

OFFICE WATER CONSERVATION

1. Check for leaks regularly and report immediately.

3. Be mindful of the water used to make goods we use: from clothing to food. Ex. Producing one pound of beef requires more than 1,800 gallons of water

2. Turn off the faucet when not in use:

washing hands, brushing teeth, or scrubbing dishes. turn the water off while lathering, brushing, scrubbing or otherwise

4. Showering at work?

Try a navy shower:

soak, turn off water, Lather and scrub, and turn on water to rinse.
