SPWS - YEAR 1 OF 2)

DEPT. SUMMARY OF REQUEST

The County Clerk's Office is requesting ongoing resources related to the conversion of four Court Clerk I SPWs (4.0 SPWs) approved in the FY 2023 Adopted Budget for two fiscal years in the Misdemeanor Records Division. The Office is requesting these four Court Clerk I SPWs be converted to permanent FTEs to maintain provided support for court proceedings and process all related court documents for the seven County Courts at Law. This would increase the County Clerk's Office FTE count by 4.0 FTE.

In March 2019, all the Misdemeanor Courts halted in-person proceedings and virtually switched to dockets one day a week. By January 2022, the Courts switched to a hybrid model of handling virtual and in-person dockets. The move to hybrid services added virtual work assignments for the County Clerk's Office, which created additional Court Clerk capacity to ensure that all County Courts at Law were fully staffed and provided backup coverage in case of illness, vacation, or other life events. In FY 2023 Commissioners Court approved reclassifying four permanent positions from Court Clerk I to Court Clerk II and the creation of four Court Clerk I Special Project Worker positions for two fiscal years in the Misdemeanor Division to provide support for both virtual and in-person proceedings for the seven County Courts at Law.

The Office requests the four Court Clerk I Special Project Worker positions be converted to full FTEs (4.0 FTE) to continue to support court proceedings and processes related to the seven County Courts at Law, as well as to support ongoing workloads related to redactions of personally identifiable information for online records as required by Texas Rules of Civil Procedure 21c.

<i>New Measures</i>						
Redactions	233,797	274,427	225,000	225,000	225,000	225,000

PBO RECOMMENDATION

PBO recommends that \$291,564 in additional one-time personnel resources related to the continuation of four Court Clerk I Special Project Workers (4.0 SPWs) in the Misdemeanor Records Division for two additional fiscal years be included in the FY 2025 Preliminary Budget to support rising workloads related to document redaction, court proceedings, and processes assisting the seven County Courts at Law.

During the FY 2024 Budget Process, when these positions were confirmed for the second and final year of the initially approved duration, PBO noted that the four positions remained vacant as of May 17, 2023. The Office had related the delay in hiring was due to spacing issues and the Civil Division’s relocation into the new County Family Courthouse Facility (CFCF) would allow the Division sufficient room to begin filling the positions. The table below details the four SPW positions requested for conversion to full FTE, including position number, title, vacancy/hiring status, and estimated annual salary costs as of May 20, 2024.

Misdemeanor Records Court Clerk I SPWs – Position Detail Report – 2024-05-20						
Position No.	Position Title	Position Vacant	Vacant Date	Hire Date	Days Vacant	Cost Center Salary
30065250	Court Clerk I	No		3/5/2024	0	\$47,276
30065251	Court Clerk I	Yes	10/1/2022		597	47,276
30065252	Court Clerk I	Yes	10/1/2022		597	47,276
30065253	Court Clerk I	Yes	10/1/2022		597	47,276
Grand Total					Average Days Vacant: 448	\$189,104

Based on the data above, three of the positions requested now for conversion to full FTE remain vacant, with the only filled position demonstrating a hire date of March 5, 2024. The average days vacant across all positions is more than a fiscal year, 448 days vacant on average. The Office notes that it has experienced continued difficulties in hiring for these positions due to their temporary status as SPWs and that conversion to full FTE would benefit the effort to fill them. However, due to the limited availability of ongoing resources for reasonable but non-mandated expansions of existing programs, PBO must place added scrutiny on requests for additional ongoing resources. With the data provided, it is not clear whether the continuation of these Misdemeanor Records Division Court Clerk I SPWs demonstrates an immediate, critical, or statutorily mandated need that requires these positions to be filled to justify recommending additional ongoing resources for the conversion of historically majority vacant SPWs into full FTEs.

However, as of June 26, 2024, the County Clerk's Office has identified additional candidates to fill two vacant positions with new hires starting July 15, 2024, for both new employees. Based on the Office's stated continued need for the additional support these Court Clerk I SPWs provide, as well as the recently reported progress on hiring efforts, PBO recommends continuing these positions on a one-time basis as SPWs for two additional years.

REQUEST 13: CIVIL DIVISION COURT CLERK II'S (2.0 FTES)

<i>Program:</i>	Civil/Collections Team (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Dpt Total + Earmarks	\$ 164,696	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests ongoing resources related to the creation of two Court Clerk II positions (2.0 FTEs) for the Civil Division. The Office reports significant increases in workload and additional duties such as redaction, OCA reporting, and quality control to review document processing are driving additional personnel capacity to support rising workloads in the Civil Division. This would increase the County Clerk’s FTE count by 2.0 FTE.

PBO RECOMMENDATION

PBO does not recommend ongoing resources for the creation of two additional Court Clerk II (2.0 FTE) positions to address projected workload increases in the Civil Division be included in the FY 2025 Preliminary Budget.

PBO acknowledges the County Clerk’s Office Civil Division is currently observing a notable increase across key operations affecting workloads for existing staff. The table below presents a brief analysis of anticipated rates of change for existing performance measures submitted by the Office related to this request.

Budget Request Performance Measures - Percent Change Analysis										
Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	% Diff FY 2022 to FY 2023	Revised FY 2024 Measure	% Diff FY 2023 to FY 2024 Projected	Projected FY 2025 Measure at Base Level	% Diff FY 2024 Projected to FY 2025 Projected	Projected FY 2025 Measure with Added Funding	% Diff FY 2024 Projected to FY 2025 Projected w/ Added Funding	Projected FY 2026 Measure with Added Funding

Bond Forfeiture Cases Filed	214	414	93.5%	1,128	172.5%	1,130	0.2%	2,188	94.0%	
Protective Order Cases Filed	275	324	17.8%	444	37.0%	450	1.4%	524	18.0%	
Average			85.3%		31.7%		4.5%		85.5%	

Based on the data above, from FY 2022 to FY 2023, the Division reports an increase across key performance measures included in this request. In addition, the Office anticipates these indicators will further rise an through the remainder of FY 2024, before leveling off in FY 2025 based on the Divisions estimated measures within existing resources.

While this request would provide additional personnel capacity to address observed and projected workload increases in the Civil Division, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget, due to very limited resources. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as PBO knows them.

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests ongoing resources related to creating three additional Court Clerk I positions (3.0 FTE) in the Probate/Mental Health Division. The Office notes that this request would enhance customer service needs and decrease process inefficiencies by creating new positions as well as aid in processing the increased workload with the addition of the new Probate Court #2, that the requested positions are necessary to provide effective and quality public service to the Probate Courts and growing dockets and customers, and that the purpose of this request is to augment the staffing necessary to enhance the current level of service in the Probate Courthouse and the Travis County Clerk’s Office as well as create a succession path for incoming clerks. This would increase the County Clerk’s FTE count by 3.0 FTE.

The Office notes that, historically, the Probate Clerk’s Office handled the workload of one Statutory Probate Court with 10 Court Clerk II positions and one Office Assistant at a time when filings were on paper, the population of Travis County was much smaller, and the needs of the Probate Court were limited. With the newly implemented case management system and changes from the 2019, 2021, and 2023 Legislative years, the Probate Division reports that it has been working with new and continuously changing business processes and duties that have resulted in increased responsibilities for current staff. Adding to these trends, the Division has observed increased workloads from the Probate Court due to the creation of a second probate court, Probate Court No. 2, effective October 1, 2023.

PBO RECOMMENDATION

During the FY 2024 Budget Process, the County Clerk’s Office submitted a request for additional personnel to staff the second Probate Court pending final approval by the 88th Texas Legislature. This request was addressed holistically within the context of all County department stakeholders involved with the proposed expansion of the Probate Courts. The centralized FY 2024 Preliminary Budget recommendation for resource requests related to the creation of a second probate court is included below for reference:

House Bill (HB) 3474 Section 2.018 is noted below:

Section 2.018. (a) Effective October 1, 2023, Section 25.2291(c), Government Code, is amended to read as follows:

(c) Travis County has the following [one] statutory probate courts:

(1) ~~court, the~~ Probate Court No.1 of Travis County; and

(2) Probate Court No.2 of Travis County.

(b) The Probate Court No.2 of Travis County is created on October 1, 2023.

Probate Court states that, “the Probate Court has come to the realization that its continued attempts at finding efficiencies with its current structure is being outpaced by the continuing increase in case filings and hearing requests” and “After wringing out as many efficiencies as possible these past five years, the Probate Court is seeking the creation of a second probate court in Travis County.” The Probate Court notes they have continued to experience substantial increases in case filings, and it is becoming more difficult to keep up with this workload with the existing court and staff. The request for hearings has also increased significantly; however, limited staffing has hindered the court’s ability to increase the number of hearings on the court’s docket. Travis County also has a growing population of residents aged 65 and older, which are more prone to be involved with probate matters and the utilization of probate court services.

The following table shows the cost summary for a second statutory probate court for the Probate Courts, the County Clerk’s Office, Information Technology Services (ITS), the Facilities Management Department (FMD), and Justice Planning’s Law Library.

<i>Recommendation Summary for Second Probate Court</i>				
<i>Department/Office</i>	<i>Ongoing Personnel/Operating</i>	<i>One-time Operating/Capital</i>	<i>Total</i>	<i>FTEs</i>

<i>Department/Office</i>	<i>Ongoing Personnel/Operating</i>	<i>One-time Operating/Capital</i>	<i>Total</i>	<i>FTEs</i>
Justice Planning – Law Library	\$4,270	0	4,270	0.00
Total	\$1,182,295	\$382,580	\$1,564,875	9.00

The FY 2024 Preliminary Budget includes \$1,564,875 for the new Probate Court consisting of \$1,182,295 of ongoing funds and \$382,580 of one-time funds and also includes the addition of 9.0 FTEs.

Included in the number for the Probate Court is \$854,289 for ongoing personnel and operating needs to fund a Probate Judge, a Court Reporter, a Court Operations Officer, a Financial Analyst Lead, an Attorney V, resources for temporary employee and court related operating costs. One-time resources totaling \$300,00 are recommended to purchase furniture. These funds total \$1,154,289.

Included in the number for the County Clerk’s Office is \$305,736 for ongoing personnel and operating needs to fund four Court Clerk II’s and software and office supplies for these FTEs. One-time resources totaling \$5,700 are recommended for computer equipment and peripherals. These funds total \$311,436.

Included in the number for ITS is \$76,880 for one-time operating and capital costs for electrical equipment, laptops, computers and printers for the new FTEs.

Included in the number for FMD is \$18,000 related to utility increases for the second Probate Court. FMD does not anticipate a need for additional custodial staff due to the second court being located in the same building as the current court.

Included in the number for Justice Planning’s Law Library is \$4,270 for ongoing operating funds to purchase legal database access, law books and legal research materials.

Travis County Sheriff’s Office (TCSO) does not anticipate a need for additional security at this time.

Given that the effective date is October 1, 2023, PBO will work with the Probate Court and the County Clerk’s Office to see if there is a desire to post the positions towards the end of FY 2023 so that the recruitment process can begin for these positions as soon as possible so that they may be hired on or soon after October 1, 2023.

When the County Clerk’s Office submitted its request for staffing to support a second probate court during the FY 2024 Budget Process, it noted that it was difficult to accurately quantify how much the additional court would drive near-term workload increases for the Probate/Mental Health Division until the new court was fully implemented. Considering this potential implementation delay, the Office’s initial ask was for four Court Clerk II positions (4.0 FTE) and noted that there may be subsequent staffing requests made in future fiscal years as the Division experiences the full weight of workloads driven by two fully operative Probate Courts. This request represents the first of these subsequent requests for additional staffing.

The FY 2024 Adopted Budget includes resources related to four additional Court Clerk II positions (4.0 FTE) to address staffing needs related to the creation of the additional Probate Court. This brought the total number of staff supporting the Probate Courts in the County Clerk’s Probate Division to 17.0 FTEs.

However, PBO does not have sufficient data at this time to gauge how the implementation of a second Probate Court since its formal creation on October 1, 2023, will affect workloads for supporting County department personnel on an ongoing basis. PBO recommends that the County Clerk continue to observe the impact of the recent court expansion and, if necessary, resubmit this request during the FY 2026 Budget Process to reevaluate potential staffing needs relative to updated data.

REQUEST 16: RECLASS AND TRANSFER OF GF RECORDING SPECIALIST I TO SF PLANNER SR

<i>Program:</i>	Recording Division (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	(72,891)	-	-	-
Operating	-	-	-	-
Subtotal	\$ (72,891)	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ (72,891)	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ (72,891)	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office is requesting the transfer of a General Fund FTE to be split funded with the use of additional ongoing resources in the Archival Fund (0004) and Records Management Fund (0108) to fund a reclassification of position 30001045 from a Recording Specialist I (paygrade C05) job title to a Planner Sr. (paygrade C13) for the Records Team which consists of the Recording Division and the Records Management Division. The Office notes that the position in this proposed new role would serve to review and analyze reports for error corrections, quality control, and staff performance, with additional duties including process mapping, workflow development, and assistance with the implementation and maintenance of new division-wide systems, such as GovOS and an enterprise records management program.

The County Clerk’s Office states that its division directors or supervisory staff historically were responsible for process mapping, managing workflows, reviewing and analyzing reports. However, the Office notes that over time its managers have been pulled in so many directions they are not able to focus on managerial tasks such as strategic planning, managing personnel, advising mid-level managers, building a positive atmosphere, and working with external partners to solve problems through collaboration. Without a dedicated person to fulfill the Planner Sr. functions, the Office asserts many of the important managerial duties for the Records Team would go by the wayside for more immediate needs such as making sure a system is reporting correctly. Therefore, the Office believes that this reclassification will help the Records Team build a strong organization that can withstand normal turnover, help employees grow professionally, manage change, and be equipped to build more efficient processes.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of projects managing	N/A	N/A	N/A	N/A	4	4
Hours spent on projects	N/A	N/A	N/A	N/A	40	40

Hours spent on research	N/A	N/A	N/A	N/A	35	35
Hours spent training staff	N/A	N/A	N/A	N/A	40	40
Hours spent tracking legislative changes	N/A	N/A	N/A	N/A	30	30

PBO RECOMMENDATION

PBO does not recommend additional resources related to the proposed transfer of position number 30001045 from the General Fund to be split funded evenly between the Archival Fund (0004) and Records Management and Preservation Fund (0108) and reclassification from a Recording Specialist I to a Planner Sr.

Based on the Auditor’s Office third revenue estimate for FY 2025, the Archival Fund (0004) is projected to have \$1,769,830 in ongoing revenue relative to \$1,373,923 in estimated ongoing expenditures. Meanwhile, the Records Management and Preservation Fund (0108) is projected to have \$1,901,566 in ongoing revenue relative to \$2,957,419 in estimated ongoing expenditures.

PBO estimates the cost to transfer, reclassify and split fund position number 30001045 between the Archival (0004) and Records Management (0108) Funds would be \$92,436 with benefits. This amount would not be an incremental increase as transferring this position from the General Fund to the Special Funds would require the whole cost to be absorbed by the special funds on an ongoing basis. This would require approximately \$46,218 in additional ongoing personnel expenditures for both the Archival Fund (0004) and Records Management Fund (0108), totaling \$92,436 across both funds, and would increase each fund’s FTE count by 0.5 FTE respectively while reducing the County Clerk’s Office General Fund FTE count by 1.0 FTE. Based on the Auditor’s Office third revenue estimate for FY 2025, the Records Management and Preservation Fund (0108) will not have sufficient ongoing revenues to absorb the additional ongoing costs associated with transferring position 30001045 from the GF to Funds 0004 and 0108 without further increasing the spend down rate of the Records Management Fund (0108).

PBO also notes that transferring this position to the requested special funds would likely result in a budget reduction of \$72,891 in ongoing personnel resources for the salary and associated benefits related to position number 30001045 in the County Clerk’s Office General Fund budget.

REQUEST 18: RECLASS COURT SERVICES MGMT ADMIN COORD TO RECORDS ANALYST SUPERVISOR

<i>Program:</i>	Recording Division (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 5,721	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office Recording Division requests additional ongoing personnel resources to reclassify position 30001031 from a Court Services Management Administrative Coordinator (PG C10) job title to a Records Analyst Supervisor (PG C12) position to reflect the position’s job duties and requirements more accurately.

The Recording Division notes it is currently providing services at two locations, 5501 Airport Blvd and the Civil Family Courthouse downtown. With multiple locations, the Office observes a need for an additional supervisor to manage the staff members at both locations. The County Clerk’s Office believes that position 30001031 can fill this role under the Records Analyst Supervisor title which the Office asserts is the more appropriate title for this scope of responsibility.

This reclassified position would be responsible for managing and leading office operations and staffing at the Recording Division’s two locations, ensuring compliance with regulations and internal policies, facilitating access to information as needed, quality control, and providing guidance and support to staff. Additionally, this role would assist the Director by liaising between internal staff, county departments, city, state agencies, and vendors. The Office asserts that creating a senior supervisory role to manage, guide, direct, and support the newer supervisors will provide additional support for those growing in their supervisory skills. The goal of this structure is to ensure efficient and effective daily operations, as well as oversee the organization and maintenance of physical and electronic records.

BUDGET REQUEST PERFORMANCE MEASURES

PBO RECOMMENDATION

PBO does not recommend additional ongoing personnel resources to reclassify position 30001031 from a Court Services Management Administrative Coordinator (paygrade C10) to a Records Analyst Supervisor (paygrade 12) be included in the FY 2025 Preliminary Budget. As a general practice, PBO does not fund ad hoc reclassification requests, but asks Offices to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

PBO recommends the Office work with HRMD to evaluate whether the proposed job responsibilities and current experience of the Court Services Management Administrative Coordinator justify a reclassification to Records Analyst Supervisor. If HRMD concurs with the County Clerk’s Office that this reclassification is justified, PBO will work with the County Clerk’s Office to verify available internal resources for this reclassification should the Office prioritize this request.

REQUEST 19: RECLASS ASSISTANT CHIEF DEPUTY TO CHIEF DEPUTY – TWO POSITIONS

<i>Program:</i>	Probate/Mental Health/Comm Court (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 26,475	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk requests additional ongoing personnel resources in the general fund and the use of additional ongoing personnel resources in the Records Management (0108) fund to reclassify two positions (30000998 and 30062458) from County Clerk Assistant Chief Deputy (paygrade C20) to County Clerk Chief Deputy (paygrade C22). The Office asserts that these reclassifications are needed to improve the County Clerk organizational structure and divide high level management duties across multiple roles.

The Office intends to transition operations that have historically been managed through a more vertical organizational structure to a more “pyramid structure” through the utilization of a Senior Leadership Team to advise the County Clerk in the place of the former single point of contact provided by the current County Clerk Chief Deputy position. The Office notes that its historical reliance on a single point-of-contact Chief Deputy position under the County Clerk contributed to a bottleneck in operations, a high-stress workload for the single Chief Deputy position, and consistent turnover in the position, which added strain to existing operations.

The Office asserts this requested reclass will help foster a more resilient leadership structure that can better withstand turnover, while also providing additional oversight capacity for each division. The County Clerk’s Office believes that dividing top-level management functions between multiple people in this manner, as opposed to continuing to rely on a single point of contact, will promote better work-life balance and lay the groundwork for a stronger foundation for the future of the Office.

BUDGET REQUEST PERFORMANCE MEASURES

The County Clerk’s Office did not submit performance measures related to this request.

PBO RECOMMENDATION

PBO does not recommend additional funding to reclassify position numbers 30000998 and 30062458 from County Clerk Assistant Chief Deputies to County Clerk Chief Deputies be included in the FY 2025 Preliminary Budget. As a general practice,

PBO does not fund ad hoc reclassification requests, but asks Offices to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

PBO recommends the Office work with HRMD to evaluate whether proposed job responsibilities and the current experience of the two County Clerk Assistant Chief Deputies justify a reclassification to County Clerk Chief Deputies. If HRMD concurs with the County Clerk's Office that these reclassifications are justified, PBO will work with the County Clerk's Office to verify available internal resources for this reclassification should the Office prioritize this request.

Additionally, it appears that the County Clerk's Office is also proposing to split fund position number: 30062458 evenly across both the Records Management Fund (0108) and Archival Fund (0004). As of budget submission for FY 2025, the County Clerk's Office proposed position list has position number 30062458 fully funded within the Records Management Fund (0108). PBO estimates the additional ongoing cost related to split funding the requested position at 50 percent in the Archival Fund (0004) based on the allocated salary amount listed in the Office's FY 2025 Budget Submission workbook to be \$112,477 with benefits with the requested reclassification. If approved, this would decrease the Records Management Fund's FTE count by 0.5 FTE and increase the Archival Fund's FTE count by 0.5.

REQUEST 20: RECLASS CSA OR CSA SR TO CUSTOMER SUPPORT SUPERVISOR

<i>Program:</i>	Administration - Computer Resources (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Operating	-	-	-	-
Subtotal	\$ 18,802	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 18,802	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 18,802	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests additional ongoing personnel resources to reclass an existing Customer Support Analyst (CSA) or CSA Sr. (paygrade C10 / C14) position in the Information Technology Division to a Customer Support Supervisor (CSS Supervisor) role (paygrade C16). The Office notes this will provide for focused supervision of the three CSA positions in the County Clerk’s IT division which is now servicing four locations around the County.

The County Clerk’s Office IT division’s organizational chart has 11 staff members reporting to the IT Division Manager. The Office reports challenges with managing projects and supervising the daily work of the CSA staff members due to the lack of supervisory staff. There are currently three CSAs and one CSA Sr., so each of the four locations has the necessary IT support. However, the job descriptions for CSA and CSA Sr. do not include supervisory duties.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Number of Information Technology projects in progress	22	24	22	24	30	30

PBO RECOMMENDATION

PBO does not recommend additional funding to reclassify a hitherto unspecified Customer Support Analyst (CSA) or Customer Support Analyst Sr (CSA Sr) position within the Information Technology Division to a Customer Support Supervisor be included in the FY 2025 Preliminary Budget. As a general practice, PBO does not fund ad hoc reclassification requests, but asks Offices

to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

PBO recommends the Office work with HRMD to evaluate whether proposed job responsibilities and the current experience of the four potential CSA/CSA Sr positions justify a reclassification to Customer Support Supervisor. If HRMD concurs with the County Clerk's Office that the proposed reclassification is justified, PBO will work with the County Clerk's Office to verify available internal resources for this reclassification should the Office prioritize this request.

Additionally, this proposed reclass may have cost implications beyond the General Fund depending on which position number the County Clerk's Office would select for the reclass. Three out of the four positions (30000982, 30050073, and 30066655) are partially split funded out of the Records Management Fund (0108), with the majority of the cost center distribution for these positions remaining in the General Fund.

REQUEST 21: RECORDING DIVISION EXPANSION TO MULTIPLE LOCATIONS

<i>Program:</i>	Recording Division (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,142,313	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk's Office requests additional personnel and operating resources to create twelve additional positions (12.0 FTE) for a proposed location expansion for the Records Division. The Office asserts this proposed expansion is necessary to best serve the expanding Travis County community and create access to services that are currently only rendered at 5501 Airport and the Civil/Family Courthouse (CFCH). This request includes four Court Service Management Admin Coordinators positions (4.0 FTE), four Recording Specialist Sr positions (4.0 FTE), four Recording Specialist I positions (4.0 FTE) and associated operating expenses to expand the Recording Division into four additional locations. This is a recurring request first submitted during the FY 2024 Budget Process.

The Office states these proposed expanded locations will allow greater access to services, providing substantial convenience to all customers, but especially those living outside of central Austin. The additional recording locations are proposed to be located on local bus routes and would provide reduced drive times to customers in the four precincts. This initiative would expand to areas with fewer public transportation options and offer a resource for those neighborhoods and communities.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
Emails received and handled by Staff	11,240	15,922	5,500	5,590	5,600	5,700

PBO RECOMMENDATION

PBO does not recommend additional funding for the Recording Division to expand its services across four new geographic locations be included in the FY 2025 Preliminary Budget.

Travis County General Fund's ongoing funding has been very limited since the passing of SB 2 and the prioritization of the Counsel at First Appearance (CAFA) initiative for investment this fiscal year following legal action by the ACLU. Based on currently known available revenue, PBO does not recommend this discretionary expansion of existing programs as a priority for any additional available ongoing resources. Typically, additional revenue is available for Budget Markup in early September compared to what is available in late July for the Preliminary Budget. However, based on discussions with the Travis County Appraisal District (TCAD) and the Revenue Estimation Unit within the County Auditor's Office, it is likely that there will not be significant additional revenues beyond those within the FY 2025 Preliminary Budget. However, PBO will continue to work with the County Clerk's Office to identify the full scope of this proposed program expansion in relation to available facilities and resources relative to the observed demand for expanded access to the Recording Division's services.

The County Clerk's Recording Division provides vital services to the community, many of which are statutorily required to be conducted in-person, for example, the issuing of marriage licenses. In addition, citizens needing certified copies of public records often need those records same day, including DD-214's for veterans, domestic partnerships for insurance purposes, and marital status searches for individuals needing residential requirements to the US Embassy. The Office notes that these services are currently centralized within one location, 5501 Airport Boulevard and that current demographic trends demonstrate a rapidly growing population across a wide geographic area, increasing overall demand for these services.

PBO acknowledges creating additional service sites across Travis County's four precincts would allow for greater access to vital County Clerk services for a county witnessing record growth throughout all corners of the region. However, this request represents a significant expansion of service with significant cost implications beyond the information provided along with this request. To date, this request does not list specific sites/locations for the proposed four-site expansion. PBO recommends the County Clerk's Office coordinate with TNR, FMD, and EDSI's Planning Team to identify possible locations suitable to house this proposed expansion, or, lacking available facilities, what other resources or acquisitions may be required to fulfill this envisioned program expansion. PBO will continue to work with the Office to determine the feasibility of this expansion within existing resources available, and/or to determine a full costing estimate of expanding these services to additional locations if suitable existing County facilities are not available at the desired locations.

PBO notes that, in prior fiscal years, the County Clerk's Office explored implementation of a pilot program related to this request using existing resources to create two additional satellite offices in Precincts 1 and 4 to gauge outcomes and feasibility for future expansions into the remaining precincts at locations yet to be determined.

REQUEST 22: RECORDING MOBILE UNIT

<i>Program:</i>	Recording Division (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	116,000	-	-	-
Subtotal	\$ 116,000	\$ -	\$ -	\$ -

Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 616,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk is requesting additional funding related to the creation of a Recording Division Mobile Unit. The Office states that the Recording Division is dedicated to expanding its customer service by providing convenience to constituents and customers in all areas of Travis County, and this Mobile Unit would best serve all areas of the community, particularly those who may not have easy access to the two Recording locations at Airport Boulevard and the Civil/Family Courthouse. This is a recurring request first submitted during the FY 2024 Budget Process.

This request includes \$15,000 in ongoing operating resources for fuel and cellular time usage, \$101,000 in one-time operating resources for hardware and computer equipment, and \$500,000 in capital resources for vehicles related to this proposed Recording Division Mobile Unit.

The proposed Recording Division Mobile Unit program would be staffed with existing personnel to record the number of customers serviced and the types of business conducted in each area/location. The Office anticipates that, within the first 6 months of deployment, the Division will use this data to determine the geographic distribution of community needs for these services, adjust service based on the highest need for mobile unit services, and decide whether additional days should be added to a specific area of the community on a weekly or monthly basis.

The Office notes that Bexar County Clerk’s Office started a similar program and has seen an increase in recordings and copy requests from the public. Recordings increased by 30 percent in Bexar County for areas that were underserved for both business recordings and marriage licenses. The County Clerk’s Office expects to see similar increases with implementing a Recording Mobile Unit. As a comparison, within the first three months of implementation, Bexar County saw an increase of real estate recordings in the mobile unit by 6 percent and 15 percent within the first year. The issuance of Marriage Licenses also increased in the mobile unit by 8 percent and 15 percent during this same time frame. An increase in recordings, copy requests, and marriage licenses issued may result in an increase in revenues generated by the County Clerk’s Office. Lastly, the Office asserts that this request stands to increase efficiency, improve operations, and overcome obstacles facing county government by making services more accessible to Travis County customers.

BUDGET REQUEST PERFORMANCE MEASURES

PBO RECOMMENDATION

PBO does not recommend funding for the creation of a Mobile Records Unit be included in the Recording Division’s FY 2025 Preliminary Budget. Given the limited availability of resources accessible for discretionary expansions of existing programs, PBO recommends focusing on staffing needs related to mandated elections operations. However, PBO will continue to work with the County Clerk’s Office to review Bexar County’s comparable mobile records unit program for future consideration and/or identify any available existing resources for this need should the Office choose to prioritize this request.

PBO acknowledges this request has intuitive merit and that expanding the support services provided by the Recording Division across multiple service locations flexibly based on data-driven prioritization of Travis County service needs would be a significant value for the County. Given ample available funding, PBO might recommend this request. However, due to the limited availability of resources for reasonable but non-mandated expansions of existing programs, PBO must place added scrutiny on requests for additional resources. With the data provided it is not clear whether the Recording Division demonstrates an immediate, critical, or statutorily mandated need for this program expansion.

The Office notes Bexar County has implemented a similar program for its County Clerk’s Office in 2021 and is experiencing positive results. PBO would welcome the opportunity to review Bexar County’s program and determine best practices for implementing a mobile Recording Division unit in Travis County. The Office also insists that it can utilize existing personnel to

staff this new unit and that providing a separate services unit will provide the County additional capacity to carry out key government services in future major events - akin to the COVID-19 pandemic or severe weather events - which cause the County Clerk's Office central location on Airport Boulevard to be shut down. PBO appreciates the Office's willingness to seek a cost-effective implementation of this expansion using existing staff, as well as the Office's foresight to focus on the need for improved resiliency for County services in the face of major disruptive events.

REQUEST 23: RECLASS COURT CLERK II SR TO COURT SERVICES MGMT ADMIN COORDINATOR

DEPT. SUMMARY OF REQUEST

The County Clerk requests additional ongoing personnel resources related to the proposed reclassification of position 30000968 from a Court Clerk II Sr (paygrade C08) to a Court Services Management Administrative Coordinator (paygrade C10) in the Probate/Mental Health Division.

The Office notes this request would enhance the Division's customer service and decrease process inefficiencies by creating a second departmental liaison/supervisor and fostering a senior-level contact for other County departments, as well as other Texas counties and other stakeholders. Additionally, the Office states that the purpose of this request is to augment the staffing necessary to maintain the current level of service in the Probate Courthouse and the Travis County Clerk's Office.

BUDGET REQUEST PERFORMANCE MEASURES

PBO RECOMMENDATION

PBO does not recommend additional ongoing personnel resources to reclassify position 30000968 from a Court Clerk II Sr to Court Services Management Administrative Coordinator be included in the FY 2025 Preliminary Budget. As a general practice, PBO does not fund ad hoc reclassification requests, but asks Offices to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

PBO recommends the Office work with HRMD to evaluate whether the proposed job responsibilities and current experience of the Court Clerk II Sr justify a reclassification to Court Services Management Administrative Coordinator. If HRMD concurs with the County Clerk’s Office that this reclassification is justified, PBO will work with the County Clerk’s Office to verify available internal resources for this reclassification should the Office prioritize this request.

REQUEST 24: RECLASS COURT CLERK I POSITION TO COURT CLERK II SR – MISDEMEANOR DIVISION

<i>Program:</i>	Misdemeanor Records Division (120)

PBO RECOMMENDATION

PBO does not recommend additional funding to reclassify positions 30000980, 30000983, and 30001010 from County Clerk I to Court Clerk II Sr be included in the FY 2025 Preliminary Budget. As a general practice, PBO does not fund ad hoc reclassification requests, but asks Offices to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

PBO recommends the Office work with HRMD to evaluate whether proposed job responsibilities and the current experience of the three Court Clerk I positions justify a reclassification to Court Clerk II Sr. If HRMD concurs with the County Clerk's Office that these reclassifications are justified, PBO will work with the County Clerk's Office to verify available internal resources for this reclassification should the Office prioritize this request.

PBO RECOMMENDATION

PBO does not recommend additional funding to reclassify two hitherto unspecified Court Clerk I positions to Court Clerk II Sr within the Civil Division be included in the FY 2025 Preliminary Budget. As a general practice, PBO does not fund ad hoc reclassification requests, but asks Offices to prioritize and fund salary increases associated with desired reclassifications internally when budget flexibility exists, or to work with HRMD to make sure the job is accurately placed according to recurring benchmark market studies.

PBO recommends the Office work with HRMD to evaluate whether proposed job responsibilities and the current experience of the Court Clerk I positions to be selected justify a reclassification to Court Clerk II Sr. If HRMD concurs with the County Clerk's Office that these reclassifications are justified, PBO will work with the County Clerk's Office to verify available internal resources for these reclassifications should the Office prioritize this request.

REQUEST 30: TRAVEL BUDGET ONE-TIME INCREASE

<i>Program:</i>	General Administration (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 32,235	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests one-time operating resources to fund anticipated in-person training and conferences in FY 2025.

In FY 2021, the County Clerk’s Office general fund travel & professional development rollup was reduced by \$35,563, based primarily on COVID-19 pandemic limitations to travel and in-person training/conferences. The County Clerk’s Office requests that the travel budget funds that were removed be granted for one time use in FY 2025. During Primary election years, it has been evident that training time is limited due to election priorities. This one-time funding will likely be requested every other year since there are more training demands during less heavy election years. This additional funding will be utilized to create the opportunity for staff to attend live trainings. Some planned trainings include online training subscriptions, annual membership and association fees, Society of Human Resources Management, Tyler Technologies Odyssey Conference, Election Certifications/Conferences, Texas Association of Counties, and International Association of Government Officials.

This funding request seeks to expand learning and engagement opportunities for County Clerk employees, which the Office states translates into better performance, better work processes and efficiencies, and increased overall collaboration, employee engagement, and satisfaction.

BUDGET REQUEST PERFORMANCE MEASURES

The County Clerk’s Office did not submit performance measures related to this request.

PBO RECOMMENDATION

PBO does not recommend additional operating resources related estimated travel costs for County Clerk staff in excess of the centralized 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget currently recommended for inclusion in the FY 2025 Preliminary Budget.

The table below depicts the General Fund Adopted Budgets and total encumbrances and actuals observed for the County Clerk’s Travel and Professional Development budget rollup from FY 2012 to FY 2024 (to date: May 13, 2024). This rollup

contains the following commitment items: Routine Mileage, Travel-Lodging Meals & Other, Travel Year End Accrual, Travel Mileage, Travel Encumbrance, Subscriptions and Publications, Registration Conferences/Seminars, Professional Membership, Professional Licenses, and In-house Training/Online Courses.

Total General Fund Travel & Professional Development Rollup County Clerk's Office - FY 2012 thru FY 2024													
Fiscal Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024*
Adopted Budget	25,824	25,824	36,274	43,174	43,174	45,974	46,274	76,974	77,124	41,561	44,961	42,811	44,635
Change from Prior FY (\$)		-	10,450	6,900	-	2,800	300	30,700	150	(35,563)	3,400	(2,150)	1,824
Total Encumbrances & Actuals	24,973	36,827	52,855	77,997	41,541	58,130	78,430	142,731	61,991	61,934	24,517	92,525	68,444
Adopted Remaining (%)	3%	-43%	-46%	-81%	4%	-26%	-69%	-85%	20%	-49%	45%	-116%	-53%

* To date actuals thru 5/13/2024

Based on the data above, the County Clerk’s Office utilized 37 percent more resources annually on average than provided in the Adopted Budget from FY 2012 through FY 2023. So far, in FY 2024, the Office has utilized 53 percent more than the amount approved in the FY 2024 Adopted Budget for Travel and Professional Development rollup commitment items, having spent or encumbered \$68,444 relative to the \$44,635 included in the FY 2024 Adopted Budget. With a significant portion of the fiscal year remaining, the Office will expend far more than the average for these expenses by the close of FY 2024.

As conditions suppressing travel and training budget usage during the COVID-19 pandemic continue to wane and more conferences and trainings have reinstated and expanded in-person events, it is likely time for PBO to look at trueing up Department and Office budgets for travel and training relative to their recent expenditures and the reductions made during the FY 2021 Budget Process.

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes 19,245 in ongoing operating resources for the County Clerk’s Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 76,808	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk's Office requests additional ongoing personnel resources to continue the currently grant-funded Court Clerk II position (1.0 FTE – position number: 30060976) serving the Assisted Outpatient Program (AOT) program of the Probate Court. AOT provides community-based mental health services under civil court order to individuals with a history of not participating in voluntary services, which often leads to patterns of hospitalization and incarceration. The Office notes that in the 3.5 years Integral Care's AOT program has been operational, AOT staff have provided intensive mental health services to mitigate crisis episodes. This would increase the County Clerk's FTE count by 1.0 FTE.

Integral Care's AOT team provides civilly court-ordered mental health services to individuals who have a history of not participating in voluntary outpatient services, which has resulted in inpatient hospitalization, incarceration, and/or utilization of EMS/Emergency Department resources. The frequent interaction AOT's target population has with these systems is often linked to a lack of insight and other factors that influence motivation to engage in treatment. Since July 2020, a four-year SAMHSA grant has funded Integral Care's AOT program. Although SAMHSA allows previous grantees to apply for additional grants for the same program, when the notice regarding another four-year AOT funding opportunity was released in February, it was limited to new grantees and Integral Care is ineligible. The Office asserts, not sustaining this program would lead to poor outcomes for vulnerable individuals who lack the insight to engage in voluntary services. The collaborative partners in this program support the sustaining of AOT as an essential component of the mental health system.

AOT services resulted in a 75 percent decrease in private psychiatric inpatient bed days in the first year of enrollment in AOT services compared to the year before AOT enrollment for individuals who enrolled between 9/1/2022 and 4/1/2023. In addition to the wraparound services provided by Integral Care, individuals enrolled in the AOT program attend meetings with the judge, which generally occur every one to five weeks, depending on individual circumstances and treatment adherence. Numerous studies on AOT programs around the country indicate that these check ins with the judge have what is known as a "black robe effect" and positively impact treatment adherence regardless of level of insight.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Reduction in hospital bed day use by those in the program*	34%	82%	75%	0	80%	85%
Number of orders for assisted outpatient treatment signed	25	33	52	0	50	75

* A tiered increase in program impact on inpatient psychiatric bed days accounts for the effects of the expansion of the population served and associated staff hiring and onboarding on initial program capacity.

PBO RECOMMENDATION

In FY 2020, the Travis County Probate Court partnered with Integral Care through a four-year grant from SAMHSA (Substance and Mental Health Services Administration) to establish an Assisted Outpatient Treatment (AOT) program, designed to assist involuntary civil mental health commitments. This grant allocated a total of \$4.0 million, \$1.0 million each year to multiple agencies including Integral Care and Travis County and funded a total of 2.50 grant positions including a 0.5 Attorney II grant-funded position and a 1.0 Court Services Management Admin Coordinator grant-funded position in the Probate Court and a 1.0 Court Clerk II grant-funded position in the County Clerk’s Office.

Grant funding for the AOT program will end in July 2024. However, Integral Care submitted a request to SAMHSA to extend the grant to the end of FY 2024 (September 2024), by utilizing internal resources and grant savings of up to \$160,000. The Department submitted a budget request to continue this program on a permanent basis for FY 2025. The Probate Court and the County Clerk’s Office are now requesting to continue the AOT program on a limited basis, under a new structure that best fits the needs of Travis County residents and increases patient eligibility and are requesting the permanent continuation of the 0.5 Attorney II position in the Probate Court and the 1.0 Court Clerk II in the County Clerk’s Office, along with permanent ongoing resources for program services.

The Department states, “The AOT Program is designed to decrease utilization of inpatient psychiatric hospitalizations and criminal justice involvement and increase the amount of time people live safely in the community. This is achieved by utilizing engagement and rapport building techniques to elicit person-centered goals that incentivize treatment participation. The involuntary nature of these services allows a significant amount of time to build rapport with people who would often otherwise decline services.”

This request, like many other requests, has merit and would be considered for inclusion in the Preliminary Budget if resources were not scarce. At this time, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget. Based on discussions with the Travis County Appraisal District (TCAD) and the Revenue Estimation Unit within the County Auditor’s Office, it is not likely that there will be significant additional revenues beyond those within the FY 2025 Preliminary Budget. Due to the attention and interest from Commissioners Court regarding this item, PBO would like to further explore alternative method for funding the continuation of this program through external entities such as the Travis County Healthcare District, Central Health. PBO will discuss such an option with the Department and Commissioners Court through the FY 2025 budget process.

DEPT. SUMMARY OF REQUEST

The County Clerk's Office is requesting the third and final approved year of one-time operating resources related to creating the updated Election Night Reporting Results and Voter Information portal. In 2022, the Commissioners Court awarded SOE Software Corp dba Scytl the contract for Election Night Reporting Results and Voter Information Portal. Year three costs for this contract's subscriptions and maintenance fees are \$50,070. The County Clerk is requesting funding to support this contract.

On August 30, 2022, Commissioners Court approved a contract award for Election Night Reporting Results and Voter Information Portal, RFP No. 2112-004-JR, to the highest-ranked proposer, SOE Software Corp. dba Scytl. The initial contract contains three phases: first year implementation (\$75,840), second year continuation (\$50,070) and third year continuation (\$50,070) at a total estimated cost of \$175,990. The County may extend the contract beyond the original three-year period with cost increases capped at no more than three percent annually following the original term of the contract. The Office notes that it will be requesting additional funds for anticipated annual maintenance and support costs related to this website for the FY 2026 Budget Process, currently anticipated to be \$51,572. This Office notes that this amount may continue to increase by 3 percent per year based on the current contract.

BUDGET REQUEST PERFORMANCE MEASURES

The County Clerk's Office did not submit performance measures related to this request.

PBO RECOMMENDATION

PBO recommends \$50,070 in one-time operating resources in the Elections Division be included in the County Clerk's Office FY 2025 Preliminary Budget for the third and final year of approved contract costs related to the Election Night Reporting Results and Voter Information portal.

On June 27, 2023, the County Clerk's Office requested and received approval to use \$75,850 of an Earmark Against the Allocated Reserve for Year One of Three Costs for the Implementation of a New Elections' Website.

In its memo to Commissioners Court for the June 27, 2023 item, PBO stated the following:

The FY 2023 Adopted Budget includes a one-time \$255,000 Earmark against the Allocated Reserve for Elections Website Software. The County Clerk's Office is now requesting \$75,850 from this amount to cover first year costs to begin work on a new elections' website with contracted support. The County Clerk's Office states that the proposed website upgrade will provide an improved client-facing experience for Travis County voters while maintaining compliance with reporting requirements for elections results...

...Given the implementation timeline and cost for the new elections' website, \$50,070 will be added on a one-time basis to the FY 2024 Preliminary Budget for the County Clerk for Year Two of the project. The remaining \$50,070 will be needed for FY 2025 (third year of the project) which will be requested as a part of the FY 2025 Budget Process. The remaining Earmark of \$179,150 will be released.

PBO recommends the final year of these contract costs related to the Election Night Reporting Results and Voter Information portal be included in the FY 2025 Preliminary Budget to see the approved contract funded through its approved duration.

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office seeks to continue 15 Special Project Worker (SPW) positions, funded through the General Fund and partially through the Elections Fund, to provide vital support for the Elections Division’s daily operations. These SPWs include one Elections Management Coordinator (paygrade C13), six Election Coordinator (paygrade C07), and eight Election Coordinator Senior (paygrade C09) positions. These positions are included in the cost recovery billed to participating entities engaged in contract elections with Travis County.

The Office notes that these special project workers are critical to the Election Division’s daily duties, which include election planning, training, ballot preparation and counting, handling, processing temporary hiring, and other general duties. The Elections Division asserts that, with expanding voter registration and election services, these special project workers are necessary to serve the voters and efficiently administer Travis County Elections adequately.

PBO RECOMMENDATION

The County Clerk’s Office submitted this item to inform the budget process of the continued need for these 15.0 SPW positions. The positions were first created in FY 2003 when temporary positions were reclassified into SPWs. These positions must maintain SPW status to be eligible for billing purposes related to contract election cost recovery. The County recaptures the cost of election contracts for elections where Travis County is not a party on the ballot at 100 percent and receives these funds in the Elections Contract Fund (0128). The SPWs and associated budget are reconsidered each year during the County’s budget process. The Office’s FY 2025 Target Budget includes these Special Project Workers. As such, the positions and their funding are already included in the FY 2025 Preliminary Budget.

However, on March 5, 2024, the County Clerk’s Office requested and received approval for several proposed reclassifications across the Office to reorganize existing organizational structures and position titles based on evolving operational needs. Included in these reclassifications was a request to reclassify position number 30000944 from an Elections Coordinator Sr (paygrade C09) to an Elections Management Coordinator (paygrade C13). The County Clerk’s Office notes this request was intended to address a need for additional management-level support in the Elections Division, however it is the Office’s understanding management-related staffing costs are not eligible for billable hours related to contract elections.

The table below lists these Elections Division Target SPWs by position number as approved in FY 2024 with details including updates to these positions proposed for FY 2025 to better track developments related to these recurring SPWs:

Elections Division Target SPWs FY 2024 to FY 2025 Summary					
Cost Object	Position Number	FY24 Budgeted Position Title	Position Status (as of 5/15/24)	Changes for FY25	Primary Duties
1200040001	30000936	Elections Coord	Filled		Elections support
1200040001	30000937	Elections Coord Sr	Filled		Handles the programming and maintenance of ePollbooks
1200040001	30000938	Elections Coord	Filled		Oversees inventory tracking and records management
1200040001	30000939	Elections Coord	Filled		Handles the programming and maintenance of ePollbooks
1200040001	30000942	Elections Coord Sr	Filled		Secures all polling locations for each election, including security
1200040001	30000944	Elections Coord Sr	Filled	3/5/2024 Reclass to Elections Mgmt Coord	Manages Call Center and Ballot by Mail
1200040001	30000945	Elections Coord Sr	Filled		Programs the ballot
1200040001	30000948	Elections Coord	Filled		Surveys polling locations for ADA compliance and remediation
1200040001	30000950	Elections Coord Sr	Filled		Trains poll workers and internal staff
1200040001	30000951	Elections Coord Sr	Filled		Oversees the voting equipment upgrades and maintenance
1200040001	30000952	Elections Coord Sr	Filled		Oversees sites contacts and scheduling of pickup and delivery of voting equipment
1200040001	30000953	Elections Coord Sr	Filled		Handles HR for seasonal employees and recruitment
1200040001	30059752	Elections Coord	Filled		Recruits Early voting and Election Day workers
1200040001	30059753	Elections Coord Sr	Filled		Supervises the Call Center
1200040001	30061216	Elections Coord	Filled		Surveys polling locations for ADA compliance and remediation

The total estimated cost to maintain these SPWs in FY 2025 is \$1,128,968 on an ongoing basis based on the salary amounts for each of the positions included in the Office’s FY 2025 Budget Submission Workbook. This amount is included in the Office’s FY 2025 Target Budget. As such, the positions and their funding are already included in the FY 2025 Preliminary Budget.

Lastly, PBO is currently recommending additional ongoing personnel resources for the continuation of a Human Resources Specialist SPW position in the General Administration Division and that this position (position number: 30066730) be added to the list of Target SPWs supporting elections operations in the County Clerk’s Office be included in the FY 2025 Preliminary Budget to continue to address workloads related to the significant volume of HR-related tasks in the County Clerk’s Office, especially those related to elections operations. This recommendation aims to make more efficient use of staffing resources in support of elections as well as provide PBO the opportunity to regularly review staffing needs for the County Clerk’s Office alongside the Offices fifteen (15.0 SPWs) other positions included the list of Target SPWs supported with ongoing resources.

REQUEST 36: CAFA - MAGISTRATION DIVISION EXPANSION AND RECORDS SUPPORT (34.0 FTE)

<i>Program:</i>	General Administration (120)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Operating	313,500	-	-	-
Subtotal	\$ 3,054,969	\$ -	\$ -	\$ -
Capital	114,160	-	-	-
Dpt Total	\$ 3,169,129	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 3,169,129	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests additional resources to create 34 positions (34.0 FTE) for a new Magistration Division for the anticipated CAFA (Counsel at First Appearance) program. The Office notes these positions are needed to maintain and expand the County Clerk’s Office’s ability to communicate with the public effectively and efficiently through the ability to provide proper magistration support. This Division would also be responsible for project planning and coordination, program development and implementation, workgroup coordination and collection/maintenance of statistical data related to the magistration process hearings that play an integral role in the Travis County justice system.

This request includes the personnel, operating and one-time CAR resources related to the following proposed new positions:

<i>Position Title</i>	<i>Paygrade</i>	<i>FTE Requested</i>
County/District Clerk Div Dir	C17	1.00
Court Services Mgmt Adm Coord	C10	5.00
Court Clerk II	C07	18.00
Court Clerk II Sr	C08	6.00
Customer Support Analyst	C10	1.00
Administrative Assoc	C09	1.00
Financial Analyst Lead	C15	1.00
Training Education Coord II	C10	1.00
Total		34.00

If approved, this would increase the County Clerk’s Office FTE count by 34.0 FTE.

The County Clerk’s Office notes that this request represents the anticipated increase in personnel and operating resources needed in the event Travis County assumed full responsibility for magistration operations and would require support/staff

from the County Clerk's Office on a 24/7 basis. However, magistrature is currently a responsibility jointly shouldered by Travis County and the City of Austin as part of an interlocal agreement between the two entities. A magistrature policy in which Travis County facilitates all operations would be a major change to current procedure. Also, the County Clerk's Office does not currently operate on a 24/7 basis, and therefore would require significant additional personnel resources to address relief factors, possible shift differentials, and more yet-to-be determined needs related to scaling up operations related to full 24/7 operations in this proposed division.

Notably there has been no clear direction for full implementation of CAFA at this time. Currently, the CAFA Subcommittee is meeting regularly to discuss logistics related to the implementation of a Counsel at First Appearance program. At this time, it is unclear whether the County Clerk's Office would be responsible for supporting this program. Since a determination has not been made, the County Clerk's Office is submitting this request for a new Magistrature Division for the purposes of providing a preliminary cost estimate to support ongoing discussions around feasibility and potential best practices ahead of the County's anticipated implementation of CAFA. The Office notes that should the scope of the eventual CAFA program not require County Clerk's Office support, then this request may not be needed.

BUDGET REQUEST PERFORMANCE MEASURES

The County Clerk's Office did not include performance measures with this request but noted the following:

If a Magistrature Division is created, a new performance measure program will need to be implemented. Unfortunately, responsibilities, workflows, and processes are in the beginning stages of development with the upcoming test dockets and no performance measures can be identified at this time.

PBO RECOMMENDATION

PBO's final recommendation for CAFA-related FY 2025 budget requests is pending a wider analysis of anticipated needs across all stakeholders intended to support an eventual full implementation of CAFA.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistrature process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk's Office, the County Attorney's Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss PBO's draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options

for the Commissioners Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

DEPT. SUMMARY OF REQUEST

The County Clerk's Office requests the second of two fiscal years' one-time funding related to a Community Liaison Planner Sr Special Project Worker (1.0 SPW) approved In FY 2024 for two fiscal years in the External Affairs section of the General Administration Division. The Office notes this SPW is needed to maintain and expand the County Clerk's Office's ability to communicate with the public effectively and efficiently through community outreach programs, and the Administration Division will request this position be converted to a permanent FTE in FY 2026.

The Office asserts there is a need for a dedicated staff member to plan, prioritize, and schedule major projects and programs. The Planner Sr would work not only with the Computer Resources division on projects such as the recent County Clerk website redesign, but on similar upcoming projects such as Preservica, records digitization, and other technology rollouts. However, the Office notes it does not intend the Planner Sr be limited to the Computer Resource Division and would assist all nine Divisions with major programs such as employee engagement and retention initiatives and employee training timelines. The Planner Sr would define project timelines, schedule and coordinate personnel involved for needed project-related meetings, and record notes during those meetings. Additionally, they will create deadlines, supervise communications, and collect data and statistics for these projects and programs.

As of May 2024, the Office reports the need for social media communication is greater than ever as the primary news and information source for most people is their smartphone, and this position assists with community-based social media posts. This staff member has been responsible for brainstorming and creating graphics and written content in both English and Spanish for social media sites including, but not limited to Facebook, Instagram and Twitter. Additionally, this staff member schedules posts and follows-up on comments, responding as necessary to engage and inform the public.

The Office notes this SPW currently manages community events to increase voter engagement, promote recruitment of poll workers, and increase awareness of services offered at the County Clerk's office. The Planner Sr. responsibilities now include creating, coordinating, scheduling, and promoting these types of events. For example, the Office states that this role has coordinated County Clerk participation in local events such as Juneteenth and Pride parades to increase public awareness of services provided by the County Clerk's Office. Additionally, this position planned and executed the County Clerk's Office Marriage Equality event, where free wedding ceremonies were provided to couples on the eighth anniversary of the U.S. Supreme Court ruling that gay marriage is constitutional. The Community Liaison Planner Sr has also coordinated County

Clerk staff participation in community events and volunteer opportunities such as the César Chávez March, Brown Santa, and Black History month food drive. In FY 2025, the Planner Sr. plans to work with school personnel and local student groups to coordinate mock election events to promote civic engagement with new eligible voters.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Hours spent managing event coordination including planning, promotion, implementation and follow up	N/A	N/A	1,030	1,100	1,100	1,150
Hours spent on employee relations including employee engagement events, newsletter publication and communication as well as recruitment and retention initiatives	N/A	N/A	112	150	150	120

PBO RECOMMENDATION

PBO recommends \$95,128 in one-time personnel resources for the continuation of a Planner Sr SPW position (1.0 SPW, position number: 30066731) in the External Affairs section of the General Administration Division be included in the FY 2025 Preliminary Budget for the second and final year of the original two-year duration approved in the FY 2024 Adopted Budget to address rising workloads in administrative support and community outreach operations. PBO recommended this position as an SPW, in part, so the Office may bill other entities for this position’s applicable work hours spent on contract elections. The County recaptures the cost of election contracts for elections where Travis County is not a party on the ballot at 100 percent and receives these funds in the Elections Contract Fund (0128). Additionally, PBO recommends this SPW’s duration be extended an additional year, through FY 2026.

During the FY 2024 Budget Process, PBO acknowledged improving the County Clerk’s Office’s ability to facilitate public-facing communications and manage ongoing major projects by supporting a Planner Sr in the General Administration Division would be of significant value to the Office. At that time, the Office provided projections for significant increases in public-facing interactions if the Planner Sr were recommended. Notably, the Division asserted this position may be able to increase digital interactions for public-facing County Clerk’s Office media content, in the form of views, by nearly 46 percent from 5.5 million in FY 2024 without the position, to 8 million views if the position were approved due increased personnel capacity to promote public-facing content. The Office also noted, given this proposed position, the hours spent creating social media content could rise from the 1,500 hours anticipated in FY 2024 to 1,800 hours, or a 20 percent increase, a significant increase in the Division’s capacity to generate public-facing content. These metrics were not included in the performance measures provided by the Office in its resubmission of this request for FY 2025.

Additionally, projected measures provided by the County Clerk’s Office in its FY 2024 request for this position suggested significant capacity to generate public-facing content within then current resources. For example, the Office proposed that it

will generate and manage 2,300 social media posts and responses in FY 2024 at its base level of funding. While the projected increase of additional 700 posts in FY 2024, if additional funding were approved – an approximate 30.4 percent increase - with the additional position, would certainly be impactful, the Office retained the notable capacity to address this current operation as PBO believed that 2,300 was already a significant number of posts to generate and manage. Regardless, from the data provided during FY 2024, it appeared that the requested position would increase the output - and likely efficiency - of currently performed operations while creating additional capacity for new public-facing interactions.

In its updated FY 2025 request to affirm the second year of funding for this SPW, the County Clerk's Office reported significant in-person community engagement activity – detailed in the request description above - in addition to the position's tech-based outreach responsibilities. These reports, in conjunction with new proposed performance measures centered around these in-person community engagement operations, suggest that the focus of this position is currently more geared toward promoting internal Office involvement with community engagement as well as with facilitating public-facing events relative to its other tech-based engagement and internal planner responsibilities.

PBO recommended funding this request as a two-year special project worker in lieu of an FTE so that the Planner Sr's applicable work hours spent supporting contract elections operations may be billed to contracting entities in the same manner as other elections staff classified as SPWs. As of April 2024, the County Clerk's Office reported that 10 percent of the SPWs hours are billable for contract election cost recovery.

PBO's FY 2024 recommendation sought to make more efficient use of staffing resources in support of elections as and provide PBO the time to examine performance measures related to the requested position over a two fiscal year period. Should the County Clerk's Office continue to observe a demonstrated need for this position following the end of the recommend extended three-year duration, PBO requests the Office resubmit this request in FY 2027. At that time, PBO will re-evaluate whether there is a compelling case based on performance outcomes and the rate of billing related to contract elections to extend the duration of this SPW, convert the position to full FTE, or recommend the currently extended end date of September 30, 2026.

DEPT. SUMMARY OF REQUEST

The County Clerk's Office requests the second of two fiscal years' one-time funding for one Elections Coordinator Special Project Worker (1.0 SPW – Position Number: 30066728) in the Elections Division originally approved for a two-year period in the FY 2024 Adopted Budget to assist the Elections Division Personnel Team primarily as a dedicated front desk receptionist. FY 2025 represents the second and final year approved for this position. The Office notes that The Elections Division will request this position be added to the Target Budget in FY 2026.

The Office notes interest in elections has grown tremendously in recent years. As such, the Elections Division is finding that increased demand for public-facing operations has reached the point where the expertise of a more permanent employee is needed to provide a consistently high level of service. Currently, temporary staff and rotating permanent employees cover the duties at the reception desk. The Office believes that the growing importance of these duties makes it infeasible for temporary staff positions to manage them. Additionally, the Elections Division asserts that its regular, permanent positions do not have the capacity to maintain a front desk presence due to existing workloads related to their primary duties and responsibilities.

PBO RECOMMENDATION

PBO recommends \$78,815 one-time personnel resources for the continuation of an Elections Coordinator SPW (1.0 SPW) position in the Elections Division be included in the FY 2025 Preliminary Budget for the second and final year of the original two-year duration approved in the FY 2024 Adopted Budget to assist the Elections Division Personnel Team primarily as a dedicated front desk receptionist. Additionally, PBO recommends this SPW’s duration be extended an additional year, through FY 2026.

During the FY 2024 Budget Process, PBO recommended this SPW for a period of two fiscal years to assist with public-facing duties as a dedicated front desk receptionist to allow PBO the opportunity to observe workloads across multiple fiscal years. PBO recommends that the County Clerk’s Office Elections Division resubmit this request for the FY 2027 Budget Process to provide PBO the opportunity to reassess whether observed performance measures relative to other competing budget requests for the year warrant the continuation of this SPW, a conversion to full FTE, or a recommendation for the currently recommended end date of September 30, 2026.

The County Clerk’s Office Elections Division is a mandated program that conducts election day and early voting operations on behalf of Travis County for mandated general and special elections and early voting for primary elections. The Office notes that recent increased public scrutiny on the conduct of elections and evolving regulatory guidance from the state have combined to create a greater need for a position to manage public-facing front desk operations. The Elections Division relates increased phone, email and walk-in traffic to the Office, largely due to regulatory changes introduced by Senate Bill 1 enacted in 2021, as warranting a more permanent position to manage the public-facing responsibilities of the front desk. The table below details performance measure data to provide additional context for how SB 1 has potentially impacted these measures.

<i>Elections Division Performance Measures - Actuals, Revised, & Projected - FY 2017 through FY 2025 Updated for FY 2025 Budget Process</i>											
Fiscal Year	2017 Actuals	2018 Actuals	2019 Actuals	2020 Actuals	2021 Actuals	2022 Actuals	2023 Actuals	2024 Revised	2025 Projected		
# of Annual calls excluding EV/ED	23,836	11,781	15,153	37,845	34,576	20,268	12,600	9,451	46,000		
# of customer assisted	3,125	4,763	3,216	3,200	3,500	3,649	4,200	3,700	3,700		
# of EV poll workers recruited, assigned and confirmed	834	1,091	631	927	1,474	1,441	893	2,000	850		
# of ED poll workers recruited, assigned and confirmed	1,300	3,090	1,276	2,274	1,195	3,380	1,680	4,000	2,300		
# of Reg voters in Travis County	724,725	741,525	787,670	850,000	851,856	874,110	887,000	900,000	915,000		

The data above suggests that, prior to the passage of SB 1, represented by the period from FY 2017 through FY 2020, the average number of annual calls excluding EV/ED was 22,154. However, in the period following SB 1 - represented by the FY 2021 through FY 2023 period above - annual averages for these calls increased slightly to 22,481 and represents only an

approximate 1.5 percent increase relative to the prior period. Meanwhile, the annual average number of EV poll workers recruited, assigned and confirmed increased from 871 to 1,269, representing a 45.8 percent increase from the period prior to SB 1 to the period post enactment of the legislation. However, it is notable that the total number of customers assisted did not appear to differ to a great degree from the period prior to SB 1's enactment to the subsequent period. The observed annual average of 3,783 customers assisted from FY 2021 through FY 2023 represents a roughly six percent increase from the annual average of 3,576 for the period between FY 2017 and FY 2020.

While observing pre and post SB 1 enactment groupings helps to identify possible increases in workloads affecting front desk, public-facing Elections Division responsibilities, the findings remain inconclusive. Given the transitory and unpredictable nature of the election cycle, especially in off-cycle election years, it is not clear that this data represents a sustained increase in overall workloads that may warrant an additional ongoing position to manage front desk duties for the Elections Division.

PBO acknowledges and appreciates the Office has considered the possibility that fluctuating demands from the nature of the elections cycle may or may not be behind observed increases in workloads, as the Office requested a two-year SPW in lieu of a permanent FTE position in its original FY 2024 Budget Request. If these workloads are instead driven by more structural changes that will sustain these increases into the future – such as developments from recent elections legislation, shifts in public interest/priorities, and/or the observed growth of registered voters for Travis County - then this need would be better addressed by an ongoing position. PBO will reexamine actual workloads when the Office resubmits this request as a part of the FY 2027 Budget Process as anticipated to determine whether observed increases are temporary due to elections cycle fluctuations, or a sustained workload increase from more structural factors driving increased demand for elections services.

DEPT. SUMMARY OF REQUEST

The County Clerk’s Office requests the second of two fiscal years’ one-time funding for one Elections Coordinator Sr Special Project Worker (1.0 SPW – Position Number: 30066729) in the Elections Division originally approved for a two-year period in the FY 2024 Adopted Budget to support Division workloads resulting from Texas Senate Bill SB 5898, “Relating to Auditable Voting Systems”, enacted into law effective September 1, 2021. In addition, the Office anticipates that this position will aid current staff with ongoing workloads related to the transition to a paper ballot-based voting system, which requires detailed practices as specified by the Texas Election Code for the management and control of blank and voted ballot stock.

To meet the demands of the new workflows resulting from the transition to a paper ballot-based voting system, the additional staff member is responsible for a number of new functions including managing the inventory, security, and protection of blank paper ballot stock, performing predictive analysis to determine polling site-specific ballot stock allocations based on statistical methods and past voting turnout history, performing real-time monitoring and replenishment of polling site ballot inventory during running elections, daily packaging and reconciliation of voted ballots during periods of Early Voting and Election Day, preparation for Records Management following the statutorily mandated in-house storage period for voted ballots, and the accounting and proper disposal of damaged ballot stock. Although the Elections Division has been performing these tasks since the voting system transition which took place in late 2019, the increase in registered voters in the intervening years, as well as increased scrutiny and audits, places existing staff under greater strain to meet all requirements.

This position is also responsible for managing new workflow tasks associated with the current pilot program and the upcoming state-wide implementation of the Risk Limiting Audit Program. Some of the tasks to be performed in support of the Risk Limiting Audit Process include preparation of the physical ballot storage log which is required for the preparation of the ballot manifest, proper organization of voted ballots for batch storage, support for stored voted ballots and random retrieval during the process (which was identified as a time-consuming process by the Risk Limiting Audit Report that documented issues identified during the first pilot run of the process on November 8th, 2022), and recovery and storage of ballot batches that were utilized during the Risk Limiting Audit Process.

The County Clerk’s Office asserts, due to the highly sensitive, critical, and publicly transparent nature of these tasks and the need for a continuously growing experience base over time, a seasonal temporary employee would not be as suitable for these duties as a full-time position afforded the opportunity to build up institutional knowledge in this role.

PBO RECOMMENDATION

PBO recommends \$86,677 in one-time personnel resources for the continuation of an Elections Coordinator Sr SPW position in the Elections Division be included in the FY 2025 Preliminary Budget for the second of the original two-year duration approved in the FY 2024 Adopted Budget to ensure compliance with State regulations regarding elections and the Risk-limiting Audit (RLA) program in conjunction with the Texas Secretary of State. Additionally, PBO is recommending that this SPW’s duration be extended an additional year, through FY 2026, to ensure continued staff support for implementing the County Clerk’s RLA Program by the statutorily required August 31, 2026, deadline.

The County Clerk’s Office Elections Division is a mandated program that conducts election day and early voting operations on behalf of Travis County for mandated general and special elections and early voting for primary elections. The Elections Division must maintain active compliance with State regulations to ensure elections are properly administered and to avoid potential voter disenfranchisement in Travis County. As a part of SB 5898 enacted on September 1, 2021, Texas has mandated that all counties fully implement a Risk-limiting Audit (RLA) Program by August 31, 2026, to audit elections and affirm with strong statistical evidence that election outcomes are proper and verified. To better implement this mandate, the Texas Secretary of State (SOS) has included the Travis County Elections Division as a key participant in a RLA Workgroup consisting of multiple Texas counties. This workgroup conducted a series of pilot audits under the supervision of the SOS from November

to December 2022 to identify best practices and assist the SOS in developing an RLA model that could be utilized by all Texas counties.

The Elections Division has requested this SPW primarily to carry out tasks related to the management of voted ballots and blank ballot card stock, citing that increasing scrutiny of audits, rising numbers of registered voters, and evolving legislative requirements are adding immense strain on workloads for existing staff beyond capacity to properly address these State-mandated operations. These responsibilities are also key elements of the Risk-limiting Audit Process pilot. During this, the Office noted that support for stored voted ballots and random retrieval proved to be a time-intensive process in its Risk-Limited Audit Report following the initial trial audit run on November 8, 2022. The Office anticipates that these persistent issues identified during the RLA test runs, combined with mounting public and state scrutiny for elections, will continue to exacerbate workloads for current staff beyond available capacity as they continue to work toward implementing a fully compliant RLA Program for the County by the August 31, 2026, deadline.

In addition, the Office reports that the recent transition from the HART InterCivic Direct Recording Electronic (DRE) Voting System to the Elections Systems & Software (ES&S) ExpressVote Voting System with an auditable paper trail component initiated during the 2019 election cycle is also straining workloads for current staff. Current Elections Division personnel cite the complexity of these requirements and practical difficulties related to the management and control of blank ballot card stock and voted ballots to be overburdening already rising workloads as staff seek to maintain adequate service levels for an expanding population of Travis County voters.

PBO acknowledges the Elections Division must maintain compliance with State regulations for the administration of elections. This includes ensuring compliance with the SB 5898 mandate to implement a Risk-limiting Audit Program by August 31, 2026. Allocating this dedicated staff position for an extended duration – through FY 2026 – will allow PBO an opportunity to review the Elections Division’s capacity to adequately maintain compliance with State regulations for election auditing systems and management of ballot stock, to maintain support and participation in the SOS RLA Workgroup, and assess ongoing needs related to these legislative requirements for future fiscal years.

DEPT. SUMMARY OF REQUEST

The County Clerk's Office requests the second of two fiscal years' one-time funding for one Human Resources Specialist I Special Project Worker (1.0 SPW – Position Number: 30066730) in the General Administration Division originally approved for a two-year period in the FY 2024 Adopted Budget.

The General Administration Division is responsible for providing Human Resource (HR) services to all the County Clerk's Office divisions; however, prior to the approval of this Human Resources Specialist I SPW, the organizational structure did not have a staff member specifically dedicated to these tasks. This position is being requested for the second of two years approved during the FY 2024 Budget Process to maintain continuity of services during heavy election years and consolidate HR services into one specialized position.

PBO RECOMMENDATION

PBO recommends \$85,377 in ongoing personnel resources for the continuation of a Human Resources Specialist SPW position in the General Administration Division and that this position (position number: 30066730) be added to the list of Target SPWs supporting elections operations in the County Clerk’s Office be included in the FY 2025 Preliminary Budget to continue to address workloads related to the significant volume of HR-related tasks in the County Clerk’s Office, especially those related to elections operations. These Target SPWs are included on an ongoing basis for the purpose of cost recovery for contract elections.

PBO notes this position was recommended as an SPW so that the Office may bill other entities for this position’s applicable work hours spent on contract elections. The County recaptures the cost of election contracts for elections where Travis County is not a party on the ballot at 100 percent and receives these funds in the Elections Contract Fund (0128). As of 4/30/2024, the County Clerk’s Office reports that 40 percent of position 30066730 hours are billable to external entities for hours worked related to contract elections. PBO anticipates the amount of billable hours for the position to increase with the upcoming elections in May, as well as due to anticipated runup operations for the General Elections in November.

PBO acknowledges that years featuring major elections lead to instances of short-term, high-volume workload increases across the Office which demand greater shares of senior staff’s attention and pulls them away from their various other duties. In addition, HRMD notes that the usual ratio of department staff to dedicated HR-related personnel is approximately 100 staff to 1 dedicated HR-related position within a department. When this request was originally approved during the FY 2024 Budget Process, the County Clerk’s Office exceeded this ratio at 120.52 FTE approved in the FY 2023 Adopted Budget to zero (0) dedicated HR-related staff within the Office. Considering this lack of dedicated HR-related positions within the sizable County Clerk’s Office and the immense recurring workload for HR-related actions related to the elections cycle, HRMD communicated strong support during the FY 2024 Budget Process for a dedicated position to manage HR related operations for the County Clerk’s Office.

Therefore, PBO is recommending funding this request on an ongoing basis and adding this position (position number: 30066730) to the County Clerk’s list of Target SPWs so that the position’s applicable work hours spent supporting contract elections operations may be billed to contracting entities in the same manner as other related staff classified as SPWs. This recommendation aims to make more efficient use of staffing resources in support of elections as well as provide PBO the opportunity to regularly review staffing needs for the County Clerk’s Office alongside the Offices fifteen (15.0 SPWs) other positions included the list of Target SPWs supported with ongoing resources.

County Commissioner, Precinct One (102)

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

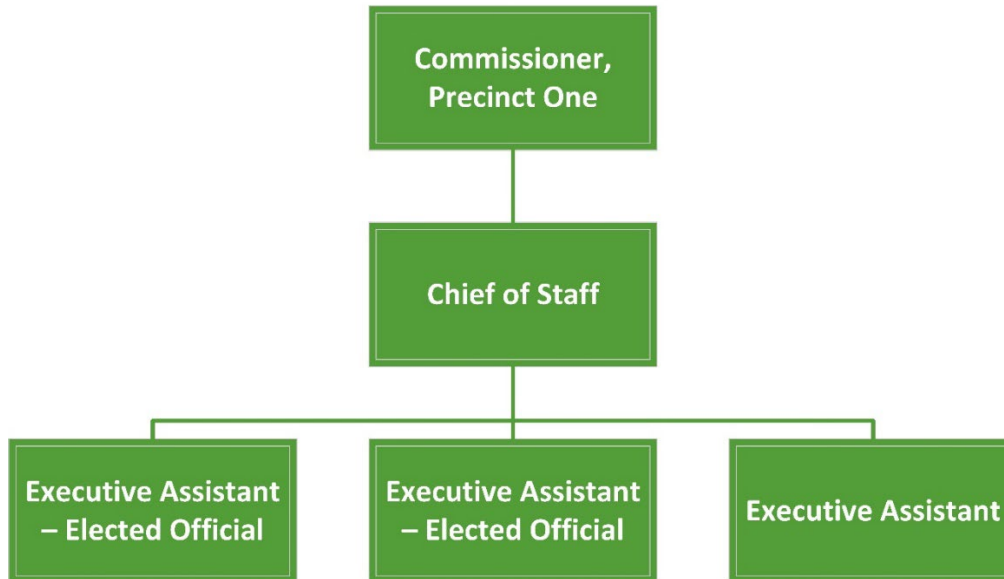

The mission of the County Commissioner, Precinct One office is to use County resources effectively and equitably to address the growing needs of Precinct One constituents and Travis County residents, with a focus on leveraging partnerships to improve access to healthcare, transportation, affordable housing and childcare.

The Office has identified the following departmental goals:

- Provide clear direction and oversight to subcommittee assignments, with a focus on performance management and continuous process improvement;
- Provide robust constituent services and maintain a visual presence in the community; and
- Continue fostering and strengthening partnerships with fellow local governments and nonprofits, with a focus on expanding services to the most vulnerable Travis County residents.

The Office is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Supports all other County-wide goals" and are now linked to the County Goal, "Be a trusted and well-run county."

COUNTY COMMISSIONER, PRECINCT ONE:

PBO worked with the Office early in FY 2024 on refining performance measures and tracking to comprehensively capture the work being done by the Office.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for County Commissioner, Precinct One includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,000 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$1,900 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for County Commissioner, Precinct One includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$ -	\$15,441	\$15,441
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	7,363	7,363
Resources for health insurance cost increases for FY 2025.	-	2,654	2,654
Update Longevity for Commissioners	-	1,714	1,714
Total Compensation Changes	\$-	\$27,172	\$27,172

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

EARMARKS

PBO recommends Earmarks totaling \$68,830,632 for the Jail Diversion Center/Prevention Services consisting of a \$5,000,000 Earmark against the Allocated Reserve and a \$63,830,632 Earmark against the CAR Reserve for the FY 2025 Preliminary Budget. These Earmarks will be listed under the Commissioners Court rather than a particular Commissioners Court Office. These funds are unspent resources from the Budget Stabilization Reserve in FY 2024 and an unspent balance from a CAR Earmark that was based on unspent funds from the FY 2023 Budget Stabilization Reserve.

County Commissioner, Precinct Two (103)

CONTENTS

Mission Statement, Strategic Goals, and Functional Area	2
Programs & Performance Management	2
Adopted Budgets FY 2022-2024, Preliminary Budget FY 2025.....	4
FY 2025 Preliminary Budget Recommendations Summary.....	5

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

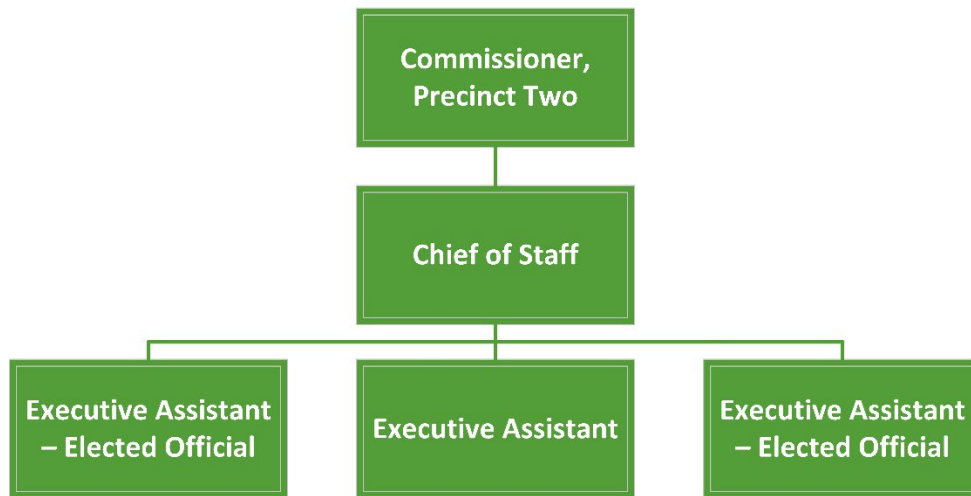

The mission of the County Commissioner, Precinct Two's Office is to achieve the greatest benefits for the largest number of people, including a high-quality of life, protecting the County's environment, addressing growing affordability problems, increasing cooperation and efficiency with overlapping local governments, protecting the County's basic resources, especially water, pursuing innovative transportation, and providing a fair tax appraisal process and a world-class community disaster preparedness program.

The Office has identified the following departmental goals:

- Create policies to address affordability;
- Promote community resilience;
- Advance innovative conservation solutions;
- Improve transportation planning;
- Improve residents' participation with local government through outreach, collaboration and transparency; and
- Consistently engage in County-wide policy making to achieve the greatest benefit for all residents.

The Office is budgeted in the General Government Functional Area.

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Supports all other County-wide goals" and are now linked to the County Goal, "Be a trusted and well-run county."

COUNTY COMMISSIONER, PRECINCT TWO:

PBO worked with the Office early in FY 2024 on refining performance measures and tracking to comprehensively capture the work being done by the Office.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of Commissioners Court meetings attended	90	92	90	90	90
Community events and meetings	33	23	20	20	20
Disaster preparedness meetings and events	26	13	10	10	10
Number of transportation related board and policy working group events	37	31	30	30	30
Number of conservation related environmental board and committee events	53	46	45	45	45
Number of affordable housing units: constructed started	0	0	1,000	1,000	1,000

As seen above, the Office projects that their measures will remain consistent over the next few years. A new measure that the Office began tracking in FY 2024 is the “Number of affordable housing units: constructed started,” tracking this measure highlights the Office’s focus on addressing the growing affordability problems that Travis County residents are encountering.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Executive Assistant – Elected Official	\$117,026	1.00/1.00	The position has since been filled and the incumbent has been actively working to increase community engagement and meeting with constituents to address concerns on a variety of issues. Further, the position has also enhanced the Office’s day-to-day operations.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	525,815	530,568	695,422	722,936	27,514
Operating	6,200	6,200	20,750	20,650	(100)
Total (Per&Op)	\$ 532,015	\$ 536,768	\$ 716,172	\$ 743,586	\$ 27,414
CAR*	-	-	-	-	-
Grand Total	\$ 532,015	\$ 536,768	\$ 716,172	\$ 743,586	\$ 27,414
FTEs	4.00	4.00	5.00	5.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for County Commissioner, Precinct Two increased by \$27,414 from the FY 2024 Adopted Budget. This is a 3.8% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for County Commissioner, Precinct Two includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,000 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$1,900 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for County Commissioner, Precinct Two includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$ -	\$15,073	\$15,073
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	7,363	7,363
Resources for health insurance cost increases for FY 2025.	-	2,654	2,654
Update Longevity for Commissioners	-	2,424	2,424
Total Compensation Changes	\$-	\$27,514	\$27,514

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

EARMARKS

PBO recommends Earmarks totaling \$68,830,632 for the Jail Diversion Center/Prevention Services consisting of a \$5,000,000 Earmark against the Allocated Reserve and a \$63,830,632 Earmark against the CAR Reserve for the FY 2025 Preliminary Budget. These Earmarks will be listed under the Commissioners Court rather than a particular Commissioners Court Office. These funds are unspent resources from the Budget Stabilization Reserve in FY 2024 and an unspent balance from a CAR Earmark that was based on unspent funds from the FY 2023 Budget Stabilization Reserve.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

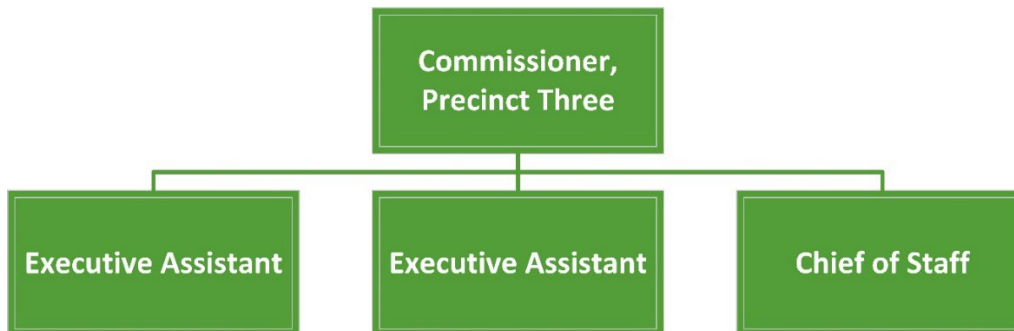

The Office of the County Commissioner, Precinct Three’s mission statement is to emphasize constituent service, provide timely responses to their questions, and help address their need's; to balance growth with environmental stewardship amidst multiple jurisdictions that oversee transportation, land use, and water; and to provide steady, collaborative, and thoughtful leadership as the community addresses justice reform, mental health, and housing.

The Office has identified the following departmental goal(s):

- Support the effective governance, management, and administration of the County;
- Provide timely and robust responses to constituent concerns;
- Maintain a strong presence across Precinct 3 in ways that advance wildfire preparedness, smart transportation infrastructure, smart development, environmental stewardship, and economic development;
- Support the integration of programs, policies, contracts, and data to deliver more cost-effective outcomes related to justice reform, public health, and affordable housing; and
- Leverage funding opportunities to maximize resources to address priorities.

The Office is budgeted in the General Government Functional Area.

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Supports all other County-wide goals” and are now linked to the County Goal, “Be a trusted and well-run county.”

COUNTY COMMISSIONER, PRECINCT THREE:

PBO worked with the Office in the fall of 2023 to develop more robust performance measures that accurately capture and portray the work done by the Office. Below are all the performance measures that are tracked by the Office and help provide insight into the Offices work and can be used to inform future budgetary recommendations.

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure	Projected FY 2026 Measure
Number of inquiries responded to	350	0	0	480	540
Number of Precinct 3 communications initiated	4,570	0	0	10,352	10,452
Number of speaking engagements in Precinct 3	35	0	0	40	40

As seen in the table above, the Office is projecting an increase in all measures across the board, highlighting the Office’s continued efforts to increase community engagement and service.

DEPT. SUMMARY OF REQUEST

The Office of County Commissioner, Precinct Three is requesting \$5,375 in ongoing operating funds to increase the Office’s travel budget from \$4,625 to \$10,000. The Office notes that additional funds would allow staff to access more professional development, learning, and collaboration opportunities. The Office states that since travel budgets were significantly cut in the wake of the COVID-19 pandemic, they have had to say “no” to valuable travel opportunities. Currently, the office would like to send two team members to the annual National Association of Counties (NACO) conference in Tampa, Florida this year to maximize participation across all the events and networking opportunities. However, this would cost at least \$4,000, approximately 86 percent of the Office’s “Travel-Lodging Meals & Other” line-item budget allocation. The Office has had to make difficult decisions regarding staff member attendance to professional conferences.

The Office states there are four main business needs for an increased travel budget summarized below:

- Office personnel has grown and now there are five staff members, highlighting a need for an increased travel budget to meet the needs of additional staff.
- Travis County is experiencing rapid growth. This, coupled with the continued negative health and economic impacts of the pandemic, is overwhelming our public systems and programs, especially as it relates to housing, health, and criminal justice. Many of these challenges require the County to develop new solutions. These challenges are not unique to Travis County, and many other communities have set up new programs and systems to address these challenges. It is imperative that Travis County learn from other communities across the country in order to figure out what will work best for our County. For example, our Office has participated in several site visits to learn about diversion services. These site visits have been invaluable; from learning about the details of how programs are operated, to new funding opportunities, to new policy approaches.
- Commissioner Howard is on several regional planning bodies including, Capital Area Metropolitan Planning Organization (CAMPO), Capital Area Council of Governments (CAPCOG), and the Travis County Emergency Services Subcommittee which coordinates emergency responses with other local jurisdictions, that require Texas-based travel. For example, Commissioner Howard traveled to College Station for a two-day tabletop emergency services exercise.
- Fourth, the demands on Commissioner Staff have increased as the County’s population grows, and the County’s public systems get more and more taxed. This dynamic has required Office staff to take on more responsibilities and

become increasingly knowledgeable on a broader range of issues, such transportation, environment, health, criminal justice, etc.

Additional funding to provide staff access to more professional development opportunities (e.g., effective project management tools, issue area conferences, etc.) to improve skill sets and/or issue area expertise will allow staff to be more effective, productive, and satisfied.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

Due to the impact of COVID-19 on FY 2021 ongoing revenue, the County made targeted personnel and operating reductions. Therefore, targeted budget reductions were made in the Office’s operating supplies and travel expenditure groups. Applying the 10% operating reduction and 50% travel budget reduction to members of the Commissioners Court would have resulted in differing amounts of resources available for their offices. Therefore, to maintain equity in funding levels across the Commissioners Court, the budget for each Commissioners Court Office was reduced by the amounts noted below. The table below outlines the operating reductions for the Commissioners Court as well as the FY 2025 preliminary operating budgets for comparison to the 2021 operating budgets.

<i>Commissioners Court Member</i>	<i>2020 Adopted Operating Budget</i>	<i>Operating Budget Reduction</i>	<i>2021 Operating Budget</i>	<i>2025 Preliminary Operating Budget</i>	<i>Difference FY 2025 – FY 2021</i>
County Judge	\$15,000	\$5,500	\$9,500	\$31,250	\$21,750
Precinct 1	\$10,000	\$3,800	\$6,200	\$18,750	\$12,550
Precinct 2	\$10,000	\$3,800	\$6,200	\$18,750	\$12,550
Precinct 3	\$10,000	\$3,800	\$6,200	\$18,750	\$12,550
Precinct 4	\$10,000	\$3,800	\$6,200	\$18,750	\$12,550

The additional operating resources added to the County Judge’s Office totaled \$21,750, this is comprised of \$1,550 for an FTE included in FY 2022, \$3,750 for operating expenses for the Executive Assistant – Elected Official position included in FY 2024, and an additional \$16,450 added to the operating budget in FY 2024 to enhance community engagement and allow for additional conferences and training that help the Commissioners Court and support staff better serve the public. As for Commissioner Offices, Precincts One through Four, the additional operating resources added to each Office totaled \$12,550, this is comprised of \$3,750 for the Executive Assistant – Elected Official position included in each Office in FY 2024, and an additional \$8,800 added to each Office’s operating budget in FY 2024 to meet the same objective as the operating resources added to the County Judge’s Office in FY 2024 mentioned above.

PBO recognizes that the County Commissioner, Precinct Three would like additional operating resources of \$5,375. However, PBO is not able to support this request given the equalization and additional resource efforts added in FY 2024. Any additional resources added to the operating budgets would need to be discussed with the Commissioners Court for potential changes either at budget hearing or during budget markup. Any changes would need to be added on an equalized basis to maintain the parity as was desired during the FY 2024 budget process. Even though this request is not recommended, included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$1,900 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

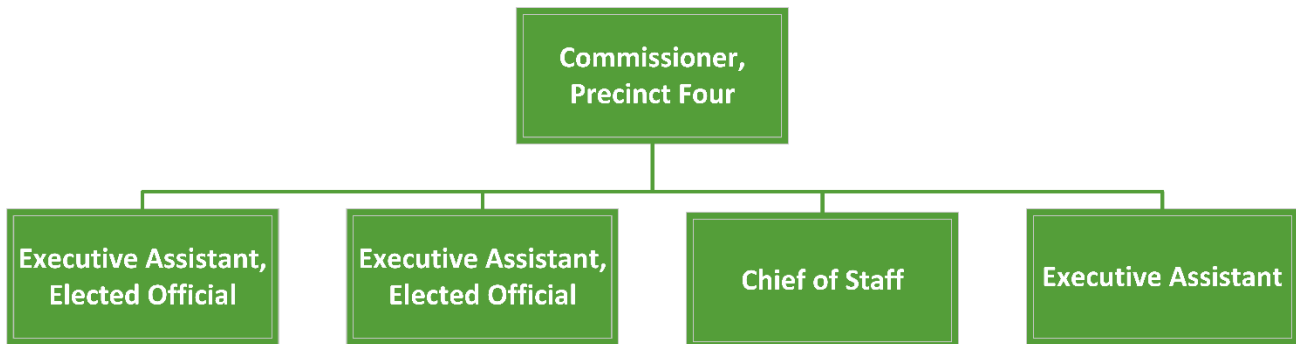

The mission of the County Commissioner Precinct Four Office is to provide an effective and efficient government resulting from experience and strategic planning. Effective planning enables the Commissioner and Commissioners Court to create policy that effectively directs county departments to provide services meeting residents' needs in a fiscally responsible manner.

The Office has identified the following departmental goals:

- Take a proactive approach in ensuring the effectiveness and efficiency of departments reporting to the Commissioner's subcommittees; and
- Develop an Economic Development Plan for Precinct Four encompassing improved infrastructure (roads, drainage), transportation, affordable housing, health and safety, and economic opportunities for residents.

The Office is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Supports all other County-wide goals" and are now linked to the County Goal, "Be a trusted and well-run county."

COUNTY COMMISSIONER, PRECINCT FOUR:

PBO worked with the Office early in FY 2024 on refining performance measures and tracking to comprehensively capture the work being done by the Office.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of newsletters distributed	2	-	-	4	4
Number of referrals made to HHS	260	-	-	600	600
Number of referrals made to TNR	340	-	-	600	600
Number of referrals made to other depts within or outside of TC	240	-	-	400	400
Neighborhood Meetings Established /year	20	-	-	24	24
Number of constituent communications received	N/A	N/A	750	800	800
Number of constituent concerns addressed	N/A	N/A	750	800	800
Number of community events attended	N/A	N/A	24	24	24
Number of boards/committees served on by the Commissioner	N/A	N/A	15	15	15

As seen above, the first five measures in the table project an increase however, data is not available for FY 2023 and FY 2024 due to challenges with capturing data and performance measures. The last four measures in the table above are all new measures that were created by the Office as of FY 2024 in order to better capture the work being done by the Office as previously mentioned. The four new measures highlight the Office's efforts in maintaining and increasing community engagement and service.

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for County Commissioner, Precinct Four increased by \$27,672 from the FY 2024 Adopted Budget. This is an 3.9% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for County Commissioner, Precinct Four includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,000 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$1,900 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for County Commissioner, Precinct Four includes the following changes related to compensation and benefits:

Compensation Changes	One-Time	Ongoing	Total
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for	\$-	\$15,131	\$15,131

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.			
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	7,363	7,363
Resources for health insurance cost increases for FY 2025.	-	2,654	2,654
Update Longevity for Commissioners	-	2,624	2,624
Total Compensation Changes	\$-	\$27,772	\$27,772

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

EARMARKS

PBO recommends Earmarks totaling \$68,830,632 for the Jail Diversion Center/Prevention Services consisting of a \$5,000,000 Earmark against the Allocated Reserve and a \$63,830,632 Earmark against the CAR Reserve for the FY 2025 Preliminary Budget. These Earmarks will be listed under the Commissioners Court rather than a particular Commissioners Court Office. These funds are unspent resources from the Budget Stabilization Reserve in FY 2024 and an unspent balance from a CAR Earmark that was based on unspent funds from the FY 2023 Budget Stabilization Reserve.

County Judge (101)

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the County Judge is to provide leadership, coordination, and assistance to County offices in a manner that promotes fair, effective, and efficient delivery of County services to the public.

This aligns with the new County goal “Be a trusted and well-run county.”

The Office is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Supports all other county-wide goals” and are now linked to the County Goal, “Be a trusted and well-run county.”

Article V of the Texas Constitution establishes the County Judge’s Office and designates the County Judge as the presiding officer of the Travis County Commissioners Court. The County Judge performs both functional and ceremonial duties on behalf of Travis County and the Commissioners Court, and the County Judge’s Office supports the duties and functions of the County Judge and all County Goals.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved/Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Executive Assistant – Elected Official	\$117,026	1.00	This is not a program. This was allocated for hiring one FTE to bring the public comment line inhouse rather than outsourcing.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the Judges Office includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,000 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$2,750 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the Judges Office includes the following changes related to compensation and benefits:

Compensation Changes	One-Time	Ongoing	Total
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the	\$ -	\$23,775	\$23,775

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.			
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	8,081	8,081
Resources for health insurance cost increases for FY 2025.	-	3,716	3,716
Update Longevity for Commissioners	-	2,149	2,149
Total Compensation Changes	\$ -	\$37,721	\$37,721

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Office’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Harm Reduction, Overdose Prevention, and Mental Health	\$350,000
Total Allocated Reserve Earmarks	\$350,000

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST 01: RAIL ENGINEERING & ADVOCACY PLANNING

<i>Program:</i>	County Judge (101)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark Allocated	50,000	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 50,000	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 50,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for a \$50,000 Earmark on the Allocated Reserve for the Greater Austin-San Antonio Corridor Council (GASACC), or similarly situated entity, to create an engineering and advocacy plan for increasing passenger rail service in Travis County and statewide. GASACC or the partner entity would likely request funding from other jurisdictions that might benefit from the plan so it may be funded in an equitable manner. This request is still in the early planning phases, in which additional information is being gathered, so the request may increase or decrease depending on that additional information, particularly on if and to the extent that other jurisdictions are able to contribute to the project.

The Office notes that the Transportation and Natural Resources Department (TNR) does not currently have a position dedicated to passenger rail planning. The Long-Range Planning Division within TNR also focuses primarily on transportation planning within the unincorporated areas of the County. Passenger rail, by contrast, may travel to and through unincorporated parts of the County, but also necessarily travels to and through areas well beyond these areas, typically including stations in cities both in Travis County and other counties. For these reasons, funding for rail planning would fill a critical gap in the County’s ability to bring increased passenger rail service to the community.

Upon funding of this request and project commencement, the partner entity would seek input from experts and stakeholders, including Travis County TNR, to develop a rail plan to increase passenger rail service in Travis County and statewide. It would likely explore conventional, higher-speed, and high-speed routes connecting Austin to the San Antonio, DFW, and Houston areas. The consultant would also work with key transportation entities such as the U.S. Department of Transportation (DOT), Federal Transit Administration (FTA), Federal Railroad Administration (FRA), Texas Department of Transportation (TxDOT), the Capital Area Metropolitan Planning Organization (CAMPO), Council of Governments, and transit entities (for example, in planning for connections from passenger rail to light rail, bus, active transportation, and other “last mile” options). It may also include working with other local jurisdictions to further these same goals.

Further, the partner entity would seek input from experts and stakeholders, including Travis County Intergovernmental Relations (IGR), to develop an advocacy plan for Legislative action that will help increase passenger rail service in Travis County. This may include, for example, working to support state bills to fund rail service or to support grant opportunities for federal funding in support of the same.

The Office states the funding for the engineering and advocacy plan would, importantly, fill a critical and growing gap between the passenger rail and other transit options currently available to Travis County residents and visitors, and the community's expressed desire for these services. Additionally, the Office notes this desire has been expressed most acutely over the past few years with the rollout of the I-35 Capital Express Central Project, where the Commissioners Court received hundreds of constituent emails and public comments voicing opposition to the project and often asking instead for investment in transit options. With the Austin-San Antonio megaregion alone planning to nearly double by the year 2050, the need for safe, efficient, and equitable transportation options within and beyond Travis County is paramount to ensuring economic sustainability and growth along this and other corridors.

This request most directly furthers the County's goal of assuring that mobility is timely, predictable, and safe, as travel by rail is overall more timely, predictable, and safe than an equivalent trip by car. The request also furthers several other County goals, such as those for safety, environmental sustainability, and providing opportunities for those most vulnerable and underrepresented, as passenger rail offers a transportation option for those who may not be able to drive or have access to a car.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

This was a late request that was not able to be considered for the FY 2025 Preliminary Budget. It was submitted by the County Judge's Office to facilitate additional discussions later in the FY 2025 budget process. As was discussed with the County Judge's Office the \$50,000 request for an Earmark against the Allocated Reserve would help facilitate the development of an engineering and advocacy plan for increasing passenger rail service in Travis County and statewide. The Office believes that should the plan be developed in FY 2025 an FTE may be requested as a part of the FY 2026 budget process that would focus on implementation of said plan.

REQUEST 02: JAIL DIVERSION CENTER / PREVENTION SERVICES

<i>Program:</i>	County Judge (101)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	500,000	-	-	-
Earmark CAR	1,500,000	-	-	-
Total Earmarks	\$ 2,000,000	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 2,000,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Judge’s Office requests to maintain a \$500,000 Earmark as part of the FY 2024 Adopted Budget through FY 2025 to create a Jail Diversion Center and assist with the planning and development of the program and facility. The Office of the County Judge states the proposed Travis County Jail Diversion Center would be focused on serving individuals with serious mental illness or substance use disorders who frequently interact with the criminal justice system, homeless continuum of care services, and acute care medical and mental or behavioral health treatment systems.

The Judges Office states, “People living with mental health and substance use disorders too often land in the criminal legal system because of disruptive or erratic behaviors caused by these conditions that lead to arrest. In many cases, even if no criminal intent existed, laws were broken. This produces a disproportionate number of people with mental health disorders languishing in jails when treatment in the community would have been the better option. The state of Texas woefully under-invests in mental health care and the state mental health hospital system- something they are supposed to do. As a result, our County Jail is the largest mental health facility in the county. This is an unacceptable state of affairs –it places a significant burden on our correctional facility staff and does not help people suffering with serious mental illness or substance use from getting the care they need.”

On March 21, 2022, the Commissioners Court voted unanimously to get to work on the development of a jail diversion center. The Commissioners Court has approved Phase 1 Pilot to begin providing services in the community and learning to inform the longer-term diversion center efforts. This Earmark would help further that work.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

PBO recommends Earmarks totaling \$68,830,632 for the Jail Diversion Center / Prevention Services consisting of a \$5,000,000 Earmark against the Allocated Reserve and a \$63,830,632 Earmark against the CAR Reserve for the FY 2025 Preliminary Budget. These Earmarks will be listed under the Commissioners Court rather than a particular Commissioners Court Office.

These funds are unspent resources from the Budget Stabilization Reserve in FY 2024 and an unspent balance from a CAR Earmark based on unspent funds from the FY 2023 Budget Stabilization Reserve.

REQUEST 03: HARM REDUCTION, OVERDOSE PREVENTION, AND MENTAL HEALTH

<i>Program:</i>	County Judge (101)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	350,000	350,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 350,000	\$ 350,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 350,000	\$ 350,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The County Judges Office requests to maintain a \$350,000 Earmark as part of the FY 2024 Adopted Budget through FY 2025 for overdose prevention funds for specific harm reduction strategies and would be accessible to further respond to emerging community needs as reflected in the Medical Examiner’s report and other public health data. The Office states, “More than 5,000 Texans died from a drug overdose from August 2021-2022 and Texas ranks 3rd in number of fatal drug overdoses among all states. Fatal overdoses in Texas increased 76% between 2019-2022, and those involving fentanyl increased 339% from 2019 to 2021.” The \$350,000 Earmark would create an emergency action fund for overdose and suicide prevention that would allow the Commissioners Court to respond to emerging needs.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request but envisions that this request could be measured by the County’s ability to meet the needs of community-based service providers and reductions in the number of drug overdose deaths.

PBO RECOMMENDATION

On May 23, 2024, the Travis County Medical Examiner’s Office presented its 2023 Annual Report. In this report, the Office noted that the number one cause of accidental death in Travis County was “drug toxicity,” which are overdose deaths, counting for 49 percent of all Travis County accidental deaths. Additionally, the Office presented data highlighting Travis County accidental drug deaths where fentanyl was detected, shown in the following graph.

As seen above, accidental drug deaths where fentanyl was detected totaled 279 in 2023, a 13.9 percent increase over 2022. Although the percent change from 2022 to 2023 was significantly less than the percent change of 107.6 percent increase from 2021 to 2022, the volume of accidental deaths where fentanyl was detected in 2023 is far above that of 2019 at 22. The County Judge’s Office anticipated an increase in the number of cases of accidental drug deaths where fentanyl was involved and continues to support community efforts to expand access to Naloxone, also known as NARCAN, which reverses opioid overdoses.

