

THE THREE PILLARS OF SUSTAINABILITY

These pillars represent the interconnected aspects that need to be balanced to achieve sustainable development and ensure a healthy and prosperous future for both people and the planet.

ENVIRONMENTAL

The environmental pillar of sustainability focuses on protecting and preserving the Earth's natural resources and ecosystems for current and future generations.

SOCIAL

The social pillar of sustainability emphasizes promoting fairness, equity, and well-being within communities by addressing issues such as social justice, diversity, and access to basic needs.

ECONOMIC

The economic pillar of sustainability involves making choices that support long-term prosperity by balancing the needs of the economy with the well-being of individuals and communities.

Environmental sustainability involves making responsible choices that ensure the long-term health of our planet.

MEET YOUR SUSTAINABILITY TEAM

An introduction to Conserve Travis County

OUR MISSION

Under the guidelines of county policy, we work with all departments to promote the three pillars of sustainability: environmental, social, and economic. We help the county as a whole to implement green initiatives, move towards sustainable business practices, and support a circular economy.

COUNTY POLICY GUIDES OUR TEAM...

Our team exists not only because we care about protecting the environment, but also because there are regulations, policies, and plans all County employees must follow. These documents help the County reach its sustainability goals and provides the framework for our team. Here are a few to get you started:

*Climate Action Plan
Green Building Policy
Recycling Participation Order
Environmentally Preferred Purchasing (EPP)*

SERVICES

This section will introduce you to the services we provide. We are your sustainability team and are here to help with your sustainable practices.

- *Waste Disposal Assistance*
- *Sustainable Education/Trainings*
- *Event Planning*
- *Contract Management*
- *Illegal Dumping Assistance*
- *On site assessments*
- *Reporting*