The Office notes, “creating an emergency fund for overdose prevention is critical because drug overdose deaths have increased substantially in recent years. In 2020, the nation experienced 93,000 such deaths, which was a 30 percent increase in deaths from the previous year. Providing for an emergency fund is even more critical in Travis County, where deaths have increased at an even faster rate: in 2020, there were 262 drug overdose deaths in Travis County, which represents a 36 percent increase from the previous year, and a 47 percent increase from just 2015.” In addition, providing NARCAN to community-serving organizations is exhausted, and community groups are struggling to meet local demand. The Texas Harm Reduction Alliance (THRA), an Austin-based, statewide organization aims to end the drug war and its harms through harm reduction outreach, training, advocacy, and organizing, reports an increase in client service interactions between their outreach team and the drop-in center programs. THRA reports their drop-in center has lines of people waiting outside the door daily - including during inclement weather - sometimes seeing over 70 people in one six-hour shift, with only two dedicated staff members to distribute supplies, perform resource navigation and maintain a safe community space.

PBO recommends the \$350,000 Earmark against the Allocated Reserve continue in FY 2025 as part of the Preliminary Budget. Should part of this Earmark be transferred in FY 2024, the remaining Earmark will be reduced for FY 2025.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Office of the County Treasurer’s mission statement is “to provide as the Chief Custodian for the safekeeping of all County funds by performing and managing the financial resources within our scope effectively and efficiently while encouraging prudent financial practices.”

The Office of the County Treasurer is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Supports all other county-wide goals” and are now linked to the County Goal, “Be a trusted and well-run county.”

COUNTY TREASURER:

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of receipts deposited within two working days	100%	100%	100%	100%	100%
# of warrants drawn on controlled disbursement account allowing for immediate use of excess funds for investing	19,771	22,000	25,000	22,000	25,000
# of cash receipts processed	10,047	12,500	15,000	12,500	15,000
# of warrants (jury claims) processed	6,425	10,000	12,000	10,000	12,000
Service fee retained for prompt filing of state reports	\$195,600	\$200,000	\$200,000	\$200,000	\$200,000
# of reports filed	8	8	8	8	8
% by which County assets are collateralized	201%	210%	210%	210%	210%

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure	Projected FY 2026 Measure
# of bank accounts requiring collateral	100	100	100	100	100

The primary objective of the County Treasurer’s Office is to provide for the safekeeping of all county funds by performing as the chief custodian of County finances, which is a mandated function. This program reports three outcome measures: warrants drawn on controlled disbursement account allowing for immediate use of excess funds for investing, service fee retained for prompt filling of state reports, and percent by which County assets are collateralized. The Treasurer’s Office workload is anticipated to remain stable over the next few fiscal years as reflected by the performance measures.

The County Treasurer program is a mandated function of the County. Local Government Code Section 113.001 states, “The county treasurer, as chief custodian of county funds, shall keep in a designated depository and shall account for all money belonging to the county.”

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	788,852	832,016	887,098	921,444	34,346
Operating	186,901	186,901	186,901	345,896	158,995
Total (Per&Op)	\$ 975,753	\$ 1,018,917	\$ 1,073,999	\$ 1,267,340	\$ 193,341
CAR*	-	-	-	-	-
Grand Total	\$ 975,753	\$ 1,018,917	\$ 1,073,999	\$ 1,267,340	\$ 193,341
FTEs	8.00	8.00	8.00	8.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the County Treasurer’s Office increase by \$193,341 from the FY 2024 Adopted Budget. This is an 18.0% increase. The majority of the increase was in the operating budget due to an ongoing cost increase in the Office’s Armored Motor Services contract to provide secure handling of cash for County-wide offices.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the County Treasurer’s Office includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

The FY 2025 Preliminary Budget for the County Treasurer’s Office includes the following increases:

<i>Programmatic Recommendations</i>	One-Time	Ongoing	Total	FTEs
Armored Motor Services	\$-	\$157,000	\$157,000	-
Total Programmatic Recommendations	\$-	\$157,000	\$157,000	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$1,995 in ongoing operating resources for the Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the County Treasurer’s Office includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$-	\$23,240	\$23,240
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	6,859	6,859
Resources for health insurance cost increases for FY 2025.	-	4,247	4,247
Total Compensation Changes	\$-	\$34,346	\$34,346

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the Office has one fee it charges and one revenue generating contract it manages. Of those, none are being proposed by the Office for adjustment in FY 2025.

DEPT. SUMMARY OF REQUEST

The Office of the County Treasurer received requests from many County offices/departments for the daily pickup of funds provided by armored motor services, a more frequent schedule than prior years. To meet the needs of the County, Commissioners Court approved a new contract with Garda CL Southwest, Inc. on January 23, 2024, to provide the requested services. However, changes in the daily pickup schedule along with inflationary cost increases has led to a significant increase in costs. Therefore, the Office of the County Treasurer is requesting \$157,000 in ongoing resources for this purpose in FY 2025 to meet the increased costs.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit any performance measures for this request.

PBO RECOMMENDATION

PBO recommends \$157,000 of ongoing resources to cover the increased costs associated with armored motor services as part of the FY 2025 Preliminary Budget. The FY 2024 Adopted Budget includes \$171,369 budgeted directly within the County Treasurer’s Office for armored motor services. Historically, the annual cost of this service has been well under budget. However, changes in the daily pickup schedule along with inflationary cost increases has led to a significant increase in costs. To meet the needs of the County, Commissioners Court approved a new contract with Garda CL Southwest, Inc. on January 23, 2024, to provide the requested services. Upon commencement of this new contract, estimated expenditures were expected to exceed the budgeted amount for FY 2024 by \$99,097 and a one-time transfer from a \$5,000 Earmark against the Allocated Reserve for this amount was coordinated by PBO in conjunction with the County Treasurer’s Office to ensure timely deposit of funds and fulfillment of payment for armored motor services for the remainder of FY 2024.

In FY 2025 costs associated with this contract will remain higher than in previous years due to the increased level of service provided. Additionally, there are fees associated with the contract that may cause fluctuations in costs month to month; a fuel surcharge of 1 percent of the base rate for the month is added for every \$0.25 per gallon national average diesel fuel price over \$3.75 per gallon, based on a 3-week rolling average. Further, an excess time fee of \$4.95 per minute is applied for each additional minute beyond 10 minutes required for each pickup at each Department. All considered, PBO estimates that

a monthly cost of approximately \$26,770 can be expected to account for fluctuations in fees and other miscellaneous cost increases. This amount totals \$321,236 annually, \$149,867 over the budget allocation for this purpose. PBO recommends that the requested \$157,000 be included on an ongoing basis in FY 2025, the additional \$7,133 provides a contingency for any future changes in service.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Criminal Courts is to provide a judicial forum in which misdemeanor and felony cases may be resolved in keeping with the laws of the State of Texas.

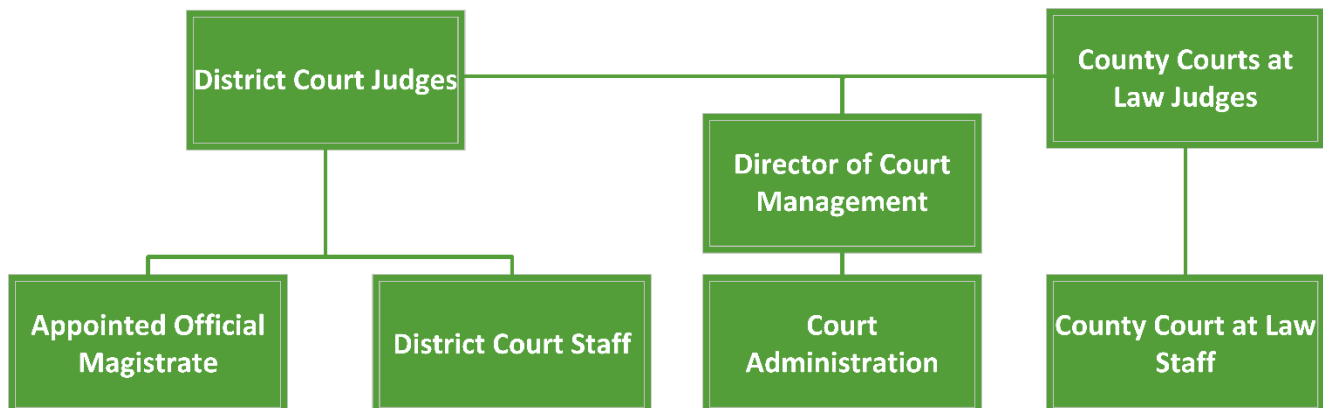

The Department has identified the following departmental goals:

- Create an efficient and fair system for the disposition of felony and misdemeanor cases;
- Support the Courts and broader justice system through smart technology and innovative approaches to system efficiency;
- Provide appropriate programs/dockets for our diverse populations; and
- Enhance visibility and transparency of the Court System.

This aligns with the new County goal “Be a trusted and well-run county” and “Promote economic well-being and racial, ethnic and economic equity.”

The Department is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

DISTRICT COURTS:

The goal of the District Courts is “To create an efficient and fair system for the disposition of felony cases.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases in specialty court programs/dockets	900	2,506	2,500	2,500	2,500
% of cases disposed w/in 180 days	55%	72%	70%	60%	60%
Cases reaching the dockets	9,381	8,582	10,000	12,000	13,000
Clearance rate	85%	102%	100%	108%	107%
Total # of dispositions	8,035	10,088	10,000	12,000	12,000

The District Courts are statutorily mandated. The program identifies “percent of cases disposed w/in 180 days”, “Clearance Ratio > 90 percent (Y=1, N=0)” and “percent of attorneys evaluated competency” as outcome measures. In FY 2022, the District Courts did not achieve a clearance rate greater than 90% due to the backlog of cases as a result of the COVID-19 pandemic however, in FY 2023 the clearance rate exceeded 100%, showing that the District Courts have begun addressing the backlog of cases. Also as seen in the measures, the District Courts anticipate that they continue addressing the felony case backlog in future years, noting the impact that the pandemic had on the Criminal Justice System.

In addition, the District Courts have experienced a significant increase in “# of cases in specialty court programs/dockets” related to the shift in focus to diversion programs and courts. As diversion programs and specialty courts efforts are further developed, the Department may need additional resources to address the increase of defendants and participants.

COUNTY COURTS:

The goal of the County Courts is “To create an efficient and fair system for the disposition of misdemeanor cases.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases in specialty court programs/dockets	3,009	3,984	5,500	6,500	6,500
Cases reaching the dockets	11,847	13,459	15,000	15,000	15,000
Clearance rate	174%	132%	140%	140%	140%
Total # of dispositions	20,661	17,793	18,000	18,000	18,000

The County Courts are statutorily mandated. The program identifies “percent of attorneys evaluated for competency” and “Clearance Ratio > 90 percent (Y=1, N=0)” as outcome measures. The Department states that efficiency is measured by the time it takes to dispose cases and how well the courts can keep up with the workloads that are assigned to them. The County Courts continue to experience clearance rates exceeding 100%, indicating that the Courts are addressing the backlog of cases as a result of the COVID-19 pandemic. The addition of the grant-funded ARPA Court has also assisted with the County Courts ability to address the case backlog. This funding will be expended at the end of FY 2024.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024

Grand Total	\$ 9,756,282	\$ 10,593,075	\$ 10,621,424	\$ 11,248,331	\$ 626,907
FTEs	80.50	82.50	82.50	84.50	2.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the Criminal Courts increased by \$626,907 from the FY 2024 Adopted Budget. This is a 5.9 percent increase. The increase was in the personnel due to FY 2024 compensation that was originally budgeted in the compensation reserve. There was also a net decrease in the capital budget.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the Criminal Courts includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources added for a 1.0 Court Reporter FTE and one Judicial Aide Specialist Special Project Worker (SPW) for two years, with an end date of September 30, 2026 to assist with ARPA Court operations.	\$100,602	\$162,854	\$263,456	1.00
Resources added for 1.0 Case Worker FTE to support the increased need within the TYJ program	81,311	-	81,311	1.00
Total Programmatic Recommendations	\$181,931	\$162,854	\$344,767	2.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for the Criminal Courts includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Travel and Training Restoration	\$-	\$10,721	\$10,721	0.0
Total Administrative and Other Funding Changes	\$-	\$10,721	\$10,721	0.0

Included in the FY 2025 Preliminary Budget is a 50 percent restoration of travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the county budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$10,721 in ongoing operating resources for the Criminal Courts. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the Criminal Courts includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$-	\$289,279	\$289,279
Resources for judicial longevity due to the increased tenure of Judges for County Courts #4 and #9.	-	35,128	35,128
Resources for health insurance cost increases for FY 2025.	-	43,797	43,797
Total Compensation Changes	\$-	\$368,204	\$368,204

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$329,373 for the Department. There was a reduction of \$426,158 to remove one-time funding for prior year capital funded projects. This is a net \$96,785 decrease compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Maintenance of Current Efforts (MOCE) related to technology and software needs in the Criminal Courts.	\$329,373
Total Capital Funding Recommendations	\$329,373

ADDITIONAL INFORMATION

FUTURE CONSIDERATIONS

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk's Office, the County Attorney's Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss our draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioner Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

The Criminal Courts anticipate annual capital requests related to the maintenance of current effort regarding technology. Estimates for the requests are as follows:

- FY 2026: \$345,000
- FY 2027: \$355,000
- FY 2028: \$365,000
- FY 2029: \$375,000
- FY 2030: \$385,000

DEPT. SUMMARY OF REQUEST

The Criminal Courts requested a Magistration Court to continue the American Rescue Plan Act (ARPA) funded Court, which has assisted the criminal court judges in handling their heavy caseload, when that funding ends. PBO suggested continuing the ARPA Court to address the still remaining backlog of criminal cases due to the pandemic. The Department is now requesting the funds to continue the program through the end of the fiscal year 2025. The Department states that this ARPA Court will further the goal of creating an efficient and fair system for the disposition of felony cases by reaching cases earlier, facilitating prosecution and defense in quicker court appearances and hearings, and helping ease the backlog of jury trials for the criminal courts.

Cases on dockets each September 30th	-	-	-	-	12,000	12,000

PBO RECOMMENDATION

In FY 2022, the Travis County Commissioners Court approved a contract with the Texas Judiciary to receive funds appropriated from the federal American Rescue Plan Act (ARPA). The grant period was from October 1, 2022, through March 31, 2024. This

grant assisted Travis County Criminal Courts with the backlog of cases caused by the COVID-19 pandemic and funded six positions, including: 1) an investigator for the County Attorney's Office, 2) a Case Worker in the Public Defender's Office, 3) a Court Clerk II in the District Clerk's Office, 4) a Court Clerk II in the County Clerk's Office, 5) a Judicial Aide Specialist (Court Coordinator), and 6) a contracted Court Reporter within the Criminal Courts, which was converted to a full-time position because of the needs of the ARPA Court. Funding was also allocated for contract interpreters, visiting judges, and other operating needs.

Since its implementation, the Criminal Courts note that the ARPA Court has assisted with the disposition of cases and unindicted case backlog because of COVID. Per data provided by the Criminal Courts, of Felony cases set on the Unindicted Docket in the ARPA Court, 23 percent are disposed of within 30 days of setting, and 35 percent are moved to a pretrial diversion program. The Department also notes the time, in days, to disposition decreased since the introduction of the Unindicted Docket for all felony cases, as shown in the table provided by the Criminal Courts below.

The Criminal Courts note the ARPA Court assisted with Felony cases set on the Jury Docket, specifically for Family Violence cases in County Court-at-Law 4, and notes that 49 percent of Felony cases set on this docket are disposed of within 30 days of the setting date, compared to a 28 percent disposition rate for regular dockets. Jury trials for the County Court-at-Law 4 also decreased by 52 percent since the implementation of the ARPA Court. The following table notes the reduced decrease in the number of Jury trials set for this court due to the assistance of the ARPA Court.

Due to the implementation of the ARPA Court, the County Court-at-Law 4 has a reduced caseload. The Department notes the County Court-at-Law 4 caseload decreased by 45 percent, as indicated in the following table.

Beginning in April 2024, CAFA test shifts began operating the Auxiliary (AUX) Courtroom of the Blackwell-Thurman Criminal Justice Complex (CJC), which is where the ARPA Court had been holding operations. However, the Criminal Courts note this has not slowed ARPA Court operations, as the Department uses empty courtrooms on a rotating basis to continue ARPA Court operations. The Department is willing to continue using vacant courtroom space on a rotating basis due to CAFA test shifts. The area of the Travis County Jail identified to conduct CAFA will need to undergo repairs and renovations beginning in June 2024. These repairs and renovations could take approximately 18 months before the space can be utilized to conduct CAFA. PBO will work with Facilities Management, the Travis County Sheriff's Office (TCSO), and other relevant stakeholders Offices, and Departments to provide updates to the Commissioners Court on the progress of these repairs as needed.

The Criminal Courts worked with the Grantor to extend the continuation of these grant-funded positions and identified grant savings to fund the positions until approximately September 2024. The FY 2024 Adopted Budget includes a \$305,495 Earmark against the Allocated Reserve for the continuation of the ARPA Court so these positions and operations could continue for the remainder of FY 2024. The County Attorney's Office, the County Clerk's Office, the Criminal Courts, the District Clerk's Office and the Public Defender's Office requested to continue these positions for FY 2025. The following table notes the resources requested by each Office and Department for FY 2025.

FY 2025 Requested Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$104,508	\$104,508	\$115,037	\$3,000	\$118,037	\$222,545	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Criminal Courts	263,456	-	-	263,456	-	-	-	263,456	0.00
Criminal Courts LMF	-	150,475	-	150,475	-	-	-	150,475	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Public Defender's Office	-	-	2,600	2,600	81,311	2,800	84,111	86,711	1.00
Total	\$417,072	\$150,475	\$107,108	\$674,655	\$196,348	\$5,800	\$202,148	\$876,803	4.00

FY 2025 requested resources for the ARPA Court total \$876,803 and 4.0 FTEs. This includes \$613,420 of personnel resources, \$5,800 of ongoing operating resources, \$150,475 of one-time operating resources and \$107,108 of CAR/ITS resources.

The County Attorney's Office requested \$222,545 and 1.0 FTE. This includes \$115,037 in personnel funding for a 1.0 Investigator FTE, along with \$3,000 in ongoing operating resources for supplies, travel and training associated with this position. The request includes \$104,508 in CAR/ITS funding for a law enforcement vehicle and radio equipment.

The County Clerk's Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

The Criminal Courts requested a total of \$413,931 and 2.0 SPWs. This includes \$100,602 of one-time personnel resources for a Judicial Aide Specialist to serve as a Court Coordinator and \$162,854 of one-time personnel resources for a Court Reporter to support continued ARPA Court operations. The Criminal Courts also requested \$150,475 in one-time operating resources for contracted visiting judges to be budgeted in the Criminal Courts Legally Mandated Fees Department.

The District Clerk's Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

Lastly, the Public Defender’s Office requested \$86,711 and 1.0 FTE. This includes \$81,311 of personnel resources, \$2,800 of ongoing operating resources for travel and equipment costs and \$2,600 in one-time centrally budgeted resources for computer of phone equipment related to the conversion of the Case Worker SPW position into a full FTE (1.0 FTE).

The Department further notes, “The ARPA Court will allow the Travis County criminal justice system to keep pace with an expanding population and backlogged cases reaching the docket. It will allow the Criminal Courts to maintain and improve the clearance rates of cases and the percentage of Felony cases disposed within 180 days.” PBO recommends the continuation of the ARPA Court in order to continue providing this level of service and addressing the criminal case backlog.

The following table notes PBO recommended resources for ARPA Court operations.

FY 2025 Recommended Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$-	\$-	\$115,037	\$3,000	\$118,037	\$118,037	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Criminal Courts	100,602	-	-	100,602	162,854	-	162,854	263,456	1.00
Criminal Courts LMF	-	-	-	-	-	-	-	-	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Public Defender’s Office	81,311	2,800	-	84,111	-	-	-	84,111	0.00
Total	\$335,529	\$2,800	\$-	\$338,329	\$277,891	\$3,000	\$280,891	\$619,220	2.00

*PBO recommends a \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

FY 2025 recommended resources for the ARPA Court total \$619,220 and 2.0 FTEs. This includes \$613,420 of personnel resources and \$5,800 of operating resources. PBO also recommends \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

PBO recommends \$118,037 of ongoing personnel and operating resources to convert an Investigator SPW to 1.0 FTE within the County Attorney’s Office. This investigator will continue to support the County Attorney’s efforts to reconnect disengaged defendants with the court system. PBO does not recommend funding for a vehicle or radios for this position and recommends that the position continue utilizing the loaner vehicle provided by TNR and the radio provided from the County Attorney’s Office internal inventory.

PBO also recommends a total of \$263,456 of personnel resources for the Criminal Courts. This includes \$162,854 of ongoing personnel resources for 1.0 Court Reporter FTE to not only continue supporting ARPA court operations but to also provide ongoing court reporting support for all the Criminal Courts. Also included is \$100,602 of one-time personnel resources for a 1.0 Judicial Aide Specialist SPW for a two-year period, with an end date of September 30, 2026, to continue supporting the ARPA Court.

Furthermore, PBO recommends \$153,616 in one-time personnel funding for two two-year Court Clerk II SPWs with an end date of September 30, 2026, one each within the District Clerk’s Office and the County Clerk’s Office.

PBO recommends a total of \$84,111 in one-time resources, including \$81,311 in personnel and \$2,800 in associated operating resources, to support the continuation of the ARPA Court Case Worker SPW in the Public Defender's Office for two additional years with an end date of September 30, 2026.

Lastly, PBO recommends a \$100,000 Earmark against the Allocated Reserve for contracted Visiting Judges to assist with ARPA court judicial proceedings. Typically, the State of Texas contributes funding for District visiting judges, which has resulted in a remaining balance in previous years for the Criminal Courts Visiting Judge budget. PBO recommends that the Department first utilize their current Visiting Judge budgeted resources before requesting to access these earmarked funds. Because a major part of this Court's function is to support efforts to reduce backlog in the courts, PBO acknowledges the potential need for additional resources.

REQUEST #4: TRANSFORMATIVE YOUTH JUSTICE – CASE WORKERS

DEPT. SUMMARY OF REQUEST

The Criminal Courts request two case worker positions to assist with Judge Hernández’ Transformative Youth Justice (TYJ) program, a misdemeanor court-led diversion program for individuals ages of 17-20.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>

<i>New Measures</i>						
Number of People Supervised by the Worker	-	-	-	-	60	60
Number of People Successfully Completing Program	-	-	90	90	110	130

PBO RECOMMENDATION

County Court-at-Law #6 of the Criminal Courts operates the Transformative Youth Justice (TYJ) Program. The Department states, “The TYJ program addresses the specialized needs of young people who are justice involved, utilizing a holistic community-centered approach to provide participants with developmentally-appropriate support, intervention, and mentorship with a collaborative team of specially trained prosecutors, defense attorneys, community stakeholders, advocates, and service providers. If successful, the youth participants can resolve their case with a dismissal.” Emerging adults (17-24 years old) are disproportionately represented in both the Travis County justice system and in the Travis County jail population and have a statewide recidivism rate of 75 percent. The Department states that TYJ has recorded a 10 percent recidivism rate for graduates of their program. The Department further notes that, “TYJ statistics, as well as current best practice case studies and research, demonstrate lower revocation and incarceration rates when a system-impacted youth

has a case worker. Additionally, diversion programming, like TYJ, results in a reduction in the number of young people incarcerated which costs the County \$59.00 per person per day. Since January 2023, the recidivism rate for TYJ has remained under 10%.”

The program was restructured in the last year under the current Presiding Judge and now develops individualized plans for each participant based on the alleged offense and the specific needs of the participant. The Department notes this change resulted in a 188 percent increase of participants from last year and can be, “time-consuming, and requires many combined efforts.” Currently, the Department records a 5-10 participant graduation rate per month. The Department also anticipates the number of participants will grow and will require the assistance of at least two additional Case Workers. For reference, Case Workers for other comparable specialty programs such as the Veterans Treatment Court in the 450th Criminal District Court and Project Engage in the 403rd Criminal District Court have an active caseload of 32 participants and 27 participants, respectively. The Case Worker for the TYJ program in the County Court-at-Law #6 has a caseload of 119 participants. This is nearly five times greater than the caseload for the other comparable programs. In addition, per the Adult Drug Court Best Practice Standards, Vol. II, Section P.53 Supervision of Caseloads, which provides the model for developing Specialty Courts and programs recommends a supervision caseload ratio no greater than 50:1.

PBO recommends ongoing funding for 1.0 Case Worker FTE to support the Transformative Youth Justice program. This Case Worker will allow the Department to better serve the growing number of program participants and further tailor individualized plans for participants, all while working to maintain a supervision caseload ratio no greater than 50:1. The Transformative Youth Justice Program is aligned with the Commissioner Court priorities related to diversion within the justice system, particularly for the youth population, as access to a case worker can reduce revocation and incarceration for system-impacted youth.

REQUEST #5: MAINTENANCE OF CURRENT EFFORTS (MOCE)

<i>Program:</i>	District Courts Division (124)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Dpt Total + Earmarks	\$ 332,823	\$ 329,373	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This request seeks funds to replace the Criminal Courts basic technology equipment and software maintenance needed to operate the Criminal Courts per the standard Courts Technology Team replacement policy or the software maintenance agreement contract. A breakdown of the requested equipment is below:

<i>Detailed Summary of Equipment</i>	<i>Cost of Equipment</i>
Software (14)	\$111,350
Laptops (23)	67,800
Printers (39)	52,050
aiSMARTBENCH Maintenance and Support (17)	49,623
Computers (18)	32,000
Audio/Visual Maintenance (1)	20,000
Total	\$332,823

For clarity, the software breaks down into the following items:

<i>Detailed Summary of Software</i>	<i>Cost of Software</i>
Qlikview Analytics/Visualization	\$63,000
Zoom	18,000
Adobe	6,200
Manage Engine	4,500
Pluralsight	3,300
Box Virtual File Share	3,000
Alerting Media	2,500
SSL	2,000
Redgate	1,800
Caseview Cloud Court Reporters	1,750
Aspose Words & Barcode	1,600
Domain Renewal	1,500
Telerik	1,200
Asana	1,000
Total	\$111,350

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit performance measures for this request.

PBO RECOMMENDATION

PBO recommends \$329,373 to replace the Criminal Courts basic technology equipment and software maintenance. The Criminal Courts are able to reduce the number of large black/white printers that need to be replaced from 18 larger printers to 16 large printers and the number of small black/white printers that need to be replaced from seven printers to four printers which resulted in savings of \$3,450 from the original request. The requested and recommended quantities and unit costs are shown in the following table.

<i>Description</i>	<i>Unit Cost</i>	<i>Requested Quantity</i>	<i>Recommended Quantity</i>	<i>Recommended Total</i>
Software	\$7,954	14	14	\$111,350
aiSMARTBENCH Maintenance and Support	2,919	17	17	49,623
Laptop with Docking Station and Monitor	2,600	17	17	44,200
Large Color Printer	2,000	14	14	28,000
Standard PC	1,700	16	16	27,200
Large Black/White Printer	1,200	18	16	21,600
Audio/Visual Equipment Maintenance	20,000	1	1	20,000
Developer Laptop/CAPDS MacBook Pro	5,000	4	4	20,000
High-End PC	2,400	2	2	4,800
Standard Laptop	1,800	2	2	3,600
Small Black/White Printer	350	7	4	2,450
Total		112	107	\$329,373

REQUEST #UNRANKED: CAFA – INTERPRETERS FOR 24/7 OPERATIONS

DEPT. SUMMARY OF REQUEST

This proposal is a reserve request for the expense of full-time in-person Spanish language interpreters to be present during the representation of defendants at their first appearance at Magistration. The Department’s estimation of the amount required is \$663,815.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit performance measures for this request.

PBO RECOMMENDATION

PBO’s final recommendation for CAFA-related FY 2025 budget requests is pending a wider analysis of anticipated needs across all stakeholders intended to support an eventual full implementation of CAFA.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the

Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss PBO's draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioners Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

REQUEST #UNRANKED: MAGISTRATE JUDGE FOR NEW MAGISTRATE COURT

<i>Program:</i>	District Courts Division (124)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

DEPT. SUMMARY OF REQUEST

The Criminal Courts request a Magistrate Court to assist the nine District Judges and current single Magistrate in handling their heavy caseload. The Magistrate Court would begin after the ARPA grant ends, in the same physical courtroom as is currently used to address backlogged cases with ARPA funding.

BUDGET REQUEST PERFORMANCE MEASURES

Cases on dockets each September 30th	9,798	12,041	9,000	11,000	10,000	12,000

PBO RECOMMENDATION

As noted above, the Criminal Courts request a Magistrate Judge to create a new Magistrate Court, which would assist the District Criminal Courts to:

- Continue addressing the backlog of cases, including the enormous number of unindicted cases (currently over seven thousand) that the District Attorney and Criminal District Courts believe would benefit from a dedicated docket;
- Assist the current Magistrate Judge with taking pleas, conducting hearings on pretrial matters, handling mental health cases, and first settings;

- Ensure people accused of felonies get their first appearance as early as possible, to review any denial of appointed counsel, to reconsider bonds, and to give prosecution and defense a quick chance to dispose of cases, potentially alleviating jail population and resulting in quicker dispositions; and
- Support the District Criminal Courts to review and process efficient expunctions, essentially clearing arrest records for Travis County citizens who qualify.

Note if a new Magistrate Judge is created in the Criminal Courts, the Department would also likely request the creation of a 1.0 Judicial Aide Specialist FTE to serve as a Court Coordinator and a 1.0 Court Reporter FTE to support the operations of a new Magistrate Court. Other county offices and departments would likely also request additional resources to support these court operations and address the increase in workload from an additional Magistrate Court.

PBO does not recommend funding an additional Magistrate Court, or new Magistrate Judge as requested by the Criminal Courts due to space limitations caused by the current CAFA test shifts operating in the Auxiliary (AUX) Courtroom of the Blackwell-Thurman Criminal Justice Complex (CJC) where this proposed Magistrate Court would operate. Also, the ARPA Court also uses the AUX Courtroom when available and vacant courtrooms throughout the CJC when the AUX Courtroom is being utilized for CAFA or other court proceedings. This has limited the space capacity to add a new Magistrate Court. In addition, while this request would allow the Department an additional Magistrate Court to address limited court proceedings in the District Criminal Courts, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget, due to very limited resources. SB 2 (86th Legislature) does not allow the Commissioners Court to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute.

The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Criminal Courts is to provide a judicial forum in which misdemeanor and felony cases may be resolved in keeping with the laws of the State of Texas.

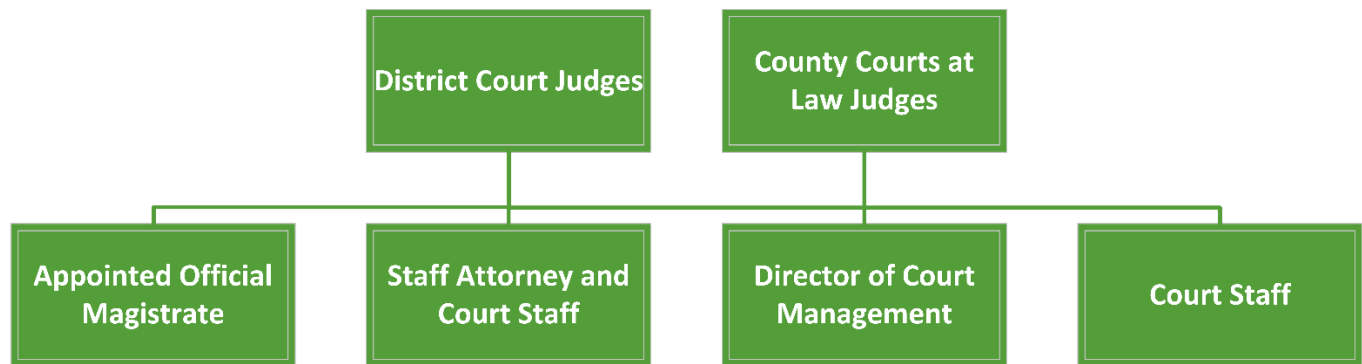

The Department has identified the following departmental goals:

- Create an efficient and fair system for the disposition of felony and misdemeanor cases;
- Support the Courts and broader justice system through smart technology and innovative approaches to system efficiency;
- Provide appropriate programs/dockets for our diverse populations; and,
- Enhance the visibility and transparency of the Court System.

This aligns with the new County goals of, “Be a trusted and well-run county,” and, “Promote economic well-being and racial, ethnic and economic equity.”

The Department is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes,” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

DISTRICT COURTS:

The goal of the District Courts is, “To create an efficient and fair system for the disposition of felony cases.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases in specialty court programs/dockets	900	2,506	2,500	2,500	2,500
% of cases disposed w/in 180 days	55%	72%	70%	60%	60%
Cases reaching the dockets	9,381	8,582	10,000	12,000	13,000
Clearance rate	85%	102%	100%	108%	107%
Total # of dispositions	8,035	10,088	10,000	12,000	12,000

The District Courts are statutorily mandated. The program identifies “percent of cases disposed of w/in 180 days”, “Clearance Ratio > 90 percent (Y=1, N=0),” and “percent of attorneys evaluated competency” as outcome measures. In FY 2022, the District Courts did not achieve a clearance rate greater than 90 percent due to the backlog of cases because of the COVID-19 pandemic; however, in FY 2023, the clearance rate exceeded 100 percent, showing that the District Courts began addressing the backlog of cases. Also, as seen in the measures, the District Courts anticipate that they will continue addressing the felony case backlog in future years, noting the impact of the pandemic on the Criminal Justice System.

In addition, the District Courts have experienced a significant increase in the “# of cases in specialty court programs/dockets” related to the shift in focus to diversion programs and courts. As diversion programs and specialty courts efforts are further developed, the Department may need additional resources to address the increase in defendants and participants.

.....
COUNTY COURTS:

The goal of the County Courts is, “To create an efficient and fair system for the disposition of misdemeanor cases.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases in specialty court programs/dockets	3,009	3,984	5,500	6,500	6,500
Cases reaching the dockets	11,847	13,459	15,000	15,000	15,000
Clearance rate	174%	132%	140%	140%	140%
Total # of dispositions	20,661	17,793	18,000	18,000	18,000

The County Courts are statutorily mandated. The program identifies “percent of attorneys evaluated for competency” and “Clearance Ratio > 90 percent (Y=1, N=0)” as outcome measures. The Department states that efficiency is measured by the time it takes to dispose of cases and how well the courts can keep up with the workloads assigned to them. The County Courts continue to experience clearance rates exceeding 100 percent, indicating that the Courts are addressing the backlog of cases because of the COVID-19 pandemic. The addition of the grant-funded ARPA Court has also assisted the County Courts in addressing the case backlog. This funding will be expended at the end of FY 2024.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	-	-	-	-	-
	15,630,362	16,350,326	16,915,125	18,634,044	1,718,919
Total (Per&Op)	\$ 15,630,362	\$ 16,350,326	\$ 16,915,125	\$ 18,634,044	\$ 1,718,919
	-	-	-	-	-
Grand Total	\$ 15,630,362	\$ 16,350,326	\$ 16,915,125	\$ 18,634,044	\$ 1,718,919
FTEs	-	-	-	-	-

Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the Criminal Courts Legally Mandated Fees Department increased by \$1,718,919 from the FY 2024 Adopted Budget, a 10.2 percent increase. The operating budget increased due to funds added to the Department to annualize the Public Defenders’ Office cost, and the CAPDS Enhancement Grant from the Texas Indigent Defense Commission (TIDC) ended on March 31, 2024. These resources were allocated to the budget for attorney fees.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

Change from FY 2024 Adopted	\$ 1,638,919	\$ 80,000	\$ -	\$ 1,718,919	-	\$ 2,249,834

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the Criminal Courts Legally Mandated Fees Department includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$1,138,919 was added to the budget related to ongoing costs to annualize the cost of the Public Defenders’ Office and CAPDS Enhancement Grant from the Texas Indigent Defense Commission (TIDC) that ended March 31, 2024. These resources were allocated to the budget for attorney fees.

The FY 2025 Preliminary Budget for the Criminal Courts Legally Mandated Fees Department includes the following increases:

<i>Programmatic Recommendations</i>	One-Time	Ongoing	Total	FTEs
Resources related to the hourly rate increase for criminal indigent attorneys were added.	\$-	\$500,000	\$500,000	-
Resources added to support the continuation of a contracted software programmer related to IDA/AMP	80,000	-	80,000	-
Total Programmatic Recommendations	\$80,000	\$974,000	\$1,054,000	-

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Department’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Criminal Indigent Defense Expenses	\$2,000,000
Cost of Living Adjustment (COLA) for CAPDS Contracted Employees	149,834
ARPA Court – Visiting Judges	100,000
Total Allocated Reserve Earmarks	\$2,249,834

ADDITIONAL INFORMATION

FUTURE CONSIDERATIONS

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). Thirty-eight test shifts will occur throughout FY 2024 on various days and times and conclude on September 30, 2024. The CAFA initiative is a crucial priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups, and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for the eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney’s Office, the Public Defender’s Office (PDO), the District Clerk’s Office, and the Sheriff’s Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will meet with each Office and Department to discuss our draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include the resources they requested for CAFA. PBO will incorporate these discussions and feedback to refine the cost of CAFA further and develop potential options for the Commissioner Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

DEPT. SUMMARY OF REQUEST

The Criminal Courts requested a Magistration Court to continue the American Rescue Plan Act (ARPA) funded Court, which has assisted the criminal court judges handle their heavy caseload when that funding ends. PBO suggested continuing the ARPA Court to address the remaining backlog of criminal cases due to the pandemic. The Department is now requesting the funds to continue the program through the end of the fiscal year 2025. The Department states that this ARPA Court will further the goal of creating an efficient and fair system for the disposition of felony cases by reaching cases earlier, facilitating prosecution and defense in quicker court appearances and hearings, and helping ease the backlog of jury trials for the criminal courts.

PBO RECOMMENDATION

In FY 2022, the Travis County Commissioners Court approved a contract with the Texas Judiciary to receive funds appropriated from the federal American Rescue Plan Act (ARPA). The grant period was from October 1, 2022, through March 31, 2024. This grant assisted Travis County Criminal Courts with the backlog of cases caused by the COVID-19 pandemic and funded six positions, including: 1) an investigator for the County Attorney's Office, 2) a Case Worker in the Public Defender's Office, 3) a Court Clerk II in the District Clerk's Office, 4) a Court Clerk II in the County Clerk's Office, 5) a Judicial Aide Specialist (Court Coordinator), and 6) a contracted Court Reporter within the Criminal Courts, which was converted to a full-time position because of the needs of the ARPA Court. Funding was also allocated for contract interpreters, visiting judges, and other operating needs.

Since its implementation, the Criminal Courts have noted that the ARPA Court has assisted with the disposition of cases and has unindicted case backlogs because of COVID-19. Per data provided by the Criminal Courts of Felony cases set on the Unindicted Docket in the ARPA Court, 23 percent are disposed of within 30 days of setting, and 35 percent are moved to a pretrial diversion program. The Department also notes that the time, in days, to disposition has decreased since the introduction of the Unindicted Docket for all felony cases, as shown in the table provided by the Criminal Courts below.

The Criminal Courts note the ARPA Court assisted with Felony cases set on the Jury Docket, specifically for Family Violence cases in County Court-at-Law 4, and notes that 49 percent of Felony cases set on this docket are disposed of within 30 days of the setting date, compared to a 28 percent disposition rate for regular dockets. Jury trials for the County Court-at-Law 4 also decreased by 52 percent since the implementation of the ARPA Court. The following table notes the reduced decrease in the number of Jury trials set for this court due to the assistance of the ARPA Court.

Due to the implementation of the ARPA Court, the County Court-at-Law 4 has a reduced caseload. The Department notes the County Court-at-Law 4 caseload decreased by 45 percent, as indicated in the following table.

In April 2024, CAFA test shifts began operating the Auxiliary (AUX) Courtroom of the Blackwell-Thurman Criminal Justice Complex (CJC), where the ARPA Court held operations. However, the Criminal Courts note this has not slowed ARPA Court operations, as the Department uses empty courtrooms rotating to continue ARPA Court operations. The Department is willing to continue using vacant courtroom space on a rotating basis due to CAFA test shifts. The area of the Travis County Jail identified to conduct CAFA will need to undergo repairs and renovations beginning in June 2024. These repairs and renovations could take approximately 18 months before the space can be utilized to conduct CAFA. PBO will work with Facilities Management, the Travis County Sheriff’s Office (TCSO), and other relevant stakeholders' offices and departments to update the Commissioners Court on the progress of these repairs as needed.

The Criminal Courts worked with the Grantor to extend the continuation of these grant-funded positions and identified grant savings to fund the positions until approximately September 2024. The FY 2024 Adopted Budget includes a \$305,495 Earmark against the Allocated Reserve for the continuation of the ARPA Court so these positions and operations could continue for the remainder of FY 2024. The County Attorney’s Office, the County Clerk’s Office, the Criminal Courts, the District Clerk’s Office, and the Public Defender’s Office requested to continue these positions for FY 2025. The following table notes the resources each Office and Department requested for FY 2025.

FY 2025 Requested Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$104,508	\$104,508	\$115,037	\$3,000	\$118,037	\$222,545	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Criminal Courts	263,456	-	-	263,456	-	-	-	263,456	0.00
Criminal Courts LMF	-	150,475	-	150,475	-	-	-	150,475	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Public Defender’s Office	-	-	2,600	2,600	81,311	2,800	84,111	86,711	1.00
Total	\$417,072	\$150,475	\$107,108	\$674,655	\$196,348	\$5,800	\$202,148	\$876,803	4.00

FY 2025 requested resources for the ARPA Court total \$876,803 and 4.0 FTEs. This includes \$613,420 of personnel resources, \$5,800 of ongoing operating resources, \$150,475 of one-time operating resources and \$107,108 of CAR/ITS resources.

The County Attorney’s Office requested \$222,545 and 1.0 FTE. This includes \$115,037 in personnel funding for a 1.0 Investigator FTE, along with \$3,000 in ongoing operating resources for supplies, travel and training associated with this position. The request includes \$104,508 in CAR/ITS funding for a law enforcement vehicle and radio equipment.

The County Clerk’s Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

The Criminal Courts requested a total of \$413,931 and 2.0 SPWs. This includes \$100,602 of one-time personnel resources for a Judicial Aide Specialist to serve as a Court Coordinator and \$162,854 of one-time personnel resources for a Court Reporter to support continued ARPA Court operations. The Criminal Courts also requested \$150,475 in one-time operating resources for contracted visiting judges to be budgeted in the Criminal Courts Legally Mandated Fees Department.

The District Clerk’s Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

Lastly, the Public Defender’s Office requested \$86,711 and 1.0 FTE. This includes \$81,311 of personnel resources, \$2,800 of ongoing operating resources for travel and equipment costs and \$2,600 in one-time centrally budgeted resources for computer of phone equipment related to the conversion of the Case Worker SPW position into a full FTE (1.0 FTE).

The Department further notes, “The ARPA Court will allow the Travis County criminal justice system to keep pace with an expanding population and backlogged cases reaching the docket. It will allow the Criminal Courts to maintain and improve the clearance rates of cases and the percentage of Felony cases disposed within 180 days.” PBO recommends the continuation of the ARPA Court in order to continue providing this level of service and addressing the criminal case backlog.

The following table notes PBO recommended resources for ARPA Court operations.

FY 2025 Recommended Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$-	\$-	\$115,037	\$3,000	\$118,037	\$118,037	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Criminal Courts	100,602	-	-	100,602	162,854	-	162,854	263,456	1.00
Criminal Courts LMF*	-	-	-	-	-	-	-	-	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Public Defender’s Office	81,311	2,800	-	84,111	-	-	-	84,111	0.00
Total	\$335,529	\$2,800	\$-	\$338,329	\$277,891	\$3,000	\$280,891	\$619,220	2.00

*PBO recommends a \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

FY 2025 recommended resources for the ARPA Court total \$619,220 and 2.0 FTEs. This includes \$613,420 of personnel resources and \$5,800 of operating resources. PBO also recommends \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

PBO recommends \$118,037 of ongoing personnel and operating resources to convert an Investigator SPW to 1.0 FTE within the County Attorney’s Office. This investigator will continue to support the County Attorney’s efforts to reconnect disengaged defendants with the court system. PBO does not recommend funding for a vehicle or radios for this position and recommends that the position continue utilizing the loaner vehicle provided by TNR and the radio provided from the County Attorney’s Office internal inventory.

PBO also recommends a total of \$263,456 of personnel resources for the Criminal Courts. This includes \$162,854 of ongoing personnel resources for 1.0 Court Reporter FTE to not only continue supporting ARPA court operations but to also provide ongoing court reporting support for all the Criminal Courts. Also included is \$100,602 of one-time personnel resources for a 1.0 Judicial Aide Specialist SPW for a two-year period, with an end date of September 30, 2026, to continue supporting the ARPA Court.

Furthermore, PBO recommends \$153,616 in one-time personnel funding for two two-year Court Clerk II SPWs with an end date of September 30, 2026, one each within the District Clerk’s Office and the County Clerk’s Office.

PBO recommends a total of \$84,111 in one-time resources, including \$81,311 in personnel and \$2,800 in associated operating resources, to support the continuation of the ARPA Court Case Worker SPW in the Public Defender's Office for two additional years with an end date of September 30, 2026.

Lastly, PBO recommends a \$100,000 Earmark against the Allocated Reserve for contracted Visiting Judges to assist with ARPA court judicial proceedings. Typically, the State of Texas contributes funding for District visiting judges, which has resulted in a remaining balance in previous years for the Criminal Courts Visiting Judge budget. PBO recommends that the Department first utilize their current Visiting Judge budgeted resources before requesting to access these earmarked funds. Because a major part of this Court's function is to support efforts to reduce backlog in the courts, PBO acknowledges the potential need for additional resources.

REQUEST #2: CAPDS HOLISTIC ENHANCEMENT

DEPT. SUMMARY OF REQUEST

The Criminal Courts are requesting the creation of new positions in CAPDS to meet needed capacity requirements and expand services to include peer support and housing support to eligible clients.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>

<i>New Measures</i>						
Number of SW and CM Clients Served	-	334	396	453	453	650

PBO RECOMMENDATION

On October 1, 2020, the Commissioners Court approved the Public Defenders’ Office and CAPDS Enhancement Grant from the Texas Indigent Defense Commission (TIDC). The grant covered April 1, 2020, to March 31, 2024, and is now wholly County funded. In addition to the establishment of the Public Defender’s Office and other CAPDS enhancements, this grant also created the following nine positions in CAPDS to aid with better overall representation:

- Two Supervising Attorneys;
- Two Immigration Attorneys;
- One Case Manager;

- One Legal Secretary;
- One Financial Analyst, Sr.;
- One Alternative Disposition Specialist Supervisor; and,
- One Alternative Disposition Specialist.

Since the addition of these positions, there has been a considerable increase in defendants experiencing mental health illnesses and disabilities and in need of case management and housing support. The Criminal Courts state, “Travis County is experiencing a significant uptick in the number of mentally ill individuals interacting with the criminal justice system. This results in system strain at various points, and individuals assigned outside of specialty mental health dockets are presenting more frequently with mental health needs.” While CAPDS utilizes dedicated staff such as three Social Workers and one Forensic Case Manager to assist these defendants and eligible defendants experiencing mental illness disabilities are placed on specialty mental health dockets, there is only one position, a Social Services Team Lead position, that provides case management support to address the growing number of defendants with mental health illnesses and address social service referrals. The increasing trend of social service referrals offered by the Department is noted below.

To address this increase, the Department requests the creation of four new positions in Holistic Defense: one Peer Support Specialist, one Case Manager, one Social Worker, and one Housing Specialist. The Department notes that these positions will better assist with addressing, “the needs of the indigent defendants with mental health issues that do not qualify for the limited space on the specialty mental health docket”.

On February 27, 2024, the Commissioners Court approved a contract amendment to the FY 2024 Public Defender's Office and MAC Enhancement grant through the Texas Indigent Defense Commission (TIDC). This amendment transferred \$200,000 from personnel savings generated in the Public Defender's Office to the grant budget's Contract Services line. It extended the grant term by six months from March 31, 2024, to September 30, 2024, so that an external evaluation that was previously postponed could be scheduled and conducted. This evaluation is anticipated to be underway by September 30, 2024. It will be shared by Community Legal Services (CLS) promptly once complete and can be used as a guide for future investments in Criminal indigent defense. PBO recommends waiting until the full results of this evaluation and accompanied justifications are known to expand any current services or programs within CAPDS so that the Commissioners Court can better understand the shortfall and needs to address indigent defense in Travis County.

REQUEST #3: ATTORNEY FEES FOR REPRESENTATION AT NON-STATUTORY HEARINGS

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 474,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Criminal Courts seek to amend the Fair Defense Plan to provide equal access to representation for indigent defendants represented by CAPDS panel attorneys, as those defendants are represented by the Travis County Public Defender’s Office. Representation at non-statutory required hearings improves the quality of indigent defense and ensures fair access to defense counsel across defender offices.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
% of attorneys evaluated competency	100%	100%	100%	100%	100%	100%
<i>New Measures</i>						
Number of Hearings Performed	0	0	0	0	1,300	1,300

PBO RECOMMENDATION

The Travis County Public Defender’s Office represents indigent criminal defendants at non-statutory hearings, such as protective order suits, parole hearings, administrative license revocations, and expunctions. The Criminal Courts are also requesting resources to provide this level of representation, and they state, “The outcome of these proceedings can have a lasting impact on both the related criminal case and the defendant. The present system requires CAPDS appointed counsel to work these proceedings without compensation or for the indigent defendant to represent themselves.” The Department further notes, “Giving indigent [criminal] defendants the same access to representation, regardless of the defense organization representing them, brings fairness into the criminal justice system.” This request supports equity of services between CAPDS and the Travis County Public Defender’s office. Because the Travis County Public Defender’s Office already

provides a more holistic approach to indigent defense, resources must continue to be directed toward comparable services within CAPDS, including representation at non-statutory hearings.

CAPDS has identified the following non-statutory hearings for which the Public Defender’s Office provided indigent representation and estimated the cost for each type of hearing in the following table.

FY 2025 Budget Request for Non-Statutory Hearings

<i>Type of Hearing</i>	<i>Average Cost/Hearing</i>		<i># of Hearings in FY 2025*</i>	<i>Total</i>
Administrative License Revocations (ALR)	\$337.50	X	500	\$168,750
Expunctions	300.00	X	500	150,000
Parole	540.00	X	185	99,900
Protective Order	450.00	X	123	55,350
Total				\$474,000

*Projected

As noted in the table above, CAPDS requests \$474,000 for projected attorney fees to provide indigent representation at non-statutory hearings. This includes \$168,750 requested for Driver’s License Revocations (ALRs) hearings, \$150,000 for Expunction hearings, \$99,900 for Parole hearings, and \$55,350 for Protective Order hearings.

The Department notes that providing representation at Administrative License Revocation (ALR) hearings, also known as Driver’s License Revocations, is currently part of a pilot and requires pre-approval from CAPDS upon showing a possible substantial benefit from providing counsel for such a hearing. This pilot is limited to 500 requests in the first year, and the Department anticipates an average cost of \$337.50 per hearing, resulting in an estimated cost of \$168,750 for ALR hearings.

Expunction hearings would also be included as part of a pilot and would be limited to 500 requests in the first year. After the first year, the Department would look to provide counsel to include all eligible cases and those required by law, including acquittals, pardons or writs granted for innocence, and successful completion of various court programs. For Expunction hearings, the Department projects an average cost of \$300 per hearing, resulting in an estimated cost of \$150,000.

CAPDS has also expressed a desire to provide counsel at Parole hearings to maintain equity with the level of representation provided by the PDO. The Department notes that most parole hearings are regarding felony charges and, thus, carry a similar hourly rate as a felony-level Criminal case. For Parole hearings, the Department estimates 185 hearings in FY 2025 at an average cost of \$540, resulting in a projected total of \$99,900.

Lastly, the Department wishes to provide representation at Protective Order hearings, which carry the same hourly rate as a Criminal case or flat fee misdemeanor. The Department notes that most cases cost approximately \$450 on average and estimates they could experience up to 123 hearings in FY 2025. This results in a projected cost of \$55,350 for Protective Order hearings.

PBO does not recommend funding this request but instead recommends that \$1,000,000 Earmark against the Allocated Reserve under Request #Unranked – Attorney Fees Hourly Rate Increase from which funds can be accessed to support CAPDS’s ability to provide representation in non-statutory hearings for indigent defendants, which the Department states lead to better outcomes for indigent defendants. This earmark will support the fair provision of defense for collateral matters across defender offices and ensure overall equity as outlined by the Fair Defense Plan.

REQUEST #6: COST OF LIVING ADJUSTMENTS (COLA) FOR CAPDS CONTRACTED EMPLOYEES

<i>Program:</i>	District Courts Division (194)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	160,024	-	-	-
Subtotal	\$ 160,024	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 160,024	\$ -	\$ -	\$ -
Earmark Allocated	-	149,834	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 149,834	\$ -	\$ -
Dpt Total + Earmarks	\$ 160,024	\$ 149,834	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Criminal Courts are requesting increased funding to provide COLA Increases for CAPDS contract employees to ensure the viability of continued high-quality Managed Assigned Counsel (MAC) services to indigent defendants who are constitutionally entitled to the appointment of counsel.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit performance measures for this request.

PBO RECOMMENDATION

The Criminal Courts are requesting an increase to their contract with CAPDS to provide a cost-of-living adjustment (COLA) to staff, specifically Social Workers, and to address the increasing cost of operations, supplies, travel, and training. CAPDS notes that historically, they have been able to fund COLAs for staff and other operational increases internally, but recent inflationary pressures have limited their ability to identify internal resources. The Department further notes, “The budget for the MAC programs, absent the enhancement salary supplements and initial ramp-ups, has remained the same since 2014. Operations costs, from insurance to office supplies, increased greatly during that time. There has been a huge increase in inflation in the last several years. Investment in CAPDS has not kept pace for operations costs.”

The Criminal District Judges approved an hourly attorney rate increase for Felony A cases from \$100/hour to \$155/hour, Felony B cases from \$90/hour to \$125/hour, and the supplemental language fee from \$20/hour to \$40/hour, effective April 1, 2024 to assist with reported challenges with the number of court-appointed attorneys available to take Felony A and B case appointments or represent Spanish speaking defendants and to help attract and retain court-appointed attorneys to

assist with the workload demands of the Justice System. These increases did not impact or increase the salaries of non-attorney staff, such as Social Workers, support staff, or other CAPDS contracted employees.

For this reason, PBO recommends an ongoing Earmark of \$149,834 against the Allocated Reserve for targeted COLA increases for CAPDS contracted employees. Before allocating this earmark, PBO would like to discuss this request further with the Criminal Court district judges to understand better the need for salary adjustments for CAPDS contracted employees.

REQUEST #7: SOFTWARE PROGRAMMER FOR INDIGENT DEFENSE APPLICATION (IDA)

<i>Program:</i>	District Courts Division (194)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 80,000	\$ 80,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Department requests \$80,000 in ongoing operating funding to support a contracted software programmer supporting the Indigent Defense Application and Attorney Management Portal (IDA/AMP). The current award-winning Indigent Defense Application and Attorney Management Portal (IDA/AMP) system manages the civil and criminal appointment system from beginning to end. The system has over 10,000 external users (primarily attorneys) and 70 internal Travis County employees across several departments and processes over \$25 million in attorney payments yearly. The system has over 3 million lines of code and stores approximately 40 terabytes of data. The Courts Tech Team began this large project in 2012 and developed it in phases, starting with the financial system. The Department did this with two full-time Travis County developers, a database administrator, a single contracted software architect, a few supporting business analysts, and a manager. The same staff also developed and managed a dozen other applications. Those in the Indigent Defense community regard IDA/AMP as the most comprehensive and advanced indigent defense application in the United States, and the dashboards provide both executives and PBO extensive analytics about the state of indigent defense in the county. IDA/AMP and its dashboards won a “Best in Texas” award from Governing Magazine in 2016.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>

Number of software PBIs or other requirement types completed	316	158	200	133	200	200
Courts Tech Team is reasonably able to complete the required work	Yes	Yes	Yes	No	Yes	Yes

PBO RECOMMENDATION

On October 1, 2020, the Commissioners Court approved the Public Defenders' Office and CAPDS Enhancement Grant from the Texas Indigent Defense Commission (TIDC). The grant covered April 1, 2020, to March 31, 2024, and is now wholly County funded. In addition to establishing the Public Defender's Office and other CAPDS enhancements, this grant also provided resources totaling \$80,000 for a software developer to assist with improvements. It continued the development of the Indigent Defense Application and Attorney Management Portal (IDA/AMP) system.

The IDA/AMP system tracks all complaints, including the classification, reporting, and number of complaints, client satisfaction surveys conducted, consultations with attorneys on performance, and decisions by the review committee to remove attorneys from the panel, among other metrics. This system also accepts and reviews electronically submitted detailed vouchers, including time reporting.

The grant-funded contract developer has been able to assist in updating the IDA/AMP system with new feature requests such as changing organizational needs, fee structures, wheel balancing with other departments (PD, MAC), and other system updates. The contracted developer also assists with training panel attorneys on time reporting procedures, audit and attorney evaluation procedures, and the electronic voucher system. The conclusion of the Public Defenders' Office and CAPDS Enhancement Grant from TIDC has left a gap in the funding to continue this contract developer, who is still needed to assist with urgent requests such as fee schedule updates and changes related to the potential implementation of CAFA.

PBO recommends \$80,000 in one-time operating funding to continue the contracted software programmer supporting IDA through FY 2025. PBO met with the Department, Civil Courts, and Information Technology Services (ITS) to further understand this request and concluded that this funding is required to maintain the current state of IDA/AMP.

REQUEST #UNRANKED: ATTORNEY FEE HOURLY RATE INCREASE

<i>Program:</i>	District Courts Division (194)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Dpt Total + Earmarks	\$ 1,500,000	\$ 2,500,000	\$ 500,000	\$ 500,000

DEPT. SUMMARY OF REQUEST

The Criminal Courts request funding to improve indigent defense by revising the fee structure, specifically increasing hourly rates for felony cases and the non-English supplement.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Amount spent on indigent attorney fees	\$5,791,154	\$6,101,503	\$8,272,972	\$8,272,972	\$9,057,250	\$9,510,112
% of attorneys evaluated competency	100%	100%	100%	100%	100%	100%
<i>New Measures</i>						
Number of Attorneys Taking at most minuscule 10 Criminal Appointments	115	113	140	110	140	140
Number of Incidents Assigned Per Attorney (Atty at least ten appts)	123	140	140	140	100	100

PBO RECOMMENDATION

As approved by the Criminal District Judges, effective April 1, 2024, the hourly attorney rate for Felony A and B cases increased from \$100/hour to \$155/hour, the hourly attorney rate for Felony B cases increased from \$90/hour to \$125/hour and the supplemental language fee increased from \$20/hour to \$40/hour to assist with reported challenges with the number of court-appointed attorneys available to take Felony A and B case appointments or represent Spanish speaking defendants and to

help attract and retain court-appointed attorneys to assist with the workload demands of the Justice System. These newly implemented hourly attorney rates also help Travis County remain competitive with surrounding and comparable counties. The following table notes how the new rate compares to other large counties.

Travis County Current and Proposed Attorney Hourly Rates Compared to Other Large Counties

<i>Charge</i>	<i>Travis (Former)</i>	<i>Travis (Current)</i>	<i>Harris</i>	<i>Williamson</i>	<i>Bexar</i>	<i>Tarrant</i>	<i>Hays</i>
Felony A (Felony 1)	\$100/hr	\$155/hr	\$175/hr	\$155/hr	\$150/hr	\$150/hr	\$125/hr
Felony B (Felony 2 and 3)	\$90/hr	\$125/hr	\$150/hr	\$125/hr	\$125/hr	\$50/hr	\$75/hr
Supplemental Language Fee	\$20/hr	\$40/hr	\$50/Appearance	\$150/case	N/A*	\$250/hr	N/A*

*These counties do not have a supplemental language fee.

On the high end, PBO estimates that the ongoing annualized impact of the proposed fee changes could be up to \$1,500,000 above the Criminal Courts Attorney Fee FY 2024 Adopted Budget. This additional \$1,500,000 was included in the FY 2025 Budget Guidelines planning parameters approved by the Commissioners Court on February 27, 2024. While PBO estimates that additional resources could be needed in FY 2025, it would also like to note that the impact of the proposed rate increases will not be fully realized until the cases assigned after the effective date of the hourly rate increase are disposed of. The following table summarizes the Criminal Attorney Fee budgets, expenditures, and remaining balances, as well as the projected costs for FY 2025, based on the proposed hourly rate increases previously mentioned. Please note that the Attorney Fee Budget amounts and expenditures noted below are comprised of General Fund resources only and do not include any grant resources provided by the Travis County PDO and MAC Enhancement Grant with Texas Indigent Defense Commission (TIDC), which ended on March 31, 2024.

Summary of Attorney Fee Budget for the Criminal Courts, Including Projected Expenditures for the Proposed Hourly Rate Increase

<i>Fiscal Year</i>	<i>Attorney Fee Budget</i>	<i>Expenditures</i>	<i>Remaining Balance</i>
2025*	\$12,949,275	\$13,449,275	(\$500,000)
2024**	11,353,293	11,104,856	248,437
2023	9,757,311	9,328,142	429,169
2022	9,757,311	7,505,944	2,251,367
2021	10,155,620	6,273,223	3,882,397
2020	10,155,620	7,316,590	2,839,030
2019	9,580,620	9,452,943	127,677
2018	8,580,620	8,704,161	(123,541)
2017	8,578,620	7,723,571	855,049
2016	7,874,254	6,857,798	1,016,456
2015	7,634,254	6,640,851	993,403

*Based on the proposed hourly rate increase as noted above, effective April 1, 2024, and expenditures as of April 30, 2024.

**Projected expenditures and projected remaining balance as of April 30, 2024.

As noted above, PBO estimates that the Criminal Courts will experience a shortfall of \$500,000 due to the recently implemented increases in the hourly attorney rate. For this reason, PBO recommends ongoing resources of \$500,000 so that the Department may have budgeted resources to address the anticipated increase in attorney fees. As with previous years, the Department has been able to allocate savings from other budgeted lines within the Criminal Courts Legally Mandated Fees Department to address any shortages of attorney fees. PBO recommends that the Department continue to utilize departmental savings, as available, to address the anticipated increase in expenditures. PBO also recommends a \$1,000,000

ongoing Earmark against the Allocated Reserve if these additional resources are insufficient. This earmark can also support Request #3 – Attorney Fees for Representation at Non-Statutory hearings.

In addition, the Criminal Courts are experiencing an increased backlog of unindicted felony cases. The following table notes the growing number of unindicted felony cases in Criminal Courts.

Felony Unindicted Cases

Fiscal Year*	Unindicted Cases Pending on Dockets
2024	6,586
2023	5,478
2022	6,367
2021	4,457
2020	2,387
2019	2,771

*As of October 1st of the noted fiscal year.

As noted above, the Criminal Courts have experienced a 3,815 increase in felony unindicted cases, representing a 137.7 percent increase in the felony unindicted case backlog. To address the increased number of unindicted cases in the Criminal Courts and the potential for a one-time spike of expenditures as this backlog is addressed, PBO also recommends a one-time \$1,000,000 Earmark against the Allocated Reserve to address the unindicted case backlog.

PBO will continue to work with the Criminal Courts to monitor expenditures and adjust this recommendation as needed. The Commissioners Court approved a contract amendment to the Travis County PDO and MAC Enhancement Grant with the Texas Indigent Defense Commission (TIDC) in the Public Defender's Office and the Criminal Courts (CAPDS) to adjust the grant to allow funds to be expended for an approved external evaluation. This evaluation is anticipated to be underway by September 30, 2024. It will be shared by Community Legal Services (CLS) promptly once complete and can be used as a guide for future investments for Criminal indigent defense.

REQUEST #UNRANKED: CAFA – CAPDS STAFFING FOR 24/7 OPERATIONS

DEPT. SUMMARY OF REQUEST

The Criminal Courts request funding to implement the representation of individuals facing criminal charges at magistration hearings as part of Travis County’s Counsel at First Appearance Initiative.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit performance measures for this request.

PBO RECOMMENDATION

PBO’s final recommendation for CAFA-related FY 2025 budget requests is pending a wider analysis of anticipated needs across all stakeholders intended to support an eventual full implementation of CAFA.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney’s Office, the Public Defender’s Office (PDO), the District Clerk’s Office, and the Sheriff’s Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss PBO’s draft recommendations for the FY

2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioners Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

Request #6: Case Exhibits Archivist	28

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Travis County District Attorney Office's mission is to keep communities safe, to treat all people with dignity and respect, and to build a system that fosters mutual respect and trust between the District Attorney's Office and the people served. The Office strives to:

- Use research and evidence-based data to design policies to keep us safe;
- Treat all victims with dignity and respect;
- Not use wealth to determine public safety;
- Treat substance abuse and mental health disorders as public health issues;
- Hold powerful actors accountable, regardless of their job title or the size of their bank account; and
- Value families, communities and the right of every person living in Travis County to feel safe.

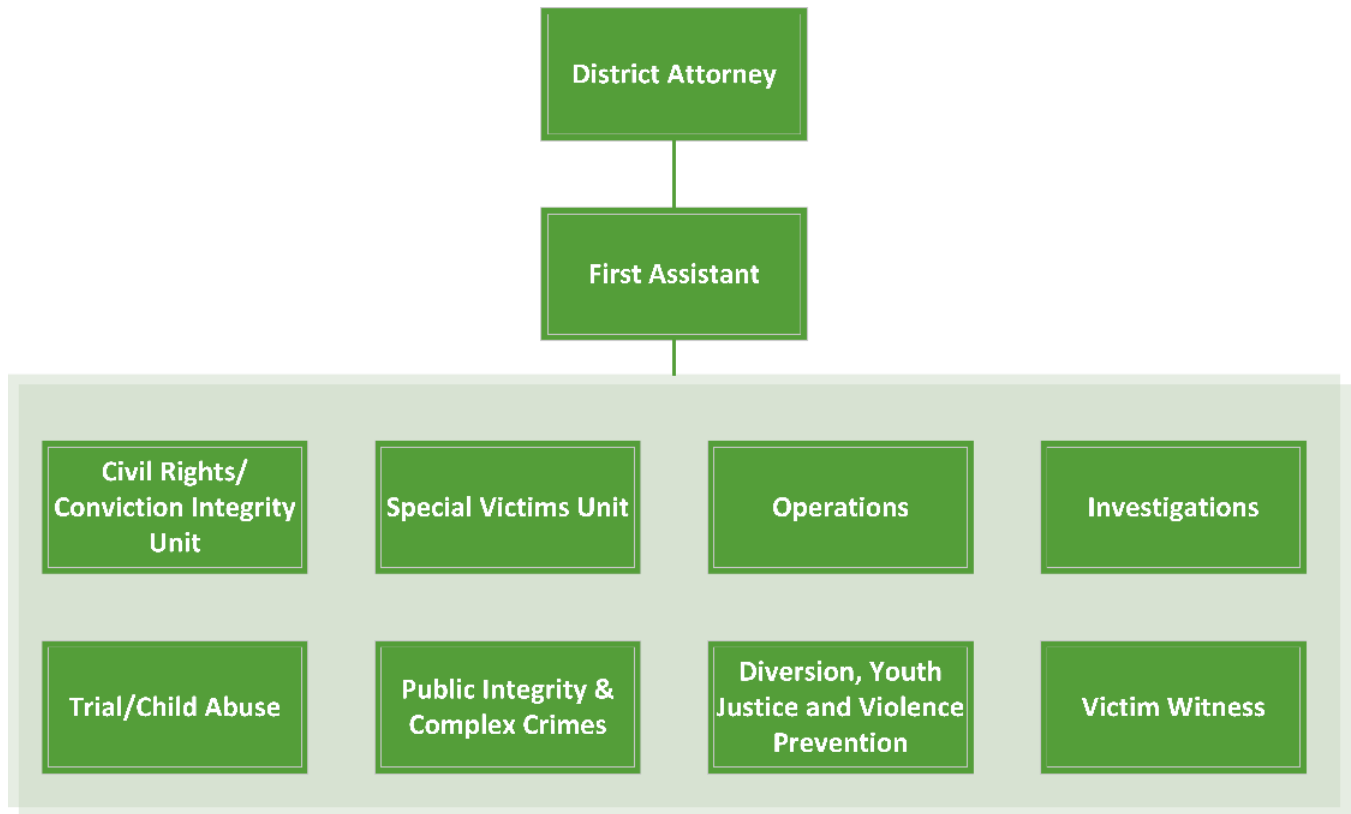

The Office has identified the following departmental goal(s):

- Involve the community as a partner in the justice and social services process;
- Improve the administration of justice while enforcing the law efficiently and fairly;
- Improve the quality of case preparation and case presentation;
- Improve the efficiency of case management;
- Expand the use of diversion programs in order to address the root causes of crime in our community;
- Improve the efficiency and effectiveness of office operations to ensure the wise use of taxpayer resources;
- Treat victims with dignity and respect;
- Maintain an office environment that supports and encourages teamwork, employee growth, initiative, and outstanding performance; and
- Fulfill statutory requirements as we represent the State of Texas.

These goals align with the new County goal: "Provide services that support the safety of people in the community."

The Office is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides various programs and services mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so County resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

PRE-INDICTMENT, YOUTH JUSTICE AND VIOLENCE PREVENTION:

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure	Projected FY 2026 Measure
# of juvenile dispositions	893	1,273	1,000	1,000	1,000
# of juvenile petitions filed	474	749	600	600	500
# of mental health felony cases handled by the team	873	1,163	900	900	900
# of mental health felony defendants handled by the team	619	699	650	650	650
# of defendants accepted into diversion programs	1,213	792	1,000	1,000	1,000

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases dismissed prior to indictment	4,344	6,011	5,500	5,000	5,000

Recently, the Office decided to expand diversion into a pre-indictment unit so that cases that may not be eligible for diversion would still be reviewed to resolve non-violent instances earlier in the process. The division, formerly the Diversion, Youth Justice, and Violence Prevention Division, has been renamed the Pre-indictment, Youth Justice, and Violence Prevention Division. The Office notes the following responsibilities for this division:

- Oversight of all diversion programs and related staff;
- Oversight of all mental health programs;
- Community outreach to include speaking engagements and serving on advisory boards;
- Taking a lead role in setting up expunction clinics, in coordination with the District and County Clerks, to assist low-income individuals who are legally eligible to have prior arrests and prosecutions removed from their criminal record;
- Improving internal training efforts on diversity, diversion, and social justice issues;
- Office diversity recruitment;
- Juvenile justice;
- Implementing innovative pilot programs designed to reduce violence in our communities; and
- Staffing early case review and magistration.

The Office states, “A successful Pre-Indictment, Youth Justice and Violence Prevention Division will improve safety in Travis County, and we expect more cases to be resolved pre-indictment as we devote more resources to efficient dispositions for non-violent cases in order to make victims whole again. The impact of this Division will be felt throughout the office and the entire community, as recruitment efforts are expanded to new areas, participation in cross-agency task forces increases, and we are able to more effectively communicate to the public about various initiatives.”

The Office has placed an increased emphasis on diversion and early case review. These initiatives have resulted in more cases being dismissed before indictment, as shown above. New initiatives and direction from the Commissioners Court regarding diversion efforts may increase workload and the need for additional staff in the future.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Assistant Director for Diversion, Youth Justice and Violence Prevention	\$159,072	1.0/1.0	The Office states, “Program implementation is on track, and the Office hopes to expand the scope of the juvenile restorative justice program overseen by this position. A budget request is associated with the position and the program as a whole. Outcomes tracked closely to or exceeded projections, and the office expects outcomes to continue to exceed expectations once the prosecutor-led diversion program is in place. The Transformation Project pilot program (funded internally and with grants to partner agencies) has yielded positive outcomes thus far.”

CIVIL RIGHTS DIVISION:

The goals of the Civil Rights Division are to, “Improve the administration of justice while enforcing the law efficiently and fairly,” and, “Involve the community as a partner in the justice and social services process.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Civil Rights investigations opened	56	43	30	30	30
Civil Rights investigations presented to a Grand Jury	26	6	5	5	10
Civil Rights Investigations Closed	39	40	50	40	40

The Division contains the Civil Rights Unit (CRU) and the Conviction Integrity Unit (CIU).

The Civil Rights Unit (CRU) is responsible for investigating all allegations of use of force involving law enforcement. Specifically, the CRU investigates and—where the investigation reveals criminal conduct—prosecutes the following critical incidents:

- All officer-involved shootings resulting in death or injury;
- All officer-involved discharges of weapons directed at a person;
- All officer-involved uses of force resulting in bodily injury;
- All in-custody bodily injuries; and
- All in-custody deaths.

The Conviction Integrity Unit (CIU) works to remedy all wrongful convictions stemming from District Court criminal convictions in Travis County. The CIU reviews any claims over which it has jurisdiction where a defendant alleges that they are innocent of the offense for which they were convicted or the conviction or sentence represents a miscarriage of justice, including the following types of claims:

- Actual Innocence/Wrongful Convictions;
- “Junk Science” Issues;
- Presentation of False Evidence;
- Misconduct by Governmental/Law Enforcement Personnel; and
- Historical Prosecution Review Issues.

The Office notes three critical measures of the CIU’s effectiveness include: (1) the number of cases or referrals reviewed by the CIU; (2) the number of cases disposed of through closure following CIU review; and (3) the number of CIU cases disposed of through court action.

INVESTIGATIONS:

The Office has identified the goals of the Investigation Division (ID) as the following:

- Improve the administration of justice while enforcing the law efficiently and fairly;
- Improve the quality of case preparation and case presentation; and
- Treat victims with dignity and respect.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of Grand Jury subpoenas served	1,427	1,937	2,000	1,500	1,500
# of subpoenas served for vehicular crimes	338	292	300	300	300
# of victim/witness contacts	17,325	17,897	17,500	17,500	18,000

The Office notes that the need for digital forensics evidence analysis will increase, requiring more experienced investigators. This change in the need for digital forensics will include technologies and digital media such as cell phones, tablets, laptops, flash drives, and hard drives. Additional responsibilities include ordering, redacting, and editing all digital media evidence prepared in electronic formats for presentations. To fulfill these responsibilities, Investigators must acquire and maintain advanced digital evidence retrieval and processing skills. The Office also notes that victims and witnesses in cases tend to be more mobile than the general population, which requires additional efforts and resources to locate a victim or witness, which is often difficult to control.

One Chief Investigator is responsible for the investigative work completed by the other 20 FTEs and participates in the assembly of evidence in felony criminal cases, ensures the security of the elected District Attorney and other employees of the District Attorney's Office, ensures that all ID FTEs complete training which the State mandates, maintains all operational and administrative records in compliance with Texas Commission on Law Enforcement mandates, and implements goals, objectives, policies, and procedures for the ID.

The Office further notes that rapid response times are a primary focus of the ID, whether protecting the elected District Attorney and other employees of the District Attorney's Office, receiving a request for evidence, locating a victim or witness, or serving a subpoena. In addition, each Investigator works with the originating agency to ensure the submitted prosecution packets are complete, the Office is not violating any Brady rules and is in compliance with the Michael Morton Act.

TRIAL DIVISION:

The goals of the Trial Division are to, "Improve the administration of justice while enforcing the law efficiently and fairly," and to, "Improve the efficiency of case management."

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of cases received	8,207	8,737	8,500	8,500	9,000
# of convictions	4,189	5,160	5,000	4,500	4,500
# of dispositions	7,301	10,504	9,500	9,500	9,500
# of jury trials	18	27	35	40	40
# of civil petitions filed	239	260	275	275	275
# of civil hearings conducted	4,399	3,000	3,000	3,000	3,000
Average # of days between date received and indictment on all cases	182	177	190	175	175
Average # of days between date received and information on all cases	208	231	200	200	200

The Travis County Criminal District Courts closed during COVID, and partially opened in the spring of 2022. Since then, not all Courts have returned to a full five day in-person schedule. However, as courts returned to normal, the number of dispositions has increased.

The Trial Division has several sections.

The largest is the Trial Courts section, representing the State of Texas in all felony criminal cases pending in District Court not assigned to a specialized unit. Assistant District Attorneys (ADAs) and support staff in the division accomplish the following:

- Review and prepare cases ranging from state jail felonies to capital murder for prosecution;
- Make sentencing recommendations and negotiate pleas;
- Provide defense attorneys with discovery of all evidence in the case;
- Appear in District Court during all phases of the prosecution to participate in pre-trial hearings, pleas, and sentencings, trials before the court, jury trials, and probation revocation hearings;
- Advise and assist law enforcement at all stages of criminal investigations, including assisting with search warrants, probable cause affidavits, and mobile tracking device orders; and
- Advise victims about the criminal justice process and discuss appropriate plea recommendations. The attorneys also appear in the Magistrate Court to negotiate or expedite resolutions on jail cases.

The Trial Division also includes the Child Abuse section, which investigates and prosecutes cases involving sexual abuse, physical abuse, and homicides of children. The investigation process includes crime scene investigation, staffing with law enforcement officials, and presentation to the Grand Jury for indictment. After the indictment, this unit continues to investigate cases, meets with the victim before the trial and should no plea agreement be reached, prosecutes the case to a jury for final disposition. The Child Protection Team comprises one ADA and a legal secretary who support staffing and intake for criminal child abuse and civil CPS cases.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Continuing Homicide Staff	\$253,465	2.0/1.0	The Office states, "The DA's Office proposes to internally fund the SPWs again in FY 2025. One of the positions is filled. The other is vacant only because we have attempted to move staff into permanent FTE positions whenever there is attrition. Outcomes have tracked closely to projections, which are difficult to predict given the cyclical nature of crime rates and particularly so given that the SPWs were added during a pandemic that contributed to anomalies (like higher homicide rates across the country)."

SPECIAL VICTIMS UNIT:

The Special Victims Unit's goals are to, "Improve the quality of case preparation and presentation," and, "Improve the efficiency of case management."

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of family violence cases indicted	1,455	1,128	800	1,000	1,000
# of family violence cases completed	1,508	2,229	1,600	1,500	1,500

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of days from indictment to disposition – family violence	457	461	445	450	430
# of days received to indictment – family violence	258	216	154	175	175
# of days from indictment to disposition – sexual assault	561	536	730	550	550
# of days received to indictment – sexual assault	299	257	198	225	225

The Special Victims Unit (SVU) is a mandated program, and the outcome measures in the SVU are primarily measured in case indictments, dispositions, and terms of hearings. The primary functions of the SVU are to screen cases for prosecution, prepare them for indictment, and prosecute them to disposition. The Special Victims Unit (SVU) contains the Family Violence (FV) Unit and the Sexual Assault (SA) Unit.

“The FV Unit exclusively handles the prosecution of intimate partner family violence cases, ranging from third-degree felony assaults to family violence-related homicides. The unit has experience and training in handling these cases and the unique dynamics involved in these offenses. The unit is committed to pursuing justice in these cases, providing support to victims, and protecting the safety of individual victims and the larger community. The FV Unit is led by a Division Director and a Team Lead. The FV unit is comprised of dedicated prosecutors in each of the 9 district courts, 2 investigators, 4 legal secretaries, and 2 paralegals. They are also supported by 9 Victim Counselors.

The Sexual Assault (SA) Unit exclusively handles the prosecution of adult sexual assault cases, both involving intimate partners and non-intimate/stranger cases. The SA Unit is led by a Division Director and a Team Lead. The SA unit is also comprised 4 additional prosecutors (one of which is grant-funded), 1 investigator, 1 paralegal, 1 victim counselor, and 1 legal secretary. The Division Director and the prosecutors in the SA Unit serve on-call on a rotating basis to provide legal advice 24-7 to Law Enforcement agencies investigating these crimes.”

The primary functions of the SVU are to screen cases for prosecution, prepare them for indictment, and prosecute them to disposition. In 2021, Travis County settled a lawsuit sexual assault survivors brought against the previous District Attorney. As a result of that settlement, the unit spends significant time collecting data, attending stakeholder meetings with the Austin Police Department (APD), the Sexual Assault Response and Resource Team (SARRT), community advocates, and other local organizations to, “ensure that the unit lives up to the promise of the settlement.”

PUBLIC INTEGRITY AND COMPLEX CRIMES:

The goals of the Public Integrity and Complex Crimes (PICC) Division are the following:

- Involve the community as a partner in the justice and social services process;
- Improve the administration of justice while enforcing the law efficiently and fairly;
- Improve the quality of case preparation and case presentation;
- Improve the efficiency of case management; and
- Treat victims with dignity and respect.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
WCCU cases opened	65	27	40	40	40
WCCU cases filed in court	33	23	15	10	10
WCCU cases opened	65	27	40	40	40
PIU cases filed in court	28	37	40	40	40
PIU cases opened	144	137	100	100	100
PIU restitution ordered	\$1,252,014	\$556,192	\$300,000	\$300,000	\$500,000
Asset forfeiture cases resolved	25	4	2	2	2
Asset forfeiture petitions initiated	11	5	12	10	10

The Public Integrity and Complex Crimes (PICC) Division is a specialized division of the District Attorney’s Office that investigates and prosecutes the following:

- Complex fraud and financial crimes;
- Insurance and workers' compensation fraud;
- Fraud targeting public funds and government programs;
- Allegations of wrongdoing by government employees and officials;
- Environmental crimes;
- Asset forfeitures; and
- Cases involving identity theft and elder fraud.

The Division also handles open records requests in collaboration with the Operations Division and reviews and approves search warrants for cell phone pings and geofences. Travis County’s population growth has created more white-collar and other economic crime opportunities. PICC is placing a greater emphasis on the investigation and prosecution of wage theft by employers. The Office states, “Due to resource limitations, PICC typically handles financial crimes where the value of the loss is greater than \$50,000. The unit may still prosecute cases below that threshold if the facts are complex and forensic accounting work is needed to prove the case. Less complex and lower value cases are referred to the Trial Division.” In FY 2022, the District Attorney’s Office received a grant from the Public Rights Project (PRP), which partially funds an Assistant District Attorney, focusing on wage theft issues.

The Public Integrity Unit (PIU) within PICC handles fraud cases targeting government programs, property, or other public funds. It also handles cases in which government employees or officials have committed crimes in connection with their office or employment.

In FY 2024, the Appellate section moved to this division and is now known as the Appeals and Complex Litigation Support (ACLS). The ACLS Team has the following responsibilities:

- Handles all appellate and postconviction writs of habeas corpus stemming from felony convictions in Travis County district courts, except those matters handled by the Office’s CIU, and litigates any evidentiary hearings in those habeas cases;
- Addresses time-sensitive interlocutory appellate matters, including litigating mandamus and prohibition petitions, pretrial writs of habeas corpus, extradition writs, and appealable district court rulings on pretrial motions;
- Pursues petitions for discretionary review, petitions for review, and petitions for writ of certiorari from higher appellate courts when needed to ensure that justice is done; and

- Provides support to all other units in the Office by providing research, legal analysis, and advice on pending issues impacting the Office.

Further, the ACLS Team’s postconviction workload includes appellate litigation of criminal convictions for felony offenses and misdemeanor offenses involving official misconduct, juvenile adjudications for felony and misdemeanor offenses, postconviction motions for forensic DNA testing, and judgments in civil termination of parental rights cases.

VICTIM SERVICES:

The goal of the Victim Services Division is to, “Treat victims with dignity and respect.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of times made contact with victims or witnesses	33,557	35,857	30,000	30,000	33,000
# Victims served (number of victims assisted)	8,475	8,007	10,000	10,000	10,000
Ratio of services to victims & witnesses	0.25	0.22	0.30	0.30	0.33

In FY 2022, the administration created a standalone Victim Services Division. The Victim Services Division is responsible for providing services to victims of crime as mandated by the Texas Constitution Article 1, Section 30, Chapter 56 of the Code of Criminal Procedure, and Chapter 57 of the Family Code. Staff in this division work with victims of violent felonies, including victims of sexual assault, kidnapping, aggravated robbery, burglary, and domestic violence. In addition, they work on cases that involve injury to a child, elderly individuals or disabled victims or people who have suffered personal injury or death because of the criminal conduct of another.

Witness coordination services are extended to subpoenaed witnesses and include court information, travel and lodging arrangements, assistance with reimbursement forms, interpreter services, and special services required by persons with disabilities. Counseling referral services are also available for witnesses.

The Office states, “The Victim Services Division seeks to attain an outcome where its contributing staff alleviate as much of the difficulty of being a victim or a witness in the state’s criminal justice system as they possibly can, as well as make sure their mandated rights are afforded to them.” The Victim Services Director has worked closely with the Office’s Program Coordinator (Grants Manager) to secure new resources for Victim Counselors to, “manage their growing caseloads and to ensure all victims are receiving the care and support they need.”

OPERATIONS:

The Office has identified the goals of the Operations Division as the following:

- Improve the efficiency and effectiveness of office operations to ensure the wise use of taxpayer resources;
- Fulfill statutory requirements as we represent the State of Texas; and,
- Treat victims with dignity and respect.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of Applications/ Supported & Created	80	70	78	80	83
# of open records requests	386	581	590	550	550
Amount of restitution collected	\$959,795	\$1,186,043	1,000,000	\$1,000,000	\$1,000,000

The Operations Division is responsible for planning, implementing, and coordinating legal support and business functions of the District Attorney’s Office. Included among the services the Division provides are budget development and oversight, accounting, purchasing, legal support staff management, information systems management, grants, and interlocal administration, strategic planning, hot checks, and restitution payments, employee travel coordination, language interpretation and translation, facilities management, human resources, and personnel administration. The Operations Division staff assists the Public Integrity and Complex Crimes (PICC) Division with open records and expunctions and Victim Services with arranging travel for witnesses needed to testify during the trial.

The Office states, “Operations accounting and finance personnel seek to manage a \$32 million budget with only four FTEs fully dedicated to this task, making its ratio of indirect costs to direct one of the lowest in the County.” Two FTEs in the Hot Checks section process all felony hot checks cases in Travis County and track all felony criminal restitution cases in which money is due to the victim. Midyear, in FY 2021, the District Attorney’s Office internally funded a Program Coordinator FTE who serves as the Office’s Grants Manager. The incumbent actively seeks opportunities to fund priorities for the Office outside of County resources. The Office notes that this program is measured daily to ensure successful day-to-day operations for the entire office.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Expert Witness and Forensic Testing	\$60,000	-/-	The Office states, “TCDAO continues to need experts for cases and the annual budget allocated for it is insufficient. We have again submitted a budget request for operating funds to address the shortfall we experience in being able to pay for mandated court-related costs. Travis County receives reimbursements from the State of Texas for certain witness travel expenses. The revenue received thus far seems to be in line with projections.”

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	27,652,337	28,975,454	30,938,138	31,914,789	976,651
Operating	989,476	996,321	943,871	935,991	(7,880)
Total (Per&Op)	\$ 28,641,813	\$ 29,971,775	\$ 31,882,009	\$ 32,850,780	\$ 968,771
CAR*	-	-	-	-	-
Grand Total	\$ 28,641,813	\$ 29,971,775	\$ 31,882,009	\$ 32,850,780	\$ 968,771
FTEs	234.50	234.50	234.50	234.50	-

Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the District Attorney’s Office increased by \$968,771 from the FY 2024 Adopted Budget. This is a 3.0 percent increase. Most of the increase was in the personnel budget due to FY 2024 compensation originally budgeted in the compensation reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the District Attorney’s Office includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$747,312 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget, including \$680,417 of personnel resources removed for an Assistant Director for the Pre-indictment, Youth Justice, and Violence Prevention program, two Victim Counselors, Srs. and two Attorneys that assisted with the increase of homicide and provided support to victim’s families, that the Office is now internally funding on a one-time basis, and an Attorney V that assisted with the review of case exhibits at the Travis County Heman Marion Sweatt Courthouse (HMS). One-time operating resources totaling \$36,895 related to these positions and \$30,000 for expert witness and forensic testing expenses were also removed.

The FY 2025 Preliminary Budget for the District Attorney’s Office includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources added to continue funding one County/District Attorney Division Director Assistant so that the Office may continue the implementation of the Travis County Transformation Project (TCTP) and assist with other pilot projects in the Office for two additional years with an end date of September 30, 2026.	\$211,747	\$-	\$211,747	-
Resources added to continue funding Attorney V as an SPW and related operating resources to continue the review of case exhibits located at the Heman Marion Sweatt Travis County Courthouse (HMS) for one additional year with an end date of September 31, 2025.	142,076	-	142,076	-
Resources added related to increased court costs and services expenditures within the Office.	-	100,000	100,000	-
Resources were removed from the Office because the Center for Child Protection contract moved from the District Attorney’s Office to the Health and Human Services Department (HHS).	-	(70,000)	(70,000)	-
Total Programmatic Recommendations	\$353,823	\$30,000	\$383,823	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for the District Attorney’s Office includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Travel and Training Restoration	\$-	\$25,155	\$25,155	0.0
Total Administrative and Other Funding Changes	\$-	\$25,155	\$21,155	0.0

Included in the FY 2025 Preliminary Budget is a 50 percent restoration of travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County’s budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$25,155 in ongoing operating resources for the District Attorney’s Office. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the District Attorney’s Office includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.		\$-	\$948,985
Resources for adjustments to the Peace Officer Pay Scale (POPS) in FY 2024.		-	149,396

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the annual POPS Step Increase for eligible employees in FY 2024.	-	71,473	71,473
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	9,843	9,843
Resources for health insurance cost increases for FY 2025.	-	127,408	127,408
Total Compensation Changes	\$-	\$1,307,105	\$1,307,105

Compensation adjustments for FY 2024 were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. The Preliminary Budget Volume I document contains a complete description of all compensation adjustments.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

The Office states that they, “reorganized significantly in FY 2024 and has further refined this reorganization within their FY 2025 budget submission. There are now five Attorney Directors, one Senior Director, and two Assistant Directors reporting to the First Assistant under the new structure. This was done via a series of consolidations, which included moving the Child Abuse unit, expanding the scope of the Pre-Indictment, Youth Justice, and Violence Prevention division, maintaining a separate Victim Witness Services Division, and moving Open Records and Extraditions to other divisions.”

In their FY 2025 Budget Submission, the office internally funded \$244,927 in career ladder increases for 35 attorney positions.

The Office also internally funded 8.0 SPWs to address homicides and major crimes, including four Attorneys, three Victim Counselors, and one Paralegal.

Lastly, the Office also internally funded reclasses of a County/District Attorney Division Director Assistant to a County/District Attorney Division Director, a County/District Attorney Division Director Assistant to a Paralegal, and a Paralegal, Sr. to an Office Manager, Sr. within their FY 2025 Budget Submission. These personnel changes are pending the Human Resources Management Department (HRMD) review.

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Office’s budget and require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Data Analyst	\$177,870
Court Costs and Services	80,000
Total Allocated Reserve Earmarks	\$257,870

ADDITIONAL INFORMATION

VACANT POSITIONS

As of April 22, 2024, the Office currently has one vacancy, a 1.0 Paralegal FTE position, that the Office anticipates filling now that the position has been reclassified from a County/District Attorney Division Director Assistant to a Paralegal.

FUTURE CONSIDERATIONS

The Office states, “We are focused on continuing to staff Homicides and Major Crimes to protect our community's safety. TCDA will continue participating in federal, state, and local law enforcement task forces focused on violent crime prevention. To address the root causes of crime and continue our efforts to reduce the unnecessary incarceration of non-violent offenders that commit low-level offenses, which keeps our community safer and helps keep the dockets of the District Courts from bogging down so that we can prosecute violent cases in a timely manner. We are continuing to tackle a large backlog due to the pandemic, and by diverting lower-level offenses, our staff will have the resources to devote time and energy to violent crime. This is accomplished through aggressive case screening to quickly reject and dismiss insufficient cases or arrests resulting from unfair law enforcement practices, the continued expansion of our use of diversion programs, and our work with law enforcement and the community to prevent arrests from occurring at all.”

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney’s Office, the Public Defender’s Office (PDO), the District Clerk’s Office, and the Sheriff’s Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss our draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioner Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: COURT COSTS AND SERVICES

<i>Program:</i>	Operations (123)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	123,086	100,000	100,000	100,000
Subtotal	\$ 123,086	\$ 100,000	\$ 100,000	\$ 100,000
Capital	-	-	-	-
Dpt Total	\$ 123,086	\$ 100,000	\$ 100,000	\$ 100,000
Earmark Allocated	70,000	80,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 70,000	\$ 80,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 193,086	\$ 180,000	\$ 100,000	\$ 100,000

DEPT. SUMMARY OF REQUEST

The District Attorney’s Office requests \$123,086 in ongoing operating funds for court costs (including transcripts, expert witness testimony fees, and witness expenses) and services (including DNA and other forensic testing, interpretation services, and translation services). TCD AO also requests an earmark on the Allocated Reserve of \$70,000 for these mandated expenses.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

In 2016, the Austin Police Department’s (APD) crime lab was shuttered after an audit by the Texas Forensic Science Commission (TFSC) due to concerns over the quality of the work performed. The District Attorney’s Office began conducting materiality reviews of cases affected by the lab. To this day, several cases still require review and possible litigation due to the lab issues.

Before 2016, the District Attorney’s Office could utilize lab services in the capitol area lab services for DNA testing, which were at no cost to the Office. However, when the District Attorney’s Office began its review of numerous cases in 2016, many labs in the capitol area also shuttered because of issues at the APD crime lab, and the Office was forced to use the Department of Public Safety (DPS) or private labs for DNA testing, which are often more costly. Beginning in April 2022, labs in the capitol area began to reopen and began accepting a few amounts of cases for DNA testing from the District Attorney’s Office at no cost, as in the past. The Office hopes that as operations ramp up, it will accept more cases and be able to rely less on the DPS and private labs for testing, except in extreme or timely circumstances. The Office also notes that they have experienced a significant rise in expert witness expenses, interpreter services, and other services and expenses included in the court cost and services budget due to the unique and complex nature of recent forensic issues and the increased use of expert witnesses and other consulting services as the current administration has, “implemented an internal panel at which ADAs must present

their requests to consult with experts to best prosecute their cases.” A summary of court costs and service budget and expenditures are noted in the following table:

FY 2019 – FY 2024 Court Costs and Services Budget and Expenditures

<i>Fiscal Year</i>	<i>Revised Budget</i>	<i>Expenditures</i>	<i>Remaining Balance</i>
2024	\$479,171	\$629,171*	\$(150,000)
2023	590,880	521,098	69,782
2022	451,065	263,801	187,265
2021	554,371	117,499	436,872
2020	445,841	176,413	269,428
2019	466,258	383,913	82,345

*Projected Expenditures as of April 30, 2024

As of April 30, 2024, PBO projects expenditures totaling \$629,171 related to court costs and services, resulting in a projected shortfall of \$150,000 for FY 2024. The FY 2024 Adopted Budget includes a \$50,000 one-time Earmark against the Allocated Reserve. However, additional resources of \$100,000 will be needed to cover this projected shortfall. The Office’s FY 2025 Budget Submission only has \$412,450 of resources dedicated to forensic testing and expert witness expenses, which does not include a one-time allocation of \$30,000 in FY 2024 for court costs and services. For this reason, PBO recommends \$100,000 of ongoing operating funds for testing related to the additional work of DNA review due to problems from the APD lab and DPS lab and the ongoing increased use of expert witnesses to prosecute cases. This will allocate a total resource of \$512,450 for forensic testing and expert witness expenditures. In addition, PBO recommends a one-time Earmark against the Allocated Reserve of \$80,000 if the budgeted resources are insufficient. PBO will work with the Office closely to monitor forensic testing expenditures for any overages and the need to utilize this Earmark.

PBO further recommends that the Office continue to work with multiple labs in the capitol area to utilize their DNA testing services, which are at no cost to the Office, when possible. PBO will continue to work with the District Attorney’s Office to right-size this budget in future budget cycles for one-time needs and any ongoing resources needed for forensic testing and expert witness testimony in new cases.

REQUEST #2: CAFA – DISTRICT ATTORNEY STAFFING FOR 24/7 OPERATIONS

<i>Program:</i>	Diversion, Youth Justice, & Violence Prevention (123)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	12.00	-	-	-
Personnel	1,222,440	-	-	-
Operating	37,350	-	-	-
Subtotal	\$ 1,259,790	\$ -	\$ -	\$ -
Capital	17,640	-	-	-
Dpt Total	\$ 1,277,430	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,277,430	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The District Attorney’s Office (TCDAO) requests two Attorney IV FTEs, one Paralegal FTE, one Legal Secretary FTE, and one Victim Counselor Sr. FTE to staff an ongoing Counsel at First Appearance (CAFA) program that would include the presence of prosecutors. TCDAO also requests continuation of and funding for a Special Project Worker (SPW) Attorney position to be converted into a permanent FTE.

BUDGET REQUEST PERFORMANCE MEASURES

The Office did not submit performance measures for this request.

PBO RECOMMENDATION

PBO’s final recommendation for CAFA-related FY 2025 budget requests is pending a wider analysis of anticipated needs across all stakeholders intended to support an eventual full implementation of CAFA.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney’s Office, the Public Defender’s Office (PDO), the District Clerk’s Office, and the Sheriff’s Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss PBO's draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioners Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

REQUEST #3: TRAVIS COUNTY TRANSFORMATION PROJECT

<i>Program:</i>	Diversion, Youth Justice, & Violence Prevention (123)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	211,747	211,747	211,747	-
Operating	500,000	-	-	-
Subtotal	\$ 711,747	\$ 211,747	\$ 211,747	\$ -
Capital	-	-	-	-
Dpt Total	\$ 711,747	\$ 211,747	\$ 211,747	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 711,747	\$ 211,747	\$ 211,747	\$ -

DEPT. SUMMARY OF REQUEST

The Travis County District Attorney’s Office (TCDAO) requests financial support for the community partners implementing the Travis County Transformation Project (TCTP), a pre-arrest diversion program for juveniles accused of family violence with their caregivers. TCDAO also requests ongoing funding to convert an exceptional project worker (SPW) to a permanent FTE. The incumbent Assistant Director manages the TCTP pilot program, among others, and will continue if permanent funding is secured.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
# of juvenile petitions filed	474	749	800	600	500	500
# of juvenile dispositions	893	1,273	1,200	900	800	800

PBO RECOMMENDATION

The FY 2024 Adopted Budget includes one-time resources of \$211,747 for a 1.0 County/District Attorney Division Director Assistant SPW who served as an Assistant Director in the Pre-indictment, Youth Justice, and Violence Prevention program. This Assistant Director is currently assisting with implementing multiple pilot programs such as Counsel at First Appearance (CAFA), the gun violence diversion program, a firearm surrender program, and the Travis County Transformational Program (TCTP). The TCTP is a juvenile restorative justice program that began in June 2023 and is anticipated to conclude in June 2025. The Office states, “This program’s goal is to break intergenerational cycles of violence in Travis County. The target population for this program is youth facing charges of assault family violence. This population was chosen based on 10 years of Travis County prosecution data that show assault family violence is the most frequent charge driving youth into juvenile detention. TCDAO also knows that 38 percent of Travis County homicides arise out of domestic violence contexts. The need to break cycles of violence before they can escalate further is critical. TCTP is currently only accepting 15- and 16-year-olds into the

program, due to age limitations at LifeWorks that prohibit the program from allowing youth under the age of 15. There is a plan in place to remove this restriction in the future. Half of offenses annually involve youth younger than 15. If we want to truly prevent youth from coming into the system by providing them the support that they need, we must get upstream to address these needs as soon as possible.”

Funding for direct services related to this program has been provided by the Office’s internal Forfeited Property Account, grants, and existing departmental resources. The Office notes that this program is being evaluated and initial findings from research conducted at the University of Texas at Austin are anticipated to be available by September 2024, with a more robust and complete evaluation of the pilot program after the pilot concludes in June 2025. PBO recommends the continuation of this County/District Attorney Division Director Assistant as an SPW and related operating resources for two additional years with an end date of September 30, 2026, to support the implementation of the TCTP and assist with other pilot projects in the Office. PBO also recommends that the Office continue to identify internal department resources within its existing budget and grant funds and utilize the Office’s internal Forfeited Property Account to address direct service needs for these pilot programs due to the constrained revenue environment the County faces.

REQUEST #4: DATA ANALYST

<i>Program:</i>	Operations (123)			
<i>Fund/Fund#:</i>	General Fund (0001)	<i>Mandated Program:</i>		Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-

Operating	48,438	-	-	-
Subtotal	\$ 174,930	\$ -	\$ -	\$ -
Capital	2,940	-	-	-
Dpt Total	\$ 177,870	\$ -	\$ -	\$ -
Earmark Allocated	-	174,930	-	-
Earmark CAR	-	2,940	-	-
Total Earmarks	\$ -	\$ 177,870	\$ -	\$ -
Dpt Total + Earmarks	\$ 177,870	\$ 177,870	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Travis County District Attorney’s Office (TCDAO) requests a new Business Analyst III (Data Analyst) FTE to support the office's growing data collection, analysis, and reporting needs. TCDAO has not expanded its information technology (IT) staffing in nearly 12 years, while the Office has grown considerably due to adding new district courts, for example.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>

The ratio of IT Staff to Users	0.0122	0.0120	0.0110	0.0110	0.0150	0.0122

PBO RECOMMENDATION

The Office states an additional Data Analyst (Business Analyst III) will, “enhance the effectiveness and equity of prosecutorial strategies by establishing a robust data analysis infrastructure. By hiring a dedicated data analyst and implementing comprehensive data collection and analysis protocols, TCDAO [Travis County District Attorney’s Office] seeks to accurately track key prosecutorial metrics, identify trends, disparities, and areas for improvement, and inform evidence-based policy decisions.”

On April 30, 2024, Commissioners Court approved the District Attorney’s request to apply to the Smart Prosecution – Innovative Prosecution Solutions Grant with the Bureau of Justice Assistance (BJA) for \$350,000. This grant opportunity is for two years (October 1, 2024 – September 30, 2026). It would fund one Data Analyst position to assist with data collection and analysis capabilities in the IT Division of the Office. The District Attorney's Office has noted that if this grant is awarded and once it ends, they will request resources from the General Fund to fund the position on an ongoing basis at an estimated

annual cost of \$175,000. PBO will monitor the benefits of the Data Analyst during the grant term if awarded. The Office anticipates an award decision by October 2024. PBO recommends a \$177,870 ongoing Earmark against the Allocated Reserve to be accessed if the Office is not awarded the Smart Prosecution – Innovative Prosecution Solutions Grant so that the Office has additional assistance with technical support and performance measure and data management.

REQUEST #5: CENTER FOR CHILD PROTECTION CONTRACT

<i>Program:</i>	District Attorney (123)			
<i>Fund/Fund#:</i>	General Fund (0001)	<i>Mandated Program:</i>		Yes

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 80,000	\$ (70,000)	\$ (70,000)	\$ (70,000)

DEPT. SUMMARY OF REQUEST

The Travis County District Attorney’s Office (TCDAO) has collaborated with the Center for Child Protection and various County offices and departments to request additional funds to support the County’s contract with the Center for Child Protection. There are two options to consider: (A) ongoing funding of \$30,000 to maintain the current contract funding level, or (B) ongoing funding of \$80,000 to both maintain the current contract and to expand the services provided by the Center.

PBO RECOMMENDATION

The Center for Child Protection (CCP) is a 501(c)3 non-profit organization and a nationally accredited children’s advocacy center serving Travis County. Per the Texas Family Code (264.401-264.411), children’s advocacy centers in Texas are required to review reports relating to the suspected abuse or neglect of a child, coordinate the investigations of participating agencies about abuse and neglect, and provide a variety of services including forensic interviews, forensic medical exams, victim support and advocacy and trauma-focused mental health services.

In FY 1999, the Commissioners Court approved a contract to allocate \$100,000 annually to assist the CCP in providing court-related services. The District Attorney’s Office notes, “The Center employs Forensic Interviewers who work with child abuse detectives here in Travis County (APD, TCSO, and the other law enforcement agencies, which collectively make up the Child Protection Team [CPT]) to interview children who are victims of child abuse. The Center also employs Family Advocates and Mental Health Clinicians who work directly with and provide counseling services to child victims and their family members. These counselors help a child victim navigate the protracted and sometimes traumatic criminal court process. CCP staff participate daily with law enforcement and TCDAO staff to triage incoming allegations of child abuse and coordinate multi-disciplinary staffing, forensic interviews, and follow-up counseling. All of this factors into the eventual prosecution of a child abuse case. These collaborative efforts with internal and external agencies maximize efficiencies while ensuring justice is served.”

This contract, which totals \$100,000 as noted above, has been supported by \$70,000 from the District Attorney Office’s General Fund budget and \$30,000 from the District Attorney Office’s special revenue fund, the Family Protection Fund (0130). The Family Protection Fund derives its income from a \$15 fee assessed on divorce filings as authorized under Texas Government Code 51.961. Senate Bill (SB) 41 repealed this fee effective January 1, 2022, which has resulted in no new revenue for the Fund. The remaining balance of the Fund, totaling \$21 as of April 30, 2024, will be fully expended in FY 2024. The FY 2024 Adopted Budget includes a \$14,505 Earmark against the Allocated Reserve to ensure that the District Attorney’s Office has the resources to pay the anticipated contract amount of \$100,000, including resources from the Office’s General Fund. However, beyond FY 2024, the contract will have a shortfall of \$30,000.

The Office states, “purchasing staff indicated that the contract was severely out of date and would need to be completely renegotiated for FY 2025.” After departmental and staff discussions, Health and Human Services (HHS) and the District

Attorney's Office have agreed the CCP contract management responsibility and funding should be transferred to HHS. The Office further notes, "HHS has the infrastructure to oversee social service contracts, this contract directly aligns with the Safety Intervention Services (SIS) Issue Area reported on by HHS, and the Office of Children Services, a division within HHS, has a child welfare unit that has routine interaction with the CCP and other collaborative partners." PBO recommends that ongoing funds of \$70,000 be transferred from the Office's operating budget to the Health and Human Services Department (HHS) so that the HHS can manage the contract. PBO further recommends ongoing resources of \$30,000 so that the contract may be fully funded at the current amount of \$100,000 to maintain the current contract funding level. PBO encourages the District Attorney's Office to work with HHS to explore an expansion of services provided by CCP and how this could impact resources allocated to fund this contract.

DEPT. SUMMARY OF REQUEST

The District Attorney’s Office (TCDAO) requests one-time funding to continue an Attorney V exceptional project worker (SPW) for one year to address a backlog of trial exhibits eligible for destruction. An attorney must individually review each exhibit to determine whether it should be preserved or destroyed. If approved, the position will also serve as an archivist for the office.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
# of legal consultations by appellate attorneys	541	500	400	400	500	400

PBO RECOMMENDATION

The FY 2024 Adopted Budget includes a 1.0 Attorney V Special Project Worker (SPW) who worked to review previously located trial exhibits that may meet the criteria for destruction to ensure compliance with the Texas Code of Criminal Procedure,

Article 2.21(e). The Texas Code of Criminal Procedure, Article 2.21(e), which governs the rules for the destruction of exhibits, states the following regarding exhibit destruction:

1. *On or after the 1st anniversary of the date on which a conviction becomes final in the case, if the case is a misdemeanor or a felony for which the sentence imposed by the court is 5 years or less;*
2. *On or after the 2nd anniversary of the date on which a conviction becomes final in the case, if the case is a noncapital felony for which the sentence imposed by the court is greater than 5 years;*
3. *On or after the 1st anniversary of the date of the acquittal of a defendant; or*
4. *On or after the 1st anniversary of the date of the death of a defendant.*

The SPW was authorized through September 30, 2024. However, the Office is still working to review these trial exhibits so that exhibits identified for preservation can be moved and stored or destroyed, if deemed appropriate. Suppose an exhibit is considered eligible and suitable for destruction. In that case, the Office must submit a “Notice of Intent to Destroy Evidence” to a District Judge, the defendant, and the defendant’s most recent attorney on the case. If the defense does not object to its destruction, the Office then submits a request for authorization by the Court to destroy the evidence. If an exhibit should be preserved, the Office notes that the following steps will differ based on the type of evidence. Paper evidence could be scanned and uploaded into TechShare; however, the related case must first be uploaded to TechShare. Due to the possible age of these cases, many are likely not currently in TechShare. The Office will also work to address biological evidence and determine the appropriate destruction or preservation.

The District Attorney’s Office notes, “The time needed to review varies in the number and complexity of exhibits and is truly on a case-by-case basis. The attorney must review the nature of the evidence and whether there were any codefendants on the case that might appeal. The attorney has an entire regular caseload on top of this special project, and it is too much work for one person as the District Clerk needs to expedite the process to move out of [the Heman Marion Sweatt Travis County Courthouse] HMS.”

PBO recommends one-time funding of \$142,076 to extend an Attorney V Special Project Worker (SPW) through FY 2025 to continue reviewing exhibits for proper preservation or destruction to comply with the Texas Code of Criminal Procedure, Article 2.21(e) and so the District Clerk can move these files over to the Gault building, if appropriate. As the timeline for renovations to HMS is further refined, PBO will follow up with the Office to stay apprised of the progress of this project and whether additional resources will be needed to help complete this project before renovations.

District Clerk (121)

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Travis County District Clerk provides judicial system representatives and the public with information and support through an innovative, team-based employee group, using the most technologically advanced methods possible and thereby fulfilling the Office's constitutional, statutory, and fiduciary duties.

The Office has identified the following strategic goals that align with the new County Goal, "Be a trusted well-run county":

- Solidify staffing of jury/passport division to maintain increased revenue to Travis County and confirm a leadership role in this public service;
- Ensure that the District Clerk's Office meets business requirements with the most efficient technical solutions;
- Maintain a team-based approach that allows staff to become engaged in innovations and improvements to enhance work procedures and business processes; and
- Carry out all budgetary and financial activities and records for the District Clerk's processing of civil cases, criminal cases, jury financial actions, and passport financial actions.

The Office has identified the following strategic goal which aligns with the new County Goal, "Protect and provide opportunity for those most vulnerable and underrepresented":

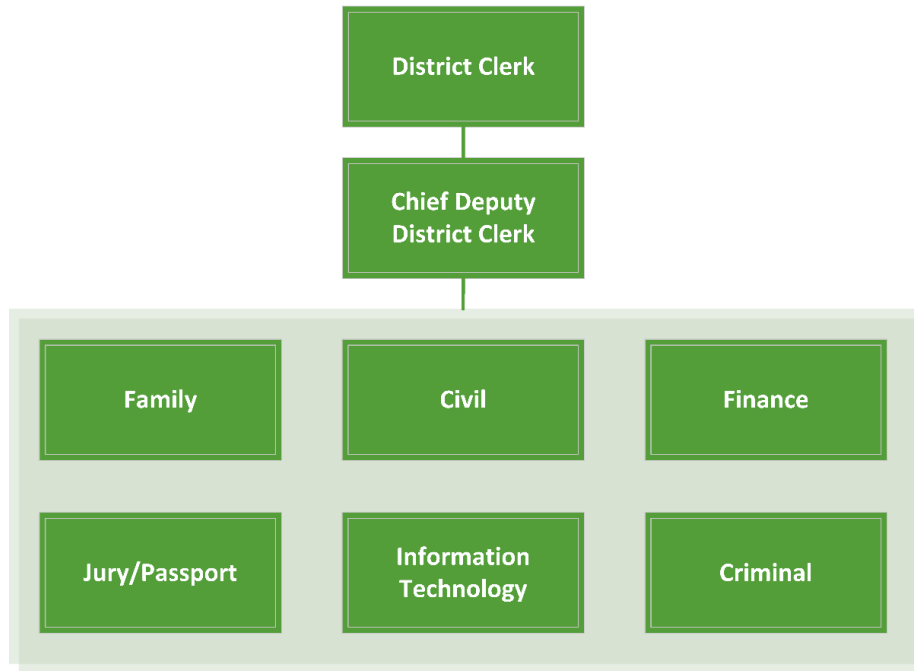

- Process all family case work, provide access and assistance in researching family case records, and support judges in court proceeds.

The Office has identified the following strategic goals that align with the new County Goal, "Provide services that support the safety of people in the community":

- Improve and increase transportation and parking options for Travis County jurors;
- Process all criminal case work, provide access and assistance in researching criminal case records, and support judges in court proceedings; and
- Process all general litigation and government case work, provide access and assistance in researching related case records, and support judges in court proceedings.

The Office is budgeted in the Justice System Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Be a trusted and well-run county.”

JURY/PASSPORT DIVISION:

The Jury/Passport Division manages two services. Its mandated service is to process the assignment of potential Travis County/City of Austin jurors to the District Civil and Criminal Courts, County Courts at Law Civil and Criminal, Justice of the Peace Courts, Grand Jury, the City of Austin Municipal Courts, Probate Courts and Magistrate Courts. Its discretionary service is to process passport applications as the Authorized Acceptance Agents for the U.S. Department of State.

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure	Projected FY 2026 Measure
Jury summonses sent	89,730	245,000	250,000	250,000	250,000
Number of contacts (phone, email, mail, walk-in) related to jury service inquiries	18,661	33,220	18,000	15,000	15,000

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of contacts (phone, walk-in) related to passport service inquiries	23,451	33,748	18,000	17,000	17,000
Number of jury panels	716	1,054	1,000	1,100	1,100
Passport applications	16,249	21,431	20,500	20,500	20,500
Revenue generated by passport application activities	\$665,189	\$917,554	\$850,000	\$850,000	\$850,000

The District Clerk has related the following changes to statutorily mandated services for the Jury/Passport Division:

- HB 2015 - Exemption for petit jurors based on age was increased from 70 to 75 but this age increase did not apply to grand jurors;
- Texas Government Code, Section 62.115 – Compilation of list of convicted persons was added and notice is required to be sent to the Texas Secretary of State by the third [03] business day of the month; and
- Texas Government Code, Section 62.109(c) - Required notification to the voter registrar if a person is permanently exempted due to mental impairment or inability to comprehend English.

In addition, the Office notes the following changes to discretionary services for the Jury Passport Division:

- SB 1730 - District Clerks are now authorized to sell money orders for the processing of passports.

As of early 2023, all 38 courts have resumed in-person jury trials. Additional jury panels have been requested by the Criminal District Courts who are bringing in retired visiting judges to help handle the backlog of the dockets due to the pandemic. Then, in October 2023, a new probate court was added to which jury trials can occur. These developments are primary workload drivers for the Jury/Passport Division.

The Division’s responsibilities include sending out jury summons, working with jurors who communicate through phone, mail, email and walk-ins, reviewing juror registrations to verify exemptions and qualifications to serve and providing detailed instructions on reporting to jury assignments. The Office also works directly with court personnel providing jury lists, questionnaires, and attendance lists. Once assigned to a court, jurors that have last minute conflicts such as illness or emergencies are rescheduled to a new trial date. The Office processes exemptions, disqualifications, postponements, special accommodation requests (such as ASL interpreters and closed captioning) and issues Free Transportation passes to jurors. Juror’s exemptions and disqualifications which need to be verified are reviewed by the staff, such as proof the juror no longer lives in the city and/or county, school schedules, etc.

The Division utilizes the I-Jury Management system created in 2002 by Travis County. I-Jury is the online system designed to facilitate jury service and is in its 22nd year. Summoned jurors go online to qualify for service, request exemptions or disqualifications, complete the juror questionnaire and orientation, specify personal and business conflict dates, request postponements and receive information to a specific Courtroom, and trial date reporting instructions. I-Jury online registration prevents unnecessary in-person visits, reduces work absences and life disruptions for the jurors and has resulted in efficiencies in the District Clerk’s Office. I-Jury has received numerous awards, including the Harvard Ash Center Bright Idea in Government Award in 2015 for Online Juror Impaneling.

The District Clerk’s Office reports continued collaboration with the ITS to merge the jury systems, E-jury and the JMS (Jury Management System) to ensure better efficiency. E-jury receives daily input of jury trials into the system, receives the juror’s registration, handles exemptions and disqualifications and juror searches. The JMS handles the history of jurors over the different jury wheel years, marks absences of jurors, jury attendance, returned mail, donations, pay rates, and holidays.

As a second large scale service, the Jury/Passport Division also processes passport applications as the Authorized Acceptance Agents for the U.S. Department of State (DOS). In February 2023, the District Clerk’s office reopened its satellite office and moved from the historic courthouse Heman Marion Sweatt (HMS) to the new Civil Family Courts Facility (CFCF) and utilized additional staff to handle the increase in demand for passports and increasing jury trials. Both facilities, Airport and CFCF, serve customers by appointment only. The Airport Facility accepts appointments online one week in advance and posts a limited number of same day appointments daily. Daily walk-in customers are accommodated to the extent possible in order to assist the public with their passport needs. The Jury Management/Passport Office has sought to increase passport customer options by having regular Saturday availability, adding services at CFCF and requesting a new physical office in northwest Travis County. The Office has submitted a FY 2025 Budget Request to address a related need for additional passport personnel to support these efforts.

The Office notes that its passport revenues and activities compare favorably with other sizable counties. At the beginning of 2023, the District Clerk’s Office implemented the Q-Flow appointment system to the Passport Office, which allows for a workflow to determine eligibility of an in-person appointment as compared to renewing an adult passport which occurs via mail. The capabilities of this new appointment system have reduced the burden of an agent dedicated to contacting customers daily to add in additional appointments and allows more time for processing applications. Since the start of October 25, 2022, the Office reports that over 30,756 appointments have been made and over 31,756 passports processed.

The Office asserts that passport revenue has returned to pre-pandemic highs in great part due to reinstated staff over the previous two fiscal years and the expansion of two different office locations. In FY 2023, passport related revenue reached \$917,554. However, the Division maintains a continued goal to increase services, staffing and locations to meet current demand levels and seek to surpass \$1,000,000 in overall passport revenue during FY 2025.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Jury/Passport FTE	\$69,345	1.00/1.00	The FY 2024 Adopted Budget included additional resources related to the restoration of a third formerly delimited Court Clerk I in the Jury/Passport Division to restore staffing capacity needed to meet expected passport application demands and return the Division to pre-pandemic staffing levels. During the COVID-19 Pandemic, the District Clerk’s Office observed a significant drop in workload and revenue related to passport services, and PBO recommended a reduction of three passport related Court Clerk FTEs as a part of the FY 2021 Budget Process. The positions were vacant, and no employees lost their job because of the change. These reductions were made with the understanding that the positions may need to be restored over time if the demand and associated passport revenue returned. By FY 2024, all three positions have been restored and the Division reports that passport-related revenues are nearing their pre-pandemic highs, and now seeks further staff capacity with the goal of achieving passport service revenues beyond \$1,000,000 for FY 2025.

TECH SUPPORT, DEVELOPMENT, AND QUALITY ASSURANCE:

The Tech Support, Development, Exhibit Management, Case Management Configuration, State Reporting, and Quality Assurance Division (DCIT) ensures that the District Clerk maintains the integrity of its records, provides optimal service to its customers, meets standards and timelines in reporting to the State, and maximizes operational efficiency. It is a discretionary program that supports the District Clerk’s Office in performing its statutorily mandated duties. The program oversees the current document management and case management systems, supports the E-filing system for the Office, develops and integrates new software solutions for Office operations, conducts quality assurance testing and auditing of documents, manages the collection of all civil and family exhibits, and provides monthly case information reporting to the State and other external governmental organizations.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Appeals and Record requests via Appeals Creator application	18,336	15,439	12,000	10,000	10,000
Attorneys and court officers with access to court documents online through the AARO system	4,700	20,500	21,250	21,250	21,500
Civil/Criminal documents scanned into DMS	425,162	351,112	280,000	240,000	240,000
Criminal production entries reviewed/audited for quality assurance	50,225	89,627	55,000	50,000	50,000
Documents entered in the document management system	691,879	683,599	500,000	400,000	350,000
Documents prepared for conversion	25,674	10,500	1,000	1,000	1,000
Documents processed through Agency Upload by civil/family/criminal clerks	59,878	84,988	75,000	65,000	65,000
e-files processed by civil, family and criminal division clerks (includes accepted and rejected)	219,061	226,585	220,000	230,000	230,000
Family entries reviewed	34,621	58,391	48,000	50,000	50,000
Gen. Lit/Govt. production entries reviewed/audited for quality assurance	38,882	51,946	50,000	50,000	50,000
Pages converted to electronic format	5,135,336	63,840	50,000	50,000	50,000

The Office reported an increase in files processed and entries reviewed for FY 2023 largely due to the transition to the new case file management system Odyssey. With Odyssey now fully implemented, the Office reports that it is currently determining the best way to track the life cycle of a case and remain compliant with state reporting measures and execution of processes requirements. These efforts will require significant resources from IT and Audit teams. The Office notes that it was the lead Department regarding the transition to Odyssey and has been actively analyzing and refining event codes, testing converted data and documents, and establishing new workflows within the new system.

The conversion to Odyssey project was largely successful but still requires work on the continued updates and issues occurring due to the conversion. In addition, the Office reports that specific projects were not completed when the County went live with Odyssey, including AG collection, Criminal allocation of cases and confirming that all data has been transferred from FACTS to Odyssey. Observed decreases in the number of pages converted to electronic format projected for FY 2024 and beyond reflect a shift in emphasis away from document conversion to converting pages to electronic as initial implementation of Odyssey has concluded.

The District Clerk’s Office also notes that SB6 has expanded the scope of information required to be captured regarding modifications to bonds. Likewise, the timeframe to send information about criminal dispositions to various governmental agencies has been shortened, placing additional burden on the Office to ensure that information is correct and accurate.

ACCOUNTING/FINANCE DIVISION:

The Accounting/Finance Division is responsible for all budgetary and financial activities and records regarding the Office’s processing of civil and criminal cases, jury, and passport financial actions. Activities include assessing and collecting fees for case filings, supporting the entire Office’s programs, collecting, and distributing revenue from court costs and fines to the Travis County Treasurer, and coordinates with the County Auditor’s Office responses to audits and other inquiries. Revenue collection is a mandated service for statutory court costs and fees, fines assessed, post-judgment writs and services, passport applications, photos, court documents and court registry deposits.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Civil bonds received and recorded	118	294	220	200	200
Criminal Bonds received and recorded	7,857	7,637	7,700	7,800	7,900
Delinquent court costs collected	\$125,668	\$93,674	\$120,000	\$150,000	\$200,000
Historical Civil files reviewed and verified for financial quality assurance (SPW #3)	2,238	5,108	1,500	500	500
Historical Criminal files reviewed and verified for financial quality assurance (SPW#4)	3,534	1,271	750	250	250
Number of Registry Accounts	-	45,117	53,000	50,000	50,000
IV-D case billings sent (per quarter)	1,122	602	800	500	500

The Accounting/Finance Division has noted the following changes to statutorily required and/or mandated services:

- **HB 2014** – Jury pay increased to \$20 for the first day and \$58 for each day or fraction of the first day a person is in attendance in court. The state reimbursement increased from \$34 to \$52. [This does not apply to City of Austin cases];
- **Local Government Code Section 291.008** - County and district clerks can no longer collect a \$1 fee for filing any document not subject to a filing fee;
- **HB 1221**: Requires the Texas Department of Criminal Justice (TDCJ) to send to the Clerks of the Court any restitution received from the inmate and forward to any victim;
- **HB 4250**: Authorizes clerk of the court to withhold from excess proceeds from the tax sale of property an amount necessary to pay the cost of postage to send notice to the former owner of the property; and
- **Family Code, Section 110.002[a][d]**: Increase in family document filings from \$15 to \$80.00 and transfer case fee increased from \$45 to \$80.00.

And the following changes to discretionary services:

- **SB 1730**: Authorizes district clerks to sell and distribute money orders for passport application payments.

The Division notes that it is currently coordinating with the Jury/Passport Office on the policy implementation for selling money orders for passport processing. Additionally, the Division reports that that requests for Passports have increased significantly post pandemic and revenues are increasing at an accelerated rate. While the Finance Division assesses and collects fees daily and reviews financial data to determine historical trends through the now fully implemented Odyssey,

Odyssey’s financial system has not proven as functional as a case management system relative to prior resources. The Division notes that this has increases workloads for staff working to ensure that the financial information is accurate.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Accountant SPW in Finance Division	\$80,454	1.00/1.00	The FY 2024 Adopted Budget included additional resources related to the creation of an Accountant Special Project Worker (1.0 SPW) for a period of two fiscal years to provide additional personnel capacity in the Finance/Accounting Division as the District Clerk continues to adapt to the recent implementation of Odyssey. The Division reports that the addition of this SPW has allowed the Office to collect and/or review delinquent court costs in a more efficient manner.

The following programs were formerly linked to the County Goal, “Ensure the public safety and the equitable and humane resolution of conflicts through an evolving justice system and other public processes” and are now linked to the County Goal, “Protect and provide opportunity for the most vulnerable and underrepresented.”

CIVIL DIVISION (FAMILY):

The Civil Division (Family) program of the District Clerk’s Office is the custodian for all documents filed in any civil action in the Travis County Civil District Courts. Employees process all civil casework as requested by the filers, support civil judges in court proceedings, and provide access and assistance in researching civil case records. The program focuses on cases governed by the Texas Family Code, such as divorces, parent-child relationships, child protective services, adoptions, name changes, and child support. As a state-mandated entity, many of the services provided by the program are also mandated and can change based on Legislative action.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Family production entries in FACTS	393,348	355,893	360,000	320,000	330,000
New or reopened Family cases filed	9,003	10,289	8,500	9,000	9,000
Number of dispositions	11,173	10,446	8,000	8,000	8,000
Number of CPS cases	309	241	200	250	300
Number of AG cases	2,305	1,012	800	1,000	1,000
Number of appeals processed	55	45	40	50	65

The Civil Division (Family) has noted the following changes to statutorily required and/or mandated services:

- **HB 2301** – Confidential Address for Petitioner;
- **HB 730** – Reopening of CPS closed files which may result in hearings;
- **Texas Family Code, Section 155.207(a),(b), and (e)**: Process to transfer cases to another county; and
- **HB 1423**: Vacated Protective Order must be removed from registry after 3rd day of business.

And the following changes to discretionary services:

- In-person legal clinics have resume in 2023 and the District Clerk’s Office supports the clinic that meets in the evening in the St. Johns area.

The Civil Division (Family) reports that the move to the new CFCF facility has allowed for better tracking for assisting the public and that overall case levels have stayed relatively steady with 10,289 new and reopened cases and 10,446 dispositions during FY 2023. However, the Division anticipates the overall workload to increase over the next few years. Additionally, Volunteer Legal Services (VLS) Legal Clinic has resumed the in-person evening legal clinics. The District Clerk’s Office maintains a clerk at the VLS clinic so that attorneys can review information contained in a district court file, or in the event a petition is filed, District Clerk personnel can accept and return a copy. The Division has also expanded its personnel capacity training, to assist in providing practical skills to spot triggers and signs of mental health issues and the tools to address the person during a crisis through increased completion rates of the Mental Health and Trauma First Aid training across personnel.

Even with the return to in-person court proceedings in recent years, the Office is encouraging expanded use of electronic filings instead of paper filings. District Clerk IT staff adopted an internal program called Agency Upload to allow other internal agencies, namely the Law Library, District and associate courts, to deliver electronic documents to the District Clerk’s Office. Agency Upload also supports an added functionality to send copies to attorneys and parties if the email address is in the system. In addition, the Office is currently involved in a pilot project with the mail division to receive scanned copies of the mail instead of the paper originals for auditing purposes. This has change aims to conserve staff time by reducing the need for scanning within the division and allows the mail being placed in the file to be completed remotely.

CRIMINAL DIVISION:

The District Clerk Criminal Division supports the criminal district courts of Travis County by filing cases, issuing processes, maintaining minutes of proceedings, and preparing and processing commitments and appeals. Additionally, it is responsible for ensuring the public has access to the records and trial exhibits received by the District Clerk in all criminal felony cases. The program has five divisions: case intake (including grand juries), court support, criminal records and information, training and quality assurance, and appeals expunctions and non-disclosures.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of Criminal Bonds received and recorded	7,857	7,637	7,700	7,800	7,900
Appeals processed	117	264	200	250	250
Capias/warrant issued	5,964	6,152	4,000	3,500	3,000
Capias/warrant returned	8,784	10,002	6,000	5,500	5,000

Subpoenas processed	102	87	110	125	150

The Criminal Division has noted the following changes to statutorily required and/or mandated services:

- **SB 1725** – Allows first time minor offenders who have multiple convictions of or arrests for offenses under the Alcoholic Beverage Code to have all the offenses expunged if the offenses are linked to one incident report or event. Tex. Alcohol Bev. Code § 106.12;
- **HB 3956** – Requires a law enforcement agency booking a defendant arrested for an offense punishable as a felony to collect one or more specimens for the purpose of creating a DNA record. It also requires the court (clerk) to provide notice of acquittal, dismissal or grant of relief to the Department of Public Safety and the law enforcement agency that collected the DNA specimen. The court (clerk) shall also notify the defendant and the defendant’s attorney after the above notices have been provided; and
- **HB 4520** – Requires that a court clerk provide written notice to the State Board of Educator Certification (Board) or the chief administrative office of a private school if an educator is convicted or placed on deferred adjudication community service for the offense of obscenity.

During FY 2023, the Criminal Division transitioned from virtual court dockets to in-person court dockets. Meanwhile, the Grand Jury Division reports that it continues to implement pandemic-based solutions such as receiving indictments and warrants electronically and working with the grand jury chair virtually. The Criminal Division also notes that it continues to modernize processes to meet the evolving needs of the criminal justice system in Travis County, including the continued implementation of Audit Sharp. This system allows auditors to review work and update Audit Sharp with errors. In addition, Audit Sharp monitors errors made, trends in the types of errors, and the time it takes each clerk to correct the errors.

GENERAL LITIGATION/GOVERNMENT DIVISION:

The General Litigation/Government Division is the custodian for all pleadings and papers that are part of any civil cause of action related to individual, corporate, and governmental entities and are not related to family matters. In addition, this division includes the call center, civil records request section, accepts and prepares the mail for the entire department, processes administrative records and exhibits, and supported the CFCF front desk reception area. It is also responsible for notifying the Courts of Appeals and the Texas Supreme Court of any civil actions being appealed and providing those entities with the Clerk’s Records in each case. Upon order of the Court, the program also prepares cases for transfer to other counties, receives cases transferred from other counties, and consolidates and severs cases.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
New or Re-opened Gen. Lit./Govt. cases filed	8,358	14,976	11,000	11,000	11,000
Number of Amended petitions	19,572	10,755	9,000	9,000	9,000
Number of Appeals	181	125	100	100	100
Number of Dispositions	7,714	13,000	11,000	11,000	10,000
Number of production entries in FACTS	402,713	462,929	450,000	500,000	500,000

The General Litigation/Government Division has noted the following changes to statutorily required and/or mandated services:

- **HB 3774** – Transfer of documents per court order changes were required to be completed electronically using an approved transfer form and specifically designated format. Publication of Citation for Receivership is now required to be placed on an Internet website. TCPRC 64.101;
- **HB 2488** – Appeal of Appraisal Review Board decision; and
- **Government Code, Section 51.318(b) (7) and (9)** – Copy fees.

In terms of changes to discretionary services, the Division notes that it has participated in a pilot project with the internal district clerk mail division where it receives scanned copies of the mail instead of the paper originals and the paper is used for auditing purposes. The Division reports that it has saved staff time that would otherwise have been spent scanning these documents and allows the mail being placed in the file to be completed remotely.

The General Litigation/Government Division reports that its Case Work employees spend a significant portion of time helping self-represented litigants (SRLs). Although e-filing is now required for most filings in Travis County, the Division notes that SRLs are a significant exception since they are not required to e-file. The Office notes that the number of SRL's have increased significantly over the past years and that these cases are labor-intensive since SRLs are often unfamiliar with court rules, procedures, and processes.

Lastly, the Office notes that the Civil Division's workload has escalated dramatically, following the COVID-19 pandemic, and appears to be surpassing previous peak activity levels. For comparison, "the number of new or reopened cases" increased from 9,321 in FY 2019 to 14,976 in FY 2023, representing a 60.7 percent increase. Meanwhile, "the number of dispositions" increased from 7,653 in FY 2019 to 13,000 in FY 2023, representing a 69.9 percent increase. The Division anticipates that this elevated level of activity will be sustained, if not increase in future years.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	9,217,804	9,860,851	10,947,609	11,574,798	627,189
Operating	810,961	810,961	1,028,081	1,037,753	9,672
Total (Per&Op)	\$ 10,028,765	\$ 10,671,812	\$ 11,975,690	\$ 12,612,551	\$ 636,861
CAR*	-	-	16,000	45,000	29,000
Grand Total	\$ 10,028,765	\$ 10,671,812	\$ 11,991,690	\$ 12,657,551	\$ 665,861
FTEs	118.00	120.00	121.00	123.00	2.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for District Clerk increased by \$665,861 from the FY 2024 Adopted Budget. This is a 5.6% increase. The majority of the increase was in the personnel budget due to FY 2024 compensation that was originally budgeted in the compensation reserve.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the District Clerk’s Office includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$96,454 was removed from the budget related to one-time operating and CAR costs for items approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for the District Clerk’s Office includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Conversion of one Accountant Special Project Worker in the Accounting/Finance Division to a full FTE (1.0 FTE) to continue to address increased workloads for division staff related to the transition to Odyssey.	\$-	\$83,681	\$83,681	1.00
Continuation of one Court Clerk II (1.0 SPW) formerly grant funded position as two-year Special Project Worker position to support the continued operations related to the ARPA Court which sought to address case backlogs resulting from the COVID-19 Pandemic.	76,808	-	76,808	-
Total Programmatic Recommendations	\$76,808	\$83,681	\$160,489	1.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for the District Clerk’s Office includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources related to the creation of an additional Court Clerk II position (1.0 FTE) in the Civil Division to support a Family Matter Hearings Pilot in the Civil Courts.	\$-	\$86,700	\$86,700	1.00
Additional one-time personnel resources related to anticipated overtime and temporary personnel support needs in FY 2025.	40,000	-	40,000	-
Travel and Training Cut Restoration	-	9,672	9,672	-
Total Administrative and Other Funding Changes	\$40,000	\$96,372	\$136,372	1.00

Included in the FY 2025 preliminary budget is a 50% restoration of training budget reductions approved by the Commissioners Court as part of the FY 2021 Adopted budget. These cuts were implemented to stabilize the county budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Funding includes \$9,672 in ongoing operating resources for the District Clerk’s Office. PBO will continue to work with offices and departments to understand their travel and training needs throughout FY 2025 and future budget processes.

The Civil District Judges have internally funded a pilot from resources within Juvenile Probation’s Budget to support additional family matter hearings at the Civil and Family Court Facility and believe the reductions to Juvenile Probation will not impact their operations. PBO recommends this change, and the pilot will be revisited as a part of the FY 2026 Budget Process. These changes include a reduction of \$543,622 and 5.0 FTEs in Juvenile Probation, increases of \$456,922 and 3.0 FTEs in the Civil Courts and an increase of \$86,700 and 1.0 FTE in the District Clerk. This results in a net budget change of \$0 and -1.0 FTE. The table below outlines the recommended changes included in the FY 2025 Preliminary Budget.

<i>Family Matter Hearings Pilot Related Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Juvenile Probation				
Transfer Assoc. Judge Position (30003960)	\$-	(\$204,716)	(\$204,716)	(1.00)
Delimit Juvenile Detention Officer Assistant (30004272)	-	(71,162)	(71,162)	(1.00)
Delimit Juvenile Detention Officer III (30004273)	-	(83,286)	(83,286)	(1.00)
Delimit Juvenile Probation Officer III (30004125)	-	(97,758)	(97,758)	(1.00)
Delimit Court Clerk II Sr. (30003969)	-	(86,700)	(86,700)	(1.00)

<i>Family Matter Hearings Pilot Related Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
<i>Subtotal Juvenile Probation</i>	\$-	(\$543,622)	(\$543,622)	(5.00)
Civil Courts				
Transfer Assoc. Judge Position (30003960)	\$-	\$204,716	\$204,716	1.00
Judicial Aide – Executive Assistant (new)	-	\$83,681	\$83,681	1.00
Court Reporter (new)	-	\$162,853	\$162,853	1.00
Operating Equipment and Supplies	-	\$5,672	\$5,672	-
<i>Subtotal Juvenile Probation</i>	\$-	\$456,922	\$456,922	3.00
District Clerk				
Court Clerk II (new)	\$-	\$86,700	\$86,700	1.00
<i>Subtotal District Clerk</i>	\$-	\$86,700	\$86,700	1.00
Total Family Matter Hearings Pilot Related Changes	\$-	\$-	\$-	(1.00)

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for the District Clerk’s Office includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$-	\$346,493	\$346,493
Resources for health insurance cost increases for FY 2025.	-	64,235	64,235
Resources for Elected Official salary adjustments approved in by the Commissioners Court in FY 2024.	-	7,688	7,688
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	2,038	2,038
Total Compensation Changes	\$-	\$420,434	\$420,434

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

The FY 2025 Preliminary Budget includes various internal reallocations within the Department's FY 2025 Budget Submission to better align projected FY 2025 expenditures.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$45,000 for the Office. There was a reduction of \$16,000 to remove one-time funding for prior year capital funded projects. This is a net \$29,000 increase compared to the amount budgeted in the FY 2024 Adopted Budget.

<i>Capital Funding Recommendations</i>	<i>Total</i>
Scanner Equipment	\$45,000
Total Capital Funding Recommendations	\$45,000

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the District Clerk's budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Satellite Passport Office Staff - Court Clerk II SPWs	\$154,616
Capital Metro Jury Transit Passes	5,000
Total Allocated Reserve Earmarks	\$159,616

<i>Recommended CAR Reserve Earmarks</i>	<i>Total</i>
Satellite Passport Office Staff - Court Clerk II SPWs	\$18,480
Total CAR Reserve Earmarks	\$18,480

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, the District Clerk's Office has one revenue generating contract it manages and is being proposed by the District Clerk's Office for adjustment in FY 2025.

Below is a table with additional details on the revenue generating contract that has been proposed by the District Clerk’s Office for adjustment. This proposed adjustment is currently being reviewed by PBO and the County Auditor’s Office. PBO and the Auditor’s Office will coordinate presenting the recommended changes to the Commissioners Court. Fee adjustments required to be approved by the Commissioners Court will be presented in September prior the adoption of the FY 2025 Budget. Recommended changes to any revenue contracts will be presented to the Commissioners Court at the next contract renewal or according to the terms of the contract.

<i>Central Contract Name</i>	<i>FY 2024 Contract Amount</i>	<i>FY 2025 Proposed Contract Amount</i>	<i>Justification for FY 2025 Proposed Contract Amount</i>
ILA – Consolidated Jury Management	\$1,368	\$30,000	Monthly invoiced amount

VACANT POSITIONS

The Office currently has one vacancy, which has been vacant for over one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Training Education Coord II	30059601	1.00	1,210	Employee planning to return from military leave by 9/1/2024

FUTURE CONSIDERATIONS

In October 2022, the District Clerk’s Office, Court Administration, and other Departments converted to a new case management system, Odyssey. In the nearly two years since the move, the Office reports a continued focused on training, updating procedures and work tasks such as shifting historical files into the new system, and updating the auditing system for both civil and criminal cases to fulfill statutory requirements and maintain document integrity. However, the Office has related encountering significant and time-intensive challenges related to Odyssey’s new process requirements relative to the previous case management system, FACTS. These unforeseen challenges are straining workloads, especially regarding IT-related teams. The District Clerk’s Office is exploring solutions to improve systematic efficiency to reduce the increased demand on staffing capacity and better integrate current processes with available and developing solutions, with long term plans that focus on training, development and procedures that support Odyssey’s basic system.

In addition, the Office notes that Odyssey has recently been updated to version 2023 as required by the vendor. While the changes may lead to increased system productivity for case file management, the IT and Finance Divisions have observed increased workloads due to the change. Overall, the Office reports that while Odyssey has increased functionality for court activities, it has not been as useful for finance work requirements. This concern has prompted the District Clerk’s Office to allocate additional staff and resources to address the shortfall and ensure that accounting principles are maintained.

The Texas Supreme Court/Court of Criminal Appeals has instituted requirements for the clerks to be responsible for sending orders/notices from the Courts to the parties/attorneys of record with minimum time to respond and create a process to be in accordance with such rules. Compliance with these new requirements is requiring the Office to use additional time and resources. Notably, the District Clerk IT Team has developed applications to ensure that the Office properly follows new requirements such as Attorney General billing, sending parties/attorneys copies of court documents and victim notifications.

The Office also notes that it is working on a process to move exhibits from Heman Marion Sweatt Courthouse in an organized and methodical way and expects the new process to include a way to incorporate the exhibits into court management systems for easier access by necessary parties and the public.

The Office now intends to update the name of the IT Division to the ITS/Auditing Division, which will continue to work on reporting to external/internal agencies, document integrity review, use of technology to ensure compliance with various statutes and continued automation of jobs that are currently manually based.

Overall, the District Clerk's Office anticipates that case filings and court activities will likely increase due to the County's growing population and the courts' focus on the backlog of cases that were abated during the pandemic. To address these anticipated work task increases, the District Clerk asserts that it will make full use of current positions and seek technical support solutions prior to considering requests for any necessary additional FTE positions.

Additionally, on April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk's Office, the County Attorney's Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney's Office, the Public Defender's Office (PDO), the District Clerk's Office, and the Sheriff's Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this initiative, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop a finalized recommendation for this initiative. It is very likely that either an Earmark will be included in the FY 2025 Preliminary Budget, or PBO will help facilitate conversations between the Offices and Departments and Commissioners Court prior to the FY 2025 Adopted Budget regarding resources needed for FY 2025. Additional details regarding the District Clerk's Office request are noted in the FY 2025 Budget Request Analysis section below.

DEPT. SUMMARY OF REQUEST

The District Clerk's Office is requesting additional resources related to the creation of a Court Clerk II position (1.0 FTE) in the Criminal Division to support the new Counsel at First Appearance/Magistration (CAFA expansion) initiative.

This request anticipates the use of a short term or temporary judge(s) for four monthly CAFA shifts in FY 2025 as an extension of the CAFA test shifts currently underway and continuing throughout the remainder of FY 2024. However, the Office notes that the anticipated needs would expand drastically if the overall CAFA project grows in scope or timeframe.

This request assumes that court coverage outside of 9-5, M-F will occur no more than four days/month with activities limited to one operating courtroom and would not include weekend or coverage beyond 11 PM. Based on the time frame outlined, the District Clerk has limited the request to one Court Clerk II as the Office believes that, if granted and until the full scope of CAFA is determined, it can utilize existing personnel to sub in for the requested position in the event of sick leave/vacation/etc. as needed. Likewise, if the potential FY 2025 CAFA shifts require more staff capacity for additional coverage, the Office plans to use existing staff to supplement the requested Court Clerk II.

Given the noted assumptions, the Office proposes that the requested Court Clerk II position would provide clerical, filing, in court support and other work tasks to follow up court activities led by the assigned judge(s) and their staff. However, the Office notes that if this position directly supported the new Magistration courtroom activities, then the work tasks would deviate from the District Clerk's regular assignments, including the Magistration District Court. Specifically, the requested position would not be filing anything into a case as the case will not exist in the court management system for the District Clerk's Office. The Office does not expect that the position would cover the work tasks of other departments, which has not yet been assigned within current pilot operations for FY 2024. Traditionally, Court Clerk II positions in the District Clerk's Office provide a host of court support, with regular duties that may include: coordinating activities with jail administration, reviewing paperwork before presenting to the judge(s), keeping up with docket notes, assisting attorneys and court officers, observing and documenting court proceedings, looking up information for at judge's request, assessing paperwork after court proceedings, sending out statutory bond condition notices, and inputting information into required systems.

PBO RECOMMENDATION

PBO’s final recommendation for CAFA-related FY 2025 budget requests is pending a wider analysis of anticipated needs across all stakeholders intended to support an eventual full implementation of CAFA.

On April 23, 2024, Travis County began conducting test shifts related to the ongoing initiative to implement Counsel at First Appearance (CAFA) in Travis County in the Auxiliary (AUX) Courtroom located on the first floor of the Blackwell-Thurman Criminal Justice Complex (CJC). A total of 38 test shifts will occur throughout FY 2024 on various days and times and will conclude on September 30, 2024. The CAFA initiative is a key priority among multiple stakeholders, including the City of Austin, Travis County Commissioners Court, the public, local advocacy groups and a wide range of County Offices and Departments. CAFA seeks to ensure that Travis County provides access to legal counsel to all accused persons during the magistration process. These test shifts will assist with exploring the feasibility of implementing CAFA among Travis County Offices and Departments, uncovering challenges, identifying additional needs from involved community stakeholders, and developing best practices for an eventual implementation of CAFA on a 24/7 basis.

The County Clerk’s Office, the County Attorney’s Office, the Criminal Courts Legally Mandated Fees Department (CAPDS), Information Technology Services (ITS), the Pretrial Services Department, the Facilities Management Department (FMD), the Criminal Courts, the District Attorney’s Office, the Public Defender’s Office (PDO), the District Clerk’s Office, and the Sheriff’s Office each submitted an FY 2025 Budget Request related to the implementation of CAFA.

Given the importance and cost of this request, PBO needs additional time to finalize a holistic recommendation for resources required for CAFA. PBO will be meeting with each Office and Department to discuss PBO’s draft recommendations for the FY 2025 Preliminary Budget for their Office or Department. Part of these discussions will include their requested resources for CAFA. PBO will incorporate these discussions and feedback to further refine the cost of CAFA and develop potential options for the Commissioners Court to consider for funding depending on how CAFA could be implemented in FY 2025, based on the roles of the County and the City of Austin.

REQUEST #02: SATTELITE OFFICE COURT CLERK II'S (2.0 FTE) – PASSPORT DIVISION

<i>Program:</i>	Jury Management Office (121)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Earmark CAR	-	18,480	-	-
Total Earmarks	\$ -	\$ 173,096	\$ -	\$ -
Dpt Total + Earmarks	\$ 173,096	\$ 173,096	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The District Clerk's Office is requesting additional resources related to the creation of two Court Clerk II positions (2.0 FTE) in the Jury/Passport Division to staff a new satellite office at 8110 N. FM 620 (Four Points) to increase passport application capacity and related revenues, as well as to help cover personnel requirements during Family Leave absences. This would increase the District Clerk's FTE count by 2.0 FTEs.

The District Clerk plans to open a satellite office at Four Points using available space in the Tax Office. The two additional Court Clerk II positions would process passport applications, provide records and conduct filing activities at the new location which aims to improve access and reduce travel distances for Northwest Travis County and surrounding communities. Currently, individuals travel downtown or to the Airport Boulevard office to apply for passports and to CFCF or CJC to obtain court requests or drop off documents. However, if approved, the new satellite office would offer greater convenience for customers and for some employees who live in these rapidly growing regions, while reducing travel time for both groups.

The Office asserts that the requested Court Clerk II positions would expand passport service capacity and increase related revenues by an estimated \$157,500 while providing both general District Clerk services and passport/records services at the proposed satellite office. Additionally, the Office believes that these positions would allow for “floating” coverage to mitigate observed effects of the expanded Paid Family Leave policy, effective as of FY 2024, by providing coverage for two-to-four 12-week Family Leave periods.

The Jury/Passport Division currently has 10 employees that cover jury services and passport services. The Office notes that the team adequately staffs the Airport and CFCF locations but cannot further extend into a new satellite location within existing resources due to coverage challenges and schedule limitations. Regardless, the Office reports that it has leveraged these existing resources to support increased service levels in the Jury/Passport Division by leaning on temporary staff and overtime compensation to meet periods of high demand, historically occurring annually around March. Meanwhile, the Division has been able to offer support to other teams and areas of need within the District Clerk’s Office during periods of lower demand, traditionally around August. The Office continues to make a concerted effort to fully leverage existing resources to maximize service capacity to carry out its mandated and discretionary services to the best of its ability. This request aims to support these efforts.

BUDGET REQUEST PERFORMANCE MEASURES

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure at Base Level	Projected FY 2025 Measure with Added Funding	Projected FY 2026 Measure with Added Funding
<i>Existing Measures</i>						
Revenue generated by passport application activities	\$417,802	\$917,554	\$850,000	\$850,000	\$1,007,500	\$1,007,500

PBO RECOMMENDATION

PBO recommends a \$154,616 one-time Earmark against the Allocated Reserve and a \$18,480 one-time Earmark against the CAR Reserve for computer and phone equipment related to two additional Court Clerk II Special Project Worker (2.0 SPWs) positions to support the District Clerk’s proposed satellite location for this expansion of passport services staff.

PBO recommends that the District Clerk’s Office request access to this earmark in FY 2025 once it has been determined whether these two additional Court Clerk II SPWs can support either existing passport services operations at the Civil and Family Court Facility (CFCF) or at the District Clerk’s Office at 5325 Airport Blvd, or once the Office, in consultation with other stake holder departments, can present a formalized plan of action for the proposed satellite location expansion with clarification regarding the likely associated need for site renovation and supervision costs for input and potential approval from Commissioners Court for the plan and use of space regarding this proposed expansion of non-mandated services.

The District Clerk’s Office provides passport services at the CFCF and their office at 5325 Airport Blvd. During the COVID-19 Pandemic, the District Clerk observed a significant drop in workload and revenue, and the Planning & Budget Office (PBO) recommended a reduction of three vacant passport related Court Clerk FTEs as a part of the FY 2021 budget process given the anticipated reduced workload for the near term. PBO’s recommendations were made with the understanding that the positions may need to be restored over time if the demand and associated passport revenue returned.

As part of the FY 2022 Budget Process, Commissioners Court approved an Earmark against the Allocated Reserve of \$166,670 for three Jury/Passport FTEs, so long as specified revenue targets were met. These revenue targets stipulated that actual average monthly revenue must exceed the anticipated average monthly revenue for FY 2022 (\$35,000) by \$10,000 per position restored (i.e.: monthly averages exceeding \$45,000 for adding one position, \$55,000 for an additional position, and \$65,000 for adding back the final position). In December 2021, the Office met the first revenue threshold stipulated by the Earmark and added back one of the three Jury/Passport Court Clerks previously removed from their personnel. The second Court Clerk FTE was restored during the FY 2023 Budget Process as average monthly revenue reached the second threshold of \$55,000, as well as to support necessary staffing levels at the new CFCF facility as a lead passport agent. Then, during FY 2023, the Office cleared the third threshold of average monthly revenue (\$65,000) and the final Court Clerk FTE removed during the FY 2021 budget process was approved to be restored by Commissioners Court on November 29, 2022.

These previous thresholds reflected PBO’s general understanding that every \$10,000 increase in average monthly revenue reflected sufficient incoming resources to support an additional FTE dedicated to passport services. Therefore, average monthly passport revenues would need to exceed \$85,000 for PBO to consider that the District Clerk’s passport service revenues could support the direct personnel costs of the two additional Court Clerk I positions as requested. The table below details six month rolling averages for passport revenues in the District Clerk’s Office from October 2018 (FY 2019) through April 2024 (FY 2024), with dotted threshold lines representing \$65,000, \$75,000, and \$85,000 in six month rolling average passport revenues for reference.

Based on the data above, PBO concurs that the passport revenues in the District Clerk’s Office are recovering from their pandemic lows and resuming observed pre-pandemic averages. While PBO also acknowledges that passport revenues do exhibit seasonal volatility, it does appear that a sustained increasing trend in average passport revenues has been supported by the restoration of the three Court Clerk positions originally delimited during the FY 2021 Budget Process. PBO also concurs that it is possible that the District Clerk’s Office could generate additional revenue, likely exceeding the reported historical pre-pandemic annual averages of \$700,000 to \$900,000 with the full team of 10.0 FTE in the Jury/Passport Division, should the Office expand its service area to the northwest region of the County as proposed with additional staff. This region - much like the County as a whole - has witnessed significant population growth over the past decade.

Currently, the Revenue Estimation Unit of the Auditor’s Office is estimating that the Passport Fees in the District Clerk’s Office will exceed the historical pre-pandemic revenue averages of \$700,000 to \$900,000 by approximately 3.5 percent to total \$931,306 in FY 2025. This estimate is supportive of the Office’s assertion that the full restoration of Jury/Passport Division staff is expanding the Office’s capacity for passport services. However, PBO notes that revenue estimations at this stage are preliminary and are likely to change with subsequent revenue estimates.

The Jury/Passport Division is proposing this passport services expansion to be located at a satellite office at an existing County facility, 8110 N. FM 620 (Four Points). The District Clerk’s Office reports that it is currently coordinating with Facilities Management and the Tax Office regarding the feasibility of using this sight as a satellite office for general District Clerk services including passport services. However, PBO anticipates that there may be additional costs related to administrative supervision, as well as the possible need for site renovations and/or other operating needs associated with this proposed service expansion. PBO will work with the District Clerk’s Office to further refine anticipated costs associated with this request.

The District Clerk's Office also noted within this request that the expanded Paid Family Leave policy enacted by the County in FY 2024 has created a reduction in employee coverage of at least two FTEs for its existing operations. Therefore, the Office is also proposing that these two requested positions would be fully trained in basic court filing support and be able to assist for the 12-week periods in specific areas to mitigate the effects of the new policy for the Office. The District Clerk expects that this effort will involve divisional assignments two-to-four times a year (taking up 0.5 FTE worth each, or 1.0 FTE worth of the positions), which offsets the loss of employees' time, noting that, to date, the Office has experienced the equivalent of two employees, or eight twelve-week shifts, personnel capacity loss per year from the expanded Paid Family Leave policy.

PBO acknowledges that the expansions to the County's Paid Family Leave policy effective in FY 2024 are likely having a wide range of effects on existing staff capacity across all County departments. However, this effort will require a closer look at how departments have each addressed these factors in the short term and whether significant uses of Paid Family Leave-related personnel line items warrant a more centralized approach for mitigating the effects of the new policy. Until such time as this larger context analysis is complete, PBO will continue to work with affected departments, such as the District Clerk's Office, to gauge the impact of the expanded Paid Family Leave policy on staff capacity and anticipated expenditures.

REQUEST #03: BUSINESS ANALYST III (1.0 FTE) – IT DIVISION

<i>Program:</i>	Tech Support Development and Quality Assurance (121)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	108,646	-	-	-
Operating	-	-	-	-
Subtotal	\$ 108,646	\$ -	\$ -	\$ -
Capital	2,940	-	-	-
Dpt Total	\$ 111,586	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 111,586	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The District Clerk's Office is requesting additional ongoing resources related to the creation of a Business Analyst III position (1.0 FTE) in the Tech Support, Development, and Quality Assurance Division to complete key development projects, including creating technology solutions for the CAFA process, supporting record redactions, addressing growing information requests, and automating clerical work tasks. This request was first submitted during the FY 2024 Budget Process.

The Technical Services and Quality Assurance Division asserts that Odyssey, the new court management system (CMS), has vastly increased workloads. While Odyssey necessarily replaced the unsupported legacy FACTS CMS and brought positive impacts to court filing staff, other aspects of the system made work tasks more complex and time consuming. The Division believes that the best solution to the system's observed challenges is to develop Odyssey expertise internally and focus on development/programming projects that adapt Odyssey to Travis County systems and procedures.

The Office notes that issues faced with quality assurance (QA) file auditing exemplify current system challenges. IT employs eight (8.0 FTEs) records managers for these activities. QA work takes twice as long relative to observed processes under the FACTS CMS to complete due to the many tabs and review tools that are required for a full and complete auditing to occur. As a short-term solution, the Division shifted three employees to help support the workload and reduced the number of factors that the QA team must review. The Office continues to explore ways to adapt the overall QA system to provide more in-depth review and streamline Odyssey steps.

In addition, the Office believes that the additional Business Analyst III position will extend project and system development capacity. Stating that, if the capacity of large-scale development and systems programming is doubled for example from 4-5 projects per year to 8-10 projects, then the need for additional clerks will be significantly reduced since technology will create more streamlined and efficient procedures.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of completed IT projects (CAFA, redactions, automation and other systems)	N/A	N/A	N/A	4	8	8

PBO RECOMMENDATION

PBO does not recommend additional ongoing resources related to the creation of an additional Business Analyst III position (1.0 FTE) in the Tech Support, Development, and Quality Assurance Division be included in the District Clerk’s Office FY 2025 Preliminary Budget. With the performance measure data provided it is not clear whether this request demonstrates an immediate, critical, or statutorily mandated need for an additional permanent position to support the continued implementation of Odyssey within the District Clerk’s Office, despite the value the proposed position would offer to address project backlogs and improve Office processes in the long run through expansion of new IT initiatives including projects to automate District Clerk processes.

The FY 2024 Adopted Budget included additional one-time resources related to the creation of an Accountant Special Project Worker position (1.0 SPW, position number: 30066732) in the Finance/Accounting Division for a period of two fiscal years to address increased workloads for staff due to the transition to Odyssey. While this SPW position is intended, in part, to support the District Clerk’s Office’s observed workload challenges from the transition to Odyssey, PBO acknowledges that the requested Business Analyst III position would provide additional personnel capacity in the Tech Support, Development, and Quality Assurance Division to further address these observed challenges on an ongoing basis. Currently, the District Clerk’s Office maintains seven Business Analyst positions (7.0 FTEs) in the Tech Support, Development, and Quality Assurance Division, including four Business Analyst III’s (4.0 FTEs), two Business Analyst II’s (2.0 FTEs) and one Business Analyst I (1.0 FTE). The creation of an additional Business Analyst III position, as noted by the Office, would also provide greater capacity to address large-scale development and systems programming projects with the aim to improve the District Clerk’s overall workload capacity over time.

While this request might allow the Department to better address current workload challenges and expand its new IT initiatives including projects to automate District Clerk processes, PBO is unable to include funding for the request as part of the FY 2025 Preliminary Budget, due to very limited resources. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures.

REQUEST #06: COURT CLERK II FOR SUPPLEMENTAL (ARPA) CRIMINAL COURT (1.0 SPW)

<i>Program:</i>	Criminal Division (121)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Operating	-	-	-	-
Subtotal	\$ 76,808	\$ 76,808	\$ 76,808	\$ -
Capital	-	-	-	-
Dpt Total	\$ 76,808	\$ 76,808	\$ 76,808	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 76,808	\$ 76,808	\$ 76,808	\$ -

DEPT. SUMMARY OF REQUEST

The Criminal Courts requested a Magistration Court to continue the American Rescue Plan Act (ARPA) funded Court, which has assisted the criminal court judges in handling their heavy caseload, when that funding ends. PBO suggested continuing the ARPA Court to address the still remaining backlog of criminal cases due to the pandemic. The Department is now requesting the funds to continue the program through the end of the fiscal year 2025. The Department states that this ARPA Court will further the goal of creating an efficient and fair system for the disposition of felony cases by reaching cases earlier, facilitating prosecution and defense in quicker court appearances and hearings, and helping ease the backlog of jury trials for the criminal courts.

In conjunction with these efforts, the Criminal Division of the District Clerk’s Office is requesting the continuation of the existing Court Clerk II position (position number: 30065302) currently supporting these operations through carry out mandated filing and administrative activities. Other duties of the position include coordinating activities with the court coordinator, reviewing paperwork before presenting to the judge, entering paperwork filed, keeping up with docket notes, assisting attorneys and court officers, observing and documenting court proceedings, looking up information for attorneys/judge, assessing paperwork after court proceedings to ensure proper signatures, sending out statutory bond condition notices, and inputting information into required systems.

BUDGET REQUEST PERFORMANCE MEASURES

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure at Base Level	Projected FY 2025 Measure with Added Funding	Projected FY 2026 Measure with Added Funding
<i>New Measures</i>						
Number of new or reopened Criminal Cases filed	12,747	14,441	12,500	12,000	12,500	12,500

PBO RECOMMENDATION

In FY 2022, the Travis County Commissioners Court approved a contract with the Texas Judiciary to receive funds appropriated from the federal American Rescue Plan Act (ARPA). The grant period was from October 1, 2022, through March 31, 2024. This grant assisted Travis County Criminal Courts with the backlog of cases caused by the COVID-19 pandemic and funded six positions, including: 1) an investigator for the County Attorney's Office, 2) a Case Worker in the Public Defender's Office, 3) a Court Clerk II in the District Clerk's Office, 4) a Court Clerk II in the County Clerk's Office, 5) a Judicial Aide Specialist (Court Coordinator), and 6) a contracted Court Reporter within the Criminal Courts, which was converted to a full-time position because of the needs of the ARPA Court. Funding was also allocated for contract interpreters, visiting judges, and other operating needs.

Since its implementation, the Criminal Courts note that the ARPA Court has assisted with the disposition of cases and unindicted case backlog because of COVID. Per data provided by the Criminal Courts, of Felony cases set on the Unindicted Docket in the ARPA Court, 23 percent are disposed of within 30 days of setting, and 35 percent are moved to a pretrial diversion program. The Department also notes the time, in days, to disposition decreased since the introduction of the Unindicted Docket for all felony cases, as shown in the table provided by the Criminal Courts below.

The Criminal Courts note the ARPA Court assisted with Felony cases set on the Jury Docket, specifically for Family Violence cases in County Court-at-Law 4, and notes that 49 percent of Felony cases set on this docket are disposed of within 30 days of the setting date, compared to a 28 percent disposition rate for regular dockets. Jury trials for the County Court-at-Law 4 also decreased by 52 percent since the implementation of the ARPA Court. The following table notes the reduced decrease in the number of Jury trials set for this court due to the assistance of the ARPA Court.

Due to the implementation of the ARPA Court, the County Court-at-Law 4 has a reduced caseload. The Department notes the County Court-at-Law 4 caseload decreased by 45 percent, as indicated in the following table.

Beginning in April 2024, CAFA test shifts began operating the Auxiliary (AUX) Courtroom of the Blackwell-Thurman Criminal Justice Complex (CJC), which is where the ARPA Court had been holding operations. However, the Criminal Courts note this has not slowed ARPA Court operations, as the Department uses empty courtrooms on a rotating basis to continue ARPA Court operations. The Department is willing to continue using vacant courtroom space on a rotating basis due to CAFA test shifts. The area of the Travis County Jail identified to conduct CAFA will need to undergo repairs and renovations beginning in June 2024. These repairs and renovations could take approximately 18 months before the space can be utilized to conduct CAFA. PBO will work with Facilities Management, the Travis County Sheriff's Office (TCSO), and other relevant stakeholders Offices, and Departments to provide updates to the Commissioners Court on the progress of these repairs as needed.

The Criminal Courts worked with the Grantor to extend the continuation of these grant-funded positions and identified grant savings to fund the positions until approximately September 2024. The FY 2024 Adopted Budget includes a \$305,495 Earmark against the Allocated Reserve for the continuation of the ARPA Court so these positions and operations could continue for the remainder of FY 2024. The County Attorney's Office, the County Clerk's Office, the Criminal Courts, the District Clerk's Office and the Public Defender's Office requested to continue these positions for FY 2025. The following table notes the resources requested by each Office and Department for FY 2025.

FY 2025 Requested Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$ -	\$ -	\$104,508	\$104,508	\$115,037	\$3,000	\$118,037	\$222,545	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Criminal Courts	263,456	-	-	263,456	-	-	-	263,456	0.00
Criminal Courts LMF	-	150,475	-	150,475	-	-	-	150,475	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	1.00
Public Defender's Office	-	-	2,600	2,600	81,311	2,800	84,111	86,711	1.00
Total	\$417,072	\$150,475	\$107,108	\$674,655	\$196,348	\$5,800	\$202,148	\$876,803	4.00

FY 2025 requested resources for the ARPA Court total \$876,803 and 4.0 FTEs. This includes \$613,420 of personnel resources, \$5,800 of ongoing operating resources, \$150,475 of one-time operating resources and \$107,108 of CAR/ITS resources.

The County Attorney's Office requested \$222,545 and 1.0 FTE. This includes \$115,037 in personnel funding for a 1.0 Investigator FTE, along with \$3,000 in ongoing operating resources for supplies, travel and training associated with this position. The request includes \$104,508 in CAR/ITS funding for a law enforcement vehicle and radio equipment.

The County Clerk's Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

The Criminal Courts requested a total of \$413,931 and 2.0 SPWs. This includes \$100,602 of one-time personnel resources for a Judicial Aide Specialist to serve as a Court Coordinator and \$162,854 of one-time personnel resources for a Court Reporter to support continued ARPA Court operations. The Criminal Courts also requested \$150,475 in one-time operating resources for contracted visiting judges to be budgeted in the Criminal Courts Legally Mandated Fees Department.

The District Clerk's Office requested \$76,808 in personnel resources for the conversion of the Court Clerk II SPW to a full FTE (1.0 FTE) to continue supporting the ARPA Court operations.

Lastly, the Public Defender’s Office requested \$86,711 and 1.0 FTE. This includes \$81,311 of personnel resources, \$2,800 of ongoing operating resources for travel and equipment costs and \$2,600 in one-time centrally budgeted resources for computer of phone equipment related to the conversion of the Case Worker SPW position into a full FTE (1.0 FTE).

The Department further notes, “The ARPA Court will allow the Travis County criminal justice system to keep pace with an expanding population and backlogged cases reaching the docket. It will allow the Criminal Courts to maintain and improve the clearance rates of cases and the percentage of Felony cases disposed within 180 days.” PBO recommends the continuation of the ARPA Court in order to continue providing this level of service and addressing the criminal case backlog.

The following table notes PBO recommended resources for ARPA Court operations.

FY 2025 Recommended Resources to Continue the ARPA Court

<i>Department/Office</i>	<i>One-time Personnel</i>	<i>One-time Operating</i>	<i>CAR/ITS</i>	<i>Total One-time</i>	<i>Ongoing Personnel</i>	<i>Ongoing Operating</i>	<i>Total Ongoing</i>	<i>Total</i>	<i>FTEs</i>
County Attorney	\$-	\$-	\$-	\$-	\$115,037	\$3,000	\$118,037	\$118,037	1.00
County Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Criminal Courts	100,602	-	-	100,602	162,854	-	162,854	263,456	1.00
Criminal Courts LMF	-	-	-	-	-	-	-	-	0.00
District Clerk	76,808	-	-	76,808	-	-	-	76,808	0.00
Public Defender’s Office	81,311	2,800	-	84,111	-	-	-	84,111	0.00
Total	\$335,529	\$2,800	\$-	\$338,329	\$277,891	\$3,000	\$280,891	\$619,220	2.00

*PBO recommends a \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

FY 2025 recommended resources for the ARPA Court total \$619,220 and 2.0 FTEs. This includes \$613,420 of personnel resources and \$5,800 of operating resources. PBO also recommends \$100,000 one-time Earmark against the Allocated Reserve for Visiting Judges to assist with judicial duties for ARPA Court proceedings.

PBO recommends \$118,037 of ongoing personnel and operating resources to convert an Investigator SPW to 1.0 FTE within the County Attorney’s Office. This investigator will continue to support the County Attorney’s efforts to reconnect disengaged defendants with the court system. PBO does not recommend funding for a vehicle or radios for this position and recommends that the position continue utilizing the loaner vehicle provided by TNR and the radio provided from the County Attorney’s Office internal inventory.

PBO also recommends a total of \$263,456 of personnel resources for the Criminal Courts. This includes \$162,854 of ongoing personnel resources for 1.0 Court Reporter FTE to not only continue supporting ARPA court operations but to also provide ongoing court reporting support for all the Criminal Courts. Also included is \$100,602 of one-time personnel resources for a 1.0 Judicial Aide Specialist SPW for a two-year period, with an end date of September 30, 2026, to continue supporting the ARPA Court.

Furthermore, PBO recommends \$153,616 in one-time personnel funding for two two-year Court Clerk II SPWs with an end date of September 30, 2026, one each within the District Clerk’s Office and the County Clerk’s Office.

PBO recommends a total of \$84,111 in one-time resources, including \$81,311 in personnel and \$2,800 in associated operating resources, to support the continuation of the ARPA Court Case Worker SPW in the Public Defender's Office for two additional years with an end date of September 30, 2026.

Lastly, PBO recommends a \$100,000 Earmark against the Allocated Reserve for contracted Visiting Judges to assist with ARPA court judicial proceedings. Typically, the State of Texas contributes funding for District visiting judges, which has resulted in a remaining balance in previous years for the Criminal Courts Visiting Judge budget. PBO recommends that the Department first utilize their current Visiting Judge budgeted resources before requesting to access these earmarked funds. Because a major part of this Court's function is to support efforts to reduce backlog in the courts, PBO acknowledges the potential need for additional resources.

REQUEST #07: SCANNER EQUIPMENT

DEPT. SUMMARY OF REQUEST

The Information Technologies Division of the District Clerk’s Office is requesting funds to replace 45 scanners that are critical to court clerks’ file processing work activities. The District Clerk’s Office submitted this request at the request of the Planning & Budget Office.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of documents entered in the document management system	691,879	683,599	500,000	340,000	350,000	350,000

PBO RECOMMENDATION

PBO recommends \$45,000 in one-time capital resources be included in the District Clerk’s Office FY 2025 Preliminary Budget to replace aging scanner equipment for vital daily operations of Court Clerk staff. The District Clerk’s Office must retain access to functioning scanner equipment to ensure efficient continuity of basic services. Basic printer devices are not centrally budgeted in ITS or placed on a replacement list. PBO and ITS have traditionally relied on departments to address needs for printers and other such devices using internal budget capacity. PBO, in consultation with ITS, affirms that these devices have reached end-of-life and have difficult to locate replacement parts, as they are no longer produced by the manufacturer. This situation will only worsen with time as these devices continue to wear down and replacement parts grow increasingly scarce.

REQUEST #08: JURY PAY INCREASE

<i>Program:</i>	Jury Management Office (121)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ 93,000	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 93,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The District Clerk’s Office is requesting a \$93,000 one-time Earmark against the Allocated Reserve related to an anticipated increase in the number of juries and a proposal to increase day two and beyond daily jury payments by \$2, from \$58 to \$60, to more fully compensate jurors for their service and keep pace with payment rates of surrounding counties in the payment of daily jury support. The District Clerk’s Office submitted this request at the request of the Planning & Budget Office.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of jury panels	716	1,054	1,000	1,050	1,100	1,100

PBO RECOMMENDATION

PBO does not recommend a \$93,000 one-time Earmark against the Allocated Reserve related to an anticipated proposal to increase day two and beyond daily jury payments from \$58 to \$60 be included in the FY 2025 Preliminary Budget.

The table below summarizes the proposed change in subsequent day two and beyond jury fee payments and reimbursement rates following the implementation of HB 3474 in FY 2024. The current second and subsequent day jury payment is \$58 per day. Prior to HB 3474, the County received \$34 in reimbursements per day per jury from the state for these jury payments. Following HB 3474, these second and subsequent day jury payments increased from \$40 to \$58 per day per juror, and the reimbursement rates from the state increased from \$34 to \$52 for these payments. The net cost after reimbursement from the changes implemented by HB 3474 was \$0.

<i>Comparison of Current Rates vs Proposed Day Two+ Payments</i>			
	<i>Current Rate</i>	<i>Proposed Rate</i>	<i>Difference</i>
Day Two+ Payments	\$58	\$60	\$2
State Reimbursement	52	52	-
Net Cost After Reimbursement	\$6	\$8	\$2

With the proposed change to the day two and beyond daily jury payments from \$58 to \$60, the District Clerk’s Office estimates that total expenditures may increase to roughly \$963,743 in FY 2025. The FY 2024 Adopted Budget includes \$870,743 in ongoing operating resources related to jury fees in the District Clerk’s Office. Based on internal projections, the Office anticipates a \$93,000 shortfall in resources for these daily jury payments in FY 2025. However, PBO notes that the Office’s estimations demonstrate a substantial increase to the rate in which jury related resources are expensed relative to historically observed actual expenditures. The table and graph below detail the annualized revised budget amounts for both Grand and Petit Jury Fee resources relative to actual expenditures in the Office from FY 2019 through FY 2024. PBO Notes that FY 2024 projected annual expenditures are based on to-date actuals, as of July 2024, prorated through the remainder of FY 2024.

<i>Grand and Petit Jury Fees - Revised Budgets and Actuals FY 2019 through FY 2024</i>							
Fiscal Year	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024*	Average
Revised Budget	\$666,175	\$576,123	\$651,123	\$651,123	\$651,123	\$870,743	\$677,735
Actuals	641,363	221,404	147,134	410,400	473,450	664,219	426,328
Difference	\$24,812	\$354,719	\$503,989	\$240,723	\$177,673	\$206,524	\$251,407

* FY 2024 annualized actuals are prorated based on to-date actuals as of July 9, 2024.

* FY 2024 annualized actuals are prorated based on to-date actuals as of July 9, 2024.

Based on the brief analysis above, the District Clerk's Office has left an approximate average of \$251,407 of resources for Grand and Petite Jury Fees unallocated from FY 2019 through FY 2024. While PBO acknowledges that expenditure rates vary from fiscal year to fiscal year, PBO believes that the District Clerk's Office maintains sufficient flexibility in available resources to absorb the anticipated increase in expenditures related to the proposed rate increase of day two and beyond daily jury payments from \$58 to \$60 within existing resources. Therefore, PBO does not recommend additional resources related to Grand and Petite Jury Fees be included in the FY 2025 Preliminary Budget.

REQUEST #09: CAPITAL METRO TRANSIT PASSES

<i>Program:</i>	Jury Management Office (121)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	5,000	-	-	-
Subtotal	\$ 5,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 5,000	\$ -	\$ -	\$ -
Earmark Allocated	-	5,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 5,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 5,000	\$ 5,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The District Clerk’s Office is requesting additional one-time operating resources to provide free Capitol Metro mass transit passes for jurors. The Office notes that jurors provide a crucial public service but face challenges in traveling to the Courthouses and finding adequate parking. To offer an alternative to car transportation, the District Clerk offers free mass transit passes during jury service to encourage a less expensive and environmentally positive transit option.

The Capital Metro Jury Transit program has been in operation since June 2019 but was placed on hold during the pandemic due to a suspension of juries. All administrative, equipment, and labor costs are provided by the District Clerk’s Office. The only expenses for the program are the transportation pass purchases. This request assumes a full return of jury trials to pre-pandemic numbers. The Capital Metro Jury Transit program seeks to encourage jury service, supports a positive customer experience, and positively impacts the environment by reducing car transportation, as well as reducing commutes and traffic congestion in central Texas.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of jury panels	716	1,054	1,000	1,050	1,100	1,100

PBO RECOMMENDATION

PBO recommends a \$5,000 one-time Earmark against the Allocated Reserve for costs related to Capital Metro jury transit passes be included in the FY 2025 Preliminary Budget to ensure the Office maintains access to funds to continue the Capital Metro Jury Transit program in FY 2025 as needed.

The District Clerk requests \$5,000 to provide 1,000 free Capital Metro mass transit passes for jurors, based on a projected cost of \$5 per pass. During the FY 2022 Budget Process, PBO recommended \$2,500 in funds on a one-time basis for this purpose based on the assumption that the Office would continue trending upward in the number of passes provided to jurors. The Office provided 212 passes in a full year in FY 2019, then 228 in less than half a year in FY 2020. However, the Office fell short of initial projections in FY 2022, only providing 75 passes compared to projections of 500 passes provided. This shortfall was largely due to the pandemic, which reduced jury service levels.

The FY 2023 Adopted Budget included \$2,500 in one-time funding for Capitol Metro mass transit passes for jurors as the Office anticipated jury service levels returning to pre-pandemic levels throughout FY 2023.

The District Clerk's Office did not request continued funding for this program during the FY 2024 Budget Process.

For FY 2025, the Office notes that negotiations with Capital Metro to provide free metro passes for Travis County jurors are ongoing. If Capital Metro were to agree to provide free metro passes to Travis County jurors, then the requested \$5,000 in additional funding would no longer be required. Therefore, PBO recommends a \$5,000 one-time Earmark against the Allocated Reserve for Capital Metro jury transit passes be included in the FY 2025 Preliminary Budget to ensure the Office maintains access to funds to continue the Capital Metro Jury Transit program in FY 2025 relative to anticipated actual usage and pending the outcome of ongoing negotiations with Capital Metro.

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 83,681	\$ 83,681	\$ 83,681	\$ 83,681

DEPT. SUMMARY OF REQUEST

This budget request is included in the District Clerk’s Office FY 2025 Preliminary Budget Writeup by the Planning & Budget Office to ensure sufficient documentation regarding the Office’s special project worker staff originally approved for a duration of two fiscal years during the FY 2024 Budget Process.

The FY 2024 Adopted Budget includes one-time resources related to the creation of an Accountant special project worker position (1.0 SPW, position number: 30066732) for a period of two fiscal years in the District Clerk’s Office Finance/Accounting Division to provide additional personnel capacity in the Division as the District Clerk continues to adapt to the recent implementation of Odyssey. This request seeks to affirm the second and final year of approved one-time funding related to this Accountant SPW position for FY 2025.

BUDGET REQUEST PERFORMANCE MEASURES

The District Clerk’s Office did not submit performance measures related to this request.

PBO RECOMMENDATION

PBO recommends \$83,681 in additional ongoing personnel resources for the conversion of an Accountant Special Project Worker in the Finance/Accounting Division to a full FTE (1.0 FTE) be included in the FY 2025 Preliminary Budget. This position serves to provide additional personnel capacity in the Finance/Accounting Division as the District Clerk continues to adapt to the recent implementation of Odyssey. This will increase the District Clerk’s Office FTE count by 1.0 FTE.

Notably, the total estimated FY 2025 cost for this position based on the Office’s FY 2025 Budget Workbook Submission salary for position number 30066732 is \$101,400, which represents an approximate 26 percent increase from PBO’s original FY 2025 cost estimate of \$80,454 provided during the FY 2024 Budget Process. The increased costs are due to the Office’s offer of a salary above minimum for the paygrade, County-wide across the board increases to paygrade minimums included in the FY 2024 Adopted Budget and updates to benefit calculations in FY 2025.

The Office was able to internally fund a salary above the minimum for the paygrade (C10, \$53,728) in FY 2024 due to significant ongoing salary savings which have continued into FY 2025. Therefore, PBO’s recommendation is tailored to the

estimated one-time FY 2025 costs for salary and related benefits based on the current paygrade minimum for the position (C10, \$55,878) as PBO anticipates that the Office will be able to maintain the positions' current allocated salary amount through FY 2025 within existing resources.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of Emergency Medical Services (EMS) is to preserve life, property, and promote public safety effectively and efficiently through a commitment to search and rescue, firefighting, and critical care air ambulance as a safety response provider. Emergency Medical Services (EMS) contains the Shock Trauma Air Rescue (STAR Flight) program as well as the Travis County portion of the budget for the Austin-Travis County Emergency Medical Services Interlocal Agreement (ATCEMS) and the Division of Clinical Performance & Education (DCPE). The Department has identified the following strategic goals:

- Provide the highest quality critical care, air rescue, and support services to Travis County and Central Texas in a safe and rapid manner;
- Be an employer that quality EMS professionals want to join, where they can grow into recognized industry leaders, and where they can enjoy long and satisfying careers;
- Be driven by the delivery of high-quality care, attention to detail, and variety of services that are designed to meet a broad range of community needs;
- Have a culture of excellence through continuous improvement of quality and safety in everything done; and
- Have an effective and transparent financial model that insures good stewardship of public funds.

This aligns with the new County goal “Provide services that support the safety of people in the community.”

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

STAR FLIGHT:

The Shock Trauma Air Rescue (STAR) Flight program provides services via helicopter for healthcare and public safety functions. Its primary workload is air ambulance transport from remote locations to hospitals and trauma centers within Travis County. It also provides firefighting support during wildfire events and provides search and rescue support, particularly during flash flooding events.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Availability 24/7 Aircraft	100	98	96	100	100
Availability 3rd Aircraft- Not staffed or in-service	50	0	0	20	20
Availability 12/7 Aircraft	85	85	70	85	85
Missions missed due to busy. This does not include missed auto launches within Travis County	25	30	40	55	55
Missions missed due to mechanical failure	10	30	120	35	35
Non-Travis County Patient Transports	375	400	350	400	400
Number of Law Enforcement Missions	50	47	38	40	40
Number of Patient Transports	500	600	600	525	525
Number of Search and Rescue Missions	150	105	75	105	105

The program transitioned to a new airframe, the AgustaWestland AW169, during FY 2018 and FY 2019. Aircraft availability has been decreasing as the AW169 airframe has aged and faced significant maintenance issues in the last two years. STAR Flight projects a fourfold increase in flights due to mechanical failures in FY 2024 after a tripling of this measure in FY 2023. Unforeseen aircraft maintenance, as well as unforeseen staff unavailability due to military or parental leave, can explain the drop in patient transports, aircraft availability, and missions.

DIVISION OF CLINICAL PERFORMANCE AND EDUCATION:

The Division of Clinical Performance and Education (DCPE) provides medical direction and protocol guidance to first responders in Travis County. The program educates and trains field personnel who provide medical services. It also credentials services providers, including STAR Flight, Emergency Services Districts, and Austin-Travis County Emergency Medical Services. First Responder Organizations or Transport agencies must be licensed and have a medical director and clinical operating guidelines. These mandates are set by the Texas Department of State Health Services (DSHS) and Chapter 773 of the Texas Health and Safety Code.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of coordination meetings with City of Austin EMS/OMD	12	12	12	12	12
# of multi-agency training events	6	14	8	9	9
# of providers credentialed	28	83	25	25	25
# of revisions/enhancements to operating guidelines	0	5	12	12	12
% of care providers receiving quarterly education	75	78	78	80	80

The program’s performance measures above relate primarily to workload for the program. PBO will continue to work with the program to develop appropriate outcome measures that reflect the quality of services being provided.

AUSTIN-TRAVIS COUNTY EMERGENCY MEDICAL SERVICES (ATCEMS) INTERLOCAL AGREEMENT (ILA):

In FY 2018 the Department entered the most current iteration of the Ground Transportation ILA with the City of Austin to contract out Travis County ambulance services. As part of the new ILA, its structure changed to a “pay-for-performance” model. Previously, the County would tie funding for the ILA to a specific number of emergency stations. Starting in FY 2018, the County now ties payments to meeting emergency response time goals. The City is required to meet its response time standard 90 percent of the time or more in order to receive payment, regardless of the number of stations it operates. As part of the agreement, the County and City agreed that the City should take in all revenue, and the County portion of funding was reduced by a commensurate amount to account for the change. The new 5-year ILA approved in FY 2022 continues this arrangement.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Overall On-Time Rate: Travis County	89	77	80	80	80
# of County Responses	9,796	17,054	17,000	17,000	17,000

The number of county responses in the table above is the number of ATCEMS dispatch responses within Travis County but not within the City of Austin or other neighboring jurisdictions. The system saw an increase in FY 2023 and is on track for FY 2024 to be level with FY 2023. The overall on-time rate for Travis County is consistently below 90 percent and has seen a significant drop for FY 2023.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
DCPE Clinical Quality Improvement Coordinator	\$266,571	1/1	The DCPE Clinical Quality Improvement Coordinator title has changed to EMS Training Captain. The filling of this FTE has allowed DCPE to expand its medical training staff by 33% and its helicopter rescue training capabilities by 50%. DCPE was also able to expand its overall medical oversight by adding an additional ESD to the program. County ESDs report plans for a 100% increase in ALS providers for the FY 2025 budget cycle.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	5,640,404	5,832,256	6,438,347	6,891,712	453,365
Operating	15,388,443	16,733,621	19,068,501	20,746,036	1,677,535
Total (Per&Op)	\$ 21,028,847	\$ 22,565,877	\$ 25,506,848	\$ 27,637,748	\$ 2,130,900
CAR*	913,934	98,801	6,849,446	3,218,695	(3,630,751)
Grand Total	\$ 21,942,781	\$ 22,664,678	\$ 32,356,294	\$ 30,856,443	\$ (1,499,851)
FTEs	41.00	41.00	43.00	44.00	1.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Emergency Medical Services decreased by \$1,499,851 from the FY 2024 Adopted Budget. This is a 4.6 percent decrease. The majority of the decrease was in the capital budget due to lower year two costs on aircraft warranties.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Emergency Medical Services includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$1,354,878 was added to the budget related to ongoing costs for the FY 2024 increment of the Austin Travis County Emergency Medical Services (ATCEMS) ILA.
- \$63,837 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for Emergency Medical Services includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Assistant Chief Positions	-	116,244	116,244	1.00
Increase Fuel Budget	-	100,000	100,000	-
West Base Blanco County	84,000	-	84,000	-
Infusion Pump Service Agreement	60,000	-	60,000	-
Baylor Scott and White ILA	-	51,200	51,200	-
Inspection of Life Safety Equipment	-	25,000	25,000	-
CAMTS Reaccreditation	15,000	-	15,000	-
Echo Health Service Agreement	-	11,500	11,500	-
Education Management System	-	7,000	7,000	-
DCPE Uniforms	5,000	-	5,000	-
Water Safety Training	4,400	-	4,400	-
Interactive Training Aids	1,500	-	1,500	-
Total Programmatic Recommendations	\$169,900	\$310,944	\$480,844	1.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Emergency Medical Services includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
STAR Flight Relief SPWs	\$75,174	\$-	\$75,174	-
Travel and Training Cut Restoration	-	21,894	21,894	-
Total Administrative and Other Funding Changes	\$75,174	\$-	\$97,068	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$21,894 in ongoing operating resources for Emergency Medical Services. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Emergency Medical Services includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$-	\$202,641	\$202,641
Resources for health insurance cost increases for FY 2025.	-	22,827	22,827
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	21,677	21,677
Incremental cost increase to shift-differential pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	14,802	14,802
Total Compensation Changes	\$-	\$261,947	\$261,947

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$3,218,695 for Emergency Medical Services. There was a reduction of \$6,849,446 to remove one-time funding for prior year capital funded projects. This is a net \$3,630,751 decrease compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Helicopter Full Component Plan	\$1,439,430
Helicopter Full Service Plan	1,073,100
West Base Blanco County	183,512
LTE Portable Radios	155,036
Rescue Equipment	150,550
Tempus Monitor Replacement	123,000
Hoist Mount Supplies	40,000
Safety Boat and Motor	40,000
Flight Nurse Equipment	14,067
Total Capital Funding Recommendations	\$3,218,695

EARMARKS

In addition to the funding above, the following Earmarks and funding in other reserves are included in the FY 2025 Preliminary Budget. These amounts are not included in Emergency Medical Service’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Interlocal Reserve Funding</i>	<i>Total</i>
ILA with COA for ATCEMS Response	\$625,987
EMS Interlocal Agreement with ESD 2	25,294
Total Interlocal Funding Earmarks	\$651,281

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, Emergency Medical Services has five fees it charges and five revenue-generating contract) it manages. Of those, none of the fees or contracts are being proposed by the Department for adjustment in FY 2025.

FUTURE CONSIDERATIONS

Throughout FY 2024 PBO has worked with the STAR Flight program to understand its staffing needs. This research process culminated in an analysis that considers current limitations, training needs, and impacts of leave events on the current staffing model. The below draft study is attached to give the department relevant information, data and recommendations for its staff planning and staffing model.

STAR FLIGHT STAFFING STUDY:

The Shock Trauma Air Rescue (STAR) Flight program provides services via helicopter for healthcare and public safety functions. Its primary workload is air ambulance transport from remote locations to hospitals and trauma centers within Travis County. It also provides firefighting support during wildfire events and provides search and rescue support, particularly during flash flooding events.

HISTORY OF STAR FLIGHT AND ITS STAFFING:

The STAR Flight program began service in May 1985. At that time, the program was a partnership between Travis County, the City of Austin EMS, and the city-owned and operated Brackenridge Hospital. Travis County funded the aircraft, including aviation personnel (pilots and mechanics) and expenses. The Austin EMS department provided the flight paramedics, communications center, and medical equipment. Brackenridge Hospital provided the flight nurses, crew quarters, and

aviation facilities (helipad and fuel system). The original focus of the program was to provide advanced life support to the rural areas of Travis County.

Each organization established a chain of command (Chief Pilot, Chief Flight Paramedic, and Chief Flight Nurse) for their respective groups and retained full authority for their respective personnel, including maintaining separate training and clearance processes. Each entity had its own set of policies and procedures. This created situations in which conflicts developed between the various independent but interacting systems. While this worked during the early years, as the program flight volume increased and the complexity of the mission evolved, especially the addition of inter-facility transports and broader public safety missions, conflicts developed concerning the priorities of the various program partners. Each organization had its own ideas on the best way to solve these issues.

A complication occurred when the City of Austin entered into a long-term lease agreement with the Seton Healthcare Network in 1998 for the management and operation of Brackenridge Hospital. Seton began looking for ways to better meet their air-medical needs. Ultimately, the Seton Healthcare Network chose to outsource its air medical services to a private vendor. The withdrawal of this partner and their flight nurse staff resulted in the City of Austin and Travis County being faced with a decision regarding the structure, staffing, mission, and operation of STAR Flight. The City and County agreed to bring all program personnel (flight paramedics, flight nurses, pilots, mechanics, and communications personnel) under the management of Austin-Travis County EMS.

In 2008, STAR Flight completed a business planning project that moved all personnel to Travis County. This was done so that all program personnel would be subject to the same policies, procedures, and benefits. In addition to moving all personnel to Travis County, the Commissioners Court approved 9.0 additional FTEs as part of the FY 2009 Adopted Budget to staff a second helicopter part-time.

CURRENT STATUS:

The current STAR Flight staffing model provides for 72 hours per day of Flight Paramedic and Registered Flight Nurse coverage with minimal replacement factor for coverage of sick time, vacation, etc. That staffing model does not consider the impact of increased training requirements to maintain industry best practices and licensure or prolonged periods of leave that may occur in addition to normal absences, such as on-the-job injuries, military leave or the recently implemented paid parental leave policy.

Due to the unique and expansive training and qualification requirements that STAR Flight Paramedics and Registered Flight Nurses' have, a contingency staffing resource outside of the current authorized staffing does not exist. Gaps in coverage require overtime backfill from the limited pool of existing staff or result in service interruption or degradation of service capabilities due to insufficient staffing. Ongoing training requirements for current medical crew members have increased due to regional changes in medical care by partner agencies and increased sustainment training requirements related to new medical equipment being utilized to provide advanced care.

IMPETUS FOR STUDY

STAR Flight has had numerous leave events over FY 2023 and FY 2024 that have put their current staffing model under significant strain. STAR Flight expects three parental leave events and an eight-month military leave event during FY 2024. STAR Flight has also hired new staff in both Flight Paramedic and Registered Flight Nurse positions, which require a minimum of eight weeks of training before slotting into regular aircraft rotation. The STAR Flight Director of Medical Operations has expressed to PBO that without modifications to the current staffing structure, STAR Flight will struggle to maintain adequate staffing during leave disruptions for its 24/7 and 12/7 helicopters into the future. The staffing structure for the crew operating STAR Flight's aircraft has not changed significantly since FY 2009, when the program added its 12/7 aircraft and nine additional FTEs. Relief staffing for two additional FTEs was included as part of the FY 2022 Adopted Budget. An additional two special

project workers were approved by the Commissioners Court on February 6, 2024, to address significant disruptions during parental and military leave events. However, the Department states that the additional FTEs from FY 2022 have not been sufficient to maintain sufficient available staffing to operate the current model of one 24/7 and one 12/7 helicopter at all times.

SCOPE

PBO has worked with STAR Flight to determine an appropriate scope for exploring its staffing needs. The primary focus of this study was to examine staffing for the three necessary position types that operate an aircraft during a mission. These positions include Flight Paramedics, Flight Registered Nurses, and Pilots. This group of three positions will be identified as “mission staff” for the purpose of the study. Department-wide data are included as necessary to give context and illustrate trends. For this study, PBO used specific performance, budget, and payroll data from Emergency Medical Services. PBO also examined best practices in staffing 24-hour operations and other staffing studies nationwide. Employees' personally identifiable information has also been excluded from the published data.

METHODOLOGY

PERFORMANCE, TIMESHEET AND PERSONNEL DATA

For this study, PBO utilized performance data provided by the Department. These measures include flight time, patient transport, and other workload measures. This data is intended to illustrate workload trends and provide context for the program's current state.

In addition, timesheet data was collected from FY 2022 and FY 2023 to estimate the workload burden on the Mission Staff subset that is the subject of the study. This includes data on hours worked, vacation and comp time taken, sick leave utilized, and unplanned leave events. PBO notes that this data does not fully encompass the impacts of military leave without pay, newly adopted Paid Parental Leave policies, and the robust training requirements of the program. This data will help illustrate trends in workload year to year along with performance measure data.

Various types of personnel data are used in this study. Overtime expenditure data was also collected from the SAP financial system to look at trends in overtime expenditure by fiscal year. PBO also collected vacancy history on the three positions to look at the average length of vacancy and frequency in a given fiscal year. PBO also looked at external models on 24-hour staffing to understand appropriate assumptions regarding relief factors and staffing ratios.

CURRENT STAFFING MODEL

The current staffing model for STAR Flight is designed to operate one 24/7 aircraft and another 12/7 aircraft. Each aircraft requires a Paramedic/Nurse, a Crew Chief, who is a nurse or paramedic with additional certification, and a Pilot. This totals 36.75 hours of coverage needed in one day as STAR Flight schedules 12-hour and 15-minute shifts to account for 12 hours of duty time and a 15-minute debriefing. The total required coverage for each of those three positions is 13,414 hours per year.

Table 1: Position Coverage Requirements

<i>Position</i>	<i>Coverage Needs per Day (Hours)</i>	<i>Coverage Needs Per Year (Hours)</i>
Paramedic/Nurse	36.75	13,414
Crew Chief	36.75	13,414
Pilot	36.75	13,414
Total	110.25	40,242

From FY 2009 - FY 2021, STAR Flight’s staffing model was structured with the assumption of a mission staff FTE working all their scheduled 2,080 hours, which is the budgeted amount for an FTE position within Travis County. The model used overtime

among mission staff and supervisors to cover gaps caused by vacation, sick, and unforeseen extended leave. Although a helpful metric, the 2,080 figure does not represent the total available hours a position is available for line duty. Two of the most significant factors to account for are the utilization of both vacation and sick time by an FTE, as well as necessary training.

PBO worked over two interview sessions with STAR Flight’s management staff to understand the required training workload for a mission staff FTE. STAR Flight identified the training, rotations, and exercises as crucial to their mission readiness. These are all hours when mission staff cannot be utilized to staff an aircraft and must be accounted for in staffing ratios. As part of this study, PBO recommends that training hours be tracked more closely by the Department so they can project out this requirement better in the future.

Table 2: Training Requirements

<i>Estimated Training Required for one Position</i>	<i>Hours</i>
Clinical rotations	16
Rescue exercises	24
Certification courses	16
Staff meetings	2
Continuing education	12
Total	70

PBO also used payroll data to quantify the total percent of vacation and sick time FTEs in mission staff positions taken over the last two fiscal years. This included breaking out the percentage of hours worked, vacation, sick, and irregular leave (FMLA, Military, and Unpaid). This calculation will be further elaborated on in the analysis section. In the table below, PBO utilized both timesheet data and informational interviews with Emergency Medical Services to quantify vacation and sick time taken and estimated training hours.

Table 3: 1.0 FTE Coverage in Typical Year

<i>Total Budgeted Hours per FTE (2,080 Hours per Year)</i>	<i>Hours</i>
Less Average Vacation and Sick time Taken over last two FYs (hours)	(305)
Less Estimated Training (hours)	(70)
Available Coverage Hours for One Position	1,705

STAR Flight currently has 8.0 regular Flight Paramedics FTE, 8.0 regular Flight Registered Nurses, and 7.0 regular pilots, as well as one assistant chief pilot who is scheduled to cover flights half of their working hours and work on administrative tasks in the other half of their time giving them coverage for 7.5 total pilots. Both Flight Paramedics and Flight Registered Nurses can be certified to function as crew chiefs. Crew Chiefs have unique certifications such as being able to operate the aircraft hoist that make them necessary on any mission. PBO notes that staff certified as crew chiefs can cover shifts for Non-Crew Chief Paramedics and Nurses. This model gives STAR Flight a small coverage deficit in pilots and a small relief factor for crew chiefs and paramedics/nurses. As of February 15, 2024, 11 out of 16 nurses and paramedics are certified as crew chiefs.

Table 4: Current Staffing Model Accounting for Estimated Leave and Minimum Training Requirements

<i>Position</i>	<i>Total Hours Needed for Coverage</i>	<i>Available Coverage from 1.0 FTE</i>	<i>Total FTE Needed</i>	<i>Total Regular Budgeted FTE</i>	<i>Coverage Surplus (hours)</i>
Non-Crew Chief Paramedic/Nurse	13,414	1,705	7.9	5.0	(4,886.7)

Crew Chief, Paramedic/Nurse	13,414	1,705	7.9	11.0	5,345.9
Nurse/ Paramedic Sub- Total	26,828	N/A	15.8	16.0	459.2
Pilot	13,414	1,705	7.9	7.5	(623.1)
Grand Total	40,241	N/A	23.8	23.5	(163.9)

PBO notes that this model does not include considerations for extended military leave, paid parental leave, vacancies, onboarding, or injuries that can occur in the line of duty. Given this model, if fully staffed, the Department should expend minimal overtime and be able to cover regular vacation leave, sick days, and other regular leave periods.

ANALYSIS OF MISSION DATA

PBO collected 10 years of prior performance data to quantify workload fluctuations within the STAR Flight Program. One of the primary drivers of STAR Flight’s workload is air ambulance transport from remote locations to hospitals and trauma centers within Travis County. As of 2018, the Department has a master services agreement with the Seton Network that makes STAR Flight the preferred air ambulance provider for regional healthcare providers. STAR Flight contracts with the St. David’s Network for neonatal and high-risk obstetrical transports. Because the regional network extends beyond Travis County, non-Travis County flights comprise most of the program’s medical transports. STAR Flight provides staff on an overtime basis to keep two aircraft available around the clock during wildfire or flash flooding events so that the Department can adequately perform firefighting or search and rescue missions alongside medical transports. Over the last five fiscal years, the department has seen a 39% increase in patient transport volume. This translates to a five-year compounding annual growth rate of 6.8%.

Chart 1: Patient Transports

Patient transports are broken out into in-county and out-of-county transports. Out-of-county transports have fluctuated between 61 percent and 76 percent of total patient transports, making up a substantial majority. In-county transports have grown by 119 percent in the last five years or 17 percent annually on average. Out of County Transports have grown 13 percent in the same time period and 2.5 percent per year over the same time period. Patient transports will likely increase as the surrounding area’s population and Travis County continue to grow. PBO notes that a new STAR Flight operations base in Blanco County could impact the future ratio of out-of-county transports vs. in-county. The impact is currently unknown, but PBO will continue to work with STAR Flight to monitor and quantify workload related to the new operations base.

STAR Flight also collects data on the total number of missions the program completes yearly and the number of missions it misses due to weather, mechanical failure, or being busy due to other missions or staffing deficits. PBO has used this data to analyze requests from STAR Flight to convert its 12/7 helicopter to a 24/7 helicopter in past budget processes. PBO created the measure % of missions missed, Busy to quantify staffing impacts on helicopter availability. Similar to patient transports, total missions decreased from 2014-2018 but have increased by 47 percent over the last five fiscal years. Since 2018, the amount of missions STAR Flight has missed due to being busy has also increased more than 10-fold. In line with that increase, the percentage of missions missed due to being busy is more than ten times its level from 2014. As STAR flight plans for the program's future, PBO recommends establishing an acceptable service threshold and using it for current and future resource planning.

Table 5: Mission Data

<i>Fiscal Year</i>	<i># of Missions</i>	<i># of Missions Missed, Weather</i>	<i># of Missions Missed, Busy</i>	<i># of Missions Missed, Mechanical</i>	<i>% of Missions Missed, Busy</i>
2014 Actuals	1,031	157	12	5	1.16%
2015 Actuals	945	249	7	6	0.74%
2016 Actuals	900	246	6	4	0.67%
2017 Actuals	856	185	5	5	0.58%
2018 Actuals	867	219	7	6	0.81%
2019 Actuals	893	218	11	2	1.23%
2020 Actuals	1,060	212	24	7	2.26%
2021 Actuals	1,180	250	41	10	3.47%
2022 Actuals	1,079	116	74	13	6.86%
2023 Actuals	1,275	307	131	12	9.32%

ANALYSIS OF TIMESHEET, AND OVERTIME EXPENDITURE DATA

To quantify the program's current and projected personnel workload, PBO analyzed complete timesheet and overtime expenditure data from FY 2022 and FY 2023. Mission Staff Regular FTEs logged 48,296 hours in FY 2022 and 52,203 in FY 2023. During FY 2022, the program had 22 mission staff FTEs for much of the fiscal year due to an employee on extended military leave. In FY 2023, the program had 23 regular Mission Staff FTEs. As stated earlier, an assistant chief pilot splits duties between administrative work and mission staff work; this position was excluded from the analysis in this section due to an inability to break out those hours by functional area.

Given the FTE count and total hours worked, PBO estimated the average overtime worked per mission staff FTE in both years. This was done by taking the average total hours logged and subtracting 2080 hours (a full-time employee not logging any

holidays, vacation, or sick time). Overall overtime utilization increased by roughly 67 hours per mission staff employee from FY 2022 to FY 2023.

PBO also included prior year budget data in the table below to contextualize this increase in estimated overtime hours. Overtime salary expenditures increased by \$90,318 from FY 2022 to FY 2023. This is mainly due to an increase in estimated overtime hours worked by mission staff and further by across-the-board compensation changes approved by the Commissioners Court in the FY 2022 budget. The bottom line of the below table shows a 12 percent increase on a percentage basis of Department 159’s overtime budget. This was measured by taking the above expenditure number and dividing it by the budgeted overtime salary lines within the department. All three indicators show increases in overtime utilization and expenditures as a proportion of total workload.

Table 6: Overtime Utilization

<i>Fiscal Year</i>	<i>FY 2022</i>	<i>FY 2023</i>
Average Estimated Overtime Hours Logged Per Budgeted Mission Staff FTE	115	182
Amount of Overtime Budget expended (\$)	\$230,664	\$320,982
% of Overtime Budget Utilized	62%	74%

PBO notes the below chart shows timesheet hours broken out by type of time code. Hours worked include all regular hours logged and paid as straight time and overtime. Hours Worked is overwhelmingly the most frequent time code category, with 86.34% of all time logged. This is followed by Various Paid Leaves (10.07%), Sick Leave (2.75%), and Irregular Leave (0.83%).

Chart 2: Timesheet Groups

PBO also used the same overtime estimation methodology above to estimate total overtime to determine the proper proportion of leave that mission staff employees utilized. Because the above graph includes overtime, the proportion of hours worked is higher than if an employee logged only 2,080 hours per year. Over the two-year period, PBO estimates 6,719 hours of overtime across all mission staff. This was subtracted from the total hours logged, and the new ratios were factored into the staffing model calculation. The vacancy adjustment conducted earlier in the section was repeated for this analysis. Given this data, PBO determined that a mission staff FTE's average holiday, vacation, and sick time utilization was 304.5 hours annually.

Table 7: Mission Staff Average Leave Events

<i>Leave Type</i>	<i>FY 2022 - FY 2023 Average Timesheet Hours</i>	<i>FY 2022 - FY 2023 Average % Timesheet Hours</i>
Vacation, Holiday, and Various Paid Leaves	224.5	10.79%
Sick Leave	61.4	2.95%
Irregular Leave (FMLA, Military, Unpaid)	18.6	0.89%
Total	304.5	14.63%

PBO notes that this does not account for vacant positions and that there were eight external hires for mission staff positions over this time period. Each external hire for STAR Flight has to undergo a rigorous 60 – 90-day training before they can regularly be in the line of duty.

IDENTIFIED CONCERNS

In informational interviews with STAR Flight management staff, the group identified four main concerns with their staffing model. First, new parental leave policies adopted by the Commissioners Court in FY 2022 and expanded in FY 2024 are not accounted for in their current staffing relief factor. Second, the staffing model does not account for the lengthy onboarding and recruiting process. Third, as a specialized and dangerous job, being a Mission Staff FTE has a higher risk of injury, and currently, staffing gaps due to injury are covered by overtime hours. Fourth, many of STAR Flight staff are members of the armed forces and could be deployed given limited notice. These four concerns can all create significant disruption to STAR Flight's staffing at a moment's notice.

Coupled with these factors, as noted above, STAR Flight Mission Staff are not able to be substituted with other County personnel such as nurses within TCSO due to the specialized training requirements to operate in an aircraft. Additionally, the specialized nature of this training, and the length of time to complete it (even if a candidate has previous work experience on other helicopters), makes it extremely difficult to hire temporary staffing either directly or from an outside entity to fill in during periods of absence or vacancy. Thus, the relief factor, or the calculation of the number of FTEs needed to ensure a certain post is filled at all operational times, is likely to be higher compared to many other County departments to account for not only things such as sick and vacation leave as well as required training, but also to cover extended absences for injuries, military or family leave, and a longer than average time to recruit, fill, and train new staffing.

NEEDED RELIEF FACTOR ADJUSTMENTS

PAID PARENTAL LEAVE (PPL)

Since extending paid parental leave (PPL) to 12 weeks in FY 2024, STAR Flight has had three mission staff FTEs with PPL events. In FY 2023, STAR Flight had one Mission Staff FTE with a PPL event under the prior policy, resulting in a 292-hour staffing impact. Given the current policy, each PPL event creates a 480-hour impact on the staffing model that was previously unaccounted for. The current estimated impact for FY 2024 is 1,440 hours, which has put the Department under significant strain to staff its 24-hour operation fully. Given the average number of available work hours for a position is 1,705/year as noted earlier, PPL events in FY 2024 represent nearly a 1.0 FTE shortage solely due to PPL. However, determining the correct amount of relief staffing to account for parental leave is complicated due to the unpredictable nature of it on a year-to-year basis.

VACANCY & ONBOARDING

As a highly specialized and unique operation, STAR Flight has a rigorous training and onboarding process for new mission staff. In conversations with STAR Flight's director of medical operations, they expressed that this onboarding period is generally somewhere between 60 – 90 days, depending on the training and prior experience of the new employee. While mission staff positions are vacant or new employees are onboarding, the Department generally relies on overtime from

existing staff to cover the gaps. In periods of high turnover or extended vacancies, this has created a significant overtime burden for a small pool of employees.

PBO analyzed vacancy and external hire data from the last ten fiscal years in the SAP system to quantify this workload impact. PBO took the average external hires in mission staff positions over the last ten fiscal years to determine that, on average, STAR Flight has 3.18 external hires per year. The average time of vacancy for mission staff positions was also pulled over the same period; on average, these positions are vacant for 39 days. Using an estimate for training and onboarding of 10 weeks or 70 days means each vacancy leads to a 109-day gap from a prior employee leaving to a new one returning to full service. Given that a mission staff FTE is available to work 1,705 hours per year, this leads to 509.17 hours of workload impact per vacancy. PBO estimates this is a total workload impact of 1,619.16 hours per year, nearly 1.0 FTE worth of needed coverage per year based on 1,705 working hours.

Table 9: Onboarding and Vacancy Impacts

<i>Workload Type</i>	<i>Hours</i>
A. 10-year Average Mission Staff Vacancy Time (working hours)	182.18
B. Average Onboarding Period (working hours)	326.99
Estimated Workload Impact per external hire (working hours) (A+B)	509.17
C. 10 -year Average Yearly Mission Staff External hires	3.18
Estimated yearly workload impact of vacancies and onboarding (working hours) (C x (A+B))	1,619

INJURIES

In informational interviews with PBO, STAR Flight Staff identified the risk of prolonged leave from injuries as another concern when planning around staff availability. Work as a Mission Staff FTE has a significant physical component, requiring regular, strenuous physical activity. Rescue missions and patient transports also add additional risk for injury. Given the limited ability to gather historical data on reporting injuries within the program, PBO obtained data occupational injury data and occupational employment data from the Centers for Disease Control (CDC) and Bureau of Labor Statistics (BLS) to quantify the likelihood of an extended leave event given national data on the paramedic profession.

The Bureau of Labor Statistics (BLS) regularly publishes occupational employment and wage statistics for all occupations in the workforce. In 2020, the BLS estimated that a total of 257,700 employees in the United States work as Emergency Medical Technicians and Paramedics.¹

The CDC’s National Institute for Occupational Safety and Health (NIOSH) publishes data on workplace injuries from its National Electronic Injury Surveillance System (NEISS) – a national probability-based sample of U.S. hospital emergency departments. The most recent publication from 2020 estimated that 16,900 Emergency Medical Service workers (Paramedics and EMTs) were treated at US hospitals for occupational injuries.² The primary injuries were sprains, strains, contusions, and abrasions. These injuries generally have a recovery time of between two - six weeks.

Given the two sets of data, the estimated probability of a workplace injury for a paramedic is 6.56 percent in a calendar year, with an estimated recovery time in working hours of 80-240 hours. This totals an estimated workload impact of about 5.2-15.7 hours per mission staff FTE. Mission Staff FTEs are taking roughly 64 hours of sick time per fiscal year, well under 94 hours of minimum accrued leave each year. Adjusting this number to account for potential on and off the job injuries could help with coverage and workload projections. As this would be a rough estimation, PBO recommends the Department track

¹ https://www.bls.gov/oes/2020/may/oes_nat.htm

² <https://www.cdc.gov/niosh/ems/data/index.html>

extended injury leave among its employees to better understand the relief factor needed to cover the average number of incidents and hours employees are on injury leave.

MILITARY LEAVE WITHOUT PAY

In the past, STAR Flight has had a few events where Mission Staff go on Military Leave Without Pay (MILWOP). These events can happen abruptly as staff are generally only notified several weeks before they deploy for weeks or months in duration. Each year, it is hard for STAR Flight to predict the impact MILWOP could have on mission staff. Currently, STAR Flights Director of Medical Operations is out on MILWOP, which has impacted supervisory capacity. In other years, nurses and pilots were out on MILWOP, impacting frontline Mission Staff more.

A 10-year average of MILWOP events was taken to capture this impact better. PBO pulled data from 10 years of personnel action reports to estimate the impact on operations to give some barometer of the impact on operations. From March 1, 2014, to March 1, 2024, STAR Flight had four MILWOP events totaling 24 months. This is an estimated yearly impact of 416 working hours per year or 17 hours per Mission Staff FTE. PBO notes that each event ranged from two months to ten months.

FINDINGS

The operation of Travis County STAR Flight has become increasingly complex over the last decade. As a 24/7 operation, STAR Flight is acutely sensitive to programmatic and policy decisions that limit the amount of on-the-line coverage staff can provide. The goal of this study was to quantify the events, policies, and drivers of unavailability of Mission Staff FTEs.

In this study, PBO aimed to quantify the estimated availability of one FTE within STAR Flight’s mission staff and use it to build an appropriate staffing model for the department. Given the findings in the analysis, a budgeted Mission staff FTE is available at roughly 75.8% of their budgeted 2,080 hours, or 1,578 hours per year. This calculation includes various paid leave, training, vacancy impacts, paid parental leave, military leave, and potential injury. PBO notes this list is not a totally comprehensive list of what could make an FTE unavailable, but a best estimate given the current data and state of the program.

Table 10: Position Coverage per Year with Staffing Study Findings

<i>Total Budgeted Hours per FTE (2,080 hours per Year)</i>	<i>Hours</i>
Less Average Vacation and Sick time Taken over last two FYs (hours)	(305)
Less Estimated Training (hours)	(70)
Less Vacancy & Onboarding Impact given 10-year average (hours)	(70)
Less Coverage of 1 PPL event per year among staff (hours)	(24)
Less the 10-year average of department MILWOP events (hours)	(17)
Less Injury Coverage Given National Data (hours)	(16)
Net Available Working Hours for One Position	1,578

Given the analysis findings, the coverage of 1.0 FTE at 1,578 hours per year leaves STAR Flight with a 2.0 FTE deficit. This is a total working hour deficit of roughly 3,158 hours. This aligns with the estimated average overtime utilization over the previous two fiscal years of 3,360 hours per year in the analysis section of the study. Table 11 shows the details broken down by non-crew chiefs, crew chiefs, and pilots. The breakdown shows a roughly equal deficit between nurses/paramedics and pilots.

Table 11: Staffing Hours by Position Type with Study Findings

<i>Position</i>	<i>Total Hours Needed for Coverage</i>	<i>Available Coverage from 1.0 FTE</i>	<i>Total FTE Needed</i>	<i>Total Regular Budgeted FTE</i>	<i>Coverage Surplus (hours)</i>
Non-Crew Chief Paramedic/Nurse	13,414	1,578	8.5	5	(5,523.8)
Crew Chief, Paramedic/Nurse	13,414	1,578	8.5	11	3,944.2
Nurse/ Paramedic Total	26,828	N/A	17	16	(1,579.6)
Pilot	13,414	1,578	8.5	7.5	(1,578.8)
Grand Total	40,241	N/A	25.5	23.5	(3,158.4)

An important question the department will need to operationalize is what is the ideal amount of this deficit that can or should be covered by overtime versus by new FTEs. From a budget and personnel perspective, the current large expenditure of overtime within the program is expensive, risks mission staff burnout, and is subject to stringent regulation. PBO recommends that STAR Flight work to establish an acceptable threshold of overtime utilization and work with the auditor’s office to track these hours to inform staffing.

FINDINGS

There are two subsets listed in this section. The first subset regards recommendations for STAR Flight to fine-tune its policies and tracking regarding staffing and workload. The second subset relates to staffing findings and possible ways to remedy the structural gaps listed in the above summary section.

POLICIES AND PROCEDURES

Over the course of this study, PBO worked to understand the staffing situation within STAR Flight, given the best available data. Numerous sources of information were utilized, and many averages and ratios were calculated. Many important questions came up during this exercise regarding the program's basic goals: What levels of service are acceptable? What should be the upper threshold for overtime expended? What changes have occurred in the last few years that have made the workload less manageable? Many of these questions did not have a clear answer or have not been framed to be answered with data and context. PBO recommends that STAR Flight use the list of recommendations below to better understand the future workload and staffing of the program.

Recommendations:

- Direct Mission Staff to track training hours to better understand the workload impact of required and recommended pieces of training;
- Work to identify an acceptable level of service based on the amount of missions and missions missed;
- Work with the Auditor’s Office to track Overtime hours and identify an acceptable limit of overtime utilization per FTE given appropriate safety considerations and federal regulations;
- Continue to track the impacts of Paid Parental Leave (PPL) on the program to better fine-tune the estimated staffing impact on a yearly basis;
- Internally track time workload impacts due to on or off-duty injuries;
- Work with PBO to convene on a yearly basis to review tracking of staffing model workload impacts and evaluate staffing needs to meet acceptable service thresholds.

STAFFING FINDINGS

Table 11 shows a deficit of almost exactly 2.0 FTEs within Mission Staff, one Registered Flight Nurse or Flight Paramedic position, and one Pilot position. This is a total of roughly 3,158 hours of estimated workload impact. This workload impact is a structural deficit primarily accounted for by using overtime amongst existing staff. As the program's workload continues to increase and workload impacts persist, the current model and staffing could risk the program's current quality, safety, and performance. PBO recommends the Department continue to work with PBO to determine acceptable overtime utilization per mission staff position to determine the staffing level needed effectively. Once an adequate level is determined for overtime utilization, PBO would work with the department to determine the remaining level of staffing needed to have the program operating at an optimal level. The cost of these position types are as follows: an additional flight paramedic is \$103,258 in ongoing resources, an additional flight nurse is \$123,443 in ongoing resources, and a pilot is \$131,137 in ongoing resources.

LIMITATIONS AND FUTURE CONSIDERATIONS

As stated above, the workload impacts examined in this study are not exhaustive and, although wide-ranging, do not encompass every reason an FTE would not be available for line duty. The data from this study spans multiple reporting and software packages across the county as well as national data sources, including but not limited to SBP performance measures, SAP reporting functions, payroll data, personnel action file data, internal tracking from STAR Flight, as well as data from the Centers for Disease Control and The Bureau of Labor Statistics. These data sources proved invaluable in the research and analysis for the study but had some limitations because of differences in their available reporting periods and estimation techniques. PBO verified and reported estimates with other data sources to account for some of these limitations when possible.

As STAR Flight works through the best way to effectively administer its program, the amount of available staffing on a full-time regular basis versus the workload required is one of the most important questions for its management staff to consider. Serving as a comprehensive analysis of major workload impact drivers, this study can help STAR Flight Management plan around future requirements and challenges into the future. PBO will continue to work with STAR Flight Management to refine this model in the future to meet the program's requirements.

FY 2025 BUDGET REQUEST ANALYSIS

UNRANKED REQUEST: ATCEMS ILA

UNRANKED REQUEST: EMERGENCY SERVICES DISTRICT 2 GROUND AMBULANCE SERVICE ILA

UNRANKED REQUEST: BAYLOR SCOTT AND WHITE HOSPITALS ASSOCIATE MEDICAL DIRECTOR ILA

Funding for the above requests is fully budgeted in the Interlocal Reserve and will be transferred to the department in FY 2025

DEPT. SUMMARY OF REQUEST

ATCEMS ILA - \$625,987

Emergency Medical Services requests ongoing funding for a contractual increase of \$625,987 in the ATCEMS interlocal agreement with the City of Austin to cover base increase costs. This amount represents a 3.5% increase in the FY 2024 fee for service, driven primarily by wage adjustments for civilian and sworn personnel and an increase in overall operational costs.

EMERGENCY SERVICES DISTRICT 2 GROUND AMBULANCE SERVICE ILA - \$25,294

Emergency Medical Services requests ongoing funding in the amount of \$25,294 for a contractual increase to support the interlocal agreement with Travis County Emergency Services District 2 (ESD 2) to provide emergency medical services (EMS) response (Advanced Life Support or ALS) and ground-ambulance transport in the unincorporated areas of Travis County that lie within ESD 2 but outside ESD 17.

BAYLOR SCOTT AND WHITE HOSPITALS ASSOCIATE MEDICAL DIRECTOR ILA - \$51,200

Emergency Medical Services requests ongoing funding in the amount of \$51,200 for its contract that provides the program with a part-time physician who serves as an associate medical director to evaluate and advise in clinical training the department gives to county staff and partnering entities. In FY 2024, the medical direction contract was modified with Baylor Scott and White Hospitals for the services of an associate medical director. The hours of the director were increased from 3.25 hours per week to 8 hours per week to meet increased training demands. Savings from other areas of the Department's budget were used to cover the modification in FY 2024. The Department anticipates it will no longer be able to absorb these costs in FY 2025.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

ATCEMS ILA - \$625,987

PBO recommends funding of \$625,987 in ongoing resources in the interlocal reserve for the expected increase in the cost to the ILA with the City of Austin for Emergency Medical Service Response. Funding was included in the FY 2025 cost drivers in anticipation of this need.

EMERGENCY SERVICES DISTRICT 2 GROUND AMBULANCE SERVICE ILA - \$25,294

PBO recommends funding ongoing resources of \$25,294 in the interlocal reserve for the cost of the ILA with ESD 2. This cost is required per the contract and was incorporated into PBO's FY 2025 cost drivers.

BAYLOR SCOTT AND WHITE HOSPITALS ASSOCIATE MEDICAL DIRECTOR ILA - \$51,200

PBO recommends ongoing resources of \$51,200 for the cost of the ILA with Baylor Scott and White Hospitals for the services of an Associate Medical Director. This cost is required per the modification of the prior year's contract. PBO directs the department to request any necessary resources before obtaining approval on contract modifications that have an impact on ongoing costs borne by the county.

REQUEST #1: STAR FLIGHT HELICOPTER FULL COMPONENT PLAN (FCP)

REQUEST #2: STAR FLIGHT HELICOPTER FULL-SERVICE PLAN (FSP)

<i>Program:</i>	STAR Flight (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

DEPT. SUMMARY OF REQUEST

STAR FLIGHT HELICOPTER FULL COMPONENT PLAN (FCP) - \$1,439,430

Emergency Medical Services requests \$1,439,430 in one-time capital funding for the ongoing cost of the Leonardo Full-Component Plan (FCP). This contract offers warranty coverage for STAR Flight’s aircraft. This will cover year two of a component warranty negotiated and signed in FY 2024.

STAR FLIGHT HELICOPTER FULL-SERVICE PLAN (FSP) - \$1,073,100

Emergency Medical Services requests \$1,073,100 in one-time capital funding for the ongoing cost of the Pratt and Whitney Full-Service Plan (FSP). This contract offers warranty coverage for STAR Flight’s aircraft. This will cover year two of engine warranties negotiated and signed in FY 2024.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

STAR FLIGHT HELICOPTER FULL COMPONENT PLAN (FCP) - \$1,439,430

The Shock Trauma Air Rescue (STAR) Flight program within Emergency Medical Services (EMS) purchased three Augusta Wetland 169 helicopters in FY 2019 and began operation early in FY 2020. The helicopters have two main components: the airframe and the engines. Airframes include all parts of the helicopter other than the engines and were developed by Leonardo Helicopters. Each helicopter also contains two engines that were developed by Pratt & Whitney. Both major components included warranties when initially purchased. The airframe component warranty and engine service warranty expired in 2023. In the FY 2024 Adopted Budget, the Commissioner’s Court approved \$6,026,300 in one-time CAR resources for the initial buy-in and first year of a new airframe component and engine service warranty for STAR Flight’s three helicopters. This request from STAR Flight will fund the second year of both service plans. The FY 2025 cost for the Airframe

warranty totals \$1,439,430 in one-time CAR resources. This cost is required per the service agreement. PBO recommends funding.

STAR FLIGHT HELICOPTER FULL-SERVICE PLAN (FSP) - \$1,073,100

The Shock Trauma Air Rescue (STAR) Flight program within Emergency Medical Services (EMS) purchased three Augusta Wetland 169 helicopters in FY 2019 and began operation early in FY 2020. The helicopters have two main components: the airframe and the engines. Airframes include all parts of the helicopter other than the engines and were developed by Leonardo Helicopters. Each helicopter also contains two engines that were developed by Pratt & Whitney. Both major components included warranties when initially purchased. The airframe component warranty and engine service warranty expired in 2023. The FY 2024 Adopted Budget includes \$6,026,300 in one-time CAR resources for the initial buy-in and first year of a new airframe component and engine service warranty for STAR Flights three helicopters. This request from STAR Flight will fund the second year of the engine warranty. The FY 2025 cost for the Engine warranty totals \$1,073,100 in one-time CAR resources. This cost is required per the service agreement. PBO recommends funding.

REQUEST #3: TEMPUS MONITOR REPLACEMENT

<i>Program:</i>	STAR Flight (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	123,000	123,000	-	-

Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 123,000	\$ 123,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

STAR Flight requests \$123,000 in one-time funding to purchase three cardiac monitors to replace the existing Tempus monitors. The current Tempus monitors are nearing the end of their recommended lifespan. STAR Flight currently uses Phillips Tempus cardiac monitors for assessment of all patients in the rescue environment, as well as on routine medical and trauma calls. The Department states that if the current monitors are not replaced, it will create additional liability and unexpected expenses. Cardiac monitors are a required piece of equipment in the air ambulance and rescue environment, and the monitors' functionality is essential for providing appropriate care in the rescue and emergency medical services transport environment.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO recommends one-time funding of \$123,000 for replacing the three cardiac monitors on the basis of maintaining the current level of effort within STAR Flight's primary business processes and ensure the program meets equipment standards set forth by the Airborne Public Safety Association (APSA).

REQUEST #4: ECHO HEALTH SERVICE AGREEMENT

REQUEST #5: SAPPHIRE THERAPY INFUSION PUMP SERVICE AGREEMENT

<i>Program:</i>	Clinical Performance and Education (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	71,500	71,500	-	-
Subtotal	\$ 71,500	\$ 71,500	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 71,500	\$ 71,500	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 71,500	\$ 71,500	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

ECHO HEALTH SERVICE AGREEMENT - \$11,500

Emergency Medical Services requests \$11,500 in ongoing funding for a warranty service plan for educational manikins purchased for the Division of Clinical Performance and Education in FY 2024. The plan will allow for the annual refurbishment of the manikins. The department reports that the annual amount is equal to the quoted year-one cost of the service plan.

SAPPHIRE THERAPY INFUSION PUMP SERVICE AGREEMENT- \$60,000

Emergency Medical Services requests \$60,000 in one-time funding for a five-year warranty for equipment critical to its operations. The Sapphire Infusion pumps are critical medical equipment that allows STAR Flight clinicians to administer lifesaving IV medications at tightly controlled rates or doses. Because of their critical nature, they require ongoing maintenance and service to ensure 100% reliability. Twenty of these pumps were purchased in FY 2024 and are approaching the end of their initial 12-month warranty.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

ECHO HEALTH SERVICE AGREEMENT - \$11,500

PBO recommends \$11,500 in ongoing funding for a warranty service plan for educational manikins purchased in FY 2024. The plan will allow for the refurbishment of the manikins used by the Division of Clinical Performance and Education in FY 2025. Due to limited ongoing funding in the preliminary budget, PBO cannot recommend ongoing funds for this request.

SAPHIRE THERAPY INFUSION PUMP SERVICE AGREEMENT- \$60,000

PBO recommends \$60,000 in one-time funding for a five-year therapy infusion pump warranty on the basis that it will help maintain the current level of effort within STAR Flight's primary business processes.

REQUEST #6: EXPERIENTIAL SALARY ADJUSTMENTS

REQUEST #16: CREW CHIEF STIPEND

<i>Program:</i>	STAR Flight (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	1,137,000	-	-	-
Operating	-	-	-	-
Subtotal	\$ 1,137,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 1,137,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,137,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

EXPERIENTIAL SALARY ADJUSTMENTS - \$1,065,000

Emergency Medical Services requests \$1,065,000 in ongoing resources to increase staff salaries based on years of experience and level of expertise. The Department states it would use resources to implement a stepped compensation scale like the county's TCSO POPS scale, and peer agencies such as the Austin Police Department, Austin Fire Department, Texas Department of Public Safety, and Austin Travis County Emergency Medical Services, all of which have established contractual pay scales.

CREW CHIEF STIPEND - \$72,000

Emergency Medical Services requests \$72,000 in ongoing resources to create monthly supplemental compensation of \$400 for staff who achieved the status of crew chief. The Department states that the new additional compensation would be similar to the additional compensation provided to members of the Travis County law enforcement agencies who hold additional training (TCOLE License), skills (Bilingual), and responsibilities (Field Training Officer, Emergency Medical Technician). Further, the department states that similar stipends exist in other neighboring partner agencies, including monthly stipends for advanced clinical qualifications (PL-6) within Austin Travis County EMS or certification pay for nurses at local hospitals in recognition of clinical expertise.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

EXPERIENTIAL SALARY ADJUSTMENTS - \$0

The intent of this request is for Emergency Medical Services to address compensation issues that limit the office's ability to recruit and retain staff. PBO notes that the third-party consultant contracted to do the market study for the County, Segal Matt Kojm, FY 2025 Preliminary Budget

Emergency Medical Services

Consulting, was unable to benchmark several types of positions within the Department due to their unique job functions and responsibilities, such as Flight Paramedic and Flight Nurses. As such, Segal's market data for certain job classification is limited or not appropriate due to the unique nature of the department's functions. However, PBO is unclear at this time whether this data gap applies to all job titles within department.

After consulting with HRMD and due to limited ongoing revenue, PBO cannot support the compensation changes the department is proposing at this time. As the County is currently conducting and eventually implementing a County-wide compensation study, PBO believes it would not be optimal or equitable to make large-scale compensation investments outside of this framework for positions which Segal has appropriate comparator data. Given the ongoing study, PBO recommends that the Department work with HRMD and PBO throughout the remainder of this process to identify any concerns that can be addressed through the compensation study for these job titles.

However, PBO notes that some jobs in the department may need a market adjustment that will not be proposed as part of Segal's findings due to the lack of data issue described above. In this instance, PBO will continue to work with the Office to address its concerns regarding compensation for these positions in a way that is comparatively equitable to any overall County changes that may be made based on market data and available funding. HRMD and PBO need to evaluate the final data from Segal, expected in late June, and formulate options for Commissioners Court to consider later this summer as part of a list of other compensation related issues.

Due to the expected cost of the Segal study's recommendations, it will likely take more than one fiscal year to implement all the proposed changes, and as a result, some sort of phased approach will be needed. Depending on prioritization recommendations of the Segal study from HRMD and PBO staff, as well as other compensation and non-compensation related priorities of the Commissioners Court to be considered, there is no guarantee that any changes to the Emergency Medical Services positions recommended as part of the Segal study would be implemented in FY 2025. Other market changes that may be needed outside of the Segal study's recommendations would also be competing for the same limited resources for compensation County-wide.

CREW CHIEF STIPEND- \$0

PBO does not recommend funding for this request at this time. PBO recognizes the importance of paying staff commensurate with the requirements of their job. Because the Crew Chief credential is important to the operation of STAR Flight, given that one needs to be present during every mission, PBO recommends the Department work with HRMD to evaluate current job descriptions and determine whether changes to job descriptions are necessary to ensure business operations can be maintained. If job descriptions warrant changes to meet these requirements, PBO recommends the Department undertake such reclassifications and discuss with HRMD what salary adjustments would be needed to match the current labor market for positions with similar requirements.

Historically, the Commissioners Court has directed departments to redirect savings from resources within their Target Budget to fund advancement pays related to career certifications internally. It is not PBO practice to recommend funding for internal personnel adjustments, such as reclassifications, career ladders, and advancement pay. PBO is currently working with HRMD to evaluate any costs related to new advancement pays but advises that the creation of new advance pays is highly unlikely due to very limited resources in the FY 2025 Preliminary Budget. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute.

The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them.

REQUEST #7: RESCUE EQUIPMENT
 REQUEST #13: HOIST MOUNTS
 REQUEST #17: LTE PORTABLE RADIOS

<i>Program:</i>	STAR Flight (159)

Dpt Total + Earmarks	\$ 345,586	\$ 345,586	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

RESCUE EQUIPMENT - \$150,550

Emergency Medical Services requests one-time funding of \$150,550 to replace essential rescue equipment and safely continue helicopter rescue operations for land-based and swift-water-based rescue operations. This is a cumulative request for multiple pieces of equipment that are nearing end-of-life cycle or no longer supported. Standards for this equipment are set forth by the Airborne Public Safety Association (APSA), of which STAR Flight is accredited and must retain industry-standard equipment. This request includes:

- \$46,000 for replacement Emergency Air Egress Bottles and Carriers
- \$11,300 for replacement Helivac Lanyards
- \$25,250 for replacement Ops-Core Rescue Headsets
- \$15,000 for replacement Fire Resistant Flight Duty Clothing
- \$15,000 for replacement Pilot Rescue Vests
- \$38,000 for replacement Rescue Specialist Vests

HOIST MOUNTS - \$40,000

Emergency Medical Services requests one-time funding of \$40,00 to purchase the mounting provisions (two mounts and a hoist boom) for the fourth STAR Flight aircraft rescue hoist. The fourth rescue hoist purchased in FY 2024 will facilitate hoist swaps for maintenance and provide a long-term solution while our older hoists are cycled to the manufacturer for heavy maintenance periodically. For the hoist to be usable, hoist mounts and a boom need to be installed, as a set, on the hoist to ensure proper maintenance tracking capabilities. The hoist mounts and boom are a product of Leonardo Helicopters.

LTE RADIOS - \$155,036

Emergency Medical Services requests one-time centrally budgeted capital of \$155,036 to purchase new portable radios for STAR Flight to be able to communicate on the Greater Austin Travis Regional Radio System (GATRRS) when outside of

traditional coverage. The new Motorola Next radios can use long-term evolution (LTE) to reach back to the GATRRS system when outside of its coverage area. The request will ensure that STAR Flight will be able to maintain essential radio communications when outside of the GATRRS coverage area.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

RESCUE EQUIPMENT - \$150,550

PBO recommends one-time capital funding totaling \$150,550 for replacing the requested items on the basis that they maintain the current level of effort within STAR Flight's primary business processes and ensures the program meets equipment standards set forth by the Airborne Public Safety Association (APSA) to maintain APSA accreditation.

HOIST MOUNTS - \$40,000

PBO recommends \$40,000 in one-time capital resources for an additional mount for STAR Flight's rescue hoists. The additional amount will ensure there are no interruptions in aircraft service due to overhaul inspections due on the other three mounts as well routine inspections anticipated throughout FY 2025.

LTE RADIOS - \$155,036

PBO recommends one-time centrally budgeted capital resources of \$155,036 to purchase new portable radios to improve STAR Flight's ability to communicate on the Greater Austin Travis Regional Radio System (GATRRS) when outside of traditional coverage. The requested radios will enhance the program's continuity of operations and safety.

REQUEST #8: ASSISTANT CHIEF MEDICAL SUPERVISOR AND ASSISTANT CHIEF CLINICAL SUPERVISOR POSITIONS

<i>Program:</i>	STAR Flight (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Dpt Total + Earmarks	\$ 274,005	\$ 130,311	\$ 116,244	\$ 116,244

DEPT. SUMMARY OF REQUEST

STAR Flight requests ongoing funding of \$245,871 to continue the currently approved Special Project Worker Flight Paramedic and Flight Registered Nurse positions and convert them into permanent positions, reclassifying them as Assistant Chief Medical Supervisor and Assistant Chief Clinical Supervisor positions. The department states that this will allow greater training support and staffing flexibility.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

On February 6th 2024, Commissioners Court approved the authorization of one internally funded Flight Paramedic Special Project Worker and one internally funded Flight Registered Nurse Special Project Worker from February 15 to December 31, 2024, to assist with backfilling positions on military leave, paid parental leave, and employee orientation and training for the STAR flight program. The department is expected to experience four paid parental leave (PPL) events in FY 2024. These PPL events have coincided with multiple vacancies and unexpected military leave events. PBO has worked with the Department to understand the acute staffing issues and has worked with STAR Flight leadership to study the relevant staffing requirements of the program.

In the additional information section, PBO provided a staffing analysis that was conducted for the STAR Flight Program. This analysis was completed by collaborating with STAR Flight management over FY 2024 to identify staffing concerns and create a model that better encompasses the program's constraints and requirements. The analysis shows that given the current staffing and the exclusion of overtime, the Department would have a workload for an additional two frontline mission staff positions in a typical fiscal year.

Given the analysis and additional discussions with the department, PBO is recommending an additional Flight Registered Nurse FTE to address the program's current relief factor and address gaps in frontline staffing. Recommended funding for the new position includes \$116,244 in ongoing resources and \$14,067 in central capital.

REQUEST #9: ANNUAL INSPECTION OF LIFE SAFETY EQUIPMENT

REQUEST #21: COMMISSION ON ACCREDITATION OF MEDICAL TRANSPORT SYSTEMS (CAMTS) INSPECTION FEES

<i>Program:</i>	STAR Flight (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 40,000	\$ 40,000	\$ 25,000	\$ 25,000

DEPT. SUMMARY OF REQUEST

ANNUAL INSPECTION OF LIFE SAFETY EQUIPMENT - \$25,000

Emergency Medical Services requests \$25,000 in ongoing resources for annual inspections of lifesaving rescue equipment and aviation equipment. Known as the industry standard, A.L.S.E. Inspection (Aviation-Life-Saving-Equipment Inspection), the Department states that annual inspections by a third-party provider ensure equipment meets safety guidelines and conditions that deem the equipment either fit for use or designate equipment as in need of repair or retirement from service.

COMMISSION ON ACCREDITATION OF MEDICAL TRANSPORT SYSTEMS (CAMTS) INSPECTION FEES - \$15,000

Emergency Medical Services requests \$15,00 in one-time resources for the Commission on Accreditation of Medical Transport (CAMTS) inspections, which occur every three years. The inspections ensure the operation meets or exceeds national standards. Accreditation is also a contract requirement for ongoing contractual obligations with St. Davids and Ascension Seton.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

ANNUAL INSPECTION OF LIFE SAFETY EQUIPMENT - \$25,000

PBO recommends \$25,000 in ongoing funding for the yearly ALSE inspections for the STAR Flight program. These inspections are necessary to ensure the safety of county employees and the aircraft they operate. These inspections were previously done by members of STAR Flight Program staff who have since retired. The recommended funding will ensure these inspections are completed annually regardless of internal expertise within the program.

COMMISSION ON ACCREDITATION OF MEDICAL TRANSPORT SYSTEMS (CAMTS) INSPECTION FEES - \$15,000

PBO recommends \$15,000 in one-time resources for the Commission on Accreditation of Medical Transport (CAMTS) inspections. Accreditation is required for many of the program obligations and will ensure the program maintains its current level of effort within its primary business practices.

REQUEST #10: EDUCATIONAL MANAGEMENT SYSTEM

REQUEST #12: WATER SAFETY TRAINING

REQUEST #14: SAFETY BOAT REPLACEMENT

REQUEST #15: DCPE UNIFORMS

REQUEST #19: INTERACTIVE TRAINING AIDS

<i>Program:</i>	Clinical Performance and Education (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	17,900	17,900	7,000	7,000
Subtotal	\$ 17,900	\$ 17,900	\$ 7,000	\$ 7,000
Capital	40,000	40,000	-	-
Dpt Total	\$ 57,900	\$ 57,900	\$ 7,000	\$ 7,000

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 57,900	\$ 57,900	\$ 7,000	\$ 7,000

DEPT. SUMMARY OF REQUEST

EDUCATIONAL MANAGEMENT SYSTEM - \$7,000

Emergency Medical Services requests \$7,000 in ongoing funding for an Education Management System for its Division of Clinical Performance and Education (DCPE). The Department would use funds to implement a new system that would communicate and interlink with the Educational/Learning Management System in ESD 6, 8, and 10, who are the Advanced Life Support providers under DCPE medical direction. The system could potentially link with other Travis County providers, which the Department states would add benefits to the system in terms of continuity of education and patient care. The system will be used to confirm currency and compliance with state laws and county policies, issue educational training, and manage responder credentials in multiple disciplines.

WATER SAFETY TRAINING- \$4,400

Emergency Medical Services requests \$4,400 in one-time resources for DCPE to provide training and safety aids for Travis County partners in flood water safety. The water safety program intends to train Travis County first responders in risk management and preparation for area flooding events. The training course will focus on reducing the risk faced by many county departments in wide-area flooding events.

SAFETY BOAT - \$40,000

Emergency Medical Services requests \$40,000 in one-time resources for the replacement of DCPE’s current safety boat, motor, and trailer. The current boat, a 2010 Zodiac 420, with a 2000 40hp Mercury 2-stroke Motor and a 2000 Magnum boat trailer, has far exceeded the recommended service life, and the Department is requesting it be replaced. The boat and motor are utilized as a safety boat and platform during overwater hoist training and other open or floodwater training events in

which in-water safety is required. The Department states that the current equipment has failed to meet the reliability needs for this type of training.

DCPE UNIFORMS - \$5,000

Emergency Medical Services requests \$5,000 in one-time resources for new uniforms that comply with uniform standards for DCPE EMS Training Captains and Division Chiefs. The request will allow DCPE staff to comply with the First Responder Organization Agreement between Travis County Emergency Services and Austin Travis County Emergency Medical Services, which defines uniform standards for all frontline personnel providing care within the agreement area. Currently, DCPE does not comply with the uniform standards outlined in this agreement.

INTERACTIVE TRAINING AIDS - \$1,500

Emergency Medical Services requests \$1,500 in one-time resources for interactive training aids. The training aid package will be used to simulate stress conditions that the first responder may face in the field. The package will allow for heart rate monitoring and environmental condition minicars to simulate and monitor the responder in their preparation for duty.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

EDUCATIONAL MANAGEMENT SYSTEM - \$7,000

PBO recommends \$7,000 in ongoing resources for the requested educational software. The Division of Clinical Performance and Education provides medical direction and protocol guidance to first responders in Travis County. The program's primary function is to train field personnel who provide medical services. A new platform integrating learning management systems with entities under the medical direction of DCPE would directly support the division in its credentialing and compliance work.

WATER SAFETY TRAINING - \$4,400

PBO recommends \$4,400 in one-time resources for training and safety aids for Travis County partners in flood water safety. The recommended funding will help train first responders efficiently within Travis County.

SAFETY BOAT- \$40,000

PBO recommends \$40,000 in one-time resources for the replacement of DCPE's current safety boat, motor, and trailer. The current boat presents a safety risk during training exercises and the new boat will allow for safer, reliable, and frequent trainings.

DCPE UNIFORMS - \$5,000

PBO recommends \$5,000 in one-time resources for new uniforms for DCPE staff. The current uniforms do not comply with contractual agreements for uniform standards, and the recommended funding is necessary to bring the program into compliance with the standards.

INTERACTIVE TRAINING AIDS - \$1,500

PBO recommends \$1,500 in one-time resources for interactive training aids. The training aids will enable better simulation environments, making training for first responders more effective and of higher quality.

REQUEST #11: WEST BASE, BLANCO COUNTY

REQUEST #18: INCREASE STAR FLIGHT FUEL BUDGET

REQUEST #20: DUTY VEHICLES

<i>Program:</i>	STAR Flight (159)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	184,000	184,000	100,000	100,000
Subtotal	\$ 184,000	\$ 184,000	\$ 100,000	\$ 100,000
Capital	406,300	186,152	-	-
Dpt Total	\$ 590,300	\$ 370,152	\$ 100,000	\$ 100,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 590,300	\$ 370,152	\$ 100,000	\$ 100,000

DEPT. SUMMARY OF REQUEST

WEST BASE, BLANCO COUNTY- \$270,152

Emergency Medical Services requests \$183,512 in centrally budgeted capital, \$84,000 in one-time operating and \$2,640 in ongoing centrally budgeted operating for approval of supplies and equipment needed to operate from the new STAR Flight West Base in Blanco County. The Travis County Commissioners Court approved an interlocal agreement (ILA) in FY 2022 to build a STAR Flight hangar and base of operations located near Round Mountain in Blanco County. This commitment has come at a large investment from Blanco County. The following supplies and equipment are listed by the Department in order to begin operations at the new west base:

- Vehicle
- Helicopter Tug
- Sapphire Pumps
- Computer equipment
- Fuel Trailer
- Firefighting Equipment
- Aircraft External Power

INCREASE STAR FLIGHT FUEL BUDGET- \$100,000

Emergency Medical Services requests \$100,000 in ongoing funding for an increase to the STAR Flight program’s fuel budget. The program reports elevated fuel prices since FY 2019, and increased program fuel consumption that has made its current fuel budget inadequate for future fiscal years. Approval of this request would increase the program’s fuel budget to \$365,000.

DUTY VEHICLES - \$220,148

Emergency Medical Services requests \$210,004 in central capital and \$10,144 in centrally budgeted operating for the purchase of two duty vehicles to be primarily used by the STAR Flight Director of Medical Operations and the Director of

Aviation Operations. The Director of Medical Operations and Director of Aviation Operations are shared co-directors at Travis County STAR Flight. As part of the overall Travis County Emergency Services, the co-directors are on-call 24/7 and expected to “respond when available and necessary” for emergency, and non-emergency situations. The Department states that vehicles will allow the co-directors to fulfill obligations and goals as part of the Emergency Services Department and to increase Travis County’s ability to respond to public safety emergencies.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

WEST BASE, BLANCO COUNTY- \$270,152

PBO recommends \$183,512 in centrally budgeted capital, \$84,000 in one-time operating, and \$2,640 in ongoing centrally budgeted operating funds for supplies and equipment needed to operate from the new STAR Flight West Base in Blanco County. The facility is located near Round Mountain in Blanco County and was an estimated \$4,000,000 investment from Blanco County. The construction of the facility required no funding from Travis County. The new facility will greatly improve response times for patient transports in far western Travis County as well as neighboring jurisdictions. Blanco County currently does not have access to a hospital or urgent care facility and greatly relies on STAR Flight patient transports.

The current interlocal agreement requires that Travis County provide all computers and related IT equipment needed to support the STAR Flight program at the facility, supply any tools and parts that might be needed to support an aircraft at that location, supply all aviation fuel, and supply the necessary aviation insurance coverage needed to operate from a new base of operations. All these requirements are similar to what the County provides to support STAR Flight operations at existing remote bases at Dell Children’s and Dell Seton hospitals, both of which have similar facilities to that built by Blanco County, with the exception of hangar space.

The Blanco facility is not a duplicate of the main STAR Flight hangar but will provide sufficient space to store a helicopter indoors when weather or other circumstances warrant and make field repairs as needed to keep the aircraft flying. The primary STAR Flight hangar in Austin remains the home base for operations, major aircraft maintenance, and the STAR Flight crews.

INCREASE STAR FLIGHT FUEL BUDGET- \$100,000

In the FY 2024 Adopted Budget, Commissioners Court approved an Earmark on the Allocated Reserve of \$215,000 to account for increased jet fuel prices projected for FY 2024. This earmark was meant to supplement the STAR flight. On May 13th, 2024, the Commissioners Court approved a \$100,000 transfer of this earmark to the STAR Flight program budget. Fuel prices remain volatile due to ongoing geopolitical turmoil and have remained elevated since the February 2022 Russian invasion of Ukraine.

To give context to the Department’s request, PBO analyzed expenditures from the program’s fuel budget for the last five years. The table below shows fuel expenditure data for the last five fiscal years. It shows the original operating budget (including prior year encumbrances), actual operating expenses, and the remaining balance (or deficit). For the last three fiscal years, the Department's fuel budget has been insufficient, requiring transfers from reserves to allow the program to operate without interruption.

<i>Fiscal Year</i>	<i>2020</i>	<i>2021</i>	<i>2022</i>	<i>2023</i>	<i>2024(projected)</i>
Original Fuel Budget	\$423,591.06	\$294,413.66	\$270,302.26	\$305,374.54	\$298,750.00
Actual Fuel Expenditures	\$151,540.30	\$185,102.69	\$413,040.41	\$419,664.26	\$382,969.00
Remaining Fuel Budget	\$272,050.76	\$109,310.97	(\$142,738.15)	(\$114,289.72)	(\$84,219.00)

The price of Jet Fuel remains volatile but seems to be stabilizing at a level 25 percent higher than the pre-invasion level. The chart below shows the U.S. Gulf Cost Kerosene-Type jet fuel spot price per gallon as reported by the Energy Information Administration from January 2017 through April 2024.

Prices in FY 2024 have largely been in the same range as FY 2023 but with less fluctuation. If prices stabilize at their current level, there is considerable evidence that the current budget is insufficient and would require an increase in ongoing funding.

PBO recommends that \$100,000 of ongoing resources be used to supplement the STAR Flight program’s fuel budget. With current prices reaching a moderate level of stability and increased program fuel consumption, the fuel budget requires supplementation. PBO will continue to work with the Department on monitoring fuel expenditures and consumption of the STAR Flight Program.

DUTY VEHICLES - \$0

PBO does not recommend funding for this request at this time. The nature of emergency events means that permanently budgeted vehicles within Emergency Medical Services may not be used frequently, and it would be more optimal for the

Department to work across departments to utilize existing county resources for emergency response. In addition, take-home vehicles are subject to the policy defined in Chapter 140 of the Travis County Code below:

Subject to Chapter 140 of this Travis County Code relating to the use of county-owned passenger vehicles while off-duty, elected or appointed officials or County Executives decide which, if any, of their employees are authorized to take County vehicles home, based on the following criteria:

(A) Significant improvement in the efficiency and effectiveness of our service to the public through:

(i) After hours service

(ii) Less cost to taxpayers

(iii) Ability to respond in emergencies or to public safety issues.

(iv) Availability of specific equipment attached to County vehicles.

REQUEST #22: REPLACEMENT HELICOPTERS

DEPT. SUMMARY OF REQUEST

Emergency Medical Services STAR Flight is requesting \$40,000,000 in one-time capital funding for three replacement aircraft. The Department reports numerous issues regarding the current helicopter fleet. The organization continues to encounter challenges that hinder operational effectiveness, leading to adverse consequences such as the inability to meet operational availability and increasing operational costs. The Department further states that although there was an extensive vetting process to procure the current aircraft responsibly, numerous airframe and manufacturer-specific issues have arisen that were not foreseeable during that process. The current Augusta Wetland 169 Aircraft has had extensive maintenance issues, including multiple component and engine failures. Aircraft availability of both the 24/7 helicopter and the 12/7 helicopter are projected to decrease. The third aircraft is projected to be totally unavailable for a second straight fiscal year. Given the current state of the aircraft, Emergency Medical Services has proposed to begin a replacement process for the aircraft. Emergency Medical Services has provided a proposed action plan below for the Aircraft replacement process.

1. Immediate Comprehensive Fleet Evaluation:

Based on current and forecasted business model requirements, conduct a thorough assessment of the existing fleet, evaluating performance, in-service and out-of-service times, Aircraft on Ground (AOG) support with parts replacement acquisition, maintenance records, and operating costs. This evaluation, with the help of industry-leading experts, would help identify specific problem areas and further quantify the impact of these inefficiencies on our organization.

2. Cost-Benefit Analysis:

Working with Travis County Purchasing and Budget office, to perform a detailed cost-benefit analysis to compare the operational expenses of the current fleet against potential alternatives. This analysis should consider factors such as fuel consumption, maintenance requirements, revenue potential, and initial investment to determine the most operationally and financially viable course of action.

3. Fleet Replacement:

Based on the evaluation and cost-benefit analysis, consider options for immediate fleet replacement. Explore the market for technologically advanced helicopters that align better with our mission profile, offer proven

effectiveness, offer improved efficiency, require less maintenance, and allow for increased operational readiness. This may involve collaboration with industry partners, consultants, and procurement specialists.

4. Training and Proficiency Enhancement:

Address the issue of reduced training proficiency resulting from frequent helicopter unavailability. Develop a training program that incorporates simulators, spare or alternative aircraft, or outsourcing to maintain a high level of proficiency among pilots and flight personnel.

5. Implementation and Transition Strategy:

Formulate a comprehensive implementation and transition strategy that outlines the timeline, budget, and key milestones associated with the fleet replacement initiative. Ensure stakeholder engagement and smooth integration into existing operations.

Number of Search and Rescue Missions	35	30	30	25	40	45

PBO RECOMMENDATION

PBO is currently discussing the future of STAR Flight program aircraft with the County Executive, Emergency Services, and STAR Flight Program management staff. Program staff have conveyed significant concerns with the current aircraft's reliability and unavailability.

Both airframes and engines of the aircraft have faced significant challenges. Airframes include all parts of the helicopter other than the engines and were developed by Leonardo Helicopters. Each helicopter also contains two engines that were developed by Pratt & Whitney. Both major components included warranties when initially purchased. The original airframe component warranty and engine service warranty expired in 2023. As part of the FY 2024 Adopted Budget, \$6,026,300 of one-time CAR resources were included for the initial buy-in and first year of a new airframe component and engine service warranty for STAR Flights three helicopters. The FY 2025 request for service warranties will fund the second year of both services and totals \$2,512,530 in one-time CAR resources.

Increased maintenance costs, along with decreased aircraft reliability, have led the Department and County Executive to explore replacement aircraft options. The Department has already committed internal operating funds to bring in an outside consultant to evaluate the cost of maintaining the current aircraft, evaluate the fair market value of the current aircraft for potential trade-in or sale, evaluate necessary specifications of a new aircraft, and work on a potential RFS or RFI for approval by the Commissioner's Court. After meetings with the Department, PBO estimates that procurement and delivery of the aircraft will take at least 36 months to complete.

PBO does not recommend funding for helicopter replacement at this time. PBO is committed to working with the Department throughout its fact-finding process and assisting in its capacity to provide financial analysis and guidance. However, there is currently insufficient information on estimated costs and current market value of existing aircraft for PBO to conduct a cost-benefit analysis for new aircraft at this time.

The cost of new aircraft would necessitate the issuance of new debt in the form of Certificates of Obligation (COs). PBO is working on forecasting future high-cost obligations, including facility needs and capital projects that will likely determine the availability of debt issuances to fund new aircraft in the future. PBO will work with the Department through the consultation process to understand future program costs and instruct the department to submit a subsequent request in FY 2026 once more information is known.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

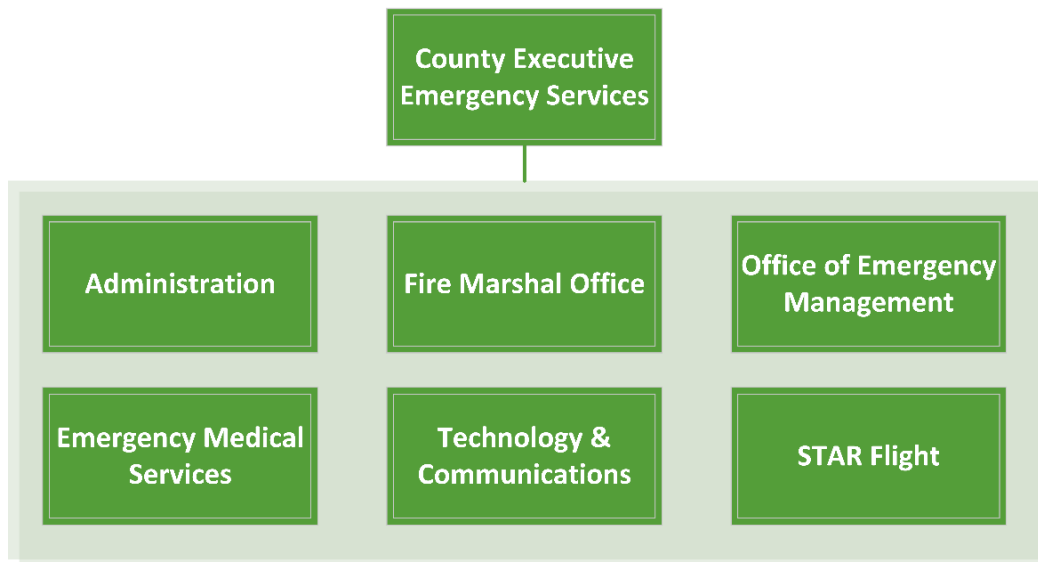

Emergency Services enhances the safety and well-being of Travis County residents and visitors by managing the delivery of emergency, life safety, and medicolegal services including emergency management and communications, fire marshal, medical direction, medical examiner, and STAR Flight.

The Department has identified the following strategic goals:

- Improve education, awareness, and resiliency of community to disasters and other emergencies;
- Ensure Travis County is prepared to deliver essential services daily and in times of disaster and emergency;
- Comply with federal, state, and local emergency services-related requirements;
- Promote and leverage partnerships to maximize value to customers and stakeholders through shared systems and services; and
- Protect life, prevent harm, and reduce property loss through comprehensive and cost-effective programs.

This aligns with the new County goal “Provide services that support the safety of people in the community.”

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs’ performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and are now linked to the County Goal, “Provide services that support the safety of people in the community.”

FIRE MARSHAL:

The Fire Marshal’s Office responds to and investigates fires that occur in the unincorporated areas of the county and aids local municipalities through interlocal agreements. The Fire Marshal’s Office also coordinates educational programming for the public to prevent fires, arson, and to educate the public on fire codes and the inspection process. The Department has renewed emphasis on community engagement through their education process, and the Department’s performance measures reflect this desire to connect more with the community. The Fire Marshal’s Office satisfies statutory requirements in Chapters 233 and 352 of the Texas Local Government Code, which governs fire investigation services and the authority of the Fire Marshal’s Office.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Construction Plans Reviewed	1,350	1,421	1,661	2,050	2,050
Fire Code Permits Issued	900	1,157	1,038	900	900
Number of County Buildings Inspected	40	60	40	112	112
Number of Criminal Charges filed	12	5	1	27	27
Number of Fire Code Inspections	1,340	1,500	1,200	2,150	2,150
Number of Fire Education and Training Initiatives (includes JFIP)	0	0	0	140	140
Number of Fire Fatalities	0	0	1	2	2
Number of Fire Investigations completed (closed)	94	53	11	135	135
Number of Fires Determined to be Arson	43	9	2	44	44
Number of Fires Investigated	154	111	37	160	160
Number of consultations provided to local communities	100	75	150	60	60

The Fire Marshal’s Office expects an elevated workload for the foreseeable future in construction plan review and fire code permits issued, given economic development and population growth within the county. New Construction throughout the county and industrial activity at the Colorado River Project have increased service demand for fire code related activities. The office continues to engage with the community and provide education and consultation throughout the county.

OFFICE OF EMERGENCY MANAGEMENT:

The Office of Emergency Management program is charged with emergency planning, emergency event coordination, and management of the hazardous materials interlocal agreement. The program coordinates with the City of Austin and other local entities in response to regional disasters and provides support to other emergency service departments during such events. The program also handles the County’s disaster preparedness programs. The program is mandated by §418.102 of the Texas Government Code, which requires each county maintain or participate in an emergency management program that provides for catastrophic debris management. Further mandates include:

- Maintaining an emergency management plan;
- Receiving and considering requests for assistance from municipalities in Travis County prior to submitting requests for aid to the state;
- Coordinating the county’s emergency management program with municipalities in Travis County that do not have their own program;
- Coordinating with state and federal emergency management personnel concerning disaster mitigation, preparedness, response, and recovery activities;

- Conducting post-disaster evaluations of the county’s response to a disaster, identifying areas for improvement, and
- issuing a report of the evaluation;
- Coordinating planning for hazardous materials emergencies; and
- Managing the hazardous materials cleanup and remediation services contract for the disposal of illegally dumped hazardous materials on county property, including roadways.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
After Action Reviews completed	1	2	3	4	4
Community engagements supporting emergency management planning conducted	700	2	8	6	6
Community preparedness surveys conducted	0	1	1	3	3
County personnel achieved NIMS training compliance	16	20	25	90	90
Emergency management related exercises delivered	2	2	3	3	3
Emergency management related training deliveries given or arranged	7	9	12	14	14
Emergency preparedness workshops/engagements given or arranged	1	9	15	15	15
Leadership and participation in CAPCOG initiatives and committees	10	10	10	10	10
Local Emergency Planning Committee inquiries received	3	6	4	4	4

The Office of Emergency Management anticipates additional community engagements throughout FY 2025 and FY 2026 given mid-year approvals for 2.0 Community Engagement Specialist SPWs to help plan a countywide resiliency hub strategy. The Office is also working to expand training opportunities across county departments and collaborate with other entities on emergency exercises and simulations.

TECHNOLOGY AND COMMUNICATIONS DIVISION:

The Technology and Communications Division program represents Travis County and its departments in support of the Combined Transportation and Emergency Communications Center (CTECC) and the Regional Radio System (RRS or GATRRS), both of which are key collaborative programs within Central Texas that are governed by cooperative interlocal agreements with several local and state partners. The program is not statutorily mandated but does support mandated programs through its interlocal agreements.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of Annual RRS Calls System Wide	31,246,131	52,925,665	53,500,000	53,575,000	54,000,000
Number of Travis County Subscriber Radios on RRS	2,855	2,870	2,900	2,925	2,950
Number of Travis County "Associate" Subscriber Radios on RRS	1,270	1,424	1,430	1,460	1,490

The program performance measures above primarily relate to the Greater Austin/Travis Regional Radio System (GATRRS) used by first responders for communication. The measures primarily show inputs for the system. PBO continues to work with the Department to develop comprehensive performance measures that reflect the outcomes of the work performed by the Department within its Technology and Communications Division.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

Package Name	Approved Amount	FTE Approved/ Filled	Program Results
<i>FY 2024</i>			
Wireless Messaging	\$117,635	-/-	Funds were encumbered for the Wireless Messaging Coalition project with the City of Austin. The project was delayed due, in part, to funding not being available at the City of Austin and due to vendor difficulties.
<i>FY 2023</i>			
Travis County Resiliency Hub Program	\$1,634,927	1.0/2.0	OEM has used these funds for initial community engagement and planning. These activities will continue during FY24 and will continue throughout FY25 and future periods as well.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	3,009,022	3,455,387	3,567,816	3,951,885	384,069
Operating	5,368,517	6,137,390	7,026,526	7,064,644	38,118
Total (Per&Op)	\$ 8,377,539	\$ 9,592,777	\$ 10,594,342	\$ 11,016,529	\$ 422,187
CAR*	7,254,560	3,241,265	2,458,580	1,750,017	(708,563)
Grand Total	\$ 15,632,099	\$ 12,834,042	\$ 13,052,922	\$ 12,766,546	\$ (286,376)
FTEs	27.00	29.00	29.00	29.25	0.25

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Emergency Services decreased by \$286,376 from the FY 2024 Adopted Budget. This is an 2.2% decrease. The majority of the decrease was in the capital budget due to new ongoing commitments for interlocal agreements being budgeted in the Interlocal Reserve.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Emergency Services includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$106,550 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Wildfire Mitigation Division Operating	\$23,250	\$23,000	\$46,250	-

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Accelerant Canine	26,556	3,892	30,448	-
Starlink Redundant Connectivity	-	7,200	7,200	-
UAS Program	-	5,600	5,600	-
Total Programmatic Recommendations	\$49,806	\$39,692	\$89,498	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for Emergency Services includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
OEM Outreach SPWs Year 2	\$232,071	-	\$232,071	-
Travel and Training Cut Restoration	-	15,170	15,071	-
Fire Plans Examiner Position Change Approved by Commissioners Court 12/19/2023	-	-	-	0.25
Total Administrative and Other Funding Changes	\$232,071	\$15,170	\$247,241	0.25

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$15,170 in ongoing operating resources for Emergency Services. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Emergency Services includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale ("redlined") that would otherwise not receive the Across the Board pay increase.		\$-	\$135,038	\$135,038
OEM mid-year salary adjustments.		-	34,909	34,909
Resources for health insurance cost increases for FY 2025.		-	15,395	15,395
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.		-	6,657	6,657
Total Compensation Changes		\$-	\$191,999	\$191,999

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024, which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$1,6359,537 for Emergency Services. There was a reduction of \$2,4558,580 to remove one-time funding for prior year capital funded projects. This is a net \$799,043 decrease compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
GATRRS ILA	\$1,143,051
CTECC ILA	516,486
Fire Marshal SPWs Capital Equipment	90,480
Total Capital Funding Recommendations	\$1,750,017

EARMARKS

In addition to the funding above, the following Earmarks and funding in other reserves are included in the FY 2025 Preliminary Budget. These amounts are not included in the Emergency Service’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Earmark OEM COOP Consultant	\$500,000
Total Allocated Reserve Earmarks	\$500,000

<i>Recommended Interlocal Reserve Funding</i>	<i>Total</i>
CTECC ILA	\$392,400
HAZMAT ILA	17,500
Total Interlocal Reserve	\$409,900

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of

these agreements but will lessen the impact to our partner jurisdictions. In total, Emergency Services has 22 fees it charges and 1 revenue generating contract(s) it manages. Of those, none of the fees and one of the contracts are being proposed by Emergency Services for adjustment in FY 2025.

Below is a table with additional details on the revenue generating contract that has been proposed by Emergency Services for adjustment. This proposed adjustment is currently being reviewed by PBO and the County Auditor’s Office. PBO and the Auditor's Office will coordinate presenting the recommended changes to the Commissioners Court. Fee adjustments required to be approved by the Commissioners Court will be presented in September prior to the adoption of the FY 2025 Budget. Recommended changes to any revenue contracts will be presented to the Commissioners Court at the next contract renewal or according to the terms of the contract.

<i>Central Contract Name</i>	<i>FY 2024 Contract Amount</i>	<i>FY 2025 Proposed Contract Amount</i>	<i>Justification for FY 2025 Proposed Contract Amount</i>
ILAs - Use of Regional Radio System - EMS	\$34.95	\$35.00	Increased cost of service

VACANT POSITIONS

Emergency Services currently has six total vacancies, out of which the following two positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Fire Education Outreach Coordinator	30057105	1.00	272	New leadership is actively filling vacant positions.
Deputy Emergency Management Coordinator	30004584	1.00	135	Actively conducting interviews.

The following three positions have been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Wildfire Mitigation Specialist	30063091	1.00	934	New leadership is actively filling vacant positions.
Fire Marshal Deputy Asst III	30004593	1.00	842	New leadership is actively filling vacant positions.
Deputy Emergency Management Coordinator	30056978	1.00	384	Actively conducting interviews

The Fire Marshal’s Office has recently gone through a change in leadership and is working to fill positions that were not prioritized under previous leadership.

FUTURE CONSIDERATIONS

On February 27, 2024, the Commissioners Court appointed Gary Howell as acting Fire Marshal for Travis County. In addition to the appointment, the Commissioners Court directed the Human Resources Management Division (HRMD) to work with the County Executive for Emergency Services to begin a recruitment process for a permanent Fire Marshal. Further, on March

26th, 2024, Commissioners approved funds for an outside consultant to perform an environmental and technical assessment of The Fire Marshal's Office. PBO notes that recommendations from the environmental and technical review of FMO could have budgetary impacts.

In relation to technology and communications, the department is working through radio replacements for the Juvenile Probation Department and service upgrades at the Travis County Correctional Complex in Del Valle. Further, Emergency Services has worked with the Combined Transportation Emergency Communications Center to equip and implement four dedicated seats for constable dispatch. This will improve first-responder coordination and communication capacity. Future cost considerations from a technology and communications perspective include radio replacements, the cost of interlocal agreements, service costs from radio providers, and the ongoing cost of the county effectively subsidizing radios used by partner entities.

The Office of Emergency Management recently coordinated a multi-day in-person training at Texas A&M's Emergency Operations Training Center. Officials and department heads from the county, as well as regional partners, participated in the event. The Office also did extensive planning and coordinating with county departments and regional partners around the recent solar eclipse. As the Office secures more grant funding for preparation and planning activities and has a larger coordination role due to the increased frequency and severity of natural disasters and weather events, there could be additional long-term costs not currently captured in current budget documents.

DEPT. SUMMARY OF REQUEST

CTECC ILA - \$908,886

Emergency Services requests \$392,400 in ongoing operating and \$516,486 in capital funding for annual obligations related to the Combined Transportation, Emergency & Communications Center (CTECC) interlocal agreement. The annual program budget for CTECC is an ongoing contractual obligation for Travis County, as defined by a cooperative interlocal agreement. Travis County participates with the City of Austin (the managing CTECC partner) as well as TxDOT and Capital Metro in this collaborative effort of leveraged resources that benefit public safety and public service within Central Texas. Emergency Services oversees this partnered program for Travis County through three of its divisions – Administrative Services, Technology & Communications, and Emergency Management.

GATTRS ILA - \$1,143,051

Emergency Services requests \$1,143,051 in capital funding for annual obligations related to the Greater Austin – Travis County Regional Radio System (GATRRS) interlocal agreement. GATRRS is an ongoing contractual obligation for Travis County, as defined by the cooperative interlocal agreement. Travis County participates with the City of Austin (managing GATRRS partner) as well as AISD, UT Austin, and TxDOT in this collaborative effort, benefitting public safety and public service within the region. The Department of Emergency Services oversees the leveraged GATRRS O&M resources for Travis County through two of its divisions – Administrative Services and Technology & Communications. GATRRS is sometimes referred to by its original name, the Regional Radio System (RRS).

HAZMAT ILA - \$17,500

Emergency Services requests \$17,500 in ongoing operating funding for annual obligations related to its interlocal agreement with the City of Austin for hazardous material response services. In FY 2019, Travis County entered into an agreement with the City of Austin to provide hazardous materials response services and support through its fire department to all incorporated and unincorporated areas of Travis County outside the City of Austin. The initial agreement was executed in FY 2019 and terminated in FY 2023. A new agreement was executed in FY2024 for a term of five years through FY 2028 – with an annual rate increase of 7 percent each year.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

CTECC ILA - \$908,886

PBO recommends ongoing resources of \$392,400 in the interlocal reserve for the increase in cost to the ILA with the City of Austin, Texas Department of Transportation, and Capital Metro for the Combined Transportation Emergency Communications Center (CTECC). PBO also recommends capital resources of \$516,486 in the department for the cost of capital within the ILA. Funding was included in the FY 2025 cost drivers in anticipation of this request. Due to this amount not being final, PBO will work with the department to transfer the appropriate funding once the final Interlocal costs are known in early FY 2025.

GATTRS ILA - \$1,143,051

PBO recommends \$1,143,051 in one-time capital resources for the increase in cost to the ILA with the City of Austin for the Greater Austin-Travis County Regional Radio System (GATRRS), the County's portion of new capital expenses for the system makes up the entire increase for FY 2025. Funding was included in the FY 2025 cost drivers in anticipation of this request. Due to this amount not being final, PBO will work with the department to transfer the appropriate funding once the final Interlocal costs are known in early FY 2025.

HAZMAT ILA - \$17,500

PBO recommends ongoing resources of \$17,500 in the interlocal reserve for the increase in cost to the ILA with the City of Austin for hazardous material (HAZMAT) services with the Austin Fire Department. Funding was included in the FY 2025 cost drivers in anticipation of this request. Due to this amount not being final, PBO will work with the department to transfer the appropriate funding once the final Interlocal costs are known in early FY 2025.

REQUEST #1: FIRE MARSHAL DEPUTY I SPW TO FTE CONVERSION

REQUEST #2: FIRE MARSHAL DEPUTY II SPW POSITIONS

Program:	Fire Marshal (147)			
Fund/Fund#:	Fire Code Fund (0134)		Mandated Program:	Yes
	FY 2025 Request	FY 2025 Recommendation	FY 2026 Cost	FY 2027 Cost

Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 534,326	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

For the two requests below, more information will be included in the Fire Code Fund (0134). The table above represents the total request within the general fund.

FIRE MARSHAL DEPUTY I SPW TO FTE CONVERSION - \$110,700

The Fire Marshal's Office requests funding for and the authorization to convert a previously approved Special Project Worker into a permanent position. The Office states that this position is needed to ensure that it can continue to meet all statutory mandates and required duties and anticipates this request will be cost-neutral due to ongoing permit fees generated and reclassified from fire code-related work.

FIRE MARSHAL DEPUTY II SPW POSITIONS- \$423,626

The Fire Marshal's Office requests funding for and the authorization of three Deputy Fire Marshal II Special Project Workers. These positions are needed to ensure the Office can meet all statutory mandates and required duties. The Office anticipates this request will be cost-neutral due to ongoing permit fees generated and reclassified from fire code-related work. The positions will augment the agency's inspection program by completing inspections of existing buildings, starting a new multi-family inspection program, and assisting with the ongoing inspections at the Colorado River Project.

BUDGET REQUEST PERFORMANCE MEASURES

None Provided

PBO RECOMMENDATION

FIRE MARSHAL DEPUTY I SPW TO FTE CONVERSION - \$110,700

The Fire Marshal’s Office continues to need additional staff capacity for the Colorado River manufacturing facility project. Further, the office is projecting its workload in construction plan review to increase by 16-25 percent each year for the next few fiscal years. As such, PBO recommends ongoing funding within the fire code fund converting an existing Deputy Fire Marshal I SPW to an FTE in FY 2025. As this position’s workload is centered around fire code inspections under local government code 233.065, its work would qualify as an expense for the administration and enforcement of the fire code.

FIRE MARSHAL DEPUTY II SPW POSITIONS - \$423,626

The Fire Marshal’s Office continues to need additional staff capacity for the Colorado River project. The Office states current staff only have the capacity to complete new construction activities and cannot inspect existing buildings or multi-family apartment buildings. The Office states that limited capacity for this work limits the ability to comply with statutory mandates regarding plan reviews, fire inspections, and investigations. The Office intends to use the new Special Project Worker positions to inspect existing buildings and multi-family buildings. As these positions' workload is centered around fire code inspections under local government code 233.065, their work would qualify as an expense for the administration and enforcement of the fire code and be eligible for full funding from the Fire Code Fund (0134). PBO recommends three full-time Fire Marshal Deputy I Special Project Workers authorized for two years funded on a one-time basis from resources in the Fire Code Fund.

REQUEST #3: ACCELERANT CANINE

REQUEST #6: OPERATING FUNDS FOR WILDFIRE MITIGATION DIVISION

<i>Program:</i>	Fire Marshal (147)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	152,698	76,698	27,142	27,142
Subtotal	\$ 152,698	\$ 76,698	\$ 27,142	\$ 27,142
Capital	24,000	-	-	-
Dpt Total	\$ 176,698	\$ 76,698	\$ 27,142	\$ 27,142
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 176,698	\$ 76,698	\$ 27,142	\$ 27,142

DEPT. SUMMARY OF REQUEST

ACCELERANT CANINE- \$30,448

The Travis County Fire Marshal’s Office is requesting funds to continue its Arson Canine program. If approved, the Office intends to purchase and maintain a replacement Accelerant Detection Canine. The new Canine would replace the office's current Canine, who has reached retirement age. The Canine will be utilized to assist with combatting the crime of arson in unincorporated Travis County and surrounding areas. Canines are proven to have a sense of smell that is 100,000 times more acute than humans, allowing them to cover an entire scene in a short period of time while identifying trace evidence that would otherwise either go undetected or take a much longer period for identification, collection, and post-lab analysis. A canine with assistance from an Investigator/Handler would primarily be utilized to assist investigators in searching fire scenes for the presence of ignitable liquids and related trace evidence.

OPERATING FUNDS FOR WILDFIRE MITIGATION DIVISION - \$146,250

The Wildfire Mitigation Division is requesting funding for essential equipment, general operating funds, and contract services to support wildland fire coordination, mitigation, training, and outreach programs. The division has been only partially staffed since its inception and no funding was provided for equipment or operating expenses when it was established. This budget request will ensure essential equipment such as uniforms, radios, computers, etc. and general operating expenses are available to the staff within the division.

BUDGET REQUEST PERFORMANCE MEASURES

None Provided

PBO RECOMMENDATION

ACCELERANT CANINE- \$30,488

PBO recommends one-time funding of \$26,556 and \$3,892 in ongoing funding for the procurement and maintenance of a new Accelerant Canine. PBO believes this new canine will help the office maintain its current efforts and greatly assist it in future arson investigations. Upon discussions with the department this will allow an adequate transition between the two canines and handle cases effectively.

Accelerant canines are frequently used in fire marshals' offices both within Texas and across the country, including in the Texas State Fire Marshal's Office. The Texas Department of Insurance, the State government office housing the Texas State Fire Marshal Office, explains the Accelerant Canines can be used to find trace fire accelerants humans might otherwise miss, including evaporated gasoline and other flammable liquids. These canines are more accurate than humans and can detect a wider variety of flammable liquids than humans can at greater speeds. The continuation of an accelerant canine would improve Fire Marshal fire investigation outcomes, especially in time-sensitive cases.

OPERATING FUNDS FOR WILDFIRE MITIGATION DIVISION – \$46,250

PBO recommends one-time funding of \$23,250 and ongoing funding of \$23,000 for essential equipment to equip staff in the wildfire mitigation division. The division has gone without its own operating budget since its creation and requires funding to address basic operational needs. Funding will address needs in uniforms, radios, computers, and safety equipment general operating funds, and contract services to support wildland fire coordination, mitigation, training, and outreach programs.

REQUEST #4: UNMANNED AERIAL SYSTEM (UAS) PROGRAM

REQUEST #5: STARLINK REDUNDANT CONNECTIVITY

<i>Program:</i>	Technology & Communications (147)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	24,600	12,800	12,800	12,800
Subtotal	\$ 24,600	\$ 12,800	\$ 12,800	\$ 12,800
Capital	-	-	-	-
Dpt Total	\$ 24,600	\$ 12,800	\$ 12,800	\$ 12,800
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 24,600	\$ 12,800	\$ 12,800	\$ 12,800

DEPT. SUMMARY OF REQUEST

UNMANNED AERIAL SYSTEM (UAS) PROGRAM - \$10,600

Emergency Services established a collaborative Unmanned Aerial System (UAS) program in FY 2022. Over the last two years, the department worked with staff at the Office of Emergency Management, Transportation and Natural Resources, Media Relations, STAR Flight, and the Fire Marshalls Office to expand the program with additional personnel and equipment. The program now has six qualified UAS pilots and six unmanned aerial vehicles. The addition of two advanced, all-weather UAS aircraft has increased the annual subscription cost by \$10,600. If funded, this will allow the program to continue utilizing all three frontline aircraft and our three-training aircraft in support of UAS missions around Travis County.

STARLINK REDUNDANT CONNECTIVITY- \$14,000

The following request is to implement Starlink to provide connectivity options for County departments during routine and emergency response operations. Starlink Internet offers a compelling solution for redundant connectivity during service outages, emergencies, and areas with poor network coverage. The lack of reliance on traditional infrastructure (fiber optics, cables, cellular LTE) makes this connectivity solution extremely resilient. The platform is mobile, rapidly deployable, and offers high-speed network connectivity to support critical operations. The system would be available for deployment to any County department with a need for remote, resilient internet connectivity. The addition of Starlink Internet services will provide redundant internet connectivity options that the County does not currently have.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

UNMANNED AERIAL SYSTEM (UAS) PROGRAM- \$5,600

PBO recognizes that an unmanned aerial system can provide significant value by gathering information that may be expensive to collect in a timely manner. This could provide operational efficiencies by using equipment cheaper to collect information from than staffing a helicopter for the same purpose. After discussions with the department, a total of \$5,600 is adequate to cover the additional subscription costs on an ongoing basis. PBO recommends \$5,600 in ongoing operating to maintain the current effort with in the UAS program.

STARLINK REDUNDANT CONNECTIVITY – \$7,000

PBO recommends \$7,000 in ongoing operating funding for Starlink redundant connectivity. Improved connectivity in areas with limited cellular and LTE coverage has clear benefits, as many areas of the county offer limited connectivity for public safety and emergency response operations. In discussions with the office, it has been noted that it has already internally funded the hardware components for the request and just requires the requisite ongoing funding.

REQUEST #7: AUXILIARY VEHICLE REPLACEMENTS

<i>Program:</i>	Emergency Management (147)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	210,164	-	-	-
Subtotal	\$ 210,164	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 210,164	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 210,164	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Emergency Services requests resources to purchase two vehicles to replace existing auxiliary vehicles used by the Department. The Department does not have permanently budgeted vehicles and uses auxiliary vehicles that the Department reports are not reliable. It states it will use vehicles to enhance Travis County emergency operations, as well as day-to-day operations for county business. The vehicles will allow the Emergency Services to:

- Augment the emergency response of the County;
- Assist in the movement of key staff during times of emergency;
- Assist in sheltering operations; and
- Move radio and other emergency technology equipment and supplies both in emergency and in normal operations.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

PBO recommends Emergency Services continue to utilize auxiliary vehicles for its operations. Given the infrequency of emergency event response operations, PBO recommends the Department coordinate with the Travis County Sheriff’s Office, Transportation and Natural Resources, or the Travis County Constable Offices to provide additional transport for County staff if needed. The nature of emergency events means permanently budgeted vehicles within Emergency Services may not be used frequently, and it would be more optimal for the department to work across departments to best utilize existing county resources.

UNRANKED REQUEST: EARMARK - EMS CONSULTANT

UNRANKED REQUEST: EARMARK - COOP CONSULTANT

<i>Program:</i>	Emergency Management (147)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-

Earmark CAR	-	-	-	-
Total Earmarks	\$ 900,000	\$ 900,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 900,000	\$ 900,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

EARMARK – EMS CONSULTANT - \$400,000

Emergency Services requests an Earmark against the Allocated Reserve for \$400,000 in one-time resources to fund a consultant which will assist the department in determining options for funding emergency medical response throughout Travis County. If approved, the County Executive of Emergency Services will work with the Purchasing Office and the PBO to develop a statement of work and budget to support a solicitation or identify a qualified consultant. County Executive, Emergency Services estimates the entire project can be completed within nine to twelve months of approval.

EARMARK- COOP CONSULTANT - \$500,000

Emergency Services requests continuing earmarked funding to solicit and hire an outside agency or consulting firm to facilitate the creation of a continuity of operations plan (COOP) for Travis County departments reporting to the Commissioners Court. The COOP would ensure County departments understand their critical functions and help ensure they can execute critical functions in times of disaster. The department reports 10 key elements to an appropriate COOP:

- Essential functions: the critical activities performed by organizations after a disruption of normal activities;
- Orders of succession: provisions for the assumption of senior agency offices during an emergency if any of those officials are unavailable to execute their legal duties;
- Delegations of Authority: identification, by position, of the authorities for making policy determinations and decisions at HQ, field levels, and all other organizational locations;
- Continuity Facilities: locations other than the primary facility used to carry out essential functions, particularly in a continuity event. Continuity Facilities, or “Alternate facilities,” refer to not only other locations but also nontraditional options such as working at home (“teleworking”), telecommuting, and mobile-office concepts;
- Continuity Communications: communications provide the capability to perform essential functions in conjunction with other agencies under all conditions;
- Essential functions: the critical activities performed by organizations after a disruption of normal activities;

- Orders of succession: provisions for the assumption of senior agency offices during an emergency if any of those officials are unavailable to execute their legal duties;
- Delegations of Authority: identification, by position, of the authorities for making policy determinations and decisions at HQ, field levels, and all other organizational locations;
- Continuity Facilities: locations other than the primary facility used to carry out essential functions, particularly in a continuity event. Continuity Facilities, or “Alternate facilities,” refer to not only other locations but also nontraditional options such as working at home (“teleworking”), telecommuting, and mobile-office concepts;
- Continuity Communications: communications provide the capability to perform essential functions in conjunction with other agencies under all conditions;
- Vital Records Management: the identification, protection, and ready availability of electronic and hard copy documents, references, records, information systems, data management software, and equipment needed to support essential functions during a continuity situation;
- Human Capital: during a continuity event, emergency employees activated by an agency to perform assigned response duties;
- Tests, Training, and Exercises (TT&E): measures ensuring an agency’s continuity plan can support the continued execution of the agency’s essential functions throughout the duration of a continuity event;
- Devolution of Direction and Control: the capability to transfer statutory authority and responsibility for essential functions from an agency’s primary operating staff and facilities to other agency employees and facilities; and
- Reconstitution: the process by which surviving and/or replacement agency personnel resume normal agency operations from the original or replacement primary operating facility.

The Department reports it began working on a COOP during the calendar year 2019, but this was interrupted after the Department needed to support ongoing emergency operations in response to the COVID-19 public health emergency.

BUDGET REQUEST PERFORMANCE MEASURES

None provided.

PBO RECOMMENDATION

EARMARK - EMS CONSULTANT- \$400,000

On June 4, 2024, the Commissioners Court approved the mid-year addition of a \$400,000 Earmark against the Allocated Reserve for an EMS consultant for Emergency Services to use as soon as possible. PBO recommends the one-time earmarked funding for this project in FY 2025. If the funds are utilized through the FY 2024 earmark, PBO will recommend the removal of the FY 2025 earmark.

EARMARK – COOP CONSULTANT– \$500,000

PBO recommends an FY 2025 Earmark against the Allocated Reserve for one-time funding of \$500,000 for the Department to engage an external consultant to create a Countywide Continuity of Operations Plan. The COVID-19 public health emergency, as well as Winter Storm Uri in 2021, demonstrated the County needs additional plans in place for Departments and Offices to maintain their operations in the event of a major emergency incident. The Continuity of Operations Plan will help with future potential emergency events.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

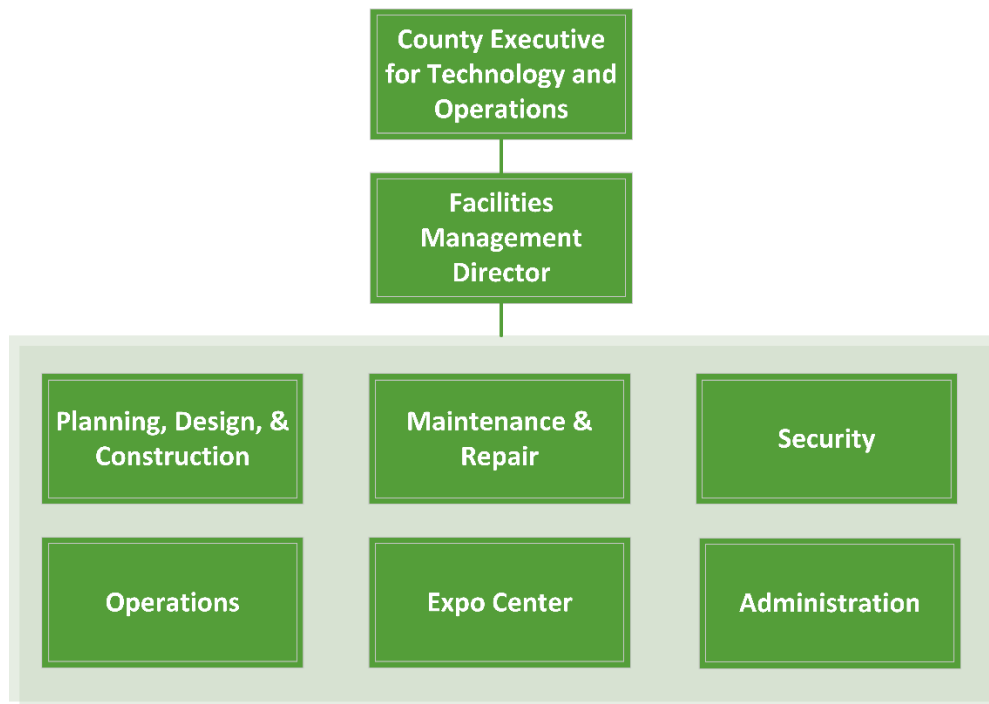

The mission of Facilities Management is to manage and provide professional and technical services for project management, planning, design, construction, maintenance, operations, and leases for Travis County Facilities that effectively and efficiently meet the economic and functional needs of Travis County.

The Department has identified the following departmental goals:

- Manage the planning, design, and construction of new facilities and renovation of existing facilities in a manner that provides best value to County user departments and taxpayers;
- Continue to provide sustainable facilities by designing and constructing new County buildings in excess of \$1 million so they achieve certification of LEED Silver or higher;
- Fully implement the County Master Plans as directed by the Commissioners Court;
- Minimize the amount of property leased by the County for operations;
- Provide for procurement and disposal of properties;
- Maintain buildings that are clean, sanitized, safe and healthy for County employees and the public in the delivery of services and execution of County judicial responsibilities;
- Perform landscape, parking lot/garage and water quality pond maintenance that ensures compliance with environmental regulations and maintains facility landscape aesthetics;
- Maintain and preserve County Buildings at the highest possible standards at all times with little or no operational downtime; and
- Maintain proper operation of life safety and access control systems/equipment for all buildings.

The Department is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Supports All Other County-wide Goals" and are now linked to the County Goal, "Be a trusted and well-run county."

ADMINISTRATION

The program goals of the Administrative Division are:

- Manage all assets and financial resources of the Department in a fiscally responsible manner in accordance with County and Department policies;
- Process payroll activities timely and accurately; and
- Enhance the training and professional development of staff.

The Division is responsible for hiring and onboarding new personnel as well as tracking expenses and paying invoices.

This is not a mandated program but supports the whole Department. The Administrative Division provides managerial, financial, real estate and other administrative support to the seven operating divisions of the Facilities Management Department to achieve the overall goals of the Department of delivering quality facilities on time and within budget, providing effective lease management, and properly maintaining facilities for the use and benefit of the employees and citizens of Travis County.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of correct pay applications processed within deadlines	95%	96%	96%	96%	96%
% of acceptable invoices processed within dept deadlines	97%	97%	97%	97%	97%

% of budget transfers processed within dept deadlines	99%	100%	100%	100%	100%
% of purchase requisition processed within dept deadlines	96%	98%	98%	98%	98%
% of correct time sheets processed within County deadlines	95%	98%	98%	98%	98%
% of personnel forms processed within dept deadlines	99%	99%	99%	99%	99%
% of employees receiving appropriate training hours	90%	98%	98%	98%	98%

The Department notes that it has met or exceeded all benchmarks tracked by performance measures.

GROUNDSKEEPING

Michelle Surka, FY 2025 Preliminary Budget

Facilities Management Department

Groundskeeping is not a mandated program but keeps the County’s facilities grounds in order and works to create a drought tolerant environment. The program goals of Groundskeeping are:

- Maintain safe and aesthetic building landscapes that conform to current trends for drought tolerant plants and water conservation;
- Manage resources to optimize landscape maintenance efficiency; and
- Reduce the number of days to complete a groundskeeping work order.

The objectives of the Groundskeeping program are to:

- Improve the aesthetics of exterior landscape of County buildings and rural properties;
- Maintain an increasing number of storm water detention and water quality ponds;
- Maintain the condition and appearance of parking lots and parking garages; and
- Efficiently maintain facilities and grounds drainage, gutters, slot drains and culverts.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Properties Maintained	46	46	46	46	46
Water Quality & Detention Ponds Maintained	35	35	35	35	35
Work Orders Completed	260	220	250	250	250
Average Days to Complete Property Maintenance Cycle	21	14	14	14	14
Average Days to Complete Routine Work Orders	10	7	7	7	7

CUSTODIAL SERVICES

Custodial Operations is not a mandated program; however, this Division ensures a clean working environment for the public and County employees. The program goals of Custodial Operations are:

- Ensure County buildings are cleaned and sanitized at the expected level of quality;
- Reduce Janitorial equipment maintenance expenditures; and
- Reduce OPR employees’ job-related accidents and lost time injuries.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Custodian work orders completed	650	825	800	800	800
Total facility SF cleaned/Meeting cleaning timelines	95	95	95	95	95

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Custodial Contract Increase	\$293,624	N/A	The FMD Operations Division janitorial service contract provides essential cleaning in buildings that FMD is not staffed to clean. The new contract was awarded in December 2022. The addition of four new buildings also contributed to the increase. This increase has provided essential funding to clean all buildings under FMD maintenance responsibility. Further, the funding increase permits the program to achieve its objective to provide clean, healthy and safe space to conduct County business.

SECURITY

The Security program is not mandated but ensures the physical security of the County’s facilities. The program goals of Security Management are:

- Coordinate and manage electronic and physical security integration within property renovations and new construction;
- Continue Security Division professional development and customer service capabilities;
- Provide security and safety awareness education/training of County employees;
- Assist in finding/identifying maintenance and repairs issues;
- Maximize parking space utilization;
- Maintain a centralized Travis County security operations center to monitor, respond, and report security-related incidents; and
- Maintain a quick response and resolution of electronic security related concerns.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of County employees completing security/safety training	200	7,500	7,500	7,500	7,500
% of parking space utilization	95	100	100	100	100
% of Physical Security Operations Center capabilities	95	95	95	95	95
% of electronic security work orders completed on schedule	95	95	95	95	95

The County is in the process of centralizing Countywide security. Currently, FMD Security, Constables, TCSO, and Information Security all operate in collaboration but are not centralized. Midyear in FY 2024, the Commissioners Court approved the creation of a Corporate Security Office, and the FY 2025 Preliminary Budget includes recommendations for funding for staff, equipment, and other resources for this office. The full scope of this new office is still in discussion. These efforts align with FMD Security’s work to centralize all security equipment and other security efforts countywide. Currently, FMD Security notes that the Division’s responsibilities include: alarm response, awareness training for employees, crime prevention, emergency

response, facility design review, first aid and CPR, information security management, operation of surveillance cameras, management of electronic access control systems, policy formulation, risk assessments and mitigation, and internal security counseling.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved/ Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Additional Relief Factor Security Staff	\$1,195,465	17/17	All 17 positions funded are filled except three. The results have been that posts at the Civil Courthouse and Medical Examiner's Facilities have been staffed, and other posts have proper relief for training and leave.
Countywide contracted security services	\$826,979	N/A	Adequate amount to cover contracted guard services throughout the County.
Genetec Advantage license for security	\$400,000	N/A	This five-year license agreement saved taxpayers 50 percent, instead of annual agreements.

MAINTENANCE & OPERATIONS

Maintenance and Operations is not a mandated program, but the Division is responsible for the day-to-day operational maintenance of the County’s facilities. Maintenance and Operations identified the following program goals:

- Ensure service contract for paint and carpet are performed on-time and with excellent customer satisfaction; and
- Maintain and preserve County buildings with minimal operational downtime.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% “Emergency Calls” closed within 48 hours	98%	98%	98%	98%	98%
% of “Routine” calls closed within a month	95%	95%	95%	95%	95%
Average number of maintenance call in jobs per month	650	650	650	650	650
% of completion of after-hours emergency requests	98%	98%	98%	98%	98%

FMD notes that MRD has successfully shifted the emphasis from reactive breakdown repair to proactive preventive maintenance by forming a dedicated team to perform the preventive tasks. In FY 2025, MRD will continue to enhance the emphasis on preventive and regular maintenance. This process will be improved through the use of mobile devices in the field, which will allow MRD staff to access the past repair and maintenance history of the equipment being serviced. Historical data on the equipment will provide a better information on the pending repair of the equipment. In addition, the MRD staff can enter detailed information while servicing the equipment and add important notes on safety and procedures.

Due to both inflationary pressures and an abundance of deferred maintenance in aging facilities, MRD is struggled to complete all of requested repairs and maintenance within its existing budget and has had to request additional resource midyear to support critical repairs.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Maintenance and Operations Increase	\$500,000	N/A	These resources helped to ensure there were sufficient funds for maintenance and repair through the fiscal year, but the ongoing pressures of inflation and significant deferred repairs is still impacting MRD capacity
CFCF Warranties and Services	\$306,000	N/A	This service agreement is operational and providing for maintenance and other services at the CFCF.

PLANNING, DESIGN, AND CONSTRUCTION

Planning, Design and Construction Division (PDC) is not a mandated program; however, the Division is responsible for planning, designing and project managing all construction projects. The program goals of PDC are:

- Strive to ensure the approved budget for projects is spent appropriately in accordance with approved County policies and procedures;
- Manage and coordinate the work of the PDC in-house design staff to maximize PDC’s value to County projects by keeping costs and time within acceptable standards while providing quality design for County facilities;
- Manage and coordinate the services of external design consultants to maximize the consultants’ value to County projects by keeping their costs and time within acceptable standards;
- Manage and oversee the services of construction contractors to keep the construction costs within acceptable standards;
- Manage and oversee the services of construction contractors to keep the construction time within acceptable standards; and
- Provide valuable FF&E and Move services to County departments.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Actual Costs to Project Budget Variance	99%	98%	100%	100%	100%
Construction Cost Variance	13%	10%	10%	10%	10%
Construction Schedule Variance	22%	14%	10%	10%	10%
%Actual FFE Costs to Budgeted FFE Variance	92%	100%	100%	100%	100%

The Division strives to keep construction cost variance at 10 percent or less, which has been achieved in recent years. Construction schedule variance, which is a measure of the amount of time extensions for Facilities construction projects, was 14 percent of the original contract time in FY 2023, an improvement from the prior year but still higher than the target of 10 percent. Challenges with supply chains often extended construction times.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	14,808,409	16,446,876	20,402,584	21,641,235	1,238,651
Operating	5,084,266	6,453,110	8,936,482	11,144,172	2,207,690
Total (Per&Op)	\$ 19,892,675	\$ 22,899,986	\$ 29,339,066	\$ 32,785,407	\$ 3,446,341
CAR*	9,717,926	22,083,222	18,297,423	38,081,678	19,784,255
Grand Total	\$ 29,610,601	\$ 44,983,208	\$ 47,636,489	\$ 70,867,085	\$ 23,230,596
FTEs	225.00	247.00	264.00	268.00	4.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for the Facilities Management Department increased by \$23,230,596 from the FY 2024 Adopted Budget. This is a 48.8 percent increase. The majority of the increase was in the capital budget largely due to significant investments that need to be made toward deferred maintenance in facilities, as well as construction funds for several ongoing facilities projects.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for the Facilities Management Department includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$936,900 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for FMD includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources for the Maintenance and Repair Division operating budget	2,000,000	200,000	2,200,000	-
Resources for a new maintenance contract to maintain the Medical Examiner Facility	-	300,000	300,000	-
Resources for an Operations Division Assistant Director to ensure better span of management	1,200	142,071	143,271	1.00
Resources to maintain electronic security equipment and services	125,000	-	125,000	-
Resources for the full FY 2025 CFCF Maintenance contract	-	120,299	120,299	-
Resources to purchase replacement security scanning equipment and take over the maintenance contract for security scanning equipment	100,000	15,000	115,000	-
Resources to procure an Asset Management Hardware & Software solution to better manage FMD’s inventory, equipment, and maintenance scheduling	-	88,000	88,000	-
Resources to hire an Executive Assistant to help with logistical and administrative tasks	1,200	84,181	85,381	1.00
Resources for a Physical Security Operations Center (PSOC) Coordinator for the Night Shift to ensure the PSOC is operating within all best practices and standards	1,200	75,169	76,369	1.00
Resources to maintain a guard post at the East Rural Community Center	-	71,953	71,953	1.00
Resources for ad hoc signage requests throughout the year	50,000	-	50,000	-
Resources for the Custodial Division to increase the operating budget to address inflationary increases on paper goods and other products supplied by custodial	-	37,000	37,000	-
Resources to install and operate a new digital conference scheduling system to make the conference room scheduling process more efficient	30,000	1,000	31,000	-
Resources for water leak detection equipment at the Ronald Earle Building and the Executive Office Building	-	50,000	50,000	-
Resources for needed equipment related to radios for the Security Division	2,712	-	2,712	-
Total Programmatic Recommendations	\$2,311,312	\$1,184,673	\$3,495,985	4.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50 percent restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$20,479 in ongoing operating resources for the Department. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for FMD includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	\$ -	\$657,807	\$657,807
Resources for health insurance cost increases for FY 2025.	-	140,149	140,149
Incremental cost increase to shift-differential pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	67,747	67,747
Incremental cost increase to overtime pay due to other compensation changes approved by the Commissioners Court in FY 2024.	-	1,074	1,074
Total Compensation Changes	\$-	\$866,777	\$866,777

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$38,081,678 for the Department. There was a reduction of \$18,297,423 to remove one-time funding for prior year capital funded projects. This is a net \$19,784,255 increase compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
700 Lavaca Building - Elevator Modernization	\$4,700,000
700 Lavaca Building - HVAC Zone Unit Replacement	4,400,000

<i>Capital Funding Recommendations</i>	<i>Total</i>
West Service Center Campus - Phase I Construction	4,120,000
Criminal Justice Center - Back-Up Generator	3,600,000
700 Lavaca Building - HVAC Chillers	2,400,000
Criminal Justice Center - Post 1 and 2 HVAC Units	2,000,000
Refrigerant Transition in County HVAC Systems	1,500,000
Freeze Protection Upgrades - Various Facilities	1,500,000
Medical Examiner Office - Emergency Water Storage Construction	1,200,000
Criminal Justice Center - Penthouse HVAC Final Phase	1,100,000
Weatherization Building - Parking Lot Drainage Improvements	1,000,000
Heman Marion Sweatt Courthouse - County Clerk Replacement Furniture and Rewiring	900,000
5501 Airport Blvd.- County Clerk Additional Construction and FFE	744,000
Collier Building - TCSO East Command Fleet Building	700,000
USB-Public Defender 1st Floor Renovation - Additional Construction Funds	650,000
East Side Service Center - New Building Automation System	600,000
Kristin E. McLain - Starflight Hangar Doors Replacement	560,000
Security Cameras in Garages	500,000
502 Highland Mall - Parking Lot Paving Repairs	500,000
BAS HVAC Controls - Water Source Heat Pump Systems	450,000
Portable Electric Generator Equipment	420,000
Collier Building - Additional Fire Protection Funds	400,000
Portable HVAC Chiller Equipment	390,000
Nelda Wells Spears Building-Perimeter Fence	300,000
Manor Community Center - Electric Hot Water Boiler	300,000
Gault Building-Building Automation System	300,000
5501 Airport Blvd. Building - TCSO 2nd Floor Expansion	270,000
Precinct One Building - Perimeter Fence Replacement	250,000
502 Highland Mall - Building Automation System	250,000
Emergency Response Vehicle Radios	211,588
Pflugerville North Community Center-HHS Backfill	215,000
Asset Management Hardware & Software	200,000
Nelda Wells Spears Building-Parking Lot Repairs	185,000
700 Lavaca Building - Physical Security Operations Center-Digital Console-Phase II	180,000
800 Lavaca Garage - Stairs Structural Repairs	160,000
502 Highland Mall - New Fire Alarm System	150,000
Ronald Earle Building - Water Leak Detection	110,000

<i>Capital Funding Recommendations</i>	<i>Total</i>
Criminal Justice Center- Chiller Plant Building Automation System Upgrade	108,000
700 Lavaca Building - 1st Floor Press Briefing Room	100,000
5501 Airport Blvd Building - Lobby and Main Hallway Upgrade	87,000
Keith Ruiz Building - TCSO Connecting Bridge	81,000
Executive Office Building - Water Leak Detection System-Hardware, Installation and Monitoring	80,000
Del Valle Community Center - Loading Ramp	65,000
Office Pool Vehicle	60,610
Gault Building - District Clerk New Cubicles and Rewiring	33,500
Tax Assessor Motor Vehicle Wall	25,000
New Tax Assessor Furniture	15,000
Computer Equipment for new positions	10,980
Total Capital Funding Recommendations	\$38,801,678

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Facilities Management Department budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Physical Security Implementation - Phase IV	\$400,000
Building Manager - Civil and Family Courts Facility	143,271
Real Estate Fund: Appraisals and Due Diligence	75,000
Energy Efficiency Monitoring Software	75,000
Total Allocated Reserve Earmarks	\$693,271

<i>Recommended CAR Reserve Earmarks</i>	<i>Total</i>
Deferred Maintenance	\$15,000,000
Heman Marion Sweatt Courthouse-Restoration and Renovation	10,000,000
Exposition Center Repairs and Improvements	9,030,000
Automated Demand Response (ADR)-Austin Energy	425,000
Building Manager-Civil and Family courts Facility	2,940
Total CAR Reserve Earmarks	\$34,457,940

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, FMD has 49 fees it charges and 23 revenue generating contracts it manages. None of these fees are being proposed for adjustment in FY 2025.

VACANT POSITIONS

The Facilities Management Department currently has 43 total vacancies, out of which the following 19 positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Custodian	30000470	1.00	343	In hiring process
Custodian	30000505	1.00	343	In hiring process
Custodian Lead	30000499	1.00	343	Open and Advertised
Plumber	30000586	1.00	328	Position to be underfilled as Building Maintenance Worker Senior
Building Maintenance Worker Sr	30056962	1.00	326	Open and Advertised
Custodian Lead	30065126	1.00	294	Open and Advertised
Building Maintenance Worker Sr	30056961	1.00	266	Open and Advertised
Custodian	30056889	1.00	240	In hiring process
Engineering Inspector Specialist Sr	30000553	1.00	234	Interviews scheduled
Custodian	30056881	1.00	234	Interviews scheduled
Custodian	30000503	1.00	234	Open and Advertised
Plumber Master	30056964	1.00	226	Open and Advertised
Building Security Guard	30000532	1.00	158	In hiring process
Architectural Division Manager	30000434	1.00	146	Vacant

Building Maintenance Worker	30056957	1.00	144	Open and Advertised
Custodian Lead	30000497	1.00	143	Open and Advertised
Building Maintenance Worker	30000596	1.00	139	Open and Advertised
Custodian	30065115	1.00	125	Open and Advertised
Building Security Guard	30055334	1.00	125	Open and Advertised

Many of the Building Maintenance positions can be difficult to fill, and often FMD replaces the work of these vacant positions with contracted staff. Other positions are challenging to fill due to the expertise required, such as the Architectural Division Manager position and the Engineering Inspector Specialist Sr.

The following 14 positions have been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Facilities Project Mgr	30000544	1.00	1,693	Open and Advertised
Plumber Master	30000587	1.00	1,355	Will be underfilled as a Plumber Journeyman
Facilities Mechanical Engineer	30000543	1.00	1,199	In hiring process; will be filled imminently
Electrician	30063127	1.00	934	Open and Advertised
Building Maintenance Worker Sr	30000585	1.00	888	Expo position will reclassify to Groundskeeper
Chiller/Boiler Specialist	30000580	1.00	728	Open and Advertised
Administrative Services Div Dir	30000547	1.00	661	Was held vacant to fund an SPW in ITS, but now actively recruiting
Custodian	30065122	1.00	569	In hiring process
Custodian Lead	30000465	1.00	477	Open and Advertised
Building Maintenance Worker Sr	30000526	1.00	446	Open and Advertised
Custodian Lead	30000477	1.00	446	Open and Advertised
Custodian Services Supv	30000494	1.00	401	Open and Advertised
Building Maintenance Worker Sr	30056960	1.00	369	Open and Advertised
Custodian	30056882	1.00	366	In hiring process

The Administrative Services Division Director position (30000547) was being held vacant to fund a Special Project Worker (SPW) Program Manager Senior position in the Technology and Operations Chief Deputy's cost center (1120010001), proposed to be authorized from May 17, 2023, through September 31, 2025. However, the SPW position was determined to no longer be needed and was delimited in June 2024. FMD is now actively hiring for this position.

FMD has filled some of its longest-term vacancies, including a Building Automation Specialist and a Plumber that had previously been vacant for several years. The compensation changes approved in FY 2023 and FY 2024 included a large

percentage increase for many of the positions in the custodial and maintenance job families, which improved recruitment and hiring for these positions somewhat. The results of the Segal Market Study will have further impacts on these job families, and PBO will work with FMD and HRMD to understand the impacts of implementing those findings.

FUTURE CONSIDERATIONS

FMD worked with a consulting team over the last several years to develop a Facility Condition Assessment (FCA). In October 2023, the FCA findings were presented. The study reviewed each County facility and determined the amount of deferred maintenance needed, any regulatory issues, functional needs, and identified capital improvements. It also assigned a facility condition index to each facility, which is a measure of condition and can serve as benchmark of condition over time. The FCI is a ratio of an assets needs/requirements due within five years divided by the asset’s calculated replacement value. It is expressed as a percentage and categorized into Excellent (less than 10%), Good, Fair, Poor, and Deficient (greater than 60%). The average FCI of all County facilities was 21% or fair.

*The **lower** an Asset’s FCI value, the **better** the building’s overall condition is assumed to be.*

The overall assessment found that the five- year needs for facilities, including all deferred maintenance and all upcoming five-year maintenance and repairs, was valued at just over \$212 million. In order to maintain the current average FCI, the report notes that the County would need to fund \$31.5 million in repairs and maintenance each year. To improve the FCI to “excellent” by 2043, the study estimates the County would need to fund \$37.1 million per year over the next 20 years. The County must manage reactive and proactive maintenance and determine the best strategy to prioritize needed deferred maintenance in the coming years.

FMD is also involved in large-scale countywide projects, such as the planned Diversion Center, the comprehensive facility plan, space considerations related to teleworking/adaptive workforce, resiliency efforts, and ongoing efforts to minimize greenhouse gas emissions and pollutants. These projects require significant staff time and resources and many of them will likely continue to require capital investments for new buildings, equipment, and other expenses.

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #1: OPERATIONS DIVISION ASSISTANT DIRECTOR

REQUEST #2: EXECUTIVE ASSISTANT

Program:	Various			
Fund/Fund#:	General Fund (0001)		Mandated Program:	No
	FY 2025 Request	FY 2025 Recommendation	FY 2026 Cost	FY 2027 Cost
FTEs	2.00	2.00	2.00	2.00
Personnel	225,252	225,252	225,252	225,252
Operating	3,400	3,400	1,000	1,000
Subtotal	\$ 228,652	\$ 228,652	\$ 226,252	\$ 226,252
Capital	5,540	5,540	-	-
Dpt Total	\$ 234,192	\$ 234,192	\$ 226,252	\$ 226,252
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 234,192	\$ 234,192	\$ 226,252	\$ 226,252

DEPT. SUMMARY OF REQUEST

Facilities Management is requesting funding for two positions to better manage the managerial and administrative workload of the Department.

Request #1: Operations Division Assistant Director (\$142,071 ongoing, \$1,200 one-time, \$2,600 IT Capital)

FMD is requesting \$145,871 to support the FMD Director with management of the operations including Maintenance and Repairs, Custodial and Grounds divisions. FMD has grown over the last few years with seven divisions and over 300 full-time employees for the department. The managerial span of control is limited, in that the Department Director is required to oversee 21 staff directly, with minimal middle-management staff to assist in the workload. An Operation Division Assistant Director would assist with operational oversight and responsibilities in the maintenance, repairs, custodial and grounds areas of Travis County buildings with projects, contracts, purchasing, budgeting, and management of the daily operations. The current Department is overloaded with work orders, setting up vendor contracts, multiple approved projects that need oversight to ensure they are being developed properly, and the need to strategize around long-term planning for Travis County facilities and future plans. This position would help the Department better meet the needs of the growing County.

Request #2: Executive Assistant (\$84,181 ongoing, \$1,200 one-time, \$2,940 IT Capital)

In addition to managerial support, FMD is requesting an Executive Assistant to assist the FMD Director with administrative, logistical, and scheduling tasks that would help better maintain the workload. The Executive Assistant will provide support to the department head in FMD, and will serve as liaison between the other departments, elected officials, commissioners and the general public.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$225,252 in ongoing personnel funding, \$1,000 in ongoing operating funding, \$2,400 in one-time resources, and \$5,540 in ITS capital for an Operations Assistant Director and an Executive Assistant for FMD. PBO has worked with Human Resources Management Department (HRMD) to review the other five largest Departments in the County, and they all have a position that serves as an Assistant Director or similar. FMD has a Director with 21 staff directly reporting to this position. This is creating inefficiencies and a difficult workforce division of labor. The addition of an Operations Assistant Director will allow the newly created position to oversee more of the day-to-day operations of county facilities allowing the Director to prioritize strategic and long-term planning along with EDSI as the County works towards a comprehensive facility plan, various large new facility projects on the horizon, and other high-level organizational management. Similarly, for a Department of the size and complexity of FMD, an appropriate level of administrative staffing is key to managing the time and workload of leadership in the Department.

REQUEST #3: BUILDING MANAGER: CIVIL AND FAMILY COURTS FACILITY

REQUEST #9: BUILDING MANAGERS

<i>Program:</i>	Maintenance & Operations (114)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	3.00	-	-	-
Personnel	424,715	-	-	-
Operating	3,400	-	-	-
Subtotal	\$ 428,115	\$ -	\$ -	\$ -
Capital	8,820	-	-	-
Dpt Total	\$ 436,935	\$ -	\$ -	\$ -
Earmark Allocated	-	143,271	-	-
Earmark CAR	-	2,940	-	-
Total Earmarks	\$ -	\$ 146,211	\$ -	\$ -
Dpt Total + Earmarks	\$ 436,935	\$ 146,211	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting, with support from the Local Administrative District Judge and 13 District Court Judges, a full-time Building Manager for Civil and Family Court Facility (CFCF).

In addition to a dedicated Building Manager for the CFCF, FMD is also requesting two Building Managers to support the FMD Director with management of operations in the various County buildings to oversee and direct the activities and requests for maintenance and repairs. These positions will ensure the requests are completed in a timely manner to ensure the County buildings are being maintained and serviced adequately by FMD.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends an ongoing earmark of \$142,071 for ongoing personnel and operating, a one-time earmark of \$1,200, and an earmark of \$2,940 for centralized computer equipment for a Building Manager for the CFCF. This position is currently recommended as an earmark because there does not currently exist a Building Manager job title in Travis County. PBO recommends that FMD work with HRMD to develop this job title and the appropriate job classification and pay grade to determine the best budgeted salary for this position. As requested, this position is at the same minimum salary as the above approved Operations Division Assistant Director, which, considering that the Building Manager would likely report to the Operations Division Assistant Director, does not seem to be an appropriate pay grade.

A model of utilizing Building Managers for the largest and most heavily trafficked Travis County facilities could be an efficient strategy to minimize FMD and other Office and Department staff time on handling urgent facility issues, diverting staff from other ongoing projects and tasks. For the CFCF, judges have noted that they often have to pursue entering work orders, directing contractors, and assisting with other facility demands when issues became urgent and FMD did not have the bandwidth to respond immediately. The CFCF building was a major County investment and maintaining it for the foreseeable future is a priority. A building manager model, however, has not been tested and has not historically been how the County manages facilities, with FMD generally centrally managing all facilities with the exception of detention facilities such as the

Travis County Sheriff's Office or Juvenile Probation, and the Parks facilities managed by Transportation and Natural Resources (TNR). Supporting one building manager for a critical facility is a strategy to understand how the model can work to best divert CFCF requests from other staff, serve stakeholders, and work to maintain the building. PBO recommends that FMD work with PBO and with HRMD to develop the requirements and performance measures for this position and review the position's efficacy in FY 2026 to consider adding further building managers to highly occupied facilities. Some performance measures may include reducing the frequency of reactive maintenance by some percentage, reducing the cost of maintenance for a facility, achieving a specific ratio of reactive to preventative maintenance, maintaining a set time for responding to work orders, or other key performance metrics.

PBO is not recommending funds for two other building managers at this time but will revisit this request in future fiscal years should FMD submit the request again.

REQUEST #4: MAINTENANCE AND REPAIR DIVISION – OPERATING FUND INCREASE

<i>Program:</i>	Maintenance and Repair Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	3,300,000	2,200,000	200,000	200,000
Subtotal	\$ 3,300,000	\$ 2,200,000	\$ 200,000	\$ 200,000
Capital	-	-	-	-
Dpt Total	\$ 3,300,000	\$ 2,200,000	\$ 200,000	\$ 200,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 3,300,000	\$ 2,200,000	\$ 200,000	\$ 200,000

DEPT. SUMMARY OF REQUEST

FMD is requesting \$3,300,000 in one-time operating funding the supplement the existing Maintenance and Repair Division (MRD) operating budget. The Department notes that these funds are necessary to offset an increase in MRD needs related to County growth and the escalation of costs of supplier services and equipment.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

In FY 2024, MRD worked with PBO to transfer \$1,944,267 in personnel savings to the MRD operating budget to address shortfalls. The Department also worked with PBO to liquidate POs, identify funding that could be reclassified against the SMART Reserve, and utilize project savings to maintain the MRD operating budget throughout the fiscal year. By March 26, 2024, the Department had already expended \$3,391,086 or 98.8 percent of its budget.

In FY 2023, the Department had similarly struggled with the limitations of its maintenance budget compared to the demands of the County. The FY 2024 Adopted Budget included an additional \$500,000 ongoing to bring the maintenance ratio to \$1.90 per square foot of facility space maintained. Additional square footage has been added over the years to the MRD portfolio without a corresponding increase in the MRD budget, resulting in a drop of the budget to square foot ratio from \$2.00 per square foot to \$1.74 per square foot before the funding addition in FY 2024. Despite these additions, the Department has continued to struggle with meeting the maintenance and repair needs of the County within the limits of its existing MRD budget.

According to an analysis by the Associated Builders and Contractors, construction costs have increased substantially in recent years, with reported increases of 37.7 percent since 2020. In that time, the MRD “Building Repairs and Maintenance” line item, which is the Division’s most flexible line fully dedicated to maintenance and repairs and not committed to any ongoing contracts, increased by 35.9 percent. The overall operating budget of the Division has increased by 49.6 percent, including all operating expenses.

However, the higher rate of expenditures for maintenance and repair can also be attributed to the substantial deferred maintenance across the County, forcing MRD to take on reactive maintenance when aging and dated systems fail. FMD worked with a consulting team over the last several years to develop a Facility Condition Assessment (FCA). In October 2023, the FCA findings were presented. It reviewed each County facility and determined the amount of deferred maintenance needed, any regulatory issues, functional needs, and identified capital improvements. It also assigned a facility condition index to each facility, which is a measure of condition and can serve as benchmark of condition over time. The FCI is a ratio of an assets needs/requirements due within five years divided by the asset’s calculated replacement value. It is expressed as a percentage and categorized into Excellent (less than 10%), Good, Fair, Poor, and Deficient (greater than 60%). The average FCI of all County facilities was 21% or fair.

*The **lower** an Asset’s FCI value, the **better** the building’s overall condition is assumed to be.*

The overall assessment found that the five-year needs for facilities, including all deferred maintenance and all upcoming five-year maintenance and repairs, was valued at just over \$212 million. Additional details about this condition report will be included throughout the following requests, as FMD prioritized items that were identified as critical for repair and replacement when necessary. Request number 55 is for Building Equipment Renewals, which a \$33 million request to replace systems that were identified as needing replacement imminently. The County must manage reactive and proactive maintenance. MRD’s budget is primarily focused on reactive maintenance, and this budget will continue to balloon if the County does not invest in proactive replacements of failing and near-failing facility equipment.

PBO recommends increasing the MRD budget by \$200,000 on an ongoing basis, which represents increasing the MRD Building Repairs and Maintenance line by 49.5 percent since 2020 and increasing the square foot ratio to \$2.15 per square foot. In addition to this ongoing amount, PBO recommends a one-time allocation of \$2,000,000 to provide support for the increased reactive maintenance that will need to be done on facilities in poor condition, while the County works to prioritize more proactive replacements. PBO will continue to support FMD using vacancy savings to supplement its MRD budget when appropriate throughout the fiscal year, as often the largest expenses for MRD are hiring contracted staff like electricians, master plumbers, chiller/boiler specialists, and building automation system specialists to do work that would otherwise be done by positions that are vacant. In addition, PBO will continue to work the Department to track its expenses and determine how best to address the ongoing difficulties with maintenance and repair needs. PBO also recommends that the Department include performance measures with a stated facility condition goal for any future discussions related to the maintenance and repair budget.

REQUEST #5: AUTOMATED DEMAND RESPONSE – AUSTIN ENERGY
 REQUEST #6: ENERGY MANAGEMENT SOFTWARE
 REQUEST #8: ENERGY EFFICIENCY FUND
 REQUEST #P2: PROJECT - ALTERNATIVE BACKUP POWER FEASIBILITY STUDY
 REQUEST #81: WATER FOUNTAINS WITH BOTTLE REFILL STATIONS – PHASE II

<i>Program:</i>	Various			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	1,015,000	-	-	-
Subtotal	\$ 1,015,000	\$ -	\$ -	\$ -
Capital	400,000	-	-	-

Total Earmarks	\$ -	\$ 500,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,415,000	\$ 500,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting the following resources related to improving energy usage in the County.

Request #5: Automated Demand Response for Austin Energy (\$650,000 one-time operating)

This funding will enable the County’s participation in ERCOT’s Emergency Response Service and Austin Energy’s Commercial Demand Response programs. The Department will install an Automatic Demand Response (ADR) device in various County buildings. This will enable the County to automatically reduce energy consumption during peak demand periods and can reduce greenhouse gas emissions. This can also help reduce electricity bills, and Austin Energy pays financial incentives for reducing overall loads. This funding would support the transition of between 30 and 35 Travis County buildings to ADR devices.

Request #6: Energy Management Software (\$75,000 ongoing operating)

This funding would allow FMD to purchase software for tracking, monitoring, analyzing, and reporting energy consumption and sustainability data. There currently is no centralized way for the County to measure its utility usage across all facilities. Being able to do so would allow FMD to identify opportunities for improvement, identify and remedy anomalies, plan for long-term trends, save energy, and potentially save costs.

Request #8: Energy Efficiency Fund (\$90,000 ongoing operating)

FMD is requesting funds to conduct energy assessments and retro-commissioning of buildings managed by FMD. This will help FMD identify the areas of improvement in terms of energy efficiency. The County operates a number of facilities that have high-energy consuming equipment. A comprehensive energy assessment would help identify energy saving opportunities and understand energy usage across county buildings. This could result in lower monthly energy bills, longer equipment lifespan, and lower greenhouse gas emissions.

Request #P02: Alternative Backup Power Feasibility Study (\$400,000 capital)

On February 20, 2024, the Commissioners Court directed Technology and Operations (T&O) and FMD to take the lead on collaborating with appropriate County stakeholders to develop an appropriate Scope of Work for a consultant and craft the parameters for a feasibility study for County buildings. The feasibility study will review and suggest possible alternative backup power options for selected County buildings. This request will provide the needed consultants to start this study. This will be a multiyear process, and as the process proceeds, FMD will work to identify state and federal tax credits or grant dollars to support this work where possible.

Request #81: Water Fountains with Bottle Refill Phase II (\$200,000 capital)

This is a request for \$200,000 in capital resources is to implement Phase II of the bottle filler equipment project. This will purchase and install 40 drinking fountains with bottle fillers at County facilities.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends a one-time earmark of \$425,000 and an ongoing \$75,000 earmark for FMD to utilize for prioritizing projects around energy efficiency countywide. In FY 2024, FMD drew on the \$90,000 Allocated Reserve earmark for Energy Efficiency Funds to install four ADR devices in priority buildings (700 Lavaca, HMS Courthouse, CJC, and CFCF). This earmark had originally been intended for energy assessments and retro-commissioning of buildings, but FMD determined that, after discussions with Austin Energy, ADR devices should be prioritized for funding earlier in order to have automated demand available through the high-energy use summer months. The price of the ADR devices has been less than the amount originally estimated in the budget submission. At the time of budget submission, staff was estimating a cost of between \$20,000 and \$25,000 per building, but by using in-house expertise to install the devices, the price has been variably less. FMD notes that these devices are also eligible for incentives from Austin Energy but does not yet have an estimate for how much any incentive pay could be for using these devices.

PBO recommends that FMD work to develop a prioritized plan, in conjunction with TNR, to phase its work related to energy efficiency projects. These projects, as well as the long-term plan to transition the County to more environmentally friendly refrigerants, should be memorialized in a phased concrete plan in conjunction with TNR to determine how County facilities will be prioritized for energy-efficiency investments. PBO recommend that prior to drawing on this or the refrigerant earmark, FMD present a plan for the use of these funds in FY 2025 and long-term plan over the next five years to move towards greater facility energy efficiency.

PBO is not recommending additional resources for a backup power feasibility study. On February 20, 2024, an agenda item was approved on consent to “direct staff to explore options for Travis County to access new state funds and federal tax credits, as well as other opportunities, to acquire alternative backup power using solar panels, batteries, and natural gas generators.” This item was not discussed by the Court as it was approved on consent, and the direction was specific to identify state or federal funds for these projects. A feasibility study may be a necessary step prior to pursuing applications for grant funds, but PBO recommends that FMD bring this item back to Commissioners Court for consideration during a budget hearing or otherwise before expending General Fund resources. PBO recommends that this plan be incorporated into a broader energy efficiency plan for Travis County facilities that also be approved by Court.

PBO does not recommend additional resources for phase II of the project to purchase and install drinking fountains with water bottle fillers in the FY 2025 Preliminary Budget. The first phase of this project was funded through the Local Fiscal Recovery Fund for \$187,500. There still remains a balance of \$146,335 for phase I. These funds must be expended by December 31, 2024, so PBO recommends FMD prioritize expending all currently available dollars for this project.

REQUEST #10: TRICKLE DOWN COMPUTERS

<i>Program:</i>	Administration			
<i>Fund/Fund#:</i>	0001		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Dpt Total + Earmarks	\$ 35,200	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting to replace seventeen computers that are not on central budget and are out of warranty. FMD notes that these computers are slow to respond and will not operate some of the basic applications needed. To provide the best service to the public and other departments, FMD needs to have reliable equipment that supports all applications needed to perform job duties.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

FMD worked with ITS after budget submission and determined that all computers included in this request were either already included on the ITS replacement list and so are already funded or could be replaced in FY 2024 using existing savings in the Centralized Computers budget.

ITS has noted that FMD has frequently received computers as part of packages for HVAC equipment, Building Automation Systems, or other facilities-related equipment. These computers are often not up to County functionality standards and so fail more quickly than other County equipment. Because they were not purchased by ITS or through an ITS process, these computers have not been added to the Central Replacement list and so getting the assets replaced when they fail has required coordination midyear and off cycle between PBO, FMD, and ITS to identify the equipment, identify funding, and determine the best source of action for each device. PBO recommends that FMD no longer accept equipment without ITS review in order to ensure that all equipment is up to County standards and that equipment can be added to the replacement cycle appropriately.

REQUEST #11: SECURITY DIVISION OPERATING FUND INCREASE
 REQUEST #12: PHYSICAL SECURITY IMPLEMENTATION PHASE IV
 REQUEST #30: SECURITY CAMERAS IN GARAGES
 REQUEST #35: SECURITY BODY ARMOR
 REQUEST #37: ELECTRONIC SECURITY OPEN MAINTENANCE PO PREF TECH
 REQUEST #39: DIGITAL CONSOLES PHASE II

DEPT. SUMMARY OF REQUEST

FMD is requesting a variety of equipment, including operating funds and capital funds, for its Security Division.

Request #11: Security Division Operating Fund Increase (\$200,000 ongoing operating)

The Security Division is requesting an ongoing increase to its operating budget needed to account for increased costs to security items, uniforms, and locksmithing equipment. FMD notes that the Department provides all security equipment for Courthouses, including X-rays, walkthrough metal detectors, and search wands. This equipment has increased in cost, and due to the sensitive nature of the equipment, it needs to be replaced promptly if and when it breaks. This operating increase will ensure that FMD has the funds in its budget to pay for this equipment when needed. In addition, this increase includes funds intended to cover the increased cost of uniforms, which are worn by FMD Security staff. Finally, FMD notes that two locksmiths were transferred from the Maintenance and Repair Division to Security and there was no budget increase associated with this change. Security has continued to absorb the cost of the equipment associated with these locksmiths.

Request #12: Physical Security Implementation Phase IV (\$500,000 capital)

FMD Security is working to conduct a security assessment of all Travis County buildings. As each assessment has been completed, the findings have been used to purchase necessary equipment intended to improve the physical security of all County facilities and spaces. This request will facilitate 20 building assessments and upgrades in FY 2025.

Request #30: Security Cameras in Garages (\$500,000 capital)

FMD is requesting funds to install security cameras in all County garages. There are some garages that do not have security equipment and so are not monitored or recorded. FMD notes that most criminal activity on Travis County properties occurs in parking garages. These funds would install cameras in all remaining garage facilities.

Request #35: Security Body Armor (\$80,000 capital)

This request will outfit 70 FMD Security Guards with body armor. Currently, FMD Security do not utilize body armor. FMD notes that this equipment would need to be on five-year replacement cycle like Constable and Travis County Sheriff's Offices (TCSO) body armor. The requested equipment would be the same as purchased by those law enforcement Offices.

Request #37: Electronic Security Open Maintenance PO Pref Tech (\$150,000 one-time)

FMD Security Division is requesting one-time funds of \$150,000 to maintain an open purchase order with a security vendor. This allows the Division to perform maintenance on the electronic security equipment without having to wait for an individual purchase order each time.

Request #39: Digital PSOC Consoles Phase II (\$180,000 capital)

This request is a continuation of a project within the Physical Security Operations Center (PSOC) to provide adequate radio communications between security, law enforcement agencies within Travis County, and to receive the panic alarms activated at Travis County building to ensure public safety. This project will provide interoperability between all agencies located within Travis County and the State of Texas providing seamless communications within the public safety realm. The project will add one (1) additional Motorola MCC 7500e Elite Dispatch Console which will continue to bring the PSOC up to local and state standards in public safety communications.

Request #94: Fitness Center and Security Screening Machines – Service Contracts (\$20,000 ongoing)

FMD is requesting \$20,000 in ongoing funds for increases to the contracted maintenance services for various fitness and screening equipment at the County. The fitness is equipment is used by Travis County Employees at the Fitness Center in 700 Lavaca. No department has claimed responsibility for maintaining this equipment and over the years, FMD has received several requests for repair or replacement. This maintenance on fitness equipment would cost an estimated \$5,000 annually.

In addition, FMD is taking over maintenance of all courthouse and other facility security equipment from TCSO. Adding the maintenance of these items, which includes x-ray machines, scanners, and metal detector wands, would cost an additional \$15,000 annually. The x-ray machines in particular need to be checked for excess radiation on a regular basis to ensure they are operating safely.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

Request #11: Security Division Operating Fund Increase (\$100,000 one-time operating)

Request #94: Fitness Center and Security Screening Machines – Service Contracts (\$15,000 ongoing operating)

PBO notes that courthouse security equipment like x-ray machines, scanners, and wands have historically been maintained by TCSO. After discussion with TCSO, FMD is proposing taking over this workload to have all security equipment consistent countywide, as FMD manages all other security equipment like card readers, cameras, and panic buttons. PBO concurs that centrally managing this equipment through FMD could provide better efficiencies. PBO recommends \$15,000 in ongoing operating funds for a maintenance contract for courthouse security equipment. PBO also recommends \$100,000 in one-time funding for security equipment, primarily to maintain a backup stock of key security machines line x-ray scanners and wands. PBO recommends that FMD work with TCSO and the justices of the peace to ensure that the Special Revenue Funds, the Courthouse Security Fund and the Justice Court Security Fund, are effectively utilized throughout the year for security equipment at courthouses. Some security equipment is not eligible for those special funds, and so PBO recommends General Fund dollars should be used for that equipment.

PBO is not recommending any additional funds for maintenance of fitness equipment in 700 Lavaca. PBO recommends that FMD explore whether the Employee Health Fund could cover this expense.

Request #12: Physical Security Implementation Phase IV (\$400,000 CAR Earmark)

PBO also recommends continuing an earmark of \$400,000 on the CAR Reserve to ensure the Department has access to funding to complete priority security projects identified by previous security assessments, as well as new critical security issues identified by Security Management, Risk Management, and key stakeholders. This earmark was utilized in FY 2024 to prioritize several identified security needs and allows the Department to have the flexibility to respond quickly to security needs that arise unexpectedly midyear.

Request #30: Security Cameras in Garages (\$500,000 CAR)

PBO recommends \$500,000 in capital funding to fully equip all garages with security cameras. Several garages have no or minimal coverage. FMD estimates that fully equip each garage with security cameras costs between \$250,000 and \$300,000. This funding will start a phased security plan, starting with two buildings, to ensure that all of these spaces, which are easily accessible, have adequate camera coverage.

Request #35: Security Body Armor (\$0)

PBO is not recommending additional security body armor at this time. Security used some available internal resources in midyear FY 2024 to purchase body armor for guard units. PBO recommends that FMD work with PBO to develop a replacement plan for this equipment.

Request #37: Electronic Security Open Maintenance PO Pref Tech (\$125,000 one-time operating)

PBO recommends one-time funds of \$125,000 to maintain an open purchase order for PrefTech, the vendor who supplies cameras, door mechanisms, and other security equipment. This will allow FMD to quickly stock these items and ensure continuity of operations should any equipment break midyear and need replacing. This is the same amount provided in FY 2024.

Request #39: Digital PSOC Consoles Phase II (\$180,000 CAR)

PBO recommends funding for one additional digital console in the PSOC in the FY 2025 Preliminary Budget. There are already two digital consoles in the facility. PBO recommends a phased approach for bringing additional consoles online, and also recommends any additional investments in this arena be coordinated in line with all county continuity of operations planning.

REQUEST #14: CIVIC AND FAMILY COURTS MAINTENANCE AGREEMENT

<i>Program:</i>	Maintenance and Repairs			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 371,783	\$ 120,299	\$ 120,299	\$ 120,299

DEPT. SUMMARY OF REQUEST

FMD is requesting ongoing funds for the Civil and Family Courts Facility maintenance agreement. This agreement includes a maintenance agreement which includes service contracts and some day-to-day maintenance contracts.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends ongoing funds of \$120,299 to ensure that the Department has sufficient funds to cover the full FY 2025 contract amount.

REQUEST #15: MEDICAL EXAMINER BUILDING MAINTENANCE SERVICES

REQUEST #P21: PROJECT - MEDICAL EXAMINER CARBON FILTERS FOR AHUS

REQUEST #P22: PROJECT - MEDICAL EXAMINER EMERGENCY WATER STORAGE CONSTRUCTION

<i>Program:</i>	Maintenance and Repairs			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	300,000	300,000	300,000	300,000
Subtotal	\$ 300,000	\$ 300,000	\$ 300,000	\$ 300,000
Capital	1,300,000	-	-	-
Dpt Total	\$ 1,600,000	\$ 300,000	\$ 300,000	\$ 300,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	1,200,000	-	-
Total Earmarks	\$ -	\$ 1,200,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,600,000	\$ 1,500,000	\$ 300,000	\$ 300,000

DEPT. SUMMARY OF REQUEST

FMD, in conjunction with the Medical Examiner’s Office, is requesting various resources to maintain that facility.

Request #15: Medical Examiner Building Maintenance Services (\$300,000 ongoing operation)

This request is for \$300,000 in ongoing resources for a maintenance agreement and miscellaneous ongoing costs associated with maintaining the Medical Examiner facility. This facility requires specialized maintenance as it is a medical facility with ongoing specialized preventative maintenance needs. These needs exceed the capacity of FMD’s in-house maintenance and custodial services.

Request #P21: Project – Medical Examiner Carbon Filter (\$100,000 capital)

This request is to fund new carbon filter for the air handling units (AHUs) at the Medical Examiner’s Office at a cost of \$100,000 in capital funding. Carbon filters are needed because the exhaust from the StarFlight helicopters enters the air system during windy conditions and can be dangerous for employees and operations. During at least one instance, the building had to be evacuated as the exhaust fumes reached dangerous levels and the fumes were making employees ill.

Request #P22: Project – Medical Examiner Emergency Water Storage Construction (\$1.2 million capital)

This request for \$1.2 million in capital resources will fund the construction of emergency water system to store 36,000 gallons of potable water and equipment, including piping for change over from City water to emergency water when necessary to allow continuous operations of the Medical Examiner facility even during times of water outages. Without these upgrades, the facility would be at risk of having to stop operations for water outages, halting autopsies and possibly resulting in backlogs and delays that would impact law enforcement, families, and the justice system.

BUDGET REQUEST PERFORMANCE MEASURES

No performances measures were provided.

PBO RECOMMENDATION

Request #15: Medical Examiner Building Maintenance Services (\$300,000 ongoing)

The FY 2024 Adopted Budget included an earmark in the Medical Examiner’s Office of \$250,000 ongoing to hire a facility management contractor. The item was included as an earmark because the Medical Examiner’s Office was directed to work with FMD to determine the best strategy to meet this need. FMD worked with MEO to determine that an outside contracted maintenance and custodial service would be able to provide the best service to meet the MEO’s needs as a medical facility. PBO recommends \$300,000 in ongoing funds for FMD to provide these contracted services to MEO.

Request #P21: Project – Medical Examiner Carbon Filter (\$0)

PBO is not requesting additional resources to add Carbon Filters to the Medical Examiner’s Office at this time. The Starflight facility is in the process of potentially relocating, which would mitigate the poor air quality being reported by the MEO. In addition, PBO recommends that the MEO and FMD investigate installing air quality detectors and monitors to determine the air quality of the facility.

Request #P11: Project – Medical Examiner Emergency Water Storage Construction (\$1,200,000 capital)

PBO recommends a CAR earmark of \$1,200,000 for the construction of an emergency water system. The MEO requested an earmark of \$250,000 in FY 2024 to begin this project. Funding was transferred from this earmark on April 9, 2024, for a total of \$100,000 for the engineering and design costs for a reserve water tank. The costs of this project will not be known until the engineering and design is completed, so PBO recommends a CAR Reserve earmark in case the funding a different amount than currently estimated.

REQUEST #16: LOCKSMITH SUPERVISOR

REQUEST #18: LOCKSMITH

REQUEST #72: LOCKSMITH VAN

Program:	Security Division			
Fund/Fund#:	General Fund (0001)		Mandated Program:	No
	FY 2025 Request	FY 2025 Recommendation	FY 2026 Cost	FY 2027 Cost

Personnel	174,942	-	-	-
Operating	7,800	-	-	-
Subtotal	\$ 182,742	\$ -	\$ -	\$ -
Capital	324,264	-	-	-
Dpt Total	\$ 507,006	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 507,006	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD Security Division is requesting positions to support its locksmith program, which supports all County facilities.

Request #16: Locksmith Supervisor (\$98,924 ongoing, \$117,746 central capital)

FMD is requesting the addition of a Locksmith Supervisor to oversee the two locksmiths currently working in the FMD Security Division. Currently, both locksmiths report directly to the Security Manager. The Department notes that the FMD Security Division’s locksmith staffing does not meet the needs of the number of facilities managed by the Department. As new facilities have been added, including the CFCF which has 1,100 secure locks that are managed by FMD, there have been no new locksmith staff added centrally to FMD. FMD notes further that their locksmith staffing is not comparable to other facility systems. FMD managed 54 buildings and has two locksmiths. TCSO operates one facility and has four locksmiths, Austin Community College runs eleven facilities and has four locksmiths, Hays County ISD has thirty-four facilities and two locksmiths, Austin ISD has 130 facilities and six locksmiths, and the University of Texas at Austin operates 290 facilities and has 22 locksmiths. This position, if added, would allow some workload to be shifted from the Security Manager and would allow better oversight of locksmith workorders. This request also includes capital funding for a locksmith van and radio equipment.

Request #18: Locksmith (\$83,818 ongoing, \$106,518 central capital)

As noted above, FMD notes that it is currently understaffed in locksmith positions for the number of facilities and parks it serves. This additional Locksmith position would bring the total number of locksmiths to three, and with the proposed supervisor above, the workload would be better managed across available staff. In addition to the personnel costs, this request also includes a mobile data computer, printer, and customized locksmith van.

Request #72: Locksmith Van (\$100,000 capital)

This request is to purchase an additional outfitted locksmith van for the Security Division for \$100,000. Currently the locksmith team in Security has one more employee than it has vehicles, requiring sharing of a vehicle and preventing the Department

from maximizing its staff time. With the addition of parks facilities to the locksmith team's workload, the need to be able to allow all staff access to a vehicle has become critical for efficiency.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is not recommending additional staff for the locksmith team in the Security Division in the FY 2025 Preliminary Budget given the availability of resources. SB 2 (86th Legislature) does not allow Commissioners to adopt a tax rate higher than 3.5 percent above the No New Revenue M&O rate plus required debt service without voter approval outside of specific eligible adjustments per statute. The FY 2025 Guidelines discussion with the Commissioners Court included an overview of cost drivers that will effectively take up projected ongoing revenue in the FY 2025 budget process. These cost drivers include county-wide compensation and benefits as well as contractual and other mandated/required expenditures as we know them. Additional data about locksmith requests, response time, or other performance measures would bolster this request in the future and could make it a higher priority for the limited ongoing resources that may be available in future fiscal years.

FMD worked with TNR to repurpose an available truck as a locksmith van, so this request was withdrawn.

REQUEST #17: SECURITY COORDINATOR - NIGHTS
 REQUEST #20: PHYSICAL SECURITY OPERATION CENTER OPERATOR
 REQUEST #21: MASS NOTIFICATION ADMINISTRATOR
 REQUEST #22: ELECTRONIC SECURITY COORDINATOR SENIOR
 REQUEST #23: ELECTRONIC SECURITY COORDINATOR

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	5.00	1.00	1.00	1.00
Personnel	388,369	74,669	74,669	74,669
Operating	9,760	1,700	500	500
Subtotal	\$ 398,129	\$ 76,369	\$ 75,169	\$ 75,169
Capital	193,313	-	-	-
Dpt Total	\$ 591,442	\$ 76,369	\$ 75,169	\$ 75,169
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 591,442	\$ 76,369	\$ 75,169	\$ 75,169

DEPT. SUMMARY OF REQUEST

The FMD Security Division is requesting several staff positions to meet the security needs of a growing County.

Request #17: Security Coordinator – Nights (\$75,169 ongoing, \$1,200 one-time)

This request will add a night shift coordinator to the Security Operations Center. This will ensure compliance with all standard operating procedures and ensure sufficient staffing levels during the night shift. This position will serve as a support for the Security Center Supervisor, ensuring seamless operations during non-standard hours.

Request #20: Physical Security Operations Center Operator (\$71,163 ongoing)

This request is for one additional Security Center Operator to optimize the current 24/7/365 Security Operations Center. The Security Division notes that each Security Center Operator should be monitoring no more than 16 cameras for no longer than 20 minutes at a stretch to ensure optimal performance. With over 3,000 camera feeds being monitored by the SOC, and the need to conduct other tasks including dispatching, emergency notifications and other tasks, SOC requires a minimum of three operators per shift. This additional staff person will allow the SOC to have sufficient staffing to maintain round-the-clock surveillance at the required staffing standards.

Request #21: Mass Notification Administrator (\$79,438 ongoing, \$2,000 one-time, \$11,399 central capital)

FMD Security Division is requesting a Security Training Coordinator/Mass Notification Administrator. This would be a new position title. The job of this position would be to assist the FMD Security Division Superintendent and the Security Division Manager to establish and maintain a certified Field Training Program for Guards and Senior Guards and coordinate plans for all Travis County facilities regarding Protective Action Building Plans, Mass Notification System, Evacuations Drills, Threat/Risk Assessments, Inclement Weather Plan, Building Information Card, and other Security planning projects as assigned. Currently

these duties are divided among several staff as needed, limiting the ability of the Division to proactively work on improving the project.

Request #22: Electronic Security Coordinator Senior (\$86,681 ongoing, \$1,200 one-time, \$10,900 central capital)

The FMD Security Division is requesting an Electronic Security Coordinator Senior. The Electronic Security System, which includes cameras and doors, has increased from 57 buildings to 72 buildings. In that time, the Electronic Security team has remained at just two staff. This has resulted in slower response times for addressing the workload, which includes repair/replacement of cameras, access control, programming, and maintenance of all equipment.

Request #23: Electronic Security Coordinator (\$80,418 ongoing, \$1,200 one-time, \$2,940 central capital)

Similar to the request above, this position would improve the response time and workload management of the electronic security team within the Security Division. This position would specifically focus on maintenance, allowing the other two coordinators to focus on response times to requests.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is recommending \$75,169 ongoing and \$1,200 one-time for a Physical Security Operations Coordinator – Nights to ensure that the PSOC facility is operating within all standard operating procedures and ensure sufficient staffing levels during the night shift. This is a priority position. However, Commissioners Court recently approved the creation of a Corporate Security Office, which is intended to centralize countywide security operations, which are currently diffused across FMD, ITS, and law enforcement offices like the Constables and the Sheriff’s Office. Funding to launch this office is included in the FY 2025 Preliminary Budget in the ITS budget. The specific business operations and structure of this Corporate Security Office is still pending and will require ongoing discussions to best determine how this Office should be structured, how law enforcement offices should or should not be incorporated, and what the strategic goals of this office should be. Based on these pending discussions, PBO is not at this time recommending additional significant changes to the Security Division’s composition or practices beyond the night shift position included here.

REQUEST #19: COLLIER BUILDING ADDITIONAL FIRE PROTECTION FUNDS

<i>Program:</i>	Maintenance and Repair Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	400,000	400,000	-	-
Dpt Total	\$ 400,000	\$ 400,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 400,000	\$ 400,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting additional funds for the Collier Building Additional Fire Protection project. In FY 2024, FMD received funding of \$1,679,150 to upgrade the Collier Building fire protection system with all necessary equipment to meet current National Fire Protection Association (NFPA) code requirements. The Collier Building is an old manufacturing facility that was converted to office space and a warehouse. The existing fire protection system has degraded and based on the assessment of a fire protection engineer, the Department proposed to replace the entire system and includes additional measures to meet NFPA code requirements. The components include:

- Fire Pump House;
- Fire Water Tank;
- Sprinkler System;
- Fire Hydrant sand piping;
- Fire Pump;
- Electrical Upgrades; and
- Building Upgrades.

The estimate for this project in FY 2024 was \$1,679,150. FMD anticipates that it will need additional funds totaling \$400,000 to complete this project in late fall of 2026. The Department anticipates it will run out of available funds in FY 2025 without these additional resources and will be unable to complete the project.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends additional capital resources of \$400,000 to ensure the Department has sufficient funds to complete this project. Collier is currently outside of code requirements and is a fire hazard, requiring 24/7 fire monitoring. Completing this fire protection system replacement is a critical county project.

REQUEST #24: INTERIOR DESIGNER SENIOR
 REQUEST #25: INVENTORY SPECIALIST
 REQUEST #26: WAREHOUSE INVENTORY SPECIALIST
 REQUEST #32: LEAD MOVER

<i>Program:</i>	Various			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Personnel	305,508	-	-	-
Operating	5,450	-	-	-
Subtotal	\$ 310,958	\$ -	\$ -	\$ -
Capital	11,880	-	-	-
Dpt Total	\$ 322,838	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 322,838	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting funding for the following new positions in the Planning, Design, and Construction (PDC) Division, the Administrative Division, and the Operations Division.

Request #24: Interior Designer Senior (\$91,012 ongoing, \$1,200 one-time, \$4,640 central capital)

FMD is requesting resources for an Interior Designer Senior position in PDC to support and assist with the workload. There is currently only one Interior Designer position that serves the entire County. The County has grown in the number of facilities it manages and the number of projects, renovations, and designs for existing and new offices needed on a day-to-day basis. This position will serve as a lead position to oversee, manage, direct and coordinate the selection, delivery and assembly of furniture assets, and oversee the contract of professional movers, ensuring the services are provided in timely manner to the satisfaction of Travis County departments elected officials and executives.

Request #25: Inventory Specialist (\$72,453 ongoing, \$1,200 one-time, \$2,940 central capital)

FMD is requesting an Inventory Specialist in the Administrative Division to support increased workload. This position would provide support with inventory processes, receipts, storage and security of assets including assigning assets to new and existing employees and surplus equipment. This position would act as purchasing liaison and work with vendors, suppliers, purchasing, auditors and financial to verify invoices and billing accuracy.

Request #26: Warehouse Inventory Specialist (\$72,453 ongoing, \$1,550 one-time, \$2,600 central capital)

FMD is requesting a Warehouse Inventory Specialist. FMD warehousing will be moving warehouse operations to a new, larger facility in the former Collier Evidence Warehouse space. The old facility on Smith Road was just over 18,000 square feet, while the new facility will be over 34,000 square feet, which FMD believes will result in an increase of inventory on hand and deliveries to the new facility maintained by FMD. Currently, there is one Shipping and Receiving Assistant for all operations of the warehouse. This single employee is responsible for maintaining warehouse operating stocks, managing and controlling accurate inventory, pickup and delivery of parts/custodial supplies, and keeping the warehouse open for mechanics to pick

up parts when necessary. With this one employee, the warehouse has no back up for illness, vacation, or other emergency absences.

Request #32: Lead Mover (\$71,090 ongoing, \$1,700 central capital)

FMD is requesting funding to establish a Lead Mover in the Operations Division. Currently, there is a two-member team of movers who operate without a leadership position in the field. A leadership role in the field would help manage the workload by accessing move work orders in the field for the day, coordinating with requestors to schedule the moves, and leading the completion of moves with all proper documentation. FMD is responsible for supporting all Travis County Departments with moving office furniture, pick up and transport of all fixed assets, and transport to the auction warehouse for assets that will no longer be used by the County. This position will help the Division meet its goal of closing out all move work orders within seven work days.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is not recommending funding for these requested positions in the FY 2025 Preliminary Budget. At time of budget submission, FMD had 48 vacancies, including several positions that are historically hard to fill such as the Plumber Master, which has been vacant for 1,619 days, an Electrician who has been vacant for 934 days, and several custodian positions that have been vacant for over 500 days. During the duration of these position’s vacancies, FMD has used contracted services to fulfill the jobs of these positions. While ideally all County positions would be filled, there may be some positions that are better suited to be contracted services based on historical trends and others that may be more viable to hire as full-time FTEs. PBO recommends that FMD review its vacancies to evaluate whether these long-standing vacancies are still the highest use for an approved FTE. After such an evaluation, FMD can then consider reclassifying some of these positions for priority positions that have been identified in the FY 2025 budget request, like the Interior Designer Senior, Lead Mover, and Inventory Specialist. The Department historically leaves between \$2 and \$3 million of vacancy savings at the end of each fiscal year and reclassifying positions to better suit which jobs could be both critical to improving operations and actually viable to fill would be a better utilization of funds.

For the warehouse inventory specialist, PBO agrees that the transition to a much larger warehouse space will not be maximized with the current limited warehouse staffing. The construction of the new evidence warehouse and the subsequent move of FMD warehousing to the vacated Collier space has not been completed yet and there are still various considerations related to the appropriate staffing and operating needs of these two spaces as they have transitioned. PBO recommends that this warehouse specialist position be included as a consideration in the ongoing discussions related to the utilization of these two spaces.

REQUEST #27: OPERATIONS DIVISION ADDITIONAL FUNDING

<i>Program:</i>	Custodial			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	60,000	37,000	37,000	37,000
Subtotal	\$ 60,000	\$ 37,000	\$ 37,000	\$ 37,000
Capital	-	-	-	-
Dpt Total	\$ 60,000	\$ 37,000	\$ 37,000	\$ 37,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 60,000	\$ 37,000	\$ 37,000	\$ 37,000

DEPT. SUMMARY OF REQUEST

Facilities Management is requesting an increase of \$60,000 in ongoing operating in the Custodial Services budget to address the increase in janitorial supplies due to inflation. The Department notes that the cost of disposable items such as paper towels, toilet paper, hand soap, hand sanitizer, and batteries have increased by approximately 20 percent in the last several years and there has been no commensurate increase in the budget for these supplies. In addition, since the COVID-19 pandemic, this Division has become responsible for purchasing and providing hand sanitizer dispensers and hand sanitizer in restrooms and public areas of County buildings. This is an additional responsibility that was not accounted for in the budget at any point and continues to incur added costs that the Department does not have the additional funding for.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends an ongoing increase of \$37,000, an approximately 20 percent increase over the existing custodial supplies budget, to account for the increased cost of supplies like paper towels, toilet paper, and other supplies. As staff have begun returning to offices with greater frequency, the impacts of these price increases are beginning to be felt by the custodial budget. The Department expended 99.8 percent of its operating budget in custodial services in FY 2023. In FY 2021, the custodial budget was reduced by \$28,633 as part of COVID-related central reductions to operating budgets countywide. This amount was not restored in the intervening budget processes. With more staff now returning to the office, it is appropriate to restore these resources and increase the budget beyond that amount to account for inflationary price increases. FMD custodial may also consider working with TNR to make long-term recommendations related to reducing the use of plastic and other non-reusable materials as the County prioritizes environmental goals in its strategic plan.

REQUEST #28: REAL ESTATE FUND FOR APPRAISALS AND DUE DILIGENCE

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	75,000	-	-	-
Subtotal	\$ 75,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 75,000	\$ -	\$ -	\$ -
Earmark Allocated	-	75,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 75,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 75,000	\$ 75,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Facilities Management Department requests funding for unexpected real estate items such as appraisals, due diligences, environmental assessments, and related costs. The Department notes these items often occur midyear and have associated fees, and unforeseen costs for which FMD does not have funding. While these costs can be internally funded up to a point, historically these costs have been taken from the Maintenance Division budget which pulls funding from other necessary functions.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends an earmark of \$75,000 on the Allocated Reserve for real estate fees in the FY 2025 Preliminary Budget. This earmark may be accessed for fees related to ad hoc real estate interests that are discussed with the Commissioners Court, that the Department cannot internally fund.

REQUEST #29: LEVEL III FMD SECURITY GUARD POSTS

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	12.00	-	-	-
Personnel	868,574	-	-	-
Operating	98,662	-	-	-
Subtotal	\$ 967,236	\$ -	\$ -	\$ -
Capital	89,460	-	-	-
Dpt Total	\$ 1,056,696	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,056,696	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting resources for 12 FMD Security Guard FTEs at Level III, which is armed security. Currently FMD uses a contracted security service, L&P Global, for armed security. This request would provide armed security through the County at strategic locations, replacing the contracted services. FMD notes that currently, the Department expends approximately \$1.2 million per year on contracted armed services. Currently, FMD does not have any Level III FTEs. The Department notes that county staff would likely provide better service for the County than the contracted staff and provide long-term cost savings, as staff are less expensive than contractors.

BUDGET REQUEST PERFORMANCE MEASURES

No performances measures were provided.

PBO RECOMMENDATION

PBO does not recommend additional funding for Level III Security Guards for the FMD Security Division. PBO recommends that FMD continue to conduct security assessments of facilities and make recommendations for armed security when necessary. If L&P Security is not sufficient to meet this need, there may be a need to recommend security coverage from law enforcement agencies like the Constables or TCSO at these facilities, which may require additional staff in those Offices for this purpose. This is aligned with current practices of the Department and County.

Commissioners Court recently approved the creation of a Corporate Security Office, which is intended to centralize countywide security operations, which are currently diffused across FMD, ITS, and law enforcement offices like the Constables and the Sheriff’s Office. Funding to launch this office is included in the FY 2025 Preliminary Budget in the ITS budget. The specific business operations and structure of this Corporate Security Office is still pending and will require ongoing discussions to best determine how this Office should be structured, how law enforcement offices should or should not be incorporated, and what the strategic goals of this office should be.

REQUEST #31: REFRIGERANT TRANSITION IN COUNTY HVAC SYSTEMS
 REQUEST #56: NED GRANGER BUILDING HVAC CHILLER MIGRATION
 REQUEST #65: CRIMINAL JUSTICE CENTER HVAC CHILLER MIGRATION
 REQUEST #83: HEMAN MARION SWEATT COURTHOUSE HVAC CHILLER MIGRATION

<i>Program:</i>	Maintenance and Repair Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	6,400,000	1,500,000	-	-
Dpt Total	\$ 6,400,000	\$ 1,500,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 6,400,000	\$ 1,500,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Request #31: Refrigerant Transition in County HVAC Systems (\$1.9 million capital)

FMD is requesting \$1.9 million in capital funding for the systemic replacement of refrigerant with high global warming potential with new refrigerants with low global warming potential. The goal is to substantially reduce the use of high GWP in County systems by 2030. The request states:

“Refrigerants are a significant source of GHG emissions in county operations that must be controlled to meet the Commissioners Court Net Zero Carbon Emissions Directive. Refrigerants are used in stationery heating, ventilation, air conditioning, and refrigeration (HVACR) systems and in mobile systems (MVACs) such as automotive and heavy equipment air conditioners. Refrigerants in current use by Travis County typically have anywhere from 1,000 to 4,000 times the global warming potential of CO2.

Project Drawdown, an independent, nonprofit, nongovernmental organization established to develop practical and effective solutions to reduce greenhouse gas emissions, has concluded on the basis of rigorous analysis that improved refrigerant management practices combined with conversion to low global warming potential (GWP) refrigerants represents the single most impactful strategy for reducing CO2 equivalent emissions for 2020-2050. Globally, using proper refrigerant management and servicing techniques, approximately 80% of refrigerants that would otherwise be released during the service life of stationary or mobile air conditioning systems can be contained, avoiding emissions equivalent to 57.8 Gt of CO2. Converting to low GWP refrigerants would be equivalent to avoiding another 43.5-50.5 Gt of CO2 over the same period.”

Request #56: Ned Granger Building HVAC Chiller Migration (\$1.5 million capital)

FMD is requesting \$1.5 million in capital funds to procure and install a new 250-ton chiller utilizing eco-friendly refrigerant. The new chiller will be more efficient and reliable equipment using the new 573 GWP refrigerant. The Commissioners Court has set requirements to transition to more environmentally friendly refrigerants.

Request #65: Criminal Justice Center HVAC Chiller Migration (\$1.5 million capital)

FMD is requesting \$1.5 million in capital funds to procure and install a new 300-ton chiller utilizing eco-friendly refrigerant in the Criminal Justice Center. The new chiller will be more efficient and reliable equipment using the new 573 GWP refrigerant. The Commissioner’s Court has set requirements to transition to more environmentally friendly refrigerants.

Request #83: Heman Marion Sweatt Courthouse HVAC Chiller Migration (\$1.5 million capital)

FMD is requesting \$1.5 million of capital funds to procure and install a new 250-ton chiller utilizing eco-friendly refrigerant in the Heman Marion Sweatt Courthouse. This is part of the overall plan to transition the County to more environmentally friendly refrigerants. This new chiller would be more efficient and reliable. The Commissioner’s Court has set requirements to transition to more environmentally friendly refrigerants.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends capital funds of \$1.5 million for refrigerant transition within the County, with the plan to prioritize the Criminal Justice Center HVAC migration. PBO understands that transitioning chillers to environmentally friendly refrigerants will increase reliability, reduce the potential for polluting emissions, and will bring the equipment into alignment with a requirement set by Commissioners Court. However, PBO has recommended that FMD work with TNR to develop a long-term phased plan, incorporating this transition plan as well as other energy efficiency priorities, to implement these various sustainability projects across county facilities.

The recently completed Facilities Condition Assessment has identified extensive deferred maintenance across the County, and this year PBO recommends prioritizing that deferred maintenance over other projects, both with regards to funding and with regards to FMD staff time. Thus, PBO is not recommending all requested chiller migrations and is instead providing funds for one project, with the intention that FMD continue to phase these replacements in over time.

REQUEST #43: PORTABLE ELECTRIC GENERATOR EQUIPMENT

REQUEST #44: PORTABLE HVAC CHILLER EQUIPMENT

<i>Program:</i>	Maintenance and Repairs			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	810,000	810,000	-	-
Dpt Total	\$ 810,000	\$ 810,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 810,000	\$ 810,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Request #43: Portable Electric Generator (\$420,000 capital)

FMD is requesting \$420,000 in capital resources to purchase a portable/mobile generator to provide emergency power to any County facility.

Request #44: Portable HVAC Chiller Equipment (\$390,000 capital)

FMD is requesting \$390,000 in capital funding to purchase a portable HVAC chiller. This portable/mobile unit will be used to provide emergency chilled water to any County Facility that utilizes chilled water for HVAC Cooling. This equipment will provide emergency cooling capability to the downtown County Campus Building Complex, the new Main Tax Office, and the critical Medical Examiner Office. Whenever a chiller fails and needs repairs, there can be several days to weeks before FMD is able to repair or replace the unit. In that time, either the facility must operate without the unit, which can be hazardous, or the County must rent a chiller at a significant expense. The proposed equipment would mitigate some of that cost.

BUDGET REQUEST PERFORMANCE MEASURES

Performance measures were not provided.

PBO RECOMMENDATION

PBO recommends \$420,000 in capital resources to purchase a portable generator. This type of equipment will provide the county with needed resiliency for potential power outages. In the last five years, Texas has experienced more power outages than any state. This portable generator will allow the County to provide power to critical facilities during such events. Several buildings are receiving or already have back-up generators, but these are fixed at specific facilities. Having portable equipment allows for flexibility during emergency situations or unexpected power loss at facilities that don't have a back-up generator.

In addition, PBO recommends \$390,000 for a portable HVAC chiller. When chillers break or need to undergo maintenance or repair, the County must rent a chiller to ensure that buildings can continue to safely operate. A chiller rental costs between \$10,000 and \$16,000 per month, and often this equipment must be rented for many months as replacement chillers can take

time to purchase and ship due to supply chain delays. For example, in the Juvenile Probation Department, the facility's chiller broke in May 2022 and the Department rented a chiller from that time until April 2024 while waiting for the appropriate equipment to become available, at a total cost of more than \$316,000. Having a portable chiller available would mitigate some of the costs associated with rentals. Currently, this equipment will be stored at the FMD warehouse with other equipment and will likely be moved to the Collier space once that facility is ready to be fully converted to FMD warehouse space. PBO requests that FMD verify this plan and ensure that all storage plans for this equipment will be sufficient to ensure that the equipment is usable and in good condition throughout its useful life.

REQUEST #33: LANDSCAPING AND GROUND MAINTENANCE – VARIOUS FACILITIES

REQUEST #74: GROUNDS WOODCHIPPER AND DUMP TRAILER

<i>Program:</i>	Groundskeeping			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	185,000	-	-	-
Subtotal	\$ 185,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 185,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 185,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting additional ongoing resources of \$160,000 to acquire services from vendors for the landscaping and grounds maintenance, including irrigation services, for various county facilities. These contracted vendor services supplement the work done by county grounds staff.

In addition, FMD is requesting funding for a woodchipper machine and a dump trailer with a ramp gate and an automatic winch or lift. The woodchipper will be used to chop up the enormous amount of brush and tree limbs and branches into mulch that will be used in flower and shrub beds and around shrubs and trees. The Department states the use of the woodchipper could eliminate an approximate \$3,000 per year expenditure to purchase mulch material.

The Department is also requesting funding for a dump trailer to assist the grounds crew in removing trash and junk dumped on county properties. The proposed dump trailer would have a winch and liftgate which will minimize the physical contact crews have with the trash and junk. Large furniture items and appliances can be pulled into the dump trailer bed, transported to the landfill and the trailer bed automatically lifted to dump the items.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is not recommending additional ongoing resources for landscaping and ground maintenance contracted services. Facilities Management Department performs custodial, security, and maintenance services with a mixture of in-house staff and contracted employees. While over time, it may be feasible to move some groundskeeping services to a similar mix by adding additional funds, at this time PBO continues to recommend that FMD work with PBO to utilize vacancy savings for these contracted services when they are necessary. Historically, FMD has left between \$2 million and \$3 million in vacancy savings from positions that are not filled throughout the year. PBO has supported FMD using some of these vacancy savings when utilizing contracted services for jobs that would otherwise be performed by positions that are vacant. PBO would support FMD using this approach to support contracted grounds maintenance on an ad hoc basis when the staffing is not sufficient to meet all needs.

PBO is also not recommending additional groundskeeping equipment for FMD at this time. PBO noted in the prior year's request that the Department should consider working with TNR to develop a strategy to share existing equipment, which exists in the TNR fleet. The Department has noted that this type of collaboration is not possible, without providing further detail. If purchasing this equipment is priority for the Department, PBO recommends using internal resources to buy the equipment.

REQUEST #34: BCP WILSON PARKE BUILDING – PHYSICAL SECURITY OPERATIONS CENTER SATELLITE LOCATION

REQUEST #77: BCP WILSON PARKE BUILDING – SECURITY GUARD POST

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	9.00	-	-	-
Personnel	652,718	-	-	-
Operating	241,360	-	-	-
Subtotal	\$ 894,078	\$ -	\$ -	\$ -
Capital	41,932	-	-	-
Dpt Total	\$ 936,010	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 936,010	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Facilities Management Security Division is proposing creating a redundant security operations center at BCP Wilson Parke which will act as a backup to the primary operations center located at 700 Lavaca. This request is for funding to refurbish the Wilson Parke building to make it functional as a backup facility, including one-time capital costs of \$232,000 for needed law enforcement equipment and \$19,840 for needed ITS equipment. FMD notes that a redundant security operations center would be needed in the case of potential catastrophic failures at the primary site located at 700 Lavaca. Additionally, it anticipates the exigency of swiftly activating the secondary site during emergency situations, such as inclement weather, active shooter incidents, or other unforeseen emergencies necessitating immediate staffing. This secondary site would mirror the capabilities of the primary location, equipped with comprehensive monitoring and dispatching functionalities.

BCP Wilson Parke currently has 24/7/365 security coverage through contracted services at an estimated annual cost of \$243,000 a year. As this facility is utilized and built out, FMD is requesting a full security guard post at this facility utilizing FMD armed security, which is a post of 9 FMD Security FTEs at an ongoing cost of \$662,078 and one-times costs of \$22,092 for related capital equipment for the staff. FMD notes that due to the remote nature of this facility, it has seen issues of wire/copper theft and vandalism which have totaling over \$500,000 in damages.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided for this request.

PBO RECOMMENDATION

PBO’s recommendation related to space allocation for General Fund programs at the Wilson Parke building is pending additional discussions with the County Attorney and County Auditor’s Office to better understand the ramifications of allowing programs that are not related to the Preserve to be housed in the building, as there are taxing and financial issues that must be addressed before going forward with a final tenant slate for the facility.

In addition, PBO notes the Architectural and Engineering design phase to complete site plans and phase one building design for the Park West facility is funded in the Facilities Management Department, with a plan that includes space for TNR Parks,

Parkland Management, and Park Rangers. Before additional plans for this space are recommended, PBO would like to better understand the implications of these changes relating to the already-approved Parks West design, including the cost-difference between the two proposals. Facilities has indicated these discussions are forthcoming, but not yet complete.

Similarly, PBO does not recommend a full FMD Security Guard post for BCP Wilson Parke. The area is currently patrolled by L&P Security contracted guards. As this space is more utilized and plans are built out, PBO will work with FMD to reconsider if it is more appropriate if this space is patrolled by FMD staff.

REQUEST #36: SECURITY DISPATCH RMS SOFTWARE

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	66,000	-	-	-
Subtotal	\$ 66,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 66,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 66,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting \$66,000, including \$64,680 in ongoing costs and \$1,320 in one-time costs, to procure and implement a security dispatch and records management software. This software would serve as a centralized hub for managing and documenting all security incidents, maintaining records of future reference and analysis. Security staff would be able to input dispatch requests and incident reports directly into the system, and the system would allow staff to use GPS tracking to provide real-time tracking of all security vehicles. The Security Division notes that this would bolster safety by enabling swift responses in case of emergencies but also optimizes resource allocation and enhances overall operational effectiveness.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

The current software the FMD utilizes for this purpose is no longer supported as the cloud security storage of the prior vendor was moved out of the country, which does not align with Travis County security standards. FMD used internal resources to allow Purchasing to start to procurement process for this software and one year of funding is covered by the available FY 2024 internal funds. Future ongoing funding for this software will be included in the FY 2026 budget request.

REQUEST #40: CRIMINAL JUSTICE CENTER BACKUP GENERATOR

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	3,600,000	3,600,000	-	-
Dpt Total	\$ 3,600,000	\$ 3,600,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 3,600,000	\$ 3,600,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting funds of \$3.6 million to purchase a replacement emergency back-up generator at the Criminal Justice Center Facility Complex. This new generator would be a natural gas generator for improved environmental safeguards.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$3.6 million in capital funds to replace the backup generator at the Criminal Justice Center. The current backup generator for the Criminal Justice Center is 24 years old and is beyond its useful life expectancy of 20 years per industry standards. The existing equipment has become increasingly unreliable. Having a functional reliable emergency generator at this facility is critical as it houses the Court system.

REQUEST #45: KRISTIN E. MCLAIN STARFLIGHT HANGAR DOOR REPLACEMENT

REQUEST #P6: KRISTIN E. MCLAIN STARFLIGHT RELOCATION NEW FACILITY

<i>Program:</i>	Various			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	6,560,000	560,000	-	-
Dpt Total	\$ 6,560,000	\$ 560,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 6,560,000	\$ 560,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting resources to replace the older hangar doors at the Kristin E. McLain Building, which houses Starflight. Measures were taken at least ten years ago to upgrade and extend the life of the older doors but now the doors are no longer reliable and require repair about every 6 months. When a door does not work it causes a disruption to service while the door is being repaired. This happens about every 6 months. These doors are past their useful life and are not reliable. Starflight is an emergency service and must have reliable hangar doors to provide timely lifesaving services.

In addition, Starflight has outgrown its existing facility and does not have enough space to meet current needs. The building cannot be added on to due to site restrictions due to size. The existing site was once in an undeveloped part of the city, but is now surrounded by developments on all sides, making take offs and landings more treacherous. Starflight has been working with FMD and Economic Development and Strategic Planning (PBO-EDSI) to identify possible areas to relocate Starflight to in the long-term. This request is for resources related to a possible relocation, though it is unclear where such a location would be or what extent of design and construction would be necessary.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$560,000 to replace the two older hangar doors in the Kristin E. McLain Building used for Starflight. These doors are past their useful life. When these doors break, the helicopters cannot be moved inside the space, leaving them exposed to the elements and causing a work disruption. The doors are a safety hazard. There has been a temporary solution in place to keep the doors minimally functional, but the replacement is necessary. Though Starflight is planning to move from this facility, the timeline for that move is too long to allow delaying the door repairs.

PBO is not recommending funds for the potential move to a new Starflight facility. It is unknown at this time when or where Starflight will relocate to as FMD, Emergency Medical Services, and PBO-EDSI are still in the process of evaluating spaces. It

is unclear if whatever new location will require renovation or be move-in ready, and ultimately the total cost is unknown. In addition, if any of this project can be considered eligible for certificate of obligation (CO) funding, there may not be a need to utilize General Fund resources for this facility. PBO will continue to work with FMD to determine if this can be added to the planned list of projects to be funded from COs before this list is finalized in spring 2025.

REQUEST #46: FREEZE PROTECTION UPGRADES – VARIOUS FACILITIES

<i>Program:</i>	Maintenance and Repair Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	1,500,000	1,500,000	-	-
Dpt Total	\$ 1,500,000	\$ 1,500,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,500,000	\$ 1,500,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for resources to upgrade freeze protection systems at various County facilities. These upgrades will help preclude freeze damage of building equipment and building popping systems.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$1.5 million in capital funding to upgrade the freeze protection systems at priority County facilities. As climate change has made inclement weather events more unpredictable and frequent, implementing preventative strategies to protect facilities from damage is a prudent investment. This will be a phased project to install freeze protection at priority county facilities.

REQUEST #47: EXECUTIVE OFFICE BUILDING WATER LEAK DETECTION SYSTEM

REQUEST #48: RONALD EARLE BUILDING WATER LEAK DETECTION

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	50,000	50,000	50,000	50,000
Subtotal	\$ 50,000	\$ 50,000	\$ 50,000	\$ 50,000
Capital	190,000	190,000	-	-
Dpt Total	\$ 240,000	\$ 240,000	\$ 50,000	\$ 50,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 240,000	\$ 240,000	\$ 50,000	\$ 50,000

DEPT. SUMMARY OF REQUEST

The Maintenance and Repairs Divisions is requesting resources to install Automated Leak Detection Systems at two buildings, the Ronald Earle Building (\$140,000, including \$30,000 ongoing) and the Executive Office Building (\$100,000, including \$20,000 ongoing).

This automated Water Leak Detection System is currently in use at the County newly constructed Civil Family Courts Facility. The System entails the installation of electronic “wireless” detection sensors at the building water piping infrastructure. In the event of a rupture or failure in the piping, the sensor will alarm the Maintenance and repairs Division (MRD) of this event. Early detection of a water failure will provide the MRD adequate time to employ corrective measures and preclude major interior facility damage. The Leak Detection System is intranet “cloud based” and accessible to the Department at and away from the County Offices.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$240,000 in one-time funding and \$50,000 ongoing funding for water leak detection systems at the Ronald Earle Building and the Executive Office Building. These cloud-based leak detection systems will alert FMD staff of water pipe ruptures or failure, allowing them to quickly mitigate issues and help prevent future possible damage to buildings. With an acceleration of inclement weather events in the area, investing in installing these tools in County facilities will help preclude water damage that may otherwise arise.

REQUEST #49: BUILDING AUTOMATION SYSTEM HVAC CONTROLS – WATER SOURCE HEAT PUMP SYSTEMS
 REQUEST #52: CRIMINAL JUSTICE CENTER – CHILLER PLANT BUILDING AUTOMATION SYSTEM UPGRADE
 REQUEST #53: EAST SIDE SERVICE CENTER – NEW BUILDING AUTOMATION SYSTEM
 REQUEST #54: TASBO BUILDING – NEW BUILDING AUTOMATION SYSTEM
 REQUEST #57: GAULT BUILDING – BUILDING AUTOMATION SYSTEM
 REQUEST #59: 502 HIGHLAND MALL – BUILDING AUTOMATION SYSTEM
 REQUEST #64: BUILDING AUTOMATION SYSTEM ASSISTANT

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Dpt Total + Earmarks	\$ 2,195,438	\$ 1,708,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting capital resources for various new Building Automation Systems (BAS) or BAS upgrades. Without a BAS, HVAC equipment is operated and controlled manually. New HVAC BAS allow the automatic control of equipment for the space cooling and heating of the facility. The new BAS will maintain and control the facility HVAC space temperatures set points, HVAC equipment operating schedule, alarms, and diagnostics.

Request #49: Building Automation System HVAC Controls – Water Source Heat Pump Systems (\$450,000 capital)

This is a request for capital funds of \$450,000 to install an HVAC Building Automation System in the Collier, Post Road, and Palm Square Facility Central Plant locations.

Request #52: Criminal Justice Center – New BAS (\$108,000 capital)

This is a request for capital funding of \$108,000 for an HVAC BAS in the Criminal Justice Center building.

Request #53: East Side Service Center – New BAS (\$600,000 capital)

This is a request for capital funding of \$600,000 to add a BAS to the East Side Service Center.

Request #54: TASBO Building – New BAS (\$400,000 capital)

This is a request for \$400,000 of capital funding to add a BAS in the TASBO Facility.

Request #57: Gault Building – New BAS (\$300,000 capital)

This is a request for \$300,000 of capital funding to add a BAS to the Gault Building.

Request #59: 502 Highland Mall – New BAS (\$250,000 capital)

This is a request for \$250,000 of capital funding to add a BAS to the 502 Highland Mall Building.

Request #64: Building Automation System Assistant (\$84,498 ongoing, \$2,940 central capital)

In addition to the new Building Automation System requested above, FMD is requesting a Building Automation System Assistant to help the Building Automation Specialist currently in MRD.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends the following capital funding for Building Automation Systems:

<i>Request Number</i>	<i>Building</i>	<i>Cost</i>
49	Collier, Post Road, and Palm Square Facility Central Plant locations	\$450,000
52	Criminal Justice Center	108,000
53	East Side Service Center	600,000
57	Gault Building	300,000
59	502 Highland Mall	250,000
Total Funding Recommended for BAS		\$1,708,000

PBO is not recommending \$400,000 in capital funding for a building automation system in the TASBO building. This building is on the Gardner Betts Juvenile Probation campus. Juvenile Probation has been working to develop a comprehensive facility plan for this campus, and the current plan includes replacing the TASBO building with a new facility. This plan has not progressed past the proposal phase and has not yet been approved by Commissioners Court, and has no associated funding, but while this plan is under consideration, PBO is not recommending significant investments in these buildings beyond what is needed to maintain operations.

In addition, PBO is not recommending a Building Automation System Assistant in the FY 2025 Preliminary Budget. The existing Building Automation System Specialist position had been vacant for 1,619 days prior to being filled in March 2024. To provide assistance to this position, PBO recommends that FMD consider reclassifying one of the vacant Building Maintenance Worker positions to a BAS Assistant, if it makes business sense to do so and is a priority.

REQUEST #51: 700 LAVACA COMMISSIONERS COURT HVAC HEPA FILTER UPGRADE

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	720,000	-	-	-
Dpt Total	\$ 720,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 720,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting \$720,000 of capital funding for design and construction to procure and install HEPA filtration in the existing 700 Lavaca Commissioners Court venue HVAC system. The added filtration system will provide improved indoor air quality for the public and staff working in this space.

BUDGET REQUEST PERFORMANCE MEASURES

Performance measures were not provided.

PBO RECOMMENDATION

PBO does not recommend \$720,000 in capital funding to install HEPA filters in the Commissioners Court venue. PBO recommends that FMD gather additional information and data regarding the air quality of this space to demonstrate a need to better understand whether the installation of HEPA filters should be a priority in this space.

REQUEST #55: BUILDING EQUIPMENT RENEWALS
 REQUEST #7: 700 LAVACA BUILDING ELEVATOR MODERNIZATION
 REQUEST #38: 700 LAVACA BUILDING HVAC CHILLERS
 REQUEST #41: CRIMINAL JUSTICE CENTER PENTHOUSE HVAC FINAL PHASE
 REQUEST #42: CRIMINAL JUSTICE CENTER POST 1 AND 2 HVAC UNITS
 REQUEST #50: 700 LAVACA HVAC ZONE UNIT REPLACEMENT FY 2025 PHASE
 REQUEST #60: 502 HIGHLAND MALL – NEW FIRE ALARM SYSTEM
 REQUEST #71: MANOR COMMUNITY CENTER – ELECTRIC HOT WATER BOILER

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-

Dpt Total + Earmarks	\$ 48,150,000	\$ 30,050,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting \$33,100,000 in capital resources to fund the replacement of building equipment that has been identified in the Gordian Company Master Condition Assessment Report as needing replacement. This request focuses on replacing and updating electrical/lighting, fire alarm systems, and mechanical piping systems that are due for renewal in FY 2025 or were due for renewal in FY 2023 and FY 2024.

The funding request proposes renewing equipment at the following facilities:

- 2501 South Congress (Bank of America Building)
- 700 Lavaca
- 5501 Airport Boulevard Building
- Blackwell-Thurman Criminal Justice Center
- Collier East Command – Manor
- East Service Center – Fleet Building
- Executive Office Building
- Gault Building
- 502 East Highland Mall
- Keith Ruiz Building
- Kristen McLain Building
- Ned Granger
- North Community Center Pflugerville

- Palm Square
- Precinct 3 – Oak Hill
- Ray Martinez
- Richard E. Scott
- Smart Building A & B
- Sobering Center

The itemized Systems cost is:

- Electrical/Lighting = \$14,100,000
- Fire Alarm = \$16,000,000
- Mechanical Piping = \$3,000,000

Along with the deferred maintenance requests identified above, FMD is also requesting replacement or repairs for specific items or systems that were identified as part of the facilities assessment.

Request #7: 700 Lavaca Building Elevator Modernization (\$160,000 capital)

FMD is requesting capital funds of \$160,000 to hire a design consultant and contractor to prepare design documents and make repairs to structural items in the 800 Lavaca Parking Garage stairwells. This will also provide the County with an updated garage structural report. An engineer has visually inspected the parking garage multiple times, but in order to proceed with recommended repairs, the Department needs to hire an engineer contractor to complete the necessary documents, and then hire a contractor to actually complete the needed repairs. The Department estimates that the design portion will cost \$30,000 and the construction portion will cost an estimated \$130,000. This item was included in the facilities assessment as a current replacement need.

Request #38: 700 Lavaca Building HVAC Chillers (\$2.4 million capital)

FMD is requesting \$2.4 million in capital funding to upgrade the AC chillers at the 700 Lavaca building with energy efficient chillers. The 700 Lavaca Building has two 500-Ton Centrifugal AC Chillers that serve as the primary source of cooling for the entire 700 Lavaca Facility. The Department notes that the existing chillers have become increasingly unreliable. In the years of 2023 and 2024 both AC Chillers sustained major rotational failure and oil/refrigerant leak disrepairs. This incident caused an emergency that resulted in the rental of portable AC Chillers for an extended length of time. The Department notes that the replacement chillers would be more electrically efficient and result in substantial demand load electrical cost savings and ultimately be more environmentally friendly. Replacing these items was included as part of the facilities assessment as a current replacement need.

Request #41: Criminal Justice Center Penthouse HVAC Final Phase (\$1.1 million capital)

FMD is requesting \$1.1 million in capital funding to provide new HVAC service to the CJC Courts. This item was included in the facilities assessment as a current replacement need. This also represents the final phase of a HVAC project at this location that was already in progress.

Request #42: Criminal Justice Center Post 1 and 2 HVAC Units (\$2 million capital)

FMD is requesting \$2 million in capital funding to replace the Criminal Justice Center HVAC units at Posts 1 and 2 correctional cells for the Courts. This item was included in the facilities assessment as a current replacement need.

Request #50: 700 Lavaca HVAC Zone Unit Replacement FY 2025 Phase (\$4.4 million capital)

FMD is requesting funding of \$4.4 million for a new Variable Air Volume (VAV) Electric Space Heating system in the 700 Lavaca building. The existing system operates on an old HVAC system, which creates disunity in operations and service of the HVAC

control system. Conversely, the request states the new Electric Space Heating system will provide reliable HVAC heating controls using an electronic Speed Controller Regulator (SCR) to this County facility. The building heating system is comprised of 300 HVAC heating control units including electric heating elements.

This is the third phase of a planned three-phase project for a new HVAC Electric Space Heating system which began in FY 2022 and is planned to be concluded by the end of FY 2025. The request states the operation of the new HVAC Heating system will allow for optimum operation of the Air Handling Equipment and Central Cooling and Heating Plant along with full integration to the newly installed Building Automation System (BAS). This item was also included in the facilities assessment as a current replacement need.

Request #60: 502 Highland Mall – New Fire Alarm System (\$150,000 capital)

This is a request for \$150,000 in capital funds to install a new fire alarm system in the 502 Highland Mall building, which is currently fully occupied. This request is to install a new system to include a compatible microprocessor-based fire alarm panel with addressable devices. The proposal includes all initiating devices, such as pull stations, smoke detectors, heat detectors and duct detectors on each air handler unit to cover all three floors. This item was included in the facilities assessment as a current need.

Request #71: Manor Community Center – Electric Hot Water Boiler (\$300,000 capital)

This is a request for \$300,000 of capital resource to replace the existing natural gas HVAC water boiler with an electric water boiler. This item was included in the facilities assessment as a current replacement need.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

FMD worked with a consulting team over the last several years to develop a Facility Condition Assessment (FCA). In October 2023, the FCA findings were presented. The Assessment reviewed each County facility and determined the amount of deferred maintenance needed, any regulatory issues, functional needs, and identified capital improvements. It also assigned a facility condition index, or FCI, to each facility, which is a measure of condition and can serve as benchmark of condition over time. The FCI is a ratio of an assets needs/requirements due within five years divided by the asset’s calculated replacement value. It is expressed as a percentage and categorized into Excellent (less than 10 percent), Good, Fair, Poor, and Deficient (greater than 60 percent). The average FCI of all County facilities was 21 percent or fair.

The lower an Asset’s FCI value, the better the building’s overall condition is assumed to be.

The overall assessment found that the five-year needs for facilities, including all deferred maintenance and all upcoming five-year maintenance and repairs, was valued at just over \$212 million.

The systems identified in this request, listed above, are due for renewal in FY 2025, or were due for renewal in FY 2024 or FY 2023 according to the Gordian FCA. The report provided funding recommendations to maintain the average FCI of County

facilities, reduce the FCI to 10 percent (fair), or to fund three percent of the current replacement value (CRV) at an average five percent inflation rate, resulting in an estimated increase in the FCI. Below is a table detailing those funding scenarios:

<i>Funding Model</i>	<i>Average Annual Funding</i>	<i>Starting FCI</i>	<i>Ending FCI</i>
Funding to Maintain FCI	\$31.5m per year	21% (fair)	21% (fair)
Funding 3% of CRV at 5% Inflation	\$20.1m per year	21% (fair)	44% (poor)
Funding to Reduce FCI	\$37.1m per year	21% (fair)	10% (excellent)

The following requests that were included in the FY 2025 budget submission were also identified by Gordian as critically needing replacement:

<i>Request Number</i>	<i>Item</i>	<i>Cost</i>
7	700 Lavaca Building Elevator Modernization	\$4,700,000
38	700 Lavaca Building HVAC Chillers	2,400,000
41	Criminal Justice Center Penthouse HVAC Final Phase	1,100,000
42	Criminal Justice Center Post 1 and 2 HVAC Units	2,000,000
50	700 Lavaca HVAC Zone Unit Replacement Phase III	4,400,000
60	502 Highland Mall – New Fire Alarm System	150,000
71	Manor Community Center – Electric Hot Water Boiler	300,000
Total		\$15,050,000

The County has significant deferred maintenance across its facilities. Funding the full \$48,150,000 (\$33,100,000 standalone request and a total of \$15,050,000 for the seven individual critical requests listed above) that is requested for these projects may not be feasible in a single year, both due to funding limitations and due to the actual capacity of the Department to expend that amount in a fiscal year. Due to the nature of deferred maintenance, a phased approach will result in the County falling further behind in maintenance, as more projects will come up for replacement in FY 2026. However, such an approach may be necessary at least in the early years of developing a workplan based on the FCA.

PBO is recommending \$15,050,000 in capital funding for the seven prioritized projects listed above. These projects were identified by both FMD and the Facilities Assessment as priorities to improve critically deteriorating facility equipment. In addition, PBO is recommending a \$15,000,000 earmark against the CAR Reserve for other identified deferred maintenance. PBO acknowledges that there is a substantial amount of deferred maintenance countywide that needs to be addressed, including the renewals of electrical lighting, fire alarm, and piping systems. PBO recommends that FMD develop a prioritized plan to phase these projects in light of building utilization, criticality of repairs, and capacity of FMD staff. PBO would support FMD using some funds to hire outside project management to assist with executing this substantial project workload.

REQUEST #58: PALM SQUARE SCHOOL WASTEWATER LINE

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	500,000	-	-	-
Dpt Total	\$ 500,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 500,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting \$500,000 in capital resources to fund the construction repair of the interior and exterior main and branch wastewater line piping for the County Palm Square School Facility. Engineering drawings for this repair work were completed in FY 2023.

BUDGET REQUEST PERFORMANCE MEASURES

Performance measures were not provided.

PBO RECOMMENDATION

PBO is not recommending resources for the Palm Square School Facility in the FY 2025 Preliminary Budget. This construction will be required to make this an occupiable facility. However, plans for the Palm School are ongoing. Guided by community input, Travis County is working to reimagine the Palm School parcel in a way that maintains and balances the school’s cultural, historic, and market value. On June 27, 2023, the Commissioners Court approved a charge for the Palm School Steering Committee and on May 21, 2024, the Court approved the recommended slate for the Steering Committee. PBO will prioritize funding the construction for this interior and exterior main branch wastewater line closer in a future fiscal year, when the need to make the facility occupiable is more imminent.

REQUEST #61: UTILITY WORK VEHICLE – MRD ELECTRICAL STAFF

REQUEST #62: MRD MANAGEMENT VEHICLE

REQUEST #73: MOBILE DATA COMPUTERS FOR VEHICLES

REQUEST #82: GROUNDS CUSTODIAN VEHICLE

REQUEST #93: OFFICE POOL VEHICLE

Program:	Various			
Fund/Fund#:	General Fund (0001)		Mandated Program:	No
	FY 2025 Request	FY 2025 Recommendation	FY 2026 Cost	FY 2027 Cost

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 486,510	\$ 63,510	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD submitted various requests related to needed vehicle-related purchases.

Request #61: Utility Work Vehicle – MRD Electrical Staff (\$160,000 capital)

This request is to fund the procurement of a new Utility Work Vehicle for the Maintenance and Repair Division for \$160,000.

Request #62: MRD Management Vehicle (\$110,000 capital)

The request is to procure an SUV Unit for MRD Management for \$110,000. The unit will provide management the capability to respond to maintenance issues.

Request #73: Mobile Data Computers for Vehicles (\$63,000 one-time capital and \$5,000 ongoing operating)

This is a request from the FMD Security Division to purchase Mobile Data Computers (MDCs) for security vehicles utilized by the County. The Department notes that Travis County FMD Security is in the process of enhancing the Security Operations Center to respond to a variety of needs across the County and MDCs would provide the necessary tools for after-hours work orders and security related reports in an efficient manner. This request is for a \$63,000 one-time cost and a \$5,000 ongoing cost.

Request #82: Grounds Custodian Vehicle (\$85,000 capital)

This request is for the purchase of a new pickup truck for \$85,000 that will be used by the Grounds Custodian to travel to Travis County buildings/properties to clean parking garages, around the exterior of the building and parking lots. The Custodian that cleans the exterior property grounds currently does not have a vehicle to get to and from the different locations. The Custodian walks to the downtown buildings and only has access to a vehicle to travel to the other locations when one comes available. There is no dedicated vehicle for this position.

Request #93: Office Pool Vehicle (\$63,510 capital)

This is a request for a pool vehicle to be used by the Planning, Design, and Construction Team; the Electronic Security System Team; the Operations Team; the Maintenance and Repair Team; the Administrative Team; and the Director. These Teams travel to various County job sites and buildings throughout the County to conduct County business.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$63,510 for an additional office pool vehicle to be available for use by FMD staff. PBO is not recommending additional vehicles beyond this additional pool vehicle for the FY 2025 Preliminary Budget. The purpose of the office pool vehicles is to provide a vehicle to staff that may need a vehicle on an ad hoc basis, rather than daily as part of their regular job role. PBO is also not recommending mobile data computers in Security Division vehicles. Security radios are recommended for the Security Division, which will facilitate increased communication amongst FMD Security Staff. PBO recommends that FMD work with ITS to determine if Mobile Data Computers are the best option to meet the needs of FMD Security, or if a limited number of tablets or some other device could meet this need at a lower cost.

REQUEST #63: ASSET MANAGEMENT HARDWARE AND SOFTWARE

<i>Program:</i>	Various			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	88,000	88,000	88,000
Subtotal	\$ -	\$ 88,000	\$ 88,000	\$ 88,000
Capital	288,000	200,000	-	-
Dpt Total	\$ 288,000	\$ 288,000	\$ 88,000	\$ 88,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 288,000	\$ 288,000	\$ 88,000	\$ 88,000

DEPT. SUMMARY OF REQUEST

This is a request to procure and fund a new asset management system for \$88,000. The Asset Management System will consist of hardware and software components. This System will allow Maintenance management to maintain an accurate inventory of building equipment and worker tools. In addition, the Management System will provide Maintenance the ability to document mandatory Inspections of building equipment.

In addition, the Maintenance and Repair Division is requesting capital resources of \$200,000 to purchase what is known as “attic stock” inventory. This includes HVAC fan belts, motors, electrical relays, lighting components, and other inventory items that the Department likes to keep on hand to allow for quick repairs and replacement when necessary.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

The FY 2025 Preliminary Budget includes \$88,000 in ongoing resources for an asset management system to be utilized by FMD. After discussion with ITS and FMD, it was determined that FMD should work to procure its own system rather than expanding the scope of ITS’ work. This type of system is critical to maintaining the County’s physical assets, both by maintaining an accurate database of tools, equipment, and repair materials and by helping to manage the schedule of proactive repairs and inspections of equipment in facilities.

In addition, PBO is recommending additional capital resources of \$200,000 to purchase attic stock. These materials are needed to for regular maintenance and repairs and regularly replenishing this inventory is necessary to keep the Maintenance and Repair Division prepared.

REQUEST #66: PRECINCT ONE BUILDING PERIMETER FENCE REPLACEMENT

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 550,000	\$ 550,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting capital resources of \$250,000 to replace the perimeter privacy fencing around the Precinct One property. The Department notes that this fencing is severely dilapidated and is falling over in some areas. The Department has worked to provide repairs where possible, but MRD has identified that this fence can no longer continue to be repaired and needs replacement, to ensure the security of the property.

FMD is also requesting funding to building a new security perimeter fence around the Main Tax Office Nelda Wells Spears Building for \$300,000 in capital funding. Currently there is no security fence around the property. The Department notes that numerous trespassing and crimes have occurred on the property resulting in property damage and items stolen.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$550,000 in capital resources to repair or install perimeter fences at the Precinct One and Tax Office properties.

REQUEST #67: CIVIL AND FAMILY COURT FACILITY – SECURITY GUARD SHACK

REQUEST #68: EAST RURAL COMMUNITY CENTER GUARD POST

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	1.00	1.00	1.00
Personnel	71,953	71,953	71,953	71,953
Operating	50,000	-	-	-
Subtotal	\$ 121,953	\$ 71,953	\$ 71,953	\$ 71,953
Capital	5,440	5,440	-	-
Dpt Total	\$ 127,393	\$ 77,393	\$ 71,953	\$ 71,953
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 127,393	\$ 77,393	\$ 71,953	\$ 71,953

DEPT. SUMMARY OF REQUEST

FMD Security Division is requesting \$50,000 to install a security/parking guard booth in the Civil and Family Courts Facility (CFCF) parking garage. The Department notes that currently the parking enforcement staff that are assigned to that parking garage are subjected to extreme temperatures and elements with no protection.

FMD, in conjunction with HHS, is also requesting a security guard post FTE for the East Rural Community Center located in Manor. This guard post was originally funded midyear in FY 2024 using HHS vacancy savings for L&P Global contracted security hours for this area. This request would provide a full-time county FTE guard, from 8am to 5pm to allow security coverage during business hours.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

The FMD Security Division used internal funds in FY 2024 to install a guard shack at the CFCF, as this was a priority for the Department. No additional funding is included for that purpose in the FY 2025 Preliminary Budget.

PBO recommends ongoing funding for an additional security guard in the Security Division to provide a full-time guard post at the East Rural Community Center. This has been identified by Health and Human Services as a safety need and there have been various reported incidents at this location that warrant a security post. The Manor Community Center is located in an isolated area, and staff have reported incidents both inside and outside of the building that made staff and Community Center clients feel unsafe. The orientation of the space also makes it difficult for staff working in the Center to be able to monitor the entry points of the facility. Vacancy savings in the HHS budget were used midyear to hire contracted security through L&P Global, but this was an armed guard and FMD and HHS recommended that this level of security was not necessary for this location and an FMD security guard would be both more appropriate for a Community Center.

REQUEST #70: CRIMINAL JUSTICE CENTER STOREFRONT MAIN ENTRY REPLACEMENT

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	100,000	-	-	-
Subtotal	\$ 100,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 100,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 100,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request to replace and repair the existing doors, hardware, and access controls at the Criminal Justice Center (CJC) main entrance. The Department reports that the hardware on the doors is outdated and continuously failing, resulting in issues locking and securing the facility and multiple repairs in just the last two years. The doors are oversized, resulting in undue stress on hinges, automatic openers, and locking rods. This request would replace the doors with standard sized doors, modern access controls with key overrides, and needed door hardware.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

The FMD Security Division used internal funds in FY 2024 to replace and repair the CJC main entry, as this was a priority for the Department and the tenants of the CJC. No additional funding is required for that purpose in the FY 2025 Preliminary Budget.

REQUEST #P14: PFLUGERVILLE NORTH COMMUNITY CENTER HHS BACKFILL

REQUEST #P26: DEL VALLE COMMUNITY CENTER – LOADING RAMP

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	280,000	280,000	-	-
Dpt Total	\$ 280,000	\$ 280,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 280,000	\$ 280,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD worked with HHS to identify facilities needs at several HHS community centers.

Request #P14: Pflugerville North Community Center HHS Backfill (\$215,000)

This request is for the HHS Department to backfill the existing Women Infant Children (WIC) space which will require a minor renovation. The request also includes ITS scope to re-cable the remaining portion of the building to the new MDF room. The WIC space was vacated earlier in the fiscal year, and moving HHS staff into the space will allow more office area to better serve the community.

Request #P26: Del Valle Community Center – Loading Ramp (\$65,000)

FMD and HHS are requesting \$65,000 of capital funds to add a small loading ramp at the Del Valle Community Center to help with mobility at the food pantry. For safety and accessibility reasons, all community centers that accept and distribute large pallets of food should have a loading ramp.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends funding of \$215,000 in capital resources to provide for a backfill of the WIC space in the Pflugerville Community Center. The Pflugerville Community Center is undergoing construction to reconfigure existing space for both HHS and the Tax Office to alleviate programmatic challenges. Pflugerville is one of the fastest growing community centers, with demand for services having increased significantly in recent years. Building out the vacant space that was formerly occupied by WIC is part of the planned reconfiguration of this building to allow all tenants in this facility the space to best serve their clientele.

PBO also recommends \$65,000 of capital funds for a loading ramp at the Del Valle Community Center. This ramp will provide safer access to the food pantry and address safety and accessibility concerns.

REQUEST #75: WEATHERIZATION BUILDING – PARKING LOT DRAINAGE IMPROVEMENTS

REQUEST #76: 502 HIGHLAND MALL – PARKING LOT PAVING REPAIRS

REQUEST #P5: NELDA WELLS SPEARS BUILDING – PARKING LOT REPAIRS

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	1,685,000	1,685,000	-	-
Dpt Total	\$ 1,685,000	\$ 1,685,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,685,000	\$ 1,685,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Several facilities are contending with parking lot paving and drainage issues. The following requests are to address some of these identified issues.

Request #75: Weatherization Building – Parking Lot Drainage Improvements

This is a request for \$1,000,000 in capital funding to make stormwater drainage improvements to the Weatherization Building employee and work vehicle parking lot. HHS and FMD note that the employee and county vehicle parking lot floods during moderate to heavy rainfall, rendering the parking lot unusable until the stormwater recedes and requiring staff to find alternative parking.

Request #76: 502 Highland Mall - Parking Lot Paving Repairs

FMD is requesting \$500,000 in capital funding to repave and restripe the 502 Highland Building employee and client parking lot. The Department notes that the building parking lot has cracks in the asphalt surface throughout and potholes that have been patched but require continued repatching. Also, the small concrete pads in the roadway behind the building require repair. The current condition of the parking lot is permitting stormwater to leak between cracks in the asphalt which will cause further damage.

Request #P5: Nelda Wells Spears Building – Parking Lot Repairs

FMD is requesting \$185,000 in capital funding to repair the parking lot located at the Nelda Wells Spears Building. The Department notes that this parking lot is deteriorating and making repairs would provide a safer surface for employees and visitors and prevent further deterioration of that area.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$1,685,000 in capital funds to repair the Weatherization Building parking lot, the 502 Highland Mall parking lot, and the Nelda Wells Spears Parking Lot. The damage to the parking lots of these facilities is severe, and delaying the repairs could result in more extensive damage and be a safety liability for staff and Travis County visitors.

REQUEST #78: SIGNAGE – MISCELLANEOUS REPLACEMENTS

REQUEST #79: FURNITURE – MISCELLANEOUS REPLACEMENTS

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	75,000	50,000	-	-
Subtotal	\$ 75,000	\$ 50,000	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 75,000	\$ 50,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 75,000	\$ 50,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Each year, FMD works with County Offices and Departments to switch out signage, particularly for all Judges and elected officials and for all ad hoc requests that arise over the course of the year to provide clarity and ease of navigation at county facilities for employees and Travis County residents alike. This request is for \$50,000 ongoing to allow the Department to meet this need to upgrade, replace, modify, or provide new signage throughout the county annually.

Similarly, FMD is involved with switching out Judges’ and Elected Officials furniture, as well as making furniture changes or adjustments to departments and office on an ad hoc basis. This request is for \$25,000 ongoing to address this need each year and provide upgrade, replacement, modification, and new furniture across the county as the need arises.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends one-time funds of \$50,000 to support FMD is replacing signage across the County. PBO acknowledges that some years see FMD needing to provide more signage than others, particularly in election years when elected officials change and when new buildings come online. These one-time resources should be used for ad hoc signage requests throughout the year.

PBO is not recommending additional resources for furniture. Departments are responsible for including resources for furniture within requests for new positions and transferring budget to FMD to purchase the furniture. Unless these is an extensive request to replace large amounts of furniture due to age or damage, in which case a specific request should be submitted, most furniture should be replaced using budgets from departments and offices.

REQUEST #80: EMERGENCY SECURITY RADIOS

<i>Program:</i>	Security Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	2,712	2,712	-	-
Subtotal	\$ 2,712	\$ 2,712	\$ -	\$ -
Capital	217,288	217,288	-	-
Dpt Total	\$ 220,000	\$ 220,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 220,000	\$ 220,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request from the FMD Security Division to provide two-way radios to the equipment arsenal of FMD Security. This would equip every security guard and post with two-way radios, allowing for direct and immediate communication with the security operations center, which FMD notes would streamline communication, particularly during emergency situations that require coordination internally and with other public safety agencies.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is recommending funding for new radios for the Security Division. Allowing for direct communication between security posts and the security operations center will assist in the goal of better centralizing coordinated security. Law enforcement departments like the constable offices and the Travis County Sheriff’s Office rely on this type of equipment, and if FMD Security is to better coordinate with these offices, having access to radio equipment to facilitate easy communication will be critical. PBO encourages FMD to work with the newly formed Corporate Security Office to ensure this equipment’s use aligns with strategic goals.

REQUEST #84: EXPOSITION CENTER – ROOF AND INSULATION
 REQUEST #85: EXPOSITION CENTER – HVAC AND COOLING TOWER REPLACEMENT
 REQUEST #86: EXPOSITION CENTER – BUILDING OPERATIONS WORKER
 REQUEST #87: EXPOSITION CENTER - IMPROVEMENTS
 REQUEST #88: EXPOSITION CENTER – SECURITY GUARD POST
 REQUEST #89: EXPOSITION CENTER – ADDITIONAL OPERATING FUNDS FOR PMS
 REQUEST #90: EXPOSITION CENTER – FINANCIAL ANALYST
 REQUEST #91: EXPOSITION CENTER – REQUIRED MAINTENANCE EQUIPMENT

<i>Program:</i>	Expo Center			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	11.00	-	-	-

Total Earmarks	\$ -	\$ 9,030,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,497,934	\$ 9,030,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Request #84: Exposition Center – Roof and Insulation (\$5,430,000 capital)

This is a request for \$5,430,000 in capital funds to replace the existing roof of the Expo Center Arena. This will provide installation of proper insulation above the structure and demolition of the exposed ceiling insulation that is in bad repair. The work requested is critical for the Exposition Center Arena to remain an income generating property. A repair to the Arena roof and insulation was completed in FY 2023, however, only a portion of the insulation was repaired, and the remaining insulation is failing. The existing ceiling insulation is in bad condition, dirty and falling from the ceiling onto people which is a safety issue. This request will provide for replacement of the existing leaking, aged metal roof with insulated metal roof panels on top of the existing structure, exposing the structure inside for hanging event signage and items. A structural engineer will be engaged to evaluate the structure for how much weight and therefore thickness of the insulation can be added. Insulation must be at the roof level, not below as per the Texas Energy Code. The existing roof is past its life span as it is too worn to sustain continuously needed repairs for leaking.

Request #85: Exposition Center – HVAC And Cooling Tower Replacement (\$3,100,000 capital)

This is a request for \$3,100,000 to replace the Expo Center cooling tower and upgrade the arena’s air handler units. The Arena’s chiller was replaced in FY 2024, but the cooling tower and air handler are at the end of their life span. The new chiller depends on these two items operating appropriately.

Request #86: Exposition Center – Building Operations Worker

This request is to reclassify a Building Maintenance Worker Senior position to a Building Operations Worker to better meet the needs of the facility.

Request #87: Exposition Center – Improvements (\$997,000 capital)

This is a request for \$997,000 in capital funds for the most critical upgrades and improvements identified in the Expo Center. This request includes the following items:

<i>Item</i>	<i>Cost</i>
Arena door replacement	\$173,000
Skyline Club HVAC	138,000
Skyline Club Stairwell Renovation	78,000
Arena Paint (Exterior/Interior)	231,000
Banquet Hall Paint (Exterior)	58,000
Tree Trimming	50,000
Expo Office Renovation (Including HVAC)	269,000
Total	\$997,000

Request #88: Exposition Center – Security Guard Post (\$655,487 ongoing, \$7,200 one-time operating)

This request is for nine FMD Security Guard FTEs to accommodate 24/7/365 security coverage for the Travis County Exposition Center. FMD notes that there have been break-ins, theft of property, theft from vehicles, and property damage on this facility. Additionally, the MetroRapid Expo Center Line and Park & Ride is scheduled to begin service in 2025. The Park & Ride will likely attract additional traffic to the area, increasing the need to properly secure the facility.

Request #89: Exposition Center – Additional Operating Funds for PMs (\$40,000 ongoing operating)

This is a request for \$40,000 ongoing to perform annual planned maintenance on the Expo Center’s HVAC and refrigeration equipment. Much of the equipment has already been replaced or is scheduled for replacement in the near future. The additional operating funds for planned maintenance will help ensure the new equipment remains in good working condition. The Exposition Center intends to utilize outside vendors to complete all planned maintenance.

Request #90: Exposition Center – Financial Analyst (\$86,484 ongoing personnel, \$540 one-time operating, \$2,600 capital)

FMD is requesting an additional financial analyst to assist with the workload related to financial transactions at the Expo Center. The Department notes that FMD has five financial staff to manage the Department and its Special Revenue Fund, which have a combined budget of \$49,327,045, which includes a robust fee structure menu, complicated capital improvement projects, and a staff of 247 FTEs.

Request #91: Exposition Center – Required Maintenance Equipment (\$85,000 one-time operating)

This is a request for \$85,000 to purchase a floor scrubber and a scissor lift needed at the Expo Center. The floor scrubber is needed to maintain the cleanliness of the facility and the scissor lift is for performing planned maintenance and emergency repairs on HVAC equipment. Currently the Expo Center borrows this equipment from other Divisions, but the Department notes that this is not sustainable.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends an earmark of \$9,030,000 against the CAR Reserve for the following capital funds for priority projects at the Expo Center in the FY 2025 Preliminary Budget:

- \$5,430,000 for roof insulation repairs; and
- \$3,100,000 to replace the cooling tower and air handling units.
- \$500,000 for other prioritized improvements

These projects have been identified by both FMD and the Facility Assessment as critical needs to maintain this facility and continue to operate it safely. This recommendation is made in the General Fund because the Exposition Center Fund does not have sufficient budget to cover these expenses.

The Facility Assessment identified the Expo Center as one of the facilities in the worst condition, with an FCI of 59 percent, which is poor and approaching deficient. The Collaborative Northeast District Plan, now underway between PBO-EDSI and the City of Austin, is intended to determine the future of this site. Because there is an ongoing planning process, while there are many repair and upgrade needs at this facility, PBO does not recommend funding for the full scope of capital and operating funding that may be needed to fully improve the Expo Center campus in the FY 2025 Preliminary Budget. An earmark will provide an opportunity for the Commissioners Court to hear more about the challenges faced by the Expo Center before funds are allocated.

In midyear FY 2024, FMD used Reserve funds from the Expo Center Special Revenue Fund (0003) totaling \$500,000 to begin some prioritized repairs and upgrades, including improvements to the Skyline Club and the Arena HVAC. In light of this transfer midyear intended to start work on some of the projects requested for funding in this request, PBO is recommending an additional \$500,000 earmark on the CAR Reserve for FMD to prioritize other critical repairs it has identified rather than the full requested amount of \$997,000. The Expo Center has a remaining reserve of \$774,531. PBO will work with the Department to determine how best to utilize this reserve instead of or in conjunction with the CAR earmark.

PBO does not recommend additional positions for the Expo Center in the FY 2025 Preliminary Budget. As noted, the long-term plans for this facility have not yet been finalized and the decisions made through the East Austin planning process may impact the staffing needs of this facility. PBO recommends waiting for further direction on the future of this property before making additional investments in staffing. PBO supports the reclassification of the Building Maintenance Worker Senior to the Building Operations Worker as additional funds are not needed for this change.

REQUEST #92: 700 LAVACA BUILDING – DIGITAL CONFERENCE ROOMS

REQUEST #P9: 700 LAVACA BUILDING – 11TH FLOOR EARMARK FOR SMALLER SUITES

REQUEST #P10: 700 LAVACA BUILDING – EARMARK FOR TELEWORKING ANALYSIS FOR DESIGN AND CONSTRUCTION NEEDS

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	260,000	31,000	-	-
Subtotal	\$ 260,000	\$ 31,000	\$ -	\$ -
Capital	600,000	-	-	-
Dpt Total	\$ 860,000	\$ 31,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 860,000	\$ 31,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

These are various requests related to 700 Lavaca and the teleworking/adaptive workplace project.

Request #92: 700 Lavaca Building – Digital Conference Rooms (\$260,000 capital)

FMD is requesting \$260,000 in capital funds to put eleven conference rooms in 700 Lavaca on a digital scheduler and outfit four conference rooms with audio and video equipment to enable hybrid meetings. FMD notes that it has a team of two employees that organizes and schedules the 700 Lavaca conference room requests. This is a very time-consuming task confirming dates; times; duration of meetings, including set up and tear down; amount of people per room; parking validation tickets; media services; cancellations; re-scheduling if the meeting is bumped for another organization; and any other inquiries about the conference room features. If the conference rooms were on a digital scheduler, then all departments within the County would be able to reserve the rooms for themselves and it would make the process more streamlined.

Request #P9: 700 Lavaca Building – 11th Floor Earmark for Smaller Suites (\$200,000 capital)

This is a request for \$200,000 in capital funds to renovate a portion of the eleventh floor of 700 Lavaca, which is currently vacant, into smaller suites. Currently the floor is one large suite, and various County offices and departments have expressed an interest in having smaller suites available in this building.

Request #P10: 700 Lavaca Building – Earmark for Teleworking Analysis for Design and Construction Needs (\$400,000 capital)

This is a request for a \$400,000 capital for any design and construction needs that may arise from the ongoing telework adaptive workforce analysis being conducted by HRMD.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$30,000 in one-time funds and \$1,000 in ongoing funds for a conference room scheduling software/hardware solution. Currently, an FMD staff person must manually confirm all information to schedule share-use conference rooms at 700 Lavaca. This is a time-consuming process, and could be address with a technological solution, saving time and creating efficiencies for both the FMD staff and the Countywide staff who will have an easier time reserving rooms.

PBO does not recommend additional funds related to equipping and adjusting 700 Lavaca for telework in the FY 2025 Preliminary Budget. HRMD is working with PBO-EDSI on Phase III of the Adaptive Workplace Study, which will include a space evaluation to determine what adjustment should be made to space in 700 Lavaca to optimize the location for a hybrid work policy. Resources will likely be needed to adjust larger suites in hoteling spaces, install digital conference rooms, and provide other technology to facilitate long-term teleworking and hybrid work for many employees. The full scope of these needs should be evaluated and planned out, and receive approval from the Commissioners Court, before any changes are made to the existing space.

REQUEST #P1: HEMAN MARION SWEATT COURTHOUSE – RESTORATION AND RENOVATION

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	10,000,000	-	-	-
Dpt Total	\$ 10,000,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	10,000,000	-	-
Total Earmarks	\$ -	\$ 10,000,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,000,000	\$ 10,000,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for \$10,000,000 in capital funding to issue a Request for Quotation (RFQ) to hire an engineering and architecture team to provide design services for the historic Heman Marion Sweatt Courthouse restoration and renovation. This estimate is based on a current projection that construction costs for this restoration and renovation will be between \$100 and \$130 million.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends an earmark against the CAR Reserve of \$10,000,000 for the design services needed for this historic restoration and renovation. PBO-EDSI applied to a grant to the Texas Historical Commission’s Historical Courthouse Preservation Program for a multiyear plan to work with the Texas Historical Commission to develop design and engineering plans for this historic restoration. This grant request is for \$10,000,000 and it requires a county match of \$5,672,670. It is not yet known if the County will receive this grant. If it does, the \$10,000,000 in earmarked funds will instead be used for the match and the remainder will be released as an earmark. PBO-Budget will work with EDSI and FMD to adjust this earmark or eliminated it entirely and budget a grant match in the Department as needed should information regarding the grant award be received prior to publication of the FY 2025 Adopted Budget, and may opt to fund this with a certificate of obligation if possible.

REQUEST #P3: 5501 AIRPORT BOULEVARD – COUNTY CLERK ADDITIONAL CONSTRUCTION AND FFE FUNDS
 REQUEST #P27: 5501 AIRPORT BOULEVARD – LOBBY AND MAIN HALLWAY UPGRADE
 REQUEST #P32: 5501 AIRPORT BOULEVARD – COUNTY CLERK REMODEL REVISIONS

DEPT. SUMMARY OF REQUEST

Request #P3: 5501 Airport Boulevard – County Clerk Additional Construction and FFE Funds (\$744,000 capital)

FMD in conjunction with the County Clerk is requesting additional funds of \$744,000 in capital resources for construction and furniture, fixtures, and equipment (FFE) for the ongoing renovation of the 5501 Airport Boulevard to house an expansion of the County Clerk’s Office after the space was vacated by the Tax Office.

This project was originally funded in FY 2022 for \$3,445,000. The space had been vacated by the Tax Office and was proposed to be used by the County Clerk Elections Office. An additional \$1,027,000 was added in FY 2023 as supplemental funding for additional needed construction, security equipment, ITS services, audiovisual equipment, and additional FFE.

FMD notes that the proposed FY 2025 additional funds are needed in part because the construction schedule was delayed to work around the 2024 elections, and in that time construction costs have increased. In addition, the Department identified a need to replace the fire alarm system as the remaining portion of the system is outdated and cannot be updated.

Request #P27: 5501 Airport Boulevard – Lobby and Main Hallway Upgrade (\$87,000 capital)

FMD in conjunction with the County Clerk requests \$87,000 in capital resources to update the lobby and main hallway of the 5501 Airport Boulevard Building which houses the County Clerk’s Office. This facility has been under renovation since 2022, but this area of the building has not been included. FMD notes that the lobby and main hallway have low light levels, poor signage, and flooring that poses a tripping hazard. The work area for the security desk is also dilapidated and needs to be replaced to improve working conditions for the security guard. This request will provide paint, flooring, lighting and upgrade the security work area.

Request #P32: 5501 Airport Boulevard – County Clerk Remodel Revisions (\$392,000 capital)

FMD in conjunction with the County Clerk is requesting \$392,000 in capital resources to make revisions to the ongoing County Clerk remodel. The Departments note that the Elections Call Center was planned to be in a large open space near the front of the building, but this revision would move that space to a different area of the facility better suited to temporary staff and

allow the large space to be subdivided into offices for Elections Division permanent staff. These offices will have natural light providing a more suitable work environment year-round for permanent staff. County Clerk notes that this would allow supervisory staff to conduct confidential conversations with staff, provide offices located near each other which will foster better in person communications among staff members, and meet the requirements of the Elections Division current and future staffing needs.

In addition, this revision request includes converting the conference room into additional offices and creating a larger conference room space in another area of the building. As the number of Elections staff have grown, a larger space is needed. The current conference room holds 16 staff, but the supervisory team consists of 19 staff. There are 31 permanent Elections staff and hundreds of temporary staff, so a larger conference room would allow for better use of the facility. A breakdown of costs for this revision is below:

<i>Item</i>	<i>Estimated Cost</i>
Construction	\$322,000
ITS	30,000
Security	0
Moving	25,000
FFE	15,000
Total FY 2025 Request	\$392,000

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

Request #P3: 5501 Airport Boulevard – County Clerk Additional Construction and FFE Funds (\$744,000 capital)

Request #P27: 5501 Airport Boulevard – Lobby and Main Hallway Upgrade (\$87,000 capital)

PBO recommends \$774,000 in capital resources to complete the construction and outfitting needed for the County Clerk expansion into vacated Tax Office space. In addition, PBO recommends \$84,000 in capital resources to make needed repairs and upgrades to the main lobby of 5501 Airport Boulevard. This area has not been renovated along with the rest of the building and has experienced significant wear and tear, with paint and flooring becoming dilapidated.

Request #P32: 5501 Airport Boulevard – County Clerk Remodel Revisions (\$0)

PBO does not recommend additional funds to make revisions to the 5501 Airport Boulevard construction plan. The County has significant deferred maintenance needs for critical systems like fire alarms, electrical, HVAC and others that are being prioritized over non-critical office reconfigurations. In addition, construction on this project is already in progress and additional changes at this time would be significantly costly.

In addition, there is currently no process for the County to prioritize these types of office reconfiguration requests within wider County priorities, and FMD and PBO-EDSI are working to develop a system through which departments and offices can request such adjustments and be added to prioritization list. The construction to 5501 Airport Boulevard has been ongoing since 2022, and PBO recommends that FMD and the County Clerk work within the existing budget to make what changes are possible to the existing construction plan to make the space as effective as possible for the County Clerk.

REQUEST #P4: 800 LAVACA GARAGE – STAIRS STRUCTURAL REPAIRS

<i>Program:</i>	Maintenance and Repair			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 160,000	\$ 160,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for \$160,000 in capital funds to hire a design consultant and contractor to design needed documents and fund repairs for structural needs in the 800 Lavaca Parking Garage Stairwells. This will also fund a needed garage structural report.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$160,000 in capital funds for this needed design consultant and contractor for 800 Lavaca garage stair repairs.

REQUEST #P7: PRECINCT TWO BUILDING RELOCATION – PROPERTY EARMARK

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 5,000,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This request is to earmark funds for a potential property purchase to relocate the Precinct Two Office Building.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is not recommending funds for the potential move of Precinct Two to a new facility. It is unknown at this time when or where Precinct Two will relocate to as FMD, the relevant tenants, and PBO-EDSI are still in the process of evaluating spaces. It is unclear if whatever new location will require renovation or be move-in ready, and ultimately the total cost is unknown. In addition, if any of this project can be considered eligible for certificate of obligation (CO) funding, there may not be a need to utilize General Fund resources for this facility. PBO will continue to work with FMD to determine if this can be added to the planned list of projects to be funded from COs before this list is finalized in spring 2025.

REQUEST #P8: 700 LAVACA 11TH FLOOR FIRE MARSHAL OFFICE RENOVATION

REQUEST #P12: KEITH RUIZ BUILDING – TCSO RENOVATION OF VACATED FIRE MARSHAL SPACE

REQUEST #P28: 5501 AIRPORT BOULEVARD – TCSO 2ND FLOOR EXPANSION

<i>Program:</i>	Planning, Design, and Construction

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 936,000	\$ 270,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The following requests are all associated with a proposed move of the Fire Marshal Office to 700 Lavaca.

Request #P8: 700 Lavaca 11th Floor Fire Marshal Office Renovation (\$395,000 capital)

The Fire Marshal Office vacated their space in the Keith Ruiz Building (5555 Airport Boulevard) and have now requested to move instead to 700 Lavaca. The Fire Marshal’s Office notes that this would allow all Emergency Services staff to be within closer proximity of each other and would make for a more efficient workspace configuration. The Fire Marshal’s Office has already vacated their previous space at the Keith Ruiz building and have been temporarily housed in the Granger building. This renovation would include painting, flooring replacement, and electrical work to reconfigure data ports, for a total cost of \$395,000.

Request #P12: Keith Ruiz Building – TCSO Renovation of Vacated Fire Marshall Space (\$271,000 capital)

Facilities Management Department is requesting funding to remodel the space in the Keith Ruiz Building (5555 Airport Blvd) which has been vacated by the Fire Marshal. The space is proposed to be reconfigured for the expansion of the Sheriff’s Office, based on the current space needs of the Sheriff’s Office and their projected growth in FY 2025 and beyond. Specifically, TCSO notes that they have added additional detectives and supervisors in the last several years, stretching the capacity of the existing assigned TCSO space in Ruiz. The request states the expansion space would be beneficial to their working environment.

Request #P28: 5501 Airport Boulevard – TCSO 2nd Floor Expansion (\$270,000 capital)

FMD, in consultation with TCSO is requesting funds of \$270,000 to renovate space on the second floor of 5501 Airport for use by TCSO. Some renovation on this space was started in FY 2024 to allow for TCSO to house some of their new detectives. The funds requested will allow the space to be renovated to add offices, two interview rooms, a lobby, and a large conference room.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is recommending \$270,000 in capital funds to finish the renovation of the 2nd Floor 5501 Airport to make it usable by TCSO staff. Some renovation of this space was already started to house some new detective staff, but additional funds are needed to complete the work and make it a functional space for the additional TCSO staff.

PBO is not recommending funding for renovations or expansion related to the Fire Marshal's proposed move to the 11th floor of 700 Lavaca. This space has been informally and temporarily assigned, but not formally allocated to the Fire Marshal's Office by Commissioners Court. If this space is allocated to the Fire Marshal's Office by the Commissioners Court, PBO recommends that the Fire Marshal internally fund the minimal renovations needed to make the space functional for their operations. Considering the ongoing work to modernize space standards and to evaluate 700 Lavaca's space related to the Adaptive Workforce study, PBO does not support extensive renovations of this facility's office space prior to the completion of the series of work products to inform next steps.

PBO is also not currently recommending funds to renovate the former Fire Marshal's space at Keith Ruiz. This space has not been allocated to TCSO through the Commissioners Court and other groups are interested in and have requested expansion space for these spaces. Should this spaces be allocated to TCSO through the Commissioners Court, PBO recommends that TCSO work with FMD to use existing resources within TCSO's budget to make the minimal renovations needed to the space to make the area functional for TCSO's needs.

Currently, prioritization of funding related to facilities is focused on deferred maintenance, completion of projects already in the design queue and specific new facilities identified by Court. Renovation of spaces for non-critical, ad hoc office reconfigurations or renovations need to be minimal and funded internally by departments. In the recent past, these types of requests have been performed on a first-come, first-served basis based on requests from departments with no system in place for prioritizing critical funding resources. FMD and EDSI are working to develop a process through which these types of requests can be evaluated and prioritized within the larger context of county needs.

REQUEST #P11: USB – PUBLIC DEFENDER 1ST FLOOR RENOVATION – ADDITIONAL CONSTRUCTION FUNDS

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	650,000	650,000	-	-
Dpt Total	\$ 650,000	\$ 650,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 650,000	\$ 650,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for \$650,000 in capital resources for additional construction funds for the Public Defender’s Office renovation at the USB Building. This has been a multiyear project to house the Public Defender in the USB Building. The full project has been designed and actual costs and construction estimates are higher than originally budgeted due to necessary service upgrades, increased costs for design and permitting, and the general cost escalations in the construction market.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$650,000 in capital resources for additional construction funds to complete the Public Defender’s Office renovation in the USB Building. This has been a multiyear project and the construction funds that were allocated to it are not sufficient to complete the work based on increased costs.

REQUEST #P13: PFLUGERVILLE TAX OFFICE – ADDITIONAL CONSTRUCTION FUNDS

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 171,000	\$ -	\$ -	\$ -

DEPT SUMMARY OF REQUEST

This request is for additional funds for construction of the Pflugerville Tax Office Extension located at the North Community Center and Clinic in Pflugerville. The project has been designed and will be issued to bid. The original budget was established FY 2022, and construction costs have increased over the past two years.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO does not recommend additional funds for the construction for the Pflugerville Tax Office Extension in the FY 2025 Preliminary Budget. FMD has indicated that they will be draw on an existing FY 2024 CAR Reserve earmark prior to the adoption of the FY 2025 Budget and, once those funds are drawn on, additional funding will not be needed for this project.

REQUEST #P15: NELDA WELLS SPEARS BUILDING – 2ND FLOOR TAX OFFICE EXPANSIONS

REQUEST #P16: NELDA WELLS SPEARS BUILDING – STOREFRONT WINDOW REPLACEMENT

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 3,345,000	\$ 40,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD in conjunction with the Tax Office is requesting \$450,000 in capital resources to facilitate the design and begin the partial build-out of existing vacant space on the second floor of the Nelda Wells Spears Tax Office Building. These funds will be for Year One of what will likely be a multiyear renovation, and will start with design and permitting, as well as the modernization of an elevator to facilitate future construction.

The second floor of this facility has not been built out and was intended to serve as expansion space as the County and Office grew. The Tax Office is requesting to build out 40 percent of this space now, including HVAC for the entirety of the space, to address current needs. The Office notes that a portion of this build-out will be for a Motor Vehicle Department training space. Currently, training is conducted in the conference room which does not allow for easy continuous training as is required. In addition, the Office anticipates the need for additional inventory space related to changes from House Bill 718, which goes into effect on July 1, 2025, and will require the Office to keep metal licenses plates on premises for a yet unspecified period of time. The training space and the inventory space would be dedicated to the Motor Vehicle Department. In addition to this space for the Motor Vehicle Department, Tax Office proposes moving their IT staff to this renovated upstairs area, which would open up space on the lower floor for additional offices for supervisors to oversee staff.

FMD estimates that once design and permitting is completed, the full renovation of this space for the Tax Office would cost an estimated \$3 million.

In addition to this request to start the renovation of the second floor, FMD and the Tax Office are requesting \$2,895,000 to replace all the storefront windows on the first and second floor of the Nelda Wells Spears Building with double glaze insulating windows. The Tax Office notes that due to the orientation of the windows there is significant heat gain through these windows, making the space not energy efficient and occasionally uncomfortable for occupants.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO is not recommending resources to commence the partial renovation of the Nelda Wells Spears Tax Office facility at this time. Currently, prioritization of funding related to facilities is focused on deferred maintenance, completion of projects already in the design queue and specific new facilities identified by Court. Renovation of spaces for non-critical, ad hoc office reconfigurations or renovations need to be minimal and funded internally by departments. In the recent past, these types of requests have been performed on a first-come, first-served basis based on requests from departments with no system in place for prioritizing critical funding resources. FMD and PBO-EDSI are working to develop a process through which these types of requests can be evaluated and prioritized within the larger context of county needs.

In addition, the Tax Office anticipates changes to its Motor Vehicle Department operations based on changes related to House Bill 718, which goes into effect on July 1, 2025. This would likely require storage space for one to two years for an uncertain amount of metal license plates at the Tax Office facility. PBO's recommendation related to resources needed for HB 718 is pending additional discussions with the Tax Office and state regarding the ongoing requirements of this legislation. HB 718 mandates the transition to metal dealers and temporary plates and requires all dealers to utilize the webDEALER system for title transfers. The Tax Office plans to discuss the bill's precise impacts at the DMV board meeting on June 28. PBO believes further discussion is needed between the Tax Office, DMV, and PBO to have a clear understanding of HB 718's financial impacts and what, if any, facility changes may be necessary to accommodate storage for license plates or space for additional staff. PBO recommends the Office collaborate closely with the DMV to monitor developments and work with FMD to begin estimating facility adjustments that may be needed. PBO will prioritize resources for changes related to the impacts of HB 718.

PBO is also not recommending \$2,895,000 to replace all of the storefront windows on the first and second floor of the Nelda Wells Spears Building. PBO recommends that the Tax Office and FMD explore options for additional window covers or panels to mitigate the heat flow through these windows prior to discussions about funding a full replacement.

The FMD FY 2025 Preliminary Budget does include \$25,000 to build a wall within the existing Tax Office space to allow for more supervisor offices on the primary public-facing floor of the facility. In addition, \$15,000 is included for replacement furniture in Tax Office facilities that is outdated. These requests were submitted by the Tax Office and so were not included as FMD requests, but since FMD will need to coordinate with the Tax Office to complete these purchases, PBO has recommended that the funds are budgeted directly in FMD.

REQUEST #P17: TRAVIS COUNTY JAIL – TCSO BONDING RELOCATION

REQUEST #P18: GAULT BUILDING – TCSO ADMINISTRATION SUPPORT AND APD REVIEW RELOCATION

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Dpt Total	\$ 705,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 705,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The following two requests are both related to remodeling of TCSO spaces, in part or in whole to accommodate a new Counsel at First Appearance Magistrate Court that is in development. Both projects are contingent on each other.

Request #P17: Travis County Jail – TCSO Bonding Relocation (\$363,000 capital)

This request is to fund the remodel for TCSO Bonding Unit in the TCJ Building for \$363,000 in capital resources. This request will allow the new Magistrate Court and TCSO Bonding to have a better workflow by moving Bonding next door. This request is dependent on the APD Review’s relocation because that is the space that will be utilized for the bonding unit. This includes building walls, reception area with lobby, paint, carpet, electrical and ceiling fixtures.

Request #P18: Gault Building – TCSO Administration Support and APD Review Relocation (\$342,000 capital)

This request is for \$342,000 in capital funds for the remodel for TCSO Administrative Support and APD Review in the Gault Building. This will include building new offices, the holding/processing room, and a breakroom. This project is dependent on the TCSO Bonding relocation. This change would allow Administrative Support Supervisors to be located closer to the CJC lobby entrance, creating a safer workflow.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were included.

PBO RECOMMENDATION

The Travis County Sheriff’s Office FY 2025 Preliminary budget includes \$1,000,000 for these necessary renovations. TCSO will work with FMD to coordinate the renovations. Because TCSO has been program managing much of their facilities work internally, PBO determined that keeping this funding initially with TCSO would be the best way to manage the overall facilities project work that TCSO is undertaking and timeline the renovations in a way that makes sense within the context of other repairs.

REQUEST #P19: PRECINCT THREE BUILDING A – TRAINING ROOM AND CONSTABLE EXPANSION

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	651,500	-	-	-
Dpt Total	\$ 651,500	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 651,500	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This request is for \$651,000 in capital funding to build out vacant expansion space on the second floor of Precinct Three Building A for a Training/ Multipurpose Room with associated restrooms and storage and for office space for Precinct Three Constable staff.

Constable Precinct Three notes that a larger training/multipurpose room that can accommodate 20-30 individuals would serve their needs and there is currently vacant space intended as expansion space for County growth on the second floor of Precinct Three Building A. Along with a conference room for training, this buildout would provide cubicle space for five staff and associated restrooms and showers. The Constable Precinct Three Office notes that currently, staff must leave the campus for training. This space could also be used for other types of functions, which the Office currently holds at Church spaces. This space could also be used for emergency operations, allowing Constables to provide overnight backup, facilitated in part by the presence of the staff bathrooms and showers. A part of the space will remain vacant for future expansions.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO does not recommend funding to renovate the vacant expansion space in Precinct Three in the FY 2025 Preliminary Budget. The Precinct Three Constable’s Office has 31 FTEs and an annual training budget of \$17,200. In order to make efficient use of a dedicated training space, the Office would likely need additional funds for training to run more programming. Currently, the Office, like other Constable’s Offices, uses offsite training space or the training academy space operated by TCSO. In addition, creating a training space for Constable Three would create inequities between Constable Precinct Three and other Constables, as not all the Constables have expansion space available to create a dedicated training conference room.

Currently, prioritization of funding related to facilities is focused on deferred maintenance, completion of projects already in the design queue and specific new facilities identified by Court. Renovation of spaces for non-critical, ad hoc office reconfigurations or renovations need to be minimal and funded internally by departments. In the recent past, these types of requests have been performed on a first-come, first-served basis based on requests from departments with no system in

place for prioritizing critical funding resources. FMD and PBO-EDSI are working to develop a process through which these types of requests can be evaluated and prioritized within the larger context of county needs.

REQUEST #P20: 700 LAVACA BUILDING – 1ST FLOOR PRESS BRIEFING ROOM

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	100,000	100,000	-	-
Dpt Total	\$ 100,000	\$ 100,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 100,000	\$ 100,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for \$100,000 of capital funding to renovate a portion of the first floor of 700 Lavaca to provide a Press Briefing Room. Currently for press briefings and other media events, the Media team uses the multipurpose rooms on the first floor. These spaces are not outfitted with audiovisual (AV) and lighting equipment to facilitate a professional press space. Media Services has funding for AV and light equipment; the FMD request is for engineering services, mechanical, and fire sprinkler work to reconfigure the space to allow for the installation of the needed equipment.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$100,000 in capital funds to renovate space in 700 Lavaca to make it more functional as a Press Briefing room. This space, located near the first floor escalators, is not extensively used for other county purposes but, even after the renovation, it could still be used as a conference room or multifunction space if necessary. Media Services has already acquired the technology to renovate this space, and FMD needs to reconfigure some portions to make it functional. As the County takes on large projects that require significant public input and as the County works to improve its resiliency and emergency response processes, a dedicated media space will provide for greater efficiency and ease of access for media and residents alike.

REQUEST #P23: COLLIER BUILDING – TCSO EAST COMMAND FLEET BUILDING

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	700,000	700,000	-	-
Dpt Total	\$ 700,000	\$ 700,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 700,000	\$ 700,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

This is a request for \$700,000 in capital funding for a new Fleet Building at the Collier East Command building. This request includes planning, design, and construction of a new 2,960 square foot building to house armored vehicles.

Currently, TCSO armored vehicles are housed at East Command because the East Side Service Center does not have enough space to add a building for these vehicles. At East Command, these vehicles are stored under a metal parking canopy which does not provide enough coverage to prevent the corrosion to the surfaces of armored vehicles or sun and heat damage to windows. Some vehicles are covered with an additional tarp to protect the assets, but removing and resetting this tarp is dangerous for staff considering the height and width of the equipment. Corrosion to vehicles has to be mitigated through repairs. The request states in addition to providing safe storage for the armored vehicles, the new building will provide space for the fleet employees to maintain vehicles in an area out of the elements. The existing parking canopies do not provide enough cover for work to continue in harsh elements such as extreme cold and hot temperatures, high wind and blowing rain.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$700,000 in capital funding for the planning, design, and construction of a new 2,960 square foot building to house armored vehicles. Protecting Travis County assets like the armored vehicles used by TCSO is an important long-term investment for the County. Mitigating damage from the elements to these vehicles will likely result in cost savings and improved efficiency, as vehicles will be in better condition and be offline less for repairs related to rust and other damage. Similarly, this facility will mitigate risk to staff, who have had to work in exposed conditions and have had to risk injury when putting on and removing tarps and window shields from tall vehicles.

REQUEST #P24: WEST SERVICE CENTER CAMPUS – PHASE I CONSTRUCTION

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	4,120,000	4,120,000	-	-
Dpt Total	\$ 4,120,000	\$ 4,120,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 4,120,000	\$ 4,120,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting additional resources for the West Service Center Campus project. A master plan for this project was completed and architects have been hired to design the first phase of the work for a new 36,000 square foot fleet services building, two 6,000 square foot equipment storage buildings, and a temporary building to be used during construction. Currently construction is estimated to cost \$14,000,000. In FY 2022 and FY 2023, the funding listed below was included for earlier projected construction phases, utility construction and fleet facility construction projections. FMD’s current estimate of \$14,000,000 for total construction includes the totals already budgeted in the Department, meaning the additional funds needed to have a complete construction budget based on current estimates is \$4,120,000.

<i>Fiscal Year</i>	<i>Project</i>	<i>Amount</i>
FY 2022	West Service Center Phase 1 – Utility Construction	\$1,150,000
FY 2023	West Service Center Phase 1 – Fleet Facility Construction	8,730,000
Total Budgeted Construction Cost		\$9,880,000
FY 2025	West Service Center Phase 1 – expected additional need	4,120,000
Total Estimated Construction Cost		\$14,000,000

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends an additional \$4,120,000 for the needed construction funds to complete this project. Now that design and planning for this facility has been completed, \$14,000,000 is the most accurate estimate for the full construction costs of this project. A total of \$9,880,000 is already encumbered in the Department for this purpose. PBO notes that the Department does not intend to utilize an FY 2024 earmark intended for the design of phase II of this project until FY 2026, so that earmark will not be included in the FY 2025 Preliminary Budget.

REQUEST #P25: KEITH RUIZ BUILDING – TCSO CONNECTING BRIDGE

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	81,000	81,000	-	-
Dpt Total	\$ 81,000	\$ 81,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 81,000	\$ 81,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

FMD is requesting \$81,000 in capital funds to construct a bridge to connect 5555 Airport to 5501 Airport Boulevard. Currently, these two buildings are separated by a culvert. The request states a bridge would allow for easier access between the two buildings for TCSO, which is housed in both buildings and staff must often move between the facilities over the course of a work day.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$81,000 in capital funds to construct this bridge. Not connecting these two buildings is both inefficient for staff, not ADA compliant, and possibly dangerous should staff attempt to traverse the culvert separating the buildings. A connecting bridge will vastly improve the functionality of these two buildings for staff who operate in both.

REQUEST #P29: GAULT BUILDING – DISTRICT CLERK NEW CUBICLES

REQUEST #P30: HEMAN MARION SWEATT COURTHOUSE – COUNTY CLERK NEW CUBICLES

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	933,500	933,500	-	-
Dpt Total	\$ 933,500	\$ 933,500	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 933,500	\$ 933,500	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Both of the following requests are related to purchasing furniture for the District Clerk and County Clerk respectively.

Request #P29: Gault Building – District Clerk New Cubicles and Furniture for Gault Workspace (\$33,500 capital)

This request is of \$33,500 of capital resource to purchase new cubicles and furniture to create a new work area in the Gault Building basement, where some District Clerk staff are housed. The Gault work area has not been renewed or upgraded for over 15 years. The existing cubicles are outdated, and the space is not sufficient for the work that is planned for the District Clerk and IT employees. The purchase of new cubicles and other furniture will facilitate the creation of a scanning work area for employees to work at as they sort, organize, and digitize the more than 1,000 Criminal Division boxed records that are currently stored at the Heman Marion Sweatt Courthouse. As this Courthouse is planned for renovation and new uses, the District Clerk is working to minimize its need for storage in that facility. A similar project was undertaken by the District Clerk Civil and Family Division prior to the move to the CFCF, and stored records for those divisions were reduced by more than 60 percent in the HMS facility. After the records at HMS are reviewed, digitized, and ultimately destroyed, this space will continue to be used to review records stored with Iron Mountain and ultimately minimize the number of County records stored with that vendor, saving money and preserving County documents. ITS will need to do some recabing work for a total projected cost of \$3,500 and the remaining requested amount is for furniture.

Request #P30: Heman Marion Sweatt Courthouse – County Clerk New Cubicles and Recabing for HMS (\$900,000 capital)

FMD and the County Clerk are requesting capital funds of \$900,000 to improve the second floor of the Heman Marion Sweatt Courthouse which is occupied by the County Clerk. This facility is planned for a historical renovation, but that project will likely not be complete for up to seven years. In the interim, the County Clerk remains one of the last tenants in the facility, with most other tenants having relocated to the Civil and Family Court Facility or the Probate Courthouse. The County Clerk’s Office furniture was purchased in the late 1990s and replacement parts for the cubicles in particular are difficult to find, resulting in dilapidated and damaged equipment. Additionally, the current layout of the cubicles does not meet the needs of the department as it currently operates. Water and insect damage and dated, damaged furniture has resulted in low staff morale and an inefficient work environment. Rewiring cubicles will require \$250,000 of ITS work, and the remainder of the request of \$650,000 is for the requested furniture.

BUDGET REQUEST PERFORMANCE MEASURES

Performance measures were not provided.

PBO RECOMMENDATION

Request #123: Gault Building – District Clerk New Cubicles and Furniture for Gault Workspace

PBO recommends \$33,500 of capital resources to update the Gault basement workspace to facilitate an area for digitizing documents. This workspace will allow the District Clerk to make significant progress toward eliminating all of the documents currently stored in the HMS Courthouse prior to its renovation.

Request #124: Heman Marion Sweatt Courthouse – County Clerk New Cubicles and Recabling for HMS

PBO is recommending \$900,000 in capital resources to upgrade the County Clerk space in the HMS Courthouse. While in general PBO is not recommending resources for office reconfigurations or upgrades in the FY 2025 Preliminary Budget, the state of the existing cubicles, which are over 30 years old, does not meet county standards as it is both worn out and, in many cases, broken and non-functional. Though the HMS will be renovated, the timeline for that renovation is likely to be several years. In that interim, County Clerk will continue to work in this space, and it needs to be suitable for staff. The space is used by 30 to 45 people, and the County Clerk staff housed in this space are fully in-person. FMD has confirmed that the cubicles can be reused in other County spaces during and after the HMS renovation.

REQUEST #P31: CIVIL AND FAMILY COURT FACILITY CHILD DROP OFF

<i>Program:</i>	Planning, Design, and Construction			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	45,000	-	-	-
Dpt Total	\$ 45,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 45,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Facilities Management Department is requesting to continue an existing earmark for funding to do minor renovations to future child drop off space on the second floor of the CFCF. The request states the County is in the process of selecting a company to manage this space, and this funding is proposed to be available in case the selected company has any minor renovation requests to change the current space to meet any requirements. The Department states this number is estimated but not based on a known scope.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO does not recommend the continuation of an earmark on the CAR Reserve for the child drop-off space at the CFCF. PBO recommends that the Civil Courts, HHS, and FMD request these funds again once a childcare partner is identified and the space renovation need is fully determined, with a finalized plan for a potential program related to this in FY 2026.

Centralized Leases and Utilities (191)

Programs & Performance Management	2
Adopted Budgets FY 2022-2024, Preliminary Budget FY 2025.....	3
FY 2025 Preliminary Budget Recommendations Summary.....	3
FY 2025 Budget Request Analysis	5
Request #13: Electrical Rate Increase and Renewable Energy.....	5

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The Centralized Rent and Utilities budget includes centralized Travis County leases and utilities expenditures and is managed by the Facilities Management Department (FMD). The Department is budgeted in the General Government Functional Area.

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with offices and departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Supports All Other County Goals," and are now linked to the County Goal, "Be a Trusted and Well-Run County."

UTILITIES

The Centralized Rent and Utilities Budget is not mandated; however, it is necessary to fund the electrical and water service for all departments except parks and corrections facilities, as well as provide any necessary lease space for County employees. FMD does not report performance measures for this budget. FMD has been implementing energy efficiency measures as it renovates older facilities and as funding is available. PBO continues to recommend FMD report energy usage by building to guide decisions on investments in energy conservation.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Centralized Leases and Utilities remained the same as the FY 2024 Adopted Budget.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

Change from FY 2024 Adopted	\$ -	\$ -	\$ -	\$ -	-	\$ 580,000

EARMARKS

The following Earmark is included in the FY 2025 Preliminary Budget. This amount is not included in the Centralized Rent and Utilities budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Projected utilities rate increases and increases related to transferring to renewable energy	\$580,000
Total Allocated Reserve Earmarks	\$580,000

FY 2025 BUDGET REQUEST ANALYSIS

REQUEST #13: ELECTRICAL RATE INCREASE AND RENEWABLE ENERGY

<i>Program:</i>	Centralized Utilities			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Personnel	-	-	-	-
Operating	580,000	-	-	-
Subtotal	\$ 580,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 580,000	\$ -	\$ -	\$ -
Earmark Allocated	-	580,000	580,000	580,000
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 580,000	\$ 580,000	\$ 580,000
Dpt Total + Earmarks	\$ 580,000	\$ 580,000	\$ 580,000	\$ 580,000

DEPT. SUMMARY OF REQUEST

Central Rent and Utilities (Facilities Management Department) is requesting funding of \$580,000 for rate increases for electricity and for the renewable energy program. Austin Energy has increased its base rate as well as pass-through-charges.

In addition, FMD is requesting additional resources for the incremental increase needed to subscribe additional facilities to 100 percent renewable energy.

PBO RECOMMENDATION

PBO recommends an ongoing earmark of \$580,000 for projected increases in the base utility rate and an increased rate related to transferring Travis County facilities to renewable energy. At this time, based on projections from Austin Energy, the base rate for electricity will likely increase by around 2 percent based on consumption patterns remaining consistent year to year. The larger part of this request is related to the transfer to renewable energy for all facilities.

In April 2024, Commissioners Court approved a contract for the Green Choice Program, a program operated by Austin Energy which opts energy clients into paying additional cents per kilowatt hour to source energy from Texas wind power rather than less environmentally friendly choices. Travis County transferred 57 electric accounts to the Green Choice Program starting in May 2024. Austin Energy reports that commercial customer rates will vary depending on consumption patterns. Since all Travis County electric accounts only just transferred to this program starting in May 2024, there is not sufficient data to estimate what the cost increase will be for a full year of 100 percent renewable energy. The \$580,000 requested represents an estimated increase. PBO recommends that this amount be earmarked and that FMD work with PBO to monitor the expenditures of these electrical accounts in the first six months of the fiscal year to estimate an appropriate increase to the budget based on demonstrated patterns.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The General Administration Department is an administrative function of the Commissioners Court. Historically, the General Administration budget was used solely for expenditures that did not fit easily into any other department. More recently, General Administration has been used to house departments that support communications.

In FY 2009, the Commissioners Court added the Intergovernmental Relations Office (IGR) to the General Administration Department. The mission of the Intergovernmental Relations Office is to ensure Travis County's priorities and values are protected and advanced through strategic legislative engagement and collaborative relationships.

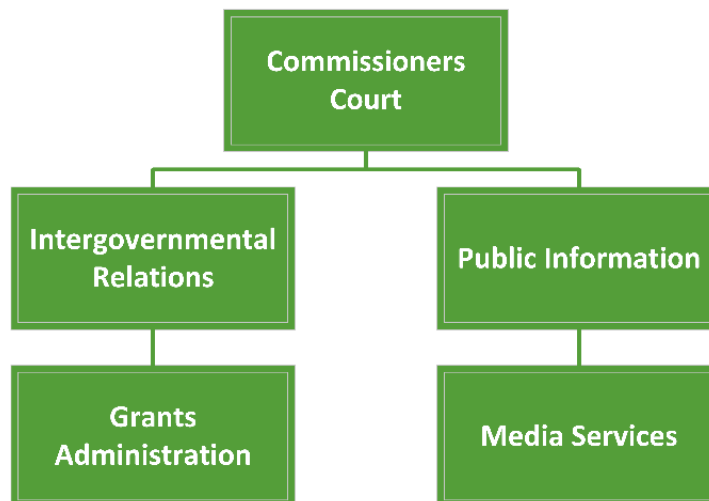

The Public Information Office was added approved permanently in April 2018. The mission of the Public Information Office is to effectively tell the story of Travis County and the public services it provides, serve as primary contact for all media and press inquiries, and to provide an accurate, timely and consistent flow of public information to all interested parties.

The Department has identified the following departmental goals:

- Represent and promote the principles and policies of the Travis County Commissioners Court to a wide variety of external stakeholders, including state and federal legislative bodies and agencies, other counties, and cities and other governmental bodies as well as the general public in the Central Texas region;
- Support Commissioners Court and county departments with communicating information to county residents via live cablecast and web streaming;
- Meet needs of departments to communicate information to county residents; and
- Provide broadcast/cablecast functionality support and consulting to Commissioners Courtroom and multifunction rooms.

The Department is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Empower the public through civic engagement and collaboration" and are now linked to the County Goal, "Be a trusted and well-run county."

INTERGOVERNMENTAL RELATIONS:

The Intergovernmental Relations (IGR) Office serves as a focal point for the Court's external relations with the local, State, and national community, including other governmental and civic leadership members in the Central Texas area. The IGR Office performs three broad legislative functions:

- Works with stakeholders and the Commissioners Court to develop a legislative agenda;
- Monitors legislation and seeks feedback from stakeholders, using it to brief the Legislative Subcommittee and the Court; and
- Works to execute specific goals of the legislative agenda.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of filed bills and constitutional amendments tracked	N/A	N/A	0	30	0
Percentage of ATLAS assignments completed by analysts	N/A	N/A	0	60	0
Percentage of Interim Charges Tracked	N/A	N/A	0	0	50
Number of bills and constitutional amendments filed	N/A	N/A	0	7,500	0
Percentage of ATLAS assignments completed by analysts	N/A	N/A	0	65	0
Number of Interim Charges Issued	N/A	N/A	200	0	200

As the State's legislative process occurs in the spring of every odd-numbered year, the Office seeks additional funding for temporary or contracted staff to assist with legislative related matters. The Office notes that they have, "kept thorough metrics on legislative activities and accomplishments during each legislative session. However, as legislative sessions convene in odd-numbered years, our metrics do not reflect yearly activities." PBO worked with IGR in FY 2024 to create new performance measures and will continue to work with the Office to monitor and track performance measures and further refine these measures if necessary.

REGIONAL POLICY DEVELOPMENT:

The goal of the Regional Policy Development program is to serve as a focal point for the Court's external relations with the local, State, and National community for relations with other governmental and civic leadership in the Central Texas area. The Department notes that the objective of this program is to improve the quality of the development process for the Court's legislative agenda and the effectiveness of IGR's advocacy of the agenda.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of municipalities attending quarterly meetings	0%	0%	24%	48%	57%

The Department communicates regularly with surrounding small cities in addition to commencing quarterly meetings. As the County seeks how to best operate both in-person and remotely, the Department is exploring opportunities for more frequent engagement with the small cities and other regional stakeholders as noted in the measures above. PBO worked with Regional Policy Development to add this new measure and will continue to work with staff to further refine performance measures if necessary.

LEADERSHIP RECRUITMENT & APPOINTMENT:

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of UAP Call for Applications Issued	0	0	0	0	0
Number of non-UAP Call for Applications Issued	0	0	2	1	1

The goal of the Leadership Recruitment and Appointment program is to enrich the quality of members on key County Boards and Commissions while increasing civic engagement through leadership recruitment and development. There are currently 13 boards and commissions that are subject to the Uniform Appointment Process (UAP), which covers 54 appointees. The UAP serves as a best practices model for recruitment efforts of the Commissioners Court and has been employed several times over the last several years in an ad hoc capacity, most recently to help fill a judicial vacancy in Justice of Peace, Precinct 5, and the Citizens Bond Advisory Committee. This process is currently done manually, but the Department is seeking technological improvements that could be implemented to streamline both back-end data management and the front-end user experience.

MEDIA SERVICES:

The Media Services program works to enhance constituent awareness of Travis County government services through TCTV-17 cable and web-based programs. Some of its work, such as recording meetings of Commissioners Court with audio/video equipment, is required by statute. The Department has identified the following discretionary services:

- Enhance awareness of Travis County government services through TCTV-17 cable and web-based programs and expand the availability of TCTV throughout Travis County by recording and cablecasting Commissioners Court meetings and 9 other county-related programs;
- Acquire outside programs for cablecast on TCTV-17 that are relevant to Travis County Government operations and citizens;
- Provide audio/visual support services such as videotape and DVD\CD dubbing, computer graphics, photography, equipment checkout, audio/visual equipment consulting;
- Provide audio/video support services for the multipurpose room;
- Provide county information to constituents in response to queries via telephone; and
- Provide county information to constituents in person via information booth.

Media Services worked with PBO in FY 2024 to further refine new measures that capture the work accomplished by the division. Media Services has formulated a baseline projection for FY 2025 and FY 2026. PBO will continue to work with the Office to monitor and track performance measures and further refine these measures if necessary.

PUBLIC INFORMATION OFFICE:

The mission of the Public Information Office is to effectively tell the story of Travis County and the public services it provides, serve as primary contact for all media and press inquiries, and to provide an accurate, timely and consistent flow of public information to all interested parties.

The PIO office:

- Produces and distributes public communications to residents, businesses, and media.
- Serves as the County’s official source of information.
- Manages the County social media accounts.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>

Previously, the Public information Office (PIO) did not track performance measures with PBO. Throughout FY 2024, PBO worked with PIO to establish goals and performance measures that align with the Department’s responsibilities and anticipated outcomes. As seen above, has used the projected numbers for FY 2024 as a baseline for years to come considering these measures were established this fiscal year. PBO will continue to work with the Office to monitor and track performance measures and further refine these measures if necessary.

GRANTS ADMINISTRATION:

Grants Administration’s mission is to manage the entire lifecycle of externally sourced grant funds by researching, coordinating, planning, negotiating, monitoring, and evaluating grant projects with Travis County Offices and Departments.

Grants Administration envisions increasing the availability of externally sourced grant funds to pilot or supplement projects and programs that benefit the community in alignment with Travis County’s mission and priorities.

The division hired its director-level position, the Grants Administrator, in August 2023, who evaluated the existing grants processes at the county on an organizational level. This evaluation culminated in a briefing and report provided to Commissioners Court on April 26, 2024, and the Grants Administrator received direction to move forward with changes to the grants process that would be implemented in conjunction with the Planning and Budget Office (PBO) with the FY 2025 Adopted Budget. These changes are continuing to be worked on through the summer of 2024 and are expected to be in place with the start of fiscal year 2025.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of grants researched	N/A	N/A	500	500	500
Number of grants discussed	N/A	N/A	18	18	18
Dollar value of grants applied for	N/A	N/A	16,000,000	16,000,000	16,000,000
Number of grants received	N/A	N/A	2	2	2
Dollar value of grants received	N/A	N/A	300,000	300,000	300,000
Number of grants applied for	N/A	N/A	6	6	6

Grants Administration does not provide statutorily required or mandated services. Its services are on a discretionary basis and include researching grant opportunities, coordinating and planning grant applications and awards, and monitoring and evaluating grant projects from award to close-out.

As a new division, Grants Administration does not currently have substantial performance data to compare against. Above are new measures for Grants Administration with initial projections for FY 2024 and beyond. For FY 2024, the division states that data as of June 12, 2024, have exceeded initial projections for the number of grants researched, discussed, and applied; and amidst these changes the division’s projections must change with it, PBO will work with Grants Administration to further refine performance measure results/projections. Further, the division states that they have not yet received an award or denial notice on any of its outstanding grant applications.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	1,439,215	1,685,884	1,945,490	2,069,456	123,966
Operating	13,584,526	7,424,541	8,641,422	10,373,590	1,732,168
Total (Per&Op)	\$ 15,023,741	\$ 9,110,425	\$ 10,586,912	\$ 12,443,046	\$ 1,856,134
CAR*	108,000	269,000	-	201,000	201,000
Grand Total	\$ 15,131,741	\$ 9,379,425	\$ 10,586,912	\$ 12,644,046	\$ 2,057,134
FTEs	15.00	16.00	18.00	18.00	-

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for General Administration increased by \$2,057,134 from the FY 2024 Adopted Budget. This is a 19.4 percent increase. The majority of the increase was in the operating budget due to the ongoing increases for the Waller Creek Tax Increment Finance District (TIF) agreement with the City of Austin and Travis Central Appraisal District (TCAD) fees.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for General Administration includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$217,000 was removed the Department's budget due to one-time operating expenditures.

The FY 2025 Preliminary Budget for General Administration includes the following increases:

Programmatic Recommendations	One-Time	Ongoing	Total	FTEs
PBO Correction - TCAD Fees Approved by Commissioners Court on 2/27/24	\$-	\$1,006,654	\$1,006,654	-
PBO Correction - Waller Creek TIF Approved by Commissioners Court on 4/23/24	-	919,039	919,039	-
Symmetrical Gigabit Internet Connection	250	18,500	18,750	-
Legislative Advocacy Services Contract	-	18,000	18,000	-

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Travel-Training for Grants Administration	-	6,000	6,000	-
Total Programmatic Recommendations	\$250	\$1,968,193	\$1,968,443	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for General Administration includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Transfer Public Comment Line Contract from ITS	-	24,000	24,000	-
Travel and Training Cut Restoration		2,713	2,713	
Total Administrative and Other Funding Changes	\$-	\$26,713	\$26,713	-

Included in the FY 2025 Preliminary Budget is a 50% restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$2,713 in ongoing operating resources for the Department. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for General Administration includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	\$68,422	\$68,422
Resources for health insurance cost increases for FY 2025.	-	9,556	9,556
Total Compensation Changes	\$-	\$77,978	\$77,978

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$201,000 for the Department. There was a reduction of \$217,000 to remove one-time funding for prior year capital funded projects. This is a net decrease compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Digital Video Server Replacement	\$110,000
Digital Video Routing Switcher Expansion	50,000
Multifunction Rooms Wireless Audio Expansion	35,000
Intercom Wireless Smart Antenna Addition	6,000
Total Capital Funding Recommendations	\$201,000

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Department’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Waller Creek TIF	\$500,000
TCAD Fees	500,000
Grants Management Software	150,000
Legislative Legal Services Contract	50,000
Total Allocated Reserve Earmarks	\$1,200,000

ADDITIONAL INFORMATION

VACANT POSITIONS

The Department currently has two total vacancies, out of which the following position has been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Administrative Assoc	30058204	1.00	219	The position has been posted and closed. The department states that the position may be reopened and intended to be filled prior to the end of FY 2024.

The following position has been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Grants Manager	30065828	1.00	419	The position's description has been adjusted based on the hiring of the new Grants Administrator and will have been posted by the end of April. The department expects to fill this position in June 2024.

FY 2025 BUDGET REQUEST ANALYSIS

Dpt Total + Earmarks	\$ 18,000	\$ 18,000	\$ 18,000	\$ 18,000

DEPT. SUMMARY OF REQUEST

The Intergovernmental Relations Office (IGR) within the General Administration Department is requesting \$18,000 in ongoing operating funds in the anticipation of an increased rate of a new contract with Knaupe GR for Legislative Advocacy Services. Currently, Knaupe GR provides services to the county at a rate of \$7,500 per month, totaling \$90,000 per year. This rate was first negotiated in FY 2018 and remained the same in a FY 2023 contract novation which extended the contract at \$7,500 per month for another year. Due to the amount of time that has passed since the initial contract, IGR expects an increase in the rate once the negotiation process of a new contract begins.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for this request.

PBO RECOMMENDATION

The Planning and Budget Office recommends approval of this request for the anticipated increase to the Legislative Advocacy Services contract with Knaupe GR as negotiations commence ahead of the contract's novation term ending on September 30, 2024. Prior to the current rate of the contract first negotiated in FY 2018, Knaupe GR had been providing legislative advocacy services to the county since FY 2008, at monthly rate of \$6,500, totaling \$78,000 per year; a 15.4 percent increase in the total cost associated with the contract. IGR expects a 20 percent increase to the contract once negotiations begin, in-line with the previous 15.4 percent increase in the costs associated with the contract.

PBO will continue to work with IGR and determine whether this amount will need to be adjusted once contract negotiations have concluded, although anticipates that the \$18,000 ongoing amount should cover any increase made to the awarded amount. IGR notes that the Office has been pleased with the received from Knaupe GR and that an increase in the contracted amount for the rendered services is warranted. As the contract's novation term ends September 30, 2024, the contract will be awarded with a start date of October 1, 2024 and the newly awarded rate will remain in place through the contract's initial term, which has yet to be negotiated.

IGR-02: LEGISLATIVE LEGAL SERVICES CONTRACT

<i>Program:</i>	Intergovernmental Relations Office (110)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Operating	50,000	-	-	-
Subtotal	\$ 50,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 50,000	\$ -	\$ -	\$ -
Earmark Allocated	-	50,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 50,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 50,000	\$ 50,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Intergovernmental Relations Office (IGR) within the General Administration Department is requesting \$50,000 in onetime operating funds to retain outside counsel to assist with legal services related to filed legislation in the upcoming Regular Session of the Texas Legislature. In the FY 2023 adopted budget, funding was included for an SPW position. Rather than employing an SPW, IGR utilized these funds by contracting with a consultant to provide legislative legal services.

While legislative legal services are provided under the supervision of, and in collaboration with, the Intergovernmental Relations office, these efforts serve to advance the interests of the Travis County Commissioners Court. IGR states the addition of a consultant will free up existing staff time to devote towards other steps in the legislative process.

In general, a contract for these services supports the efforts and overall mission of the Intergovernmental Relations Office (IGR) as it relates to its legislative program and county as a whole. The vendor will be expected to comply with the terms and conditions of the awarded contract. The activities of the Legislative Legal Consultant will be coordinated and evaluated by the IGR Office, with oversight by the Legislative Subcommittee.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for this request.

PBO RECOMMENDATION

Legal services are generally provided by the County Attorney’s Office for consistent legal counsel across Travis County. PBO recommends an earmark of \$50,000 in one-time resources against the Allocated Reserve for this cost in FY 2025, pending documentation from the County Attorney’s Office that these services are approved.

The Commissioners Court has always taken its responsibility to represent the interests of Travis County residents before the Texas Legislature seriously. In FY 2023 marks the first time that IGR utilized funding to hire an outside consultant to provide technical expertise around the legislative process, of which the IGR notes this component was a complement to the Office’s existing legislative strategy. The Office utilized these additional resources to hire an outside consultant to provide technical expertise around the legislative process; originally these resources were intended for a one-year SPW to offer support during the 88th Legislative Session. Initially, the recommended SPW in FY 2023 totaled \$82,258 in one-time personnel resources

whereas the actual amount needed to retain contracted legal services totaled \$50,000 in FY 2023, the same amount requested for FY 2025. PBO acknowledges that considering the short-term nature of this work, a contracted consultant may actually prove more time efficient and cost effective as previously highlighted. Once documentation from the County Attorney's Office that services are approved is received, PBO will work with the department to bring forward a budget adjustment to Commissioners Court for consideration.

Dpt Total + Earmarks	\$ 150,000	\$ 150,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Grants Administration within the General Administration Department is requesting \$150,000 for the procurement of a software solution and database for researching grant opportunities, provide information to offices and departments interested in external funding, and organizing grant applications across the entire organization. Currently, Travis County does not have a centralized system for distributing information about grant opportunities. Staff throughout Travis County receive information about external funding from a wide variety of sources. This information is inconsistent, uncoordinated, and relies on existing staff capacity that may be dedicated to other programs or services. These challenges limit Travis County’s ability to access external funding sources.

Travis County Grants Administration completed a Request for Information (RFI) process with the Purchasing Office to evaluate potential software solutions that address these challenges. The RFI resulted in 16 respondents, 4 of which were determined to be fully responsive to the request. The 4 respondents included:

- Reporting and note-taking functionality for tracking possible opportunities.
- The ability to automatically collect documents that detail requirements and send them to users.
- A single interface for inputting application materials and narratives.
- Collecting and tracking performance measures and demographic data from publicly accessible APIs.
- An accessible database of federal, state, and private grant opportunities.

Alternative software solutions built by Travis County’s Information Technology Services (ITS) department could provide the functionality of the first four bullet points, yet General Administration notes that this would require significant investment by Travis County in staff time, as ITS would need to configure forms and cloud storage systems that also integrate with website Application Programming Interfaces (APIs) and have an interface that offices and departments could easily use. However, such a solution would not have an accessible database of grant opportunities, as this requires significant time and research by a Travis County employee to develop.

Currently, Grants Administration expects that the value of the functionalities listed above is equivalent to between one and two FTEs based on existing internal grant research and discussions with offices focused on grants in other local governments. During the first three months of 2024, Grants.gov had 1,356 grants posted for application. Grants Administration reviewed only 208 (15 percent) of those and determined that Travis County was only eligible to apply for 126 (9 percent). This research does not include state grant opportunities or philanthropic foundations.

Funding for this request would allow Grants Administration to complete a formal procurement and determine the cost of these systems. If bids for this system from respondents are higher than the budgeted amount, Grants Administration would reevaluate whether the proposed solution provides the best value to Travis County as compared to other potential solutions. Grants Administration will work with the Purchasing Office and determine whether a procurement can begin prior to the start of FY 2025 and if not, then the timeline below can be expected.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for this request.

PBO RECOMMENDATION

The Planning and Budget Office recommends an ongoing earmark of \$150,000 against the Allocated Reserve in FY 2025 such that the completion of a formal procurement process can commence. This recommendation is pending review by ITS to ensure that the software solution meets all county technology requirements. Grants Administration notes that if bids for the Grants Management Software are higher than the budgeted amount, then a reevaluation of the cost and benefit provided to the County will be considered. Grants Administration projects that approximately 750 grants will be reviewed during FY 2024 and wok on approximately 55 grants. These amounts can be expected to increase should a grants management software be procured.

Discussions between Grants Administration and PBO have offered insight to more specific information regarding the software’s benefits and capabilities: The software will be able to filter on grant opportunities such that only those which Travis County is eligible for can be viewed, saving significant staff time, and increasing the number of grants applied for. It is also intended that all Travis County employees would have access to this software system, or at least those designed by elected and appointed officials overseeing their department(s). Additionally, Grants Administration notes that this software system may *potentially* assist departments/offices with grant compliance and reporting, reducing the opportunities for those awarded grants to fall out of compliance.

	FY 2025	FY 2026	FY 2027	FY 2028
Projected Grants Management Software Annual Cost	\$150,000	\$150,000	\$150,000	\$150,000

PBO will continue to work with Grants Administration and the Purchasing Office as formal procurement can be completed and the actual cost of the grants management software can be determined. Once a software solution is identified and is within the earmarked amount for this purpose, PBO will work with the department to bring forward a budget adjustment to Commissioners Court for consideration.

IGR-04: TRAVEL-TRAINING FOR GRANTS ADMINISTRATION

Dpt Total + Earmarks	\$ 10,570	\$ 6,000	\$ 6,000	\$ 6,000

DEPT. SUMMARY OF REQUEST

The Grants Administration division was originally created during the FY 2023 budget process. The initial budget only provided funding for two FTEs and the cost of centrally budgeted computer equipment. This request would create an ongoing operating budget within the division dedicated to training for employees and travel to grants related conferences and agencies.

	<i>Amount</i>
Management Concepts Online Courses	\$5,135
GFOA Membership	150
Total per FTE	5,285
Total for 2 FTEs	\$10,570

The estimated cost includes an initial training budget of five online courses with Management Concepts that have a cost per the table above. It also provides for annual membership to GFOA. After the initial five courses are completed, the budget would be used for the following:

- Continuing education in grants management.
- Travel to grants related conferences held throughout the country.
- Travel to federal, state, or philanthropic foundations with grant opportunities.

These are necessary functions for the Grants Administration division to stay current on grants management issues and interface with grantors throughout the country.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for this request.

PBO RECOMMENDATION

The Planning and Budget Office recommends \$6,000 in ongoing operating funding, providing \$3,000 per full-time employee (FTE). In February 2023, Commissioners Court authorized the creation of a Grants Administrator 1.00 FTE and a Grants Manager 1.00 FTE in the General Administration Department operating under the direction of the IGR Officer in the IGR

Office. The intention of the Grants Administrator and Grants Manager positions are to provide a coordinated county grant program to pursue outside funding across Federal, State, and local grant opportunities. The two positions were created without an accompanying operating budget. The request intends for the amounts be budgeted in the IGR Funds Center (1100030001) Commitment Item 512050 Registration Conferences/Seminar within the Travel & Professional Development Budget Control group:

	<i>FY 2021 Budget</i>	<i>FY 2022 Budget</i>	<i>FY 2023 Budget</i>	<i>FY 2024 Budget</i>
Travel & Prof Dev Budget Control	\$6,211	\$13,558	\$12,225	\$35,051
Total Actuals	6,211	11,333	6,277	9,133*
Remaining Balance	\$0	\$2,225	\$5,948	\$25,918

*This is a projected amount based on a straight-line expenditure projection.

As seen above, the Travel and Professional Development Budget amount within IGR has grown over the years. While there was an across-the-board reduction to travel budgets in FY 2021 due to fiscal constraints as a result of the COVID-19 pandemic, in FY 2024, \$18,260 in ongoing operating funds was recommended to allow the Office to engage in federal level events. As seen in the chart above, IGR historically spends most of their budget for this purpose and PBO notes that although it is projected that the Office will spend \$9,133 in FY 2024, this is based on a simple straight-line projection which assumes a linear trend.

PBO acknowledges that the Grants Administration program does not have a dedicated operating budget and although budgeted within IGR, may require additional resources to meet their operating needs. As the county intends to continue to expand the pursuit of grant funding, operating resources for Grants Administration to receive continued education and fund future travel to applicable conferences are needed.

PIO-01: CONVERT LFRF SPW TO FTE

<i>Program:</i>	Public Information Office (110)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 95,025	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Public Information Office (PIO) is requesting one Special Project Worker (SPW) funded through Local Fiscal Recovery Funds (LFRF) become a Full-Time Employee (FTE) at a total ongoing cost of \$95,025. The Office states that the incumbent SPW has become an integral part of daily operations and should funding come to an end, the workload of the SPW will need to be transferred to current staff. PIO intends to maintain the status quo of the Office by making the SPW an FTE.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for this request.

PBO RECOMMENDATION

As reported to Commissioners Court during the December 19, 2023 LFRF update, in November 2023, the Treasury issued an Obligation Interim Final Rule (IFR) to address LFRF recipients questions and comments regarding the definition of “obligation” as it pertains to the Treasury’s requirements that all LFRF funds be “obligated” by December 31, 2024. This IFR provided clarification on the definition and provided related guidance specifically regarding which personnel costs are allowable after the December 31, 2024, obligation deadline and until the expenditure deadline of December 31, 2026.

These clarifications provided specific limitations on personnel expenses after the obligation deadline, allowing only those personnel directly involved in LFRF administrative work, such as reporting and compliance, single audit work, record retention and internal control requirements, property standards, environmental compliance requirements, and civil rights and nondiscrimination requirements, to be funded through LFRF resources after December 31, 2024 and through December 31, 2026. Based on these changes, PBO commenced work to develop recommendations for how to fund the 51 Special Project Worker positions that were funded through the LFRF, considering that many of them would no longer be eligible for LFRF funding after December 31, 2024 based on the November Treasury guidance. This position, Public Information Specialist, was thought to not be eligible for LFRF funding beyond 2024 based on this guidance.

On March 29, 2024, the Treasury released a new set of Frequently Asked Questions which changes this guidance to allow recipients to consider funds obligated under LFRF rules for any personnel whose salary may be paid under an eligible use of SLFRF funds through December 31, 2026, for any position that existed and was filled by December 31, 2024. This is an expansion of the previous understanding from the November 2023 Treasury Guidelines. In addition, reporting deadlines for

personnel expenses were moved from April 30, 2024 to July 2024 for administrative expenses and January 2025 for all other personnel. PBO did not complete its analysis of this new information before General Administration submitted its budget request, and so PBO recommended that the department submit all LFRF-related positions that may have been ineligible under the LFRF under the November 2023 guidance through the budget process, in case they would need General Fund resources.

Per Court action on July 23, 2024, the Public Information Specialist will continue to be funded through the LFRF until the end of the grant period, December 31, 2026, as previously approved. The Department should plan to resubmit this position for consideration in the FY 2027 budget process.

PIO-03: SYMMETRICAL GIGABIT INTERNET CONNECTION

<i>Program:</i>	Media Services (110)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 18,750	\$ 18,750	\$ 18,500	\$ 18,500

DEPT. SUMMARY OF REQUEST

The Media Services Division within General Administration is requesting \$18,750 in ongoing operating resources for a symmetrical 1GB internet fiber connection subscription with the department’s current off-network internet service provider. The is comprised of \$18,500 in ongoing operating resources and \$250 in one-time installation costs. As Media Services staff will often work remotely, remote access to the department’s video storage array in order to edit high-definition video requires a high-speed symmetrical internet connection (same download and upload speed). Further, Media Services is implementing cloud backup storage for their program, stock video, graphics, and photos. The division notes that a symmetrical high-speed connection is required for both of the aforementioned tasks to function efficiently.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for this request.

PBO RECOMMENDATION

The Planning and Budget Office recommends funding for this request. Media Services notes that discussions with Information Technology Services (ITS) have informed the division that having a continuous ingress (data entering a network) connection to the county network is problematic for security reasons, which is why Media Services has operated with an off-network internet subscription for over 25 years. The base off-network internet subscription is unable to access the network for high-definition video editing and cloud storage backup operations as both require continuous remote ingress to a network. That said, the additional operating resources recommended for an upgraded subscription of the current off-network internet service provider will allow for sufficient service to accomplish the aforementioned tasks.

PIO-02: DIGITAL VIDEO SERVER REPLACEMENT

PIO-04: MULTIFUNCTION ROOMS WIRELESS AUDIO EXPANSION

PIO-05: DIGITAL VIDEO ROUTING SWITCHER EXPANSION

PIO-06: INTERCOM WIRELESS SMART ANTENNA ADDITION

<i>Program:</i>	Media Services (110)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	201,000	201,000	-	-
Dpt Total	\$ 201,000	\$ 201,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 201,000	\$ 201,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

PIO-02: DIGITAL VIDEO SERVER REPLACEMENT

\$110,000 of one-time resources are requested for the replacement of Media Services digital video recording and playback server. The current server has been declared “End of Life” by the manufacturer and thus technical support will no longer be available. If the current video server fails for any reason, the department is unable to record or playback programming until repaired. With the replacement of the current video server such occurrences will not occur as Media Services will gain redundancies that are currently not in available.

PIO-04: MULTIFUNCTION ROOMS WIRELESS AUDIO EXPANSION

\$35,000 of one-time resources are requested to increase wireless microphone capacity in 700 Lavaca St. multifunction rooms. Currently, when meetings are held in the multifunction rooms and recording is requested, Media Services must use multiple microphone cables, a “stage box”, and a “snake”. The “stage box” is a device that connects multiple cables, and the “snake” is a large audio cable comprised of multiple cable strands that connect to an audio board. Media Services states that many cables are present on the floor and pose a safety hazard for all walking about the multifunction room. With the addition of the proposed wireless system, the aforementioned cables and stage box would be eliminated as the only cable that would be necessary is a network cable.

PIO-05: DIGITAL VIDEO ROUTING SWITCHER EXPANSION

\$50,000 of one-time resources are requested for the expansion of the current digital video routing switcher. Currently, Media Services is at capacity of their primary digital video router’s inputs and outputs. With the expansion of the digital video routing switcher, 32 inputs and 32 outputs will be added and the department states that this should suffice for a “few years of growth.” Installation and integration would occur in December 2024 or January 2025.

PIO-06: INTERCOM WIRELESS SMART ANTENNA ADDITION

\$6,000 of one-time resources are requested to purchase an additional intercom smart antenna to expand wireless coverage of the recently replaced TCTV intercom system which includes a feature for wireless communications. The new TCTV intercom system includes one smart antenna which does not reach all of the areas Media Services requires, specifically the south end of the first floor where the Commissioners Court room is located. With the addition of the requested smart antenna, wireless contact for all areas required by Media Services will be accessible.

BUDGET REQUEST PERFORMANCE MEASURES

The Department did not submit any performance measures for these requests.

PBO RECOMMENDATION

PBO recommends funding the requests in full as summarized in the table below. The equipment is critical for proper public engagement and transparency.

<i>Request</i>	<i>Amount</i>
Digital Video Server Replacement	\$110,000
Multifunction Rooms Wireless Audio Expansion	35,000
Digital Video Routing Switcher Expansion	50,000
Intercom Wireless Smart Antenna Addition	6,000
Total	\$201,000

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Health and Human Services Department is to work in partnership with the community to promote full development of individual, family, neighborhood and community potential and to optimize self-sufficiency for families and individuals in safe and healthy communities.

The Department has identified the following departmental goal(s):

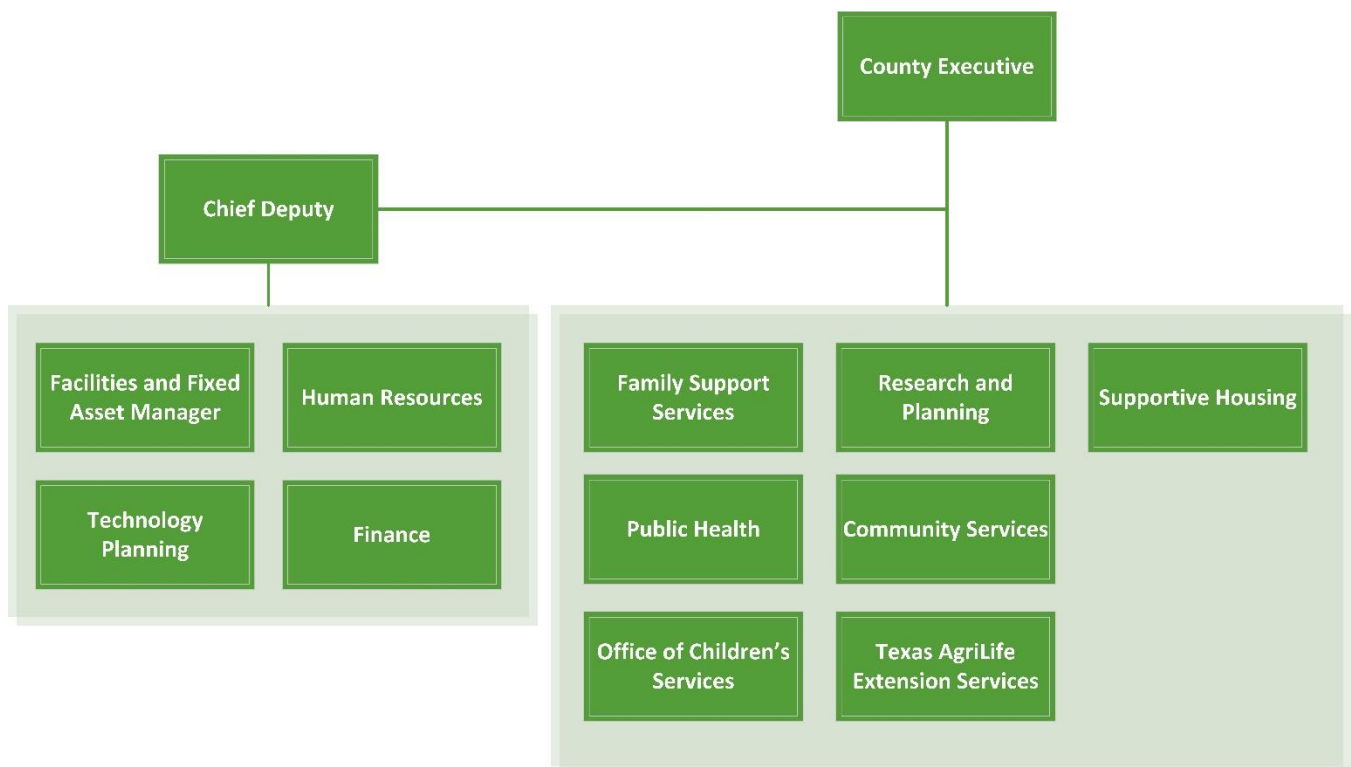

- Protect vulnerable populations;
- Invest in social and economic well-being;
- Promote healthy living: physical, behavioral and environmental; and
- Build a shared understanding of the community.

This aligns with the new County goals of:

- Protect and provide opportunity for those most vulnerable and underrepresented
- Promote economic well-being and racial, ethnic and economic equity
- Provide services that support people's physical and mental health
- Be a trusted and well-run county

The Department is budgeted in the Health and Human Services Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions,

OFFICE OF CHILDREN'S SERVICES

HEALTHY FAMILIES TRAVIS COUNTY:

Healthy Families Travis County (HFTC) is a long-term home visiting program that serves first-time moms and families. Healthy Families is not a statutorily required or mandated service. Healthy Families Travis County has been nationally accredited by Healthy Families America (HFA) and Prevent Child Abuse America since 2004. HFTC is one of only two programs that are nationally accredited in Texas and awarded this honor for adherence to best practices. The program seeks to meet the goals of:

- Cultivate nurturing parent-child relationships;
- Promote healthy childhood growth and development;
- Enhance family functioning by reducing risk and building protective factors;
- Link families to a medical provider, ensure developmental screenings are done and that children receive recommended well child checks and immunizations; and
- Help families work towards self-sufficiency.

HFTC implements an evidence-based curriculum called Growing Great Kids. Observation of the parent and child's relationship is one of the most critical features of each home visit. During these visits, the home visitors teach information about parenting and child development in order to help strengthen the parent-child bond. Research states that the stronger the bond between parents and their children, and the more understanding a parent has about their child's development, the less likely they are to abuse or neglect their child.

The program has numerous additional features that it provides such as: ongoing developmental screenings and referrals; ensuring immunizations and well child checks are up to date; providing breastfeeding education and support; educating families on issues such as Shaken Baby Syndrome and car seat safety; and providing referrals to community resources.

The Healthy Families Travis County accreditation process managed by Healthy Families America (HFA) is based upon a stringent set of 12 critical elements and over 120 standards that are grounded in more than 30 years of research. Healthy Families America is a nationally recognized evidence-based home visiting program model. It is the primary home visiting model best equipped to work with families who may have histories of trauma, intimate partner violence, mental health and/or substance abuse issues. Model fidelity is illustrated through a comprehensive accreditation process every four years. HFTC was recently successfully re-accredited through Healthy Families America in March of 2023, which will last through March of 2027. It is rare for any Healthy Families program throughout the U.S. to score above 90 percent on a site visit; however, HFTC scored 91 percent adherence to the HFA accreditation standards.

In addition to General Fund support, this program also receives grant funding as a sub-recipient of United Way’s Maternal Infant Early Childhood Home Visiting (MIECHV) grant award through the state, which funds additional positions for the program.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Provide services that support people’s physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of children who achieve age-appropriate development	91%	96%	90%	90%	90%
Percentage of children who received age-appropriate immunizations within expected guidelines	71%	80%	80%	80%	80%
Percentage of children who attend age-appropriate well-child checks within expected guidelines	78%	86%	80%	80%	80%
Percentage of families with no substantiated finding of child abuse or neglect	99%	100%	95%	95%	95%
Total number of families served including both assessment and home visiting	91	179	250	250	250

In FY 2023, 48 percent of parents successfully completed the Nurturing Parenting Program with a rating of Significant Accomplishment, which is below the target of 50 percent. This measure is evaluated by taking the number of parents who complete with significant accomplishment out of the total number of parents who successfully complete. In order to complete with significant accomplishment, parents must attend all 16 to 24 sessions, score a five or above on all AAPI constructs, and score a seven or above on the B and C constructs on the AAPI post-test that measure risk of abuse. B and C constructs measure corporal punishment and level of empathy.

Due to home visitor vacancies as well as lower referrals related to the lingering effects of the pandemic, the program served fewer clients in FY 2023 than anticipated. Having recently filled several of these vacancies and added additional staff through grant funding, HFTC expects to return to prior projections and see an uptick in families served. All outcomes were above target levels, except to the measure related to immunizations which was on target. This is related to challenges that families face related to available providers, transportation, family stressors, and language barriers that HFTC continues to work to address with its clients.

FAMILY FIRST

The Travis County Family First program provides intensive, home visiting services to families through implementation of the Nurturing Parenting Program. The Nurturing Parenting Program is an evidence-based and family-centered curriculum that was designed for the prevention and treatment of child abuse and neglect.

Family First (previously Children First) is not a statutorily required/mandated service; however, this program has partnered with The Texas Department of Family and Protective Services (TDFPS) for several decades to improve the safety of children and the functioning of families. This program is a key service utilized by TDFPS to provide community-based support to at-risk families to reduce the need for out of home placement and/or to stabilize the functioning of families so that children can be safely returned to their parent’s care. HHS has a long-standing collaborative relationship with TDFPS to coordinate services in an effort to decrease risk and improve functionality and self-sufficiency of families.

The Travis County Family First program provides long-term, home visiting services to families through implementation of the Nurturing Parent Program. The Nurturing Parent Program is an evidence-based and family-centered curriculum that was designed for the prevention and treatment of child abuse and neglect. Parent Educators visit families in their home weekly for one and a half to two hours for 16 to 24 weeks. In addition, the program provides group services where the curriculum is implemented in a group setting. Groups are held for two hours weekly for 16 weeks and include an average of 10 to 15 parents per group.

Using the Nurturing Parent Program, Family First goals are to:

- Help families build self-awareness, self-esteem and empathy;
- Teach alternatives to hitting and yelling;
- Enhance family communication and awareness of needs;
- Replace abusive behaviors with nurturing behaviors;
- Promote healthy physical and emotional development; and
- Teach appropriate role and developmental expectations.

Additional Family First program goals include:

- Ensuring safe and healthy children;
- Preventing the removal of children from their families due to abuse and neglect;
- Improving individual parent and family functioning; and
- Connecting families to available community resources.

The target population for these services is children and their families who are involved in the child protective services (CPS) system and are at risk for abuse/neglect or have already experienced judicial intervention for abuse/neglect. Clients must have an open CPS case within Travis County to receive services. The program receives referrals exclusively from Family-Based Safety Services and Conservatorship units of TDFPS. In order to maintain fidelity to the Nurturing Families model and best serve the families, the goal is to provide a minimum of 16 to 24 weekly home visiting (or, when necessary, virtual) sessions or 16 group sessions. The services are strongly encouraged by CPS caseworkers but are considered voluntary. The families served by the Family First program are considered complex due to the existing risk factors, parental functioning, and extremely limited personal resources including basic needs.

The program was formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and is now linked to the County Goal, “Provide services that support people’s physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of children removed from their home by DFPS at case closure	1%	0%	5%	5%	5%
Percentage of parents that successfully complete the Nurturing Parenting Program	73%	61%	60%	60%	60%
Number of unduplicated families served	165	144	200	200	200
Percentage of parents that successfully complete the Nurturing Parenting Program with a rating of Significant Accomplishment	46%	48%	50%	50%	50%

Family First served fewer clients in FY 2023 than targeted, largely due to staff extended leaves and new staff needing training which limited the ability to take on more families. The program is currently fully staffed and expects to increase the number of families served by adding community outreach and pursuing referrals in the second half of FY 2024.

In FY 2023, the program had significantly more referrals of families from Conservatorship (CVS) than in Family Based Safety Services (FBSS), although less than in FY 2022. While 75 percent of referrals were from CVS, 23 percent were from FBSS. The program is making outreach efforts to increase the number of referred families from all areas however this is a trend that has continued over the last few years and impacts the program results. In CVS cases, children have already been removed from the home, thus resulting in a lower percent of children who remain in their homes than in previous years and why a higher percent of children remained in TDFPS custody or were placed with a relative or non-custodial parent. Based on the trend of receiving cases with greater risk and more need, the trend of children remaining in a DFPS placement or being placed with a relative continued and increased greatly. Although the number of FBSS families referred is increasing, it appears that these families do not typically have their children in the home either. In FY 2023, 90 percent of children remained in DFPS placement and 9 percent were placed with a relative or non-custodial parent.

PARENTING IN RECOVERY/DRUG TREATMENT COURT

The Parenting in Recovery/Family Drug Treatment Court provides services to vulnerable children and their families who are struggling with addiction, behavioral health challenges and child welfare system involvement.

Parenting in Recovery/Family Drug Treatment Court (PIR/FDTC) is not a statutorily required or mandated service. This initiative serves families involved in the child welfare system due to substance use disorder. The program is comprehensive and facilitates access to extended residential inpatient SUD treatment; mental health supports; recovery housing and supports; children’s services including assessments and individualized support and services provided by specialized therapists; and wraparound support services through a care coordination, family team model to promote self-sufficiency. Participants remain in the program on average for 12 months. Program participants have an active lawsuit with child protective services that is overseen by the 126th District Court Judge. The role of the court and the judge are integral to the functioning and success of the program and there is no other comparable type of drug treatment court in Travis County.

For FY 2024, PIR/FDTC was awarded an annual state grant which is being used to support inpatient and intensive outpatient SUD treatment, transportation, psychiatric evaluation and medication management, drug testing, and trauma-specific therapy services during FY 2024. PIR/FDTC has re-applied for this grant for FY 2025 and has requested the same amount of funding for the same services.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Provide services that support people’s physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
PIR/FDTC percentage of children without a recurrence of maltreatment within a 24 month period post program discharge	93%	98%	85%	85%	85%
PIR/FDTC percentage children who are in care of a parent at discharge	79%	69%	60%	60%	60%

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
PIR/FDTC percentage of children who demonstrate either improvement in or stability in obtaining developmental milestones	97%	98%	95%	95%	95%
PIR/FDTC percentage of participants that successfully discharge from program	69%	68%	60%	60%	60%
PIR/FDTC percentage of participants that complete residential substance abuse treatment	93%	87%	90%	90%	90%
PIR/FDTC number of unduplicated adults served by the program during the fiscal year	75	70	75	75	75
PIR/FDTC percentage of participants able to access residential substance abuse treatment within 20 days	56%	67%	70%	70%	70%
Percentage of parents who demonstrate improvement on the PSI-4	0%	98%	70%	70%	70%

PIR/FDTC nearly met or exceeded all program performance measures.

Despite the closing of Austin Recovery during FY 2021 and challenges with sending parents and children out of town to Dallas and Houston for treatment, 67 percent of parents were admitted to inpatient substance use disorder treatment within 20 days of agreeing to enroll in the PIR/FDTC program with an average number of 17 days to treatment admission. At present, families are most frequently completing treatment at Nexus Recovery Center in Dallas and Santa Maria Hostel in Houston. Enrolling families in treatment out-of-town presents transportation challenges and additional barriers in coordinating detoxification and transfers of medication assisted treatment from one city to another.

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Parenting in Recovery Full Funding	\$439,648	2.00/2.00	All positions have been filled and the program is projected to meet all performance benchmarks now that the program is fully staffed. Staff caseloads per therapist have been decreased to a manageable 15 per therapist, allowing better service delivery.

THE TRAVIS COUNTY CHILD PROTECTIVE SERVICES BOARD

Child Protective Services Board is The Travis County Child Welfare Board, as defined in the Texas Family Code. The legal requirement for this board is found in the Chapter 264 of Texas Family Code that states a commissioners court may appoint a board and appropriate general funds for the administration of the child welfare board and that the Department of Family and Protective Services (DFPS) shall work in conjunction with the commissioners courts, juvenile boards, and all other officers and agencies involved in the protection of children through county child welfare boards.

The purpose of the Child Protective Services Board budget is to provide financial support and services to children and families involved with the Child Protective Services system due to risk of or confirmed abuse, neglect or exploitation by parents, caregivers and other household members. The CPS Board sets budgetary guidelines on an annual basis, reviews expenditures and authorizes outlier expenses. The Board also provides support to the CPS caseworkers through appreciation activities and the management of the volunteer program to maintain the parent/child visitation rooms in the CPS offices. Additionally, the

Board has a role in advocacy and community awareness regarding child abuse, neglect and exploitation prevention. The Board provides the Court with relevant information regarding the state of functioning and required supports to the Child Protective Service System for Travis County, Region 7 and the State. The board holds an annual work session to identify areas of interest and focus for the fiscal year.

The program was formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and is now linked to the County Goal, “Protect and provide opportunity for those most vulnerable and underrepresented.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of CPS Petitions filed in a fiscal year	263	253	250	250	250
Number of new children entering foster care annually	273	198	200	200	215
Number of CPS referrals assigned for investigation	5,315	5,277	5,250	5,250	5,350
Average number of children in foster care per month	899	500	475	475	500
Average number of families receiving Family Based Safety services	340	189	225	225	225
Percentage of CPS board budget expended on products and services for children and families involved in the child welfare system	77.5%	86%	90%	98%	98%

Almost all metrics tracked by the CPS Board saw a significant decrease due to the implementation of HB 567. This bill changed the definition of neglect, the ground under which a child could be removed and restricted how court ordered services could be implemented by the court. The reduction of numbers reflects how abuse/neglect is defined and investigated and does not necessarily reflect a reduction in abuse/neglect in the community.

The Children Without Placement (CWOP) continues to have a significant impact on the entire system and especially the children/youth. Throughout the year, Travis County had, at any one time, between 3 and 6 children/youth in CWOP and regionally the number fluctuated between 15 and 25. A regional staffing is held weekly to provide support and resources to the youth in CWOP status. The youth in CWOP usually are between 14-17; have a history of multiple placements, psychiatric care/hospitalization, runaway/trafficking, criminal legal system involvement and educational challenges. Children/youth cycle back to CWOP when placements breakdown and request the youth’s discharge. Children/youth are in CWOP as short as 72 hours and as long as 90 days. There does not appear to be a resolution in sight until there are expanded placement options for youth that include: supported family/friend options; treatment foster care; TLP that accept youth with behavioral challenges; and residential facilities that are trauma informed and provide supportive holistic care. Travis County HHS and the CPS Board continue to monitor and support all Travis County youth in CWOP status.

The Child Protective Services Board is monitoring and managing the impacts of State of Texas legislation on its operations and on the operations of all Office of Children’s Services programs. Of particular note is the action taken during the 85th Texas Legislature which mandates a shift from a state-run child welfare system to a community-based system that the state oversees. This model is intended to provide more flexibility to develop services that reflect the local community and its needs. The state would partner with a local contractor to manage the transition from tradition foster care to community care. This transition should be rolled out by 2029. The Office of Children’s Services and the CPS Board will monitor this transition as it will have direct impact on several programs.

SYSTEM OF CARE: CHILDREN'S PARTNERSHIP & COMMUNITY PARTNERS FOR CHILDREN/ COMMUNITY RESOURCE COORDINATION GROUP

System of Care is a spectrum of effective, community-based services and supports for children and youth with or at risk for mental health or other challenges and their families, that is organized into a coordinated network, builds meaningful partnerships with families and youth, and addresses their cultural and linguistic needs, in order to help them to function better at home, in school, in the community and throughout life.

The Travis County Systems of Care (SOC) is a set of values and methodology for effectively collaborating with families, Travis County SOC programs utilize the wraparound process, child and family teams, a shared database, provider network, training, management and access to flexible funds for eligible participants. The SOC initiatives in Travis County include The Children's Partnership (TCP) and Community Partners for Children (CPC). Previously, the Child Protective Services Reintegration Project was part of this program but it has since phased out with all services related to the program being integrated into the other two SOC programs.

Community Partners for Children (CPC) is the Travis County Community Resource Coordination Group which is a statutorily mandated service. In 1987 The Texas Legislature enacted Senate Bill 298, requiring eight child serving public agencies to work together to assist children and youth who were falling through the cracks in the service system. The 77th Legislature enacted legislation that strengthens and supports the work of the Community Resource Coordination Groups of Texas. Senate Bill 1468, codified in Texas Government Code §531.055, calls for a joint Memorandum of Understanding among health and human services agencies, related state agencies and state-level partners to promote a statewide system of local level interagency staffing groups (CRCGs) to coordinate services for persons of any age in need of multiagency services. In general, the legislation:

- Updates the previous authorizing CRCG legislation for children and youth;
- Adds the requirement to implement a system for CRCG for adults; and
- Includes the requirement to have as a standing representative on each local CRCG, a parent or family member on each CRCG for Children and Youth and/or a consumer or caregiver member on each CRCG serving adults, and requires a legislative report every two years to the Governor of Texas and to participating agency CEOs to report the benefits and barriers of CRCG activities.

Community Partners for Children (CPC) is Travis County's Community Resource Coordination Group (CRCG). CRCGs are local interagency groups, comprised of public and private providers who come together to develop individual service plans for children, youth, and adults whose needs can be met only through interagency coordination and cooperation. The goal of CPC is to provide a single point of community collaboration for families with children and youth who have complex needs that cannot be met by one agency. CPC is the eligibility meeting to facilitate access to these System of Care Initiatives: The Children's Partnership and CPC Bridge Coordination. The Office of Children Services manages and facilitates the Travis County CRCG in collaboration with key community partners: Child Protective Services, Travis County Juvenile Probation Department, and Integral Care (the local mental health authority). OCS manages the CPC staffing list; coordinates the twice monthly meetings; oversees the management of CPC and facilitates an annual retreat with community partners. In this cost center, OCS has two positions dedicated to CPC: a Social Service Program Coordinator which fulfills the role of CPC program coordination and a caseworker position that supports both the intake process, the meetings and provides ongoing coordination to select families. The caseworker position was reassigned to this program from the CRP Reintegration program when it was discontinued in FY 2023. The caseworker position was filled in September 2023.

The Children's Partnership (TCP) is not a statutorily required nor mandated service; however, the program is an essential part of the Travis County System of Care and is a frequently utilized service for families with children and youth with significant mental health challenges and multi-system involvement. TCP serves children/youth with complex behavioral health

challenges and their families utilizing the wraparound service delivery model and providing care coordination and specialized services and supports. The goal of TCP is to improve the functioning of children and youth so they can remain safely in their home and community.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of children/youth who are maintained in their homes at the time of discharge from the program	90%	94%	85%	85%	85%
Percentage of children/youth who maintained/improved school attendance	73%	85%	80%	80%	80%
Percentage of children/youth who reduced their delinquent behavior	82%	79%	75%	75%	75%
Percentage of children/youth and their families that indicated increased self sufficiency through either meeting their goals or a voluntary exit from the program	66%	74%	65%	65%	65%
Number of children enrolled by TCP	44	42	45	55	55
Number of children staffed at CPC	55	46	55	60	60
Number of families served by TCP	83	79	85	85	85
Percentage of children who received residential treatment services had a decrease in their involvement in CPS and or Juvenile Probation	0%	50%	75%	75%	75%
Percentage of children who are reintegrated to a home after completion of residential treatment	0%	100%	95%	95%	95%
Number of children/youth enrolled in TRIAD program to access residential treatment for severe emotional disturbance and at-risk behaviors	1	2	2	3	3
Number of children served with care coordination services enrolled in both TCP and CPC bridge programs	36	31	35	40	40
Number of families served with Parent Liaison Services	53	48	35	35	35

The Children’s Partnership (TCP) program continues to perform within expected parameters as it relates to outcome measures. However, COVID-19 continues to impact all partner agency referrals and enrollments, especially as it relates to the ongoing work force challenges in recruitment and retention. There was a nine percent increase in enrollments and a four percent decrease in total number served for TCP from FY 2022 to FY 2023. As the community partners, stakeholders, and families continue to adapt to post COVID conditions, HHS hopes to see a continual increase in enrollments in FY 2024.

In FY 2023, Community Partners for Children (CPC) completed 46 family sessions serving 46 youth and their families. This is nine less children/youth than the prior year. In fiscal year 2023 as community partners, agencies and families continued to adjust to post pandemic life, referrals to community-based services and utilization of CPC remained low. It is projected that as families, service providers, partners and community stakeholders further adjust their work models to more in person and hybrid options, that referrals will continue to increase to CPC; however, it is not anticipated that the program will reach pre-pandemic service levels in the next two fiscal years. Community outreach, trainings, and resource fairs have increased CPC’s visibility and provided opportunities to share information regarding CPC and the referral process for children, youth, and their families.

Overall the programs within the System of Care have seen a reduction in enrollment; however, the program has seen an increase in the complexity and fragility of the youth being served requiring longer, more intense service provision to stabilize the youth and access community resources. The programs continue to play a vital role in addressing the service needs of children and youth with complex behavioral health needs and their families. The CRCG and wraparound service models put the parent and child/youth at the center of the services with a focus on achieving the families goals for success.

FAMILY SUPPORT SERVICES

The Family Support Services Division provides the community with emergency assistance, including utility assistance, rent and mortgage assistance, burial services, and food pantry, and groceries in addition to home repair and weatherization referrals, licensed social work and case management services, clothes closet, a senior lunch program, and online application assistance for state and federal public assistance programs.

The Texas State Health and Safety Code requires commissioner courts to provide indigent burial under Title 8, Subtitle B, Chapter 694. Travis County under this statute is required to provide for disposition of the body of a deceased indigent person in Travis County and to adopt rules by which to provide for such disposition. The Texas Local Government Code, Section 81.027, authorized Travis County to aid residents achieve self-sufficiency through improvements to quality of health, economic, and social well-being.

All Emergency Assistance programs other than Indigent Burial, including assistance with payments of rent, mortgage, utilities, bus passes, and the provision of healthful food are not statutorily required.

The program was formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and is now linked to the County Goal, “Protect and provide opportunity for those most vulnerable and underrepresented.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Average # of payments processed by caseworker per month	71	53	60	60	60

% of Customer Surveys Satisfied or Very Satisfied	0%	99%	90%	90%	90%

The current data management system has been inadequate to establish benchmarks and measure program outcomes for Family Support Services programs. The new Enterprise Case Management System will provide better tools to develop and track outcome measures.

Currently, FSS has only been able to track outputs, which are elaborated on below.

Average # of payments/month by CW - This number is slightly lower than the performance target. In FY 2023, TDHCA changed the procedures for making subsequent Comprehensive Energy Assistance Program (CEAP) payments. Whereas in the past, CEAP payments for the year were made monthly, they changed to a lump-sum payment for each household for the year. This resulted in significantly fewer invoices entered per household for CEAP utility assistance. In addition, there was considerable

turnover in the Case Worker positions in FY 2023. The average number of payments includes numbers for several Case Workers that were new to their positions, in training, and processing fewer invoices than experienced Case Workers. Several Case Workers were also involved in testing the new ECMS throughout the year. Taking time for testing impacted the number of invoices that they were able to process during those months.

Burials - The number of unduplicated households (346) was higher than the target of 300. This is due to increased demand, the addition of a new burial/cremation vendor, and filling the Burial Case Worker position that was added in FY 2023.

Food Pantries - The food pantry measures were 15 percent higher than in FY 2022. However, the number outputs continue to be less than the target. History of this outcome indicates that the target may be set too high for current usage patterns since it has not been met the past three years. In 2021, Travis County reduced the number of Community Centers from seven to six. The Palm Square Community Center in downtown Austin and the Post Road Community Center in south-central Austin were closed, and the staff and services were relocated to the new Central Austin Community Center in north-central Austin. Because this change happened during COVID, reduction in the number of food pantries had been largely attributed to the fact that the Community Center lobbies were closed to the public, and food pantries were available only by appointment. However, now that all lobbies are open and numbers are still below target, it seems likely that a percentage of clients, particularly those who used to obtain services from Palm Square and Post Road, are now obtaining food pantry from a different, non-County food pantry in their area of the county. Expenditures for food pantry were zero because Central Texas Food Bank changed their procedures and provided food free of charge to their partner agencies in FY 2023, which they have continued in FY 2024.

Rent and Mortgage - The Emergency Rental Assistance Program (ERAP) ended in FY 2022, and most federal pandemic assistance for rent was no longer available in FY 2023. However, some federal LFRF pandemic assistance funds were used to provide rent and mortgage assistance during the first quarter of FY 2023 to applicants who had applied during the open window for applying for rent/mortgage assistance in the first part of March 2022. Since it took several months to process all of the applications for rent/mortgage assistance that were submitted during that two-week period, there were 435 unduplicated households who received rent or mortgage assistance using Pandemic Assistance for Rent/Mortgage LFRF funds during the first quarter of FY 2023 (end of the 2022 calendar year), with \$1,162,619 expended. Then, in October 2022, Chapter 272 policy was changed, as a pilot, to couple rent and mortgage assistance with holistic case management services. The change stipulated that in order to be eligible for rent or mortgage assistance, clients must be actively participating in case management services with a FSS Supportive Case Manager or, for clients with more complex needs, a FSS Social Worker. Clients can remain in case management services for a total of 12 months with a Supportive Case Manager or a total of 24 months with a Social Worker. The Supportive Case Manager or Social Worker meets with the client regularly, helping the client achieve individualized goals, including goals pertaining to increased housing and financial stability. After providing updated procedures and training to the Supportive Case Management and Social Work staff, clients on their caseload began being eligible for rent and mortgage assistance in January 2023. A total of 389 unduplicated households received rent or mortgage assistance with the Case Management Financial Assistance (CMFA) fund, with a total of \$1,934,976 expended. Due to these changes in Chapter 272, there was a 58 percent increase in the number of households that receives Social Work services. In addition to the 1,789 households contacted through the Social Work program, an additional 1,535 households were contacted through the Supportive Case Management program.

Utilities - In FY 2023, there continued to be increased pandemic utility assistance funds available through TDHCA grants. FSS received additional Comprehensive Energy Assistance Program – American Rescue Plan (CEAP ARP) funds, and the TDHCA pandemic assistance program for water/wastewater, the Low-Income Housing Water Assistance Program (LIHWAP), continued into FY 2023. The total amount expended for utilities with all funding sources was \$10,894,984, which was a 16.7 percent increase over expenditures in FY 2022. The amount expended with General Funds was \$1,017,079. FSS' largest utility

grant funding sources were CEAP (\$7,884,564), CEAP ARP (\$111,825), LIHWAP (\$1,337,608), Austin Energy Plus 1 (\$252,633), and Texas Gas Service Share the Warmth (\$177,147).

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
FSS Burial Program	\$84,588	1.00/1.00	There was an unforeseen delay in filling this position. The delay was primarily the result of the fact that there was no office space for the new Case Worker until the County Community Center staff were able to relocate into offices that had been vacated by CommUnity Care. The process for the County to make the space ready for the relocation took longer than anticipated. The Burial Case Worker position was filled in Spring of 2023. The FSS Indigent Burial program provided burial/cremation assistance to 77 more households in FY2023 than in FY2022.

COMMUNITY SERVICES

ENGAGE

The engage program, formerly Coming of Age, provides targeted civic and volunteer engagement and nonprofit capacity building services focusing on the contributions of those who are 50 years old and above. The program is not mandated. Coming of Age partners with non-profit, faith-based, and public organizations. HHS notes there are no other programs in Travis County that provide these targeted civic and volunteer engagement and nonprofit capacity building services that focus on the contributions of those who are 50 years old and above to strengthen communities.

The program is partially funded in the General Fund and through the Retired Senior Volunteer Program grant from the federal Corporation for National and Community Service (CNCS).

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Provide services that support people’s physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of volunteer service hours contributed	38,065	36,906	75,000	75,000	75,000
Percentage of volunteers reporting more purposeful lives	100%	100%	85%	85%	85%
Added dollar value of volunteer support to agencies	859,127	833,036	1,692,750	1,692,750	1,692,750
Number of active volunteers	253	230	450	450	450

This program was significantly impacted by the COVID-19 pandemic and is still working to recover. The number of active volunteers and volunteer hours contributed has not yet returned to pre-COVID levels. Staff continue to keep contact with all prior year volunteers to attempt to re-engage those that may still be interested in pursuing volunteer service as COVID-19 levels recede.

HOUSING AND WEATHERIZATION PROGRAM

Formerly the Travis County Housing Services Home Repair Program, the Weatherization and Home Repair Program is a Travis County General Fund program, in the Health and Human Services Department and Community Services Division, that provides materials and labor to correct immediate threats to occupants’ health and safety.

Housing Services is not a mandated program. Services for the Housing Services program include emergency electrical and plumbing repairs, emergency dwelling repairs (holes in exterior walls and floors), roof repairs and replacement, and handicap access (Construction of access ramps and modifications to the bathroom and kitchen.) These threats must be corrected before one or more of the grant-funded energy efficiency programs can be completed.

The Travis County Housing Services Weatherization Assistance Programs, funded primarily through two federal grants, provides free weatherization improvements to make homes more energy efficient for eligible county residents. Services include addressing health and safety concerns such as high carbon monoxide levels, minor electrical hazards, leaking water heaters, improved indoor air quality, reduction in moisture sources within the structure. In addition are standard energy efficiency improvements such as air infiltration reduction, installation of solar screens, attic insulation, HVAC duct sealing and replacement, replacement lighting with higher efficient bulbs, Energy Star compliant refrigerators, and heating and cooling appliances. The Weatherization Assistance Programs assist low-income individuals and families with a focus on the elderly, disabled and children under six years of age serving both rental units and homeowners.

The Texas Department of Housing and Community Affairs (TDHCA), serves as the grantor of these federal funds for Travis County Housing Services Weatherization Assistance Program, which includes a grant from the U.S. Department Of Energy (DOE) and a grant from the U.S. Department of Health and Human Services Low Income Home Energy Assistance Program (LIHEAP). The program must expend these grant awards or risk deobligation of funds.

Beginning in FY 2017 a revamp of the Chapter 279 County Code increased income guidelines from 125 percent of the Federal Poverty Income Guidelines (FPIG) to 200 percent. This provided a larger number of eligible households to receive assistance. It also compliments one of the weatherization grants (DOE) which is at 200 percent FPIG as well. The revised Chapter 279 added measures and increased caps on the Home Repair program, adding septic system replacement and separating out physically challenged retrofits, major repairs, and general home repair. All of these collectively provides Housing Services greater flexibility to assist eligible households and less reliability on referring out to partner agencies who in most cases are not able to assist anyway. While there are a good number of other agencies performing home repair initiatives, they are primarily on higher income households, and some require a loan on the property. Additionally, an estimated 15 percent of eligible clients reside in manufactured homes. There are limited resources in the county for eligible households that need home repairs on manufactured units. Most of the other programs do not work on these types of units. The Weatherization Program seeks out partnering opportunities as often as possible to maximize the assistance provided, while preserving the funding from grantors.

The program was formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and is now linked to the County Goal, “Protect and provide opportunity for those most vulnerable and underrepresented.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of DOE WAP expenditures completed	18%	13%	100%	100%	100%
% of homes completed within 90 days of assessment	48%	29%	50%	50%	50%

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of LIHEAP WAP expenditures completed	75%	3%	100%	100%	100%
# of Homes/Dwellings receiving home repair	115	82	115	115	115
# of unduplicated clients served	149	94	150	150	150

In 2023, Travis County received a monitoring report from TDHCA, which highlighted two critical issues that led to slower production for two of the programs: the Department of Energy (DOE) WAP expenditures and the Low-Income Home Energy Assistance Program Weatherization assistance program (LIHEAP-WAP). These issues were ameliorated by the Department, but they resulted in temporary delays in service that impacted the performance measures in FY 2023 and FY 2024. HHS requested extensions from their grant partners and have put in new processes to ensure compliance with all federal guidelines related to these grants.

This program was impacted by COVID-19 and continues to struggle to meet performance targets due to staffing levels. Despite adding an additional carpenter, vacancies throughout the year have meant that the waitlist for service remains longer than targeted.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Housing Services Carpenter	\$87,668	1.00/1.00	The position was filled in Feb 2024 and is providing services as designed. The ability to fully leverage all new federal investments is still limited as HHS works to receive more clarification on how resources can be used.

NEIGHBORHOOD CONFERENCE COMMITTEE

Neighborhood Conference Committee (NCC) is a community-based intervention program consisting of a collaborative partnership among Travis County Health and Human Services, Travis County Juvenile Probation Department (TCJPD), the District Attorney’s (DA) Office, Austin Municipal Court, Manor Municipal Court, and Lakeway Municipal Court. The program targets first-time juvenile offenders to create a voluntary contract based on the Restorative Justice Model.

The program is not mandated. Neighborhood Conference Committee aims to ensure:

- Youth development and educational momentum is not interrupted;
- Youth can continue to adult status without a criminal record;
- Community is invested in the success of the program;
- Community has restored faith in youth;
- Neighborhoods are improved and restored;
- Cost of juvenile delinquency to the community and to the taxpayers of Travis County is lowered; and
- Restoration and indemnification for victims of juvenile crime.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Protect and provide opportunity for those most vulnerable and underrepresented.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of cases completed successfully	99%	98.83%	90%	90%	90%
% of juveniles reoffending within one year/recidivism	0.005%	0%	10%	10%	10%
# of cases referred to NCC program from Juvenile Court	201	170	300	300	300

Changes in referral sources' staffing have led to fewer referral numbers overall. In addition, these performance measures are impacted by changes to various laws and practices regarding juvenile behaviors.

WORK-BASED LEARNING/SUMMER YOUTH EMPLOYMENT PROGRAM

The Work-Based Learning/Summer Youth Employment program prepares and empowers Travis County's young people with the foundation of career awareness, readiness, and access through training opportunities and paid internships.

The program is not mandated. The County and City of Austin jointly administer the Work Based Learning/Summer Youth Employment Program which offers work as a tool for learning, growth, and income as well as connecting youth with positive adult mentors. Emphasis is placed on developing partnerships with multiple community-based agencies to provide training, employment, mentoring, tutoring, and linking school to the world of work.

This program serves youth 14-17 years old and youth with disabilities up to the age of 22. Youth are required to complete job readiness training to be eligible for employment. If selected for the program, youth must complete 100 hours of employment. The program has had over 30 successful years providing job readiness training and experience to the next generations of Travis County leaders.

The Austin Youth Development Program is a year-round program that targets youth who are at risk beginning at 17 years of age who have a history of gang involvement, arrest, drug and alcohol abuse, and/or other negative behaviors. The primary focus of the program is to instill the life and work skills necessary in the development of healthy, productive and self-sufficient adults. This is achieved by work involving the removal of graffiti and fulfillment of contracts to perform lawn maintenance services.

The program was formerly linked to the County Goal, "Promote the well-being of our residents through social, economic, and health and safety initiatives" and is now linked to the County Goal, "Protect and provide opportunity for those most vulnerable and underrepresented."

% of youth satisfied with youth employment experience	99%	98%	93%	93%	93%
# of youth employed	522	731	400	550	750
# of youth offered employment	710	765	400	900	900

Over the past year, the program has had a transformative impact on Austin and the surrounding community. In 2023, the SYEP achieved remarkable growth, thanks to the decision to raise hourly wages from \$7.25 to \$13. The pay raise ignited a

surge in enthusiasm and engagement, making the program more attractive to families who recognize the importance of reliable income in meeting necessities. The SYEP is an invaluable opportunity for young participants to explore their career potential and contribute to their families' well-being. In 2023, the program provided a record-breaking 731 internships, exceeding expectations by surpassing the previous year's numbers by 145. These opportunities were dispersed across diverse jobsites spanning Travis County, offering in-person, fully remote, and hybrid options across an array of industries, including Community Development, Construction and Trades, Education, Government, Healthcare, IT, and Criminal Justice.

In FY 2024, the program has readjusted to operate just one longer session of 400 students during the summer, rather than splitting across two sessions and serving more youth. This change will create a more balanced job coach to youth ratio, to provide better supervision and support, mitigating risks for operating a larger group. This smaller cohort over one longer summer session will allow the program to operate within its logistical and operational limitations and deepen meaningful experiences for participants through more targeted and focused engagement. Over time, the County and City aim to return to serving more youth, ramping the program up through FY 2026.

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2023</i>			
Wage Increase	\$262,850	-/-	In 2023, the Summer Initiative achieved a remarkable feat by providing a record-breaking 731 internships, surpassing the previous year's numbers by 145. These opportunities were spread across diverse job sites spanning Travis County, offering internships that included in-person, fully remote, and hybrid options across various industries.

SERVICES FOR THE DEAF AND HARD OF HEARING

This program primarily provides interpreter services for those who are deaf and hard of hearing to the various units of Travis County Government, rather than the community contracts approved by the Commissioners Court. Providing these interpreter services is a mandated service based on the Americans with Disabilities Act, the Texas Criminal Code 38.31 and 38.32, the Texas Civil Practice and Remedies Code Chapter 21, and the Texas Government Code Chapter 57. The Travis County Courts are the primary users of this program.

In addition to the mandated interpretation services, this program also provides case management services to the deaf, deafblind, and the hard of hearing.

The program was formerly linked to the County Goal, "Promote the well-being of our residents through social, economic, and health and safety initiatives" and is now linked to the County Goal, "Protect and provide opportunity for those most vulnerable and underrepresented."

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of clients reporting satisfaction with quality of services	98%	90%	98%	98%	98%

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of interpreter requests successfully filled	98%	72%	98%	98%	98%
Number of Duplicated clients served: Case Management	863	1,387	2,500	2,500	2,500
Number of Duplicated clients served: Interpreter Services	3,766	2,833	1,873	3,000	3,000
Number of hours of service: Case Management	1,408	3,219	2,500	2,500	2,500
Number of hours of service: Interpreter Services	11,376	11,593	4,244	10,000	10,000
Number of Unduplicated clients served: Case Management	182	285	250	300	350
Number of Unduplicated clients served: Interpreter Services	370	1,345	1,163	600	600

The program served fewer clients for case management due to vacancies which resulted from a prolonged hiring freeze during the COVID-19 pandemic. The program is in the process of reaching full staffing for case management services and anticipates that it will better meet performance measures in future years.

The Department is requesting additional funds to increase the hourly rate for its temporary interpreter staff in FY 2025, with the goal of decreasing the reliance on contracted interpreter services, which are more expensive.

RESEARCH AND PLANNING

RESEARCH AND PLANNING PROGRAM

The Research and Planning Division (R&P) works within the Department, County, and the community to find solutions to complex human service issues. It is not mandated but supports both mandated and non-mandated programs.

The work of R&P falls into four broad program areas:

- Informing Our Community - The team creates access to quality data by: collecting, analyzing, and providing data; writing and distributing reports; conducting research, such as primary, secondary, and best practices; legislative and policy analysis; and GIS mapping.
- Finding Solutions - The team supports effective group processes by: planning, supporting, and participating in Department, County, and community collaborative group processes; designing and facilitating meetings and retreats; and developing and conducting workshops and trainings.
- Ensuring Effectiveness - The team plans, evaluates, and improves resource allocation by: fostering and implementing performance measurement and evaluation; providing program- and performance-related technical assistance; developing management tools and other measurement instruments; and designing and conducting surveys and focus groups.
- Investing in Social Service - The team plans and implements social service investments by: assessing and scoping Department issue area investment portfolios; implementing procurement processes for community investments;

evaluating proposals and negotiating contracts; and providing programmatic and performance contract management.

R&P staff coordinate, provide leadership, and guide performance reporting for the overall social service investment process. R&P collaborates with other divisions to plan and maintain the Department’s contract management systems, with particular focus on improving tools and supports for programmatic and performance oversight functions. R&P leads the Department’s social service investments performance reporting to PBO, the Commissioners Court, and the public.

The program was formerly linked to the County Goal, “Empower the public through civic engagement and collaboration” and is now linked to the County Goal, “Be a trusted and well-run county.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of customers who report that R&P facilitation helped them make progress on the group's goals	100%	100%	90%	90%	90%
Percent of contracted service providers who report that the support or technical assistance provided was Good or Excellent	N/A	N/A	95%	95%	95%
Percent of customers who report that they used information provided by R&P one of the following ways: Learn more about our community; Make or influence funding decisions; Make or influence policy decisions; Make or influence program changes; Make or influence system changes; and/or Write grants or receive funding	100%	0%	95%	95%	95%
Number of contracts managed by programmatic or performance staff (duplicated across programmatic and performance staff)	135	141	140	140	140
Number of work sessions facilitated	35	29	25	25	25
Number of groups or processes in which R&P participated and contributed	29	22	20	20	20
Number of groups or processes provided planning support or coordination	30	14	15	15	15
Number of project management, measurement, and other management tools/instruments developed	13	5	5	5	5
Number of reports completed	7	6	3	5	5
Number of times data or information-related technical assistance or training was provided	20	12	10	10	10
Number of times program- or performance-related technical assistance or training was provided	28	19	20	20	20

Number of investment-related deliverables produced	32	57	55	26	13
Percent of customers who report that the information provided by R&P was Useful	100%	0%	95%	95%	95%
Percent of customers who report that R&P facilitation helped them use effective group process	100%	100%	90%	90%	90%
Number of presentations given/prepared	23	28	20	20	20

R&P continues to lead Department efforts in social service investments, as HHS has shifted to phased multi-year competition cycles by issue area. The Department completed its first five-year investment cycle in 2018. The second five-year investment cycle was delayed, due to the combined impacts of revenue caps imposed by the state legislature in 2019 and the COVID-19 pandemic of 2020 onwards, while the Department revisited priorities and strategies to best focus investments given a no-growth budget. HHS began Cycle 2 in 2023 and completed the first round of Cycle 2 procurement with new FY 2024 contracts in 3 issue areas – Workforce Development, Youth Development, and Safety Intervention Services.

Overall, R&P has seen an increase in workload as well as a shift in type of workload handled by HHS staff. Although the specific focus of the Division often varies from year to year based on the needs and priorities of the Department and the community, most Division performance measures have continued to meet or exceed targets.

While much of R&P work has shifted to more of a Department and County focus given the significant effort surrounding social service investment planning, social service contracting processes, and implementation of federal pandemic funding including ARPA/LFRF allocations, R&P staff continue to strategically engage in relevant community planning efforts. R&P staff performance reflects a shift in efforts due to this ARPA/LFRF-related work, as well as efforts to steward County-wide initiatives such as the Supportive Housing Initiative, the Public Health Crisis Declaration and Opioid Remediation Funds, the Safer Travis County Resolution – Hospital-based Violence Intervention Pilot, the next steps to implement an Substance Use Disorder (SUD) Consortium following the community planning effort, Food System Planning, diversion planning, and multiple Early Childhood community efforts.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
10% MCE Increase to Social Services Contracts	\$1,486,043	-/-	This earmark was drawn on and distributed across all issue areas, detailed in the subsequent sections, to provide a 10% increase to all investments.
<i>FY 2023</i>			
Planners	\$190,483	2/2	The two Senior Planner positions were posted on January 14, 2023, and the application period closed on February 14, 2023. One of the two positions was filled on March 10, 2023 as a promotion for an incumbent Planner, the second was filled on May 1, 2023.

SOCIAL SERVICES CONTRACTS

SOCIAL SERVICE CONTRACTS: BEHAVIORAL HEALTH

Programs and services within this issue area promote identification of behavioral health disorders and early access to treatment, alleviate or heal symptoms of a behavioral health disorder, enhance resiliency by empowering individuals to manage their own treatment needs and symptoms, and collaborate and link with community resources on behalf of those seeking services. Behavioral health encompasses both mental health and substance use disorders and includes those experiencing mental health or substance use challenges that do not have a clinical diagnosis or have yet to be diagnosed.

HHS utilizes a system of phased competitive, multi-year planning and funding cycles for social service investments. HHS is currently implementing Cycle 2 procurement and is in the process of competing investments by issue area over three years. Services may include:

- Outpatient therapy services for individuals, couples, groups, and families;
- Case management;
- Education and training;
- Assessments and evaluations;
- Medication management;
- Psychiatric hospitalization;
- Residential treatment;
- Wraparound supports and services;
- Support groups;
- Para-professional supports;
- Non-traditional therapies;
- Substance use disorder treatment;
- Medication Assisted Treatment (MAT); and
- Crisis services

The program is not mandated. This issue area was competed in early 2018 and a new investment portfolio began in FY 2019. The issue area will compete in Spring 2025 for Cycle 2.

HHS offers contracted behavioral health services to eligible individuals and families through social service contracts and interlocal agreements. Significant portions of our Behavioral Health investments go to the local mental health authority (Integral Care) to ensure that we are promoting systemic solutions to community challenges.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Provide services that support people’s physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of clients with improved mental health	71%	79%	73%	73%	73%
Number of clients served	28,297	27,702	34,717	33,737	33,737
Percent of clients who engage in recovery from substance use disorder	56%	51%	51%	51%	51%
Percent of clients who are connected to additional needed services and resources	55%	39%	70%	70%	70%
Percent of clients who meet or make progress on treatment goals	88%	83%	66%	66%	66%

Behavioral Health Social Services programs met or exceeded goals for all outcome measures. Behavioral Health Social Services programs and Behavioral Health Interlocal programs fell short of targeted performance on the number of clients served. This result was primarily impacted by staff vacancies and turnover. Behavioral Health Interlocal programs also Experienced these contributing factors: smaller than expected number of program referrals, and time needed for program ramp-up. Additionally, the percent of individuals connected to needed services and resources also fell short of projections. Factors that

led to this result included staff vacancies and a methodology issue that led to artificially low numbers achieving this outcome. The remaining outcome measures met or exceeded the targeted range of performance.

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Opioid Public Health Emergency SPW	\$116,850	1.00/1.00	This position has been filled continuously since September 2022. The position facilitated compliance with the Court's directives for the Public Health Crisis Declaration related to Opioid overdoses and deaths. In FY 23 this position has been trained and will fulfill the contract management oversight of the County's three Opioid Abatement Contracts; oversees the Naloxone training and distribution - has executed 13 MOUs with NPO as distribution sites for 9,752 doses of NARCAN; position completed and is now a certified Overdose Lifeline trainer and has provided training to 321 individuals and distributed 712 does of Naloxone. Position is expanding their Overdose Lifeline Training to include youth so that the program can expand to reach young people. Overdose training and Naloxone distribution will happen throughout the fiscal year. Position also became a Youth Mental Health First Aid Trainer and in collaboration with Integral Care staff has trained Office of Children Services staff (45 people). Position is collaborating with purchasing, legal and risk management to execute the Kiosk program to collect sharps at six NPO across the County. This is a complex project and has taken over a year to design and obtain approval for implementation. It is expected this project will be executed by June 2024 and this position will provide oversight to the Kiosk program. The County applied for and was selected to receive \$950,000 in Community Projects to address opioid crisis in our community. These are two year projects and this position will be part of the team that develops, executes and monitors these projects.
ACT Team Expansion	\$1,554,087	-/-	The ACT Team Expansion has been funded for three years as a pilot program with the intent of the program being funded ongoing if the program was able to successfully serve the community. The program has been meeting or exceeding all benchmarks. Additional information about this program is included in the request for FY 2025 funding to continue this program.
<i>FY 2023</i>			
SUD Consortium Planning Support	\$113,334	-/-	HHS worked with County Attorney staff from summer 2022 to summer 2023 to develop a Memorandum of Understanding between the City, County, and Central Health, to memorialize how the partners would work together to obtain a vendor to develop, manage, and convene an SUD Consortium. The MOU also ensures that all three funders will continue to share the costs for this effort, over a 5 year period, and provide continued oversight of the selected convener. There is a pending RFS for the vendor to run this consortium. HHS has updated Commissioners Court consistently throughout this process.

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Jail-Based Intake	\$799,948	-/-	The program has demonstrated significant benefit to the community and has become an important part of the Travis County diversion system of care. Additional information about this program is included in the request for FY 2025 funding to continue this program.
Integral Care, Local Mental Health Authority Contract Increases	\$734,618	-/-	County authorized a funding increase for 11 county initiated and contracted programs for the amount of \$734,618. The intent of the increased funding was to address the increase in salary and benefits that is required to recruit and retain high quality staff for the programs. Across all 11 programs 92% of the positions have been filled. Additionally the overall agency turnover rate has decreased from the average of 31.6% in 2022 to 27.41% for 2023 and 24.7% as of February 2024. These increases were incorporated into the Integral Care contracts. The contracts met the performance goals, except for a slight under performance in children served due to one delay in hiring of a therapist mid contract year.

SOCIAL SERVICES CONTRACTS: YOUTH DEVELOPMENT

Programs and services within this issue area focus on ensuring that youth are academically successful, ready for work, trade, and or college, and have healthy social-emotional development. The Youth Services data in FY 2022 and FY 2023 reflect services procured in FY 2015, while projections in FY 2024 and beyond are for a new portfolio that was competed during FY 2023 and began in FY 2024. These services are not mandated. The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Promote economic well-being and racial, ethnic and economic equity.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of youth who demonstrate academic success and workforce readiness	77%	71%	0%	0%	0%
Percent of youth who demonstrate healthy social and emotional behaviors	94%	92%	0%	0%	0%
Number of unduplicated youth served	4,544	6,088	3,444	3,444	3,444
Percentage of youth who succeed academically by being promoted to the next grade level or graduating, by demonstrating increased school attendance or achieving 90% attendance, and/or by improving academics	0%	0%	82%	82%	82%
Percentage of youth who demonstrate readiness for college, work, and/or trade	0%	0%	79%	79%	79%
Percentage of youth who have healthy social-emotional development by improving or maintaining relational skills, resiliency skills, and/or improving behavior	0%	0%	79%	79%	79%

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percentage of clients who are connected and/or contribute to their community	0%	0%	75%	75%	75%

Programs in this issue area for FY 2023 served fewer youth due to the lingering effects of the pandemic, lower enrollment, staffing challenges, and limited space available for in-person programming. In addition, the effects of the pandemic also resulted in fewer youth demonstrating academic success. Previously, Youth and Early Childhood contracts were combined in one “Child and Youth Development” issue area. As of FY 2024, HHS reports on these contracts separately.

SOCIAL SERVICE CONTRACTS: EARLY CHILDHOOD

Programs and services within this issue area promote physically and emotionally healthy infants, children, and their families through a variety of programs and services which are available, affordable, accessible, and meet expected local, state, and national standards of quality. The scope of these services includes prevention, intervention, and early diversion programs.

The Early Childhood Services issue area is currently undergoing Cycle 2 procurement. There will be a new investment portfolio in FY 2025. Previously, Youth and Early Childhood contracts were combined in one “Child and Youth Development” issue area. As of FY 2024, HHS reports on these contracts separately.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of unduplicated children served	3,681	3,129	3,184	3,184	3,184
Percent of parents/caregivers/staff with an increase in skills that support nurturing and responsive environments for healthy child development	75%	78%	71%	71%	71%
Percent of service providers that maintain or increase quality rating	85%	85%	77%	77%	77%
Percent of children who demonstrate academic success	79%	77%	85%	85%	85%
Percent of children who demonstrate healthy social and emotional behaviors	78%	84%	85%	85%	85%

Programs in this issue area served fewer children due to the lingering effects of the pandemic, lower enrollment, staffing challenges, and limited space available for in-person programming. In addition, the effects of the pandemic also resulted in fewer children demonstrating academic success. Programs did exceed goals related to increasing either the quality of providers or the skills that support healthy child development. The effects of this effort can be seen in the increase of children demonstrating healthy social and emotional behaviors.

SOCIAL SERVICE CONTRACTS: HOUSING CONTINUUM

Programs and services within this issue area promote both availability of and access to safe, decent, affordable, and stable housing.

Programs span the housing continuum from providing temporary shelter to rental and homeownership assistance to support services related to homelessness prevention. Goals of the services are to prevent homelessness, reduce housing cost burden, and promote housing stability.

Services may include:

- Emergency shelter including food, bedding, and needed supplies;
- Safe and affordable transitional housing;
- Short and long-term financial assistance for rent, mortgage, and utilities;
- Case management, support services, tenant education, and legal advocacy to promote housing stability and reduce housing discrimination;
- Repair of rental and owned housing to address substandard housing and improve living conditions and energy efficiency;
- Assessment of energy usage and living patterns to educate clients regarding energy usage;
- Repairs and retrofits to address energy efficiency;
- Homebuyer assistance and education;
- Assistance in the creation of affordable housing units; and
- Infrastructure improvements to assist with neighborhood quality.

The program is not mandated. This issue area is currently undergoing procurement. A new investment portfolio will be in place in FY 2025 and will likely result in a new array of services and performance measures.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Promote economic well-being and racial, ethnic and economic equity.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of unduplicated clients that reported increased knowledge or skills in addressing their housing problems	89%	87%	82%	82%	82%
Percent of Emergency Shelter clients who transition into safe and stable housing at program exit	93%	89%	87%	87%	87%
Percent of Transitional Housing clients/households who transition into safe and stable housing at program exit	73%	92%	80%	80%	80%
Number of unduplicated clients served	7,075	6,244	7,124	7,124	7,124

Programs reported that they received a higher demand for their services than what was originally predicted. Despite turnover in some agencies, programs were able to meet the higher demand for services due to establishing more efficient systems.

Due to the current COVID–19 pandemic, shelter providers served fewer clients than anticipated due to health and safety protocols to limit the number of people in spaces that would otherwise be used at maximum capacity. In FY 2024 and beyond, the number of clients served is expected to return to previous trends.

SOCIAL SERVICE CONTRACTS: PUBLIC HEALTH

Programs and services within this issue area work to improve the health and well-being of community members; protect from injury and illness; reduce the occurrence and impact of disease; and increase public health emergency preparedness. Social Services programs provide services to residents living with HIV/AIDS to reduce new infections; increase access to care and improve health outcomes for people living with HIV/AIDS; reduce HIV-related health disparities and health inequities; and achieve a more coordinated response to the HIV epidemic. Social Services programs also work to prevent teen pregnancies, sexually transmitted infections, and associated sexual risk behaviors.

Services may include:

- Education;
- Improving treatment, care, and support for persons living with or facing health concerns;
- Case management and advocacy for additional or other client services;
- Promoting environmental health;
- Animal control and shelter services;
- Supportive services that promote linkage to and maintenance in care; and
- Teen pregnancy and sexually transmitted diseases prevention services.

The program is not mandated. This issue area was competed in early 2018 and a new investment portfolio began in FY 2019. The issue area will compete in Spring 2025 for Cycle 2.

The program was formerly linked to the County Goal, “Provide services that support people's physical and mental health” and is now linked to the County Goal, “Provide services that support people's physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of unduplicated clients living with HIV served	1,242	1,959	1,175	1,175	1,175
Number of unduplicated clients served with teen pregnancy prevention services	891	641	0	0	0
Percent of clients who report increased knowledge of prevention strategies	75%	85%	0%	0%	0%
Percent of clients who report using prevention strategies	85%	83%	0%	0%	0%
Percent of clients who are linked to and/or retained in medical care	86%	90%	89%	89%	89%

Public Health Social Service programs exceeded goals for all but one performance measure. The number of clients served with teen pregnancy prevention services was lower than projected (see the second output). This result was attributed to programming changes with key community partners.

The Teen Health Program with Planned Parenthood of Greater Texas ended after FY 2023. Therefore, there is no projected performance for FY 2024 and beyond for the following measures reflective of this program: Number of unduplicated clients served with teen pregnancy prevention services, Percent of clients who report increased knowledge of prevention strategies, and Percent of clients who report using prevention strategies.

SOCIAL SERVICE CONTRACTS: SAFETY INTERVENTION

Programs and services within this issue area promote the safety and well-being of individuals, families, and communities that are at high risk of, have experienced, or have committed acts of victimization, loss, and/or harm.

Services may include:

- Crisis and transitional housing for those affected by violence, abuse, and/or neglect;
- Counseling;
- Educational/Psycho-educational groups;
- Case management;

- Individual and systems advocacy; and
- Information and referral.

The program is not mandated. This issue area competed in FY 2023 and the new investment portfolio began in FY 2024.

The program was formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and is now linked to the County Goal, “Protect and provide opportunity for those most vulnerable and underrepresented.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of clients making progress toward their trauma adjustment goals	94%	98%	90%	90%	90%
Percent of children and youth who exit program into permanent living situations	85%	81%	0%	0%	0%
Percent of clients who exit shelter to a location that does not include the person who was previously abusive	98%	93%	90%	90%	90%
Number of shelter nights provided	22,957	24,006	27,000	27,000	27,000
Number of unduplicated clients served	2,488	2,405	1,500	1,500	1,500

Safety Intervention Services programs fell slightly short of performance projections for both output measures but met or exceeded the targeted range of performance across all outcome measures. Staff noted that fewer children are coming into the care of the state than in prior years. Further, for programs offering shelter, some clients required extended stays due to a lack of placement options; other clients needed a higher level of care, which necessitated a lower shelter census to ensure the safety of staff and clients.

SOCIAL SERVICE CONTRACTS: ACCESS TO BASIC SUPPORTS

Programs and services within this issue area provide access to food to prevent hunger and promote wellness, and to legally entitled benefits for identified populations.

HHS has contracted programs that offer basic support services related to food, transportation, and legal rights and benefits. Services may include:

- Food and meals, programs that support access to healthy food, education about nutrition, and safe food preparation and handling
- Licensed attorney services, Board Accredited Legal representation or other authorized representation, appropriate consultation for system compliance, prevention activities around fraudulent and predatory practices in legal benefit systems, legal clinics, or helplines
- System navigation assistance.

In addition, the program which sought to increase the percentage of individuals growing their own food has been discontinued and the relevant program structures have been zeroed out in FY 2023.

The program is not mandated. Competition occurred in early FY 2017 and a new investment portfolio began in FY 2018. Issue area will compete in Spring 2025 for cycle 2.

The program was formerly linked to the County Goal, “Promote community resilience in daily living and in times of emergency” and is now linked to the County Goal, “Promote economic well-being and racial, ethnic and economic equity.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of meals or meal equivalents provided	11,553,319	11,761,498	7,892,654	7,892,654	7,892,654
Number of unduplicated Food clients served	241,536	215,690	168,825	168,825	168,825
Number of unduplicated Legal Rights and Benefits clients served	803	956	1100	1100	1100
Percentage of clients who report that they are growing their own food	74%	0%	0%	0%	0%
Percentage of immigration applications approved	97%	98%	0%	90%	90%
Percentage of clients who preserved, obtained, or increased a public benefit	98%	97%	0%	80%	80%

Access to Basic Supports food programs exceeded goals for all output and outcome measures. This result was primarily impacted by changing community and economic conditions. Clients are becoming more confident since the end of the pandemic and are starting to access in-person services more frequently. Changing economic conditions have increased demand for basic food services as more families struggle to make ends meet. Contractors reported shifts in demand by physical location as more families move in from other states and/or move outside of city boundaries to more affordable areas within Travis County.

Legal Rights and Benefits programs fell short of targeted performance on the output measures and exceeded targeted performance on the outcome measures. The results in this area were greatly impacted by reduced staff capacity and changing legal climate and mandates.

SOCIAL SERVICE CONTRACTS: SUPPORTIVE SERVICES FOR COMMUNITY LIVING

Programs and services within this issue area work to promote independence and well-being of older adults and people with disabilities supporting living in the home while ensuring safety of person and environment and maximizing quality of life and community engagement.

The program is not mandated. This issue area is undergoing Cycle 2 procurement now and will have a new investment portfolio in FY 25.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Provide services that support people’s physical and mental health.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of clients who report that the service helped them live independently at home	94%	92%	87%	87%	87%
Percent of clients who report that services helped them stay connected or engaged with the community	76%	96%	80%	80%	80%
Number of unduplicated clients served	8,239	7,731	8,185	8,185	8,185

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of clients who maintain or increase ability or skills needed to function and/or live independently	91%	91%	86%	86%	86%
Percent of clients who report they are connected to services and resources	94%	88%	85%	85%	85%
Percent of clients who are connected to and/or remain in school or work due to services	70%	71%	80%	80%	80%

The contractors in this issue area underperformed in some areas and overperformed in other areas. Like other issue areas, these contractors experienced great variety and changing landscapes as their targeted populations continue recovering post-pandemic. Some of issues affecting contractors in this issue area include high staff turnover rates, clients remaining in services for longer periods of time, clients with more needs, as well as decreased client feedback and participation in some cases.

SOCIAL SERVICE CONTRACTS: WORKFORCE DEVELOPMENT

Programs and services within this issue area provide a continuum of employment, training, and adult education services to help individuals improve workplace skills, obtain employment, succeed in the workplace, and help employers secure a skilled workforce.

Services may include:

- Literacy, GED, and adult basic education;
- English as a Second Language (ESL) classes;
- Job readiness and occupation-specific training (including, but no limited to, vocational certification and formal higher education opportunities);
- Job search and job placement assistance; and
- Related instruction, coaching, or counseling leading to employment and earnings gain.

This issue area was competed in FY 2023 and the new investment portfolio began in FY 2024. The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Promote economic well-being and racial, ethnic and economic equity.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Percent of individuals earning a wage of at least \$12/hr	99%	94%	0%	0%	0%
Percent of individuals maintaining employment for 6 months	62%	67%	78%	78%	78%
Percent of individuals obtaining employment	55%	47%	70%	70%	70%
Number of unduplicated clients served	3,322	3,487	2,905	2,905	2,905

Contractors in this issue area served fewer clients than expected. Contractors experienced fewer clients obtaining employment; however, of the ones that did obtain employment, more of them retained their employment for longer than six months and were earning a wage of at least \$12 per hour. Some contractors made changes to their programming by investing in additional staff positions to support recruiting and outreach. They also invested additional funding in creating incentives and paying stipends that reflect the higher costs of living in Austin and the changing economic conditions. Other contractors found that their clients were experiencing more attendance issues, and as a result it took longer for them to finish

training and vocational programs. The lower completion rates also affected their employment rates. Some contractors in this issue area also reported high staff turnover rates and difficulty hiring staff.

TEXAS A&M AGRILIFE EXTENSION SERVICES

The AgriLife Extension Service’s mission is to improve the lives of people, businesses, and communities in Travis County by providing high quality, relevant outreach, and continuing education programs and services to residents.

The program is not mandated. The program provides a high level of expertise in the core service areas of 4-H and youth development, agriculture and natural resources, horticulture, integrated pest management, family and community health, nutrition, health, and wellness, and a cooperative extension program with Prairie View A&M University.

Educational programs are presented to a very large population of inner-city youth and families, as well as to landowners, homeowners, and other residents across the County. Staff of professional educators utilize a large corps of trained volunteers to assist with program delivery in order to multiply efforts to reach a significant number of clients.

Travis County funds 30 percent of the salary and benefits for the Extension Director and five Extension Agents under an interlocal agreement with Texas A&M.

The program was formerly linked to the County Goal, “Promote the well-being of our residents through social, economic, and health and safety initiatives” and is now linked to the County Goal, “Promote economic well-being and racial, ethnic and economic equity.”

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>

Percentage of students who know an adult who is a scientist/uses science for their job	27%	35%	30%	30%	30%
Percentage of students wanting a job related to science	72%	75%	75%	75%	75%

This program has struggled with recruitment of staff since the COVID-19 pandemic. In FY 2024, the program received additional funds to support an increase to a \$20/hour wage, which HHS believes will help with recruiting and retaining staff. Performance measures in FY 2023 remained below target, but with the changes to salary and an increase in demand for contracts with schools to receive 4-H services, the program anticipates it will return to prior trends in the coming years.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

Package Name	Approved Amount	FTE Approved /Filled	Program Results
<i>FY 2024</i>			
Wage Increase to \$20/hour	\$371,701	-/-	This increase has helped with recruitment and retention.
<i>FY 2023</i>			
AgriLife 4H Staffing	\$63,301	1.00/1.00	This position is filled and has been working to manage administrative and outreach tasks related to this program.

SUPPORTIVE HOUSING

CDBG

The Community Development Block Grant (CDBG) Program is a program the federal government provides via annual grants to cities and counties to develop viable urban communities by providing decent housing and a suitable living environment by expanding economic opportunities for low and moderate-income persons. The Travis County General Fund allocation for CDBG Administration supports staff costs to support the planning, project implementation, technical assistance, reporting, evaluation, programmatic monitoring, database management, fair housing, and general grant oversight.

CDBG is not a mandated or statutorily required service. It is an entitlement source of grant funding, meaning that the County has to decline receiving funding. The federal government provides the program through annual grants to city and counties under the provisions of Title 1 of the Housing and Community Development Act of 1974 (42 USC 5301). From 2006-2023, Travis County has received \$17,366,144 in community development block grant funds. This is a substantial investment in community development in unincorporated Travis County and small cities that have opted to participate in the County's CDBG program. The program was formerly linked to the County Goal, "Promote the well-being of our residents through social, economic, and health and safety initiatives" and is now linked to the County Goal, "Promote economic well-being and racial, ethnic and economic equity."

Measure	Actual FY 2022 Measure	Actual FY 2023 Measure	Projected FY 2024 Measure	Projected FY 2025 Measure	Projected FY 2026 Measure
Increase % of services to areas of very low/low opportunity	0%	0.5%	0.5%	0.5%	0.5%
Meet HUD required spending ratio by August 1st	3.23	1.9	1.5	1.5	1.5
Successful completion of monitoring visit by HUD personnel - findings.	0	0	0	0	0

Due to a combination of factors including staff changeover in the CDBG office, delays with relaunching the home rehab program, and pandemic related barriers, expenditures did not meet HUD's expenditure rate of 1.5. However, due to the ongoing challenges presented by the COVID-19 Pandemic, HUD has waived sanctions through 2022. The CDBG Office spending ratio improved from 3.23 in FY 2022 to 1.9 in FY 2023, which was due to the success and completion of three infrastructure projects (Austin's Colony, Forest Bluff, and SE Metro Playground, which was a delayed 2015 project).

SUPPORTIVE HOUSING INITIATIVE PIPELINE (SHIP)

The Supportive Housing Initiative Pipeline (SHIP) is currently largely funded using Local Fiscal Recovery Funds (LFRF). These funds will be used to loan approximately \$113,427,587 to non-profits that are building deeply affordable housing for people experiencing homelessness or are at risk of becoming homeless. Over 2,000 new affordable units will be built through the SHIP partners. The Travis County staff working on this project are also funded through the LFRF. This is a new division within HHS, created in anticipation of this project proceeding beyond the LFRF grant closeout date of December 31, 2026. HHS will work with PBO to develop goals and performance measures for this program in future fiscal years. Below are the projects currently funded through SHIP:

<i>Non-Profit Partner</i>	<i>Project Name</i>	<i>Funding Amount</i>
Foundations Communities	Burleson Studios	\$15,000,000
Foundations Communities	Juniper Creek	\$6,500,000
Mobile Loaves and Fishes	Community First! Burleson Village	\$35,000,000
The Other Ones Foundation	Esperanza Community	\$3,000,000
Austin Area Urban League	Urban Empowerment Zone	\$8,503,016
Caritas of Austin	Cairn Point at Cameron	\$6,422,262
Family Eldercare	Rosewood II/Real Gardens	\$4,474,947
Integral Care	Seabrook Square II	\$10,684,557
Life Works	The Works III at Tillery	\$12,992,103
A New Entry	Webberville Trauma Transformation Center	\$3,580,000
SAFE Alliance	The Lancaster	\$7,270,702
Total		\$113,427,587

The Other Ones Foundation project is the only SHIP project currently funded using the General Fund rather than the LFRF.

COMMUNITY LIAISON

This program was formerly housed in the Office of the Chief Deputy. As of FY 2024, the two positions that made up this program were moved into the Supportive Housing Division and into the Office of Children Services. The HHS Community Liaisons conduct outreach and facilitate engagement through activities such attend local resource fairs, HHS division engagement activities, attending county events. The staff engage the community through a variety of strategies, including but not limited to social media, in-person events, maintaining the HHS website, publishing print media, and preparing materials for posting and distribution at community centers. These positions also participate in planning committees both internal to Travis County and externally with Community partners and government agencies. The goal of this program is to assist HHS by serving as a liaison to the community, outside organizations, and among internal divisions and to promote, advertise, and educate the public and stakeholders regarding HHS services and programs.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of activities that generate new leads and partnerships	29%	50%	50%	50%	50%
# of forums/collaborations/events organized or facilitated	41	66	55	55	55
# of TA sessions provided to HHS divisions and CBOs	43	31	35	35	35

Outcome measures are based on the number of leads generated from community forums, collaborations, promotional events organized, attended or facilitated, over the total number of initiatives the Community Liaisons actively work within a 12-

month period. These positions also coordinate their efforts with the PIO and Travis County media to maximize their reach and ensure full utilization of Travis County platforms. They collaborate with HHS program staff to highlight annual events and acknowledgement of significant community issues that align with HHS such as Child Abuse Awareness and Prevention celebrated in April and Mental Health month celebrated in May.

PUBLIC HEALTH

This is a new division that HHS will begin reporting on in FY 2025. This Division was first created in the FY 2024 budget process. This division is responsible for managing the City of Austin Interlocal Agreements for Public Health and Animal Services. In addition, the division works on various public health initiatives, including the Safer Travis County project that is LFRF-funded among other projects. HHS will work with PBO to develop performance measures during FY 2025 in order to report more fully on this program in FY 2026.

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>

Public Health Senior Planner	\$96,996	1.00/1.00	This position was filled in March 2024 and began work on the City of Austin ILAs and other pending projects.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024
Personnel	18,182,756	19,274,335	21,624,169	22,710,239	1,086,070
Operating	36,132,245	37,480,118	39,937,768	41,892,803	1,955,035
Total (Per&Op)	\$ 54,315,001	\$ 56,754,453	\$ 61,561,937	\$ 64,603,042	\$ 3,041,105
CAR*	-	-	-	13,000	13,000
Grand Total	\$ 54,315,001	\$ 56,754,453	\$ 61,561,937	\$ 64,616,042	\$ 3,054,105
FTEs	216.01	223.01	228.01	230.01	2.00

*Capital funding for FY 2025 may include Capital Acquisition Resources (CAR) budgeted in the office or department, funding budgeted in a central department, or potential Certificates of Obligation (COs). The allocation between CAR projects and COs is still being finalized. Certificate of Obligation totals will be shown separately in the FY 2025 Adopted Budget.

The FY 2025 Preliminary Budget for Health and Human Services increased by \$3,054,105 from the FY 2024 Adopted Budget. This is a 5.0 percent increase. The majority of the increase was in the operating budget due to expected contract increases and one-time funding for behavioral health projects.

FY 2025 PRELIMINARY BUDGET RECOMMENDATIONS SUMMARY

	Ongoing	One-Time	CAR	Total	FTEs	Earmarks

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for Health and Human Services includes the following programmatic changes occurring after the adoption of the FY 2024 Adopted Budget:

- \$2,806,764 was removed from the budget related to one-time operating costs for items approved in the FY 2024 Adopted Budget;
- \$837,111 was added to the budget related to ongoing costs for a 10 percent maintenance of current effort increase in Social Services Investments, which was an Earmark in the FY 2024 Adopted Budget and drawn on midyear; and

- \$84,098 and one FTE was added to the budget related to a new Carpenter position for the Weatherization and Home Repair Division to assist with workload. This was an Earmark in the FY 2024 Adopted Budget and was drawn on midyear.

The FY 2025 Preliminary Budget for Health and Human Services includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Resources to continue the Assertive Community Treatment Program Expansion for a recommended additional two years	1,554,087	-	1,554,087	-
Resources to continue the Jail Based Intake and Care Navigation Services for a recommended additional two years	824,948	-	824,948	-
Resources to add ongoing funds related to a midyear draw on FY 2024 Earmark for 10 percent maintenance of current effort increase in Social Services Investments	-	648,923	648,923	-
Resources to continue temporary staffing for HHS Food Pantries and Support Services	284,544	-	284,544	-
Resources for an indigent burial budget increase in order to increase rates for contractors and meet current service needs	-	215,000	215,000	-
Resources to increase the Deaf and Hard of Hearing temporary staff hourly rate to meet market standards	-	188,190	188,190	-
Resources to convert an existing Special Project Worker dedicated to work on the Opioid Crisis into an FTE	-	106,081	106,081	1.00
Transfer from the District Attorney’s Office for the Center for Child Protection Contract (\$70,000) and an additional increase to that contract (\$30,000)	-	100,000	100,000	-
Resources to fully fund the FY 2025 AgriLife Contract	-	20,000	20,000	-
Resources for increased cost of Adobe Subscription Licenses	-	11,379	11,379	-
Resources to address cost increases for agricultural and livestock supplies needed by the AgriLife program	-	6,000	6,000	-
Total Programmatic Recommendations	\$2,663,579	\$1,295,573	\$3,959,152	1.00

ADMINISTRATIVE AND OTHER FUNDING CHANGES

Included in the FY 2025 Preliminary Budget is a 50 percent restoration of the travel and training budget reductions that were needed to balance the FY 2021 Adopted budget. Reductions were implemented to stabilize the County's budget in response to revenue uncertainty at the outset of the COVID-19 Pandemic. Restored funding for travel and training includes \$109,041 in ongoing operating resources for the Department. Given the constraints of SB2, it may not be possible to make any further restorations in future budgets. Offices and Departments will continue to need to prioritize their travel and training needs within their budget.

In addition, the FY 2025 Preliminary Budget for HHS includes an internal adjustment of \$42,721 from personnel to operating to adjust the budget to meet Department needs.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for Health and Human Services includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.	-	\$737,557	\$737,557
Resources for health insurance cost increases for FY 2025.	-	120,910	120,910
Total Compensation Changes	\$-	\$858,467	\$858,467

FY 2024 compensation adjustments were distributed to office and department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. A full description of all compensation adjustments can be found in the Preliminary Budget Volume I document.

The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

There is currently no rate increase planned for retirement.

INTERNAL REALLOCATIONS

Health and Human Services internally funded several reclassifications using their available personnel budget, listed below. These reclassifications are to align the position titles and commensurate salaries with the roles performed, experience of the staff, and the needs of the Department. PBO approves these reclassifications, pending review by HRMD.

<i>Position Number</i>	<i>Current Job Title</i>	<i>Proposed Job Title</i>	<i>Salary Increase</i>
30005223	Planning Project Mgr	Strategic Advisor	\$41,970
30005225	Executive Asst	Office Manager Sr	8,580
30065183	Human Resources Specialist II	Human Resources Specialist Sr	6,023
30005414	Accountant	Accountant Sr	12,906
30005415	Accountant	Accountant Sr	5,288
30005418	Accountant Lead	Financial Analyst Lead	3,222

CAPITAL FUNDING

Capital Acquisition Resources (CAR) funding in the FY 2025 Preliminary Budget totals \$13,000 for the Department. There was a reduction of \$27,481 to remove one-time funding for prior year capital funded projects. This is a net \$14,481 decrease compared to the amount budgeted in the FY 2024 Adopted Budget. FY 2025 Preliminary Budget recommended CAR funding includes:

<i>Capital Funding Recommendations</i>	<i>Total</i>
Five computers for Office of Children’s Services Interns to replace ITS loaner computers	\$13,000
Total Capital Funding Recommendations	\$13,000

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Health and Human Services budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Permanent Supportive Housing (PSH) for At-Home ATX Collaboration	\$ 2,241,681
Workforce Solutions LFRF Contingency	1,000,000
Extraordinary Events resources as part of City of Austin Public Health Interlocal Agreement	1,500,000
Resources to address Opioid Substance Use Crisis	575,000
Second year of Children's Crisis Respite lease	100,000
Weatherization and Home Repair contingency resources for TDHCA grant-related purchases, septic systems, and cost escalations for construction equipment	799,000
Total Allocated Reserve Earmarks	\$4,715,681

In addition to the above earmarks against the Allocated Reserve, the FY 2025 Preliminary Budget also includes \$2,008,000 in the Interlocal Reserve for the City of Austin Animal Services and Public Health Interlocals. These agreements are subject to change as the City and County proceed with negotiations, so these funds have not been added to the Department budget.

Opioid Settlement funds received thus far by the County are included in a grant fund which is tracked and managed separately from the General Fund. More details on these resources are documented in Request #23: Opioid Crisis Earmarks.

ADDITIONAL INFORMATION

NON-PROPERTY TAX REVENUE

To promote full cost recovery for Commissioners Court approved fees and contracts, the Planning and Budget Office worked with the County Auditor's Office to compile a list of fees charged for services and a list of revenue generating contracts. Some fees and/or contracts have not been adjusted to keep pace with the costs of providing the service. They also fail to consider other factors such as inflation or to include the indirect costs of other supporting departments. PBO will focus on fees that have not been updated in several years. The full cost recovery for revenue generating contracts will be calculated with the assistance of the Planning and Budget Office per GFOA best practices, but the annual increase for FY 2025 will be capped at a 15% increase per direction of the Commissioners Court as part of the adopted FY 2025 Budget Guidelines. This is the same direction provided for FY 2024. This approach will cause the County to take longer to achieve full cost recovery in many of these agreements but will lessen the impact to our partner jurisdictions. In total, Health and Human Services has 24 fees it charges and 6 revenue generating contracts it manages. All of the fees and two of the contracts are being proposed by HHS for adjustment in FY 2025.

Below are tables with additional details on the fees and revenue generating contracts that have been proposed by Health and Human Services for adjustment.

All of the below fees are derived using a cost recovery formula by the City of Austin as the inspections and work associated with these fees is conducted by the City and reimbursed by the County for the portion of the population that resides in the County and not the City. Historically, Travis County has updated its fees to match the City's each year but due to staffing shortages in both the City and County, these fees have not been updated since 2019.

HHS is currently working with the City of Austin to receive final costing sheets related to these fees and will work with PBO and the Auditors Office to bring the fees to Court. Most of these fees are deposited into Special Revenue Fund 0138, the Health Food Permits Fund and do not impact General Fund revenue. Many of the recommended increases exceed the 15

percent increase cap noted above. Because there has been such a long delay in updating the fees, residents living in the City versus the County are paying significantly more for the same service. This is an equity issue, and the Department believes that increasing the fees to match the City's, regardless of the total increase, is a reasonable approach to ensure that there isn't an undue benefit to those just outside city limits. PBO and the Auditor's Office will coordinate presenting the recommended changes to the Commissioners Court. The second table shows the four revenue generating contracts which are being adjusted based on projected service levels. Recommended changes to any revenue contracts will be presented to the Commissioners Court at the next contract renewal or according to the terms of the contract.

<i>Fee Description</i>	<i>FY 2024 Approved Fee</i>	<i>FY 2025 Proposed Fee</i>
Food Service, Retail Food, Low Risk/Small - 1C	\$250	\$347

VACANT POSITIONS

The Department currently has 16 total vacancies, out of which the following five positions have been vacant from 120 to 365 days.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Social Services Program Administrator	30005261	1.00	363	Position closed 3/5/24, actively screening candidates
Case Worker	30005369	1.00	250	Re-posting with broader salary range to expand qualified applicant pool
Planner Sr	30066726	1.00	204	Recruitment plan being updated
Business Analyst I	30066603	1.00	204	Position posted, actively screening candidates
Social Services Program Specialist Assoc	30005253	1.00	158	Position closed 3/5/24, actively screening candidates

The following six positions have been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Education Instructional Specialist	30000663	0.75	936	On Hold: Program Review
Education Instructional Specialist	30050952	0.25	625	On Hold: Program Review
Planning Project Mgr	30005223	1.00	625	Interim Assignment of Current Staff; Reclassed to Strategic Advisor
Education Instructional Specialist	30000662	0.25	591	On Hold: Program Review
Education Instructional Specialist	30050951	0.25	474	On Hold: Program Review
Social Services Program Coord	30063063	1.00	436	Request for posting/recruitment in process

Several of the above long-term vacancies are related to the Texas AgriLife Extension program. This program has struggled post-pandemic to fill its positions, due in part to a lack of contracts with schools in which to run programming and a difficulty in hiring and keeping AmeriCorps member staff. In response to this decrease in programming, the Education Instructional Specialist have not been filled. Once AmeriCorps contracts and member capacity increases again, HHS anticipates they will fill these positions, though this may take up to an additional year to two years. PBO recommends that HHS continue to evaluate the ongoing need for these positions over the long-term to ensure the best funding and staffing structure for the AmeriCorps programming from year to year.

FUTURE CONSIDERATIONS

Health and Human Services has experienced a significant increase in demand for its services over the last four years. The population of the Travis County area continues to grow, and the high cost of living coupled with continuing challenges related to inflation have resulted in 22 percent of Travis County residents living below 200 percent of the poverty threshold. The COVID-19 pandemic highlighted and exacerbated health, economic, and social inequities and the Department continues to support pandemic recovery even now. HHS was also the recipient of significant one-time investments from the Federal Local Fiscal Recovery Funds (LFRF), and managing those projects associated with those funds has posed a workload challenge for

the Department. As these funds are expended, the one-time nature of the investment means that community partners are again beginning to see long-term investments for the programs that have been successful. HHS anticipates that demands to continue these one-time investments, including positions funded through the LFRF, beyond the 2026 grant close out date will begin to arise.

In addition to these challenges, HHS has been deeply involved in the countywide efforts related to jail diversion, behavioral health, affordable housing, and violence prevention. These issues are often interconnected, and HHS acknowledges the growing need to invest time and resources into addressing all factors related to this countywide effort. HHS is actively involved in planning initiatives related to these and other issues, including the Substance Use Disorder (SUD) Consortium, the Opioid Overdose and Death public health crisis, the Diversion System, Collaborative Planning Around Homelessness, the Children's Funding Project, and the Austin Travis County Food Plan. These planning efforts, as they develop policy recommendations, strategies, and best practices, may result in future requests for funding.

The Department has worked closely with Information Technology Services (ITS) to implement its new Enterprise Case Management System (ECMS), which will replace the dated legacy system. This ECMS will allow HHS to better track its performance measures and manage its internal metrics, which will result in better data to leverage for improved service delivery.

FY 2025 BUDGET REQUEST ANALYSIS

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting to convert the existing LFRF-funded Supportive Housing Division Director to a full-time General Fund FTE. There have been various changes in Treasury Guidelines related to which positions can be paid for through the LFRF until grant close out in December 2026. The Supportive Housing Division Director splits time working on LFRF-funded Supportive Housing Initiative Pipeline (SHIP) projects and CDBG projects, as well as supervising both LFRF-funded and General Fund staff. Based on the changes made to Treasury guidelines in December 2023, the County believed this position may not be LFRF-eligible beyond December 2024 because of this split in work responsibilities between LFRF and non-LFRF projects. However, this position is central to the operations of the Supportive Housing Division, which was newly created to manage both existing CDBG programs and the SHIP projects and will be needed even beyond the December 2026 grant close out date.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

As reported to Commissioners Court during the December 19, 2023 LFRF update, in November 2023, the Treasury issued an Obligation Interim Final Rule (IFR) to address LFRF recipients questions and comments regarding the definition of “obligation” as it pertains to the Treasury’s requirements that all LFRF funds be “obligated” by December 31, 2024. This IFR provided clarification on the definition and provided related guidance specifically regarding which personnel costs are allowable after the December 31, 2024, obligation deadline and until the expenditure deadline of December 31, 2026.

These clarifications provided specific limitations on personnel expenses after the obligation deadline, allowing only those personnel directly involved in LFRF administrative work, such as reporting and compliance, single audit work, record retention and internal control requirements, property standards, environmental compliance requirements, and civil rights and nondiscrimination requirements, to be funded through LFRF resources after December 31, 2024 and through December

31, 2026. Based on these changes, PBO commenced work to develop recommendations for how to fund the 51 Special Project Worker positions that were funded through the LFRF, considering that many of them would no longer be eligible for LFRF funding after December 31, 2024 based on the November Treasury guidance. This position, the Supportive Housing Division Director, was thought to not be eligible for LFRF funding beyond 2024 based on this guidance.

On March 29, 2024, the Treasury released a new set of Frequently Asked Questions which changes this guidance to allow recipients to consider funds obligated under LFRF rules for any personnel whose salary may be paid under an eligible use of SLFRF funds through December 31, 2026, for any position that existed and was filled by December 31, 2024. This is an expansion of the previous understanding from the November 2023 Treasury Guidelines. In addition, reporting deadlines for personnel expenses were moved from April 30, 2024 to July 2024 for administrative expenses and January 2025 for all other personnel. PBO did not complete its analysis of this new information before HHS submitted its budget request, and so PBO recommended that HHS submit all LFRF-related positions that may have been ineligible under the LFRF under the November 2023 guidance through the budget process, in case they would need General Fund resources.

This Supportive Housing Division Director position was originally funded through the LFRF on May 10, 2022, and it was authorized to continue until grant close out, December 31, 2026, on April 30, 2023. PBO reaffirmed with Court on July 23, 2024 that this position is LFRF-eligible and will be funded through the LFRF until grant close out, December 31, 2026.

REQUEST #2: RETAIN 17 LFRF-FUNDED SPW POSITIONS

<i>Program:</i>	Family Support Services			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	17.00	-	-	-
Personnel	1,319,587	-	-	-
Operating	45,427	-	-	-
Subtotal	\$ 1,365,014	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 1,365,014	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,365,014	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Family Support Services Division is requesting to retain 17 Special Project Workers that have been funded through the Local Fiscal Recovery Fund (LFRF), which have currently been approved only until December 31, 2024. There have been various changes in Treasury Guidelines related to which positions can be paid for through the LFRF until grant close out in December 2026. It was unclear if these positions would be eligible under those rules.

The 17 SPWs provide basic needs assistance services to the community. They are divided across the community centers as follows, with one Social Services Manager position, seven Case Workers, and nine Office Specialists.

<i>Position Title</i>	<i>Location</i>	<i>No. of Positions</i>
Case Worker	Central Austin Community Center	1.00
Case Worker	Del Valle Community Center	1.00
Case Worker	Jonestown Community Center	1.00
Case Worker	Manor Community Center	1.00
Case Worker	Oak Hill Community Center	1.00
Case Worker	Pflugerville Community Center	2.00
Office Specialist	Central Austin Community Center	4.00
Office Specialist	Del Valle Community Center	1.00
Office Specialist	Jonestown Community Center	1.00
Office Specialist	Manor Community Center	1.00
Office Specialist	Pflugerville Community Center	2.00
Social Services Manager	Pflugerville Community Center	1.00

These 17 SPW positions were added during the COVID-19 pandemic to meet the huge increase in demand for services. While the pandemic has ended, there continues to be an increased need for services, as the cost of living in Travis County remains at a historical high. Additionally, the increase in demand is also the result of the FSS online application for assistance that was created in response to the pandemic-era office closures. The online application, which is available 24/7, made applying for services more convenient for many clients and increased the number of applications that are submitted, while also increasing the number of calls and emails from clients inquiring about their application status or requesting assistance in completing the application.

Additionally, a new Electronic Client Management System (ECSM) is scheduled to “go live” for FSS at the end of April 2024. While this system should deliver greater efficiency in the long-term, during the transition from the current systems and processes, while staff and clients are learning, it is expected that work processes will take longer to perform. Clients will also need greater support to complete applications and access portals in the new system.

Further, amid higher demand, FSS had to reduce the number of Texas Department of Housing and Community Affairs (TDHCA) Comprehensive Energy Assistance Program (CEAP) funded temporary Office Specialist positions. Two 40-hour per week CEAP Office Specialist positions were eliminated to account for the pay raises that Office Specialist across the County received in FY23, since the amount of TDHCA CEAP administrative funds was not also increased. Due to a reduction in CEAP funding in FY24, one CEAP temporary Office Specialist position was eliminated, and there may be a need to eliminate an additional position if salary savings are insufficient to cover the costs. In 2021 there were eight CEAP temporary Office Specialist positions, and there are currently only four positions, with the possibility of only having three.

PBO RECOMMENDATION

As reported to Commissioners Court during the December 19, 2023 LFRF update, in November 2023, the Treasury issued an Obligation Interim Final Rule (IFR) to address LFRF recipients questions and comments regarding the definition of “obligation” as it pertains to the Treasury’s requirements that all LFRF funds be “obligated” by December 31, 2024. This IFR provided clarification on the definition and provided related guidance specifically regarding which personnel costs are allowable after the December 31, 2024, obligation deadline and until the expenditure deadline of December 31, 2026.

These clarifications provided specific limitations on personnel expenses after the obligation deadline, allowing only those personnel directly involved in LFRF administrative work, such as reporting and compliance, single audit work, record retention and internal control requirements, property standards, environmental compliance requirements, and civil rights and nondiscrimination requirements, to be funded through LFRF resources after December 31, 2024 and through December 31, 2026. Based on these changes, PBO commenced work to develop recommendations for how to fund the 51 Special Project Worker positions that were funded through the LFRF, considering that many of them would no longer be eligible for LFRF

funding after December 31, 2024 based on the November Treasury guidance. These positions, as direct service positions rather than administrative position, were thought not to be eligible for LFRF funding based on this guidance.

On March 29, 2024, the Treasury released a new set of Frequently Asked Questions which changes this guidance to allow recipients to consider funds obligated under LFRF rules for any personnel whose salary may be paid under an eligible use of SLFRF funds through December 31, 2026, for any position that existed and was filled by December 31, 2024. This is an expansion of the previous understanding from the November 2023 Treasury Guidelines. In addition, reporting deadlines for personnel expenses were moved from April 30, 2024 to July 2024 for administrative expenses and January 2025 for all other personnel. PBO did not complete its analysis of this new information before HHS submitted its budget request, and so PBO recommended that HHS submit all LFRF-related positions that may have been ineligible under the LFRF under the November 2023 guidance through the budget process, in case they would need General Fund resources.

These 17 HHS SPWs were originally funded through the LFRF and they were authorized only through December 31, 2024. These positions work to process the increase in applications for family support services, including rental assistance applications, utility assistance, food pantry, and case management. The increase in demand for these services was directly connected to the negative economic impacts of the pandemic as well as the shift, resulting from the pandemic, of making applications available online on a 24/7 basis. This was a significant improvement in service to the community, but it resulted in an ongoing increase in applications that need to be processed, resulting in long waiting lists that only the additional staff have been able to help manage.

Per Court action on July 23, 2024, these positions will continue to be funded through the LFRF until the end of FY 2025. The Department should plan to resubmit these positions for consideration in the FY 2026 budget process.

Dpt Total + Earmarks	\$ 355,000	\$ 284,544	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Family Support Services Division requests funding to retain Openwork (formerly Evins) administrative and food pantry (warehouse) temporary personnel services to continue to meet increased demand for services at the Travis County Community Centers.

This contract was funded using the LFRF, but because this is an as-needed contract and funds cannot be encumbered in the contract, this will not be eligible for the LFRF after the obligation deadline of December 31, 2024.

Since near the beginning of the COVID-19 pandemic, Family Support Services (FSS) has been using Openwork (formerly named “Evins”) temporary staff to provide administrative and food pantry support to county Community Centers. The temporary staff initially replaced AARP Foundation Senior Community Service Employment Program participants and other volunteers that provided support to the centers, but which were put on hold during the pandemic. The temporary staff also helped address the increased demand brought about by the pandemic due to financial strains faced by County residents.

Now that the centers have fully opened, the Community Centers have resumed having AARP participants and volunteers, albeit at somewhat lower number due to continued health concerns of potential participants/volunteers. However, the demand for services has continued at a higher rate than prior to the pandemic, due to population increase and increased cost of living in Travis County. Several of the centers continue to need temporary staff to fulfill operations and provide good customer service to clients. FSS is also transitioning to a new Electronic Client Management System (ECMS), which will result in additional need for client support and less efficient processing of applications, as staff and clients learn how to use the new system.

Further, amid higher demand, FSS has had to reduce the number of Texas Department of Housing and Community Affairs (TDHCA) Comprehensive Energy Assistance Program (CEAP) funded temporary Office Specialist positions. Two 40-hour per week CEAP Office Specialist positions were eliminated to account for the pay raises that Office Specialist across the County received in FY 2023, since the amount of TDHCA CEAP administrative funds was not also increased. Due to a reduction in CEAP funding in FY 2024, one CEAP temporary Office Specialist position was eliminated, and there may be a need to eliminate an additional position if salary savings are insufficient to cover the costs. In 2021 there were eight CEAP temporary Office Specialist positions, and there are currently only four positions, with the possibility of only having three.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of HH's that received Food Pantry	4,596	5,298	5,750	6,000	6,000	6,250
Amount expended for Food Pantry	48,393	0	0	190,510	190,510	190,510
# of HH's that received Utilities	8,565	7,635	7,000	7,000	7,000	7,000
Amount expended for Utilities	9,336,538	10,894,984	1,260,000	1,260,000	1,260,000	1,260,000

Average number of payments processed by caseworker per month	71	53	60	60	60	60

PBO RECOMMENDATION

PBO has previously recommended that these temporary contracted staff be funded through the LFRF as they were assisting with Food Bank roles that had previously been held by senior volunteers who could no longer participate due to the pandemic. In addition, Food Pantries were seeing a higher than previous usage rate and continue to see that increase in service demand. Many of these senior food pantry volunteers have been unable to return to volunteering, and those that have returned are limited, as they have been in the past, by restrictions on work hours and other restrictions, such as weight-limits on what they can lift, based on the rules set out by the AARP volunteer program. These limitations make meeting the post-COVID demands of the food pantries difficult with just AARP volunteers. Similarly, the elimination of CEAP staff has further limited the resources available to HHS to fill gaps when there is high demand. Previously, the Community Centers had sufficient Office Specialist staff available that they could occasionally assist in the food pantries when necessary. Now, when that need arises, it puts a strain on other tasks that require Office Specialist attention, like process rental and utility applications that have continued to increase in the past year.

There are no more LFRF resources available for this expense, but PBO acknowledges that the need for temporary staff to continue to fill these roles remains. PBO recommends a one-time allocation of \$284,544 to continue the five temporary staff that HHS has utilized throughout the year. This amount was determined using the following information:

<i>Community Center</i>	<i>Number of Evins Temps</i>	<i>Hours Per Week</i>	<i>Position Type</i>	<i>Hourly Rate</i>
Central Austin	2.00	40	Admin	\$26.40
Del Valle	1.00	40	Warehouse	\$28.00
Oak Hill	1.00	40	Warehouse	\$28.00
Manor	1.00	40	Warehouse	\$28.00

Should HHS need additional funds for temporary staff beyond the funds allocated over the course of FY 2025, PBO recommends that HHS utilize any vacancy savings that are generated within the Family Support Services division.

DEPT. SUMMARY OF REQUEST

The Health and Human Services Department is requesting \$17,319 to pay for 69 annual Zoom for Government subscriptions and \$49,203 to pay for 213 annual Adobe Pro subscriptions. Both are essential tools for executing many HHS business processes.

Zoom for Government:

During the pandemic and the attendant business process changes required of working remotely, Zoom became a fundamental tool for HHS staff to communicate internally and externally.

Staff from several HHS divisions use Zoom for Government on a regular basis. Staff use Zoom for facilitating virtual meetings with community organizations and/or community members. The request states several Zoom features are more enhanced than in Teams (e.g. more functionality in breakouts, chat, polling, view settings) that make it the superior platform for virtual facilitation. Social Workers across the department use Zoom, because their clients find it easier than Teams and are often more familiar with Zoom from using it for other purposes. It is more intuitive than Teams for people who have a hard time with technology. Importantly, Zoom is recognized as being HIPAA compliant, and is designed to comply with the stringent requirements of local, state, and federal government. Deaf Services interpretation software and tools do not work on Teams, so Zoom must be used by deaf and hard of hearing staff and communities. The Department reports Zoom generally always works, whereas Teams gets glitchy and stops working mid meeting when internet strength is poor, which happens often when meeting with people outside of County buildings.

Zoom licenses support the HHS mission to build a community where all can thrive, by enhancing engagement through virtual meetings, ensuring service delivery regardless of physical location, and supporting equitable access to services. HHS staff facilitate Zoom meetings that improve productivity and encourage collaborative problem solving and informed decision making across a range of health and human services issues areas. These processes help to address community needs and fill gaps in services related to several of the County’s strategic goals --promoting economic well-being, supporting physical and mental health, providing opportunities for the most vulnerable and underrepresented, as well as promoting environmental sustainability by enabling remote participation, reducing travel, and ensuring continuous operation during disruptions.

Adobe Pro:

Adobe Pro has moved from providing five-year license subscriptions to an annual license subscription. Nearly all of HHS’s Adobe Pro subscriptions will need to be renewed in early FY 2025, and every year going forward for the foreseeable future.

Most HHS staff use Adobe Pro daily while creating, editing, annotating, merging, and signing Portable Document Format (PDF) documents, including the following:

- Interlocal Agreements and Social Service Investment Contracts
- Reports and Publications
- Invoices and Requests for Payment forms
- Flyers and Brochures

These activities support the County’s strategic goal of being trusted and well-run, promoting economic well-being, supporting physical and mental health, and providing opportunities for the most vulnerable and underrepresented.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

All HHS Zoom licenses are now centralized in the Information Technology Services budget, and this expense of \$17,319 is included as part of the ITS FY 2025 Preliminary Budget.

PBO recommends \$11,379 in ongoing funds for Adobe Licenses that need to be renewed in FY 2025. PBO discussed the licenses with ITS to identify which licenses needed funds for renewal in FY 2025 and which could wait until FY 2026.

REQUEST #5: PREVENTATIVE MAINTENANCE AND REPAIR FOR FOOD PANTRY REFRIGERATORS AND FREEZERS

<i>Program:</i>	Family Support Services			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 26,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Family Support Services Division is requesting increased funding for the maintenance and repair of the commercial refrigerators and freezers in the six community center food pantries. FSS also is requesting funding to purchase an additional commercial refrigerator and freezer for the Oak Hill Community Center to expand the availability of fresh and frozen foods for Travis County residents seeking food pantry services.

This request includes \$18,000 in ongoing funding to increase the funding allocated in the “Other Equipment Repairs and Maintenance” line item for a total allocation of \$24,249 funding for the maintenance and repair of the commercial refrigerators and freezers. Additionally, \$8,000 is requested to purchase one commercial refrigerator and one commercial freezer for the Oak Hill Community Center food pantry.

FSS has a current budget of \$6,249 in “Other Equipment Repairs and Maintenance” and has no funds allocated to purchase new equipment. In FY 2023, FSS spent \$14,889 on equipment repair and maintenance of the food pantry equipment, with the amount that exceeded the budgeted amount, \$8,640, coming out of the funds budgeted for office supplies. Additionally, in FY 2023, FSS spent \$6,874 to purchase new equipment for the food pantries, both to replace refrigerators and freezers that were no longer repairable and to obtain additional refrigerators and freezers to expand capacity. Since there was no funding in the budget for these purchases, the funding came from the HHS general budget.

In addition, the Oak Hill Community Center has experienced a significant increase in both demand for food pantry services and subsequently food being received at the location. There is a need for an additional commercial fridge and commercial freezer at this location to meet that need.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of HH's that received Food Pantry	4,596	5,298	5,750	6,000	6,000	6,250

PBO RECOMMENDATION

The Food Assistance budget for Family Support Services, which totals \$190,510, was not expended for food assistance in FY 2024 because the Central Texas Food Bank (CTFB) changed their procedures and provided food free of charge to their partner agencies in FY 2024. On February 20, 2024, HHS received Commissioners Court approval to use some of these funds to purchase a refrigerated truck for the Family Support Services food program. This truck cost \$110,416, leaving a balance in the Food Assistance budget of \$80,094. PBO recommends that HHS utilize \$8,000 of that balance in FY 2024 to purchase the commercial refrigerator and the commercial freezer for the Oak Hill Community Center. This will allow the Department to utilize its existing budget that is available due to the current policy change by CTFB for relevant food assistance needs.

Currently, it is unclear if CTFB will continue this practice of not charging Travis County for food assistance in FY 2025. If this practice does continue, PBO recommends that HHS utilize the available funds that are not needed for food assistance for needed maintenance and purchases in FY 2025. PBO recognizes that the maintenance costs associated with the operating of the food assistance program has increased likely due to inflation and aging deferred repairs. In FY 2023, HHS did not expend \$74,166 of its designated budget for supplies and equipment. Similarly in FY 2022, a total of \$64,597 of the supplies and equipment budget was not expended. Based on these unused funds, PBO does not at this time recommend increasing the supplies and equipment budget for HHS and recommends that the Department continue to internally fund the cost increases associated with this program using existing resources from within other Divisions. PBO will revisit this program budget in FY 2026 to determine if increases are necessary based on the overall expenditure rates of the Department.

REQUEST #6: AGRILIFE AGENT/CED SALARY INCREASE

REQUEST #7: AGRILIFE INCREASE MAINTENANCE OF CURRENT EFFORT FOR GOATS AND SUPPLIES

<i>Program:</i>	Texas A&M AgriLife Extension Service (158)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 26,000	\$ 26,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting a \$20,000 ongoing increase in its AgriLife Extension Services program to meet the increased cost of the interlocal agreement with Texas A&M for work related to educational demonstrations.

The AgriLife program provides outreach and education programs across the County related to agriculture, horticulture, natural resource conservation and management, and teaching life skills to youth. It is an interlocal agreement with Texas A&M AgriLife Extension. The interlocal splits the funding for six positions, including the Extension Director and five Extension Agents who provide the educational and other services. The County pays for 30 percent of these position’s salaries, while Texas A&M AgriLife Extension pays for 70 percent. The cost of this interlocal agreement is increasing to reflect the increased salaries for these positions.

In addition to this contract cost increase, the AgriLife Extension Services program has been experiencing an increased annual cost for the Capital 4-H Goat Project. This project involves educating youth on the raising and caring of live animals through experiential learning, including teaching them about health, nutrition, breeding, selection, and marketing. The program operates in both the Austin Independent School District and the Del Valle Independent School District. The annual cost of goats, feed, and other care has increased and funding the program within the existing budget has been a consistent challenge, so the Department is requesting an additional \$6,000 annually to pay for cost escalations.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

Texas A&M increased its contract by \$20,000 starting in FY 2025. PBO recommends adding \$20,000 ongoing to the AgriLife Extension Services budget in order to address this increase.

The AgriLife Extension program used 102 percent and 100 percent of its livestock and veterinary supplies budget in 2022 and 2023 respectively. According to the USDA, the average cost to care for livestock increased by 18.1 percent between 2021 and

2023. The livestock and veterinary care budget for this program has been \$18,000 since prior to 2012. PBO recommends increasing this budget by \$6,000 ongoing to account for inflationary pressures on the equipment used for this program.

REQUEST #8: JAIL BASED INTAKE AND CARE NAVIGATION SERVICES

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting ongoing funding for the Jail-Based Intake and Care Navigation Services program. This program, provided by Integral Care, focuses on continuity of mental health care for individuals being released from the Travis County Correctional Complex. This program has been funded as a pilot with one-time resources in FY 2022, FY 2023, and FY 2024. Without authorization for additional funding, this program will discontinue serving clients in July 2024 and close out all services by September 2024.

HHS has monitored the implementation and ongoing service delivery of this program and is recommending that the program be continued with ongoing funding in FY 2025. The program has demonstrated significant benefit to the community and has become an important part of the Travis County diversion system of care. This program was designed and implemented to address a significant gap in the continuity of behavioral health care for persons being released from incarceration. The Department states not sustaining this program perpetuates this gap, continues poorer outcomes for vulnerable individuals, and does not capitalize on the investment, the shared learning, and strong collaborative relationships built with TCCC and other criminal legal entities (judges, prosecutors, public defenders). The collaborative partners of this program fully support sustaining this program and see the program as a critical component in addressing the service needs of individuals at the intersection of behavioral health and the criminal legal system.

This program was identified by the community as a needed resource because individuals leaving the Travis County Correctional Complex (TCCC) encounter many challenges as they reenter the community, particularly as it relates to connecting to ongoing behavioral healthcare. A long-identified gap in our community has been that people in TCCC have not had an opportunity to be assessed for eligibility and opened to behavioral health and/or Intellectual Disability (ID) or Developmental Disability (DD) services through Integral Care prior to leaving TCCC. This program addresses this gap by embedding Integral Care’s Jail-Based Intake and Care Navigation Services intake staff at TCCC to assess eligibility and assign eligible Travis County residents to Integral Care’s ongoing behavioral health services. This team also focuses on engagement with people in TCCC who initially decline to be assessed for eligibility and services. Additionally, this team meets with those in the community (once they leave TCCC) who agree to meet, to 1) ensure medication continuity during this vulnerable time; 2) assist in applying for/reestablishing benefits; and 3) continue engagement/provide peer support specialist treatment services until they have successfully attended their first appointment and are fully engaged with their assigned treatment team.

The team operating this program is comprised of one manager, one team lead, two Qualified Mental Health Providers (QMHPs), two peer specialists, and a half-time Advanced Practice Nurse (APN). This team also includes a reimbursement specialist to assist people in obtaining and/or reinstating benefits. All eight positions have been filled. In addition to continuing these positions, HHS is requesting adding a 0.25 Licensed Vocation Nurse (LVN or equivalent) to the team. The LVN would be responsible for providing medication services, including the administration of long-acting injections, and addressing any case management needs related to medication that could otherwise create barriers to seamless access. Consumers consistently report difficulty managing timelines and expectations related to medication management while transitioning out of jail. Having a medical professional who can provide medication support services during the transition out of jail and into the community significantly enhances continuity of care regarding medications, particularly long-acting injections. The cost of this additional position is \$25,000 per year and is included in this request.

Throughout FY 2023 the team served 588 people incarcerated in Travis County and supported them in connecting with resources to promote long-term recovery. Through advocacy, communication with community partners, and comprehensive discharge planning, the team was able to facilitate releases for 49 percent of clients within 30 days of engaging with the team. 85 percent of individuals served by the team did not recidivate within the 30 days following release. The program has met its quarterly goals since becoming fully functional.

Percentage of clients who received services while in TCCC who were released within 30 days after entering the program	N/A	49%	Baseline	0%	Baseline	Baseline

PBO RECOMMENDATION

The Jail-Based Intake pilot was originally funded for one year as part of the FY 2022 budget process. In FY 2022, HHS submitted a Mental Health Services Improvement request through the budget process that included nine separate programs to begin to address the gaps in the safety net service provision for the community. This program was part of that request, and, through the budget process, five of the programs were designated for ongoing funding, one was funded for two years, two programs were not funded and the Jail-Based Intake program was authorized for one year during budget mark-up.

In FY 2023, the program was extended for two more years as a one-time pilot in order to capitalize on the investment already made to design and launch the program with collaborative partners. In FY 2024, this program cost \$799,948. The cost has increased since it was first funded for \$715,300 due to escalations in Integral Care contracts largely related to salary increases.

This program has become a central community resource for individuals leaving the Travis County Correctional Complex, connecting these individuals to ongoing behavioral care. It has met and exceeded its performance metrics since it began fully operating in June 2022. The program is designed to provide continuity of care to individuals who first receive behavioral health treatment at TCCC and ensures that they can remain active in their recovery post-release. The goal is to prevent recidivism and help these individuals remain and thrive in their communities. This program is part of Travis County’s overall diversion system of care, which has become a significant Commissioners Court priority.

HHS is also requesting an increase in funding by \$25,000 to add a 0.25 Licensed Vocational Nurse or equivalent to this program. This LVN would work directly with clients transitioning out of jail to manage their medication, including administering long-acting injections which significantly improve outcomes for those that may struggle with barriers related to medication management such as transportation, cost, and other logistics.

PBO recommends one-time funding to continue this program for an additional two years, with the addition of a \$25,000 LVN to the program. Based on the outcomes of this program, PBO would recommend ongoing funding but based on revenue limitations, instead recommends that this program continue for two more years with one-time resources. Travis County is in the process of developing an overarching diversion system of which this program may be a significant part. PBO recommends that HHS continue to work with Commissioners Court and relevant Departments and coordinating groups to incorporate

ongoing funding for Jail-Based Intake into the broader diversion system planning process. HHS may wish to consider bringing this item to Commissioners Court as part of a budget hearing to request the funding be made ongoing should additional resources become available later in the fiscal year.

REQUEST #9: ASSERTIVE COMMUNITY TREATMENT (ACT) TEAM EXPANSION

<i>Program:</i>	Social Services Investments - Behavioral Health Contracts			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Subtotal	\$ 1,554,087	\$ 1,554,087	\$ 1,554,087	\$ -
Capital	-	-	-	-
Dpt Total	\$ 1,554,087	\$ 1,554,087	\$ 1,554,087	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,554,087	\$ 1,554,087	\$ 1,554,087	\$ -

DEPT. SUMMARY OF REQUEST

HHS is requesting ongoing operating funding of \$1,554,087 to fund the Assertive Community Treatment expansion pilot on an ongoing basis. This program was funded as a two-year pilot starting in FY 2022 and again on a one-time basis in FY 2024 as part of a County investment in mental health system improvements. The program serves individuals with serious and persistent mental health conditions. The pilot has functioned as designed and is now part of the community’s relied upon service continuum for those with severe mental illness.

HHS is recommending that the ACT Team Expansion be continued beyond the extended three-year pilot phase and be funded in FY 2025 with ongoing general funds. The ACT Team Expansion serves adults over 18 years old who live in Travis County with serious and persistent mental health conditions and a history of multiple and/or long-term psychiatric hospitalizations. Services are provided in the client’s home (including shelter, streets, and encampments), schools, clinics, and anywhere in the community based upon the client’s need. ACT services are not limited by time and are based on clinical need and client choice. ACT is an evidenced-based practice utilizing a team-based, person-centered, recovery-oriented approach that helps reduce psychiatric bed days and emergency medical service usage by addressing client crisis within the team, improving health outcomes. With the multi-disciplinary makeup of the team, ACT can deliver comprehensive services directly to clients rather than referring to external providers. The multi-disciplinary team consists of ACT Qualified Mental Health Providers (QMHPs), a Co-occurring psychiatric and substance use disorder specialist (COPSD), an Employment Specialist, a Licensed Professional of the Healing Arts (LPHA) Team Lead, a Program Manager, an Advanced Practice Nurse, a Peer Support Specialist, and a Registered Nurse.

The ACT Team Expansion is a defined, evidence-based model that is being implemented to fidelity by Integral Care. There are four existing ACT Teams with Integral Care. This proposal is funding the ACT Team that has no exclusionary criteria based on insurance or specialty populations to meet the increased need for these services by the community. Comparisons between the ACT Teams show no appreciable difference in implementation or outcomes. The criterion for each team is outlined below:

- Classic ACT Team—Requires 80 percent of census to have Medicare or Medicaid
- Forensic ACT Team—Requires individuals to have a NGRI/46B hospitalization (involuntary commitment) in the last year or five or more arrests
- Housing First ACT—Requires client to be currently or formally chronically homeless
- ACT Expansion—No requirements for insurance or specialty populations

Integral Care has instituted a Quality Management (QM) program that measures performance of processes that support care, and fosters systemic improvements based upon analysis of the data. Integral Care staff harvests the data from its electronic health record and then completes an analysis of trends, patterns, and performance levels to improve outcomes of individuals served. Additionally frequent, ongoing, data-driven feedback is provided to the clinicians and their administrative support system. In addition, the QM program uses quality improvement teams and projects to develop plans that focus on improving processes and outcomes in more specific areas and uses the Plan-Do-Study-Act (PDSA) Performance Improvement Cycle model. The Quality Leadership Team (QLT) identifies and addresses systemic barriers to performance, suggests new indicators to monitor important aspects of care, and establishes thresholds for evaluation.

The major benchmark that HHS is monitoring is the reduction of the interest list for ACT Team services. Since the implementation of the pilot, the interest list has been reduced 90%. Fluctuations in the interest list vary based on program staffing. Upon completion of a Return-on-Investment (ROI) Study the following outcomes were noted:

- 100% Decrease in State Hospital Admissions and State Hospital Bed Days
- 36% Decrease in Private Psychiatric Hospital Admissions
- 44% Decrease in Private Psychiatric Hospital Bed Days
- 39% Decrease in Medical Inpatient Admissions
- 36% Decrease in Medical Inpatient Bed Days

These reductions resulted in a 12-month cost savings of over \$2,349,721 or \$33,567 per client served over a 12-month period.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Number of clients served	28,297	27,702	34,717	0	34,717	34,717
Percent of clients with improved mental health	71%	79%	73%	0	73%	73%
<i>New Measures</i>						
Percentage of individuals receiving Program Services for 6 months who show a decrease in utilization of emergency room/emergency department, crisis services, and/or inpatient hospital days	79%	76%	60%	0	60%	60%
Number of individuals linked to or who maintain mainstream benefits (SNAP, SOAR, TANF, WIC, Medicaid, MAP)	32	66	60	0	60	60

PBO RECOMMENDATION

PBO is recommending an additional two years of one-time funding to continue the ACT Team Expansion Pilot.

Over its three years of funding, this pilot has significantly expanded the number of clients that can be served by ACT teams, which was previously limited by staffing and by restrictions related to eligibility criteria. This program was originally intended to be a pilot that would receive ongoing funding should the program prove to be effective. Over that time, the program has decreased the ACT interest list by 90 percent by serving more clients, and as noted above, has resulted in decreases in psychiatric admissions, hospital admission and bed days, and medical inpatient admissions and bed days for those created by the ACT Expansion Team. In addition, the Integral Care Quality Management performance review found that the 12-month cost savings for this program are over \$2,349,721 or \$33,567 per client served, as this program decreases costs related to individuals not receiving needed behavioral and mental health services.

Should this program not receive funding in the FY 2025 Preliminary Budget, Integral Care would need 120 days of funding to wind down services. Two other ACT Teams would continue to operate in Travis County, but these teams are either funded through Medicaid billing and so are limited to those on Medicaid or are limited by other criteria such as housing status or hospitalizations/arrests. The ACT Team Expansion specifically targets individuals outside of these criteria, who based on their mental and behavioral health are at risk of beginning a cycle of entering County jails and emergency departments. This ACT Team allows the County to be more proactive in assisting these individuals before they enter this cycle.

Current revenue projections have restricted available ongoing funds. PBO understands that continuing to operate as a pilot with one-time resources can put pressure on a program and staff, as there is uncertainty each year regarding whether this program will have ongoing funding. Health and Human Services and the Commissioners Court have been working to prioritize various programs that would divert people from the criminal justice system and may wish to expend available ongoing resources for programming towards that goal. This project does not directly target populations involved with the Criminal Justice system, but over the course of its three-year operations, it has become a trusted and relied-upon resource for those working in this field and those experiencing mental health crisis and has played a role in diverting those who may have entered the criminal justice system due to a lack of behavioral and psychiatric care. PBO recommends one-time funding over the next two years for this program in the FY 2025 Preliminary Budget but recommends that HHS work with Commissioners Court, involved County departments, and stakeholders to determine how this program fits into the greater scheme of the County's investments in mental health services. HHS may wish to consider bringing this item to Commissioners Court as part of a budget hearing to request the funding be made ongoing should additional resources become available later in the fiscal year.

REQUEST #10: HHS CONTRACT MANAGEMENT SYSTEM

DEPT. SUMMARY OF REQUEST

The Health and Human Services Department seeks to procure a new Social Services Contract Management and Payment System in order to improve the efficiency, accuracy, and timeliness of tracking contract performance, paying vendor invoices, and creating meaningful reports on the County Social Service Investments managed by the Department.

The Health and Human Services Department currently utilizes an antiquated system of hand entering data into Microsoft Excel spreadsheets to track contract performance measures and deliverables, receipt and payment of invoices, and reporting on 90 distinct General Fund agreements and an additional 17 distinct Local Fiscal Recovery Fund (LFRF) agreements, all of which total \$130,248,128. As a result of this inefficient system, the Department struggles with timely invoicing occasionally.

A contract management and payment system would be utilized by both HHS Finance and HHS Research and Planning. The current process of primarily using Microsoft Excel to manage contracts and invoicing has resulted in not only interest payments being owed to vendors but has also resulted in some vendors no longer accepting grant funds from Travis County, due in part to the length of time it takes to receive payments.

The proposed performance measures for the new HHS Contract Management System are the reduction of 1) the average time between receipt of an invoice in HHS to submission to Auditors Office from 20 days to 10, and 2) the average number of Prompt Payment Act Violations per year from 285 to 142 –a 50% reduction in both. These two measured improvements will have a positive impact on all of the Health and Human Services Divisions that work with outside vendors, which include Research and Planning, Supportive Housing, the Office of Children’s Services, the Community Services Division, the Family Support Services Division, and Public Health.

HHS proposes acting as the pilot organization for such a software, and potentially rolling it out to other Departments, including possibly TNR, FMD, Purchasing, Auditors Office, and Emergency Services should it be a viable solution.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>

The average number of Prompt Payment Act Violations per year.	N/A	N/A	N/A	285 days	142 days	142 days

PBO RECOMMENDATION

PBO acknowledges that HHS’s ability to manage its existing and growing workload of contracts with external agencies is limited by the rudimentary tools currently at its disposal. In addition to the existing contracts, including one-time LFRF contracts that significantly increased the Department’s workload, HHS would be the primary recipient and manager of programming funds should the residents of Travis County vote in approval of a childcare tax rate election that the County is currently exploring. This tax rate election would result in more contracts that would benefit from an improved contract management system.

After discussion with ITS and Purchasing, PBO recommends that HHS work with ITS to determine if there is an existing platform used or planning to be used within the County, such as Ariba, that could integrate with HHS’s new Enterprise Case Management System or with existing SAP functionality to allow for better contract management. Alternatively, since contract management is a countywide issue, ITS should take the lead on exploring an enterprise-wide solution that could onboard HHS as an early adopter. As these various options are explored, it may be necessary to establish an earmark or additional funding for this purpose, however PBO believes that there are additional steps and processes needed before a contract management solution can be implemented.

REQUEST #11: MAINTENANCE OF CURRENT EFFORT – BURIAL BUDGET INCREASE

<i>Program:</i>	Family Support Services			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 215,000	\$ 215,000	\$ 215,000	\$ 215,000

DEPT. SUMMARY OF REQUEST

The Family Support Services Division requests funding to increase the Indigent Burial internment services budget to meet costs associated with providing more burials and cremations and to increase the reimbursement rates to vendors for burials and cremations.

Providing Indigent Burial is a mandated county service per Texas State Health and Safety Code, Title 8, Death and Disposition of the Body, subtitle B Disposition of the body, Chapter 694 Burial.

The demand for this service continues to increase year over year, and the reimbursement rate for burials and cremations to vendors who provide this service in partnership with the County has also increased.

In FY 2023, FSS Indigent Burial program provided burial/cremation services to 15 percent more households than the anticipated number planned for in the performance measures, and this amount is expecting to continue growing. The FY 2024 Adopted Budget for Internment Services is \$317,944. However, in FY 2023, actual spending was \$383,930. Additional funds were pulled from other FSS Basic Needs line items that had funds available to ensure that costs for this mandated service could be covered. Therefore, at present reimbursement rates, there is already a need for additional funding for this service.

County Code Chapter 273 states that, “The Funeral Home will be reimbursed pursuant to the contract with the County at the rates and according to the terms set forth in the applicable contract. The rates will be subject to periodic review and modification as approved by Commissioners Court, with a written amendment to the contract signed by the parties reflecting the new rates.” Burial and cremation reimbursement rates have not been raised since 2015. The current contracted vendors have asked that the rates be increased in order to cover their costs, which have risen over these years due to inflation. Vendors have also requested an additional category of reimbursement for oversized cremation due to the additional costs to the vendor for this service.

New proposed burial and cremations rates were determined using data on the typical costs of burials and cremations in Texas and the market rates for these services provided by funeral home vendors in Travis County. The new proposed rates, as compared to current reimbursement rates, are as follows.

<i>Funeral Vendor Reimbursement Rates</i>	<i>Infant, Child, Adult Burial</i>	<i>Oversize Burial (300+ pounds)</i>	<i>Cremation</i>	<i>Oversize Cremation</i>
Current Rates	\$1,200	\$1,500	\$800	N/A
Proposed Rates	\$1,500	\$1,800	\$1,100	\$1,400

In addition to meeting rates proposed by the existing County funeral home partners, increasing these rates would make participating in this program with the County more desirable to more vendors. Right now, the County works with four vendors who take turns providing services. Only one vendor provides cremations as well as burials, which can make coordinating cremations challenging. Approval of higher reimbursement rates would make the program more desirable to potential funeral home vendors and having more contracted funeral homes would spread out the workload, allowing for the funeral home to also focus on their non-County burials and/or cremations. Not increasing these rates might result in losing vendors willing to participate in this program with the County.

Increasing the Indigent Burial budget to meet higher demand for services and to increase the reimbursement rates for burial and cremation services supports the fulfillment of the County goal to protect and provide opportunity for those most vulnerable and underrepresented, as well as the department goal to protect vulnerable populations.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of HH's that received Burials	269	346	340	340	350	350
Amount expended for Burials	370,821	383,931	350,000	317,944	532,944	532,944

PBO RECOMMENDATION

Over the last six years, HHS has experienced a 96.3 percent increase in indigent burial services performed, a mandated program. In that time, the budget for this program has increased by 119.3 percent, with the Department still frequently transferring funds from other operating resources within its budget to attempt to meet the demand. Frequently, the demand for these services exceeds the budget capacity of HHS. At the present rates and demand level, the burial budget is already insufficient to meet the needs of the County.

The rates paid for burial and cremation have not changed since 2015. During that time, the inflationary rate for funerals has been, on average twice as high as inflation for all other items according to the Bureau of Labor Statistics. The vendors who participate in this program and provide burial and cremation services are requesting an increase in rates to match their current costs. This change will also add an oversize cremation rate, which previously had not been accounted for. These changes, as noted in the above table, will increase the funds available for these contracts to match the updated rates. PBO recommends \$215,000 for this increase in rates and to better align the budget with the needs of this program.

REQUEST #12: SOCIAL SERVICES ACCESS TO BASIC SUPPORTS

<i>Program:</i>	Social Services Investments - Access to Basic Support			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 1,000,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting an additional \$1,000,000 investment in the Access to Basic Services (ABS) Social Services issue area. This issue area provides access to food to prevent hunger and promote wellness, and to public benefits for eligible populations to support basic needs.

During 2014-2018, HHS implemented a new investment approach with competitive solicitation, following five-year planning and funding cycles phased by issue area. After this Cycle 1 was complete, HHS developed a Cycle 2 funding strategy, based on extensive input from and dialogue with the Travis County Commissioners Court and social service providers, to enhance and stabilize the social services investment system. An associated budget request was submitted in 2019, with versions of this budget request focusing on critically underfunded issue areas submitted annually in 2020-2024. In FY 2024, the Court partially addressed social services funding with a 10 percent “Maintenance of Current Efforts” increase for the system overall. However, the recurring request for more significant infusions into the Department’s critically underfunded issue areas, including ABS, has not been funded.

Access to Basic Supports remains inadequately resourced in relation to the scale of food insecurity in Travis County. The COVID-19 pandemic exacerbated, in stark relief, the existing health and social inequities among already disproportionately impacted populations. This issue area includes services for critical resident needs that the County has not funded at a substantively meaningful or effective level. The current, requested, and projected new funding levels are below.

<i>Current investment</i>	<i>Requested increase</i>	<i>Projected new total funding</i>
\$698,543	\$1,000,000	\$1,698,543

Because services for these funds would be openly procured, the programmatic outcomes will vary based on the results of competitive solicitation. However, HHS does expect that the requested increases will meaningfully expand the breadth and depth of services purchased:

<i>Service Types at Current Funding Level</i>	<i>At Increased Funding Level, Services May Include*</i>
<ul style="list-style-type: none"> ▪ Core food pantry network support ▪ Mobile food pantry ▪ Hot meals (primarily for indigent population) ▪ Legal services to obtain or maintain benefits 	<ul style="list-style-type: none"> ▪ Selected current service types, with potentially expanded reach, plus: ▪ Farm/produce cultivation and distribution programs (such as youth farming, community farming, CSA programs, etc.) ▪ Mobile farmers markets/farm stands ▪ Food/grocery staple delivery services ▪ Benefits navigation and enrollment assistance for SNAP and WIC ▪ Federal nutrition program matching incentive programs

*Services listed are examples based on existing or recently purchased services and known service types that the department could include in future solicitation scopes. Actual purchased services could differ pending solicitation scoping and results of competitive procurement.

Per the Department’s research, the Travis County’s overall food insecurity rate is 14.03 percent. The rate for children is higher, at 17.93 percent and 170,480 Travis County residents reside in areas that are considered both “low-income” and “low food access”, which is defines as a census tract in which at least 500 people or 33 percent of the population live more than 0.5 miles (for urban census tracts) or 10 miles (for rural census tracts) from the nearest supermarket, supercenter, or large grocery store, and where households are more likely to lack vehicle access.

The Department notes that while there are federal benefits to mitigate food insecurity, there are gaps in this safety net. Key federal benefits programs like the Supplemental Nutrition Assistance Program (SNAP) are chronically under-enrolled: Nearly half (46 percent) of income-eligible people in Travis County are not enrolled in SNAP. Families must meet income eligibility guidelines typically set at or slightly above the federal poverty income guidelines; however, as the Every Texan has estimated the cost of living in Travis County to require an income of at least two times the poverty level or more, many families are ineligible for assistance programs yet don’t earn enough to fully cover basic expenses, while other families may meet income guidelines for benefits but still be ineligible for other reasons or face barriers to obtaining them. Over half (52 percent) of Travis County’s estimated food insecure individuals are above the SNAP threshold of 165 percent FPIG. Travis County funding in this area can play an important role in the safety net, including helping to maximize our community’s leverage of food public benefits, and serving individuals and families who fall in the gap between federal assistance programs and what it takes to meet basic needs in Austin/Travis County.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Number of unduplicated Food clients served	241,536	215,690	168,825	168,825	168,825	253,238
Number of unduplicated Legal Rights and Benefits clients served	803	956	1,100	1,100	1,100	2,969
Number of meals or meal equivalents provided	11,553,319	11,761,498	7,892,654	7,892,654	7,892,654	11,838,981
Percentage of total pounds provided that is fresh produce	32%	38%	50%	50%	50%	50%

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Percentage of clients who preserved, obtained, or increased a public benefit	98%	97%	80%	80%	80%	85%

PBO RECOMMENDATION

As a part of LFRF funding, HHS executed eight contracts totaling \$9,238,657 within the Food Access category of services. These contracts are limited in time period due to the nature of the grant funding and must all be expended by December 31, 2026. At present, all but two of these contracts will expire at the end of FY 2024 (Farmshare's ends after Q2 of FY 2025, and the SFC contract expires at the end of FY 2025). The majority of the County's LFRF Food Access investments will close out by the end of 2024, and the remainder will be fully expended by 2025. The following table displays details about those one-time LFRF-funded programs:

<i>Agency Name</i>	<i>Total Funding</i>
Chisos Star LLC, dba The Cooks Nook	\$3,000,000
Central Texas Food Bank	1,582,166
Foundation Communities	1,016,684
El Buen Samaritano	890,717
Farmshare Austin	833,632
Urban Roots	700,000
Multicultural Refugee Coalition	632,404
Sustainable Food Center	583,054
Total	\$9,238,657

The current HHS budget for the Access to Basic Supports social services investment portfolio is not sufficient to maintain this level of service provision provided by these one-time contracts beyond the close out dates of these grant funds. HHS has several other LFRF-funded programs across many social services issue areas that are also ending and closing out in December 2026. PBO recommends that HHS work with Commissioners Court to determine which issue areas, if any, should be prioritized for increases in funding moving forward on an ongoing basis. With such a significant infusion in one-time funds as those provided by the LFRF, many partner organizations will likely be seeking to petition the County to continue investment beyond LFRF grant close out. Determining how to approach this wind down of services and prioritize which services should be expanded on a permanent basis warrants discussion and deliberation by the Commissioners Court. In addition, the County is undertaking a tax rate election to fund additional services for childcare. HHS would play a primary role in managing any funds intended for childcare should that tax rate election be approved by Travis County voters, in which case, the Department may need to re-evaluate its capacity to further increase other social service investment areas.

REQUEST #13: PRACTICUM EDUCATION

<i>Program:</i>	Practicum Education			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No

Dpt Total + Earmarks	\$ 211,511	\$ 13,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Office of Children Services (OCS) operates an internship program, now called the Practicum Education program, which offers internships to first- and second-year master-level students. HHS is requesting funding for the operating expenses for this program (Tier 1) and to expand the program to provide clinical services to clients (Tier 2).

The Office of Children Services has been providing graduate student practicum/internship opportunities for the last ten years and is an approved and often sought after educational placement. The division also has a long history of providing placements that are highly rated by students. In FY 2024, OCS created a unit (cost center) dedicated to quality assurance and practicum education to be able to significantly expand the number of interns that could be supervised as well as expand the universities the division partners with. All the interns placed within OCS are from local universities and colleges who are completing their master’s degrees. OCS currently has four interns from the University of Texas Steve Hicks School of Social Work who are completing their practicum/internship within our division. They are placed in the Healthy Families program, Parenting in Recovery program, Family First program, and with the Travis County Child Protective Services Board.

Practicum education provides hands-on learning that allows interns to apply the theoretical knowledge they are learning in school in a real-world setting. Interns are providing case management, support, and therapeutic services for OCS clients as well as administrative and policy work such as research, evaluation, and planning. Interns are learning about client engagement, assessment, intervention, and evaluation. They are engaging in crisis intervention, case management, advocacy, ethical practice, and research, as well as how to work effectively in the community with external partners such as Child Protective Services, the courts, and non-profit organizations.

The purpose of these internships is to enhance students’ skills, knowledge, and readiness for the workforce, to provide additional support for OCS clients, to benefit Travis County Staff, and have a positive impact on the community. Interns allow OCS to increase the number of clients served and help manage caseloads for regular full-time staff; Travis County staff who are working with the interns gain supervision skills, interpersonal management skills, and experience that helps them apply for promotions and management jobs, thereby, allowing OCS to promote more from within; and interns provide support and direct services to clients that improve the quality of life for many Travis County residents and improve the overall services in our community.

Currently, the program has one dedicated FTE, a Practicum Administrator. Other roles, including Practicum Instructor and Practicum Coordinator, are filled by existing OCS staff who fulfil the role as part of their other duties. The following requests would significantly enhance this program.

Tier 1: Operating Expenses and Additional Paid Internship Funds - \$29,175

This request is for \$18,375 for annual operating expenses for the Practicum Education program. This would provide supplies, training, and computers for five interns. In addition, this requests funding of \$10,800 to convert one of the currently unpaid second-level internship slots into a paid slot. Currently OCS hires five interns, with three spots reserved for first year students and two reserved for second years students with more experience. One of the second year positions receives funding through the CPS Board. The other second year position is currently unpaid, and due to the competitive nature of internships for second year students with experience, has been difficult to fill. This request will allow OCS to offer two paid internships, which will improve the ability to fill all positions and make the program more equitable.

The Department notes that without the funding requested, the OCS Practicum Education program will not be able to function optimally or as designed. The program won't be able to function to capacity or meet the program goals and outcomes.

Tier 2: Operating Expenses, Additional Paid Internship, expansion to 10 interns, and addition of Clinical Manager FTE to oversee Clinical interns - \$210,980

Through this budget request, OCS is seeking to develop a counseling program utilizing graduate student intern support. Many Travis County OCS clients need high-quality mental health support and most universities are looking for placements that provide an opportunity for their advanced graduate students to apply and enhance these clinical skills. The Department states this presents the perfect opportunity for OCS to leverage the intern support to create a counseling program within the division. This would also be a counseling program that would provide home based counseling, which is a service that is not readily accessible in the Travis County community. This would reduce barriers and increase accessibility for clients with transportation or mobility issues and for those who live in rural areas of Travis County. Home based counseling can also increase comfort and reduce stigma for clients as well as increase cultural sensitivity, client engagement, and retention.

This budget request for a total of \$210,980 includes the addition of one Clinical Manager FTE and funding for five additional advanced clinical interns, including the above Tier 1 operating expenses for all 10 interns and the addition of funding for six interns total. The addition of the FTE position is critical to the development of the counseling program. The advanced graduate student interns who are providing counseling services to clients must be supervised and supported by this clinical manager position. In addition, to ensure adequate coverage and transitional services, the Clinical Manager will need to provide counseling services to clients. The Clinical Manager will carry an ongoing counseling caseload and cover services for the clients working with interns when needed. It is also critical to include paid internships for these advanced clinical graduate students. The request states for OCS to attract the most qualified students, the Department must be able to offer paid internships. Without the requested funding, the Practicum Education program will not be able to expand or be able to provide these critical mental health services for OCS clients.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of intern positions filled	N/A	N/A	4	4	10	10
Number of intern service hours completed	N/A	N/A	1,700	1,700	4,280	4,280
Number of clients served	N/A	N/A	32	32	110	110
Percentage of interns who report a positive educational experience	N/A	N/A	95%	95%	95%	95%

PBO RECOMMENDATION

PBO acknowledges that without additional funding, the Practicum Education internship program will not be able to operate optimally. However, due to current revenue restrictions, PBO is not recommending program expansions in the FY 2025 Preliminary Budget. PBO recommends one-time funds of \$13,000 to purchase five computers for this program. Travis County ITS loaned this program five computers to assist in the start-up of the internship with the expectation that the Department would identify funds to purchase their own devices on a long-term basis in FY 2025. In order to maintain this current level of operations, PBO recommends one-time funding of \$13,000 to purchase the five computers for the interns.

If supporting ongoing operating funding and additional funding for one of the internships is a priority for HHS, PBO recommends the Department utilize some of its permanent salary savings for this program. In April 2024, the Department had just over \$400,000 of permanent salary savings. These funds are intended to give the Department flexibility in hiring above minimum, offering raises, providing for reclasses, and internally funding priorities. This request, which is an expansion of an existing program, would fall within that use of permanent salary savings. If HHS opts to pursue using some portion of its permanent salary savings for this program’s ongoing and expanded operations, PBO would work with the Department to adjust their FY 2025 budget in order to budget the funds appropriately.

REQUEST #14: DEAF SERVICES TEMPORARY STAFFING BUDGET INCREASE

REQUEST #15: DEAF SERVICES FTE REQUEST

<i>Program:</i>	Services for the Deaf and Hard of Hearing			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	Yes

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 375,185	\$ 188,190	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Deaf and Hard of Hearing Division is requesting funding to address issues related to staffing.

Increase in Temporary Staff Budget - \$188,190

The Deaf and Hard of Hearing Division is requesting an increase to its temporary staff budget. The Department states that Travis County pays temporary and hourly interpreters 37 percent less than the average market rate in the region. This increase would raise the temporary staff rates to be more competitive, aiming to raise rates to be average for the industry. The tables below display the current and proposed rates, for day and evening shifts.

Current and Proposed Rates - Day Shift

	<i>Level 4 - Advanced</i>	<i>Level 5 - Master</i>	<i>Level 6 - Court</i>	<i>Court - Full Day</i>
Current Rate	\$34.00	\$38.00	\$45.00	\$85.00
Proposed Rate	\$45.56	\$50.92	\$60.30	\$90.00
Percent Increase	34%	34%	34%	6%

Current and Proposed Rates - Evening Shift

	<i>Level 4 - Advanced</i>	<i>Level 5 - Master</i>	<i>Level 6 - Court</i>	<i>Court - Full Day</i>
Current Rate	\$46.00	\$52.00	\$59.00	\$95.00
Proposed Rate	\$61.64	\$69.68	\$79.06	\$120.00
Percent Increase	34%	34%	34%	26%

The Department anticipates that this increase will result in more service hours provided for the County by temporary staff rather than contracted staff and the ability to fill temporary staff positions rather than having to rely on contracted services, which are more expensive.

Additional Staff for Deaf and Hard of Hearing Services - \$185,933

Michelle Surka, FY 2025 Preliminary Budget

Health and Human Services

In addition to the increased temporary staff hourly rates, this Division is requesting two additional FTEs to meet the needs of the program.

Deaf Services has combined the roles of administrative assistant and interpreter coordinator, which has resulted in an unmanageable workload for the coordinator. This has caused delays in billing and invoicing, and has increased the risk for Travis County. The coordinator's responsibilities now include handling ADA requests, billing, invoicing, and interoffice administrative work, which has made it difficult to keep up with the workload. To address this issue, Deaf Services proposes hiring a full-time Administrative Assistant 2 to handle invoicing, billing, and office administrative tasks. This will allow the interpreter coordinator to focus on coordinating interpreter assignments, ensuring quality service, and reducing the risk for Travis County.

The program is also requesting a Social Services Program Coordinator due to the increasing demand for direct services in the area. The number of Deaf, Hard of Hearing, and Deafblind individuals in the area is growing, and Austin has the second-largest Deaf population per capita in the US. Current staff has reached their maximum capacity, and hiring a new coordinator is crucial to maintain the quality of service for clients.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Request #14: Increase in Temporary Staff Budget Measures</i>						
Number of Duplicated clients served: Interpreter Services	3,766	2,833	1,873	3,000	3,000	3,000
Number of hours of service: Interpreter Services	11,376	11,593	4,244	10,000	10,000	10,000
Number of Unduplicated clients served: Interpreter Services	370	285	600	600	600	600
<i>Request #15: Additional Staff for Deaf and Hard of Hearing Services</i>						
Number of Duplicated clients served: Case Management	863	1,300	2,500	2,500	2,500	2,500
Number of Duplicated clients served: Interpreter Services	3,766	2,833	1,873	3,000	3,000	3,000
Number of hours of service: Case Management	1,408	3,219	2,000	2,000	2,000	2,000
Number of Unduplicated clients served: Case Management	182	285	250	250	250	250

PBO RECOMMENDATION

PBO recommends additional funding of \$188,190 in ongoing personnel funds to increase the rates paid to temporary interpreters by 34 percent and make them more competitive in the market.

This program received \$67,638 in ongoing funds in FY 2024, split between contracted services and temporary staff. Prior to these funds, the program had not received a funding increase since 2019, and this increase in budget did not change the rates paid to temporary staff.

The current pay rate for contracted deaf and hard of hearing staff ranges from \$60 to \$120 an hour. The rates paid to temporary staff are not competitive with either this rate paid to contractors or the market in general, as can be seen based on the temporary staff pay rates displayed in the table above. As the rates offered to temporary staff have become more misaligned with contractor rates and market rates for these types of positions over time, HHS has had to rely more and more on contractors rather than hired temporary staff to meet the same service delivery needs. It is likely that increasing the pay rates offered by Travis County for these temporary staff positions would make the jobs more desirable and therefore easier to fill, potentially resulting in budget savings if the Department could rely less on highly expensive contractors. The program experienced a decrease in the percentage of interpreter requests the Department could successfully fill, with the program generally maintaining a 98 percent fill rate until FY 2023, when the percentage of requests successfully filled dropped to 72 percent. It is unclear if this metric is entirely due to difficulties related to hiring due to pay rates, or if it is due to other factors, however if this metric continues to be a trend, the County’s ability to meet the demand for this service could be at risk.

The rates for temporary interpreters have not been increased in the last three years. This change will help better match the pay rate for temporary interpreters to a more competitive market rate.

PBO is not at this time including funding for additional full-time positions for this division. The administrative and direct service functions of this Division may be improved by adding an Administrative Assistant and a Social Services Program Coordinator. However, based on current revenue projections, PBO is unable to allocate funds to program improvement at this time. HHS may wish to consider utilizing some of the Department’s existing permanent salary savings to address this staffing need.

REQUEST #16: FSS SOCIAL SERVICES ASSISTANT FOR SOCIAL WORK PROGRAM

REQUEST #17: FSS SUPPORTIVE CASE MANAGER

<i>Program:</i>	Family Support Services			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	2.00	-	-	-
Personnel	153,166	-	-	-
Operating	27,240	-	-	-
Subtotal	\$ 180,406	\$ -	\$ -	\$ -
Capital	5,540	-	-	-
Dpt Total	\$ 185,946	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 185,946	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting additional funding to support the Family Support Services Division with two new FTEs.

Social Services Assistance for Social Work Program - \$83,975

The Family Support Services Division requests funding to add a Social Services Assistant position to the Social Work program. This position would provide direct contact to clients seeking Social Work services in the pre-intake stage, would assist Social Workers with processing rent and mortgage assistance, and would organize and maintain communication and administrative duties for the wait list process, in order to allow the Social Workers more time to directly serve clients.

There has been a large increase in demand for Social Work services due to the increased cost-of living in Travis County and general stressors faced by residents, as well as the change to the Chapter 272 policy whereby rent and mortgage assistance is only available to clients participating in case management services. Due to these factors, the Social Work program saw a 58 percent increase in the number of households receiving social work services. Administrative and client intake tasks have greatly increased for the Social Work program Social Service Program Administrator and the Social Workers. The Social Services Assistant position would assist the Social Work team with these duties, freeing the Social Workers to have more time directly serving clients. This position would also help some of the staff turnover issues the division has been facing due to the unmanageable workload for social workers. The request states that by diverting some administrative tasks to this position, Social Workers could better spend their time with clients.

Supportive Case Manager at Pflugerville Community Center - \$101,971

The Family Support Services Division requests funding to add one bilingual Supportive Case Manager position at the Pflugerville Community Center location in order to increase the number of households served by the Supportive Case Management program, which has experienced a steep increase in demand for services.

After the change in Chapter 272 policy, many Community Centers saw an increase in demand for case management services. Pflugerville in particular has faced challenges meeting this demand, with the longest waiting list for Supportive Case Management Services out of all six community centers. Currently, the center has two Supportive Case Manager positions.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
Social Services Assistance for Social Work Program						
# of HH's that received SW services	1,134	1,789	1,200	1,200	1,400	1,400

Amount expended for Rent/Mortgage	20,149,803	1,934,976	2,430,000	5,500,000	5,500,000	5,500,000
Supportive Case Manager at Pflugerville Community Center						
# of HH's that received Rent/Mortgage	5,364	827	630	660	700	700
Amount expended for Rent/Mortgage	20,149,802	1,934,976	2,430,000	5,500,000	5,500,000	5,500,000

PBO RECOMMENDATION

In October 2022, the Chapter 272 policy, which is used to govern HHS’s rental assistance policies, was changed to couple rent and mortgage assistance with holistic case management services. The change stipulated that in order to be eligible for rent or mortgage assistance, clients must be actively participating in case management services with a FSS Supportive Case Manager or, for clients with more complex needs, a FSS Social Worker. Clients can remain in case management services for a total of 12 months with a Supportive Case Manager or a total of 24 months with a Social Worker. The Supportive Case Manager or Social Worker meets with the client regularly, helping the client achieve individualized goals, including goals pertaining to increased housing and financial stability. After providing updated procedures and training to the Supportive Case Management and Social Work staff, clients on their caseload began being eligible for rent and mortgage assistance in January 2023.

These changes were made without corresponding changes to staffing, despite the added workload that would likely be generated for Social Workers and Supportive Case Managers. Since this change was implemented, the ability for HHS to distribute rental assistance funds has been limited by the ability of Social Workers or Supportive Case Managers to work with clients. This process is necessarily slower and has commensurately resulted in fewer households served by rental assistance. Some of this change is simply due to the nature of the program, which is intended to provide more in-depth, long-term, and impactful case management services beyond just provide rental assistance. However, the client workload could be better managed by adding Social Workers and Supportive Case Managers.

During the COVID-19 pandemic, HHS received and distributed an influx of federal funds for rental assistance which was expended based on different, broader criteria than HHS’s normal rental assistance. These funds were available and incorporated into HHS’s rental assistance program in FY 2021 through FY 2022, and so data for these years is not a comparable data point for how HHS expends rental assistance generally. FY 2023 was the first year where the new Chapter 272 policies

were in place and the Department was not simultaneously working to distribute federal rental assistance funds. In FY 2023, the Department expended 38 percent of its available rental assistance resources. FY 2024 is on track for similar expenditures. The most comparable year pre-COVID, pre-Chapter 272 changes was 2020, when the Department had a similar rental assistance budget and used 66 percent of it. The table below displays the budget and expenditures over the past few fiscal years.

	<i>FY 2019</i>	<i>FY 2020</i>	<i>FY 2023</i>
Adopted Budget	\$2,655,013	\$5,127,599	\$5,147,599
Actual Expenditures	2,636,346	3,366,210	1,934,976
Percent Expended	99%	66%	38%

The large increase in demand for social work services in HHS after the change to Chapter 272 likely does call for additional staffing resources. However, PBO recommends that the HHS and the Commissioners Court consider how the total funding the rental assistance should be adjusted, should the pilot changes to the Chapter 272 policies remain in place indefinitely. It may be a more prudent use of resources to reallocate some of the rental assistance funds to Supportive Case Manager/Social Work staffing to more efficiently meet the changed needs of this program. This could, in turn, allow HHS staff to connect more clients to case management and subsequently expend more rental assistance funds than they have currently been able to with the existing staffing.

PBO does not recommend additional funding for staff in Family Support Services in the FY 2025 Preliminary Budget. However, PBO does recognize that this need will likely persist if Chapter 272 changes remain in place. Reallocating some portion of rental assistance funds to staffing may be a strategy to balance policy changes and needed staffing. PBO recommends HHS considering bringing this discussion to Commissioners Court to determine the County’s priorities and strategies for this program.

REQUEST #18: WORK-BASED LEARNING SUMMER YOUTH EMPLOYMENT IMPROVEMENT

REQUEST #28: WORK BASED LEARNING SUMMER YOUTH EMPLOYMENT PROGRAM CONTINGENCY AND IMPROVEMENT

<i>Program:</i>	Work-Based Learning/Summer Youth Employment			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	15,568	-	-	-
Operating	194,490	-	-	-
Subtotal	\$ 210,058	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 210,058	\$ -	\$ -	\$ -
Earmark Allocated	700,000	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 700,000	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 910,058	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Work-Based Learning Summer Youth Employment program is requesting funds to improve the program. This request is comprised of a reclassification of an existing position, additional temporary staff funds, and operating resources to improve the technology used by temporary staff during the summer programming.

First, the program is requesting to reclassify the existing vacant Social Services Program Specialist Associate to a Social Services Program Coordinator. This coordinator will assist the program administrator and work directly with the youth throughout the application, eligibility, training, and onboarding process. They will ensure the youth receive the necessary support and guidance to participate effectively in the program.

The program is also requesting an increase of \$188,190 in the temporary staff budget for the program. Temporary staff are used for the SYEP program to provide mentorship and guidance for youth participants. The program attempts to maintain a youth-to-staff ratio of 25 to one. Currently, with a budget for a temporary staff cohort of 20, the program could only safely manage 400 youth.

Finally, the program is requesting funds to support data packages for 15 iPads that are used by SYEP staff for an ongoing cost of \$6,300. In FY 2023, HHS provided 15 iPads to temporary staff. These were used for maintaining confidential correspondence, organizing, coordinating, and leading activities for youth participants. It would be an improvement in program delivery and efficiency.

In addition to the above funds to improve the program, the Department is requesting an earmark of \$700,000 as a contingency to ensure continuity of funding as well as provide funding flexibility that could be used to enhance the program on a long-term basis through possible pilot projects.

SYEP is funded as a partnership between the City and the County. The Work-Based Learning/Summer Youth Employment Program (WBL/SYEP) has historically been funded with \$1,049,588, with \$435,108 from Travis County and \$614,480 from the City of Austin.

The Department notes that as this program changes and is renegotiated with the City, there may be an opportunity or need to enhance the program further with additional funds, to provide more and better work opportunities for youth through more diverse job placements, customized training opportunities, increased accessibility, and improved quality of placements.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
% of employers satisfied with youth employment experience	94%	90%	93%	90%	90%	90%
% of youth completing Job Readiness Training	100%	90%	98%	90%	90%	90%
% of youth employed	88%	90%	93%	90%	90%	90%
% of youth satisfied with youth employment experience	99%	93%	98%	98%	93%	93%
Number of unduplicated youth served	592	1,250	631	1,000	1,250	1,250
Number of youth employed	522	750	731	550	650	550
Number of youth offered employment	710	900	765	700	800	900

PBO RECOMMENDATION

PBO does not recommend additional funding for this program in the FY 2025 Preliminary Budget. The Department noted that negotiations with the City at the time of budget submission were still ongoing with relation to the future plans for this program. Since that time, there has been progress with regards to finalizing the program plan and HHS has resubmitted an updated request for just an increase in temporary salary for this program. Because this request was update late, PBO was not able to analyze it as part of the Preliminary Budget and recommends that HHS bring this item to a budget hearing for Commissioners Court consideration.

Part of this request included a request to reclassify a Social Services Program Specialist Associate to a Social Services Program Coordinator at a cost of \$15,473 to better match the job title and salary to the needs of the role. Historically, PBO does not fund reclassifications of this nature. PBO encourages HHS to look internally and determine if this reclassification is a priority that would warrant the use of permanent salary savings.

REQUEST #19: ENGAGE TRAINING EDUCATION COORDINATORS

<i>Program:</i>	engAGE Program			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	65,640	-	-	-
Operating	16,304	-	-	-
Subtotal	\$ 81,944	\$ -	\$ -	\$ -
Capital	5,200	-	-	-
Dpt Total	\$ 87,144	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 87,144	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HHS is requesting two part-time positions to promote, coordinate, and deliver evidence-based health and wellness workshops to elderly clients of this program, and help participants achieve desired outcomes. Specifically, the engAGE program works to support under-resources populations to combat disparities caused by social determinants of health by running programs and workshops to address balance-managing, chronic disease management, pain management, diabetes management, and management of caregivers and caregiver relationships. The current staffing for the engAGE program is not sufficient to effectively run these workshops while also taking on the other responsibilities of the program. Currently the program can deliver 16 such workshops per year with 1.0 FTE, which exceeds the target. The Department notes that the demand for these workshops is greater than that and would be better managed with two part-time positions which would be able to deliver 18 workshops in the first year of implementation and subsequently 22 per year once fully trained.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
Number of classes conducted	12	12	12	16	18	22
Number of class participants	96	96	96	120	144	176
% of participants reporting better management of health conditions	85%	85%	85%	85%	85%	85%

PBO RECOMMENDATION

PBO does not recommend additional funding for part-time staff for the engAGE program in the FY 2025 Preliminary Budget. While it may be the case that there is more demand and community need for the workshops currently provided by engAGE staff for Travis County residents, due to existing revenue limitations, PBO is not recommending program expansions at this time. HHS should consider looking internally at long-term vacant positions to determine if a reclassification of such a position

may be a feasible strategy to fund one or both of these part-time positions, should this program expansion be a priority for the Department.

REQUEST #20: HOUSING SERVICES HOME REPAIR AND ON-SITE SEWAGE FACILITIES RESERVE

REQUEST #21: TDHCA RELATED GRANT PURCHASES

REQUEST #22: WEATHERIZATION AND HOME REPAIR CHAPTER 279 FUNDING INCREASE

<i>Program:</i>	Weatherization and Home Repair Services			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	981,500	799,000	-	-

Total Earmarks	\$ 981,500	\$ 799,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 981,500	\$ 799,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services Weatherization and Home Repair Division has made several requests to continue earmarks that have been previously funded into FY 2025.

Weatherization and Home Repair On-Site Sewage Facilities Reserve - \$256,500

The Housing Services request an earmark of \$256,500 to provide needed home repair services throughout Travis County. The number of eligible households continues to increase as Travis County remains one of the fastest growing counties in the country. This request is for two separate earmarks.

The first earmark is for materials, supplies, and contracted labor to assist with home repairs that must be done prior to utilizing Federal grant funds for allowable weatherization work, for a total of \$128,500. These services include emergency electrical and plumbing, emergency dwelling repairs, roof repairs and replacement, and handicap access. These immediate threats must be corrected before one or more of the energy efficiency grant-funded repairs can be completed. Housing Services attempts to assess all needed work prior to beginning labor, but many construction issues can be difficult to predict and challenging to address within existing budget constraints. Even with modern evaluation techniques, additional, unanticipated work often arises once work begins. These are evaluated for practicality and budgetary constraints based on proposals submitted to Housing Services, and then are prioritized based on consultation with the homeowner. Without the flexibility to address bigger projects, some homes that have been assessed for federal weatherization grant projects cannot be completed, because Housing Services cannot fund the repairs needed prior to weatherization. The program aims to operate within its budget as much as possible, but the additional \$128,500 in earmarked funds would allow the program to respond flexibly when a grant-eligible household has more extensive repairs needed.

The second earmark is for \$128,000 for the replacement of On-Site Sewage Facilities to correct immediate threats to occupants' health and safety that are identified during Housing Services repair projects. The systems cost \$32,000 each, and this funding would allow HHS to replace up to four systems in a fiscal year. Housing Services staff note they are not usually

aware of the condition of the eligible home until they go out to assess it. Most repair projects can be completed within the Housing Services budget, but some larger projects like replacing sewage facilities HHS can only do with this increased funding.

The Travis County Housing Services Weatherization Assistance Programs, funded through two federal grants, provides free weatherization improvements to make homes more energy efficient for eligible county residents. Services include addressing health and safety concerns such as high carbon monoxide levels, minor electrical hazards, leaking water heaters, improved indoor air quality, reduction in moisture sources within the structure. In addition, the programs provide standard energy efficiency improvements such as air infiltration reduction, installation of solar screens, attic insulation, HVAC duct sealing and replacement, replacement lighting with higher efficient bulbs, Energy Star compliant refrigerators, and heating and cooling appliances. The Weatherization Assistance Programs assist low-income individuals and families with a focus on the elderly, disabled and children under six years of age serving both rental units and homeowners.

The Texas Department of Housing and Community Affairs (TDHCA), serves as the grantor of these federal funds for Travis County Housing Services Weatherization Assistance Program, this includes a grant from the U.S. Department Of Energy (DOE) and a grant from the U.S. Department of Health and Human Services Low Income Home Energy Assistance Program (LIHEAP).

Weatherization and Home Repair TDHCA Grant-Related Purchases - \$225,000

Health and Human Services is requesting \$225,000 in one-time funds for the purchase of home repair services for the Texas Department of Housing and Community Affairs (TDHCA) Weatherization Assistance grants. The SAP Financial System requires all Housing purchases for Texas Department of Housing and Community Affairs grants be made with General Fund dollars. When the grant home project is finished, the expenditures are reclassified from the General Fund to the grant. The general fund budget cannot support this near the end of the fiscal year without additional funding to support grant home purchases.

The Travis County Housing Services Weatherization Assistance Programs, funded through two federal grants, provides free weatherization improvements to make homes more energy efficient for eligible county residents. Services include addressing health and safety concerns such as high carbon monoxide levels, minor electrical hazards, leaking water heaters, improved indoor air quality, reduction in moisture sources within the structure. Additional services include standard energy efficiency improvements such as air infiltration reduction, installation of solar screens, attic insulation, HVAC duct sealing and replacement, replacement lighting with higher efficient bulbs, Energy Star compliant refrigerators, and heating and cooling appliances. The Weatherization Assistance Programs assist low-income individuals and families with a focus on the elderly, disabled and children under six years of age serving both rental units and homeowners.

The Texas Department of Housing and Community Affairs (TDHCA), serves as the grantor of these federal funds for Travis County Housing Services Weatherization Assistance Program, this includes a grant from the U.S. Department of Energy (DOE) and a grant from the U.S. Department of Health and Human Services Low Income Home Energy Assistance Program (LIHEAP).

Weatherization and Home Repair Chapter 279 Funding Increase - \$500,000

The Division is requesting \$500,000 in ongoing operating funds to maintain current service levels for the Housing Services Repair Program. This program, through both General and grant funds, provides materials and labor costs to correct immediate health and safety threats to occupants, with a particular focus on populations that are more vulnerable with limited incomes, disabilities, families, and elderly populations.

Like many other expenses, the cost of doing business in the construction arena has increased, including labor costs, materials costs, and contracted services expenses. This request would increase the operating budget for this program to keep up with rising expenses.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO included earmarks for the following requests in the FY 2024 Adopted Budget:

- Weatherization and Home Repair On-Site Sewage Facilities Reserve - \$128,000
- Weatherization and Home Repair Chapter 279 Funding Increase - \$500,000
- Weatherization and Home Repair TDHCA Grant-Related Purchases - \$171,000

As of May 16, 2024, the Department had drawn on the TDHCA grant-related purchases earmark for \$100,000. Generally, as the weatherization budget and related grants are expended, these earmarks are drawn on towards the end of the fiscal year. PBO has not recommended funding these earmarks at the full amount requested by the Department since the Department does not always draw on the full amount for each given intended purpose. However, these purposes are all generally intended to address ad hoc shortfalls in the Weatherization and Home Repair program budget.

For the FY 2025 Preliminary Budget, PBO recommends combining these three earmarks into one earmark on the Allocated Reserve of \$799,000 to allow the Department to prioritize between these three Weatherization and Home Repair needs and use the funds to address any ad hoc short falls that arise throughout the course of the fiscal year.

REQUEST #23: OPIOID CRISIS EARMARKS

<i>Program:</i>	Behavioral Health			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	787,590	575,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 787,590	\$ 575,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 787,590	\$ 575,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting to continue two existing earmarks related to the Opioid Crisis.

The County started receiving funds through the Opioid Abatement Fund, a state settlement distributed to municipalities, on March 2, 2023 with an initial allocation of \$1,476,519.10. On August 8, 2023, the Commissioners Court approved allocating \$860,000 of these settlement funds to eligible activities. In addition, the Court approved reimbursing for prior eligible activities for a total of \$403,929. The remaining \$212,590 is in an earmark against the Allocated Reserve for future opioid-related projects. In addition, the Commissioners Court approved on August, 8, 2023 a General Fund Earmark against the Allocated Reserve of \$575,000 for opioid related programs. HHS has not at this time identified a plan to expend these total \$787,589 funds intended for opioid abatement programs and so is requesting that these two earmarks are included again against the Allocated Reserve in FY 2025.

PBO RECOMMENDATION

PBO recommends an earmark of \$575,000 funds set aside by Commissioners Court for supplementary Opioid Crisis Related programming.

Funds received directly through the Opioid Abatement Fund are maintained in a grant fund and so are not included in the FY 2025 Preliminary Budget. These funds are financially managed as a grant and are separate from the General Fund budget. Below is the history of funds received, both in the Opioid Abatement Fund grant and the General Fund:

Item	Amount
Opioid Abatement Funds Received by Travis County	\$1,763,765
Funds expended from Opioid Abatement Fund	\$(1,263,929)
Funds remaining in Opioid Abatement Fund	\$499,836
Additional General Fund Earmark Included in FY 2025	\$575,000
General Fund Earmark + Remainder of Settlement Funds Received to Date	\$1,074,836

On Tuesday, May 14, Commissioners Court approved setting aside \$469,559 of these funds for the Santa Maria House substance use disorder project, which had previously been funded through the LFRF but is no longer eligible for those funds.

These funds have not yet been transferred out of this earmark or the settlement grant to the HHS budget because the project is not yet ready to move forward, but \$469,559 of these opioid earmarks is intended for that project.

REQUEST #24: CHILDREN CRISIS RESPITE CENTER EARMARK

<i>Program:</i>	Office of Children's Services			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	-	-	-	-
Subtotal	\$ -	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ -	\$ -	\$ -	\$ -
Earmark Allocated	100,000	100,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ 100,000	\$ 100,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 100,000	\$ 100,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The FY 2024 Adopted Budget included an Earmark against the Allocated Reserve of \$115,000 to support launching a Children’s Crisis Respite Facility in partnership with Integral Care and the SAFE Alliance. These funds were needed for the first year of rent for the facility and food for clients as well as minor renovations needed to the space to make the building compliant with Texas Health and Human Services regulations. When this Earmark was allocated, HHS noted that they would need an additional \$100,000 in FY 2025 for the second year of rent and food for the remainder of the pilot of this program, which will run until April 2026 based on current timelines.

BUDGET REQUEST PERFORMANCE MEASURES

No performances measures were included for this request.

PBO RECOMMENDATION

PBO recommends an earmark against the Allocated Reserve of \$100,000 to support this program as planned through April 2026, with the funds needing to be obligated for the next year of rent in April 2025.

REQUEST #25: PERMANENT SUPPORTIVE HOUSING: AT HOME ATX

<i>Program:</i>	Supportive Housing Division			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

DEPT. SUMMARY OF REQUEST

In order to address the issue of homelessness and to further Travis County’s commitment to provide fair and affordable housing for all residents, Travis County (represented by Justice Planning and Health & Human Services) began a multi-partner permanent support housing (PSH) agreement as funder with Central Health; the City of Austin; and the St. David’s Foundation in FY 2022. This request represents the fourth installment of \$600,000 toward a \$3 million investment over five years which began in FY 2022.

Affordable housing is at a premium in Austin-Travis County. For individuals who are chronically homeless, some of the County’s most vulnerable residents, permanent housing is out of their reach. This proposal, which puts Travis County in the role of funder (along with the above-mentioned partners), sets aside money to address the issue. Travis County and its funding partners will work through the process of developing a funding and contractual structure and identifying housing and service providers. This process will be facilitated by Social Finance. The ultimate goal is to create units of permanent supportive housing with ancillary support services targeting individuals who are chronically homeless. Desired outcomes for Travis County are an improvement in housing stability; improved health outcomes by reducing emergency room usage, EMS, and inpatient costs; and reduced jail system usage, including court and police interaction.

BUDGET REQUEST PERFORMANCE MEASURES

No performances measures were included for this request.

PBO RECOMMENDATION

This earmark was drawn on in October 2023 to fund a pilot professional social services contract through Caritas as related to this partnership for \$158,319. The contract funds licensed professional staff to work with clients needing permanent supportive housing and will ultimately be the core case management component of this pilot permanent supportive housing program. Because of this, the total Earmark available at the end of FY 2024 is \$1,641,681. Based on the five-year plan as agreed upon by Commissioners Court in FY 2022, PBO recommends adding an additional \$600,000 to this earmark, for a total FY 2025 earmark of \$2,241,681.

Earmark Interlocal	-	2,008,000	-	-
Total Earmarks	\$ -	\$ 2,008,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

Health and Human Services is requesting \$880,000 in ongoing funding for anticipated increases in FY 2024 to the City of Austin Animal Services Interlocal Agreement and the Public Health Interlocal Agreement. In addition, it is requesting \$1,500,000 in one-time funds to continue the Extraordinary Events funding in the Public Health Interlocal Agreement. This is an estimate based on current information provided by the City.

The Animal Services Interlocal Agreement with the City of Austin provides animal protection, animal sheltering, and engagement and prevention services in the unincorporated areas of Travis County. Notable increases are projected to include increased costs for fleet fuel and maintenance, wage adjustments, insurance, and workers’ compensation, as well as a higher percentage of total sheltered animals contributed to unincorporated Travis County. The Public Health Interlocal Agreement provides environmental health, disease surveillance, communicable disease, chronic disease prevention, and health promotion services for City and County residents. Based on the latest information from the City, this ILA is projected to decreased in FY 2025, primarily due to an increase in the revenue offset and a decrease in the costing basis. The cost drivers for this ILA include the increased costs for fleet fuel and maintenance, wage adjustments, insurance, and workers’ compensation, as well as a slight increase in grant support.

BUDGET REQUEST PERFORMANCE MEASURES

No performance measures were provided.

PBO RECOMMENDATION

PBO recommends \$508,000 in the interlocal reserve for ongoing increases to these contracts, and a one-time allocation in the interlocal reserve for the Extraordinary Events portion of the Public Health ILA.

The City of Austin provided the following estimates for the FY 2025 ongoing cost models for these two interlocal agreements with Travis County. Please note that the below cost model for the Public Health Interlocal excludes the \$1,500,000 Extraordinary Events costs.

	<i>FY 2024 Total</i>	<i>Estimated Increase</i>	<i>FY 2025 Projected Total</i>
Animal Services	\$3,368,147	\$82,412	\$3,450,559
Public Health	\$7,021,663	-\$292,926	\$6,728,737
Total	\$8,889,810	-\$210,514	\$8,679,296

Based on this current estimate, the ILAs are estimated to decrease from FY 2024 to FY 2025 on an ongoing basis. However, historically, as the models have been negotiated and as the City of Austin has finalized its budgetary decisions over the course of the summer, including planned compensation increases for staff that work on programs paid through these ILAs, the cost typically increases before the FY 2025 budget is adopted. HHS has already noted that there are ongoing discussions related to a proposed \$300,000 increase for programming related to the continuation and expansion of a mobile vaccine program for vaccine hesitant and high-risk residents. In addition, the base cost model does not account for any salary increase that will be necessary should the City of Austin approved a cost-of-living wage increase. Thus, PBO recommends including a \$508,000 ongoing increase for these two Interlocal Agreements in the FY 2025 Preliminary Budget in the Interlocal Reserve. PBO will work with HHS as the negotiations related to these ILAs progress and will adjust this allocation accordingly as new information becomes available. The Department will need to return to Court to transfer the funds to their budget once the contracts are finalized in FY 2025.

In addition to the above ongoing costs, PBO recommends a one-time allocation in the interlocal reserve of \$1,500,000 to continue the Extraordinary Events funding as agreed on by the City of Austin and Travis County. In FY 2023, the City of Austin sent invoices just exceeding \$1 million related to extraordinary events response. Travis County is still working with the City on reviewing and paying those outstanding invoices. No invoices have yet been received for FY 2024. PBO may recommend rolling FY 2024 funds to FY 2025 if no invoices are received.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

The mission of the Travis County Historical Commission is to preserve the heritage of Travis County and its influence on the political, governmental, and cultural history of the Capital of the State of Texas, and to represent the Texas Historical Commission locally.

The Historical Commission has identified the following strategic goals:

- Preserve the heritage of Travis County and its influence on the political, governmental, and cultural history of the Capital of the State of Texas;
- Represent the Texas Historical Commission locally; and
- Support historical preservation and education in Travis County.

The Historical Commission is budgeted in the Community and Economic Development Functional Area.

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides a variety of programs and services that are mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so that resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Empower the public through civic engagement and collaboration" and is now linked to the County Goal, "Be a trusted and well-run county."

HISTORICAL COMMISSION:

The purpose of the Historical Commission is to survey historical sites, maintain an inventory of surveyed properties, create countywide awareness of historic preservation, and verify the accuracy of historical marker applications. The Commission's goals are:

- Preserve the heritage of Travis County and its influence on the political, governmental, and cultural history of the Capital of the State of Texas;
- Represent the Texas Historical Commission locally; and
- Support historical preservation and education in Travis County.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
# of special projects	3	3	3	3	3

Publications sponsored	-	1	1	1	1

Chapter 318 of the TX Local Government Code states that the Commissioners Court may appoint a County Historical Commission. If the Commissioners Court does not appoint one, then the State steps in and does it, making the County Judge the Chair. The law says that the Commission should survey historic sites, maintain an inventory of surveyed properties, create countywide awareness of historic preservation and its benefits, and uses, and verify the accuracy of historical marker applications.

The Department advises and directs historical preservation efforts with various community partners. Commission members sit on boards such as Preservation Austin, Pioneer Farms, and the Austin History Center Association and work closely with organizations like the Travis County African American Cultural Heritage Commission. Additionally, the Travis County Historical Commission works closely with the Texas Historical Commission and has members who belong to the Texas Archeological Stewardship Network. Interests for the historical preservation include but are not confined to cemeteries, historic sites, oral histories, and educational opportunities and the Historical Commission attempts to be fluid enough to respond to new challenges.

ADOPTED BUDGETS FY 2022-2024, PRELIMINARY BUDGET FY 2025

	FY 2022	FY 2023	FY 2024	Prelim FY 2025	Diff FY 2025-2024

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Department’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Historical Commission Expansion Earmark	\$9,755
Total Allocated Reserve Earmarks	\$9,755

ADDITIONAL INFORMATION

FUTURE CONSIDERATIONS

On October 31, 2023, the Historical Commission received Commissioners Court approval to submit two applications for the Certified Local Government (CLG) Grant originating from the United States Department of the Interior, through the National Park Service. Applications of which were to undertake an expansion of a previous survey completed by the Travis County Historical Commission on Hayden Springs, a Freedom Colony that once existed in East Travis County as well as a research, oral history, and community engagement project on a historically important African American street in East Austin, San Bernard Street.

The Texas Historical Commission awarded the Travis County Historical Commission the two Certified Local Government Grant contracts totaling \$80,000 including a \$40,000 grant award, a county match of \$37,500, and \$2,500 of in-kind funding from volunteer hours as seen below.

<i>Project</i>	<i>Grant Funds</i>	<i>County Match</i>	<i>In-Kind</i>	<i>Total</i>
East Travis County & Surrounding Counties African American Freedom Colony/Settlement Survey	\$25,000	\$22,500	\$2,500	\$50,000

<i>Project</i>	<i>Grant Funds</i>	<i>County Match</i>	<i>In-Kind</i>	<i>Total</i>
San Bernard Historical District Project	\$15,000	\$15,000	\$0	\$30,000
Total	\$40,000	\$37,500	\$2,500	\$80,000

PBO and the Historical Commission are currently working with the County Auditor Office and County Attorney Office to bring both grant contracts forward for Commissioners Court approval and a transfer from the Allocated Reserve to cover the county match portion so that both projects can commence; this will likely occur prior to the adoption of the FY 2025 Adopted Budget.

DEPT. SUMMARY OF REQUEST

A request from the Travis County Historical Commission to continue the Earmark against the Allocated Reserve of \$9,755 into FY 2025. The desired outcomes from the continuation of this Earmark are expanded historical education throughout the County and being able to have the necessary resources available should additional funding be needed.

PBO RECOMMENDATION

PBO recommends continuing the Historical Commission Expansion Earmark of \$9,755 in FY 2025. Resources from the Historical Commission Expansion Earmark have yet to be requested in FY 2024, yet the Historical Commission would like this Earmark to continue into FY 2025 as more projects continue to develop. Should a portion of this Earmark be used in FY 2024, then the FY 2025 Earmark will be reduced by that amount.

MISSION STATEMENT, STRATEGIC GOALS, AND FUNCTIONAL AREA

VISION

To support the County’s mission of building a Travis County where ALL people can thrive with dignity and respect.

MISSION

Through strategic partnerships and collaboration, the Human Resources Management Department recruits, develops, and retains a high-performing and diverse workforce and fosters a healthy, safe, and productive work environment for employees, departments, and the public to maximize the individual and organizational potential to position Travis County as an employer of choice.

GUIDING PRINCIPLES

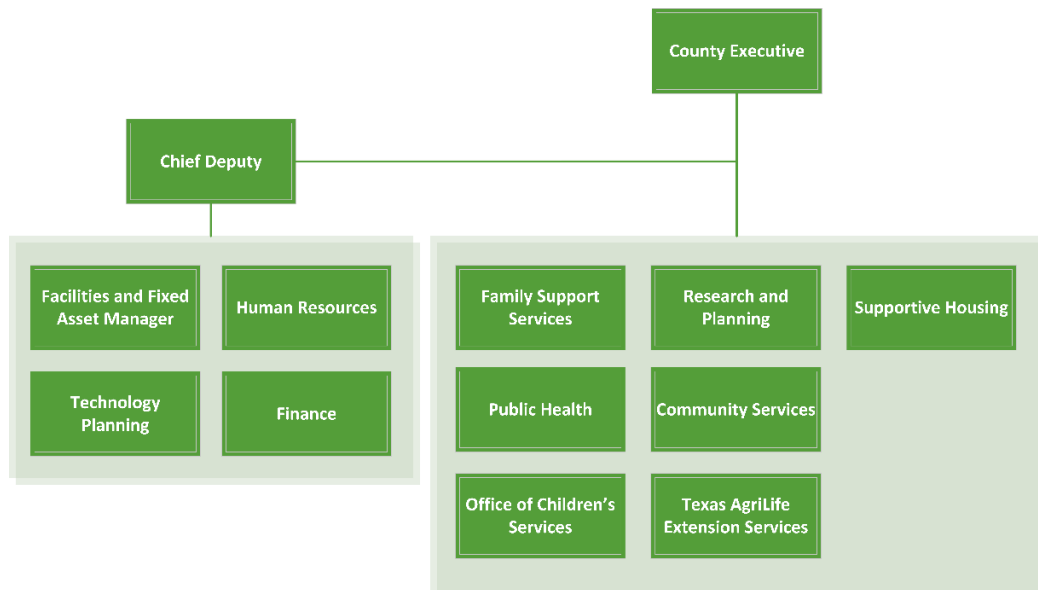

Our guiding principles will govern how we execute our Vision and Mission and guide our decisions and behavior. Those principles include:

- Valuing, encouraging, and supporting a diverse workforce
- Continually improving individual and organizational effectiveness
- Anticipating and meeting the changing needs of the workforce
- Championing career and professional growth
- Creating and enhancing strategic partnerships
- Enhancing services through technology

The Human Resources Management (HRMD) department champions **Travis County’s goal to become an employer of choice and a well-run County with strong culture, employee growth and development opportunities, talent and change management, performance management, health and wellness, and technology and innovative solutions to create a flexible work experience.** These programs align with the new County goal of “Be a trusted and well-run county.”

The department is budgeted in the General Government Functional Area.

ORGANIZATIONAL CHART

PROGRAMS & PERFORMANCE MANAGEMENT

KEY PROGRAM MEASURES

Travis County provides various programs and services mandated by the state and/or federal government. The majority of County programs and services are mandated or support mandated programs. PBO works with Offices and Departments to quantify and measure their programs' performance so resources are directed to the most critical needs. The information below includes program information and discussion, key program measures, and mandated functions, if applicable. The following programs were formerly linked to the County Goal, "Supports all other countywide goals," and are now linked to the County Goal, "Be a trusted and well-run county."

HR ADMINISTRATION:

The HR Administration program supports all HRMD divisions. It includes the HR Director, HR Financial and Admin Manager, Administrative Associate, and Administrative Assistant I. The program supports the financial and administrative focus for organizational units complying with federal laws. Such laws include the Health Insurance Portability and Accountability Act (HIPAA), the Fair Labor Standards Act (FLSA), the Immigration Reform and Control Act (IRCA), the Uniformed Services Employment and Reemployment Rights Act (USERR), and the Equal Pay Act and many others.

Additionally, the HR Administration program focuses on core priorities aimed at ensuring fiscal responsibility, maintaining HR policy compliance and consistency, and supporting departmental efficiency. These core objectives exemplify the program's commitment to enhancing the efficiency and trustworthiness of the County's operations. The division partners with financial key stakeholders (various Commissioners Court offices, Planning and Budget Office, Purchasing, Auditor's Office, and Treasurer's Office) to assist with budgetary or financial needs. They also collaborate with all HR programs and departments around the County to complete annual project needs; including asset inventory and budget requests, to name a few.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Countywide staff turnover rate	18.21%	12.31%	12.00%	12.00%	12.00%

As the department's administrative program, it does not have performance measures tied directly to its output, as its work lies in assisting and supporting the Department's other programs. So, the Department chose to showcase a critical performance measure for the County per the Travis County Commissioners Court's strategic plan: staff turnover rate.

HR COMPENSATION:

The HR Compensation program, part of the Total Rewards division of HRMD, manages the County's classification and compensation system, conducts annual market salary surveys, performs job analysis, drafts job descriptions, determines FLSA status, and administers and provides recommendations for new positions and reclassification. Its responsibilities include processing new hires and terminations and administering all salary changes associated with employee mobility along the County's pay scales. In addition to completing an annual benchmark study (or market salary survey), HR Compensation also reviews and assesses the Peace Officer Pay Scale (POPS) compensation, and structure. In addition, the HR Compensation program houses Human Resources Information Systems (HRIS). HRIS provides reports to internal HR teams and other departments, processes Personnel Action Forms (PAF) and coordinates with payroll personnel, and delivers ethical support to the onboarding and applicant tracking system.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of personnel actions processed	3,845	3,483	3,905	3,665	3,665
Number of job titles benchmarked	127	720	20	85	100

The performance measures above are indicative of the program’s workload. The number of personnel actions processed includes transfers between departments, involuntary and voluntary terminations, new hires, promotions, career ladders, reclassifications, salary changes, and retirements. FY 2022 saw a substantial decline in the number of personnel actions, and the number is going to decline and later stabilize. Generally, benchmarked job titles represent a subset of all job titles within the County. The program does not have an outcome measure, and PBO will continue to work with the division to develop appropriate outcome measures for its programs and services.

TALENT, PLANNING & ENGAGEMENT:

The Talent, Planning & Engagement program administers recruitment, retention, onboarding, employee relations, investigations, and many other services meant to keep our workforce engaged, successful, and equitable. It consults and guides other Travis County offices and departments on applying county policy as well as state and federal legislation regarding employee relations and performance management for personnel. The program also conducts the grievance process, investigates complaints, provides HR guidance to all departments on a variety of related topics, and manages the Equal Employment Opportunity (EEOC) program.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
% of employees reporting to Commissioner Court who receive a formal review	48%	69%	95%	95%	95%
Average days to close an ER issue investigated by HR Services	22.5	35.21	20	20	20
# of TC Share-It reports received	67	52	45	45	45
# of HRMD Internal Investigations Received	11	20	12	12	12
% Increase in applicant through TP&E external job platforms	60%	40%	25%	25%	25%

The performance measures above primarily relate to leadership training and employee relations issues. PBO will continue to work with the division to refine its performance measures to reflect the program services and outcomes accurately.

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
FMLA and Paid Parental Leave Third-Party Administrator (TPA)	\$150,000	0.00	Implementation was completed on November 1, 2023, with all but five offices and departments transitioning to the third-party administrator. The original estimate for the number of employees was 4,700; the current employee count for TPA is 3,238. As of March 2024, it is uncertain whether additional departments will transition to TPA services. However, funds should be available for the possibility of the entire Travis County employee count.
<i>FY 2023</i>			
Third-Party Exit Survey	\$11,250	0.00	HRMD did not implement the Exit Survey in FY 2023 and does not anticipate implementation in FY 2024. Due to continued pandemic adjustments, other county projects, and the need to promote an exit survey program, HRMD did not feel that FY 2023 was the appropriate time to implement another countywide program and is evaluating whether a third-party exit survey program is the best use of county funds. HRMD understands the importance of gathering exit data from staff leaving the organization and will continue to evaluate the best and most efficient way to gather and distribute exit data.

RISK MANAGEMENT SELF INSURANCE FUND:

The Risk Management Self Insurance Fund program protects Travis County from losses due to incidents normally identified as insurable with cost-effective risk financing techniques. The program’s performance measures primarily include workers’ compensation claims. Medical claims only involve claims with medical treatment for an injury sustained on the job, while an indemnity claim involves lost wages. The program provides additional services such as safety training and reviews, public access to defibrillators, building inspections, defensive driver and CPR/AED training, occupational health inspections, and indoor air quality assessments.

The performance measures below reflect the workload associated with workers’ compensation claims, not those associated with other services such as inspections or training to help prevent workplace injuries. The number of workers’ compensation claims continues to rise primarily because of the increasing number of employees working for Travis County. However, costs remain relatively flat, and the program performs well against a benchmark survey conducted annually by the Midwest Employers Casualty Company

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Number of workers’ comp claims	669	637	640	705	730
Number of workers’ comp claims, indemnity	194	205	190	180	64
Number of workers’ comp claims, medical only	311	286	304	315	300

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Average cost of the claim	\$5,550	\$5,600	\$5,000	\$5,500	\$5,500

STATUS OF PRIOR YEAR FUNDING OF SELECT BUDGET REQUESTS

<i>Package Name</i>	<i>Approved Amount</i>	<i>FTE Approved /Filled</i>	<i>Program Results</i>
<i>FY 2024</i>			
Risk Analyst II Special Project Worker (SPW)	\$82,260	1.00	<p>HRMD requested resources for an Americans with Disabilities Act of 1990 (ADA) transition plan, approved by the Commissioners Court on April 5, 2022. The resources are intended for facility retrofits and funding a full-time Risk Analyst II position within the Risk Management Self Insurance Fund. This role will focus on training and educating Travis County offices on ADA compliance, covering policies, procedures, communications, and access.</p> <p>Challenges in contracting physical construction retrofits delayed the implementation. Additionally, tasks the County's Facilities Maintenance could manage were postponed due to staff shortages and competing work orders. Training for maintenance staff was also delayed pending approval of the WT Group contract, which, now approved, will be scheduled soon. However, unexpected delays in contract approvals have significantly slowed overall progress.</p>
Indoor Air Quality Remediation And Testing	\$100,000	0.00	<p>HRMD requested funds to contract out for indoor air quality testing and remediation to comply with Occupational Safety and Hazards Administration standards. The department noted longstanding issues with indoor air quality that had led to workers' compensation claims. Previously, HRMD outsourced this testing to third parties, but it can now be managed through in-house sampling.</p>

EMPLOYEE HEALTH BENEFIT:

The Employee Health Benefit program, the other part of Total Rewards, manages and maintains Travis County's self-funded employee and retiree health insurance coverage. In addition, it reviews all benefits plans and presents recommendations to Court, ensures compliance with federal and local regulatory and legislative requirements, and oversees management of FMLA administration and other leave programs such as the Catastrophic Sick Leave (CSL) Pool and Paid Parental Leave (PPL). The program also oversees a CARE (Checkups, A Healthy Outlook, Regular Physical Activity, Eating Right) program, which provides helpful tools to assist employees in maintaining a healthy outlook. The program reports the average cost of healthcare per active employee, per retired employee, and the overall healthcare cost as a percentage of the total budget.

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure</i>	<i>Projected FY 2026 Measure</i>
Cost of healthcare per active employee	\$11,840	\$13,000	\$14,000	\$14,000	\$14,000
Cost of healthcare per retired employee	\$8,685	\$8,444	\$9,000	\$11,000	\$11,000
Overall healthcare cost as a percentage of budgeted resources	75%	90%	90%	90%	90%

TRAVIS COUNTY EMPLOYEE HEALTH CLINIC:

The Employee Health Clinic program provides health plan participants with chronic disease management, preventive healthcare and screenings to help reduce overall health plan costs, hosts annual vaccination events, and promotes workplace productivity. The program reports it expects the percentage of health plan participants served – its primary performance measure – to either increase or fluctuate within a certain range based on staffing levels. Generally, the program sees an increase in cost avoidance and a greater return on investment because of increased visit numbers and reimbursement rates.

PROGRAMMATIC FUNDING

The FY 2025 Preliminary Budget for HRMD did not include any programmatic changes occurring after adopting the FY 2024 Adopted Budget.

The FY 2025 Preliminary Budget for HRMD includes the following increases:

<i>Programmatic Recommendations</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
Bilingual Testing Funding	\$10,000	\$-	\$10,000	-
Employee Assistance Program Increase	-	10,000	10,000	-
Online Recruiting Site	-	30,000	30,000	-
Total Programmatic Recommendations	\$10,000	\$40,000	\$50,000	-

ADMINISTRATIVE AND OTHER FUNDING CHANGES

The FY 2025 Preliminary Budget for HRMD includes the following changes related to Administrative and Other Funding Changes:

<i>Administrative and Other Funding Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>	<i>FTEs</i>
An increase in operating resources for property insurance premium increases brought about by multiple wind, hail, and winter events.	\$-	\$432,534	\$432,534	-
An increase in operating resources for the increased cost of aviation insurance premiums brought on by extending the service area, aircraft upgrades, and growing liabilities.	-	262,994	262,994	-
An increase in operating resources for the increased cost of Workers Comp insurance premiums.	-	47,433	47,433	-
An increase in operating resources for the increased cost of cybersecurity insurance premiums.	-	27,432	27,432	-
Total Administrative and Other Funding Changes	\$-	\$770,393	\$770,393	-

To appropriately balance the Employee Health and Risk Management Funds, it is recommended to transfer \$8,000,000 from the General Fund to the Risk Fund. This transfer will result in a reduction of resources in the Employee Health Fund. The situation will be reassessed in FY 2025, and no further transfers are anticipated at this time.

COMPENSATION AND BENEFITS FUNDING

The FY 2025 Preliminary Budget for HRMD includes the following changes related to compensation and benefits:

<i>Compensation Changes</i>	<i>One-Time</i>	<i>Ongoing</i>	<i>Total</i>
Resources for the estimated County contribution for retiree healthcare.		\$-	\$989,780
Resources for the 4 percent Across the Board increase for classified employees approved in FY 2024 by the Commissioners Court, including resources for adjustments to the new pay scale created as part of the countywide policy of a \$20.80/hour minimum wage and an increase for employees at the maximum of the existing pay scale (“redlined”) that would otherwise not receive the Across the Board pay increase.		-	65,767
Resources for health insurance cost increases for FY 2025.		-	8,494
Total Compensation Changes		\$-	\$1,064,041

FY 2024 compensation adjustments were distributed to Office and Department budgets after the FY 2024 Budget was approved. The list above includes the amounts added to Target Budgets for FY 2025 to reflect these changes. The Preliminary Budget Volume I document contains a full description of all compensation adjustments. The Commissioners Court was presented a proposed 4.1 percent healthcare rate increase for FY 2025 on April 30, 2024 which was approved on June 25, 2024. This increase is included in the above figures, with the contribution rate changing from \$1,079 per month in FY 2024 to \$1,123 per month for FY 2025.

EARMARKS

In addition to the funding above, the following Earmarks are included in the FY 2025 Preliminary Budget. These amounts are not included in the Department’s budget at this time and will require additional Commissioners Court consideration before approval. FY 2025 Preliminary Budget recommended Earmarks include:

<i>Recommended Allocated Reserve Earmarks</i>	<i>Total</i>
Deferred Compensation Consultant Fee Adjustment	\$10,000
Employee Engagement Survey Year 2	45,000
Total Allocated Reserve Earmarks	\$55,000

<i>Recommended CAR Reserve Earmarks</i>	<i>Total</i>
ADA Earmark Rollover	\$4,865,713
Total CAR Reserve Earmarks	\$4,865,713

ADDITIONAL INFORMATION

VACANT POSITIONS

The Department currently has two total vacancies, out of which the following position has been vacant for more than one year.

<i>Position Title</i>	<i>Position Number</i>	<i>FTE</i>	<i>Days Vacant (as of April 22, 2024)</i>	<i>Position Notes</i>
Health & Wellness Program Administrator	30005857	1.00	1,112	The Health & Wellness Program Administrator position has been on hold since the position became vacant. This position is needed for the Health & Wellness program and is being actively recruited in FY 2024.

The division advises that this position has been on a hiring freeze since it became vacant. While the division believes the position is needed for its Health and Wellness program, it has not been filled for more than three years. PBO will work with the Department to examine whether the position is needed should this long-term vacancy persist.

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 770,393	\$ 770,393	\$ 770,393	\$ 770,393

DEPT. SUMMARY OF REQUEST

WORKERS COMP INSURANCE INCREASE - \$47,433

HRMD requests resources for an increase in the cost of workers comp insurance for Travis County. It is a critical measure to shield against significant financial liabilities stemming from employee injuries or fatalities.

PROPERTY INSURANCE INCREASE - \$432,534

HRMD requests resources for an increase in the cost of property insurance for Travis County. Travis County maintains approximately \$1.5 billion in property, equipment, and contents, so maintaining coverage is a necessary cost to ensure the County can mitigate its risk as much as possible. The Risk division states that the increase for FY 2023 is due to global catastrophic wind and hail events. Insurance for FY 2021 increased by 23 percent, insurance costs for FY 2022 increased 8 percent, insurance costs for FY 2023 increased 48 percent and the department projects the insurance cost for FY 2024 will increase 25 percent.

AVIATION INSURANCE INCREASE - \$262,994

HRMD requests resources for an increase in the cost of aviation insurance for Travis County. Aviation insurance coverage is a requirement for the County’s STAR Flight operations to continue. The Risk division states that costs continue to increase due to extended service areas, aircraft upgrades, increased liability from operations, and several years of catastrophic incidents for aircraft requiring significant repairs. Insurance for FY 2021 increased by 19 percent, insurance costs for FY 2022 increased

by 9 percent, insurance costs for FY 2023 increased by 15 percent and the Division projects the insurance cost for FY 2024 increased by 31 percent. Additionally, market prices increase due to underwriters' lack of appetite for high risk, high liability operations.

CYBERSECURITY INSURANCE INCREASE - \$27,432

HRMD requests resources for an increase in the cost of maintaining cybersecurity insurance. Cybersecurity risks due to worldwide conflict and increased hacking/ransomware attacks have increased market prices substantially. Travis County can expect this cost to increase over time as the number of cybersecurity threats continues to increase.

PBO RECOMMENDATION

PBO recommends ongoing resources of \$47,433 for the increase to worker comp insurance, \$432,534 for the increase to property insurance costs, \$262,994 for the increase to aviation insurance costs, and \$27,432 for the increase to cybersecurity insurance costs. Travis County continues to see increases to insurance costs driven by external factors outside of the County's control, particularly increases in claims across the insurance market that affect all insurance providers. The resources must be budgeted in the General Fund because funding for the requests is transferred from the General Fund into the Risk Management Fund. There is an identical request and recommendation in the Risk Management Fund (8955) writeup as well.

REQUEST #10A: LAW ENFORCEMENT LIABILITY INSURANCE

<i>Program:</i>	Risk Management Self Insurance Fund (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	2,200,000	-	-	-
Subtotal	\$ 2,200,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 2,200,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 2,200,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requested on-going funding for law enforcement liability insurance. This request aims to offer enhanced financial protection and risk management for the County against legal claims and lawsuits.

Per the Risk division, Travis County and surrounding law enforcement entities have encountered an increase of lawsuits and cost associated with federal laws. Law enforcement liability insurance is a specialized form of insurance designed to protect law enforcement agencies, their officers, and municipalities from the financial risks associated with claims of wrongful acts committed in the performance of their law enforcement duties.

PBO RECOMMENDATION

PBO understands the importance of HRMD request for \$2,200,000 in ongoing funding for law enforcement liability insurance. however, the significant financial challenges forecast for FY 2025 restrict the possibility of adding the requested funding at this time. While PBO recognizes the potential benefits of these initiatives in reducing financial risk, based on the currently available revenue, PBO is unable to include this funding for the request as part of the FY 2025 Preliminary Budget. Typically, additional revenue is available for Budget Markup in early September compared to the Preliminary Budget in late July. Based on discussions with the Travis County Appraisal District (TCAD) and the Revenue Estimation Unit within the County Auditor’s Office, it is unlikely that there will be significant additional revenues beyond those projected in the FY 2025 Preliminary Budget.

REQUEST #1: DIRECTOR OF ORGANIZATIONAL CULTURE/ CONTRACTUAL CONSULTING

<i>Program:</i>	Talent, Planning & Engagement (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 516,633	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requested a Director of Organizational Culture FTE to lead the establishment of a new Organizational Development (OD) division within the department. This request comes from HR’s strategic focus to enhance the functions outlined for this position, which include fostering an organizational culture where employees feel supported, developing strategies for succession and career progression, driving change management and innovation, and promoting equity and performance management and organizational effectiveness. This request also aligns with the broader County goals to implement organizational strategies aiming to improve Travis County’s organizational culture and operational practices. The department emphasizes this role is critical for developing a workforce that is both engaged and well-supported.

The proposal indicates this new role will also supervise future staff members, which will be recommended in the subsequent budget cycle. This addition is deemed essential for sustaining the necessary capacity to roll out and maintain significant organizational development activities across the County. The department also highlights current staffing limitations within HRMD, which prevent the department from effectively implementing and sustaining vital human process and strategic focus initiatives. Without the proposed position, the department warns that it will struggle to implement projects like future phases of the Adaptive Workplace planned across the County, which could significantly impact employee welfare and community services.

The Department states this role will need the assistance of outside consultants with an ongoing fund of \$280,000 in the implementation of organizational strategies to equip Travis County with the right tools to improve organizational practices to foster an organizational culture where employees feel supported and understand their role, develop succession, and career progression strategies, drive change management and innovation, promote equity, performance management, and facilitate an engaged and supported TC Workforce.

The department requests increased funding to support this new role, asserting that it is imperative for HRMD to be adequately staffed and funded to meet the demands of the 2030 workforce and beyond.

<i>Existing Measures</i>						
Average days to close an ER issue investigated by HR Services	22.5	35.21	20	20	18	18

PBO RECOMMENDATION

PBO recognizes the potential benefits of this role in enhancing organizational efficiency and aligning with the broader goals of the department and county, but based on the currently available revenue, PBO is unable to include funding for this position as part of the FY 2025 Preliminary Budget. Considering current budget limitations, HRMD is advised to continue working with the Commissioners Court and Strategic Planning Committee to explore possibilities for incorporating ongoing funding for this position into the broader strategic workforce planning. HRMD may wish to bring this item to the Commissioners Court as part of a budget hearing to request the funding be made ongoing should additional resources become available later in the fiscal year.

PBO understands the strategic importance of HRMD’s request for a Director of Organizational Culture FTE to lead the new Organizational Development division. The department deems this position essential for addressing current staffing limitations and enabling HRMD to effectively implement significant organizational development activities for HRMD to support strategic initiatives across the County. On January 24, 2023, the Commissioners Court formed a Strategic Planning Committee made up of all five members of the Commissioners Court and discussed updates to the mission, vision, and goal statements, which were adopted at the March 28, 2023, voting session. The Strategic Planning Committee met throughout the year and reviewed the factor maps, strategies, and metrics related to the seven strategic goals. Fostering an organizational culture where each employee feels supported and understand their role was identified as a priority for the County. This aligns with the focus of the Director of Organizational Culture role which is the principal HR role designed to implement and sustain this goal as well as other HRMD focuses listed above.

PBO also understands the importance of HRMD request for \$280,000 in ongoing funding to engage external consultants for other strategic initiatives. However, the significant financial challenges forecast for FY 2025 restrict the possibility of adding the requested funding on an ongoing basis at this time. While PBO recognizes the potential benefits of these initiatives in enhancing organizational practices and supporting employee development, based on the currently available revenue, PBO is unable to include this funding for the request as part of the FY 2025 Preliminary Budget. Typically, additional revenue is available for Budget Markup in early September compared to the Preliminary Budget in late July. Based on discussions with the Travis County Appraisal District (TCAD) and the Revenue Estimation Unit within the County Auditor’s Office, it is unlikely that there will be significant additional revenues beyond those projected in the FY 2025 Preliminary Budget.

REQUEST #1A: RISK SAFETY SPW TO FTE

<i>Program:</i>	Risk Management Self Insurance Fund (111)			
<i>Fund/Fund#:</i>	Risk Management Self-Insurance Fund (8955)	<i>Mandated Program:</i>	No	
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 107,674	\$ 107,674	\$ 107,674	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requested to convert a special project worker into an FTE position to enhance ongoing American Disability Act (ADA) compliance efforts, as outlined by an external consultant in a comprehensive report. The Department advises that this conversion is essential for successful implementation of the outlined multi-year, multimillion-dollar project, ensuring sustained commitment to accessibility and safety standards across the County.

The Department adds that making this position permanent within our risk management framework is crucial to meet state and federal accessibility and safety standards, thereby reducing potential liabilities and reinforcing our commitment to inclusivity. By integrating this role permanently, Department aim to ensure ongoing attention to ADA compliance, which is vital as standards and requirements evolve.

PBO RECOMMENDATION

PBO recommends \$107,674 of one-time funding to extend this SPW for two additional years, with an end date of September 30, 2026. PBO recognizes the importance of HRMD's request for ongoing funding to convert a SPW to FTE to enhance the County's ADA compliance. This role is seen as crucial to meet state and federal accessibility and safety standards, thereby reducing potential liabilities and reinforcing our commitment to inclusivity. However, given the significant financial constraints faced by the County for FY 2025 and other large-scale investments currently under consideration by the Commissioners Court, it is challenging to allocate funds for this additional position.

PBO suggests this request be discussed further as part of a budget hearing with the Commissioners Court later in the budget process. It is also important to note that there is an outstanding unfunded request of \$686,802 in on going funding for removal of the spit funding of positions in the Risk Fund (8955) and the Health Fund (8956). This is due to reorganization of the Risk fund to the ITS – InfoSec Division, and at the same time cleanup of all positions that have been split funded. This large request will need to be discussed and addressed prior to adding new General Fund resources for new HRMD staff.

It is important to note budget hearings may be limited due to the overall fiscal constraints, and there may not be significant available resources to fund new positions this fiscal year. Given these factors, PBO will work with the Commissioners Court to receive direction on budget hearings, and this direction will be communicated as soon as it is available. For now, HRMD

should be prepared to manage within the current staffing levels and consider resubmitting the request for the additional FTE as part of the FY 2026 budget process.

REQUEST #2: CONTRACTUAL CONSULTING – DELOITTE PHASE III

<i>Program:</i>	HR Administration (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	773,471	-	-	-
Subtotal	\$ 773,471	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 773,471	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 773,471	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The Human Resources Management Department (HRMD) requested \$773,471 as a onetime Earmark in LFRF for the implementation of Phase III of the Deloitte project. The Department states collaborating with Deloitte will assist HRMD in the implementation of Phase III of the Adaptive Workplace recommendations set forth in Phase I and Phase II, to equip Travis County with the right tools to implement and put in motion those recommendations and help improve the organizational culture where employees feel supported and understand their role and facilitate an engaged and supported TC workforce.

The Department informs Phase III of the Deloitte project will take into consideration current and future state, to build tailored, informed, county-wide recommendations based on the County’s identified priorities and that center on work flexibility and County’s Strategic Objectives.

The objectives are:

- Design Behavior Change Approaches for Near-Term Culture Change;
- Implement Behavior Change Approaches & Training for Long Term Culture Change;
- Develop Space Standardization & County-Wide Policies for Hybrid Work;
- Create Tools to Reframe Space Management and Hybrid Work Based on Policy, Process, & Business Rational; and
- Measure Progress & Support Transformation

PBO RECOMMENDATION

On April 30, 2024, the Commissioners Court approved earmarking \$773,471 of LFRF funds for Phase III of the Adaptive Workplace Project, in collaboration with Deloitte. At that time, HRMD requested \$1,789,874 for Phase III of the project, and PBO recommended earmarking \$773,471 of the cost from LFRF funds. However, regarding the remaining cost of the project, PBO believes more discussion and direction from Commissioners Court is needed. PBO recommends HRMD engage in discussions with relevant departments to better show the scope, cost and timing of the project. PBO also suggests that this request be discussed further as part of a budget hearing with the Commissioners Court later in the budget process.

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 30,000	\$ 30,000	\$ 30,000	\$ 30,000

DEPT. SUMMARY OF REQUEST

The department has requested \$30,000 in ongoing funding for subscriptions to online recruiting platforms such as LinkedIn and Indeed to enhance Travis County HRMD Recruiting's ability to distribute job postings widely and conduct proactive searches for potential candidates. This funding is essential to maintaining competitive recruitment practices and ensuring broad exposure for county job opportunities.

The Department states the funding will cover a year's subscription to two key online recruiting platforms. These platforms are pivotal for reaching a broader audience and enabling Travis County recruiters to engage proactively with job seekers who may not be aware of county opportunities. These resources allow for specialized recruitment campaigns for hard-to-fill positions, saving individual departments from the need to fund separate accounts. The department highlights that without this funding, Travis County's recruiting capabilities would lag those of private industry and other government agencies, as it is crucial to get job postings in front of as many potential applicants as possible to compete effectively.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
% Increase in applicant through TP&E external job platforms	60%	40%	25%	25%	45%	45%

PBO RECOMMENDATION

PBO recommends \$30,000 in ongoing funding for subscriptions to online recruiting platforms like LinkedIn and Indeed. This funding is essential for enhancing Travis County HRMD Recruiting's ability to distribute job postings widely and conduct

proactive searches for potential candidates. Travis County can reach a broader audience and engage with job seekers proactively by maintaining subscriptions to these key platforms, especially for hard-to-fill positions.

REQUEST #4: BILINGUAL TESTING FUNDING

<i>Program:</i>	HR Compensation (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	10,000	10,000	-	-
Subtotal	\$ 10,000	\$ 10,000	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 10,000	\$ 10,000	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,000	\$ 10,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requests \$10,000 in ongoing funding to fund the bilingual testing for approximately 90 employees, each at an expected cost of \$77 per test. This follows the Commissioners Court's decision to include bilingual testing as a funded county expense, a change from previous years when Peace Officer Pay Scale (POPS) employees paid for their own testing. Per the department, this new funding requirement was not included in the original FY 2024 HRMD budget, necessitating this request for the next fiscal year. The request is based on both the current cost and a conservative estimate of potential price increases or additional test takers. The Department also requests any remaining funds from FY 2025 roll over to FY 2026 to continue supporting this need.

The Department states the funding request directly supports the County's mission to be a trusted and well-run organization by ensuring that employees who serve a diverse community are proficient in more than one language. The provision of bilingual testing aligns with the County's strategic goals of improving service delivery and enhancing workforce capabilities to meet the needs of its bilingual or non-English-speaking constituents. Centralizing the payment process through HRMD enhances administrative efficiency and supports the County's objective to maintain a robust compensation program that can attract, retain, and adequately reward its employees.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>New Measures</i>						
% of bilingual tests paid from the budgeted item	N/A	N/A	N/A	100%	100%	100%

PBO RECOMMENDATION

In August 2023, the Commissioners Court initially approved a monthly bilingual pay of \$125 for approximately 500 qualified employees. Following this, HRMD drafted a bilingual pay policy and presented it to the Commissioners Court. HRDMD later revised the eligibility criteria for Classified Bilingual Pay and sought approval to begin using the \$945,000 funding earmarked by the Court for the Bilingual Pay program.

As per HRMD, the Department is responsible for managing the payments to the testing vendor, Berlitz, and incurs monthly billing. On April 30, 2024, Commissioners Court authorized the transfer of \$45,000 from the reserved \$945,000 to cover the cost of language proficiency testing for classified and POPS employees through the end of FY 2024. The Department reports 114 tests were conducted from the start of the program through the end of May 2024.

For FY 2025, PBO recommends \$10,000 on a one-time basis. PBO commits to working with HRMD in the future to determine the appropriate amount for an FY 2026 budget request, as well as a future analysis of the utilization of the bilingual pay testing and implementation.

REQUEST #5: DEFERRED COMPENSATION CONSULTANT FEE ADJUSTMENT

<i>Program:</i>	HR Compensation (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	20,000	-	-	-
Subtotal	\$ 20,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 20,000	\$ -	\$ -	\$ -
Earmark Allocated	-	10,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 10,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 20,000	\$ 10,000	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD is requesting \$20,000 in ongoing funding for an increase in funding to prepare for anticipated fee adjustments following renewing the deferred compensation consultant contract. The Deferred Compensation Oversight Committee is currently engaged in a Request For Services (RFS) to renew the contract with the consultant who provides expertise in deferred compensation and financial industry knowledge. Per the department, the consultant plays a crucial role in assisting the Commissioners Court with their fiduciary responsibilities associated with managing the County's deferred compensation plans. The current consultant's fees have not increased significantly for many years, and an increase is anticipated with the new contract secured through the RFS process. The Committee requests additional funding to accommodate this expected fee increase, ensuring the continued availability of expert advice.

The Department advises this request supports the County's mission to manage its financial resources responsibly and ensure compliance with fiduciary duties. It directly aligns with the County's goals of transparency, accountability and effective management of public funds. Adequate funding for expert consulting services is essential to uphold standards and effectively oversee the deferred compensation plans benefiting County employees.

PBO RECOMMENDATION

PBO recommends an earmark of \$10,000 against the Allocated Reserve in the FY 2025 Preliminary Budget for the Deferred Compensation Consultant Fee Adjustment. This earmark will fund an anticipated fee increase following the deferred compensation consultant's contract renewal. Per the Department, this consultant plays a crucial role in assisting the Commissioners Court with fiduciary responsibilities associated with managing the County's deferred compensation plans. Given that the consultant's fees are expected to rise with the new contract—secured through a Request For Services (RFS) process—this funding will ensure the County receives expert advice, aligning with its transparency, accountability, and effective financial management goals. This is essential for maintaining high standards of governance and supporting the deferred compensation plans benefiting County employees.

REQUEST #6: EMPLOYEE ASSISTANCE PROGRAM FUNDING INCREASE

<i>Program:</i>	Risk Management Self Insurance Fund (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Capital	-	-	-	-
Dpt Total	\$ 10,000	\$ 10,000	\$ 10,000	\$ 10,000
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 10,000	\$ 10,000	\$ 10,000	\$ 10,000

DEPT. SUMMARY OF REQUEST

HRMD requests \$10,000 in ongoing funding for increased costs for the Deer Oaks for the Employee Assistance Program (EAP) contract renewal, emphasizing its critical role in supporting the mental health, training, and counseling needs of all County staff and their households, thereby enhancing overall workforce well-being and organizational effectiveness. Per the Department, this program is essential for supporting staff and departments in managing mental health and work-life balance and as a strategic tool in management coaching, training, and corrective actions. Additionally, the EAP serves as a significant recruiting asset, with non-work-related perks increasingly influencing applicant decisions.

The department advises this funding request aligns with the County’s goals to provide a supportive and professional work environment that promotes employee well-being. By maintaining and enhancing the EAP, the County reaffirms its commitment as a responsible employer and supports the strategic objectives of improving employee satisfaction and retention. This initiative directly contributes to creating a stable and effective workforce, pivotal for the County's long-term success.

The department emphasizes the need to cover the anticipated annual increase in the contract rate ensuring the ongoing provision of EAP services. The continued availability of these services is essential for maintaining the health and efficiency of the County’s workforce. By renewing this contract, the department aims to sustain the high levels of support and resources available to all County employees and their families, fostering a healthy, productive and professionally rewarding work environment.

PBO RECOMMENDATION

PBO recommends \$10,000 in ongoing funding to cover the increased cost of the contract renewal with Deer Oaks for the Employee Assistance Program (EAP). This program is pivotal in supporting the mental health, training, and counseling needs of all County staff and their households, thereby enhancing workforce well-being and organizational effectiveness.

REQUEST #7: LEARNING & DEVELOPMENT PROGRAMMING

<i>Program:</i>	Talent, Planning & Engagement (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>

Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 80,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requests \$80,000 in ongoing funding for Learning and Development Programming. In response to evolving workplace challenges such as talent retention, remote work dynamics, shifting legal environments, and AI-driven job redesigns, the Department seeks to enhance its Learning & Development capabilities to equip employees with the necessary skills and knowledge for current and future roles.

The Department identified a significant need for increased funding to expand the HRMD Learning & Development section, which is currently supported by only one FTE. This expansion is crucial to develop and implement a comprehensive curriculum that addresses the diverse needs of individual contributors, emerging leaders, directors and executives across the County. Per the Department, the proposed curriculums include leadership development, behavioral assessments (DiSC), certifications for crucial conversations, performance management resources, organizational culture training and project management courses. Additional resources required to continue and grow existing programs such as Level Up, which includes materials for leadership activities like building a catapult, and other training initiatives like Carpe Audience and the 5 Dysfunctions of a Team.

The department expects the enhanced Learning & Development program will achieve several critical outcomes, including:

- Greater alignment with Travis County’s mission and values;
- Enhanced preparation of employees for new and evolving workplace initiatives;
- Improved employee morale and leadership communication;
- Reduction in disciplinary actions and turnover rates;
- Increased number of employees completing the developmental curriculums; and
- A decrease in the number of formal complaints and internal investigations.

These outcomes will contribute to a more efficient, effective, and responsive workforce, capable of navigating the complexities of the modern workplace and delivering exceptional service to the community.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of TC Share It Reports Received	67	52	45	45	45	43
# of HRMD Internal Investigations Received	11	20	12	12	12	11
<i>New Measures</i>						
# of EEs participating in Employee Development Training Level Up, all curriculums	118	152	175	200	225	250

PBO RECOMMENDATION

PBO understands the importance of HRMD request for \$80,000 in ongoing funding for Learning and Development Programming and acknowledges the strategic need to enhance training capabilities in response to evolving workplace challenges. However, due to the current financial constraints and significant projected investments in other critical areas, PBO suggests this request be discussed as part of a budget hearing with the Commissioners Court later in the budget process.

It is important to note budget hearings are likely to be limited, as in past years, and there may not be significant available resources to fund such requests this fiscal year. Given these circumstances, PBO will work with the Commissioners Court to receive direction on budget hearings, and this information will be shared as soon as it is available. For most unfunded requests, including this one, HRMD should be prepared to wait on implementation and consider resubmitting the request as part of the FY 2026 budget process.

REQUEST #8A: ADA EARMARK ROLLOVER

<i>Program:</i>	Risk Management Self Insurance Fund (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	4,865,713	-	-	-
Subtotal	\$ 4,865,713	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 4,865,713	\$ -	\$ -	\$ -
Earmark Allocated	-	4,865,713	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 4,865,713	\$ -	\$ -
Dpt Total + Earmarks	\$ 4,865,713	\$ 4,865,713	\$ -	\$ -

PBO recommends an earmark of \$4,865,713 against the Capital Acquisition Resource (CAR) Reserve for HRMD, FMD, PBO, and other collaborating departments to coordinate a phased approach to the Americans with Disabilities Act of 1990 transition plan and return with a long-term plan for ADA retrofit, to help all areas and departments within Travis County be compliant with State and Federal laws regarding the Americans with Disabilities Act.

DEPT. SUMMARY OF REQUEST

HRMD is requesting to continue an existing earmark of \$4,865,713 against the Capital Acquisition Resource (CAR) Reserve approved as part of the FY 2023 Adopted Budget. The original earmark of \$5,000,000 was for the Risk division to collaborate with other stakeholders to coordinate a phased approach to the ADA transition plan and develop a long-term plan for retrofits that will keep Travis County compliant with regulations. Out of the initial \$5,000,000, the department had a mid-year request of \$134,287 for ADA remediation efforts for FY 2024.

PBO RECOMMENDATION

PBO recommends continuing the one-time earmark against the Capital Acquisition Resource (CAR) reserve in the amount of \$4,865,713. The Risk division continues to work with relevant stakeholders to determine a transition plan for Travis County buildings to comply with the ADA. Once the transition plan is set, resources will be needed to accomplish any retrofits and facilities changes needed. The total projected cost of retrofitting facilities to comply with the ADA is \$16,000,000.

REQUEST #8: EMPLOYEE RELATIONS PARTNER SENIOR

<i>Program:</i>	Talent, Planning & Engagement (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	1.00	-	-	-
Personnel	126,492	-	-	-
Operating	6,995	-	-	-
Subtotal	\$ 133,487	\$ -	\$ -	\$ -
Capital	2,600	-	-	-
Dpt Total	\$ 136,087	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 136,087	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requests on going funding for an additional FTE, a Senior Employee Relations Partner, to enhance the County's employee relations program. This role will focus on management and employee consultations, internal investigations, environmental reviews, Title VI investigations, performance management and boosting employee engagement.

Per the Department, following the 2021 reorganization of HRMD, which merged two former divisions into the Talent Planning & Engagement (TP&E) division, the workload has significantly increased, particularly in handling employee relations matters. Despite the consolidation, the staff of eight FTEs is insufficient to manage the increasing volume of complex cases, including high-risk workplace investigations and Title VI complaints. The request for an additional Senior Employee Relations Partner is based on the need to effectively manage and respond to these cases without overburdening the existing staff, including the TP&E Manager and Assistant Director, who have been drawn into these roles due to staff limitations. This request aligns with Travis County's goals of maintaining a professional, equitable, and responsive workforce and addresses the growing complexities of employee relations within a larger, more diverse county workforce.

The Department advises this funding request is critical to sustaining the strategic partnership with organizational stakeholders and supporting Travis County's mission to foster a culture of continuous improvement and compliance with legal standards. By strengthening the employee relations function within HRMD, Travis County aims to enhance workplace environments, ensure fair and thorough investigations, and maintain high standards of performance and ethics in alignment with both internal policies and external legal requirements.

The request mentions an addition of a Senior Employee Relations Partner is intended to achieve several key outcomes of:

- More timely and effective handling of internal investigations and environmental reviews, reducing the average days to close cases;
- Improved management of employee relations issues, leading to enhanced employee morale and reduced workplace conflicts;
- Increased capacity to engage in preventive measures rather than reactive responses to employee relations issues;
- Support for strategic employee engagement initiatives that contribute to talent retention and organizational success; and

- Maintenance of professional standards and compliance with federal, state, and county regulations by providing necessary career development and training opportunities for Employee Relations Partners.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
Average days to close an ER issue investigated by HR Services	22.5	35.21	20	20	18	18
<i>New Measures</i>						
% of retention of employees for 12 months	14.20%	22.80%	21.90%	20%	20%	18%

PBO RECOMMENDATION

PBO recognizes the importance of HRMD's request for ongoing funding for an additional FTE, a Senior Employee Relations Partner, to enhance the County's employee relations program. This role is seen as crucial in addressing the increased workload following the 2021 reorganization of HRMD, which merged two former divisions into the Talent Planning & Engagement (TP&E) division. The request underscores the need for effective management of complex cases, including high-risk workplace investigations and Title VI complaints, which are essential to maintaining a professional and equitable workforce.

However, given the significant financial constraints faced by the County for FY 2025 and other large-scale investments currently under consideration by the Commissioners Court, it is challenging to allocate funds for this additional position. PBO suggests this request be discussed further as part of a budget hearing with the Commissioners Court later in the budget process.

It is also important to note that there is an outstanding unfunded request of \$686,802 in on going funding for removal of the spit funding of positions in the Risk Fund (8955) and the Health Fund (8956). This is due to reorganization of the Risk fund to the ITS – InfoSec Division, and at the same time cleanup of all positions that have been split funded. This large request will need to be discussed and addressed prior to adding new General Fund resources for new HRMD staff.

It is important to note budget hearings may be limited due to the overall fiscal constraints, and there may not be significant available resources to fund new positions this fiscal year. Given these factors, PBO will work with the Commissioners Court to receive direction on budget hearings, and this direction will be communicated as soon as it is available. For now, HRMD should be prepared to manage within the current staffing levels and consider resubmitting the request for the additional Senior Employee Relations Partner as part of the FY 2026 budget process.

REQUEST #9: TRAVEL, TRAINING, AND CERTIFICATION INCREASE

<i>Program:</i>	HR Administration (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	50,000	-	-	-
Subtotal	\$ 50,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 50,000	\$ -	\$ -	\$ -
Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 50,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requests \$50,000 in ongoing funding to enhance internal training capabilities, aligning with Travis County's strategic goal of being a trusted and well-run county. This initiative will equip HRMD staff with the tools to train other County employees effectively on county-wide human resource issues, fostering a supportive organizational culture.

The department states the request is for additional travel, training, and certifications funding to enable HRMD staff to deliver training across the county. This includes specialized training in areas such as customer service, change management, and organizational development. The funding will also support the creation of internal training materials, addressing the evolving needs highlighted in industry studies and ensuring HRMD can effectively meet county-wide strategic objectives.

Per the department, the funding aligns with Travis County's mission by investing in HR capabilities to support and train County employees internally, reducing dependency on external resources and ensuring consistent, high-quality training enhancing organizational culture and operational efficiency.

The request explains expected outcomes that include:

- Enhanced internal training capabilities within HRMD;
- Improved support and development for county employees;
- Cost savings through reduced external training expenses; and
- Strengthened organizational culture and alignment with strategic county goals.

The department advises these trainings would not be a one-time cost and would be continual, as there would also be turnover of HR staff, in which HRMD would need to ensure the appropriate training is provided to the next incumbent. In addition, these trainings would change over time as new and better ideas come to light, as well as the direction of the Commissioners Court.

PBO RECOMMENDATION

As conditions suppressed travel and training budget usage during the COVID-19 pandemic continue to wane and more conferences and trainings reinstate and expanded in-person events, it is likely time for PBO to revisit the issue of enhancing

internal training capabilities within HRMD. However, this effort will require a closer look at training budget usage and needs across all applicable County departments.

The HRMD's request for \$50,000 in ongoing funding aims to align with Travis County's strategic goals by enhancing internal training capabilities (details in the table below). While the intention behind the request is well-aligned with the County's objectives, given the current budget constraints and the focus on critical areas, it is advisable to wait until a comprehensive analysis of training needs across the county is completed.

<i>Event/Program</i>	<i>Focus/Area</i>	<i>Cost (USD)</i>
ASTD Conference – Learning and Development	Learning and Development	\$4,450
Organizational Development Conference	Organizational Development	\$3,325
Arbinger Institute Certification	Assist with mindset of the workforce and help with long-term development	\$4,500
PROSCI Certification	Change Management	\$7,200
Gartner Reimagine HR Conference	HR insights, strategies, and technology optimization	\$17,700 (for 3 individuals each 5,900)
Disney Institute Customer Service	Onsite Course to exceed customer expectations	\$20,100 (for 3 individuals each 6,700)
Total		\$57,275

PBO will collaborate with HRMD to assess whether any of the training can be funded on a one-time basis and to determine if HRMD can internally fund these initiatives. This analysis will help optimize the use of resources and ensure that ongoing funding requests are justifiably allocated.

REQUEST #10: EMPLOYEE ENGAGEMENT SURVEY YEAR 2

<i>Program:</i>	Talent, Planning & Engagement (111)			
<i>Fund/Fund#:</i>	General Fund (0001)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	45,000	-	-	-
Subtotal	\$ 45,000	\$ -	\$ -	\$ -
Capital	-	-	-	-
Dpt Total	\$ 45,000	\$ -	\$ -	\$ -
Earmark Allocated	-	45,000	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ 45,000	\$ -	\$ -
Dpt Total + Earmarks	\$ 45,000	\$ 45,000	\$ -	\$ -

PBO recommends an Earmark of \$45,000 on the Allocated Reserve for Employee Engagement Survey Year 2.

DEPT. SUMMARY OF REQUEST

HRMD requests ongoing resources to run an engagement survey to assess what factors in the work environment are important to employees, identify opportunities for development among leadership positions and identify reasons employees may consider leaving the organization. The Department notes it last completed such a survey in 2019 but was unable to perform a follow-up survey since then due to the COVID-19 public health emergency.

BUDGET REQUEST PERFORMANCE MEASURES

<i>Measure</i>	<i>Actual FY 2022 Measure</i>	<i>Actual FY 2023 Measure</i>	<i>Projected FY 2024 Measure</i>	<i>Projected FY 2025 Measure at Base Level</i>	<i>Projected FY 2025 Measure with Added Funding</i>	<i>Projected FY 2026 Measure with Added Funding</i>
<i>Existing Measures</i>						
# of TC Share It Reports Received	67	52	45	45	45	43
Countywide staff turnover rate	18.21%	12.31%	12.00%	12.00%	10.00%	8.00%

PBO RECOMMENDATION

PBO recommends an earmark of \$45,000 on the Allocated Reserve for Employee Engagement Survey Year 2. Per the Department, running this engagement survey to assess what factors in the work environment are important to employees, identify opportunities for development among leadership positions and identify reasons employees may consider leaving the organization.

Additionally, PBO will seek the feasibility of handling this in a cyclical manner to find out if there is a one-time solution for the survey implementation. The Department conducted the first survey in FY 2019 with the initial plan of conducting it every two

years. However, given this cycle has not yet been adopted due to the dynamics of COVID and post COVID environment and funding for the survey has not been requested at this timeframe, PBO will work with HRMD to find a feasible cyclical manner for conducting this survey.

REQUEST #11: NEW ELECTRONIC HEALTH RECORD SYSTEM (EHR) EARMARK

<i>Program:</i>	Travis County Employee Health Clinic (111)			
<i>Fund/Fund#:</i>	Employee Health Benefit Fund (8956)		<i>Mandated Program:</i>	No
	<i>FY 2025 Request</i>	<i>FY 2025 Recommendation</i>	<i>FY 2026 Cost</i>	<i>FY 2027 Cost</i>
FTEs	-	-	-	-
Personnel	-	-	-	-
Operating	70,000	-	-	-
Subtotal	\$ 70,000	\$ -	\$ -	\$ -
Capital	-	-	-	-

Earmark Allocated	-	-	-	-
Earmark CAR	-	-	-	-
Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 70,000	\$ -	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

HRMD requests \$70,000 in ongoing funding to replace the outdated Electronic Health Record System (EHR), enhancing clinic efficiency and improve patient care while ensuring compliance with healthcare regulations.

The Department reports the EHR, e-MDs, is severely outdated, lacks essential functionality, and requires extensive maintenance, adversely impacting clinic operations and patient care. The system's outdated nature and inadequate vendor support significantly impaired the department's ability to provide high-quality patient care. The department asserts upgrading to a modern EHR is critical to meet current and future healthcare delivery demands. The department aims to acquire a modern EHR that will streamline operations, enhance patient data management and ensure compliance with regulatory requirements. Initially, \$45,000 was secured for this project, but the department now recognizes \$70,000 is necessary to fully meet the project's needs due to enhanced feature requirements and updated market pricing.

The Department plans to measure the new EHR's success by its compliance with HIPAA standards and its effectiveness in improving patient privacy, data portability, and access. Additionally, the system's impact on reporting, tracking and scheduling will be closely monitored to ensure it meets healthcare operation standards. The department emphasizes the new EHR will significantly improve clinic operations by reducing the need for extensive IT support and minimizing disruptions in patient care, enhancing overall service delivery.

The Department coordinated with ITS and Purchasing to solicit bids for the new EHR, with a flexible target for implementation within the next 18 months, aiming for completion by October 2025. This strategic upgrade is anticipated to involve an initial capital outlay followed by substantial operational savings and performance enhancements.

PBO RECOMMENDATION

Overall, PBO believes the request for \$70,000 in ongoing funding to replace the outdated Electronic Health Record System (EHR) merits consideration for funding due to its critical role in enhancing clinic efficiency and ensuring compliance with healthcare regulations. However, since other departments submitted similar budget requests for EHR systems, PBO recommends HRMD engage in an intradepartmental discussion to better understand the scope and cost of this project if

merged and unified with other departments. PBO understands the current 18 months of implementation time allows a more in-depth analysis.

As of July 2024, the Department updates there has been a project team established within Tech Ops to assist with this request, in addition with the Sheriff's Office contracted project manager. The Department states project is in its early stages and information is being collected, to help combine the efforts of HRMD and the Sheriff's Office as well as any other office needing an EHR system. The team is moving forward collaboratively and know that the process will take a while.

REQUEST #12: REPLACEMENT ELECTROCARDIOGRAM (EKG) MACHINES

<i>Program:</i>	Travis County Employee Health Clinic (111)			
<i>Fund/Fund#:</i>	Employee Health Benefit Fund (8956)		<i>Mandated Program:</i>	No

Total Earmarks	\$ -	\$ -	\$ -	\$ -
Dpt Total + Earmarks	\$ 18,320	\$ 18,320	\$ -	\$ -

DEPT. SUMMARY OF REQUEST

The department requests \$18,320 one-time funding to replace three Electrocardiogram (EKG) machines becoming obsolete due to the manufacturer’s discontinuation and compatibility issues with the upcoming Windows 11 IT deployment.

The department reports the three EKG machines currently in use, installed in 2008, will soon be unsupported by the manufacturer. Additionally, these machines will not function with the County's planned upgrade to Windows 11. Replacing these machines is critical to continuing to provide high-quality healthcare services, as EKGs are essential for patient diagnosis and management.

The current budget does not accommodate the simultaneous replacement of these machines, necessitating additional funding to ensure uninterrupted patient care services. The department will evaluate the new EKG machines based on their operational reliability and integration with other IT systems, ensuring they enhance patient care delivery. The performance of these machines is crucial for maintaining effective patient diagnosis and treatment.

The department emphasizes without the appropriate equipment to perform comprehensive evaluations, there could be significant delays in patient diagnosis and treatment, potentially decreasing patient satisfaction and reducing utilization of the Clinic’s services. The department plans to procure and install the new EKG machines within the current fiscal year or before the deployment of Windows 11. This is to prevent any gap in diagnostic capabilities.

PBO RECOMMENDATION

PBO recommends \$18,320 in one-time funding to replace three outdated Electrocardiogram (EKG) machines. The current machines, installed in 2008, are being phased out and will not be compatible with the upcoming Windows 11 IT upgrade. This replacement is critical to avoid disruptions in patient care and diagnostics, as EKGs are essential for patient management. Immediate funding will ensure that the new machines are operational before the IT upgrade, maintaining uninterrupted healthcare services.

REQUEST #13: SPLIT FUNDING CLEANUP

DEPT. SUMMARY OF REQUEST

HRMD requesting \$686,802 in on going funding for removal of the spit funding of positions in the Risk Fund (8955) and the Health Fund (8956). This is due to reorganization of the Risk fund to the ITS – InfoSec Division, and at the same time cleanup of all positions that have been split funded. The below chart lays out each fund and calculates the total request.

Remove Split funding from Fund 8955						
#	Position#	Cost Center	Salary	Longevity	Benefits	Total
